

MAXIMIZE THE POTENTIAL OF YOUR TRANSFORMATION PROGRAM

Drive long term value creation with Infosys Value Management

Infosys Value Management is based on a future-proof AI-powered platform and our proprietary OPQ framework, which help organizations drive long-term value creation from all types of transformation for sustainable growth

Tech-enabled transformation

Enterprise-wide performance transformation

Strategic transformation

Our Performance Benchmarking Framework: Organization Performance Quotient (OPQ)

Organization Performance Quotient (OPQ), our proprietary performance benchmarking framework, provides your transformation office with a single source of truth. With an interactive dashboard, it measures

five key business aspects (business, customer, operations, brand, and synergy) and pinpoints bottlenecks to becoming an industry leader.

Our AI-Powered Knowledge Repository: Initiative Intelligence

Initiative Intelligence uses AI to identify key initiatives within the organization that will deliver value quickly and effectively.

How does Infosys Value Management work?

Identify value

- Utilize the OPQ framework for benchmarking
- Identify initiatives by leveraging our Initiative Intelligence knowledge repository
- Prepare business case for recommended initiatives

Design value

- Implement recommended initiatives
- Track and manage initiatives
- Track business goals/OKR
- Recommend course corrective initiatives to achieve business goals

Realize value

- Track operational benefits in real-time
- Track financial impact
- Recommend course corrective initiatives to achieve business goals
