

XY2XI Migration Solution

Many customers have made significant investments in SAP product suite. From a strategic level they understand the need to align with NetWeaver and SAP XI, but are uncertain on the direction for SAP XI adoption and are cautious from a timeline perspective. Because of their existing investments in other EAI products and the impact to business due to migration of interfaces already in production, customers are unclear on their migration strategy (when and how), its associated risks, overall costs and the overall ROI to expect.

Infosys [XY2XI Migration Solution](#) provides a detailed roadmap for customer's XI adoption and solution kit for accelerated migration

- With Minimal Business Impact
- Based on immediate and strategic integration requirements
- For reduced TCO

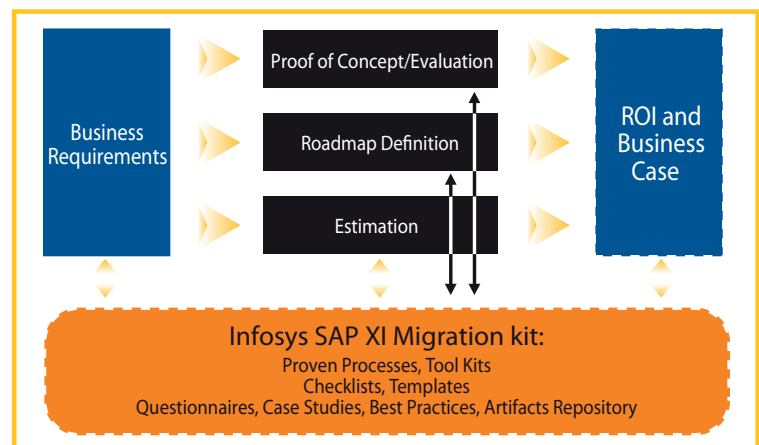

Infosys EAI XY2XI Migration Solution

Infosys Limited with strong expertise in EAI products space and proven SAP NetWeaver and SAP XI skills from multiple consulting and implementation exercises for Fortune 500 customers has built a solution that provides a ready to use framework to define the customer's roadmap for SAP XI migration and migrate the existing EAI landscape from XY (Legacy) to SAP XI.

Infosys [XY2XI Migration Solution](#) takes into account multiple customer integration aspects including Business/Integration Requirements, IT Strategy & technology roadmap and involves various stakeholders to arrive at the SAP XI migration roadmap.

Solution Deliverables:

- XI Product Evaluation Report
- POC Interfaces
- XI Migration Roadmap and Blueprint
- Overall Migration Estimates
- Migration Accelerators
- Test Automation Suite
- Process/Technology Standards for post migration

Solution Benefits

- Fast track End to End solution covering all aspects of new technology implementation using [XY2XI](#) accelerators
- Leverage extensive knowledge of varied integration products from the Infosys EAI practice
- Quantitative reports to highlight the product ratings against customer scenarios
- Detailed budget estimates for overall migration – Infrastructure, Tech & Services Ramp up, Migration & Dual Maintenance (transition)
- Strong relationship with SAP to address gaps during the evaluation and align with the product roadmap

Customer who would be interested

The solution is primarily focused towards **SAP customers** who

- Have significant investments in SAP products, especially NetWeaver suite
- Are planning new SAP implementations
- Would like to re-look at their integration strategy from technology and cost perspectives

Within the above mentioned categories, the following customer scenarios would be more relevant for this solution:

- Major SAP ERP Upgrade – from v4.x to ECC and beyond
- Major issues with the existing EAI infrastructure (Support, monitoring, reliability, complexity)
- Usage of EAI products like Mercator or similar which do not have a strong future roadmap
- Major EAI product upgrades that involve product architecture changes – SeeBeyond Ican, Vitria
- More than one EAI solutions, planning a consolidation or Move towards ESA (SOA) & other new SAP technologies

BPM-EAI Practice
