

## Infosys Oracle Telco Lab

---

Infosys Oracle Telco lab offers a pre-integrated suite of solutions built to leverage Oracle's comprehensive offerings for the telecom industry. This solution offers proactive responses to real life business challenges faced by Communication service providers. The solution has been designed to adapt quickly to the ever-changing trends of the industry. Driven by the executive level relationships between Oracle and Infosys, the solution enjoys the vision and commitment of both the organizations.

A state of the art lab setup associated with these solutions can incubate complex solution concepts, model solutions to specific customer problems, showcase industry trends and customer agility and speed in deploying the real life scenarios.

### Solution Landscape

The solution is modeled completely on Oracle's suite of products, the list of technologies and standards that these solutions use to stay best-in-class include eTOM, NGOSS, SID and Oracle's SOA (supported by AIA framework).

The following are some of the end to end scenarios that are being built and showcased using Oracle's AIA framework:

- Customer Self Provisioning
- Integrated Lead to Cash
- Integrated Concept to Market
- Converged Billing
- Unified Self Care
- Real Time Decisions using Business Intelligence
- Customer product creation

### Value Proposition

The Oracle Telco lab solution has been designed to deliver the following benefits:

- Faster time to market and increases the speed to deploy some of the key components
- Industry best practices: Built on the proven industry standards and the combined knowledge of Oracle and Infosys
- Living lab for the customers so that they can model their processes
- Test bed for Oracle next gen products
- Increase the value proposition from Infosys

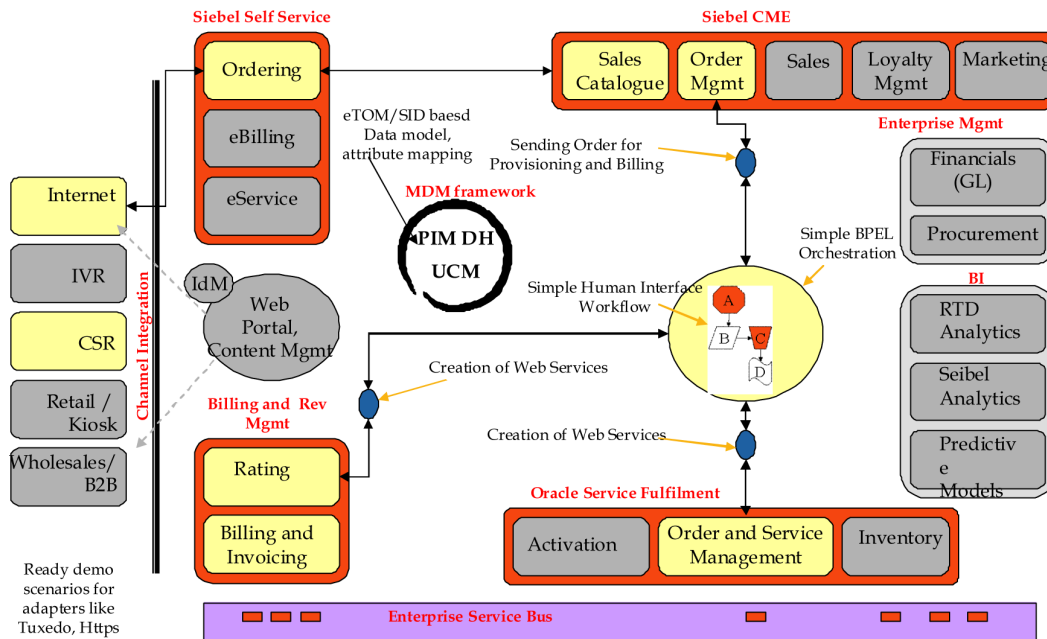

### Key Differentiators

Key differentiators of the Oracle Telco lab include:

- A dedicated Oracle Telco Innovation engine team across multiple units of Infosys.
- Design and Solution Architecture reviews are conducted with senior Oracle Solution Architects.
- Dedicated Infrastructure including simulation tools for complex network scenarios.
- A fully functional Collaboration Centre aiming to achieve 'Highest Value Realization' through effective and efficient collaboration across various teams.
- Experience Zones with State of the Art presentation facilities.
- On-Premise demos for global accessibility and a trained sales team.
- Joint Review Board constituted by both Oracle and Infosys.

## Improve your odds with Infosys Predictability Infosys Solution Process

Infosys solution caters to multiple processes around lead to cash, concept to market and trouble to repair. A snapshot of Infosys solution is provided below.

## Infosys services

### Business Consulting

Provides you with strategic differentiation and operational superiority, assessments, proprietary industry analyses & projects structured around beating the competition.

### Independent Validation

Gives your applications the third degree treatment and tests their robustness and ability to survive your business growth. A "must have" service if you are serious about long term leverage of your application assets.

### Enterprise Application Integration

Make the whole of your IT applications much greater than the sum of its parts. Infosys leverages Global Delivery Model (GDM) to deliver immediate and dramatic productivity growth like no one else can.

### Modular Global Sourcing

A strategically mature alternative to total outsourcing and ad hoc offshoring. Align your sourcing strategy to your business strategy, modularize your applications and processes and leverage the power of Global Delivery Model.
