

Case Study

SAP SNC 7.0 Implementation for Global Electronic Major

Implementing SAP SNC solutions helped extend visibility of inventory and requirements. The solution further enabled faster response time from vendors achieved through seamless integration of SAP ECC, XI, APO and SNC as the backbone.

Client Background

- Global Leader in Consumer Electronics products
- After successful implementation of APO Solution by Infosys, the client wanted Infosys to implement SNC 7.0 to address Supplier Network collaboration

Challenges

- Integration issues - Data sharing through flat files, multiple file sharing for vendor collaboration
- Reduce manual efforts on collaboration aspect
- Data integrity, security issues
- Scalability issues (when additional vendors are added collaboration becomes complex)
- Time spent by planners on non value adding activities of data collation and sharing
- Delayed ETA confirmation to end Customer

Engagement Summary - Infosys Solution

- Infosys has implemented SAP SCM 5.0 (DP, SNP & GATP) based solution with Program Management & Organizational Change Management responsibilities along with solution design, development & deployment.
- Infosys is involved in implementing SNC7.0 solution to address Purchase Order Collaboration and Vendor Managed Inventory with client specific requirements

Benefits

- Successfully developed solution to address purchase requisition collaboration and dynamic replenishment
- Seamless interaction with SAP ECC, XI, APO and SNC
- Provided partner specific User Interface with tight roles and authorizations.
- Extended Inventory & Net Requirements Visibility
- Enabled faster response from vendors by using standard PO Work list and Upload/download functionalities
- Improved Data Quality & Accuracy
- Provided best Exception Management service using Alerts and Notifications
