April 18, 2024,

Dear Sir, Madam,

Update on McCamish Cybersecurity Incident

Infosys McCamish Systems (“McCamish”) engaged cybersecurity and other specialists to assist in its investigation of and response to its November 2023 cybersecurity incident and remediation and restoration of impacted applications and systems. By December 31, 2023, McCamish, with external specialists’ assistance, substantially remediated and restored the affected applications and systems. Actions taken by McCamish also included investigative analysis conducted by a third-party cybersecurity firm to determine, among other things, whether and the extent to which data was subject to unauthorized access or exfiltration and engaging a third-party eDiscovery vendor in assessing the extent and nature of such data.

McCamish in coordination with its third-party eDiscovery vendor has identified up to approximately 6.5 million individuals whose information was subject to unauthorized access and exfiltration in the November 2023 cybersecurity incident. The information associated with each individual varies, but the data as a whole includes information such as email and mailing addresses, phone numbers, birth dates, social security numbers and other identification numbers, usernames, passwords, financial and customer account numbers, policy numbers, salaries and personal medical information. However, not all of these individuals had all of this information accessed and exfiltrated. McCamish also identified corporate customers whose business data was subject to unauthorized access and exfiltration. McCamish will be notifying its impacted customers and intends to work with these customers to support their respective reporting obligations, as appropriate. McCamish’s review process is ongoing.

This is for your information and records.

This will also be hosted on the Company’s website, at www.infosys.com

Yours sincerely,

For Infosys Limited
