

Supply Chain Planning

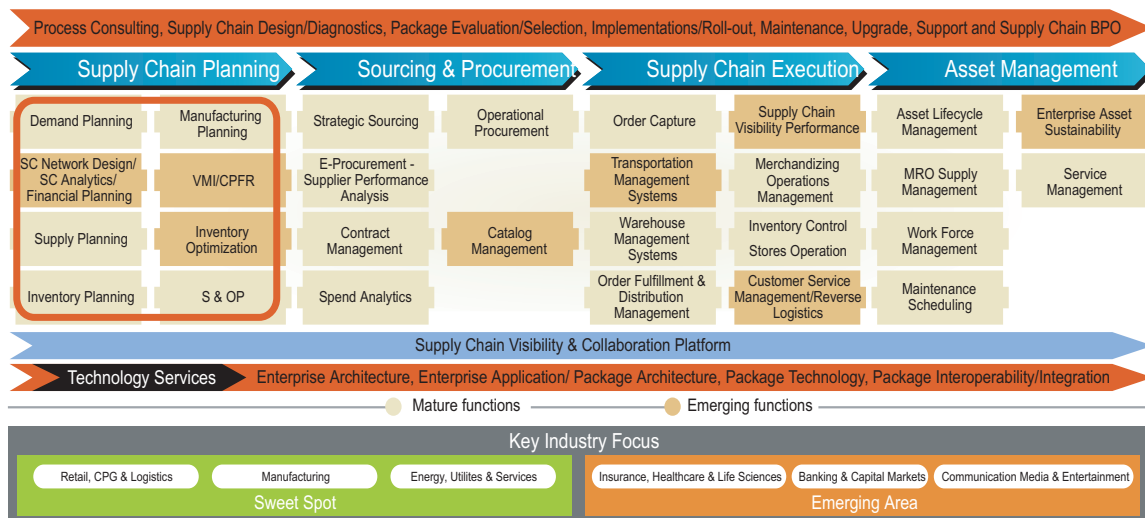

In a world that is increasingly becoming flat, supply chains have become global, complex and dynamic. Our supply chain planning practice strives to create a step change across your demand planning, manufacturing planning, order promising, fulfillment planning and detailed scheduling. Our extensive service offerings assist you to keep pace with your dynamically reconfiguring supply chain, powered by the impact of globalization.

Our supply chain planning offerings promise to deliver solutions enabled with robust project management tools, world class methodologies and solutions while maintaining consistent and superior quality. This is augmented via our planning practitioners who rally for planning initiatives helping you realize cost savings and generating greater value across planning side.

Supply Chain Planning Credentials

- As our client you would be able to harness our rich repository of Solutions like Forecast to Plan(F2P), inclusive-Forecast (i-Fo), Multi-level vendor planning and SAP upgrade which provide added value to your planning initiatives
- Our supply chain planning experts are cross trained across a range of products including SAP APO, Oracle APS, i2, Manugistics and Demantra. These along with process and functional experts form the Supply Chain Practice (SCP), a strategic forum to leverage collective organizational wisdom and tailor it to specific client situations
- Our track record is a result of successful execution of several projects across multiple packages , verticals and service lines covering the supply chain planning domain as highlighted below

Service Offerings

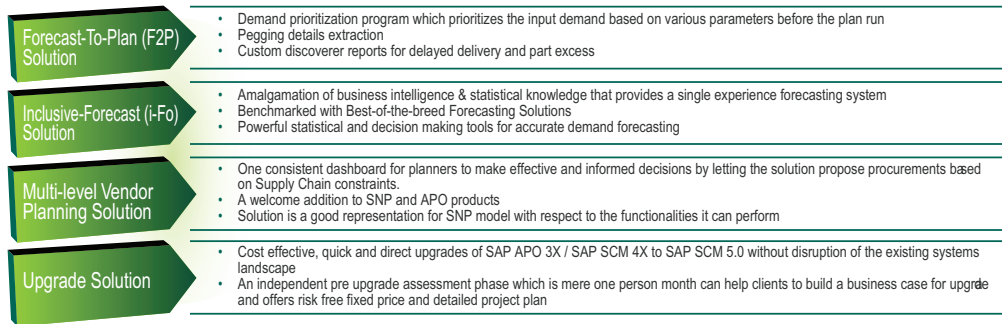

Client Speak

"I know that this project has had its challenges, and that there have been many long days put in requiring you all to juggle work loads and your own personal lives. For this I am greatly appreciative, and it goes without saying that our Client and M&A partners are also thankful for all of your efforts and dedication. Keep up the great work, and again thank you all for your extraordinary efforts!"

- Client Manager, leading food & beverage company

Key Differentiators: Solutions cutting across Supply Chain Planning function
