

Supply Chain Management (SCM)

The increasingly flattening world is constantly evolving and impacting the way you do your business. Supply Chains have become global, complex and dynamic. The success of your company hinges on developing innovative supply chain strategies that help you win in turns and make money from information while driving continuous improvement.

SCM practice enables world's leading organizations to re-align their Supply Chains to the Flat World paradigm by providing functioning solutions for your needs in Supply & Demand Planning and Forecasting, Sourcing & Procurement, Supply Chain Execution and Enterprise Asset Management.

We provide reliable quality and high impact solutions whose value is enhanced by our robust tools, methodologies and accelerators. Our SCM experts will ensure that you are provided with robust implementations, faster roll-outs, de-risked upgrades, dependable sustenance services and superior quality development.

Key capabilities in SCM

- Over 300+ diverse supply chain engagements in 25+ countries for over 35 Fortune 1000 customers.

- 750+ supply chain experts cross-trained across a range of supply chain management products including SAP APO, Oracle APS, i2, Manugistics, SAP SRM, Ariba, Oracle Retail, Sterling Commerce (Yantra), PkMS, Red Prairie, MAXIMO, SAP PM and Oracle eAM.
- Centers of Excellence for business applications, verticals and functional solutions.

Clients Speak

"We achieved our planned deployment date with a great solution for our business. You are great partners and I want you to know that I appreciate your hard work and dedication to this project"

- Director, Business Architecture Leading photography services company

"I know that this project has had its challenges, and that there have been many long days put in requiring you all to juggle work loads and your own personal lives. For this I am greatly appreciative, and it goes without saying that our Client and M&A partners are also thankful for all of your efforts and dedication. Keep up the great work, and again thank you all for your extraordinary efforts!"

- Client Manager, leading food & beverage company

Analysts Speak

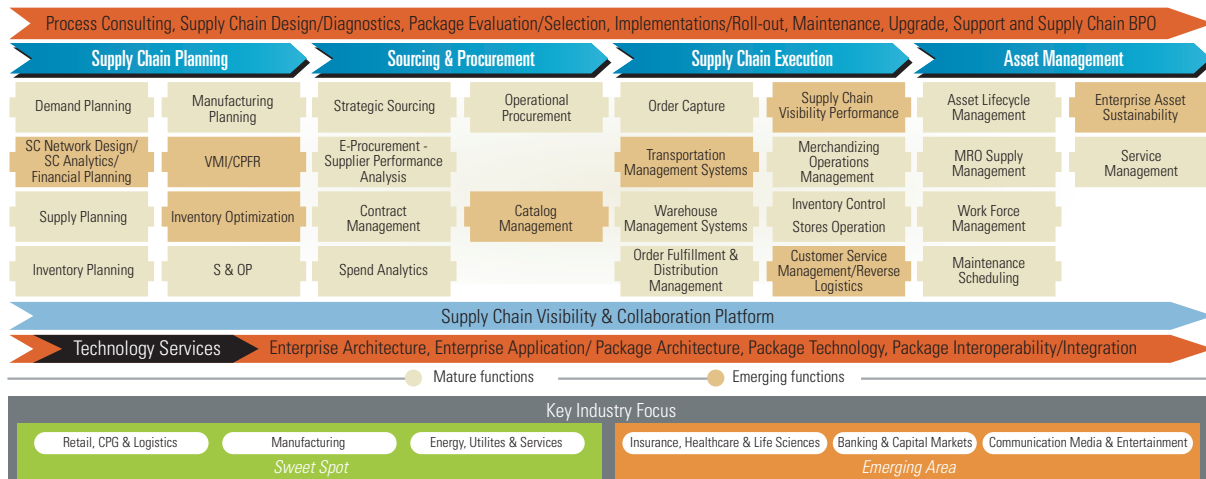

"Infosys Technologies provides the greatest breadth of operational outsourcing capabilities to complement its IT services." "Infosys complements SCM consulting with outsourcing services." *

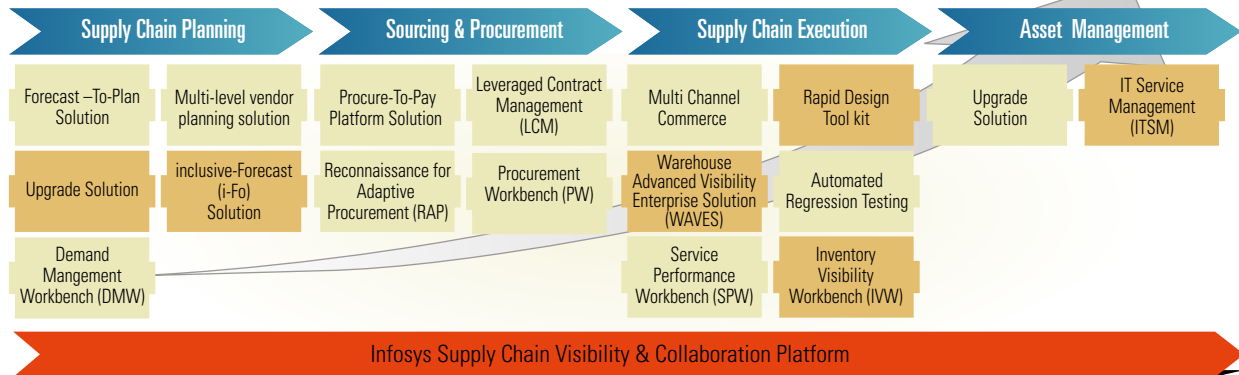

"Infosys Growth Strategy: Become End-to-End Supply Chain"

End to End SCM Offerings across industries

Unique Solutions and Accelerators cutting across SCM functions

Client Success Stories

CLIENT

World's foremost imaging innovator

Global automotive manufacturer and distinct leader in the luxury vehicle segment

A fortune 100 electronics retailer

Fast-growing energy company, primarily focused on the exploration and production of natural gas

SOLUTION PROVIDED

Infosys helped design, develop and implement a component authorization solution using powerful features of APO Macro workbench and Supply Network Planning. The Capable-To-Match engine that uses material constraints and other types of constraints in the supply chain was employed.

SAP SRM Global Deployment of a unique e-procurement solution comprising of SAP Workflow which facilitates and controls the purchasing process from EBP to MM to Lotus Notes.

Infosys helped in developing a solution based on the Sterling Order Management System and by leveraging existing systems and capabilities.

Review & redesign of core business processes for purchase approval coupled with the design and implementation of Maximo workflow and payment validation functionality to streamline the complete purchasing process.

BENEFITS

Client's planners can focus their energy on more pertinent issues in supply chain. They have improved planned inventory visibility and most importantly a measure of financial exposure in the planning horizon.

A harmonized Procure to Pay process. A reliable support model for maintenance and support across time-zones. Upgrade management with zero business disruption and smooth user transitioning.

The customer centric solution helped improve the overall customer experience by realizing the vision of - "Buy Anywhere, Pick up Anywhere, Return Anywhere".

Automation of Procure to Pay process with optimized workflow and standardization of payment process across the organization that will allow client to benefit from "timely pay" discounts, enhancing their ability to manage cash flow and reduce overall spend and simplifying the end to end procure to pay process..

Allied Services

Business Consulting

Provides you with strategic differentiation and operational superiority, assessments, proprietary industry analyses & projects structured around beating the competition.

Independent Validation

Gives your applications the third degree treatment and tests their robustness and ability to survive your business growth. A "must have" service if you are serious about long term leverage of your application assets.

Enterprise Application Integration

Make the whole of your IT applications much greater than the sum of its parts. Infosys leverages Global Delivery Model (GDM) to deliver immediate and dramatic productivity growth like no one else can.
