## Business Highlights

Over this quarter, we have been actively planning and executing the elements required to realize our strategy of **renewing** the core and innovating into **new** frontiers, based on a **culture** of learning and creativity.

We are seeing strong traction and acceptance of our new strategy with clients, as we continue to invest in strategic partnerships, education and automation.

- Deutsche Bank selected Infosys as one of its strategic partners to help consolidate and renew its enterprise application landscape with the benefits of cloud re-platforming, mobile access, analytics and other operational efficiencies.
- A global software products company has chosen Infosys to help renew its core Finance, HR and Legal IT platforms. Infosys, through a multi-year partnership, will leverage its expertise in software development and engineering to co-innovate with the client.
- We have covered over 9,000 employees across the company with design thinking training; more than 400 of these are at senior levels. We have gone further and got our clients to embrace design thinking concepts. We currently have a pipeline of workshops for over 25 clients planned.
- A financial services company selected Infosys as its primary partner for technology services worldwide. Infosys will build a next-generation authorization platform, new mobile payment solutions and help transform the client's billing systems. Infosys will also renew the client's application maintenance, testing and production support infrastructure.
- Infosys continues to expand and enter into strategic partnerships to offer new solutions to clients:
  - Partnered with Tableau Software, a global leader in rapid-fire, easy-to-use business analytics software, to integrate their offerings into the Big Data solutions offered to clients
  - Entered into an engineering partnership with DreamWorks Animation, through which Infosys will deploy its global talent pool, available across Cloud, Big Data, Java and open source capabilities, to develop next-generation solutions based on DreamWorks technology
- We have partnered with Stanford Global School of Business to create a comprehensive executive education program with a suite of business management skills and courses in corporate innovation processes. This initiative will include 200 executives, each of whom will participate in a part-time, year-long program over three years.
- We have established an Artificial Intelligence (AI) Center of Excellence to enable our developers to infuse AI and machine learning into the development and authoring experience to increase productivity manifold. Till date, 1,000 developers have been trained on machine learning and we plan to train over 500 more every quarter.

## Innovation Fund
