

HUMANIZE
WORKPLACE
EXPERIENCES TO
BUILD A RESILIENT
ENTERPRISE

Overview

The biggest asset for any organization is their human capital and their productivity has a direct impact on the overall business performance. Standing at the precipice of an era where the future of work is going to be inevitably, hybrid, enterprises should focus on driving the change from within

- with an employee-first, human-centric approach - to deliver more value to their customers.

The pandemic has issued a clarion call to organizations for revamping their digital, physical, and cultural landscape and provide their workforces with sentient,

human-centric workplace experiences.

Infosys' Digital Workplace Services enables organizations humanize workplace experiences to build a resilient enterprise by helping their employees stay productive and engaged while improving operational efficiencies.

Infosys Digital Workplace Services

Humanize workplace experiences to build a resilient enterprise

Infosys Digital Workplace Services equips organizations for the future of work through transformations that are best suited for the flexible world in which their employees operate. Our human-centric and design-led approach places people at the heart of our solutions and seamlessly integrates the physical and digital environments to attract, retain and develop talent, thus creating a culture of operational excellence, environmental responsibility, and physical and mental wellbeing.

Infosys helps organizations

Digitize the hybrid workplace to boost employee productivity:

CREATE a flexible work environment that fosters digital collaboration powered by cloud-enabled offerings for elevating productivity levels of employees while they work from anywhere and at any time

Redesign physical workspaces to maximize efficiencies:

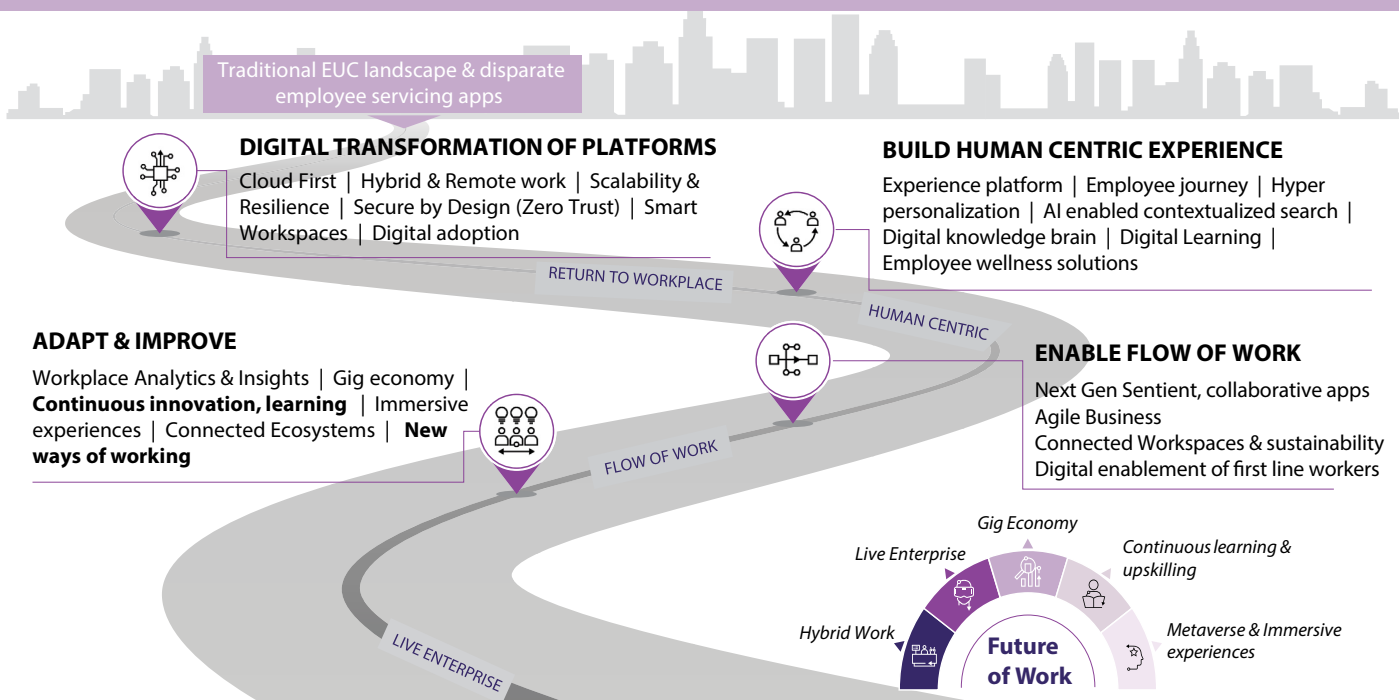

ENABLE a human-centric, sustainable ecosystem focused on employee safety and wellness, as well as social responsibility at large - with Phygital disruption to build efficient connected workspaces.

Prioritize organizational well-being to bolster an agile workforce:

PREPARE for the future of work with an agile workforce by instilling a culture entrenched in diversity, inclusivity and continuous learning, and a strong commitment towards building social capital.

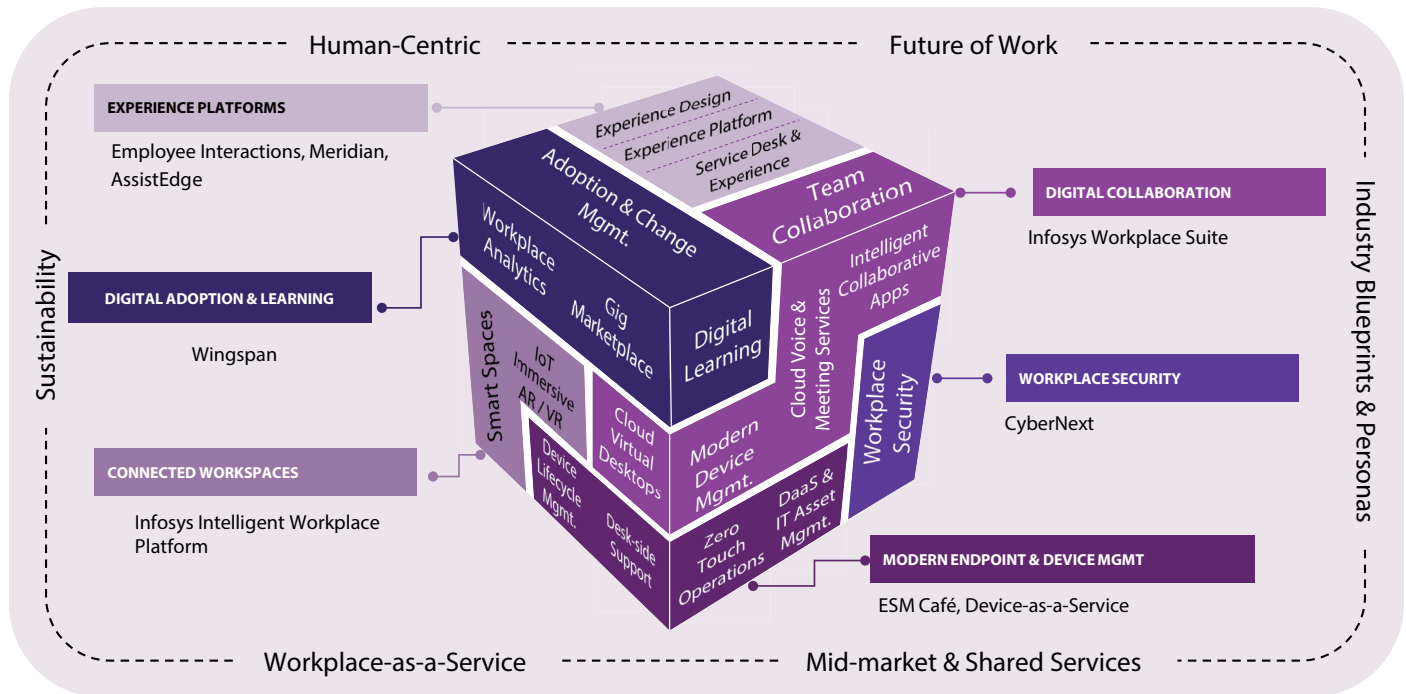

How we help clients navigate the next in their journey to future of work...

Digital Workplace Services Offerings
