

## INFOSYS DATA PROTECTION SOLUTION FOR M365

Microsoft 365 has millions of monthly subscribers and shows strong continued growth. While Microsoft hosts the Microsoft 365 application, it does not provide comprehensive data protection features to meet your business SLAs and protect against cyber-attacks. Hence, it is critical to keep all your M365 data backed-up and safe from any kind of expected or unexpected disaster recovery scenario, which could include accidental deletion and cyber/ransomware attacks.

Some of the challenges that enterprises may face when it comes to a ransomware attack on Microsoft 365 leading to business interruption:

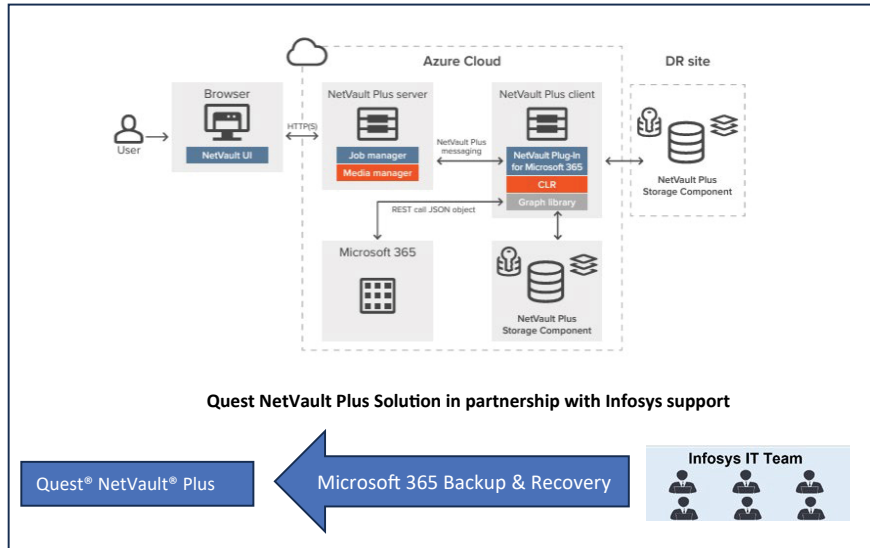

### INFOSYS HYBRID MICROSOFT 365 DATA PROTECTION SOLUTION IN PARTNERSHIP WITH QUEST

Infosys, in partnership with Quest, presents an industry leading backup/recovery solution for Microsoft 365. Infosys certified experts can help bring out the best of the tool with high quality monitoring and administration.

Automate and accelerate Microsoft 365 disaster recovery. Ransomware is today's most disruptive cyber threat, and M365 data is increasingly in its crosshairs. Quest NetVault Plus ensures

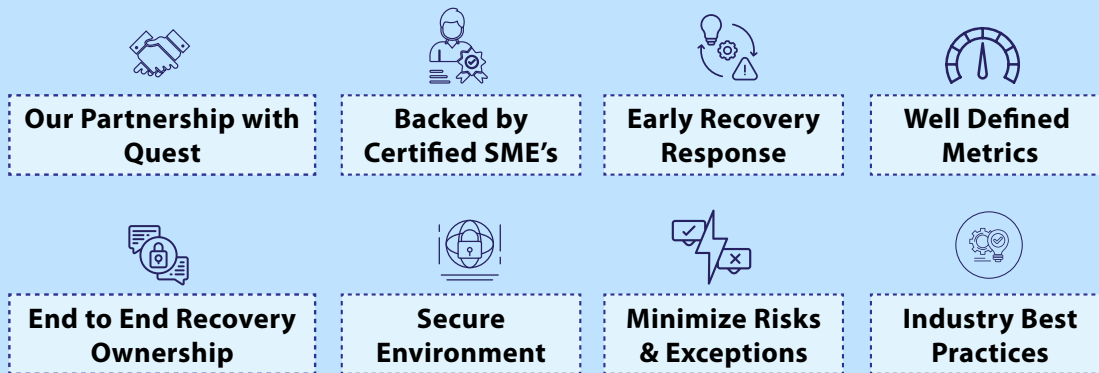

all M365 data including Exchange and SharePoint Online, Teams, OneDrive and Calendars, are backed up and protected, giving you peace of mind that a cyber-attack will not become a business disaster.
