

# ENABLING END-TO-END, CLOUD-CONNECTED DIGITAL HR TRANSFORMATION

Revolutionize your human capital management (HCM) function

With the Infosys solution for Oracle Human Capital Management Cloud (Oracle HCM Cloud), you can navigate your HR transformation journey while tapping into [Infosys Cobalt's](#) large community of innovators. Leverage our powerful alliance to:

# 1

## Gain competitive advantage and drive the adoption of new technologies.

- > Our 4E methodology (Explore, Envision, Evaluate, Execute) helps you with HR product evaluation, blueprints, and roadmaps to prepare for the move to the cloud.

# 2

## Realize cloud benefits—faster.

- > Infosys Oracle Cloud Suite is a cloud-first, digital transformation platform that leverages ready-to-use solutions, pre-configured assets, and integrated toolkits to automate and accelerate Oracle Cloud implementation.
- > Infosys HCM Cloud Transformation Services with Accelerated Cloud Transformation (ACT) helps ensure predictability and reduce risk when moving HR to the cloud.

# 3

## Receive risk-free application maintenance services (AMS) at an optimized cost.

- > Reflecting a relentless focus on smooth transition, continuous improvement, automation, and innovation, Infosys Next Gen AMS uses a cognitive-first approach powered with EASE (Eliminate, Automate, Shift Left, Enable Users) methodology, helping achieve operational efficiencies, optimize cost, and realize business value to clients.

By implementing an onboarding and payroll solution on Oracle Cloud, Infosys helped a large American utilities company reimagine the future of work for its staff—leading to:

# 70%

reduction in  
time to hire

# 30%

increase in employee  
experience index<sup>1</sup>

## Are you ready to accelerate your cloud transformation?

Enhance the data-driven, real-time decision-making that fuels business agility and boosts employee engagement with the best-in-class Infosys Oracle Cloud Suite platform.
