DATA PRIVACY PROTECTION MANAGEMENT

Did you know?

1
It takes **220** days on an average to identify a data breach

2
By 2022, privacy-driven spending on compliance tooling will increase to **$8 billion** worldwide

3
60+ jurisdictions around the world have proposed post modern privacy and data protection laws

4
23.2 million victim accounts worldwide use **123456** as their password

5
By 2023, **65%** of the world's population will have its personal information covered under modern privacy regulations

Are you aware of these data breaches?

Separate incidents at two US healthcare organizations compromised the personal data of more than 190,000 patients

A federal cabinet agency disclosed a security breach where personal information of 46,000 veterans was obtained by a malicious third-party

The LockBit ransomware gang launched a new data leak site to be used as part of their double extortion strategy

REvil gang advertised 337MB data of one of the largest IT staffing companies in the U.S on dark web

A database belonging to one of the world's largest marketing community leaked the records of over 800,000 users

Challenges faced by organizations

Lack of visibility of sensitive data across the organization – Structured vs. Unstructured, Cloud vs. On premise, Internal vs. External

Protecting sensitive data from internal and external threats

Comprehending the global privacy law requirements and building compliance roadmap

Privacy program management and continual improvement

Assess readiness and meet GDPR compliance requirements for safeguarding the privacy of data subjects - employees, customers and third-party suppliers

How can we help

Data Discovery and Classification Services
- Data Flow Analysis
- Data Discovery
- Data Classification

Data Protection Services
- Data Protection Advisory
- Data Protection Solution Implementation
  - Data Loss Prevention including CASB
  - Data Obfuscation & Tokenization
  - Data Encryption
  - PKI & Certificate Management
  - Data Base Activity Monitoring
  - IRM

Data Privacy Services
- Data Privacy Gap and Impact Assessment
- Privacy Policy Design and Implementation
- Privacy by Design
- Vendor Risk Assessment
- Personal Data Breach Management
- Privacy Technology Management
