

Infosys offerings in Oracle CX CPQ Cloud

A lengthy sales cycle often causes customer churn, which in turn, results in depleting bottom lines. In the absence of a CPQ solution, it takes a long time to create the quote as various departments need to be involved to come to a common understanding. This in turn, leads to delays in creating winning quotes.

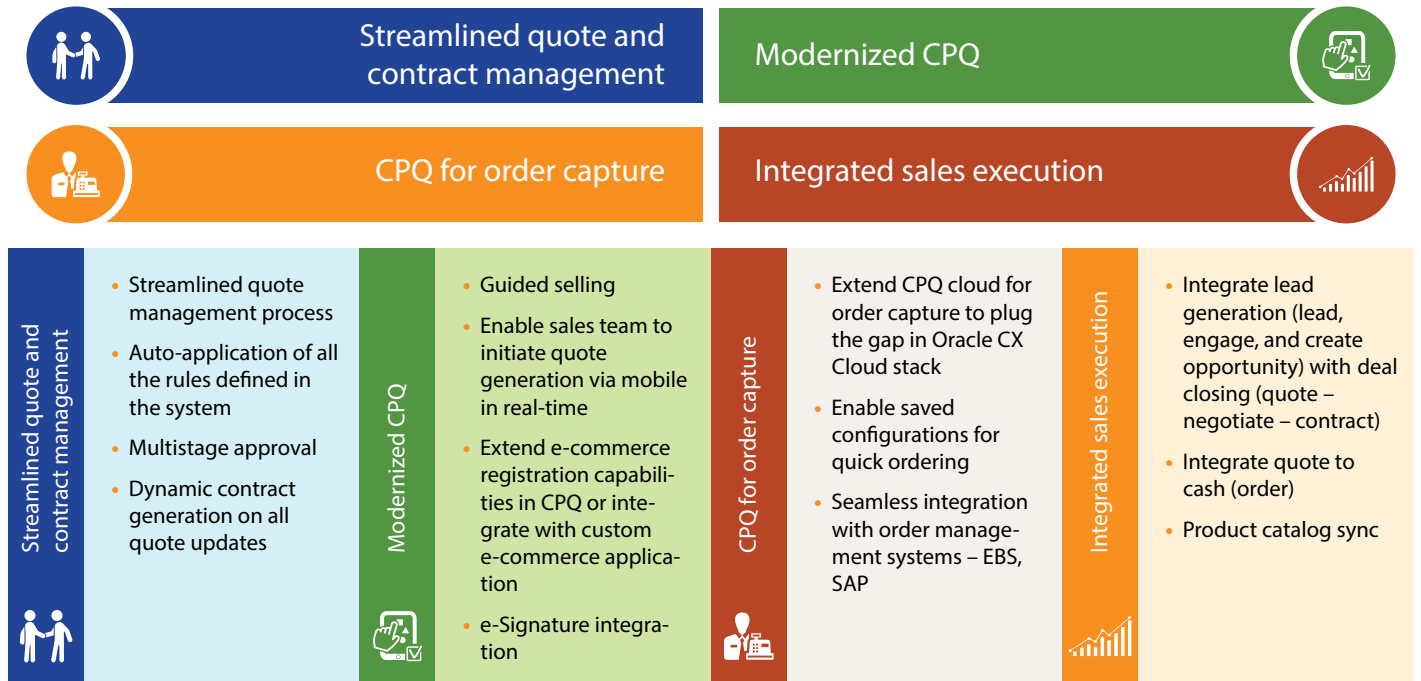

Today, it is imperative for sales teams to provide consistent and accurate information on pricing, product mix, and availability, to customers — quickly, from anywhere, and across multiple channels. Configure, Price, and Quote (CPQ) Cloud solution enables sales teams to optimize complex selling processes quickly and accurately.

Our CPQ cloud offerings can help your enterprise:

- Shorten the sales cycle through faster customer enquiry responses, reduced quote time, and one-click, quote-to-order conversion
- Eliminate errors in quote process
- Provide price consistency across multiple product lines
- Increase order volumes through upsell and cross-sell opportunities

Infosys CPQ Cloud transformation pillars

Service offerings

Our service offerings follow a rapid implementation approach spanning 8 to 15 weeks for a standard out-of-the-box implementation to deliver tangible business outcomes, solve critical problems, and help enterprises transform their businesses.

 Design Thinking	 New	 Renew
<ul style="list-style-type: none"> • Package evaluation – CPQ assessment • Business case definition • Implementation review • Technical feasibility 	<ul style="list-style-type: none"> • Proof of concept / prototyping • Solution blueprinting • Implementation / strategic roll-out • Systems integration 	<ul style="list-style-type: none"> • Business transformation • Maintenance and support • Version upgrade • Productivity improvements • Optimizing TCO
