

Infosys Smart Data Services Suite (iSDSS)

“
The INFOSYS preconfigured solution to migrate key objects from any existing CRM solution to Oracle Sales Cloud using a proprietary ETL tool.
”

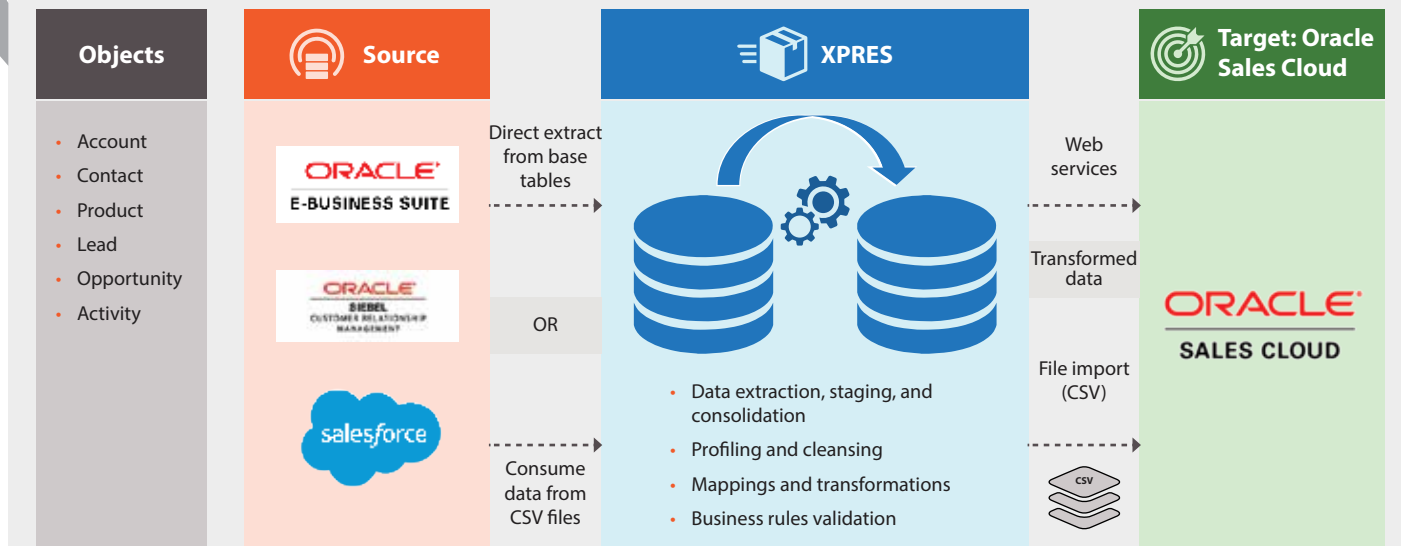

iSDSS Data Migration framework ensures seamless transition from any existing CRM solution to Oracle Sales Cloud (OSC) with up to 30% reduction in data extraction and migration process effort and no additional license cost. It also brings in the flavor of our industry-leading business solutions and technology to your project.

The iSDSS framework provides a simple and unified approach to migrate or integrate data over any distance, regardless of server platform or storage vendor. This preconfigured solution used to migrate key sales objects from existing CRM applications to OSC reduces the cost, complexity, and risk of moving data, thereby increasing application availability and customer choice.

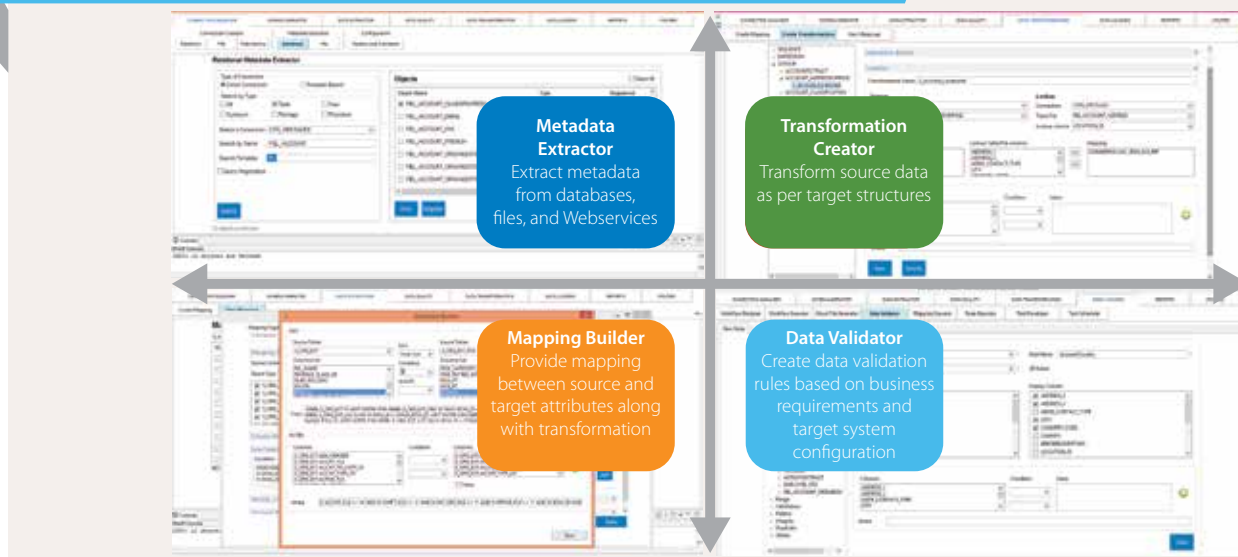

iSDSS DATA MIGRATION capabilities

iSDSS DATA MIGRATION platform overview

iSDSS key features

Four key benefits

- Offered as an end-to-end service rather than a product
- Minimized risk with preconfigured and tested solution
- Up to 30% effort reduction in data extraction and migration
- No additional license cost for procurement of ETL tool

The Infosys advantage

- Strong domain knowledge** in CX with specific vertical focus
 - Comprehensive product knowledge** for complete spectrum of CX products
 - Go-to-market and solution co-development** partnership with Oracle
 - End-to-end service offerings** from business consulting to system integration
- services and BPO services
- A comprehensive library of pre-built use cases** covering CX business processes to accelerate implementation
 - Innovative solutions** built on Oracle CX technology stack while leveraging Infosys IP components
