

**INFOSYS
ACTIMIZE
DIGITAL SUITE**

The Infosys Actimize Digital Suite of Ready-to-use solutions combines strong business expertise with product and technical skills and years of experience in servicing the compliance needs of clients, to enhance the experience of transformation for Enterprises and provides business value in a time-efficient manner.

Overview

Many years of partnering with clients in their compliance transformation and modernization journey has made us understand the myriad of challenges

that they face along the way. Prolonged deployment timelines, operational and process inefficiencies, silos in client and transactional data, huge fraud losses and ineffective fin-crime alert disposition are some of the key pain points that exist.

Leveraging our business experience and technological expertise, we offer holistic and point solutions that will help our clients address these challenges and navigate towards a successful compliance journey.

Infosys Actimize Digital Suite

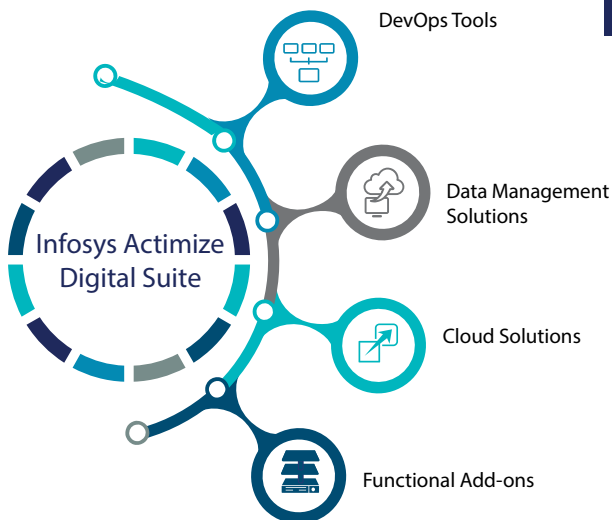

The Infosys Actimize Digital Suite is a set of multiple solutions that focuses on three key dimensions – speed, efficiency and business value to cover the entire value-

chain in the client's compliance business. These solutions automate and simplify your journey of transforming your compliance landscape. They reinforce provisioning and consumption of all types of data required for investigation thereby ensuring integrated

information. The solutions improve the transparency and effectiveness of the Anti-FinCrime program in your business. The solutions are comprehensive and deliver end-to-end capabilities for managing compliance programs.

Infosys Actimize Digital Suite

Ensuring shorter time-to-market & process efficiencies

Infosys Deployment Manager	Infosys Configuration Manager	Infosys Quality Assurance Solution
	Infosys Actimize Application Diagnostics	
Infosys Batch Data Manager	Infosys Real-Time Data Manager	Infosys Actimize Message Formatter
Infosys Actimize Alert Ingestion Solution	Infosys Database Smart Connector	Infosys Transaction Réconciliation Solution
Infosys Actimize Cloud Services Orchestrator		
Infosys Model Tuning Solution	Infosys Actimize Customer Segmentation Solution	Infosys Customer Risk Scoring Simulator
Infosys Alert and Case prioritization solution	Infosys Actimize Visualization Dashboard	Infosys Actimize Entity Resolution Solution

Infosys Actimize Digital Suite : DevOps & Cloud Tools

The DevOps tools and Cloud solutions help eliminate manual interventions, reduce errors and increase efficiencies. These tools empower clients with a robust platform for continuous delivery (CD), continuous integration (CI), and continuous testing (CT). The solutions suite offers unmatched

convenience by bringing about automation, agility and reliability in the configuration & deployment phases. It enables the business operations team to build, test, deploy and monitor applications with speed, quality and control.

How does it benefit clients?

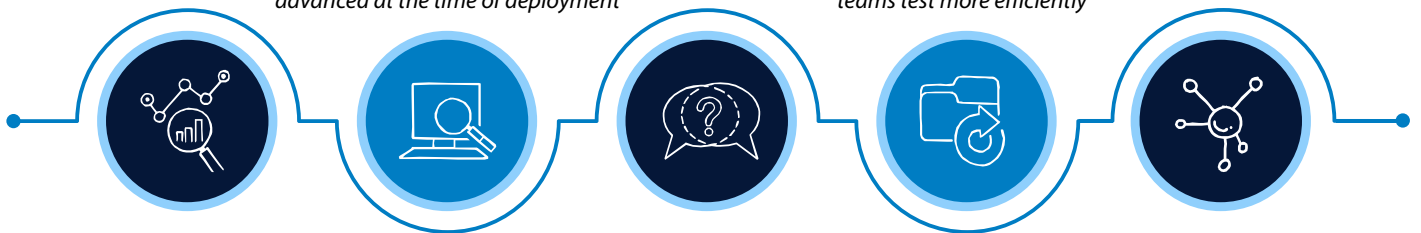

- Accelerate with pre-built & pre-configured models
- Leverage CD-CI-CT platforms and tools
- Deploy on cloud seamlessly

Infosys Configuration Manager-

Ease of configuration - Technical configurations & Functional configurations, both basic & advanced at the time of deployment

Infosys Quality Assurance

Solution - Automates the test scenarios and execution of test cases with combination of practices and tools designed to help QA teams test more efficiently

Infosys Deployment Manager -

Automated deployment of Actimize solutions and its components on a cloud infrastructure and across environments and Instances

Infosys Actimize Application

Diagnostics - Monitors Actimize components, detects any failures on Actimize servers and components and takes remediation action

Infosys Actimize Cloud Services

Orchestrator - Helps in automation of configuration processes relating to the configuration, set-up and deployment of the cloud environment required for the Actimize solution

Infosys Actimize Digital Suite : Data Management Solutions

The Data Management Solutions enable a Powerful, integrated environment & means for validating, loading, migrating and integrating customer and transacting data. They enable seamless data connections with the solutions and applications operating

in the environment and increase the automation in the data management process.

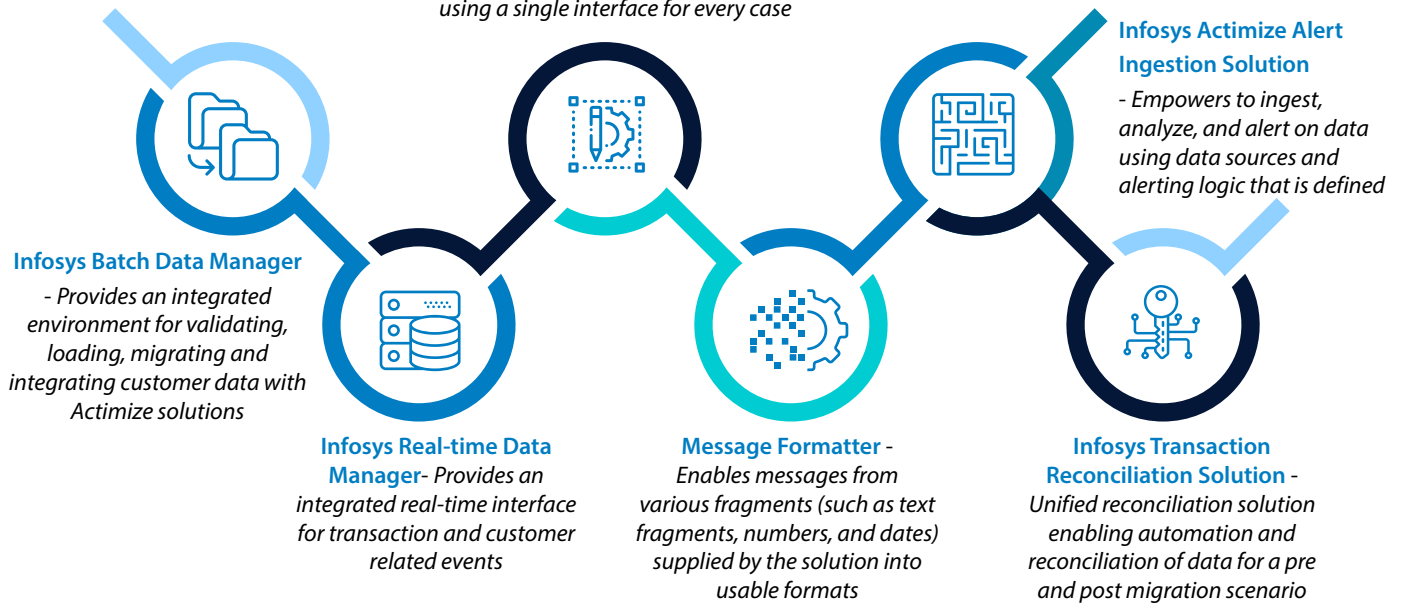

The solutions suite address data challenges and makes handling data issues in a seamless and efficient manner.

How does it benefit clients?

- Streamline transaction and customer data
- Ensure adherence to data compliance
- Reduce data quality issues during migration

Infosys Database Smart Connector

- Facilitates seamless connection with Actimize solutions in a PostGres and Hadoop environment- Java Database Connectivity using a single interface for every case

Infosys Actimize Digital Suite : Functional Add-ons

The Functional Add-ons are solutions tailored to fit your specific compliance requirements and add value to your compliance processes. The solutions have been built out of our years of experience in offering compliance solutions and services and they help in addressing some of the

root causes of diverse compliance issues.

These solutions empower clients with enhanced compliance processes insights, visual entity insights, decision strategy and help clients to accelerate their cloud adoption journey.

How does it benefit clients?

- Faster time to compliance
- Ensure transparency and integrity in compliance processes
- Address complex AML & transaction monitoring challenges
- Empower business with pre-built dashboards to reduce time taken to build them

Infosys Model Tuning Solution - Comprehensive Transaction Monitoring Tuning solution to address Initial tuning, False positive reduction, False Negative identification and Transaction Pattern Analysis

Infosys Customer Risk Scoring Simulator - Simulation of Customer Risk scoring model for analyzing the Risk distribution pattern across the customer base of the Financial Institution

Infosys Actimize Visualization Dashboard - Reports and Visualizations based on Transaction patterns including value, volume data, accounts and other attributes which are generally not available in OOTB dashboards

Infosys Actimize Customer Segmentation Solution - Aiding placement of Targeted thresholds for Transaction Monitoring. It is based on static and dynamic factors

Infosys Alert and Case Prioritization solution - Enables scoring of cases / alerts based on various parameters as a non-intrusive process

Infosys Actimize Entity Resolution Solution - Simulation of Customer Risk scoring model for analyzing the Risk distribution pattern across the customer base of the Financial Institution

Infosys Actimize Digital Suite – Business Benefits

Enables Efficiencies

Reduces manual effort in the activities needed during the deployment and delivery cycle. Leverages the latest technology.

Seamless

Pre-configured, pre-tested and flexible solutions that seamlessly integrate into the client network

Reduced Costs

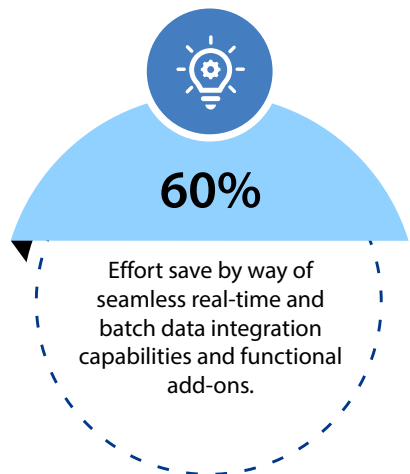

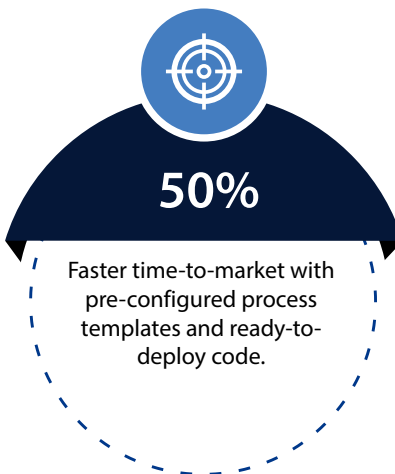

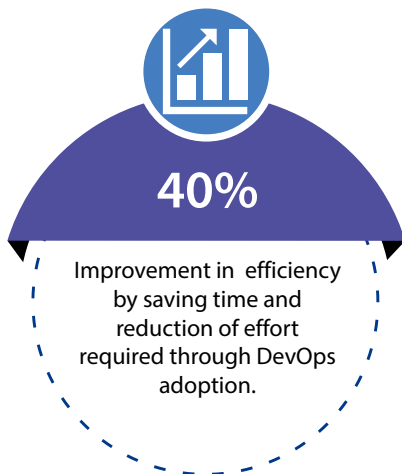

Enables cost optimization to the deployment, configuration, testing and cloud migration processes to deliver business value and reduce costs.

Ensures Compliance

The solution ensures increased adherence to the regulatory compliance and significantly increase the transparency in the business landscape

Quicker Time-to-Market

Significantly reduces the time-to-market of compliance solutions by faster deployment, ease of configuration and removing process redundancies
