

# BUILD BETTER WITH AI

Empowering Architecture,  
Engineering, and Construction  
Organizations

Infosys empowers Architecture, Engineering, and Construction (AEC) enterprises to turn ideas into reality with AI-driven solutions that merge creativity and efficiency. From leveraging the cloud to enhance decision-making and operations, to delivering next-gen solutions that simplify design and collaboration, and equipping projects with energy management tools to push the boundaries of sustainability, Infosys brings a range of capabilities to help AEC businesses build better with AI.

Our AI-first approach drives operational excellence while advancing sustainability, helping clients build smarter across four key areas:

Accelerated  
Transformation

Experiential AI  
and Design

Business  
Operations

Sustainability  
and Safety

# Build Better With AI by Bridging Vision and Execution

Infosys helps AEC organizations harness AI to simplify processes and drive results. Our four pillars ensure smooth integration, smarter designs, agile operations, and sustainable growth.

## Accelerate Transformation by Connecting Structures and Systems

We optimize workforce, content, and ERP management through **Cloud Migration** for faster, more scalable operations.

## Experiential AI and Design to Integrate Physical and Digital

AI and BIM address labor shortages while boosting collaboration and productivity while **Infosys Wingspan** helps teams grow with continuous learning.

## Smarter Business Operations to Drive Visibility and Agility

We streamline finance, HR, and procurement with back-office automation and **ServiceDesk** solutions to ensure smooth and resilient operations.

## Sustainability and Safety Shaped by Strategies and Solutions

We support sustainability with carbon management and grid optimization. **NextGen Grid** improves performance while **Energy-as-a-Service** helps transition to low-carbon solutions.
