

NO-TOUCH DOCUMENT EXCHANGE

Business Challenges

Paper-based documentation can potentially lead to **increased risk** of infection spread, even when other physical proximity guidelines are followed.

48% more chance of contracting COVID-19 for individuals involved in transportation activities, as they continue to work on the frontline and travel across borders

EU countries have mandated incoming ships to submit **2 additional declarations** related to health of onboard members and sanitization measures four hours before estimated time of arrival

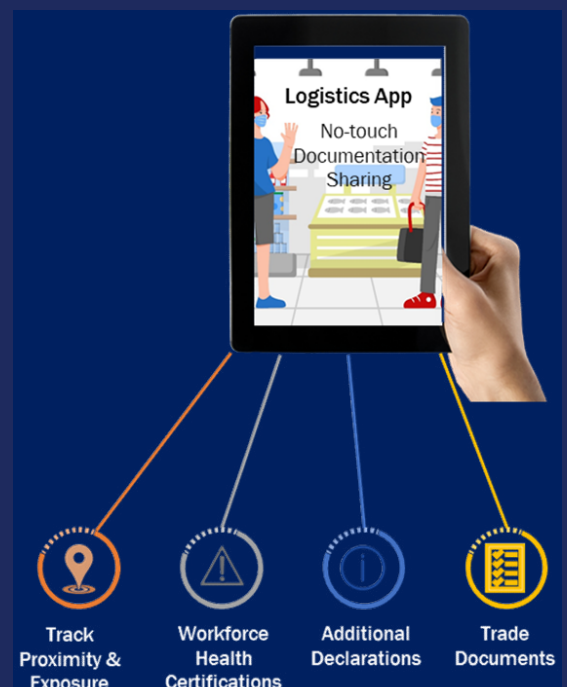

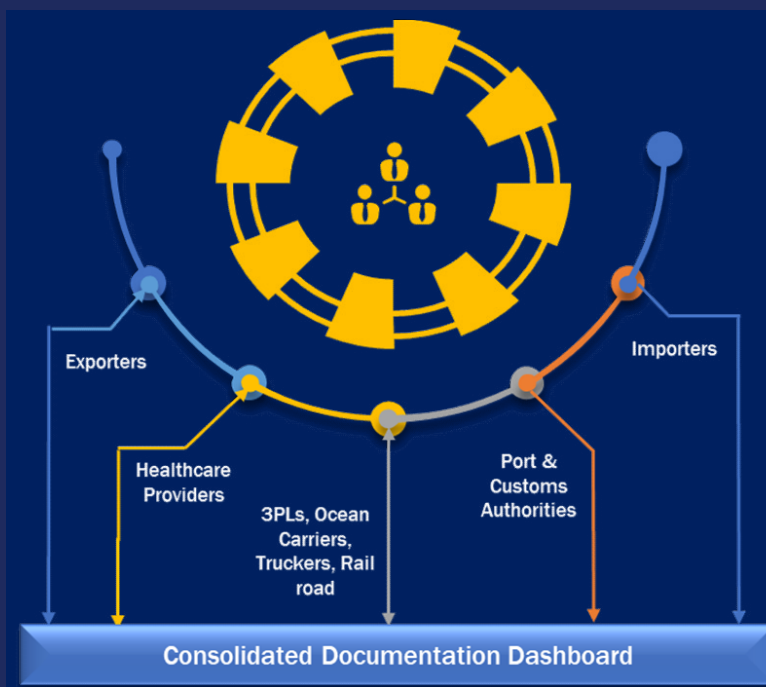

Significant delays

at ports and customs due to lack of standardization in documents required by different geos

Let's redefine how documentation changes hands

Contactless ecosystem of 3PLs, ocean carriers, Truckers along with port and customs authorities to simplify documentation exchange, limit infection spread and reduce screening delays at borders

Apps connect to underlying network for securely fetching and Sharing required documents without Physical contact

Technology Enablers

Enterprise Blockchain

Mobile APIs

IoT Sensors

Mobile Apps

Secure QR Code

IPFS
