

## **24. Significant accounting policies and notes on accounts**

### **Company overview**

Infosys Technologies Limited ("Infosys" or "the company") along with its majority owned and controlled subsidiary, Infosys BPO Limited ("Infosys BPO") and wholly owned and controlled subsidiaries, Infosys Technologies (Australia) Pty. Limited ("Infosys Australia"), Infosys Technologies (China) Co. Limited ("Infosys China"), Infosys Consulting, Inc. ("Infosys Consulting"), Infosys Technologies S. De R.L. de C.V. ("Infosys Mexico"), Infosys Technologies (Sweden) AB ("Infosys Sweden") and Infosys Tecnologia Do Brasil LTDA. ("Infosys Brasil") is a leading global technology services corporation. The group of companies ("the Group") provides end-to-end business solutions that leverage technology thereby enabling clients to enhance business performance. The Group provides solutions that span the entire software life cycle encompassing technical consulting, design, development, re-engineering, maintenance, systems integration, package evaluation and implementation, testing and infrastructure management services. In addition, the Group offers software products for the banking industry, business consulting and business process management services.

### **24.1. Significant accounting policies**

#### **24.1.1. Basis of preparation of financial statements**

The consolidated financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair value. GAAP comprises mandatory accounting standards prescribed by the Companies (Accounting Standards) Rules, 2006 and guidelines issued by the Securities and Exchange Board of India (SEBI). These financial statements should be read in conjunction with the annual financial statements for the year ended March 31, 2009. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The consolidated financial statements are prepared in accordance with the principles and procedures required for the preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial Statements". The financial statements of Infosys - the parent company, Infosys BPO, Infosys China, Infosys Australia, Infosys Mexico, Infosys Consulting and Infosys Sweden have been combined on a line-by-line basis by adding together book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances and transactions and resulting unrealized gain/loss. The consolidated financial statements are prepared by applying uniform accounting policies in use at the Group. Minority interests have been excluded. Minority interests represent that part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company.

#### **24.1.2. Use of estimates**

The preparation of the financial statements in conformity with GAAP requires the management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include computation of percentage-of-completion which requires the Group to estimate the efforts expended to date as a proportion of the total efforts to be expended, provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed assets and intangible assets.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognised wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset other than goodwill is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in previous years.

### **24.1.3. Revenue recognition**

Revenue is primarily derived from software development and related services, licensing of software products and business process management. Arrangements with customers are either on a fixed price, fixed timeframe or on a time and material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the Balance Sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized based upon the percentage-of-completion. When there is uncertainty as to measurement or ultimate collectability revenue recognition is postponed until such uncertainty is resolved. Cost and earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and earnings is classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Annual Technical Services revenue and revenue from fixed-price maintenance contracts are recognized ratably over the period in which services are rendered. Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in case of multiple element contracts, which require significant implementation services, where revenue for the entire arrangement is recognized over the implementation period based upon the percentage of completion. Revenue from client training, support and other services arising due to the sale of software products is recognized as the related services are performed.

The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discount / incentive amount to each of the underlying revenue transactions that result in progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Group recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Group recognizes changes in the estimated amount of obligations for discounts using a cumulative catch-up approach. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The Group presents revenues net of value-added taxes in its consolidated profit and loss account.

Profit on sale of investments is recorded on transfer of title from the Group and is determined as the difference between the sale price and carrying value of the investment. Lease rentals are recognized ratably on a straight line basis over the lease term. Interest is recognized using the time-proportion method, based on rates implicit in the transaction. Dividend income is recognized when the Group's right to receive dividend is established.

#### **24.1.4. Provisions and contingent liabilities**

A provision is recognized if, as a result of a past event, the Group has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

##### **24.1.4.a. Post-sales client support and warranties**

The Group provides its clients with a fixed-period warranty for corrections of errors and call support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in cost of sales. The Group estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

##### **24.1.4.b. Onerous contracts**

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

#### **24.1.5. Fixed assets, including goodwill, intangible assets and capital work-in-progress**

Fixed assets are stated at cost, less accumulated depreciation and impairments, if any. Direct costs are capitalized until fixed assets are ready for use. Capital work-in-progress comprises outstanding advances paid to acquire fixed assets and the cost of fixed assets that are not yet ready for their intended use at the reporting date. Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortization and impairment. Goodwill comprises the excess of purchase consideration over the fair value of the net assets of the acquired enterprise.

#### **24.1.6. Depreciation and amortization**

Depreciation on fixed assets is provided on the straight-line method based on useful lives of assets as estimated by the Management. Depreciation for assets purchased/sold during the period is proportionately charged. Individual low cost assets (acquired for less than Rs. 5,000/-) are depreciated over a period of one year from the date of acquisition. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Group for its use. Leasehold improvements are written off over the lower of the remaining primary period of lease or the life of the asset. Management estimates the useful lives for the other fixed assets as follows :

Buildings	15 years
Plant and machinery	5 years
Computer equipment	2-5 years
Furniture and fixtures	5 years
Vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

## **24.1.7. Retirement benefits to employees**

### **24.1.7.a. Gratuity**

In accordance with the Payment of Gratuity Act, 1972, Infosys provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible employees of the company and Infosys BPO. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation at each Balance Sheet date using the projected unit credit method. The company fully contributes all ascertained liabilities to the Infosys Technologies Limited Employees' Gratuity Fund Trust ("the Trust"). In case of Infosys BPO, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust. Trustees administer contributions made to the Trusts and contributions are invested in specific instruments, as permitted by the law. The Group recognizes the net obligation of the Gratuity plan in the consolidated Balance Sheet as an asset or liability, respectively in accordance with AS 15, "Employee Benefits". The Group's overall expected long-term rate-of-return on assets has been determined based on consideration of available market information, current provisions of Indian law specifying the instruments in which investments can be made and historical returns. The discount rate is based on the Government securities yield. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the consolidated profit and loss account in the period in which they arise.

### **24.1.7.b. Superannuation**

Certain employees of Infosys are also participants in the superannuation plan ("the Plan") which is a defined contribution plan. Until March 2005, the Company made contributions under the Plan to the Infosys Technologies Limited Employees' Superannuation Fund Trust. The Company had no further obligations to the Plan beyond its monthly contributions. Certain employees of Infosys BPO and Infosys Australia were also eligible for superannuation benefit. Infosys BPO and Infosys Australia made monthly provisions under the superannuation plan based on a specified percentage of each covered employee's salary. Infosys BPO had no further obligations to the superannuation plan beyond its monthly provisions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

Effective April 1, 2005, a portion of the monthly contribution amount is paid directly to the employees as an allowance and the balance amount is contributed to the Infosys Superannuation Trust.

### **24.1.7.c. Provident fund**

Eligible employees receive benefits from a provident fund, which is a defined benefit plan. Both the employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a part of the contributions to the Infosys Technologies Limited Employees' Provident Fund Trust. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

In respect of Infosys BPO, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and Infosys BPO make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. Infosys BPO has no further obligations under the provident fund plan beyond its monthly contributions.

#### **24.1.7.d. Compensated absences**

The employees of the Group are entitled to compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is measured based on the additional amount expected to be paid as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

#### **24.1.8. Research and development**

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably.

#### **24.1.9. Foreign currency transactions**

Foreign currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the profit or loss account. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction. Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled.

The functional currency of Infosys and Infosys BPO is the Indian Rupee. The functional currencies for Infosys Australia, Infosys China, Infosys Consulting, Infosys Mexico, Infosys Sweden and Infosys Brasil are their respective local currencies. The translation of financial statements of the foreign subsidiaries from the local currency to the functional currency of the Company is performed for Balance Sheet accounts using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using a monthly average exchange rate for the respective periods and the resulting difference is presented as foreign currency translation reserve included in "Reserves and Surplus". When a subsidiary is disposed off, in part or in full, the relevant amount is transferred to profit or loss.

#### **24.1.10. Forward contracts and options in foreign currencies**

The Group uses foreign exchange forward and options contracts to hedge its exposure to movements in foreign exchange rates. The use of these foreign exchange forward and options contracts reduce the risk or cost to the Group and the Group does not use those for trading or speculation purposes.

Effective April 1, 2008, the Group adopted AS 30, "Financial Instruments : Recognition and Measurement", to the extent that the adoption did not conflict with existing accounting standards and other authoritative pronouncements of Company Law and other regulatory requirements.

Forward and options contracts are fair valued at each reporting date. The resultant gain or loss from these transactions is recognized in the profit or loss account. The Group records the gain or loss on effective hedges, if any, in the foreign currency fluctuation reserve until the transactions are complete. On completion, the gain or loss is transferred to the consolidated Profit and Loss account of that period. To designate a forward or options contract as an effective hedge, management objectively evaluates and evidences with appropriate supporting documents at the inception of each contract whether the contract is effective in achieving offsetting cash flows attributable to the hedged risk. In the absence of a designation as effective hedge, a gain or loss is recognized in the consolidated Profit and Loss account. Currently, the hedges undertaken by the Group are all ineffective in nature and the resultant gain or loss consequent to fair valuation is recognized in the consolidated Profit and Loss account at each reporting date.

#### **24.1.11. Income taxes**

Income taxes are accrued in the same period the related revenue and expenses arise. A provision is made for income tax annually based on the tax liability computed after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. MAT paid in accordance to the tax laws, which gives rise to future economic benefits in the form of tax credit against future income tax liability, is recognized as an asset in the consolidated Balance Sheet if there is convincing evidence that the Group will pay normal tax after the tax holiday period and the resultant asset can be measured reliably. The Group offsets, on a year-on-year basis, the current tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

The differences that result between the profit offered for income taxes and the profit as per the financial statements are identified and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount of timing difference. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on enacted or substantively enacted regulations. Deferred tax assets in case of unabsorbed depreciation and carry forward business loss are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax asset can be realized. Deferred tax assets, other than those related to unabsorbed depreciation and carry forward business loss, are recognized only if there is reasonable certainty that they will be realized. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate applicable for the full fiscal year for each of the consolidated entities. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to the consolidated Profit and Loss account are credited to the share premium account.

#### **24.1.12. Earnings per share**

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the consolidated financial statements by the Board of Directors.

#### **24.1.13. Investments**

Trade investments are the investments made to enhance the Group's business interests. Investments are either classified as current or long-term based on Management's intention at the time of purchase. Current investments are carried at lower of cost and fair value. Cost for overseas investments comprises the Indian Rupee value of the consideration paid for the investment translated at the exchange rate prevalent at the date of investment. Long-term investments are carried at cost less provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

#### **24.1.14. Cash and cash equivalents**

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The Group considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

#### **24.1.15. Cash flow statement**

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

## 24.2. Notes on accounts

Amounts in the financial statements are presented in Rupees crore, except for per share data and as otherwise stated. Certain amounts do not appear due to rounding off, and are detailed in note 24.3. All exact amounts are stated with the suffix “/-”. One crore equals 10 million.

The previous period / year figures have been regrouped / reclassified, wherever necessary to conform to the current presentation.

\* Claims against the Company not acknowledged as debts include demand from the Indian tax authorities for payment of additional tax of Rs. 197 crore (Rs. 197 crore), including interest of Rs. 43 crore (Rs. 43 crore) upon completion of their tax review for fiscal 2004 and fiscal 2005, respectively. The tax demands are mainly on account of disallowance of a portion of the deduction claimed by the Company under Section 10A of the Income tax Act. The deductible amount is determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. The matter for fiscal 2004 and fiscal 2005 is pending before the Commissioner of Income tax (Appeals), Bangalore. The Company is contesting the demand and the Management including its tax advisors believes that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The Management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

### 24.2.3. Obligations on long-term, non-cancelable operating leases

The lease rentals charged for the quarter and half-year ended September 30, 2009 and September 30, 2008 and maximum obligations on long-term non-cancelable operating leases payable as per the rentals stated in the respective agreements:-

### 24.2.7. Stock option plans

The Company has two Stock Option Plans that are currently operational.

#### 1998 Stock Option Plan (“the 1998 Plan”)

The 1998 Plan was approved by the Board of Directors in December 1997 and by the shareholders in January 1998, and is for issue of 1,17,60,000 ADSs representing 1,17,60,000 equity shares. All options under the 1998 Plan are exercisable for ADSs representing equity shares. A Compensation Committee comprising independent members of the Board of Directors administers the 1998 Plan. All options have been granted at 100% of fair market value. The 1998 Plan lapsed on January 6, 2008, and consequently no further shares will be issued to employees under this plan.

### Proforma Accounting for Stock Option Grants

Guidance note on "Accounting for employee share based payments" issued by Institute of Chartered Accountants of India establishes financial accounting and reporting principles for employee share based payment plans. The guidance note applies to employee share based payment plans, the grant date in respect of which falls on or after April 1, 2005.

As allowed by the guidance note, Infosys has elected to continue to apply the intrinsic value-based method of accounting described above, and has adopted the disclosure requirements of the guidance note "Accounting for employee share based payments". Had the compensation cost for Infosys's stock-based compensation plan been determined in a manner consistent with the fair value approach described in guidance note, the Company's net profit and basic and diluted earnings per share as reported would have reduced to the proforma amounts as indicated :

#### 24.2.8. Income taxes

The provision for taxation includes tax liabilities in India on the Company's global income as reduced by exempt incomes and any tax liabilities arising overseas on income sourced from those countries. Infosys has operations in Special Economic Zone (SEZ) and Software Technology Parks (STP). Income from STPs are exempt from tax for the earlier of 10 years commencing from the fiscal year in which the unit commences software development or March 31, 2011. Income from SEZs are fully tax exempt for the first 5 years, 50% exempt for the next 5 years and 50% exempt for another 5 years subject to fulfilling certain conditions. Pursuant to the amendments in the Indian Income Tax Act, the Company has calculated its tax liability after considering Minimum Alternate Tax (MAT). MAT liability can be carried forward and set off against the future tax liabilities. Accordingly a sum of Rs. 307 crore and Rs. 284 crore was carried forward and disclosed under "Loans and Advances" in the Balance Sheet as at September 30, 2009 and March 31, 2009.

#### 24.2.13. Provision for doubtful debts

Periodically, the Group evaluates all customer dues to the Group for collectability. The need for provisions is assessed based on various factors including collectability of specific dues, risk perceptions of the industry in which the customer operates, general economic factors, which could effect the customer's ability to settle. The Group normally provides for debtor dues outstanding for 180 days or longer as at the Balance Sheet date. As at September 30, 2009, the Group has provided for doubtful debts of Rs. 71 crore (Rs. 66 crore as at March 31, 2009) on dues from certain customers although the outstanding amounts were less than 180 days old, since the amounts were considered doubtful of recovery. The Group pursues the recovery of the dues, in part or full.

#### 24.2.14. Segment reporting

The Group's operations predominantly relate to providing end-to-end business solutions that leverage technology thereby enabling clients to enhance business performance, delivered to customers globally operating in various industry segments. Accordingly, revenues represented along industry classes comprise the primary basis of segmental information set out in these financial statements. Secondary segmental reporting is performed on the basis of the geographical location of customers.

The accounting principles consistently used in the preparation of the financial statements are also consistently applied to record income and expenditure in individual segments. These are as set out in the note on significant accounting policies.

Industry segments at the Group are primarily financial services comprising customers providing banking, finance and insurance services; manufacturing companies; companies in the telecommunications and the retail industries; and others such as utilities, transportation and logistics companies.

Income and direct expenses in relation to segments are categorized based on items that are individually identifiable to that segment, while the remainder of the costs are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying services are used interchangeably. The Group believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and directly charged against total income.

Fixed assets used in the business or liabilities contracted have not been identified to any of the reportable segments, as the fixed assets and services are used interchangeably between segments. Accordingly, no disclosure relating to total segment assets and liabilities are made.

Customer relationships are driven based on the location of the respective client. North America comprises the United States of America, Canada and Mexico; Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom; and the Rest of the World comprising all other places except, those mentioned above and India.

Geographical revenues are segregated based on the location of the customer who is invoiced or in relation to which the revenue is otherwise recognized.

Gratuity cost, as disclosed above, is included under salaries and bonus and is segregated between software development expenses, selling and marketing expenses and general and administration expenses on the basis of number of employees.

As of September 30, 2009 and March 31, 2009, the plan assets have been primarily invested in government securities. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.

Effective July 1, 2007, the Company revised the employee death benefits provided under the gratuity plan, and included all eligible employees under a consolidated term insurance cover. Accordingly, the obligations under the gratuity plan reduced by Rs.37 crore, which is being amortised on a straight line basis to the net Profit and Loss account over 10 years representing the average future service period of the employees. The unamortized liability as at September 30, 2009 and March 31, 2009 amounted to Rs. 27 crore and Rs. 29 crore, respectively and is disclosed under "Current Liabilities".

The group expects to contribute approximately Rs. 38 crore to the gratuity trusts during fiscal 2010.

#### **24.2.19.a. Provident Fund**

The Guidance on Implementing AS 15, Employee Benefits (revised 2005) issued by Accounting Standards Board (ASB) states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. Pending the issuance of the guidance note from the Actuarial Society of India, the Company's actuary has expressed an inability to reliably measure provident fund liabilities. Accordingly the Company is unable to exhibit the related information.

The Company contributed Rs. 43 crore and Rs. 82 crore and Rs. 38 crore and Rs. 74 crore during the quarter and half-year ended September 30, 2009 and September 30, 2008 respectively.

#### **24.2.19.b. Superannuation**

The Company contributed Rs. 22 crore and Rs. 43 crore and Rs. 21 crore and Rs. 37 crore during the quarter and half-year ended September 30, 2009 and September 30, 2008 respectively.
