### Significant accounting policies

### 1.1 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The financial statements are prepared in accordance with the principles and procedures required for the preparation and presentation of consolidated financial statements as laid down under the Accounting Standard (AS) 21, "Consolidated Financial Statements". The consolidated financial statements comprise the financial statements of the company, its controlled trusts and its subsidiaries as disclosed in Note 2.21, combined on a line-by-line basis by adding together book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances and transactions and resulting unrealised gain/loss. The consolidated financial statements are prepared by applying uniform accounting policies in use at the Group. Minority interests have been excluded. Minority interests represent that part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company.

Associates are entities over which the group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting as laid down under Accounting standard (AS) 23, "Accounting for Investment is Associate in Consolidated Financial Statements". The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The group's investment in associates includes goodwill identified on acquisition.

# 1.2 Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include computation of percentage of completion which requires the Group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended, provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of tangible assets and intangible assets.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

### 1.3 Revenue recognition

Revenue is primarily derived from software development and related services and from the licensing of software products. Arrangements with customers for software development and related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the Balance Sheet date is recognized as unbilled revenues. Revenue from fixed-price and fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized based upon the percentage of completion method. When there is uncertainty as to measurement or ultimate collectability revenue recognition is postponed until such uncertainty is resolved. Cost and earnings in excess of billings are classified as unbilled revenue while billings in excess of cost and earnings is classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Annual Technical Services revenue and revenue from fixed-price maintenance contracts are recognized ratably over the period in which services are rendered. Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in case of multiple element contracts, which require significant implementation services, where revenue for the entire arrangement is recognized over the implementation period based upon the percentage-of-completion method. Revenue from client training, support and other services arising due to the sale of software products is recognized as the related services are performed.

The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discount / incentive amount to each of the underlying revenue transactions that result in progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Group recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Group recognizes changes in the estimated amount of obligations for discounts using a cumulative catchup approach. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The Group presents revenues net of value added-taxes in its consolidated statement of profit and loss.

Profit on sale of investments is recorded on transfer of title from the Group and is determined as the difference between the sale price and carrying value of the investment. Lease rentals are recognized ratably on a straight line basis over the lease term. Interest is recognized using the time-proportion method, based on rates implicit in the transaction. Dividend income is recognized when the Group's right to receive dividend is established.

### 1.4 Provisions and contingent liabilities

A provision is recognized if, as a result of a past event, the Group has a present legal obligation that is reasonably estimable and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

### 1.5 Post-sales client support and warranties

The Group provides its clients with a fixed-period warranty for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in consolidated statement of profit and loss. The Group estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

### 1.6 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

### 1.7 Tangible assets and capital work-in-progress

Tangible assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until such assets are ready for use. Capital work-in-progress comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date.

# 1.8 Intangible assets including goodwill

Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortisation and impairment. Goodwill comprises the excess of purchase consideration over the parent's portion of equity of the subsidiary at the date on which investment in the subsidiary is made. Goodwill arising on consolidation or acquisition is not amortized but is tested for impairment.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use or sell the software and the costs can be measured reliably.

#### 1.9 Depreciation and amortisation

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management. Depreciation for assets purchased / sold during a period is proportionately charged. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Group for its use. Leasehold improvements are written off over the lower of the remaining primary period of lease or the life of the asset. The Management estimates the useful lives for the other fixed assets as follows:

| Buildings (1)              | 22-25 years |
|----------------------------|-------------|
| Plant and machinery (1)    | 5 years     |
| Office equipment           | 5 years     |
| Computer equipment (1)     | 3-5 years   |
| Furniture and fixtures (1) | 5 years     |
| Vehicles (1)               | 5 years     |

<sup>(1)</sup> For these class of assets, based on internal assessment and independent technical evaluation carried out by external valuers the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation and amortization methods, useful lives and residual values are reviewed periodically, including at each financial year end. (Refer note 2.7)

#### 1.10 Impairment

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset other than goodwill is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognized for the asset in prior years.

# 1.11 Retirement benefits to employees

#### a Gratuity

The Group provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of Infosys, Infosys BPO and Edgeverve. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). In case of Infosys BPO and Edgeverve, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust and and Edgeverve Systems Limited Employees' Gratuity Fund Trust, respectively Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation of India as permitted by law of India. The Group recognizes the net obligation of the gratuity plan in the Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15, 'Employee Benefits'. The Group's overall expected long-term rate-of-return on assets has been determined based on consideration of available market information, current provisions of Indian law specifying the instruments in which investments can be made, and historical returns. The discount rate is based on the Government securities yield. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the consolidated statement of profit and loss in the period in which they arise.

### b Superannuation

Certain employees of Infosys, Infosys BPO and Edgeverve are participants in a defined contribution plan. The Group has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

# c Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

In respect of Infosys BPO and Edgeverve, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the Company make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The Companies have no further obligations under the provident fund plan beyond its monthly contributions.

### d Compensated absences

The employees of the Group are entitled to compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

### 1.12 Share-based payments

The Group accounts for equity settled stock options as per the accounting treatment prescribed by Securities and Exchange Board of India ( share based employee benefits) Regulations, 2014 and the Guidance Note on Employee Share-based Payments issued by the Institute of Chartered Accountants of India using the intrinsic value method.

# 1.13 Foreign currency transactions

Foreign-currency denominated monetary assets and liabilities are translated at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of profit and loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Revenue, expense and cash-flow items denominated in foreign currencies are translated using the exchange rate in effect on the date of the transaction. Transaction gains or losses realised upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled.

The translation of financial statements of the foreign subsidiaries from the local currency to the reporting currency of the Company is performed for Balance Sheet accounts using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using a monthly average exchange rate for the respective periods and the resulting difference is presented as foreign currency translation reserve included in "Reserves and Surplus". When a subsidiary is disposed off, in part or in full, the relevant amount is transferred to profit or loss.

#### 1.14 Forward and options contracts in foreign currencies

The Group uses foreign exchange forward and options contracts to hedge its exposure to movements in foreign exchange rates. The use of these foreign exchange forward and options contracts reduce the risk or cost to the Group and the Group does not use those for trading or speculation purposes.

Effective April 1, 2008, the Group adopted AS 30, 'Financial Instruments: Recognition and Measurement', to the extent that the adoption did not conflict with existing accounting standards and other authoritative pronouncements of the Company Law and other regulatory requirements.

Forward and options contracts are fair valued at each reporting date. The resultant gain or loss from these transactions are recognized in the consolidated statement of profit and loss. The Group records the gain or loss on effective hedges, if any, in the foreign currency fluctuation reserve until the transactions are complete. On completion, the gain or loss is transferred to the consolidated statement of profit and loss of that period. To designate a forward or options contract as an effective hedge, the Management objectively evaluates and evidences with appropriate supporting documents at the inception of each contract and subsequently whether the contract is effective in achieving offsetting cash flows attributable to the hedged risk. In the absence of a designation as effective hedge, a gain or loss is recognized in the consolidated statement of profit and loss. Currently hedges undertaken by the Group are all ineffective in nature and the resultant gain or loss consequent to fair valuation is recognized in the consolidated statement of profit and loss at each reporting date.

# 1.15 Income taxes

Income taxes are accrued in the same period that the related revenue and expenses arise. A provision is made for income tax, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. Minimum alternate tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future income tax liability, is recognized as an asset in the Consolidated Balance Sheet if there is convincing evidence that the Group will pay normal tax after the tax holiday period and the resultant asset can be measured reliably. The Group offsets, on a year on year basis, the current tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

The differences that result between the profit considered for income taxes and the profit as per the financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount of timing difference. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on enacted or substantively enacted regulations. Deferred tax assets in situation where unabsorbed depreciation and carry forward business loss exists, are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax asset can be realised. Deferred tax assets, other than in situation of unabsorbed depreciation and carry forward business loss, are recognized only if there is reasonable certainty that they will be realised. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date. Deferred tax assets and deferred tax liabilities have been offset wherever the Group has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to consolidated statement of profit and loss are credited to the securities premium reserve.

#### 1.16 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the consolidated financial statements by the Board of Directors.

#### 1.17 Investments

Trade investments are the investments made to enhance the Group's business interests. Investments are either classified as current or long-term based on Management's intention. Current investments are carried at the lower of cost and fair value of each investment individually. Cost for overseas investments comprises the Indian Rupee value of the consideration paid for the investment translated at the exchange rate prevalent at the date of investment. Long term investments are carried at cost less provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

### 1.18 Cash and cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The Group considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

### 1.19 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

# 1.20 Leases

Lease under which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Such assets acquired are capitalized at fair value of the asset or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the consolidated statement of profit and loss over the lease term.

### 1.21 Government grants

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to depreciable assets are treated as deferred income and are recognized in the consolidated statement of profit and loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the consolidated statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

# 2 NOTES ON ACCOUNTS FOR THE YEAR ENDED MARCH 31, 2015

Amounts in the financial statements are presented in ₹ crore, except for per equity share data and as otherwise stated. All exact amounts are stated with the suffix "/-". One crore equals 10 million.

The previous period figures have been regrouped/reclassified, wherever necessary to conform to the current period presentation.

Forfeited shares amounted to ₹1,500/- (₹1,500/-)

The Company has only one class of shares referred to as equity shares having a par value of ₹5/-. Each holder of equity shares is entitled to one vote per share

The Company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting.

In the period of five years immediately preceding March 31, 2015:

The Company has allotted 57,42,36,166 fully paid up equity shares of face value ₹5/- each during the quarter ended December 31, 2014 pursuant to a bonus issue approved by the shareholders through a postal ballot. The record date fixed by the Board of Directors was December 3, 2014. Bonus share of one equity share for every equity share held, and a stock dividend of one American Depositary Share (ADS) for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depositary Receipt holder remains unchanged. Options granted under the stock option plan have been adjusted for bonus shares.

During the year ended March 31, 2014, the amount of dividend per share recognized as distribution to equity shareholder was  $\mathfrak{F}63$ /- (not adjusted for bonus issue). The dividend for the year ended March 31, 2014 includes  $\mathfrak{F}43$ /- (not adjusted for bonus issue) per share of final dividend. The total dividend appropriation for the year ended March 31, 2014 amounted to  $\mathfrak{F}4$ ,233 crore, including corporate dividend tax of  $\mathfrak{F}615$  crore.

The Board of Directors, in their meeting on October 10, 2014, declared an interim dividend of ₹30/- (not adjusted for bonus issue) per equity share. Further the Board of Directors, in their meeting on April 24, 2015, proposed a final dividend of ₹29.50/- per equity share (equivalent to ₹14.75 per share after 1:1 bonus issue, if approved by shareholders) for the financial year ended March 31, 2015. The proposal is subject to the approval of shareholders at the Annual General Meeting to be held on June 22, 2015. The total dividend appropriation for the year ended March 31, 2015 would amount to approximately ₹6,145 crore including corporate dividend tax of ₹1,034 crore.

The Board has decided to increase dividend pay-out ratio from up to 40% to up to 50% of post-tax consolidated profits effective fiscal 2015.

The Board in its meeting held on April 24, 2015 has considered and approved and recommended a bonus issue of one equity share for every equity share held, and a stock dividend of one American Depositary Share (ADS) for every ADS held, respectively, as on a record date to be determined. Consequently, the ratio of equity shares underlying the ADSs held by an American Depositary Receipt holder would remain unchanged. The bonus issue of equity shares and ADSs will be subject to approval by the shareholders through postal ballot, and any other applicable statutory and regulatory approvals. Accordingly, the record date for the bonus issues of equity shares and ADSs will be announced in due course.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts.

# **Stock Option Plan:**

2011 RSU Plan (the 2011 Plan): The Company has a 2011 RSU Plan which provides for the grant of restricted stock units (RSUs) to eligible employees of the Company. The Board of Directors recommended establishment of the 2011 Plan to the shareholders on August 30, 2011 and the shareholders approved the recommendation of the Board of Directors on October 17, 2011 through a postal ballot. The maximum aggregate number of shares that may be awarded under the Plan is 56,67,200 shares (currently held by the Infosys Limited Employees' Welfare Trust and adjusted for bonus shares issued) and the plan shall continue in effect for a term of 10 years from the date of initial grant under the plan. The RSUs will be issued at par value of the equity share. The 2011 Plan is administered by the Management Development and Compensation Committee now known as the Nomination and Remuneration Committee ( the Committee) and through the Infosys Limited Employees' Welfare Trust ( the trust). The Committee is comprised of independent members of the Board of Directors.

During the year ended March 31, 2015 the company made a grant of 27,067 restricted stock units to Dr. Vishal Sikka, Chief Executive Officer and Managing Director. The RSUs will vest over a period of four years from the date of the grant in the proportions specified in the award agreement. The RSUs will vest subject to achievement of certain key performance indicators as set forth in the award agreement for each applicable year of the vesting tranche and continued employment through each vesting date.

In accordance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014, the excess of the closing market price on the grant date of the RSUs over the exercise price is amortised on a straight-line basis over the vesting period.

The activity in the 2011 Plan during the year ended March 31, 2015 is set out below:

<sup>\*</sup>adjusted for bonus issue

The weighted average remaining contractual life of RSUs outstanding as of March 31, 2015 under the 2011 Plan was 2.39 years.

The differential on stock compensation expense if the 'fair value' of the RSU's on the date of the grant were considered instead of the 'intrinsic value' during the year ended March 31, 2015 is less than ₹1 crore. Consequently, there is no impact on earnings per share.

The fair value for the above impact analysis is estimated on the date of grant using the Black-Scholes-Merton model with the following assumptions:

| Particulars                         | Year ended     |
|-------------------------------------|----------------|
|                                     | March 31, 2015 |
| Weighted average share price (₹)    | 3,549          |
| Exercise price (₹)                  | 5              |
| Expected volatility (%)             | 30 - 37        |
| Expected life of the option (years) | 1 - 4          |
| Expected dividends (%)              | 1.84           |
| Risk-free interest rate (%)         | 8 - 9          |

The expected term of an RSU is estimated based on the vesting term and contractual term of the RSU, as well as expected exercise behaviour of the employee who receives the RSU. Expected volatility during the expected term of the RSU is based on historical volatility of the observed market prices of the company's publicly traded equity shares during a period equivalent to the expected term of the RSU.

The weighted average fair value of RSUs on grant date was ₹3,355/-

During the year ended March 31, 2015, the company recorded an employee compensation expense of ₹2 crore in the consolidated statement of profit and loss.

Income tax expense for the year ended March 31, 2015 and March 31, 2014 is reversals (net of provisions) of ₹158 crore and ₹22 crore pertaining to earlier periods.

The revision in the useful life of assets held at April 1, 2014 has resulted in a decrease in deferred tax credit by ₹172 crore for the year ended March 31, 2015(Refer note 2.7).

The provision for taxation includes tax liabilities in India on the company's global income as reduced by exempt incomes and any tax liabilities arising overseas on income sourced from those countries as per Indian Income Tax Act, 1961. Infosys' operations are conducted through Software Technology Parks ('STPs') and Special Economic Zones ('SEZs'). Income from STPs were tax exempt for the first 10 years from the fiscal year in which the unit commences software development, or March 31, 2011 which ever is earlier. Income from SEZs Unit is fully tax exempt for the first 5 years, 50% exempt for the next 5 years and 50% exempt for another 5 years subject to fulfilling certain conditions.

| (net of advances and deposits)   | 1,574           | 1,363      |  |

<sup>(1)</sup> Claims against the company not acknowledged as debts include demand from the Indian Income tax authorities for payment of tax of ₹3,337 crore (₹1,548 crore), including interest of ₹964 crore (₹430 crore) upon completion of their tax assessment for fiscal 2006, fiscal 2007, fiscal 2008, fiscal 2009 and fiscal 2010. These demands were paid to statutory tax authorities which includes ₹1,788 crore paid during the year ended March 31, 2015 consequent to demand from tax authorities in India for fiscal 2010 towards denial of certain tax benefits. The Company has filed an appeal with the Income Tax Appellate Tribunal.

Demand for fiscal 2006, fiscal 2008 and fiscal 2009 includes disallowance of a portion of the deduction claimed by the company under Section 10A of the Income Tax Act as determined by the ratio of export turnover to total turnover. This disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. Demand for fiscal 2007, fiscal 2008, fiscal 2009 and fiscal 2010 also includes disallowance of portion of profit earned outside India from the STP units and disallowance of profits earned from SEZ units under section 10AA of the Income Tax Act. The matter for fiscal 2007, fiscal 2008 and fiscal 2009 are pending before the Commissioner of Income tax (Appeals) Bangalore. For matter of fiscal 2006, the Commissioner of Income tax (Appeals) has passed a partly favorable order. The order giving effect of said Commissioner Order is awaited. The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

### 2.23 SEGMENT REPORTING

The Groups's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Effective year ended March 31, 2014, the Group reorganized its business to strengthen its focus on growing existing client relationships and increasing market share through service differentiation and operational agility. Consequent to the internal reorganization there were changes effected in the reportable industry segments based on the "management approach" as laid down in AS 17, Segment reporting and an additional segment, Life Sciences and Healthcare was identified. The Chief Executive Officer evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by industry classes and geographic segmentation of customers. Accordingly, segment information has been presented both along industry classes and geographic segmentation of customers, industry being the primary segment. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Industry segments for the Group are primarily enterprises in Financial Services and Insurance (FSI), enterprises in Manufacturing (MFG), enterprises in the Energy & utilities, Communication and Services (ECS), enterprises in Retail, Consumer packaged goods and Logistics (RCL), enterprises in Life Sciences and Healthcare (LSH). Geographic segmentation is based on business sourced from that geographic region and delivered from both onsite and off-shore. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India. Consequent to the above change in the composition of reportable industry segments, the prior year comparatives have been restated.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Allocated expenses of segments include expenses incurred for rendering services from the company's offshore software development centers and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the group.

Fixed assets used in the Group's business or liabilities contracted have not been identified to any of the reportable segments, as the fixed assets and services are used interchangeably between segments. Accordingly, no disclosure relating to total segment assets and liabilities are made. Geographical information on revenue and industry revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

As at March 31, 2015 and March 31, 2014, the plan assets have been primarily invested in insurer managed funds. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. The Group expects to contribute approximately ₹165 crore to the gratuity trust during fiscal 2016.

Effective July 1, 2007, the Company revised the employee death benefits provided under the gratuity plan, and included all eligible employees under a consolidated term insurance cover. Accordingly, the obligations under the gratuity plan reduced by  $\mathfrak{T}37$  crore, which is being amortized on a straight line basis to the statement of profit and loss over 10 years representing the average future service period of the employees. The unamortized liability as at March 31, 2015 and March 31, 2014 amounted to  $\mathfrak{T}7$  crore and  $\mathfrak{T}11$  crore, respectively and disclosed under 'Other long-term liabilities and 'other current liabilities'.

### 2.25 PROVIDENT FUND

The Group contributed ₹345 crore and ₹295 crore towards provident fund during the year ended March 31, 2015 and March 31, 2014, respectively.

The Guidance on Implementing AS 15, Employee Benefits (revised 2005) issued by Accounting Standards Board (ASB) states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is no shortfall as at March 31, 2015, 2014, 2013, 2012 and 2011, respectively.

The details of fund and plan asset position are given below:

### 2.29 INVESTMENT IN SUBSIDIARIES

# 2.29.1 INVESTMENT IN LODESTONE HOLDING AG

On October 22, 2012, Infosys acquired 100% of the outstanding share capital of Lodestone Holding AG, a global management consultancy firm headquartered in Zurich, Switzerland. The acquisition was executed through a share purchase agreement for an upfront cash consideration of  $\overline{1}$ 1,187 crore and a deferred consideration of upto  $\overline{1}$ 608 crore.

The deferred consideration is payable to the selling shareholders of Lodestone on the third anniversary of the acquisition date and is contingent upon their continued employment for a period of three years. The investment in Lodestone has been recorded at the acquisition cost and the deferred consideration is being recognized on a proportionate basis over a period of three years from the date of acquisition. An amount of ₹219 crore and ₹228 crore, representing the proportionate charge of the deferred consideration has been recognized as an expense during the year ended March 31, 2015 and March 31, 2014.

### 2.29.2 INVESTMENT IN PANAYA INC.

On March 5, 2015, Infosys acquired 100% of the voting interests in Panaya Inc. (Panaya), a Delaware Corporation in the United States. Panaya is a leading provider of automation technology for large scale enterprise and software management. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of ₹1.398 crore.

Panaya's CloudQuality<sup>TM</sup> suite positions Infosys to bring automation to several of its service lines via an agile SaaS model, and helps mitigate risk, reduce costs and shorten time to market for clients. This will help free Infosys from many repetitive tasks allowing it to focus on important, strategic challenges faced by clients. Panaya's proven technology would help to simplify the costs and complexities faced by businesses in managing their enterprise application landscapes."

The excess of the purchase consideration paid over the parent's portion of equity has been attributed to goodwill.

The following are the assets and liabilities taken over on acquisition of Panaya:

| Component           | Purchase price |
|---------------------|----------------|
| Component           | allocated      |
| Fixed assets        | 9              |
| Net current assets  | 38             |
|                     | 47             |
| Goodwill            | 1,351          |
| Total consideration | 1,398          |

The amounts of revenue and net loss of Panaya since the acquisition date included in the statement of profit and loss for the year ended March 31, 2015 is  $\overline{<}$ 12 crore and  $\overline{<}$ 6 crore, respectively.

### 2.29.3 PROPOSED INVESTMENTS

On April 24, 2015, the company entered into a definitive agreement to acquire Kallidus Inc. (d.b.a Skava) and its affiliate, a leading provider of digital experience solutions, including mobile commerce and in-store shopping experiences to large retail clients for a consideration of \$120 million (approximately ₹750 crore) including a deferred component and retention bonus.

#### 2.30 CORPORATE SOCIAL RESPONSIBILITY (CSR)

As per Section 135 of the Companies Act, 2013, a CSR committee has been formed by the company. The areas for CSR activities are eradication of hunger and malnutrition, promoting education, art and culture, healthcare, destitute care and rehabilitation and rural development projects. The funds were primarily allocated to a corpus and utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013.

### 2.31 LITIGATION

In 2011, the U.S. Department of Homeland Security ("DHS") reviewed the company's employer eligibility verifications on Form I-9 with respect to its employees working in the United States. In connection with this review, the company was advised that the DHS has found errors in a significant percentage of its Forms I-9.

On October 30, 2013, the company settled the foregoing matters and entered into a Settlement Agreement ("Settlement Agreement") with the U.S. Attorney, the DHS and the United States Department of State ("State," and collectively with the U.S. Attorney and the DHS, the "United States").

In the Settlement Agreement, the company denied and disputed all allegations made by the United States, except for the allegation that the company failed to maintain accurate Forms I-9 records for many of its foreign nationals in the United States in 2010 and 2011 as required by law, and that such failure constituted civil violations of certain laws.

During the year ended March 31, 2014 the Company recorded a charge related to the settlement agreement (including legal costs) of ₹219 crore related to the matters that were the subject of the Settlement agreement. The said amount was paid prior to December 31, 2013.

In addition, the company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the company's results of operations or financial condition.

# 2.32 EDGEVERVE SYSTEMS LIMITED

Edgeverve was created as a wholly owned subsidiary to focus on developing and selling products and platforms. On April 15, 2014, the Board of Directors of Infosys had authorized the Company to execute a Business Transfer Agreement and related documents with Edgeverve, subject to securing the requisite approval from shareholders in the Annual General Meeting. Subsequently, at the AGM held on June 14, 2014, the shareholders have authorised the Board to enter into a Business Transfer Agreement and related documents with Edgeverve, with effect from July 1, 2014 or such other date as may be decided by the Board of Directors. The company has undertaken an enterprise valuation by an independent valuer and accordingly the business has been transferred for a consideration of ₹421 crore (approximately \$70 million) with effect from July 1, 2014 which is settled through the issue of fully paid up equity shares.

The transfer of assets and liabilities is accounted for at carrying values and does not have any impact on the consolidated financial statements.
