Notes to the Consolidated Interim Financial Statements

1. Company Overview and Significant Accounting Policies

1.1 Company overview

Infosys is a global leader in consulting, technology, outsourcing and next-generation services. Along with its subsidiaries, Infosys provides Business IT services (comprising application development and maintenance, independent validation, infrastructure management, engineering services comprising product engineering and life cycle solutions and business process management); Consulting and systems integration services (comprising consulting, enterprise solutions, systems integration and advanced technologies); Products, business platforms and solutions to accelerate intellectual property-led innovation including Finacle, our banking solution; and offerings in the areas of Analytics. Cloud, and Digital Transformation.

Infosys together with its subsidiaries and controlled trusts is herein after referred to as the "Group".

The company is a public limited company incorporated and domiciled in India and has its registered office at Bangalore, Karnataka, India. The company has its primary listings on the BSE Limited and National Stock Exchange in India. The company's American Depositary Shares representing equity shares are also listed on the New York Stock Exchange (NYSE), NYSE Euronext London and NYSE Euronext Paris.

The Group's consolidated financial statements are authorized for issue by the company's Board of Directors on July 21, 2015.

1.2 Basis of preparation of financial statements

These consolidated financial statements have been prepared in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS), under the historical cost convention on the accrual basis except for certain financial instruments and prepaid gratuity benefits which have been measured at fair values. Accounting policies have been applied consistently to all periods presented in these consolidated financial statements.

1.3 Basis of consolidation

Infosys consolidates entities which it owns or controls. The consolidated financial statements comprise the financial statements of the company, its controlled trusts and its subsidiaries as disclosed in Note 2.18. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Associates are entities over which the group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The group's investment in associates includes goodwill identified on acquisition.

1.4 Use of estimates

The preparation of the financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 1.5. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

1.5 Critical accounting estimates

a. Revenue recognition

The group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b. Income taxes

The company's two major tax jurisdictions are India and the U.S., though the company also files tax returns in other overseas jurisdictions. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also refer to Note 2.16.

c. Business combinations and intangible assets

Business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

d. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

e. Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

1.6 Revenue recognition

The company derives revenues primarily from software related services and from the licensing of software products. Arrangements with customers for software related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings in excess of billings are classified as unbilled revenue while billings in excess of costs and earnings are classified as unearned revenue. Maintenance revenue is recognised ratably over the term of the underlying maintenance

In arrangements for software development and related services and maintenance services, the company has applied the guidance in IAS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in IAS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the company is unable to establish objective and reliable evidence of fair value for the software development and related services, the company has used a residual method to allocate the arrangement consideration. In these cases the balance of the consideration, after allocating the fair values of undelivered components of a transaction has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues are recognized when the general revenue recognition criteria given in IAS 18 are met. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The company has applied the principles given in IAS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of their fair values have been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered elements. In the absence of objective and reliable evidence of fair value for implementation, the entire arrangement fee for license and implementation is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are performed. ATS revenue is recognized ratably over the period in which the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

The company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying revenue transaction that results in progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The company presents revenues net of value-added taxes in its statement of comprehensive income.

1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Building 22-25 years
Plant and machinery 5 years
Computer equipment 3-5 years
Furniture and fixtures 5 years
Vehicles 5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. (Refer note 2.5)

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of comprehensive income when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in net profit in the statement of comprehensive income. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

1.8 Business combinations

Business combinations have been accounted for using the acquisition method under the provisions of IFRS 3 (Revised), Business Combinations.

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Business combinations between entities under common control is outside the scope of IFRS 3 (Revised), Business Combinations and is accounted for at carrying value.

Transaction costs that the Group incurs in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

1.9 Goodwil

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized immediately in net profit in the statement of comprehensive income. Goodwill is measured at cost less accumulated impairment losses.

1.10 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as cost of sales.

1.11 Financial instruments

Financial instruments of the Group are classified in the following categories: non-derivative financial instruments comprising of loans and receivables, available-for-sale financial assets and trade and other payables; derivative financial instruments under the category of financial assets or financial liabilities at fair value through profit or loss; share capital and treasury shares. The classification of financial instruments depends on the purpose for which those were acquired. Management determines the classification of its financial instruments at initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

a. Non-derivative financial instruments

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those maturing later than 12 months after the balance sheet date which are presented as non-current assets. Loans and receivables are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, less any impairment loss or provisions for doubtful accounts. Loans and receivables are represented by trade receivables, net of allowances for impairment, unbilled revenue, cash and cash equivalents, prepayments, certificates of deposit, and other assets. Cash and cash equivalents comprise cash and bank deposits and deposits with corporations. The company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents. Certificates of deposit is a negotiable money market instrument for funds deposited at a bank or other eligible financial institution for a specified time period. For these financial instruments, the carrying amounts approximate fair value due to the short maturity of these instruments. Loans and receivables are reclassified to available-for-sale financial assets when the financial asset becomes quoted in an active market.

(ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or are not classified in any of the other categories. Available-for-sale financial assets are recognized initially at fair value plus transactions costs. Subsequent to initial recognition these are measured at fair value and changes therein, other than impairment losses and foreign exchange gains and losses on available-for-sale monetary items are recognized directly in other comprehensive income. When an investment is derecognized, the cumulative gain or loss in other comprehensive income is transferred to net profit in the statement of comprehensive income. These are presented as current assets unless management intends to dispose off the assets after 12 months from the balance sheet date.

(iii) Trade and other payables

Trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

b. Derivative financial instruments

Financial assets or financial liabilities, at fair value through profit or loss.

This category has two sub-categories wherein, financial assets or financial liabilities are held for trading or are designated as such upon initial recognition. A financial asset is classified as held for trading if it is acquired principally for the purpose of selling in the short term. Derivatives are categorized as held for trading unless they are designated as hedges.

The group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. Although the group believes that these financial instruments constitute hedges from an economic perspective, they do not qualify for hedge accounting under IAS 39, Financial Instruments: Recognition and Measurement. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per IAS 39, is categorized as a financial asset, at fair value through profit or loss.

Derivatives are recognized initially at fair value and attributable transaction costs are recognized in net profit in the statement of comprehensive income when incurred. Subsequent to initial recognition, derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

c. Share capital and treasury shares

Ordinary Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

Treasury Shares

When any entity within the Group purchases the company's ordinary shares, the consideration paid including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from share premium.

1.12 Impairment

a. Financial assets

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

(i) Loans and receivables

Impairment loss in respect of loans and receivables measured at amortized cost are calculated as the difference between their carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Such impairment loss is recognized in net profit in the statement of comprehensive income.

(ii) Available-for-sale financial assets

Significant or prolonged decline in the fair value of the security below its cost and the disappearance of an active trading market for the security are objective evidence that the security is impaired. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value and is recognized in net profit in the statement of comprehensive income. The cumulative loss that was recognized in other comprehensive income is transferred to net profit in the statement of comprehensive income upon impairment.

b. Non-financial assets

(i) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) or groups of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU.

Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognized in net profit in the statement of comprehensive income and is not reversed in the subsequent period.

(ii) Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in net profit in the statement of comprehensive income is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

c. Reversal of impairment loss

An impairment loss for financial assets is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years. A reversal of impairment loss for an asset other than goodwill and available- for-sale financial assets that are equity securities is recognized in net profit in the statement of comprehensive income. For available-for-sale financial assets that are equity securities, the reversal is recognized in other comprehensive income.

1.13 Fair value of financial instruments

In determining the fair value of its financial instruments, the group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

For all other financial instruments the carrying amounts approximate fair value due to the short maturity of those instruments. The fair value of securities, which do not have an active market and where it is not practicable to determine the fair values with sufficient reliability, are carried at cost less impairment.

1.14 Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

a. Post sales client support

The group provides its clients with a fixed-period post sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in cost of sales. The group estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

1.15 Foreign currency

Functional currency

The functional currency of Infosys, Infosys BPO, controlled trusts, Edgeverve and Skava is the Indian rupee. The functional currencies for Infosys Australia, Infosys China, Infosys Mexico, Infosys Sweden, Infosys Brasil, Infosys Public Services, Infosys Shanghai, Infosys Lodestone, Infosys Americas, Infosys Nova, Panaya and Kallidus are the respective local currencies. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the statement of comprehensive income. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements of the foreign subsidiaries to the functional currency of the company is performed for assets and liabilities using the exchange rate in effect at the balance sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under other components of equity. When a subsidiary is disposed off, in full, the relevant amount is transferred to net profit in the statement of comprehensive income. However when a change in the parent's ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the balance sheet date.

1.16 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.17 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of comprehensive income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

1.18 Employee benefits

1.18.1 Gratuity

The Group provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of Infosys and its Indian subsidiaries. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust, the Trust). In case of Infosys BPO and Edgeverve, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust and Edgeverve Systems Limited Employees' Gratuity Fund Trust, respectively. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation of India as permitted by law of India.

The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profits in the statement of comprehensive income.

1.18.2 Superannuation

Certain employees of Infosys, Infosys BPO and Edgeverve are participants in a defined contribution plan. The Group has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

1.18.3 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

In respect of Indian subsidiaries, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the respective companies make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The companies have no further obligation to the plan beyond its monthly contributions.

1.18.4 Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

1.19 Share-based compensation

The Group recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with IFRS 2, Share-Based Payment. The estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share premium.

1.20 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's Board of Directors.

1.21 Operating profit

Operating profit for the Group is computed considering the revenues, net of cost of sales, selling and marketing expenses and administrative expenses.

1.22 Other income

Other income is comprised primarily of interest income, dividend income and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

1.23 Leases

Leases under which the group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in net profit in the statement of comprehensive income over the lease term.

1.24 Government grants

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of comprehensive income on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the statement of comprehensive income over the periods necessary to match them with the related costs which they are intended to compensate.

1.25 Recent accounting pronouncements

1.25.1 Standards issued but not yet effective

IFRS 9 Financial instruments: In July 2014, the International Accounting Standards Board issued the final version of IFRS 9, Financial Instruments. The standard reduces the complexity of the current rules on financial instruments as mandated in IAS 39. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the other comprehensive income.

IFRS 9 replaces the 'incurred loss model' in IAS 39 with an 'expected credit loss' model. The measurement uses a dual measurement approach, under which the loss allowance is measured as either 12 month expected credit losses or lifetime expected credit losses. The standard also introduces new presentation and disclosure requirements.

The effective date for adoption of IFRS 9 is annual periods beginning on or after January 1, 2018, though early adoption is permitted. The Group is currently evaluating the requirements of IFRS 9, and has not yet determined the impact on the consolidated financial statements.

IFRS 15 Revenue from Contract with Customers: In May 2014, the International Accounting Standards Board (IASB) issued IFRS 15, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits the use of either the retrospective or cumulative effect transition method. The effective date for adoption of IFRS 15 is annual periods beginning on or after January 1, 2017, though early adoption is permitted. The Group has not yet selected a transition method and has not yet evaluated the impact of IFRS 15 on the consolidated financial statements.

In May 2015, the IASB published an exposure draft 'Effective date of IFRS 15' to propose changing the effective date of IFRS 15 to periods beginning on or after January 1, 2018 instead of January 1, 2017.

2. Notes to the consolidated financial statements

2.1 Cash and cash equivalents

Cash and cash equivalents consist of the following:

cash and eash equivalents consist of the following.		(In ₹ crore)
	As of	
	June 30, 2015	March 31, 2015
Cash and bank deposits	24,711	26,195
Deposits with corporation	3,431	4,172
	28,142	30,367

Cash and cash equivalents as of June 30, 2015 and March 31, 2015 include restricted cash and bank balances of ₹375 crore and ₹364 crore, respectively. The restrictions are primarily on account of cash and bank balances held by irrevocable trusts controlled by the Company, bank balances held as margin money deposits against guarantees and balances held in unpaid dividend bank accounts.

The deposits maintained by the Group with banks and corporations comprise of time deposits, which can be withdrawn by the Group at any point without prior notice or penalty on the principal.

The table below provides details of cash and cash equivalents:

2.2 Available-for-sale financial assets

Investments in mutual fund units, quoted debt securities and unquoted equity and preference securities are classified as available-for-sale financial assets.

Cost and fair value of the above investments are as follows:

cost and tain value of the above investments are as follows.		(In ₹ crore)
	As of	1
	June 30, 2015	March 31, 2015
Current		
Mutual fund units:		
Liquid mutual funds		
Cost and fair value	736	842
Fixed maturity plan securities		
Cost	-	30
Gross unrealised holding gains	-	2
Fair value	-	32
	736	874
Non-current		
Quoted debt securities:		
Cost	1,377	1,352
Gross unrealised holding gain/ (loss)	(20)	(8)
Fair value	1,357	1,344
Unquoted equity and preference securities:		
Cost	14	1
Gross unrealised holding gains	-	-
Fair value	14	1
	1,371	1,345
Total available-for-sale financial assets	2,107	2,219

Mutual fund units:

Liquid mutual funds

The fair value of liquid mutual funds as of June 30, 2015 and March 31, 2015 is ₹736 crore and ₹842 crore, respectively. The fair value is based on quoted price.

Fixed maturity plan securities:

During the three months ended June 30, 2015, the company redeemed fixed maturity plans securities of $\overline{\varsigma}30$ crore. On redemption, the unrealised gain of $\overline{\varsigma}2$ crore pertaining to these securities has been reclassified from other comprehensive income to profit or loss.

The fair value of fixed maturity plan securities as of March 31, 2015 is ₹32 crore. The fair value is based on quotes reflected in actual transactions in similar instruments as available on March 31, 2015. The net unrealized gain of ₹3 crore, net of taxes less than ₹1 crore has been recognized in other comprehensive income for the three months ended June 30, 2014 (Refer to note 2.16).

Quoted debt securities:

The fair value of quoted debt securities as of June 30, 2015 and March 31, 2015 is ₹1,357 crore and ₹1,344 crore, respectively. The net unrealised loss of ₹11 crore, net of taxes of ₹1 crore, has been recognized in other comprehensive income for the three months ended June 30, 2015. The net unrealized gain of ₹13 crore, net of taxes has been recognized in other comprehensive income for the three months ended June 30, 2014 (Refer to note 2.16). The fair value is based on quoted prices and market observable inputs.

2.3 Business combinations

Lodestone

On October 22, 2012, Infosys acquired 100% of the voting interests in Lodestone Holding AG, a global management consultancy firm headquartered in Zurich. The business acquisition was conducted by entering into a share purchase agreement for a cash consideration of ₹1,187 crore and an additional consideration of upto ₹608 crore, which the company refers to as deferred purchase price, estimated on the date of acquisition, payable to the selling shareholders of Lodestone Holding AG who are continuously employed or otherwise engaged by the Group during the three year period following the date of the acquisition.

This transaction is treated as post acquisition employee remuneration expense as per IFRS 3R. For the three months ended June 30, 2015 and June 30, 2014, a post-acquisition employee remuneration expense of ₹60 crore and ₹56 crore respectively, is recorded in cost of sales in the statement of comprehensive income. As of June 30, 2015 and March 31, 2015, the liability towards deferred purchase price amounted to ₹580 crore and ₹487 crore, respectively.

Panaya

On March 5, 2015, Infosys acquired 100% of the voting interests in Panaya Inc. (Panaya), a Delaware Corporation in the United States. Panaya is a leading provider of automation technology for large scale enterprise and software management. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of ₹1,398 crore.

Panaya's CloudQualityTM suite positions Infosys to bring automation to several of its service lines via an agile SaaS model, and helps mitigate risk, reduce costs and shorten time to market for clients. This will help free Infosys from many repetitive tasks allowing it to focus on important, strategic challenges faced by clients. Panaya's proven technology would help to simplify the costs and complexities faced by businesses in managing their enterprise application landscapes. The excess of the purchase consideration paid over the fair value of net assets acquired has been attributed to goodwill.

The purchase price has been allocated based on Management's estimates and independent appraisal of fair values as follows:

(In ₹ crore)

Component	Acquiree's carrying	Fair value adjustments	Purchase price allocated
Component	amount	ran value aujustinents	Turchase price anocated
Property, plant and equipment	9	-	9
Net current assets *	38	=	38
Intangible assets – technology	_	243	243
Intangible assets – trade name	_	21	21
Intangible assets - customer contracts and relationships	_	82	82
Intangible assets – non compete agreements	_	26	26
Deferred tax liabilities on intangible assets	_	(99)	(99)
	47	273	320
Goodwill	<u> </u>		1,078
Total purchase price		-	1,398

^{*} Includes cash and cash equivalents acquired of ₹116 crore.

The goodwill is not tax deductible.

The gross amount of trade receivables acquired and its fair value is ₹58 crore and the amounts have been largely collected.

The fair value of total cash consideration as at the acquisition date was ₹1,398 crore.

The transaction costs of $\sqrt[3]{2}$ crore related to the acquisition have been included under administrative expenses in the statement of comprehensive income for the year ended March 31, 2015.

EdgeVerve Systems Limited

EdgeVerve was created as a wholly owned subsidiary to focus on developing and selling products and platforms. On April 15, 2014, the Board of Directors of Infosys had authorized the Company to execute a Business Transfer Agreement and related documents with EdgeVerve, subject to securing the requisite approval from shareholders in the Annual General Meeting. Subsequently, at the AGM held on June 14, 2014, the shareholders have authorised the Board to enter into a Business Transfer Agreement and related documents with EdgeVerve, with effect from July 1, 2014 or such other date as may be decided by the Board of Directors. The company has undertaken an enterprise valuation by an independent valuer and accordingly the business has been transferred for a consideration of ₹421 crore with effect from July 1, 2014 which is settled through the issue of fully paid up equity shares.

The transfer of assets and liabilities is accounted for at carrying values and does not have any impact on the consolidated financial statements.

Finacle and Edge Services

On April 24, 2015, the Board of Directors of Infosys has authorized the Company to execute a Business Transfer Agreement and related documents with EgdeVerve, a wholly owned subsidiary, to transfer the business of Finacle and Edge Services, subject to securing the requisite approval from shareholders through postal ballot. Subsequently, on June 4, 2015, the shareholders have authorized the execution of Business Transfer Agreement and related documnets with EdgeVerve, with effect from August 1, 2015 or any other date as may be decided by the Board. The company has undertaken independent valuation by an independent valuer and accordingly the business will be transferred for a consideration of upto ₹3,400 crore and upto ₹220 crore for Finacle and Edge Services, respectively. The transfer of assets and liabilities between entities under common control will be accounted for at carrying values and will not have any impact on the consolidated financial statements.

Infosys Public Services

On June 22, 2015, the shareholders in the Annual General Meeting, have approved to enter into a contract to purchase, lease, transfer, assign or otherwise acquire the whole part of the healthcare business, including the rights and properties relating thereto, from Infosys Public Services Inc. (IPS), a wholly-owned subsidiary of the Company. This is for an estimated consideration of up to ₹ 625 crore approximately to be discharged in a manner and on such terms and conditions as may be mutually agreed upon between the Board of Directors of the company and IPS with effect from a date as may be decided by the Board of directors.

Kallidus Inc. (d.b.a Skava)

On June 2, 2015, Infosys acquired 100% of the voting interests in Kallidus Inc., US (Kallidus), a leading provider of digital experience solutions, including mobile commerce and in-shore shopping experiences to large retail clients and 100% of the voting interests of Skava Systems Private Limited, India, an affiliate of Kallidus. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of ₹578 crore and a contingent consideration of up to ₹128 crore.

Infosys expects to help its clients bring new digital experiences to their customers through IP-led technology offerings, new automation tools and unparalleled skill and expertise in these new emerging areas. The excess of the purchase consideration paid over the fair value of assets acquired has been attributed to goodwill.

The purchase price has been allocated based on management's estimates and independent appraisal of fair values as follows:

(in ₹ crore)

Component	Acquiree's carrying amount	Fair value adjustments	Purchase price allocated
Net assets ^(*)	35	_	35
Intangible assets – technology	_	130	130
Intangible assets – trade name	=	14	14
Intangible assets - customer contracts and relationships	_	175	175
Deferred tax liabilities on intangible assets	_	(128)	(128)
	35	191	226
Goodwill	<u>'</u>		452
Total purchase price			678

^{*}Includes cash and cash equivalents acquired of ₹29 crore

The goodwill is not tax deductible.

The gross amount of trade receivables acquired and its fair value is ₹57 crore and the amounts are expected to be fully collected.

The acquisition date fair value of each major class of consideration as of the acquisition date is as follows:

(in ₹ crore)

Component	Consideration settled
Cash paid	578
Fair value of contingent consideration	100
Total purchase price	678

The payment of contingent consideration to sellers of Kallidus is dependent upon the achievement of certain financial targets by Kallidus over a period of 3 years ending on December 31, 2017.

The fair value of contingent consideration is determined by discounting the estimated amount payable to the sellers of Kallidus on achievement of certain financial targets. The key inputs used in determination of the fair value of contingent consideration are the discount rate of 14% and the probabilities of achievement of the financial targets.

The transaction costs of $\P12$ crore related to the acquisition have been included under administrative expenses in the statement of comprehensive income for the three months ended June 30, 2015.

2.4 Prepayments and other assets

Prepayments and other assets consist of the following:

(In ₹ crore)

	As of		
	June 30, 2015	March 31, 2015	
Current			
Rental deposits	24	24	
Security deposits	3	4	
Loans and advances to employees	220	222	
Prepaid expenses ⁽¹⁾	231	98	
Interest accrued and not due	835	396	
Withholding taxes ⁽¹⁾	1,428	1,364	
Advance payments to vendors for supply of goods ⁽¹⁾	63	79	
Deposit with corporations	1,107	1,100	
Other assets	99	9	
	4,010	3,296	
Non-current			
Loans and advances to employees	34	31	
Deposit with corporation	70	58	
Rental deposits	73	47	
Security deposits	72	68	
Prepaid expenses $^{(I)}$	34	7	
Prepaid gratuity ⁽¹⁾	19	27	
	302	238	
	4,312	3,534	
Financial assets in prepayments and other assets	2,537	1,959	

⁽¹⁾ Non financial assets

Withholding taxes primarily consist of input tax credits. Other assets primarily represent travel advances and other recoverables. Security deposits relate principally to leased telephone lines and electricity supplies.

Deposit with corporations represents amounts deposited to settle certain employee-related obligations as and when they arise during the normal course of business.

2.5 Property, plant and equipment

Following are the changes in the carrying value of property, plant and equipment for the three months ended June 30, 2015:

								(In ₹ crore)
	Land	Buildings	Plant and	Computer	Furniture and	Vehicles	Capital work-in-	Total

Carrying value as of April 1, 2014	1,140	3,232	654	694	317	18	1,832	7,887
Carrying value as of March 31, 2015	1,546	3,899	811	1,060	354	15	1,440	9,125

During the three months ended June 30, 2014, the management based on internal and external technical evaluation had changed the useful life of certain assets primarily consisting of buildings and computers with effect from April 1, 2014. Accordingly, the useful lives of certain assets required a change from previous estimate.

The depreciation expense is included in cost of sales in the consolidated statement of comprehensive income.

Carrying value of land includes $\ref{6}15$ crore and $\ref{6}15$ crore as of June 30, 2015 and March 31, 2015, respectively, towards deposits paid under certain lease-cum-sale agreements to acquire land including agreements where the Company has an option to purchase or renew the properties on expiry of the lease period. The contractual commitments for capital expenditure were $\ref{1}$,383 crore and $\ref{1}$,574 crore, as of June 30, 2015 and March 31, 2015, respectively.

2.6 Goodwill and intangible assets

Following is a summary of changes in the carrying amount of goodwill:

(In ₹ crore)

	As of	<u> </u>
	June 30, 2015	March 31, 2015
Carrying value at the beginning	3,091	2,157
Goodwill on Panaya acquisition	-	1,078
Goodwill on Kallidus d.b.a Skava acquisition (Refer note 2.3)	452	-
Translation differences	92	(144)
Carrying value at the end	3,635	3,091

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generate units (CGU) or groups of CGU's, which benefit from the synergies of the acquisition. The chief operating decision maker reviews the goodwill for any impairment at the operating segment level, which is represented through groups of CGU's.

Effective this quarter, the company reorganized its business to to support its objective of delivery innovation. Consequent to the internal reorganization there were changes effected in the segments based on the "management approach" as defined in IFRS 8, Operating Segments. (Refer Note 2.19). Accordingly the goodwill has been allocated to the new operating segments as at June 30, 2015.

(In ₹ crore) Segment As of June 30, 2015 Financial services 815 Manufacturing 807 567 Retail, Consumer packaged goods and Logistics 635 Life Sciences, Healthcare and Insurance 643 Energy & utilities, Communication and Services 3,467 Operating segments without significant goodwill 168 3,635

The entire goodwill relating to Infosys BPO's acquisition of McCamish has been allocated to the groups of CGU's which are represented by the Life Sciences, Healthcare and Insurance segment.

The goodwill relating to Infosys Lodestone, Portland, Panaya and Kallidus d.b.a Skava acquisitions has been allocated to the groups of CGU's which are represented by the entity's operating segment.

The following table gives the break-up of allocation of goodwill to operating segments as at March 31, 2015:

	(In ₹ crore)
Segment	As of
	March 31, 2015
Financial services	663
Insurance	367
Manufacturing	656
Energy, Communication and services	318
Resources & utilities	141
Retail, Consumer packaged goods and logistics	473
Life Sciences and Healthcare	193
Growth Markets	280
Total	3,091

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value-in-use is determined based on specific calculations. These calculations use pre-tax cash flow projections over a period of five years, based on financial budgets approved by management and an average of the range of each assumption mentioned below. As of March 31, 2015, the estimated recoverable amount of the CGU exceeded its carrying amount. The recoverable amount was computed based on the fair value being higher than value-in-use and the carrying amount of the CGU was computed by allocating the net assets to operating segments for the purpose of impairment testing. The key assumptions used for the calculations are as follows:

	(in %)
	March 31, 2015
Long term growth rate	8-10
Operating margins	17-20
Discount rate	13.9

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. These estimates are likely to differ from future actual results of operations and cash flows.

Following are the changes in the carrying value of acquired intangible assets for the three months ended June 30, 2015:

								(In ₹ crore)
	Customer related	Software related	contracting	Intellectual I property rights related	Land use- rights related	Marketing Related	Others	Total

Fair value hierarchy

Total

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of June 30, 2015:

 $(\mathit{In} \ \cite{normalizer} \ \mathit{crore})$ Fair value measurement at end of the reporting period/year using

7,087

7,194

	2013			
		Level 1	Level 2	Level 3
Assets				-
Available- for- sale financial asset- Investments in liquid mutual fund units (Refer Note 2.2)	736	736	-	-
Available- for- sale financial asset- Investments in quoted debt securities (Refer Note 2.2)	1,357	404	953	-
Available- for- sale financial asset- Investments in preference securities (Refer Note 2.2)	13	-	-	13
Derivative financial instruments - gain on outstanding foreign exchange forward and option contracts	41	-	41	-
Liabilities				
Derivative financial instruments - loss on outstanding foreign exchange forward and option contracts	6	-	6	-
Liability towards contingent consideration (Refer note 2.9)	101	-	-	101

As of June 30,

During the three months ended June 30, 2015, quoted debt securities of ₹220 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs

A one percentage point change in the unobservable inputs used in fair valuation of the contingent consideration does not have a significant impact in its value.

	As of March 31, Fair value measurement at end of the reporting period 2015				
		Level 1	Level 2	Level 3	
Assets					
Available- for- sale financial asset- Investments in liquid mutual fund units (Refer Note 2.2)	842	842	-	-	
Available- for- sale financial asset- Investments in fixed maturity plan securities (Refer Note 2.2)	32	-	32	-	
Available- for- sale financial asset- Investments in quoted debt securities (Refer Note 2.2)	1,344	608	736	-	
Derivative financial instruments- gain on outstanding foreign exchange forward and option contracts	101	-	101	-	
Liabilities					
Derivative financial instruments- loss on outstanding foreign exchange forward and option contracts	3	-	3	-	

Income from financial assets or liabilities that are not at fair value through profit or loss is as follows:

(In ₹ crore)

	Three months ended J	une 30
	2015	2014
Interest income on deposits and certificates of deposit (Refer Note 2.13)	657	614
Income from available-for-sale financial assets (Refer Note 2.13)	49	79
	706	693

Derivative financial instruments

The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign exchange forward and option contracts:

	As of		As of		
	June 30, 20)15	March 31, 2015		
	In million	In ₹ crore	In million	In ₹ crore	
Forward contracts					
In U.S. dollars	705	4,487	716	4,475	
In Euro	66	470	67	447	
In United Kingdom Pound Sterling	63	627	73	671	
In Australian dollars	90	440	98	466	
In Canadian dollars	12	62	12	59	
In Singapore dollars	25	118	25	114	
Total forwards		6,204		6,232	

The Group recognized a net loss on derivative financial instruments of ₹76 crore during the three months ended June 30, 2015 as against a net gain on derivative financial instruments of ₹76 crore during the three months ended June 30, 2014, which are included in other income.

The foreign exchange forward and option contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

		(In ₹ crore)
	As of	
	June 30, 2015	March 31, 2015
Not later than one month	1,535	1,484
Later than one month and not later than three months	2,849	3,781
Later than three months and not later than one year	1,820	967
	6,204	6,232

Financial risk management

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The demographics of the customer including the default risk of the industry and country in which the customer operates also has an influence on credit risk assessment.

Market risk

The Group operates internationally and a major portion of the business is transacted in several currencies and consequently the Group is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Group's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table gives details in respect of the outstanding foreign exchange forward and option contracts:

(In ₹ crore)

	As of	
	June 30, 2015	March 31, 2015
Aggregate amount of outstanding forward and option contracts	6,204	6,232
Gain on outstanding forward and option contracts	41	101
Loss on outstanding forward and option contracts	6	3

The following table analyzes foreign currency risk from financial instruments as of June 30, 2015:

(In ₹ crore)

	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Cash and cash equivalents	1,095	132	57	161	526	1,971

Trade payables	(59)	(14)	-	(2)	(56)	(131)
Client deposits	(20)	-	(1)	-	(6)	(27)
Accrued expenses	(749)	(143)	(78)	(25)	(165)	(1,160)
Employee benefit obligations	(436)	(59)	(37)	(130)	(105)	(767)
Other liabilities	(761)	(116)	(23)	(22)	(637)	(1,559)
Net assets / (liabilities)	7,483	1,125	587	518	355	10,068

For the three months ended June 30, 2015 and June 30, 2014, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, has affected the Company's incremental operating margins by approximately 0.49% and 0.51%, respectively.

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹10,548 crore and ₹9,713 crore as of June 30, 2015 and March 31, 2015, respectively and unbilled revenue amounting to ₹2,953 crore and ₹2,845 crore as of June 30, 2015 and March 31, 2015, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business.

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

(In %)

	Three months en	led June 30
	2015	2014
Revenue from top customer	3.7	3.4
Revenue from top five customers	14.0	13.7

Financial assets that are neither past due nor impaired

Cash and cash equivalents, available-for-sale financial assets and investment in certificates of deposit are neither past due nor impaired. Cash and cash equivalents include deposits with banks and corporations with high credit-ratings assigned by international and domestic credit-rating agencies. Available-for-sale financial assets include investment in liquid mutual fund units, quoted debt securities and unquoted equity and preference securities. Certificates of deposit represent funds deposited at a bank or other eligible financial institution for a specified time period. Investment in quoted debt securities represents the investments made in debt securities issued by government and quasi government organizations. Of the total trade receivables, ₹7,057 crore and ₹7,336 crore as of June 30, 2015 and March 31, 2015, respectively, were neither past due nor impaired.

There is no other class of financial assets that is not past due but impaired except for trade receivables of ₹20 crore and ₹23 crore as of June 30, 2015 and March 31, 2015, respectively.

Financial assets that are past due but not impaired

The Group's credit period generally ranges from 30-60 days. The age analysis of the trade receivables have been considered from the due date. The age wise break up of trade receivables, net of allowances of ₹347 crore and ₹343 crore as of June 30, 2015 and March 31, 2015, respectively, that are past due, is given below:

		(III CTOTE)
Period (in days)	As of	
	June 30, 2015	March 31, 2015
Less than 30	2,066	1,641
31 – 60	721	345
61 - 90	351	89
More than 90	353	302
	3,491	2,377

The reversal of provision for doubtful trade receivable for the three months ended June 30, 2015 was ₹4 crore. The provision for doubtful trade receivable for the three months ended June 30, 2014 was ₹115 crore.

			(In ₹ crore)

Trade receivables written off		(1)	(12)	
Balance at the end	367	329	366	

Liquidity risk

As of June 30, 2015, the Group had a working capital of ₹33,305 crore including cash and cash equivalents of ₹28,142 crore and current available-for-sale financial assets of ₹736 crore. As of March 31, 2015, the Group had a working capital of ₹35,813 crore including cash and cash equivalents of ₹30,367 crore and current available-for-sale financial assets of ₹874 crore.

As of June 30, 2015 and March 31, 2015, the outstanding employee benefit obligations were ₹1,163 crore and ₹1,069 crore, respectively, which have been substantially funded. Further, as of June 30, 2015 and March 31, 2015, the Group had no outstanding bank borrowings. Accordingly, no liquidity risk is perceived.

The table below provides details regarding the contractual maturities of significant financial liabilities as of June 30, 2015:

					(In ₹ crore)
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	196	-	-	-	196
Client deposits	21	-	-	-	21
Other liabilities (excluding liability towards acquisition) (Refer Note 2.9)	5,125	2	1	-	5,128
Liability towards acquisitions on an undiscounted basis (including contingent consideration) -Refer Note 2.9	643	45	45	-	733

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2015:

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	140	-	-	-	140
Client deposits	27	-	-	-	27
Other liabilities (excluding liabilities towards acquisition) (Refer Note 2.9)	4,404	-	-	-	4,404
Liability towards acquisitions on an undiscounted basis (Refer Note 2.9)	525	-	-	-	525

As of June 30, 2015 and March 31, 2015, the group had outstanding financial guarantees of $\overline{4}42$ crore and $\overline{4}43$ crore, respectively, towards leased premises. These financial guarantees can be invoked upon breach of any term of the lease agreement. To the group's knowledge there has been no breach of any term of the lease agreement as of June 30, 2015 and March 31, 2015.

Offsetting of financial assets and financial liabilities:

The group offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognised amounts and the group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The following table provides quantitative information about offsetting of derivative financial assets and derivative financial liabilities:

(In ₹ crore)

(In F grave)

	As	s of	As of		
	June 3	June 30, 2015		March 31, 2015	
	Derivative	Derivative financial	Derivative	Derivative	
	financial asset	liability	financial	financial liability	
			asset		
Gross amount of recognised financial asset/liability	48	(13)	105	(7)	
Amount set off	(7)	7	(4)	4	
Net amount presented in balance sheet	41	(6)	101	(3)	

2.8 Provisions

Provisions comprise the following:

		(In ₹ crore)
	As of	
	June 30, 2015	March 31, 2015
Provision for post sales client support and other provisions	474	478
	474	478

Provision for post sales client support and other provisions represents cost associated with providing post sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 6 months to 1 year. The movement in the provision for post sales client support and other provisions is as follows:

	(In ₹ crore)
	Three months
	ended June 30,
	2015
Balance at the beginning	478
Provision recognized/ (reversed)	28
Provision utilized	(44)
Translation difference	12
Balance at the end	474

Provision for post sales client support and other provisions is included in cost of sales in the statement of comprehensive income.

As of June 30, 2015 and March 31, 2015, claims against the company, not acknowledged as debts, net of amounts paid (excluding demands from Indian Income tax authorities- Refer note 2.16) amounted to ₹257 crore and ₹261 crore, respectively.

The company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the company's results of operations or financial condition.

2.9 Other liabilities

Other liabilities comprise the following :

(In ₹ crore)

	As of	As of	
	June 30, 2015	March 31, 2015	
Current			
Accrued compensation to employees	1,929	2,106

The weighted-average assumptions used to determine net periodic benefit cost for the three months ended June 30, 2015 and June 30, 2014 are set out below:

	Three months en	Three months ended June 30,	
	2015	2014	
Discount rate	7.8%	8.0%	
Weighted average rate of increase in compensation levels	8.0%	7.3%	
Weighted average duration of defined benefit obligation	6.5 years	9 years	

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. In case of Infosys BPO and EdgeVerve, contributions are made to the Infosys BPO Employees' Gratuity Fund Trust and EdgeVerve Systems Limited Employees Gratuity Fund Trust, respectively. Trustees administer contributions made to the trust. As of June 30, 2015 and March 31, 2015, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for the three months June 30, 2015 and June 30, 2014 were ₹18 crore and ₹20 crore, respectively.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

As of June 30, 2015, every percentage point increase / decrease in discount rate will affect our gratuity benefit obligation by approximately ₹43 crore.

As of June 30, 2015, every percentage point increase / decrease in weighted average rate of increase in compensation levels will affect our gratuity benefit obligation by approximately ₹36 crore.

The Group expects to contribute ₹71 crore to the gratuity trusts during the remainder of fiscal 2016.

Maturity profile of defined benefit obligation:

	(in ₹ crore)
Within 1 year	136
1-2 year	140
2-3 year	148
3-4 year	156
3-4 year 4-5 year	167
5-10 years	844

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant.

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

2.11.2 Superannuation

The Company contributed ₹58 crore and ₹53 crore to the superannuation plan during the three months ended June 30, 2015 and June 30, 2014, respectively.

Superannuation contributions have been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

 (In ₹ crose)

2.11.3 Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and in most cases the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is no shortfall as at June 30, 2015 and March 31, 2015, respectively.

The details of fund and plan asset position are given below:

		(In ₹ crore)
	As of	
	June 30, 2015	March 31, 2015
Plan assets at period end, at fair value	3,232	2,912
Present value of benefit obligation at period end	3,232	2,912
Asset recognized in balance sheet	-	-

The plan assets have been primarily invested in government securities.

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

	As of	As of	
	June 30, 2015	March 31, 2015	
Government of India (GOI) bond yield	8.10%	7.80%	
Remaining term to maturity of portfolio	7.2 years	7 years	
Expected guaranteed interest rate- First year:	8.75%	8.75%	
- Thereafter:	8.60%	8.60%	

The Group contributed ₹101 crore and ₹79 crore to the provident fund during the three months ended June 30, 2015 and June 30, 2014, respectively.

Provident fund contributions have been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

2.12 Equity

Share capital and share premium

The Company has allotted 114,84,72,332 fully paid-up shares of face value $\overline{\mathfrak{T}}$ 5/- each during the quarter ended June 30, 2015, pursuant to bonus issue approved by the shareholders through postal ballot. The book closure date fixed by the Board was June 17, 2015. Bonus share of one equity share for every equity share held, and a stock dividend of one American Depositary Share (ADS) for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depositary Receipt holder remains unchanged. Options granted under the restricted stock unit plan have been adjusted for bonus shares. 11,334,400 and 56,67,200 shares were held by controlled trust as of June 30, 2015 and March 31, 2015, respectively.

The amount received on exercise in excess of the par value has been classified as share premium. Additionally, share-based compensation recognized in net profit in the consolidated statement of comprehensive income is credited to share premium. Amounts have been utilised for bonus issue from share premium account.

Retained earnings

Retained earnings represent the amount of accumulated earnings of the Group.

Other Reserves

The Special Economic Zone Re-investment reserve has been created out of the profit of the eligible SEZ unit in terms of the provisions of Sec 10AA(1)(ii) of Income Tax Act,1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in terms of the provisions of the Sec 10AA(2) of the Income Tax Act, 1961.

Other components of equity

Other components of equity consist of currency translation, fair value changes on available-for-sale financial assets and remeasurement of net defined benefit liability/asset.

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of June 30, 2015, the Company has only one class of equity shares and has no debt. Consequent to the above capital structure there are no externally imposed capital requirements.

The rights of equity shareholders are set out below.

2.12.1 Voting

Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depositary Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

2.12.2 Dividends

The Company declares and pays dividends in Indian rupees. The remittance of dividends outside India is governed by Indian law on foreign exchange and is subject to applicable distribution taxes

The amount of per share dividend recognized as distributions to equity shareholders for the three month ended June 30, 2015 and June 30, 2014 was ₹29.50/-(not adjusted for June 17, 2015 bonus issue) and ₹43/- (not adjusted for bonus issues), respectively.

The Board has decided to increase dividend pay-out ratio from up to 40% to up to 50% of post-tax consolidated profits effective fiscal 2015.

2.12.3 Liquidation

In the event of liquidation of the Company, the holders of shares shall be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts. However, no such preferential amounts exist currently, other than the amounts held by irrevocable controlled trusts. The amount distributed will be in proportion to the number of equity shares held by the shareholders. For irrevocable controlled trusts, the corpus would be settled in favour of the beneficiaries.

2.12.4 Share options

There are no voting, dividend or liquidation rights to the holders of options issued under the Company's share option plans.

2.13 Other income

Other income consists of the following:

(In ₹ crore)

	Three months ended	Three months ended June 30,	
	2015	2014	
Interest income on deposits and certificates of deposit	657	614

	758	829	

2.14 Operating leases

The Group has various operating leases, mainly for office buildings, that are renewable on a periodic basis. Rental expense for operating leases for each of the three months ended June 30, 2015 and June 30, 2014 was \$81 crore.

The schedule of future minimum rental payments in respect of non-cancellable operating leases is set out below:

(In ₹ crore)

	As o	As of	
	June 30, 2015	March 31, 2015	
Within one year of the balance sheet date	261	168	
Due in a period between one year and five years	630	395	
Due after five years	304	168	

A majority of the Group's operating lease arrangements extend up to a maximum of ten years from their respective dates of inception, and relates to rented overseas premises. Some of these lease agreements have a price escalation clause.

2.15 Employees' Stock Option Plans (ESOP)

2011 RSU Plan (the 2011 Plan): The Company has a 2011 RSU Plan which provides for the grant of restricted stock units (RSUs) to eligible employees of the Company. The Board of Directors recommended establishment of the 2011 Plan to the shareholders on August 30, 2011 and the shareholders approved the recommendation of the Board of Directors on October 17, 2011 through a postal ballot. The maximum aggregate number of shares that may be awarded under the Plan is 1,13,34,400 shares (currently held by the Infosys Limited Employees' Welfare Trust and adjusted for bonus shares issued) and the plan shall continue in effect for a term of 10 years from the date of initial grant under the plan. The RSUs will be issued at par value of the equity share. The 2011 Plan is administered by the Management Development and Compensation Committee (the Committee) now known as the Nomination and Remuneration Committee (the Committee) and through the Infosys Limited Employees' Welfare Trust (the trust). The Committee is comprised of independent members of the Board of Directors.

During the year ended March 31, 2015, the company made a grant of 1,08,268 restricted stock units (adjusted for bonus issue) to Dr. Vishal Sikka, Chief Executive Office and Managing Director. The Board in its meeting held on June 22, 2015, on recommendation of Nomination and Remuneration Committee, granted 1,24,061 RSUs to Dr. Vishal Sikka. The RSUs will vest over a period of four years from the date of the grant in the proportions specified in the award agreement. The RSUs will vest subject to achievement of certain key performance indicators as set forth in the award agreement for each applicable year of the vesting tranche and continued employment through each vesting date.

Particulars	Three months ended	Three months ended June 30, 2015	
	Shares arising out of options	Weighted average exercise price	
2011 Plan:		-	
Outstanding at the beginning*	108,268	5	
Granted	124,061	5	
Forfeited and expired	-	-	
Exercised	-	-	
Outstanding at the end	232,329	5	
Exercisable at the end	-	=	

^{*}Adjusted for bonus issues. (Refer note 2.12)

The weighted average remaining contractual life of RSUs outstanding as of June 30, 2015 under the 2011 Plan was 2.59 years

The expected term of an RSU is estimated based on the vesting term and contractual term of the RSU, as well as expected exercise behaviour of the employee who receives the RSU. Expected volatility during the expected term of the RSU is based on historical volatility of the observed market prices of the company's publicly traded equity shares during a period equivalent to the expected term of the RSU.

The fair value of each RSU is estimated on the date of grant using the Black-Scholes-Merton model with the following assumptions:

Option granted during	Fiscal 2016	Fiscal 2015
Grant date	22-Jun-15	21-Aug-14
Weighted average share price (₹)*	1,024	3,549
Exercise price (₹)	5	5
Expected volatility (%)	28-36	30 - 37
Expected life of the option (years)	1 - 4	1 - 4
Expected dividends (%)	2.43	1.84
Risk-free interest rate (%)	7-8	8 - 9
Weighted average fair value as on grant date (₹)*	948	3,355

^{*} Data for Fiscal 2015 is not adjusted for bonus issues

During the three months ended June 30, 2015 and June 30, 2014, the company recorded an employee compensation expense of ₹2 crore and Nil, respectively in the statement of comprehensive income.

2.16 Income taxes

Income tax expense in the consolidated statement of comprehensive income comprises:

	Three months ended Ju	Three months ended June 30,	
	2015	2014	
Current taxes			
Domestic taxes	901	929	
Overseas taxes	232	247	
	1,133	1,176	
Deferred taxes			
Domestic taxes	45	(18)	
Overseas taxes	(3)	(4)	
	42	(22)	
Income tax expense	1,175	1,154	

Income tax expense for the three months ended June 30, 2015 and June 30, 2014 includes reversals (net of provisions) of ₹83 crore and ₹19 crore, respectively, pertaining to earlier periods.

Entire deferred income tax for the three months ended June 30, 2015 and June 30, 2014 relates to origination and reversal of temporary differences.

A deferred tax asset of $\mathfrak{T}1$ crore and a reversal of deferred tax liability of $\mathfrak{T}1$ crore relating to available-for-sale financial assets has been recognized in other comprehensive income for the three months ended June 30, 2015. A reversal of deferred tax asset of $\mathfrak{T}12$ crore for the three months ended June 30, 2014, relating to available-for-sale financial assets has been recognized in other comprehensive income.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

		(In ₹ crore)	
	Three months ended .	Three months ended June 30,	
	2015	2014	
Profit before income taxes	4,205	4,040	
Enacted tax rates in India	34.61%	33.99%	
Computed expected tax expense	1,455	1,373	
Tax effect due to non-taxable income for Indian tax purposes	(394)	(387)	
Overseas taxes	149	176	
Tax reversals, overseas and domestic	(83)	(19)	
Effect of exempt income	(18)	(28)	
Effect of unrecognized deferred tax assets	10	20	
Effect of differential overseas tax rates	(6)	(6)	
Effect of non-deductible expenses	75	35	
Additional deduction on research and development expense	(14)	(15)	
Others	1	5	
Income tax expense	1,175	1,154	

The applicable Indian statutory tax rates for fiscal 2016 and fiscal 2015 is 34.61% and 33.99%, respectively. The change in the tax rate is consequent to the changes made in Finance Act 2015.

During the three months ended June 30, 2015 and June 30, 2014, the company has claimed weighted tax deduction on eligible research and development expenditures based on the approval received from Department of Scientific and Industrial Research (DSIR) on November 23, 2011 which has been renewed effective April 2014. The weighted tax deduction is equal to 200% of such expenditures incurred.

The foreign tax expense is due to income taxes payable overseas, principally in the United States. In India, the company has benefited from certain tax incentives that the Government of India had provided to the export of software from the specifically designated units registered under the Software Technology Parks Scheme (STP) in India and the company continues to benefit from certain tax incentives for the units registered under the Special Economic Zones Act, 2005 (SEZ). However, the income tax incentives provided by the Government of India for STP units have expired, and all the STP units are now taxable. SEZ units which began providing services on or after April 1, 2005 are eligible for a deduction of 100 percent of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50 percent of such profits or gains for a further five years. Certain tax benefits are also available for a further period of five years subject to the unit meeting defined conditions.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the year, computed in accordance with the Internal Revenue Code. As of March 31, 2015, Infosys' U.S. branch net assets amounted to approximately ₹4,068 crore. As of June 30, 2015, the Company has provided for branch profit tax of ₹321 crore for its U.S branch, as the Company estimates that these branch profits are expected to be distributed in the foreseeable future. The change in provision for branch profit tax includes ₹5 crore movement on account of exchange rate during the three months ended June 30, 2015.

Deferred income tax liabilities have not been recognized on temporary differences amounting to $\overline{3}3,505$ crore and $\overline{3}3,291$ crore as of June 30, 2015 and March 31, 2015, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

The following table provides the details of income tax assets and income tax liabilities as of June 30, 2015 and March 31, 2015:

	As at	
	June 30, 2015	March 31, 2015
Income tax assets	4,612	4,089
Current income tax liabilities	3,162	2,818
Net current income tax asset/ (liability) at the end	1,450	1,271

The gross movement in the current income tax asset/ (liability) for the three months ended June 30, 2015 and June 30, 2014 is as follows:

	Three months ended	Three months ended June 30,	
	2015	2014	
Net current income tax asset/ (liability) at the beginning	1,271	(665)	
Translation differences	5	10	
Income tax paid	1,305	682	
Current income tax expense (Refer Note 2.16)	(1,133)	(1,176)	
Income tax on other comprehensive income	2	8	
Net current income tax asset/ (liability) at the end	1,450	(1,141)	

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

		(In ₹ crore)	
	As of	As of	
	June 30, 2015	March 31, 2015	
Deferred income tax assets		<u>.</u>	
Property, plant and equipment	210	241	
Computer software	50	51	
Accrued compensation to employees	33	48	
Trade receivables	115	111	
Compensated absences	310	299	
Available-for-sale financial asset	2	1	
Post sales client support	74	74	
Others	28	31	
Total deferred income tax assets	822	856	
Deferred income tax liabilities			
Intangible asset	(284)	(159)	
Temporary difference related to branch profits	(321)	(316)	
Property, plant and equipment	(2)	-	
Available-for-sale financial asset	-	(1)	
Others	(15)	(3)	
Total deferred income tax liabilities	(622)	(479)	
Deferred income tax assets after set off	484	537	
Deferred income tax liabilities after set off	(284)	(160)	

Deferred tax assets and deferred tax liabilities have been offset wherever the Group has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

(In ₹ crore)

The deferred income tax assets and deferred income tax liabilities recoverable within and after 12 months are as follows:

	As of	As of	
	June 30, 2015	March 31, 2015	
Deferred income tax assets to be recovered after 12 months	289	354	
Deferred income tax assets to be recovered within 12 months	533	502	
Total deferred income tax assets	822	856	
Deferred income tax liabilities to be settled after 12 months	(452)	(374)	
Deferred income tax liabilities to be settled within 12 months	(170)	(105)	
Total deferred income tax liabilities	(622)	(479)	

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The gross movement in the deferred income tax account for the three months period ended June 30, 2015 and June 30, 2014, is as follows:

		(In ₹ crore)
	Three months ended Ju	ne 30,
	2015	2014
Net deferred income tax asset at the beginning	377	592
Addition through business combination (Refer note 2.3)	(128)	-
Translation differences	(9)	(7)
Credits / (charge) relating to temporary differences (Refer Note 2.16)	(42)	22
Temporary difference on available-for-sale financial asset	2	(12)
Net deferred income tax asset at the end	200	595

The charge relating to temporary differences during the three month ended June 30, 2015 are primarily on account of property, plant and equipment, accrued compensation to employees partially offset by trade receivables and compensated absences. The credits relating to temporary differences during the period ended June 30, 2014 are primarily on account compensated absences, trade receivables and accumulated losses.

As of June 30, 2015 and March 31, 2015, claims against the group not acknowledged as debts from the Indian Income tax authorities (net of amount paid to statutory authorities of 3,453 crore and amounted to 7 crore and 3 crore, respectively.

Payment of ₹3,453 crore includes demands from the Indian Income tax authorities of ₹3,221 crore (₹3,337 crore), including interest of ₹951 crore (₹964 crore) upon completion of their tax review for fiscal 2007, fiscal 2008, fiscal 2009 and fiscal 2010.

These income tax demands are mainly on account of disallowance of portion of the deduction claimed by the company under Section 10A of the Income Tax Act as determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover, disallowance of portion of profit earned outside India from the STP units and disallowance of profits earned from SEZ units under section 10AA of the Income Tax Act. The matter for fiscal 2007, fiscal 2008 and fiscal 2009 are pending before the Commissioner of Income tax (Appeals) Bangalore. The matter for fiscal 2010 is pending before Hon'ble Income Tax Appellate Tribunal (ITAT) Bangalore. The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations

2.17 Earnings per equity share

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

	Three months ende	Three months ended June 30,	
	2015	2014	
Basic earnings per equity share - weighted average number of equity shares outstanding (1)(2)	228,56,10,264	228,56,10,264	
Effect of dilutive common equivalent shares - share options outstanding	62,045	-	
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	228,56,72,309	228,56,10,264	

⁽¹⁾ Excludes treasury shares

For the three months ended June 30, 2015 and June 30, 2014, there were no outstanding options to purchase equity shares which had an anti-dilutive effect.

⁽²⁾ adjusted for bonus issues. Refer Note 2.12

2.19 Segment reporting

IFRS 8 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Effective April 1, 2015, the Company reorganized its segments to support its objective of delivery innovation. This structure will help deliver services that will reflect the way technology is consumed in layers by the client's enterprise. Consequent to the internal reorganization, Growth Markets (GMU) comprising enterprises in APAC (Asia Pacific) and Africa have been subsumed across the other verticals and businesses in India, Japan and China are run as standalone regional business units.

Consequent to the internal reorganization, there were changes effected in the reportable business segments based on the "management approach" as defined in IFRS 8, Operating Segments. The Chief Operating Decision Maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along business segments and geographic segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Business segments of the Company are primarily enterprises in Financial Services (FS), enterprises in Manufacturing (MFG), enterprises in the Energy & utilities, Communication and Services (ECS), enterprises in Retail, Consumer packaged goods and Logistics (RCL), enterprises in Life Sciences, Healthcare and Insurance (HILIFE) and all other segments. The FS reportable segments has been aggregated to include the Financial Services operating segment and the Finacle operating segment. All other segments represents the operating segments of businesses in India, Japan and China. Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and off-shore locations. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India. Consequent to the above changes in the composition of reportable business segments, the prior period comparatives have been restated.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Revenue for "all other segments" represents revenue generated from customers located in India, Japan and China. Allocated expenses of segments include expenses incurred for rendering services from the Company's offshore software development centres and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Company.

Assets and liabilities used in the Company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Geographical information on revenue and business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

2.19.1 Business segments
