⁽¹⁾ Net of treasury shares

⁽²⁾ The Special Economic Zone Re-investment Reserve has been created out of the profit of eligible SEZ units in terms of the provisions of Sec 10AA(1)(ii) of Income Tax Act, 1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in the terms of the Sec 10AA(2) of the Income Tax Act, 1961.

⁽³⁾ Under the Swiss Code of Obligation, few subsidiaries of Infosys Lodestone are required to appropriate a certain percentage of the annual profit to legal reserve which may be used only to cover losses or for measures designed to sustain the Company through difficult times, to prevent unemployment or to mitigate its consequences.

Notes to the interim consolidated financial statements

1. Company overview and significant accounting policies

1.1 Company overview

Infosys Limited (the Company' or Infosys) is a leading provider of consulting, technology, outsourcing and next-generation services and software. Along with its subsidiaries, Infosys provides Business IT services (comprising application development and maintenance, independent validation, infrastructure management, engineering services comprising product engineering and life cycle solutions and business process management); Consulting and systems integration services (comprising consulting, enterprise solutions, systems integration and advanced technologies); Products, business platforms and solutions to accelerate intellectual property-led innovation. Its new offerings span areas like digital, big data and analytics, cloud, data and mainframe modernization, cyber security, IoT engineering Services and API & micro services.

Infosys together with its subsidiaries and controlled trusts is herein after referred to as 'the Group'

The Company is a public limited company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India. The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited in India. The Company's American Depositary Shares (ADSs) representing equity shares are also listed on the New York Stock Exchange (NYSE), Euronext London and Euronext Paris.

The Group's interim consolidated financial statements are approved for issue by the Company's Board of Directors on October 24, 2017.

1.2 Basis of preparation of financial statements

These interfin consolidated financial statements are prepared in accordance with indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Amendment Rules, 2016.

Effective April 1, 2016, the Group has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 - First time adoption of Indian Accounting Standards, with April 1, 2015 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Sec 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Amounts for the three months and six months ended September 30, 2016 and year ended March 31, 2017 were audited by previous auditors - B S R & Co LLP.

As the quarter and year-to-date figures are taken from the source and rounded to the nearest digits, the quarter figures in this statement added up to the figures reported for the previous quarter might not always add up to the year to date figures expected in this statement.

1.3 Basis of consolidation

Infosys consolidates entities which it owns or controls. The consolidated financial statements comprise the financial statements of the Company, its controlled trusts, its subsidiaries and associate, as disclosed in Note no. 2.23. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group Companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Associates are entities over which the Group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The Group's investment in associates includes goodwill identified on acquisition.

1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgements and the use of assumptions in these financial statements have been disclosed in Note no. 1.5. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the interim consolidated financial statements.

1.5 Critical accounting estimates

a. Revenue recognition

The Group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b. Income taxes

The Company's two major tax jurisdictions are India and the U.S., though the Company also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also refer to Note no. 2.15.

c. Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103, Business Combinations. Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

d. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

e. Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit (CGUs) is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of CGUs is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the CGU or groups of cash-generating units which are benefiting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

1.6 Revenue recognition

The Company derives revenues primarily from software development and related services and from the licensing of software products. Arrangements with customers for software related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the Balance Sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings in excess of billings are classified as unbilled revenue, while billings in excess of costs and earnings are classified as unearned revenue. Deferred contract costs are amortized over the term of the contract. Maintenance revenue is recognized rateably over the term of the underlying maintenance arrangement.

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in Ind AS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the Company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in Ind AS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the Company is unable to establish objective and reliable evidence of fair value for the software development and related services, the Company has used a residual method to allocate the arrangement consideration. In these cases the balance of the consideration, after allocating the fair values of undelivered components of a transaction has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues are recognized when the general revenue recognition criteria given in Ind AS 18 are met. Arrangements to deliver software products generally have three elements license, implementation and Annual Technical Services (ATS). The Company has applied the principles given in Ind AS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of their fair values have been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered elements. In the absence of objective and reliable evidence of fair value for implementation, the entire arrangement fee for license and implementation is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

The Group accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives amount to each of the underlying revenue transaction that results in progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increase in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The Group presents revenues net of indirect taxes in its Statement of Profit and Loss.

1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The Group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Buildings (1)	22-25 years
Plant and machinery (1)	5 years
Office equipment	5 years
Computer equipment (1)	3-5 years
Furniture and fixtures (1)	5 years
Vehicles ⁽¹⁾	5 years

⁽¹⁾ Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

1.8 Business combinations

Business combinations have been accounted for using the acquisition method under the provisions of Ind AS 103, Business Combinations.

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Business combinations between entities under common control is accounted for at carrying value

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

1.9 Goodwill

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized immediately in net profit in the Statement of Profit and Loss. Goodwill is measured at cost less accumulated impairment losses.

1.10 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted in the statement of Profit and Loss.

1.11 Financial instruments

1.11.1 Initial recognition

The Group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

1.11.2 Subsequent measurement

a. Non-derivative financial instruments

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income(FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Group has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income(OCI).

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

b. Derivative financial instruments

The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

(i) Financial assets or financial liabilities, at fair value through profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges.

Although the group believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

(ii) Cash flow hedge

The Group designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the Statement of Profit and Loss.

c. Share capital and treasury shares

(i) Ordinary Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

(ii) Treasury Shares

When any entity within the Group purchases the Company's ordinary shares, the consideration paid including any directly attributable incremental cost, is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from share premium.

1.11.3 Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

1 12 Fair value of financial instruments

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to Note no. 2.10 for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximates fair value due to the short maturity of those instruments.

1.13 Impairment

a. Financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in Statement of Profit or Loss.

b. Non-financial assets

(i) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) or groups of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU.

Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognized in net profit in the Statement of Profit and Loss and is not reversed in the subsequent period.

(ii) Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

1.14 Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

a. Post sales client support

The Group provides its clients with a fixed-period post sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in cost of sales. The Group estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

1.15 Foreign currency

Functional currency

The functional currency of Infosys, Infosys BPO, controlled trusts, EdgeVerve and Skava is the Indian rupee. The functional currencies for Infosys Australia, Infosys China, Infosys Mexico, Infosys Sweden, Infosys Brasil, Infosys Public Services, Infosys Shanghai, Infosys Lodestone, Infosys Americas, Infosys Nova, Infosys Consulting Pte Ltd., Panaya, Kallidus and Noah are the respective local currencies. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements of the foreign subsidiaries to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under other components of equity. When a subsidiary is disposed off, in full, the relevant amount is transferred to net profit in the Statement of Profit and Loss. However when a change in the parent's ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the

1.16 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.17 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

1.18 Employee benefits

1.18.1 Gratuity

The Group provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of Infosys and its Indian subsidiaries. The Gratuity Plan provides a lumpsum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). In case of Infosys BPO and EdgeVerve, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust and EdgeVerve Systems Limited Employees' Gratuity Fund Trust, respectively. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law.

The Group recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profits in the Statement of Profit and Loss.

1.18.2 Superannuation

Certain employees of Infosys, Infosys BPO and EdgeVerve are participants in a defined contribution plan. The Group has no further obligations to the plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

1.18.3 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

In respect of Indian subsidiaries, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the respective companies make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The companies have no further obligation to the plan beyond its monthly contributions.

1.18.4 Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

1.19 Share-based compensation

The Group recognizes compensation expense relating to share-based payments in net profit using fair value in accordance with Ind AS 102, Share-Based Payment. The estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

Amendment to Ind AS 102:

Effective April 1, 2017, the Group adopted amendment to Ind AS 102 which provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes. The adoption of amendment did not have any material effect on the interim consolidated financial statements.

1.20 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Amendment to Ind AS 7:

Effective April 1, 2017, the Group adopted the amendment to Ind AS 7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of amendment did not have any material effect on the interim consolidated financial statements.

1.21 Dividends

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

1.22 Other income

Other income is comprised primarily of interest income, dividend income, gain/loss on investment and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

1.23 Leases

Leases under which the group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.

1.24 Government grants

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in net profit in the Statement of Profit and Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

2.1 Business combinations

Noah Consulting LLC

On November 16, 2015, Infosys has acquired 100% membership interest in Noah Consulting, LLC (Noah), a leading provider of advanced information management consulting services for the oil and gas industry. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of \$33 million (approximately ₹216 crore), contingent consideration of upto \$5 million (approximately ₹33 crore on acquisition date) and an additional consideration of upto \$32 million (approximately ₹212 crore on acquisition date), referred to as retention bonus, payable to the employees of Noah at each anniversary year following the acquisition date over the next three years, subject to their continuous employment with the group at each anniversary. During the year ended March 31, 2016 based on an assessment of Noah achieving the targets for the year ended December 31, 2015 and year ended December 31, 2016, the entire contingent consideration has been reversed in the statement of profit and loss

Proposed business transfer

On July 14, 2017, the Board of Directors of Infosys authorized the Company to execute a Business Transfer Agreement and related documents with Noah Consulting LLC, a wholly owned subsidiary, to transfer the business of Noah Consulting LLC to Infosys Limited, subject to securing the requisite regulatory approvals for a consideration based on an independent valuation. Subsequently on October 17, 2017, the company has entered into a business transfer agreement to transfer the business for a consideration of \$41 million (approximately ₹268 crore) with effect from October 25, 2017. The transfer of assets and liabilities between entities under common control will be accounted for at carrying values and will not have any impact on the consolidated financial statements.

Kallidus Inc. (d.b.a Skava)

On June 2, 2015, Infosys acquired 100% of the voting interests in Kallidus Inc., US (Kallidus), a leading provider of digital experience solutions, including mobile commerce and in-store shopping experiences to large retail clients and 100% of the voting interests of Skava Systems Private Limited, India, an affiliate of Kallidus. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of \$91 million (approximately ₹578 crore) and a contingent consideration of up to \$20 million (approximately ₹128 crore on acquisition date).

The payment of contingent consideration to sellers of Kallidus is dependent upon the achievement of certain financial targets by Kallidus over a period of 3 years ending on December 31, 2017.

The fair value of contingent consideration is determined by discounting the estimated amount payable to the sellers of Kallidus on achievement of certain financial targets. At acquisition date, the key inputs used in determination of the fair value of contingent consideration are the discount rate of 14% and the probabilities of achievement of the financial targets.

During the six months ended September 30, 2017, contingent consideration of ₹45 crore was paid to the sellers of Kallidus on the achievement of certain financial targets. The balance contingent consideration as of September 30, 2017 and March 31, 2017 is ₹46 crore and ₹91 crore, respectively, on an undiscounted basis.

Brilliant Basics Holdings Limited.

On September 8, 2017, Infosys acquired 100% of the voting interests in Brilliant Basics Holdings Limited., UK, (Brilliant Basics) a product design and customer experience innovator with experience in executing global programs. The business acquisition was conducted by entering into a share purchase agreement for cash consideration $\overline{2}$ 9 crore, a contingent consideration of up to $\overline{2}$ 0 crore and an additional consideration of up to $\overline{1}$ 3 crore, referred to as retention bonus, payable to the employees of Brilliant Basics at each anniversary year over the next two years, subject to their continuous employment with the group at each anniversary

The payment of contingent consideration to sellers of Brilliant Basics is dependent upon the achievement of certain financial targets by Brilliant Basics over a period of 3 years ending on March 2020.

The fair value of contingent consideration is determined by discounting the estimated amount payable to the sellers of Brilliant Basics on achievement of certain financial targets. The key inputs used in determination of the fair value of contingent consideration are the discount rate of 10% and the probabilities of achievement of the financial targets.

The excess of the purchase consideration paid over the fair value of assets acquired has been attributed to goodwill.

The purchase price has been allocated based on management's estimates and independent appraisal of fair values as follows:

Community	Acquiree's	Fair value	(In ₹ crore) Purchase price
Component	carrying amount	adjustments	allocated
Net assets ^(*)	1	-	1
Intangible assets - customer relationships	_	12	12
Deferred tax liabilities on intangible assets	_	(2)	(2)
	1	10	11
Goodwill			35
Total purchase price			46

^{*}Includes cash and cash equivalents acquired of ₹2 crore

The goodwill is not tax deductible.

The gross amount of trade receivables acquired and its fair value is ₹3 crore and the amounts are expected to be fully recoverable

The acquisition date fair value of each major class of consideration as of the acquisition date is as follows:

	(In ₹ crore)
Component	Consideration settled
Cash paid	29
Fair value of contingent consideration	17
Total purchase price	46

The transaction costs of ₹2 crore related to the acquisition have been included under administrative expenses in the statement of profit and loss for the three months ended September 30, 2017.

2.2 PROPERTY, PLANT AND EQUIPMENT

Following are the changes in the carrying value of property, plant and equipment for the three months ended September 30, 2017:

										(In ₹ crore)
Particulars	Land -	Land -	Buildings (1)	Plant and	Office	Computer	Furniture and	Leasehold	Vehicles	Total
	Freehold	Leasehold		machinery	Equipment	equipment	fixtures	Improvements

Notes: (1) Buildings include \$\circ{2}50\circ\ being the value of 5 shares of \$\circ{5}50\circ\ each in Mittal Towers Premises Co-operative Society Limited.

Gross carrying value of lease hold land represents amounts paid under certain lease-cum-sale agreements to acquire land including agreements where the Company has an option to purchase or renew the properties on expiry of the lease

The aggregate depreciation has been included under depreciation and amortisation expense in the consolidated Statement of Profit and Loss.

2.3 GOODWILL AND OTHER INTANGIBLE ASSETS

Following is a summary of changes in the carrying amount of goodwill:

		(In ₹ crore)
Particulars		at
	September 30,	March 31, 2017
	2017	
Carrying value at the beginning	3,652	3,764
Goodwill on Brilliant Basics acquisition (Refer note no. 2.1)	35	-
Translation differences	101	(112)
Carrying value at the end	3,788	3,652

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the CGU or groups of CGUs, which benefit from the synergies of the acquisition. The chief operating decision maker reviews the goodwill for any impairment at the operating segment level, which is represented through groups of CGUs.

The goodwill has been allocated to the operating segments as at March 31, 2017:

The goodwin has been anocated to the operating segments as at water 51, 2017.	
	(In ₹ crore)
Segment	As at
	March 31, 2017
Financial services	826
Manufacturing	409
Retail, Consumer packaged goods and Logistics	556
Life Sciences, Healthcare and Insurance	638
Energy & Utilities, Communication and Services	765
	3,194
Operating segments without significant goodwill	458
Total	3,652

The entire goodwill relating to Infosys BPO's acquisition of McCamish has been allocated to the groups of CGUs which are represented by the Life Sciences, Healthcare and Insurance segment.

The goodwill relating to Infosys BPO, Infosys Lodestone, Portland, Panaya and Kallidus d.b.a Skava has been allocated to the groups of CGUs which are represented by a majority of the entity's operating segment.

The entire goodwill relating to Noah acquisition has been allocated to the group of CGUs which is represented by the Energy & Utilities, Communication and Services segment.

The goodwill relating to Brilliant Basics acquistion will be allocated across segments

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value-in-use is determined based on specific calculations. These calculations use pre-tax cash flow projections for a CGU / groups of CGUs over a period of five years. An average of the range of each assumption used is mentioned below. As of March 31, 2017, the estimated recoverable is carrying amount. The recoverable amount was computed was computed to sell being higher than value-in-use. The carrying amount of the CGU was computed by allocating the net assets to operating segments for the purpose of impairment testing. The key assumptions used for the calculations are as follows:

	(in %)
	As at
	March 31, 2017
Long term growth rate	8-10
Operating margins	17-20
Discount rate	14.4

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. These estimates are likely to differ from future actual results of operations and cash flows. Following are the changes in the carrying value of acquired intancible assets for the three months ended Sentember 30, 2017:

^{**} Excludes interest accrued on tax free bonds and government bonds

 $^{**} Excludes interest \ accrued \ on \ tax \ free \ bonds \ and \ government \ bonds$

Fair value hierarchy

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of September 30, 2017:

(In ₹ crore) As of September 30, 2017 Fair value measurement at end of the reporting period/year using Level 1 Level 3 Level 2 Assets 4.632 4.632 Investments in liquid mutual funds (Refer Note no. 2.4) Investments in tax-free bonds (Refer Note no. 2.4) 2,198 2,089 109 Investments in government bonds (Refer Note no. 2.4) 6 6 17 17 Investments in equity instruments (Refer Note no. 2.4) 158 Investments in preference securities (Refer Note no. 2.4) 158 Investments in non convertible debentures (Refer Note no. 2.4) 4.126 612 3 5 1 4 Investments in certificates of deposit (Refer Note no. 2.4) 6.815 6.815 577 577 Investments in fixed maturity plan securities (Refer Note no. 2.4) Investments in convertible promissory note (Refer Note no. 2.4) 11 11 Other investments (Refer Note no. 2.4) 52 52 Derivative financial instruments - gain on outstanding foreign currency forward and option contracts (Refer 9 9 Note no. 2.6) Liabilities 65 65 Derivative financial instruments - loss on outstanding foreign currency forward and option contracts (Refer Liability towards contingent consideration (Refer note no. 2.12)* 61 61

During the six months ended September 30, 2017, tax free bonds of ₹1,809 crore were transferred from Level 2 to Level 1 of fair value hierarchy, since these were valued based on quoted price

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2017:

(In ₹ crore)

	As of March 31, 2017	Fair value measurement at end of the reporting period/year usi			
	_	Level 1	Level 2	Level 3	
Assets					
Investments in liquid mutual funds (Refer Note no. 2.4)	1,803	1,803	-	-	
Investments in tax free bonds (Refer Note no. 2.4)	2,159	282	1,877	-	
Investments in government bonds (Refer Note no. 2.4)	9	9	-	-	
Investments in equity instruments (Refer Note no. 2.4)	15	-	-	15	
Investments in preference securities (Refer Note no. 2.4)	144	-	-	144	
Investments in non convertible debentures (Refer Note no. 2.4)	3,975	3,371	604	-	
Investments in certificates of deposit (Refer Note no. 2.4)	7,905	-	7,905	-	
Investments in fixed maturity plan securities (Refer Note no. 2.4)	558	-	558	-	
Investments in convertible promissory note (Refer Note no. 2.4)	10	-	-	10	
Other investments (Refer Note no. 2.4)	35	-	-	35	
Derivative financial instruments - gain on outstanding foreign currency forward and option contracts (Refer Note no. 2.6) Liabilities	284	-	284	-	
Derivative financial instruments - loss on outstanding foreign currency forward and option contracts (Refer Note no. 2.12)	2	-	2	-	
Liability towards contingent consideration (Refer note no. 2.12)*	85	-	-	85	

^{*}Discounted ₹91 crore at 14.2%

A one percentage point change in the unobservable inputs used in fair valuation of the contingent consideration does not have a significant impact in its value.

The movement in contingent consideration as of September 30, 2017 from March 31, 2017 is on account of settlement of contingent consideration of ₹45 crore pertaining to Kallidus acquisiton, and change in discount rate and passage of time. Additionally during the three months ended September 30, 2017 contingent consideration of ₹17 crore was included in relation to acquisition of Brilliant Basics Holdings Limited. (Refer note no. 2.1)

The fair value of liquid mutual funds is based on quoted price. The fair value of tax-free bonds and government bonds is based on quoted prices and market observable inputs. The fair value of fixed maturity plan securities and certificates of deposit is based on market observable inputs. Derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace. The fair value of investments in unquoted equity, preference and other securities is determined using Level 3 inputs like Discounted cash flows, Market multiple method, Option pricing model, etc.

^{*}Discounted ₹46 crore at 14.1% and ₹20 crore at 10%

Financial risk management

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

Market risk

The Group operates internationally and a major portion of the business is transacted in several currencies and consequently the Group is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Group's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table analyzes foreign currency risk from financial instruments as of September 30, 2017:

						(In ₹ crore)
Particulars	U.S. dollars	Euro	United Kingdom Pound	Australian dollars	Other currencies	Total
			Sterling			
Cash and cash equivalents	1,391	264	204	190	1,051	3,100
Trade receivables	8,955	1,463	796	718	769	12,701
Other financial assets (including loans)	2,564	574	359	192	455	4,144
Trade payables	(203)	(54)	(76)	(18)	(64)	(415)
Other financial liabilities	(2,576)	(437)	(272)	(248)	(544)	(4,077)
Net assets / (liabilities)	10,131	1,810	1,011	834	1,667	15,453

The following table analyzes foreign currency risk from financial instruments as of March 31, 2017:

						(In ₹ crore)
	U.S. dollars	Euro	United Kingdom Pound	Australian dollars	Other currencies	Total
			Sterling			
Cash and cash equivalents	1,334	131	36	183	700	2,384
Trade receivables	8,345	1,244	775	561	702	11,627
Other financial assets (including loans)	2,862	535	372	159	403	4,331
Trade payables	(115)	(32)	(13)	(5)	(158)	(323)
Other financial liabilities	(2,129)	(406)	(211)	(211)	(547)	(3,504)
Net assets / (liabilities)	10,297	1,472	959	687	1,100	14,515

For the three months ended September 30, 2017 and September 30, 2016, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, has affected the Group's incremental operating margins by approximately 0.49% and 0.51%, respectively.

For the six months ended September 30, 2017 and September 30, 2016, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, has affected the Group's incremental operating margins by approximately 0.49% and 0.50%, respectively.

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

Derivative financial instruments

The Group holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign currency forward and option contracts:

	As of		As of	
	September 30, 20	17	March 31, 2017	1

Total forwards and options		9,253		8,753

The foreign exchange forward and option contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the Balance Sheet date:

(In ₹ crore)

Particulars	As of	
	September 30, 2017	March 31, 2017
Not later than one month	3,412	2,303
Later than one month and not later than three months	4,119	4,316
Later than three months and not later than one year	1,722	2,134
	9,253	8,753

During the six months ended September 30, 2017, the group has designated certain foreign exchange forward and option contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions for balance in cash flow hedges are expected to occur and reclassified to revenue in the statement of profit or loss within 3 months.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedge item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of the hedge relationship rebalancing.

The following table provides the reconciliation of cash flow hedge reserve for the three months and six months ended September 30, 2017:

(In ₹ crore)

	Three mont	Three months ended		ended
	September 30, 2017	September 30, 2016	September 30, 2017	September 30, 2016
Balance at the beginning of the period	(27)	=	39	=
Gain / (Loss) recognised in other comprehensive income during the period	(51)	2	(92)	2
Amount reclassified to revenue during the period	78	-	31	-
Tax impact on above	(7)	-	15	-
Balance at the end of the period	(7)	2	(7)	2

The Group offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The following table provides quantitative information about offsetting of derivative financial assets and derivative financial liabilities:

(In ₹ crore)

	As o	As of September 30, 2017		(200 10707
	September			2017
	Derivative financial asset	Derivative financial liability	Derivative financial asset	Derivative financial liability

Amount set off	(6)	6	(1)	1
Net amount presented in Balance Sheet	9	(65)	284	(2)

Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to $\[Tilde{1}\]$ 2,423 crore and $\[Tilde{1}\]$ 2,22 crore as of September 30, 2017 and March 31, 2017, respectively and unbilled revenues amounting to $\[Tilde{1}\]$ 4,136 crore and $\[Tilde{1}\]$ 3,648 crore as of September 30, 2017 and March 31, 2017, respectively. Trade receivables and unbilled revenues are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the group uses expected credit loss model to assess the impairment loss or gain. The Group uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Group's historical experience for customers.

The following table gives details in respect of percentage of revenues generated from top customer and top ten customers:

(In %)

	Three months ended September 30,		Six months ended September 30,	
	2017	2016	2017	2016
Revenue from top customer	3.4	3.5	3.4	3.5
Revenue from top ten customers	19.5	21.8	19.7	22.0

Credit risk exposure

The allowance of lifetime expected credit loss on customer balances for the three months and six months ended September 30, 2017 was ₹40 crore and ₹36 crore respectively and was ₹25 crore and ₹40 crore for the three months and six months ended September 30, 2016.

(In ₹ crore)

	Three months ended September 30,		Six months ended September 30,	
	2017	2016	2017	2016
Balance at the beginning	405	305	411	289
Impairment loss recognized / (reversed)	40	25	36	40
Write-offs	(1)	(1)	(4)	(1)
Translation differences	5	(3)	6	(2)
Balance at the end	449	326	449	326

The Company's credit period generally ranges from 30-60 days.

(In ₹crore except otherwise stated)

	As of	
	September 30, 2017	March 31, 2017
Trade receivables	13,423	12,322
Unbilled revenues	4,136	3,648
Days Sales Outstanding- DSO (days)	71	68

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, fixed maturity plan securities, certificates of deposit, quoted bonds issued by government and quasi-government organizations and non convertible debentures.

Liquidity risk

The Group's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Group has no outstanding bank borrowings. The Group believes that the working capital is sufficient to meet its current requirements.

As of September 30, 2017, the Group had a working capital of $\ref{24,449}$ crore including cash and cash equivalents of $\ref{23,339}$ crore and current investments of $\ref{12,122}$ crore. As of March 31, 2017, the Group had a working capital of $\ref{39,692}$ crore including cash and cash equivalents of $\ref{32,625}$ crore and current investments of $\ref{39,970}$ crore.

As of September 30, 2017 and March 31, 2017, the outstanding compensated absences were ₹1,491 crore and ₹1,359 crore, respectively, which have been substantially funded. Accordingly no liquidity risk is perceived.

	1,144	1,144		

Forfeited shares amounted to ₹1,500 (₹1,500)

The Company has only one class of shares referred to as equity shares having a par value of ₹5/-. Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depositary Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

The Company declares and pays dividends in Indian rupees. The dividend proposed by the Board of Directors (the Board) is subject to the approval of the shareholders in the ensuing Annual General Meeting. The remittance of dividends outside India is governed by Indian law on foreign exchange and is subject to applicable distribution taxes.

In the period of five years immediately preceding September 30, 2017:

The Company has allotted 1,14,84,72,332 and 57,42,36,166 fully paid-up shares of face value ₹5/- each during the quarter ended June 30, 2015 and December 31, 2014, pursuant to bonus issue approved by the shareholders through postal ballot. For both the bonus issues, bonus share of one equity share for every equity share held, and a stock dividend of one ADS for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depositary Receipt holder remains unchanged. Options granted under the restricted stock unit plan (RSU) have been adjusted for bonus shares.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts. However, no such preferential amounts exist currently, other than the amounts held by irrevocable controlled trusts. For irrevocable controlled trusts, the corpus would be settled in favour of the beneficiaries.

Dividends

The Company declares and pays dividends in Indian rupees. The remittance of dividends outside India is governed by Indian law on foreign exchange and is subject to applicable distribution taxes. Dividend distribution tax paid by subsidiaries may be reduced / available as credit against dividend distribution tax payable by Infosys Limited.

The Board, in its meeting on April 15, 2016, proposed a final dividend of ₹14.25/- per equity share and the same was approved by the shareholders at the Annual General Meeting held on June 18, 2016. The amount was recognized as distributions to equity shareholders during the year ended March 31, 2017 and the total appropriation was ₹3,923 crore (excluding dividend on treasury shares), including corporate dividend tax.

The amount of per share dividend recognized as distributions to equity shareholders during the year ended March 31, 2016 was ₹29.50/- per equity share (not adjusted for June 17, 2015 bonus issue).

The Board of Directors, in its meeting on April 13, 2017, proposed a final dividend of ₹14.75/- per equity share for the financial year ended March 31, 2017 and the same was approved by the shareholders at the Annual General Meeting held on June 24, 2017. The amount was recognized as distributions to equity shareholders during the quarter ended June 30, 2017 and the total appropriation was ₹4,061 crore (excluding dividend on treasury shares), including corporate dividend tax.

The Board of directors in their meeting on October 24, 2017 declared an interim dividend of ₹13/- per equity share which would result in a net cash outflow of approximately ₹3,408 crore, (excluding dividend paid on treasury shares) inclusive of corporate dividend tax.

⁽¹⁾ Refer note no. 2.21 for details of basic and diluted shares

⁽²⁾ Net of treasury shares 1,09,01,258 (1,12,89,514)

Capital allocation policy

The Board, in its meeting on April 13, 2017, reviewed and approved a revised Capital Allocation Policy of the Company after taking into consideration the strategic and operational cash requirements of the Company in the medium term:

The key aspects of the Capital Allocation Policy are:

- 1. The Company's current policy is to pay dividends of up to 50% of post-tax profits of the Financial Year. Effective from Financial Year 2018, the Company expects to payout up to 70% of the free cash flow of the corresponding Financial Year in such manner (including by way of dividend and/or share buyback) as may be decided by the Board from time to time, subject to applicable laws and requisite approvals, if any. Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the consolidated statement of cash flows prepared under IFRS. Dividend payout includes dividend distribution tax.
- 2. Additionally, the Board has identified an amount of up to ₹13,000 crore (\$2 billion) to be paid out to shareholders during Financial Year 2018, in such manner (including by way of dividend and/ or share buyback), to be decided by the Board, subject to applicable laws and requisite approvals, if any.

The Board, at its meeting on August 19, 2017, approved a proposal for the Company to buyback its fully paid-up equity shares of face value of ₹5 each from the eligible equity shareholders of the Company for an amount not exceeding ₹13,000 crore. The Buyback offer comprises a purchase of upto 113,043,478 Equity Shares aggregating upto 4.92% of the paid-up equity share capital of the Company at a price of ₹1,150 per Equity share. The buyback is proposed to be made from all eligible equity shareholders (including those who become equity shareholders as on the Record date by cancelling American Depository Shares and withdrawing underlying Equity shares) of the Company as on the Record Date (i.e. November 1, 2017) on a proportionate basis through the "Tender offer" route. The shareholders approved the said proposal of Buyback of Equity Shares through the postal ballot concluded on October 7, 2017. The Company has published a Public Announcement on October 10, 2017 for the buyback of its shares through a tender offer and has submitted Draft Letter of Offer to regulatory authorities for their comments.

The details of shareholder holding more than 5% shares as at September 30, 2017 and March 31, 2017 are set out below:

Name of the shareholder	As at September 30, 2017		As at March 31, 2017	
	Number of shares	% held	Number of shares	% held
Deutsche Bank Trust Company Americas (Depository of ADR's - legal ownership)	38,33,41,725	16.69	38,33,17,937	16.69
Life Insurance Corporation of India	16,88,01,690	7.35	16,14,36,123	7.03

The reconciliation of the number of shares outstanding and the amount of share capital as at September 30, 2017 and March 31, 2017 is as follows:

			(In ₹ crore, except as	stated otherwise)
Particulars -	As at September 30, 2017		As at March 31, 2017	
	Number of shares	Amount	Number of shares	Amount
At the beginning of the period	228,56,55,150	1,144	228,56,21,088	1,144
Add: Shares issued on exercise of employee stock options	432,044	-	34,062	-
At the end of the period	228,60,87,194	1,144	228,56,55,150	1,144

Employee Stock Option Plan (ESOP):

2015 Stock Incentive Compensation Plan (the 2015 Plan) (Formerly 2011 RSU Plan): On March 31, 2016, pursuant to the approval by the shareholders through postal ballot, the Board has been authorized to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Stock Incentive Compensation Plan (the 2015 Plan). The maximum number of shares under the 2015 plan shall not exceed 2,40,38,883 equity shares (this includes 1,12,23,576 equity shares which are held by the trust towards the 2011 Plan as at March 31, 2016). Out of this 1,70,38,883 equity shares will be issued as RSUs at par value and 70,00,000 equity shares will be issued as stock options at market price on the date of the grant. These instruments will vest over a period of 4 years and the Company expects to grant the instruments under the 2015 Plan over the period of 4 to 7 years.

Controlled trust holds 1,09,01,258 and 1,12,89,514 shares as of September 30, 2017 and March 31, 2017, respectively under the 2015 plan, out of which 1,00,000 equity shares have been earmarked for welfare activities of the employees.

Stock incentives granted to Dr. Vishal Sikka

Consequent to Dr. Vishal Sikka's resignation from the company on August 24, 2017, the unvested stock incentives (time-based and performance based awards) granted to him were forfeited during the three months ended September 30, 2017. Accordingly, the Company recorded a reversal of ₹35 crore to stock compensation cost during the three months ended September 30, 2017.

Stock incentives granted to COO:

The Nomination and Remuneration Committee ('Committee') in its meeting held on October 14, 2016 recommended a grant of 27,250 RSUs and 43,000 ESOPs amounting to ₹4 crore to U. B. Pravin Rao, under the 2015 Plan and the same was approved by the shareholders through postal ballot on March 31, 2017. These RSUs and ESOPs have been granted w.e.f May 2, 2017. These RSUs and stock options would vest over a period of 4 years and shall be exercisable within the period as approved by the Committee. The exercise price of the RSU's will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant, as approved by the shareholders.

Stock incentives granted to KMPs (other than Dr. Vishal Sikka and COO)

On November 1, 2016, 2,47,250 RSUs and 5,02,550 stock options were granted under the 2015 plan, to key management personnel, other than Dr. Vishal Sikka and COO, based on fiscal 2016 performance. On August 1, 2017 58,150 RSUs and 44,450 ESOPs were granted to the General Counsel. These RSUs and stock options will vest within a period of 4 years and shall be exercisable within the period as approved by the Committee. The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant.

During the six months ended September 30, 2017, two of the KMPs have resigned (Refer note no. 2.23 Related party transactions for further details) and hence the RSUs and stock options granted to them were forfeited.

KMP stock compensation expense

The Company has recorded a reversal of employee stock compensation expense of ₹29 crore and ₹17 crore, respectively, towards KMPs during the three months and six months ended September 30, 2017. The employee stock compensation expense recorded was ₹5 crore and ₹14 crore during the three months and six months ended September 30, 2016, respectively.

Stock incentive granted to other employees:

During fiscal 2017, the company granted 25,06,740 RSUs and 7,03,300 ESOPs and 1,12,210 incentive units (cash settled) to certain eligible employees at mid and senior levels under the 2015 plan. Further, on May 2, 2017, the company granted 37,090 RSUs (includes equity shares and equity shares represented by ADS) at par value, 73,600 employee stock options (ESOPs) (including equity shares and equity shares represented by ADS) to be exercised at market price at the time of grant, to certain employees at the senior management level. On August 1, 2017, 7,450 incentive units (cash settled) were granted to employees at the senior management level. These instruments will vest over a period of 4 years and are subject to continued service.

The Company has recorded an employee stock compensation expense of ₹21 crore and ₹55 crore, respectively during the three months and six months ended September 30, 2017 towards employees other than KMPs (employee stock compensation cost of ₹16 crore each for the three months and six months ended September 30, 2016)

Total stock compensation expense
The company recorded a reversal of employee stock compensation expense of ₹8 crore in the statement of profit and loss for the three months ended September 30, 2017 and an employee stock compensation cost of ₹38 crore, for the six months ended September 30, 2017. The company recorded an employee stock compensation expense of ₹21 crore and ₹30 crore for the three months and six months ended September 30, 2016, respectively. This comprises of expense pertaining to all employees including KMPs.

Further, the cash settled stock compensation expense (included above) for the three months and six months ended September 30, 2017 was less than ₹1 crore and ₹1 crore, respectively and less than ₹1 crore during each of the three months and six months ended September 30, 2016. As of September 30, 2017 and March 31, 2017 80 793 and 1 06 845 incentive units were outstanding (net of forfeitures)

The activity in the 2015 Plan (formerly 2011 RSU Plan) for equity-settled share based payment transactions during the three months and six months ended September 30, 2017 is set out below:

Granted	1,904,315	5	1,904,315	5	
Forfeited and expired	22,770	5	22,770	5	
Exercised	18,236	5	30,642	5	
Outstanding at the end	2,072,408	5	2,072,408	5	
Exercisable at the end	-	-	-	-	

During the three months and six months ended September 30, 2017, the weighted average share price of options exercised under the 2015 Plan on the date of exercise was ₹948 and ₹947 respectively.

During the three months and six months ended September 30, 2016, the weighted average share price of options exercised under the 2015 Plan on the date of exercise was \$1,021 and \$1,096 respectively.

The following table summarizes information about equity settled RSUs and ESOPs outstanding as of September 30, 2017:

		Options outstanding	
	No. of shares	Weighted average	Weighted average
Range of exercise prices per share (₹)	arising out of	remaining contractual	exercise price (₹)
	options	life	exercise price (C)
2015 Plan:			
0 - 5 (RSU)	2,239,841	1.74	5.00
900 - 1100 (ESOP)	1,190,950	6.66	992.06
	3,430,791	3.47	350.83

The following table summarizes information about equity settled RSUs and ESOPs outstanding as of March 31, 2017:

		Options outstanding	
Range of exercise prices per share $(\overline{\P})$	No. of shares arising out of options	Weighted average remaining contractual life	Weighted average exercise price (₹)
2015 Plan:			
0 - 5 (RSU)	2,961,373	1.88	5.00
900 - 1100 (ESOP)	1,197,650	7.09	1,026.50
	4,159,023	3.38	299.16

The fair value of each equity settled RSU is estimated on the date of grant using the Black-Scholes-Merton model with the following assumptions:

Particulars	For options granted in			
	Fiscal 2018- Equity Shares-RSU	Fiscal 2018- Equity shares ESOP	Fiscal 2018- ADS-RSU	Fiscal 2018- ADS- ESOP
Weighted average share price (₹) / (\$- ADS)	923	923	14.73	14.65
Exercise price (₹)/ (\$- ADS)	5.00	919	0.08	14.67
Expected volatility (%)	21-25	25-28	21-26	25-31
Expected life of the option (years)	1 - 4	3 - 7	1 - 4	3 - 7
Expected dividends (%)	2.78	2.78	2.74	2.74
Risk-free interest rate (%)	6 - 7	6 - 7	1 - 2	1 - 2
Weighted average fair value as on grant date (₹) / (\$- ADS)	857	254	13.73	2.93

Particulars	For options granted in			
	Fiscal 2017- Equity Shares-RSU	Fiscal 2017- Equity shares ESOP	Fiscal 2017- ADS-RSU	Fiscal 2017- ADS- ESOP
Weighted average share price (₹) / (\$- ADS)	1,067	989	15.77	15.26
Exercise price (₹)/ (\$- ADS)	5.00	998	0.07	15.26
Expected volatility (%)	24-29	27-29	26-29	27-31
Expected life of the option (years)	1 - 4	3 - 7	1 - 4	3 - 7
Expected dividends (%)	2.37	2.37	2.29	2.29
Risk-free interest rate (%)	6- 7	6- 7	1 - 2	1 - 2
Weighted average fair value as on grant date (₹) / (\$- ADS)	1,002	285	14.84	3.46

The expected life of the RSU / ESOP is estimated based on the vesting term and contractual term of the RSU / ESOP, as well as expected exercise behaviour of the employee who receives the RSU / ESOP. Expected volatility during the expected term of the RSU / ESOP is based on historical volatility of the observed market prices of the company's publicly traded equity shares during a period equivalent to the expected term of the RSU / ESOP.

Balance at the beginning	404	405
Provision recognized/(reversed)	28	43
Provision utilized	(20)	(35)
Exchange difference	5	4
Balance at the end	417	417

Provision for post-sales client support and warranties and other provisions are expected to be utilized over a period of 6 months to 1 year.

Income tax expense in the consolidated Statement of Profit and Loss comprises:

(In ₹ crore)

	Three months ended	Three months ended September		Six months ended September 30,	
	2017	2016	2017	2016	
Current taxes	1,471	1,469	2,971	2,936	
Deferred taxes	(68)	(9)	(197)	(114)	
Income tax expense	1,403	1,460	2,774	2,822	

Current tax expense for the three months ended September 30, 2017 and September 30, 2016 includes reversals (net of provisions) of ₹134 crore and ₹17 crore respectively, pertaining to prior periods.

Current tax expense for the six months ended September 30, 2017 and September 30, 2016 includes reversals (net of provisions) of ₹149 crore and ₹9 crore respectively, pertaining to prior periods.

Entire deferred income tax for the three months and six months ended September 30, 2017 and September 30, 2016 relates to origination and reversal of temporary differences.

During the three months ended September 30, 2017 and September 30, 2016, a current tax charge of ₹2 crore and current tax credit ₹8 crore respectively have been recorded in other comprehensive income pertaining to remeasurement of defined benefit plan asset.

During the three months ended September 30, 2017, a deferred tax charge of ₹7 crore and a deferred tax charge of ₹3 crore has been recorded in other comprehensive income pertaining to unrealized gains on derivatives designated as cash flow hedges and unrealized gain on investment in non-convertible debentures and certificates of deposit.

During the six months ended September 30, 2017 and September 30, 2016, a current tax charge of ₹1 crore and current tax credit ₹13 crore respectively have been recorded in other comprehensive income pertaining to remeasurement of defined benefit plan asset.

During the six months ended September 30, 2017, a deferred tax credit of $\[Tilde{\tilde{\tilde{\tilde{5}}}}\]$ crore and a deferred tax charge of $\[Tilde{\tilde{5}}\]$ crore has been recorded in other comprehensive income pertaining to unrealized gains on derivatives designated as cash flow hedges and unrealized gain on investment in non-convertible debentures and certificates of deposit.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In ₹ crore) Three months ended September Six months ended September 30, 2017 2016 2017 2016 Profit before income taxes 9,983 5.129 5,066 9.863 Enacted tax rates in India 34.61% 34.61% 34.61% 34.61% Computed expected tax expense 1.775 1,753 3,455 3,414 Tax effect due to non-taxable income for Indian tax purposes (527)(523)(1,124)(1007)Overseas taxes 206 225 429 415 (17)(9)Tax provision (reversals), overseas and domestic (134)(149)(17)(45)Effect of exempt non-operating income (14)(31)Effect of unrecognized deferred tax assets 37 56 109 53 Effect of differential overseas tax rates 16 14 8 (1)Effect of non-deductible expenses 40 (8) 73 24 Others 2.1 (23)(39)1,403 1,460 2,774 2,822 Income tax expense

The applicable Indian statutory tax rates for fiscal 2018 and fiscal 2017 is 34.61%, respectively.

The foreign expense is due to income taxes payable overseas principally in the United States. In India, the company has benefited from certain tax incentives that the Government of India had provided for export of software from the units registered under the Special Economic Zones (SEZs) Act, 2005. SEZ units which began the provision of services on or after April 1, 2005 are eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50% of such profits or gains for further five years. Up to 50% of such profits or gains is also available for a further five years subject to creation of a Special Economic Zone re-Investment Reserve out of the profit of the eligible SEZ units and utilization of such reserve by the Company for acquiring new plant and machinery for the purpose of its business as per the provisions of the Income Tax Act, 1961.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the year, computed in accordance with the Internal Revenue Code. As of March 31, 2017, Infosys' U.S. branch net assets amounted to approximately ₹5,995 crore. As of September 30, 2017, the Company has provided for branch profit tax of ₹329 crore for its U.S branch, as the Company estimates that these branch profits are expected to be distributed in the foreseeable future. The change in provision for branch profit tax of ₹2 crore is on account of exchange rate during the six months ended September 30, 2017.

Deferred income tax liabilities have not been recognized on temporary differences amounting to \$5,736 crore and \$5,309 crore as of September 30, 2017 and March 31, 2017, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

The following table provides the details of income tax assets and income tax liabilities as of September 30, 2017 and March 31, 2017:

(In ₹ crore)

Particulars	As at	t
	September 30, 2017	March 31, 2017
Income tax assets	6,239	5,716
Current income tax liabilities	4,570	3,885
Net current income tax asset/ (liability) at the end	1,669	1,831

The gross movement in the current income tax asset/ (liability) for the three months and six months ended September 30, 2017 and September 30, 2016 is as follows:

(In ₹ crore)

	Three months ended September		Six months ended September 30,	
	2017	2016	2017	2016
Net current income tax asset/ (liability) at the beginning	1,537	1,102	1,831	1,820
Translation differences	-	-	-	-
Income tax paid	1,605	1,755	2,810	2,499
Current income tax expense	(1,471)	(1,469)	(2,971)	(2,936)
Income tax benefit arising on exercise of stock options	-	1	-	1
Income tax on other comprehensive income	(2)	8	(1)	13
Net current income tax asset/ (liability) at the end	1,669	1,397	1,669	1,397

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In ₹ crore)

	As at	t
	September 30, 2017	March 31, 2017
Deferred income tax assets		
Property, plant and equipment	168	138
Computer software	43	40
Accrued compensation to employees	75	57
Trade receivables	142	136
Compensated absences	390	374
Post sales client support	99	97
Derivative financial instruments	17	-
Intangibles	26	22
Others	152	143
Total deferred income tax assets	1,112	1007
Deferred income tax liabilities		
Intangible asset	(189)	(206)
Temporary difference related to branch profits	(329)	(327)
Derivative financial instruments	-	(74)
Others	(58)	(67)
Total deferred income tax liabilities	(576)	(674)
Deferred income tax assets after set off	724	540
Deferred income tax liabilities after set off	(188)	(207)

Deferred tax assets and deferred tax liabilities have been offset wherever the Group has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the reliability of deferred income tax assets, the management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The gross movement in the deferred income tax account for the three months and six months ended September 30, 2017 and September 30, 2016, is as follows:

(In ₹ crore)

	Three months ended S	Three months ended September		mber 30,
	2017	2016	2017	2016
Net deferred income tax asset at the beginning	482	378	333	284
Addition through business combination (Refer note no. 2.1)	(2)	-	(2)	-
Translation differences	(2)	6	(1)	(5)
Credits / (charge) relating to temporary differences	68	9	197	114
Temporary differences on other comprehensive income	(10)	-	9	-
Net deferred income tax asset at the end	536	393	536	393

The credit relating to temporary differences during the six months ended September 30, 2017 are primarily on account of property plant and equipment, accrued compensation to employees, compensated absences and fair value change in derivative financial instruments. The credits relating to temporary differences during the six months ended September 30, 2016 are primarily on account of trade receivables, accrued compensation to employees, compensated absences and post sales client support partially offset by property, plant and equipments.

(In ₹ crore)

Particulars	Three months ended Sep	Three months ended September 30,		ember 30,
raruculars	2017	2016	2017	2016
(Gain)/loss from change in demographic assumptions	-	-	-	_
(Gain)/loss from change in financial assumptions	(13)	43	7	54
(Gain)/loss from experience adjustment	8	6	(5)	20
	(5)	49	2	74

The weighted-average assumptions used to determine benefit obligations as of September 30, 2017 and March 31, 2017 are set out below:

Particulars	As o	As of		
ratuculais	September 30, 2017	March 31, 2017		
Discount rate	6.8%	6.9%		
Weighted average rate of increase in compensation levels	8%	8%		

The weighted-average assumptions used to determine net periodic benefit cost for the three months and six months ended September 30, 2017 and September 30, 2016 are set out below:

Particulars	Three months ended S	eptember 30,	Six months ended September 30,	
ratuculars	2017	2016	2017	2016
Discount rate(%)	6.9%	7.8%	6.9%	7.8%
Weighted average rate of increase in compensation levels(%)	8%	8%	8%	8%
Weighted average duration of defined benefit obligation(years)	6.1 years	6.4 years	6.1 years	6.4 years

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

As of September 30, 2017, every percentage point increase / decrease in discount rate will affect our gratuity benefit obligation by approximately ₹61 crore.

As of September 30, 2017, every percentage point increase / decrease in weighted average rate of increase in compensation levels will affect our gratuity benefit obligation by approximately ₹52 crore.

Sensitivity to significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant.

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. In case of Infosys BPO and EdgeVerve, contributions are made to the Infosys BPO Employees' Gratuity Fund Trust and EdgeVerve Systems Limited Employees Gratuity Fund Trust, respectively. Trustees administer contributions made to the trust. As of Sept 30, 2017 and March 31, 2017, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for the three months ended September 30, 2017, and September 30, 2016 were ₹23 crore and ₹20 crore, respectively.

Actual return on assets for the six months ended September 30, 2017, and September 30, 2016 were ₹47 crore and ₹41 crore, respectively.

The Group expects to contribute ₹54 crore to the gratuity trusts during the remainder of fiscal 2018.

Maturity profile of defined benefit obligation:

	(In \prec crore)
Within 1 year	166
1-2 year	171
1-2 year 2-3 year	182
3-4 year	195
4-5 year	204
3-4 year 4-5 year 5-10 years	991

2.20.2 Superannuation

The group contributed ₹43 crore and ₹42 crore to the superannuation plan during the three months ended September 30, 2017 and September 30, 2016, respectively ₹85 crore and ₹83 crore and same has been recognized in the Statement of profit and loss account under the head employee benefit expense.

2.20.3 Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and in most cases the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the assumptions provided below there is no shortfall as at September 30, 2017 and March 31, 2017, respectively.

The details of fund and plan asset position are as follows:

(In ₹ crore)

Particulars	As	As of		
	September 30, 2017	March 31, 2017		
Plan assets at period end, at fair value	4,610	4,459		
Present value of benefit obligation at period end	4,610	4,459		
Asset recognized in Balance Sheet	-			

The plan assets have been primarily invested in government securities.

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

Particulars	As o	As of		
1 di uculais	September 30, 2017	March 31, 2017		
Government of India (GOI) bond yield (%)	6.80	6.90		
Remaining term to maturity of portfolio (years)	6.1	6.0		
Expected guaranteed interest rate (%) - First year:	8.60	8.60		
- Thereafter:	8.60	8.60		

The Group contributed ₹121 crore and ₹116 crore to the provident fund during the three months ended September 30, 2017 and September 30, 2016, respectively. The Group contributed ₹236 crore and ₹230 crore to the provident fund during the six months ended September 30, 2017 and September 30, 2016, respectively. The same has been recognized in the Statement of Profit and Loss under the head employee benefit expense.

The provident plans are applicable only to employees drawing a salary in Indian rupees and there are no other significant foreign defined benefit plans.

2.20.4 Employee benefit costs include:

(In ₹ crore)

Particulars	Three months ended Se	Three months ended September 30,		Six months ended September 30,	
	2,017	2,016	2,017	2,016	
Salaries and bonus ⁽¹⁾⁽²⁾	9,404	9,459	18,576	18,557	
Defined contribution plans	64	63	127	125	
Defined benefit plans	136	126	267	248	
	9,604	9,648	18,970	18,930	

⁽¹⁾ Includes a reversal of employee stock compensation expense of ₹8 crore for the three months ended September 30, 2017 and an employee stock compensation cost of ₹38 crore, for the six months ended September 30, 2017. Similarly, includes employee stock compensation expense of ₹21 crore and ₹30 crore for the three months and six months ended September 30, 2016.

⁽²⁾ Included in the above is a reversal of stock compensation cost of ₹35 crore recorded during the three months ended September 30, 2017 towards forfeiture of stock incentives granted to Dr. Vishal Sikka upon his resignation. Refer note no. 2.11.

2.21 RECONCILIATION OF BASIC AND DILUTED SHARES USED IN COMPUTING EARNINGS PER SHARE

Particulars	Three months ended September 30, Six months ended September 30		September 30,	
	2017	2016	2017	2016
Basic earnings per equity share - weighted average number of equity shares outstanding (1)	228,58,65,361	228,56,41,710	228,57,62,186	228,56,32,081
Effect of dilutive common equivalent shares - share options outstanding	16,60,822	3,07,593	21,20,348	2,43,907
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	228,75,26,183	228,59,49,303	228,78,82,534	228,58,75,988

⁽¹⁾ Excludes treasury shares

For the three and six months ended September 30, 2017, 190,454 and 187,880 number of options to purchase equity shares had an anti-dilutive effect respectively. For the three months and six months ended September 30, 2016, no outstanding option to purchase equity shares had an anti-dilutive effect.

2.22 CONTINGENT LIABILITIES AND COMMITMENTS (TO THE EXTENT NOT PROVIDED FOR)

Claims against the Company, not acknowledged as debts ⁽¹⁾	1,816	1,997
[Net of amount paid to statutory authorities ₹4,844 crore (₹4,717 crore)]		
Commitments:		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	596	1,149
Other commitments*	89	114

^{*}Uncalled capital pertaining to investments

The Company is contesting the demands and the management including its tax advisors believe that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

⁽¹⁾ Claims against the Company not acknowledged as debts as on September 30, 2017 include demands from the Indian Income tax authorities for payment of tax including interest for fiscals 2007 to 2013. The tax demands are mainly on account of disallowance of portion of deduction claimed u/s 10A in respect of export turnover, disallowance of portion of profits earned from outside India and profits earned from SEZ units under section 10AA of the Income Tax Act. The above matters are pending before various Appellate Authorities.

Transaction with key management personnel:

The table below describes the compensation to key managerial personnel which comprise directors and executive officers:

(In ₹ crore)

Particulars	Three months ended September		Six months ended September 30,		
	2017	2016	2017	2016	
Salaries and other employee benefits to whole-time directors and executive officers (1)(2)	(14)	14	12	35	
Commission and other benefits to non-executive/independent directors	5	3	8	6	
Total	(9)	17	20	41	

⁽¹⁾ Includes a reversal of stock compensation cost of ₹35 crore recorded during the three months ended September 30, 2017 towards forfeiture of stock incentives granted to Dr. Vishal Sikka upon his resignation. (Refer to note 2.11)

note 2.111

(2) Total employee stock compensation expense for the three months and six months ended September 30, 2017 includes a reversal of ₹29 crore and ₹17 crore, respectively towards key managerial personnel. For the three months and six months ended September 30, 2016, an employee stock compensation expense of ₹5 crore and ₹14 crore, respectively, was recorded towards key managerial personnel. (Refer to note 2.11)

2.24 SEGMENT REPORTING

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The group's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Based on the 'management approach' as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along business segments and geographic segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Business segments of the Group are primarily enterprises in Financial Services (FS), enterprises in Manufacturing (MFG), enterprises in Retail, Consumer packaged goods and Logistics (RCL), enterprises in the Energy & utilities, Communication and Services (ECS), enterprises in Hi-tech (Hi-tech), enterprises in Life Sciences, Healthcare and Insurance (HILIFE) and all other segments. The FS reportable segments has been aggregated to include the Financial Services operating segment and the Finacle operating segment because of the similarity of the economic characteristics. All other segments represents the operating segments of businesses in India, Japan and China and IPS. Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and off-shore locations. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Revenue for 'all other segments' represents revenue generated by IPS and revenue generated from customers located in India, Japan and China. Allocated expenses of segments include expenses incurred for rendering services from the Group's offshore software development centres and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. The management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Group.

Assets and liabilities used in the Group's business are not identified to any of the reportable segments, as these are used interchangeably between segments. The management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Geographical information on revenue and business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.
