## Statement of Cash Flows

### Accounting Policy

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

### Amendment to Ind AS 7

Effective April 1, 2017, the Company adopted the amendment to Ind AS 7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of amendment did not have any material impact on the financial statements.

## **INFOSYS LIMITED**

### **Notes to the Financial Statements**

#### **1. Overview**

##### **1.1 Company overview**

Infosys Limited (the Company' or Infosys) is a leading provider of consulting, technology, outsourcing and next-generation services and software. Along with its subsidiaries, Infosys provides Business IT services (comprising application development and maintenance, independent validation, infrastructure management, engineering services comprising product engineering and life cycle solutions and business process management); Consulting and systems integration services (comprising consulting, enterprise solutions, systems integration and advanced technologies); Products, business platforms and solutions to accelerate intellectual property-led innovation. Its new offerings span areas like digital, big data and analytics, cloud, data and mainframe modernization, cyber security, IoT engineering Services and API & micro services.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India. The Company has its primary listings on the BSE Limited and National Stock Exchange of India Limited, in India. The Company's American Depository Shares representing equity shares are also listed on the New York Stock Exchange (NYSE), Euronext London and Euronext Paris.

The company has proposed to voluntarily delist its American Depository Shares ("ADS") from the Euronext Paris and Euronext London exchanges due to low average daily trading volume of Infosys ADS on these exchanges. The proposed delisting is subject to approval from said stock exchanges.

The financial statements are approved for issue by the Company's Board of Directors on April 13, 2018.

##### **1.2 Basis of preparation of financial statements**

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Effective April 1, 2016, the Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 First time adoption of Indian Accounting Standards, with April 1, 2015 as the transition date. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Amounts for the year ended and as at March 31, 2017 were audited by previous auditors - B S R & Co LLP.

As the year end figures are taken from the source and rounded to the nearest digits, the figures reported for the previous quarters might not always add up to the year end figures reported in this statement.

##### **1.3 Use of estimates and judgments**

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note no. 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

##### **1.4 Critical accounting estimates**

###### **a. Revenue recognition**

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

###### **b. Income taxes**

The Company's two major tax jurisdictions are India and the U.S., though the Company also files tax returns in other overseas jurisdictions. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also refer to note no.2.15 and note no. 2.22.

###### **c. Property, plant and equipment**

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

#### **d. Non-current assets held for sale**

Assets held for sale are measured at the lower of carrying amount or fair value less costs to sell. The determination of fair value less costs to sell includes use of management estimates and assumptions. The fair value of the asset held for sale has been estimated using valuation techniques (mainly income and market approach) which includes unobservable inputs.

#### **1.5 Recent accounting pronouncements**

**Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:** On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency.

The amendment will come into force from April 1, 2018. The Company has evaluated the effect of this on the financial statements and the impact is not material.

**Ind AS 115- Revenue from Contract with Customers:** On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach)

The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company will adopt the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is expected to be insignificant.

## 2.1 PROPERTY, PLANT AND EQUIPMENT

### Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Building <sup>(1)</sup>	22-25 years
Plant and machinery <sup>(1)</sup>	5 years
Office equipment	5 years
Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Vehicles <sup>(1)</sup>	5 years
Leasehold improvements	Over lease term

<sup>(1)</sup> Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

### Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU (Cash Generating Unit) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

### 2.2.2 Other Intangible Assets:

#### Accounting Policy

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances). Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use.

## 2.9 FINANCIAL INSTRUMENTS

### Accounting Policy

#### 2.9.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 2.9.2 Subsequent measurement

##### a. Non-derivative financial instruments

###### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

###### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

###### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

###### (v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

##### b. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

###### (i) Financial assets or financial liabilities, at fair value through profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

###### (ii) Cash flow hedge

The Company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the Statement of Profit and Loss.

##### c. Share capital

###### Ordinary Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options and buy back of ordinary shares are recognized as a deduction from equity, net of any tax effects.

#### 2.9.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

#### 2.9.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to table below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 2.9.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit or loss.

**Fair value hierarchy**

**Level 1** - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2** – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3** - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities as at March 31, 2018:

During the year ended March 31, 2018, quoted debt securities of ₹1,797 crore were transferred from Level 2 to Level 1 of fair value hierarchy, since these were valued based on Quoted price, and ₹743 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs.

The movement in level 3 investments from March 31, 2017 to March 31, 2018 is on account of purchase of additional investments, disposals during the year and change in fair value.

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2017:

(In ₹ crore)

Particulars	As at March 31, 2017	Fair value measurement at end of the reporting period/year using

During the year ended March 31, 2017, tax-free bonds of ₹115 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs.

A one percentage point change in the unobservable inputs used in fair valuation of Level 3 assets and liabilities does not have a significant impact in its value.

The movement in contingent consideration as at March 31, 2018 from March 31, 2017 is mainly on account of settlement of ₹45 crore pertaining to Kallidus acquisition and addition of ₹17 crore in relation to acquisition of Brilliant Basics Holdings Limited.(Refer note no. 2.2)

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table analysis foreign currency risk from financial instruments as at March 31, 2018:

Particulars	(In ₹ crore)					Total
	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

### Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign currency forward and option contracts:

The foreign exchange forward and option contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the balance sheet date:

Particulars	(In ₹ crore)	
	As at	As at
	March 31, 2018	March 31, 2017
Not later than one month	2,693	2,215

Later than three months and not later than one year	2,340	2,018
	<b>9,307</b>	<b>8,336</b>

During the year ended March 31, 2018, the Company has designated certain foreign exchange forward and option contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions for balance in cash flow hedging reserve are expected to occur and reclassified to statement of profit or loss within 3 months.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in the Statement of Profit or Loss at the time of the hedge relationship rebalancing.

The following table provides the reconciliation of effective portion of cash flow hedges for the year ended March 31, 2018 and March 31, 2017:

Particulars	(In ₹ crore)	
	Year ended March 31,	
	2018	2017

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹12,151 crore and ₹10,960 crore as at March 31, 2018 and March 31, 2017, respectively and unbilled revenue amounting to ₹3,573 crore and ₹3,200 crore as at March 31, 2018 and March 31, 2017, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company uses expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

The following table gives details in respect of percentage of revenues generated from top customer and top ten customers:

(In %)

Particulars	Year ended March 31,	
	2018	2017
Revenue from top customer	3.9	3.9
Revenue from top ten customers	21.0	23.1

### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2018 and March 31, 2017 was ₹18 crore and ₹135 crore respectively.

### Movement in credit loss allowance:

(In ₹ crore)

Particulars	Year ended March 31,	
	2018	2017

Impairment loss recognized/ reversed	18	135
Amounts written off	(3)	(1)
Translation differences	7	(4)
<b>Balance at the end</b>	<b>401</b>	<b>379</b>

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, fixed maturity plan securities, quoted bonds issued by government and quasi government organizations, non convertible debentures issued by government aided institutions and certificates of deposit.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings. The Company believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2018, the Company had a working capital of ₹30,903 crore including cash and cash equivalents of ₹16,770 crore and current investments of ₹5,906 crore. As at March 31, 2017, the Company had a working capital of ₹35,896 crore including cash and cash equivalents of ₹19,153 crore and current investments of ₹9,643 crore.

As at March 31, 2018 and March 31, 2017, the outstanding compensated absences were ₹1,260 crore and ₹1,142 crore, respectively, which have been substantially funded. Accordingly, no liquidity risk is perceived.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2018:

<sup>(1)</sup> Refer note no. 2.21 for details of basic and diluted shares

Forfeited shares amounted to ₹1,500/- (₹1,500/-)

The Company has only one class of shares referred to as equity shares having a par value of ₹5/-. Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depository Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share

#### In the period of five years immediately preceding March 31, 2018:

The Company has allotted 1,14,84,72,332 and 57,42,36,166 fully paid-up shares of face value ₹5/- each during the quarter ended June 30, 2015 and December 31, 2014, pursuant to bonus issue approved by the shareholders through postal ballot. For both the bonus issues, bonus share of one equity share for every equity share held, and a stock dividend of one ADS for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depository Receipt holder remains unchanged. Options granted under the restricted stock unit plan (RSU) have been adjusted for bonus shares.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts. However, no such preferential amounts exist currently.

#### Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

The Company declares and pays dividends in Indian rupees. The remittance of dividends outside India is governed by Indian law on foreign exchange and is subject to applicable distribution taxes. Dividend distribution tax paid by subsidiaries may be reduced / available as a credit against dividend distribution tax payable by Infosys Limited.

#### Amount of per share dividend recognized as distribution to equity shareholders:

(in ₹)

Particulars	Year ended March 31,	
	2018	2017
Final Dividend for fiscal 2016	-	14.25
Interim Dividend for fiscal 2017	-	11.00
Final Dividend for fiscal 2017	14.75	-
Interim Dividend for fiscal 2018	13.00	-

Effective from Financial Year 2018, the Company's policy is to payout up to 70% of the free cash flow of the corresponding Financial Year in such manner (including by way of dividend and / or share buyback) as may be decided by the Board from time to time, subject to applicable laws and requisite approvals, if any. Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the consolidated statement of cash flows prepared under IFRS. Dividend payout includes dividend distribution tax.

The Board of Directors recommended a final dividend of ₹20.5/- per equity share for the financial year ended March 31, 2018 and a special dividend of ₹10/- per equity share. The payment is subject to the approval of the shareholders in the ensuing Annual General Meeting of the Company, to be held on June 23, 2018 and if approved would result in a cash outflow of approximately ₹7,982 crore, including dividend distribution tax.

The Board of Directors, in their meeting on October 24, 2017, declared an interim dividend of ₹13/- per equity share, which resulted in a cash outflow of ₹3,422 crore, inclusive of dividend distribution tax.

During the year ended March 31, 2018, the Company received ₹846 crore as dividend from Infosys BPO its majority owned subsidiary. Dividend distribution tax paid by the subsidiary on such dividend has been reduced as credit against dividend distribution tax payable by Infosys.

## Buyback

The Board, at its meeting on August 19, 2017, approved a proposal for the Company to buyback its fully paid-up equity shares of face value of ₹5/- each from the eligible equity shareholders of the Company for an amount not exceeding ₹13,000 crore. The shareholders approved the said proposal of buyback of Equity Shares through the postal ballot that concluded on October 7, 2017. The Buyback offer comprised a purchase of 11,30,43,478 Equity Shares aggregating 4.92% of the paid-up equity share capital of the Company at a price of ₹1,150/- per Equity share. The buyback was offered to all eligible equity shareholders (including those who became equity shareholders as on the Record date by cancelling American Depository Shares and withdrawing underlying Equity shares) of the Company as on the Record Date (i.e November 1, 2017) on a proportionate basis through the "Tender offer" route. The Company concluded the buyback procedures on December 27, 2017 and 11,30,43,478 equity shares were extinguished. The company has funded the buyback from its securities premium and general reserve. In accordance with section 69 of the Companies Act, 2013, the company has created 'Capital Redemption Reserve' of ₹56 crore equal to the nominal value of the shares bought back as an appropriation from general reserve.

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of March 31, 2018, the Company has only one class of equity shares and has no debt. Consequent to the above capital structure there are no externally imposed capital requirements

The details of shareholder holding more than 5% shares as at March 31, 2018 and March 31, 2017 are set out below :

## Employee Stock Option Plan (ESOP):

### Accounting Policy

The Company recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-Based Payment. The estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

### Amendment to Ind AS 102:

Effective April 1, 2017, the Company adopted amendment to Ind AS 102 which provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes. The adoption of amendment did not have any material effect on the financial statements.

### 2015 Stock Incentive Compensation Plan (the 2015 Plan) (formerly 2011 RSU Plan):

On March 31, 2016, pursuant to the approval by the shareholders through postal ballot, the Board has been authorized to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Stock Incentive Compensation Plan (the 2015 Plan). The maximum number of shares under the 2015 plan shall not exceed 2,40,38,883 equity shares (this includes 1,12,23,576 equity shares which are held by the trust towards the 2011 Plan as at March 31, 2016). Out of this 1,70,38,883 equity shares will be issued as RSUs at par value and 70,00,000 equity shares will be issued as stock options at market price on the date of the grant. These instruments will generally vest over a period of 4 years and the Company expects to grant the instruments under the 2015 Plan over the period of 4 to 7 years.

Controlled trust holds 1,08,01,956 and 1,12,89,514 shares as at March 31, 2018 and March 31, 2017, respectively under the 2015 plan, out of which 1,00,000 equity shares have been earmarked for welfare activities of the employees.

### Stock incentives granted to Salil Parekh (CEO & MD)

Pursuant to the approval of the shareholders through a postal ballot on February 20, 2018, Salil Parekh (CEO & MD) is eligible to receive under the 2015 Plan, a) an annual grant of RSUs of fair value ₹3.25 crore which will vest over time in 3 equal annual installments upon completion of each year of service from the respective grant date

b) a one-time grant of RSUs of fair value ₹9.75 crore which will vest over time in 2 equal annual installments upon completion of each year of service from the grant date and

c) annual grant of performance based RSUs of fair value ₹13 crore which will vest after completion of three years the first of which concludes on March 31, 2021, subject to achievement of performance targets set by the Board or its committee.

The Board based on the recommendations of the Nomination and Remuneration committee approved on February 27, 2018, the annual time based grant for FY18 of 28,256 RSUs and the one-time time based grant of 84,768 RSUs. The grants were made effective February 27, 2018. Though the annual time based grants for the remaining employment term have not been granted as of March 31, 2018, in accordance with Ind AS 102, Share based payments the company has recorded employment stock compensation expense.

### Stock incentives granted to Dr. Vishal Sikka

Consequent to Dr. Vishal Sikka's resignation from the company on August 24, 2017, the unvested stock incentives (time-based and performance based awards) granted to him were forfeited.

### Stock incentives granted to COO:

The Nomination and Remuneration Committee ('Committee') in its meeting held on October 14, 2016 recommended a grant of 27,250 RSUs and 43,000 ESOPs amounting to ₹4 crore to U. B. Pravin Rao, under the 2015 Plan and the same was approved by the shareholders through postal ballot on March 31, 2017. These RSUs and ESOPs have been granted effective May 2, 2017. These RSUs and stock options would vest over a period of 4 years and shall be exercisable within the period as approved by the Committee. The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant, as approved by the shareholders.

### Stock incentives granted to KMPs (other than CEO and COO and Dr. Vishal Sikka)

On November 1, 2016, 2,47,250 RSUs and 5,02,550 stock options were granted under the 2015 plan, to key management personnel, excluding Vishal Sikka and COO, based on fiscal 2016 performance. On August 1, 2017, 58,150 RSUs and 44,450 ESOPs were granted to the General Counsel. These RSUs and stock options will vest within a period of 4 years and shall be exercisable within the period as approved by the Committee. The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant. On February 27, 2018, based on the recommendation and approval of the Nomination and Remuneration Committee the company granted 214,950 RSUs to the KMP other than CEO and COO. These instruments will vest over a period of 4 years and are subject to continued service.

During the year ended March 31, 2018, three of the KMPs have resigned (Refer to note no. 2.23 Related party transactions for further details) and hence the RSUs and stock options granted to them were forfeited.

### Stock incentive granted to employees other than KMP:

During fiscal 2017, the company granted 25,06,740 RSUs and 7,03,300 ESOPs and 1,12,210 incentive units (cash settled) to certain eligible employees at mid and senior levels under the 2015 plan. Further, on May 2, 2017, the company granted 37,090 RSUs (includes equity shares and equity shares represented by ADS) at par value, 73,600 employee stock options (ESOPs) (including equity shares and equity shares represented by ADS) to be exercised at market price at the time of grant, to certain employees at the senior management level. On August 1, 2017, 7,450 incentive units (cash settled) were granted to employees at the senior management level. These instruments will vest over a period of 4 years and are subject to continued service. On February 27, 2018 15,59,920 RSUs and 42,590 incentive units (cash settled) were granted to eligible employees. These instruments will vest over a period of 4 years and are subject to continued service.

As at March 31, 2018 and March 31, 2017, 1,11,757 and 1,06,845 incentive units were outstanding (net of forfeitures).

## 2.14 PROVISIONS

### Accounting Policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

#### a. Post sales client support

The Company provides its clients with a fixed-period post sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

#### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

## 2.15 INCOME TAXES

### Accounting Policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

### Advance Pricing Agreement (“APA”)

During the three months ended December 31, 2017, the Company had concluded an Advance Pricing Agreement (“APA”) with the US Internal Revenue Service (“IRS”) for the US branch covering the years ending March 2011 to March 2021. Under the APA, the Company and the IRS have agreed on the methodology to allocate revenues and compute the taxable income of the Company’s US Branch operations

During the three months ended December 31, 2017, in accordance with the APA, the company has reversed income tax expense provision of ₹1,432 crore which pertains to previous periods. This comprises of current tax expense of ₹1,610 crore, reversal of ₹132 crore on account of deferred tax assets pertaining to the temporary differences which are no longer required and a deferred tax liability of ₹46 crore pertaining to Branch profit tax for the three months ended December 31, 2017 on account of conclusion of APA. In line with the APA, the Company has to pay an amount of approximately ₹1,488 crore due to the difference between the taxes payable for prior periods as per the APA and the actual taxes paid for such periods. The Company has paid ₹479 crore during the three months ended March 31, 2018, and the balance amount is expected to be paid over the next few quarters.

Additionally, income tax expense for the year ended March 31, 2018 and March 31, 2017 includes reversal (net of provisions) of ₹240 crore and ₹218 crore, respectively, pertaining to prior periods on account of adjudication of certain disputed matters in favor of the company across various jurisdictions.

The “Tax Cuts and Jobs Act (H.R. 1)” was signed into law on December 22, 2017 (“US Tax Reforms”). The US tax reforms has reduced federal tax rates from 35% to 21% effective January 1, 2018 amongst other measures. During the year ended March 31, 2018, the US tax reforms has resulted in a positive impact of ₹155 crore on account of credits pertaining to deferred tax liabilities on branch profit. The impact of US tax reforms is expected to be not significant for future periods.

During the year ended March 31, 2018 and March 31, 2017, a current tax charge of ₹16 crore and current tax credit of ₹8 crore respectively have been recorded in other comprehensive income pertaining to remeasurement of defined benefit plan asset.

During the year ended March 31, 2018, a deferred tax credit of ₹13 crore and a deferred tax credit of less than ₹1 crore has been recorded in other comprehensive income pertaining to unrealized gains on derivatives designated as cash flow hedges and unrealized gain on investment in non-convertible debentures, certificates of deposit, commercial papers and equity & preference securities. During the year ended March 31, 2017, a deferred tax charge of ₹13 crore has been recorded in other comprehensive income pertaining to unrealized gains on derivatives designated as cash flow hedges

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

Particulars	(In ₹ crore)	
	As at March 31,	
	2018	2017
Profit before income taxes	19,908	18,938
Enacted tax rates in India	34.61%	34.61%
Computed expected tax expense	6,890	6,554

Overseas taxes	678	735
Tax reversals, overseas and domestic	(1,566)	(218)
Effect of exempt non-operating income	(385)	(51)
Effect of non-deductible expenses	299	16
Branch profit tax	(209)	-
Others	54	(1)
<b>Income tax expense</b>	<b>3,753</b>	<b>5,120</b>

The applicable Indian statutory tax rate for each of the fiscal 2018 and fiscal 2017 is 34.61%.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the year, computed in accordance with the Internal Revenue Code. As at March 31, 2018, Infosys' U.S. branch net assets amounted to approximately ₹5,030 crore. During the year ended March 31, 2018, an additional deferred tax liability has been created for branch profit tax amounting to ₹46 crore on account of conclusion of APA explained above. Further, on account of US tax Reforms, the company has a credit of ₹155 crore pertaining to Branch Profit Tax for the year ended March 31, 2018. The company has also reversed ₹55 crore of Branch Profit tax during the year ended March 31, 2018 toward current taxes. As of March 31, 2018, the Company has a deferred tax liability for branch profit tax of ₹164 crore (net of credits), as the Company estimates that these branch profits are expected to be distributed in the foreseeable future.

Other income for the year ended March 31, 2018 includes interest on income tax refund of ₹257 crore.

The foreign tax expense is due to income taxes payable overseas, principally in the United States. In India, the Company has benefited from certain income tax incentives that the Government of India had provided for export of software from the units registered under the Special Economic Zones Act (SEZs), 2005. SEZ units which began the provision of services on or after April 1, 2005 are eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50% of such profits or gains for further five years. Up to 50% of such profits or gains is also available for a further five years subject to creation of a Special Economic Zone re-investment Reserve out of the profit for the eligible SEZ units and utilization of such reserve by the Company for acquiring new plant and machinery for the purpose of its business as per the provisions of the Income Tax Act, 1961.

Deferred income tax liabilities have not been recognized on temporary differences amounting to ₹5,045 crore and ₹5,309 crore as at March 31, 2018 and March 31, 2017, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

<b>Total deferred income tax liabilities</b>	<b>513</b>	<b>420</b>
Deferred income tax assets after set off	1,128	346
Deferred income tax liabilities after set off	505	-

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the reliability of deferred income tax assets, the management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The gross movement in the deferred income tax account for the year ended March 31, 2018 and March 31, 2017, are as follows:

(In ₹ crore)

Particulars	As at	
	March 31, 2018	March 31, 2017

Credits / (charge) relating to temporary differences	250	(52)
Temporary differences on other comprehensive income	13	(13)
<b>Net deferred income tax asset at the end</b>	<b>623</b>	<b>346</b>

Entire deferred income tax, except for a credit of ₹155 crore (on account of US Tax Reforms explained above), for the year ended March 31, 2018, relates to origination and reversal of temporary differences

The credit relating to temporary differences during the year ended March 31, 2018 are primarily on account of property plant and equipment and trade receivables partially offset by decrease in compensated absences and accrued compensation to employees. The charge relating to temporary differences during the year ended March 31, 2017 is primarily on account of property, plant and equipment, accrued compensation and compensated absences partially offset by trade receivables.

## 2.16 REVENUE FROM OPERATIONS

### Accounting Policy

The Company derives revenues primarily from software development and related services and from the licensing of software products. Arrangements with customers for software related services are mainly either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the Balance Sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings in excess of billings are classified as unbilled revenue while billings in excess of costs and earnings are classified as unearned revenue. Deferred contract costs are amortized over the term of the contract. Maintenance revenue is recognized rateably over the term of the underlying maintenance arrangement.

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in Ind AS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the Company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in Ind AS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the Company is unable to establish objective and reliable evidence of fair value for the software development and related services, the Company has used a residual method to allocate the arrangement consideration. In these cases, the balance of the consideration, after allocating the fair values of undelivered components of a transaction, has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues are recognized when the general revenue recognition criteria given in Ind AS 18 are met. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The Company has applied the principles given in Ind AS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value has been established for ATS. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of their fair values have been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered elements. In the absence of objective and reliable evidence of fair value for implementation, the entire arrangement fee for license and implementation is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are performed. ATS revenue is recognized rateably over the period in which the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying revenue transaction that results in progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenue from operations for the year ended March 31, 2018 and March 31, 2017 is as follows:

(In ₹ crore)

Particulars	Year ended March 31,	
	2018	2017
Revenue from software services	61,910	59,257
Revenue from software products	31	32
	<b>61,941</b>	<b>59,289</b>

## 2.17 OTHER INCOME, NET

### 2.17.1 Other income - Accounting policy

Other income is comprised primarily of interest income, dividend income, gain / loss on investments and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

### 2.17.2 Foreign currency - Accounting policy

#### Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

#### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The operating lease arrangements, are renewable on a periodic basis and for most of the leases extend upto a maximum of ten years from their respective dates of inception and relates to rented premises. Some of these lease agreements have price escalation clauses.

## 2.20 EMPLOYEE BENEFITS

### Accounting Policy

#### 2.20.1 Gratuity

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation of India as permitted by Indian law.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profit in the Statement of Profit and Loss.

#### 2.20.2 Superannuation

Certain employees of Infosys are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

#### 2.20.3 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the Government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

#### 2.20.4 Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

#### a. Gratuity

The weighted-average assumptions used to determine benefit obligations as at March 31, 2018 and March 31, 2017 are set out below:

Particulars	As at March 31,	
	2018	2017
Discount rate	7.5%	6.9%
Weighted average rate of increase in compensation levels	8.0%	8.0%

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2018 and March 31, 2017 are set out below:

Particulars	As at March 31,	
	2018	2017
Discount rate	6.9%	7.8%
Weighted average rate of increase in compensation levels	8.0%	8.0%
Weighted average duration of defined benefit obligation	6.1 years	6.1 years

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

Sensitivity of significant assumptions used for valuation of defined benefit obligations		( ₹ in crore)
<b>Impact from percentage point increase / decrease in</b>		<b>As at March 31,</b>
		<b>2018</b>
Discount Rate		58
Weighted average rate of increase in compensation level		50

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant. The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is not probable, and changes in some of the assumptions may be correlated.

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other significant foreign defined benefit gratuity plans.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. Trustees administer contributions made to the trust. As at March 31, 2018 and March 31, 2017, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for each of the year ended March 31, 2018 and March 31, 2017 was ₹80 crore.

The Company expects to contribute ₹110 crore to the gratuity trusts during the fiscal 2019.

Maturity profile of defined benefit obligation:

	<i>(In ₹ crore)</i>
Within 1 year	144
1-2 year	151
2-3 year	165
3-4 year	176
4-5 year	186
5-10 years	928

#### b. Superannuation

The Company contributed ₹158 crore and ₹151 crore to the Superannuation trust during the year ended March 31, 2018 and March 31, 2017 respectively and the same has been recognized in the Statement of Profit and Loss account under the head employee benefit expense.

#### c. Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and in most cases the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is no shortfall as at March 31, 2018 and March 31, 2017 respectively.

The details of fund and plan asset position are given below:

Particulars	<i>(In ₹ crore)</i>	
	As at March 31,	
	2018	2017
Plan assets at period end, at fair value	5,160	4,459
Present value of benefit obligation at period end	5,160	4,459
<b>Asset recognized in balance sheet</b>	-	-

The plan assets have been primarily invested in government securities.

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

Particulars	As at March 31,	
	2018	2017
Government of India (GOI) bond yield	7.50%	6.90%
Remaining term to maturity of portfolio	5.9 years	6 years
Expected guaranteed interest rate	8.55%	8.60%

The Company contributed ₹397 crore and ₹378 crore during the year ended March 31, 2018 and March 31, 2017 respectively and the same has been recognized in the Statement of Profit and Loss under the head employee benefit expense.

The provident plans are applicable only to employees drawing a salary in Indian rupees and there are no other significant foreign defined benefit plans.

Employee benefits cost include:

Particulars	<i>(In ₹ crore)</i>	
	As at March 31,	
	2018	2017
Salaries and bonus <sup>(1)(2)</sup>	31,791	30,315
Defined contribution plans	158	151

	<b>32,472</b>	<b>30,944</b>

<sup>(1)</sup> Includes employee stock compensation expense of ₹72 crore and ₹107 crore for the year ended March 31, 2018 and March 31, 2017, respectively (Refer note 2.10).

<sup>(2)</sup> Included in the above for the year ended March 31, 2018 is a reversal of stock compensation cost of ₹35 crore towards forfeiture of stock incentives granted to Dr. Vishal Sikka upon his resignation. (Refer note no. 2.10).

## 2.21 RECONCILIATION OF BASIC AND DILUTED SHARES USED IN COMPUTING EARNING PER SHARE

### Accounting policy

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

Particulars	Year ended March 31,	
	2018	2017
Basic earnings per equity share - weighted average number of equity shares outstanding	2,26,63,43,802	2,29,69,44,664
Effect of dilutive common equivalent shares - share options outstanding	10,48,819	2,15,006
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	<b>2,26,73,92,621</b>	<b>2,29,71,59,670</b>

For the year ended March 31, 2018 and March 31, 2017 number of options to purchase equity shares that had an anti-dilutive effect are 27,876 and 77,942 respectively.

## 2.22 CONTINGENT LIABILITIES AND COMMITMENTS

(In ₹ crore)

Particulars	As at	
	March 31, 2018	March 31, 2017
<b>Contingent liabilities :</b>		
Claims against the Company, not acknowledged as debts <sup>(1)</sup> [Amount paid to statutory authorities ₹6,486 crore (₹4,694 crore)]	4,627	6,596
<b>Commitments :</b>		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	1,405	1,094
Other Commitments*	36	37

\*Uncalled capital pertaining to investments

<sup>(1)</sup> As at March 31, 2018, claims against the company not acknowledged as debts in respect of income tax matters amounted to ₹4,461 crore. These matters are pending before various Appellate Authorities and the management including its tax advisors expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

Income tax claims amounting to ₹4,670 crore has not been considered as claims not acknowledged as debt because the Company has received favourable decisions on similar claims and therefore based on its assessment, is of the view that any liability resulting from these claims is remote and will not sustain on ultimate resolution.

Amount paid to statutory authorities against the above tax claims amounted to ₹6,475 crore.

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

**Significant clients**

No client individually accounted for more than 10% of the revenues in the year ended March 31, 2018 and March 31, 2017.

**2.26 ASSETS HELD FOR SALE**

**Accounting policy**

Non current assets and disposal groups are classified as held for sale if their carrying amount is intended to be recovered principally through sale rather than through continuing use. The condition for classification of held for sale is met when the non current asset or the disposal group is available for immediate sale and the same is highly probable of being completed within one year from the date of classification as held for sale. Non current assets and disposal groups held for sale are measured at the lower of carrying amount and fair value less cost to sell.

In the quarter ended March 2018, on conclusion of a strategic review of the portfolio businesses, the Company initiated identification and evaluation of potential buyers for its subsidiaries, Kallidus and Skava (together referred to as "Skava") and Panaya . The Company anticipates completion of the sale by March 2019 and accordingly, investments amounting to ₹ 1,525 crore in respect of these subsidiaries have been reclassified as "held for sale". On reclassification, these investments has been measured at the lower of carrying amount and fair value less cost to sell and consequently, an impairment loss of ₹589 crore in respect of Panaya has been recognized in the standalone profit and loss for the year ended March 31, 2018.
