INFOSYS LIMITED

Statement of Cash Flows

Accounting Policy

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(In ₹ crore)

INFOSYS LIMITED

Overview and Notes to the Standalone Financial Statements

1. Overview

1.1 Company overview

Infosys Limited ('the Company' or Infosys) provides consulting, technology, outsourcing and next-generation digital services, to enable clients to execute strategies for their digital transformation. Infosys strategic objective is to build a sustainable organization that remains relevant to the agenda of clients, while creating growth opportunities for employees and generating profitable returns for investors. Infosys strategy is to be a navigator for our clients as they ideate, plan and execute on their journey to a digital future.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Electronic city, Hosur Road, Bengaluru 560100, Karnataka, India. The company has its primary listings on the BSE Ltd. and National Stock Exchange of India Limited. The Company's American Depository Shares (ADS) representing equity shares are listed on the New York Stock Exchange (NYSE).

The standalone financial statements are approved for issue by the Company's Board of Directors on April 13, 2022.

1.2 Basis of preparation of financial statements

These standalone financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ("the Act") (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

As the year end figures are taken from the source and rounded to the nearest digits, the figures reported for the previous quarters might not always add up to the year end figures reported in this statement.

1.3 Use of estimates and judgments

The preparation of the standalone financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note no. 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements.

Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19):

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 in the preparation of these standalone financial statements including the recoverability of carrying amounts of financial and non financial assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company has, at the date of approval of these financial statements, used internal and external sources of information including credit reports and related information and economic forecasts and expects that the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these standalone financial statements.

1.4 Critical accounting estimates and judgments

a. Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

Fixed price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed price maintenance contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

b. Income taxes

The Company's two major tax jurisdictions are India and the U.S., though the Company also files tax returns in other overseas jurisdictions.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced. (Refer to note 2.17 and note 2.23).

c. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. (Refer to note 2.1)

1.5 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 – Property Plant and equipment - The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognized in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its standalone financial statements.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labor, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

2. Notes to the Standalone Financial Statements

2.1 PROPERTY, PLANT AND EQUIPMENT

Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the management. The charge in respect of periodic depreciation is derived at after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Building ⁽¹⁾	22-25 years
Plant and machinery ⁽¹⁾⁽²⁾	5 years
Office equipment	5 years
Computer equipment ⁽¹⁾	3-5 years
Furniture and fixtures ⁽¹⁾	5 years
Vehicles ⁽¹⁾	5 years
Leasehold improvements	Lower of useful life of the asset or lease term

⁽¹⁾ Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

⁽²⁾ Includes Solar plant with a useful life of 20 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2022 are as follows:

(In ₹ crore)

Particulars	Land-Freehold	Buildings ⁽¹⁾⁽²⁾	Plant and machinery ⁽²⁾	Office Equipment ⁽²⁾	Computer equipment ⁽²⁾	Furniture and fixtures ⁽²⁾	Leasehold Improvements	Vehicles	Total

⁽¹⁾ Buildings include ₹250/- being the value of five shares of ₹50/- each in Mittal Towers Premises Co-operative Society Limited.

⁽²⁾ Includes certain assets provided on cancellable operating lease to subsidiaries.

The aggregate depreciation has been included under depreciation and amortization expense in the statement of Profit and Loss.

Tangible assets provided on operating lease to subsidiaries as at March 31, 2022 and March 31, 2021 are as follows:

(In ₹ crore)

Particulars	Cost	Accumulated depreciation	Net book value
Land	34	-	34
Buildings	186	104	82
Plant and machinery	30	30	-
Furniture and fixtures	23	23	-
Computer Equipment	3	3	-
Office equipment	16	16	-
	16	16	-

(In ₹ crore)

Particulars	Year ended March 31,	
	2022	2021
Aggregate depreciation charged on above assets	6	7
Rental income from subsidiaries	52	53

2.2 GOODWILL AND OTHER INTANGIBLE ASSETS

2.2.1 Goodwill

Following is a summary of changes in the carrying amount of goodwill:

Particulars	(In ₹ crore)	
	As at	
	March 31, 2022	March 31, 2021
Carrying value at the beginning	167	29
Goodwill on business transfer (Refer to note 2.5.1)	44	138
Carrying value at the end	211	167

The allocation of goodwill to operating segments as at March 31, 2022 and March 31, 2021 is as follows:

Segment	(In ₹ crore)	
	As at	
	March 31, 2022	March 31, 2021
Financial services	64	55
Retail	34	26
Communication	28	22
Energy, Utilities, Resources and Services	27	22
Manufacturing	21	17
Operating segments without significant goodwill	174	142
Total	211	167

2.2.2 Other Intangible Assets:

Accounting Policy

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labor, overhead costs that are directly attributable to preparing the asset for its intended use.

Following are the changes in the carrying value of acquired intangible assets for the year ended March 31, 2022:

Particulars	(In ₹ crore)				
	Customer related	Software related	Trade name related	Others	Total
Gross carrying value as at April 1, 2021	113	54	26	26	219
Additions through business transfer	-	-	-	-	-
Deletions during the year	-	-	-	-	-
Gross carrying value as at March 31, 2022	113	54	26	26	219
Accumulated amortization as at April 1, 2021	(88)	(12)	(26)	(26)	(152)
Amortization expense	(16)	(19)	-	-	(35)
Accumulated amortization on deletions	-	-	-	-	-
Accumulated amortization as at March 31, 2022	(104)	(31)	(26)	(26)	(187)
Carrying value as at March 31, 2022	9	23	-	-	32
Carrying value as at April 1, 2021	25	42	-	-	67
Estimated Useful Life (in years)	7	2	5	5	-
Estimated Remaining Useful Life (in years)	1	1	-	-	-

Following are the changes in the carrying value of acquired intangible assets for the year ended March 31, 2021:

Particulars	(In ₹ crore)				
	Customer related	Software related	Trade name related	Others	Total
Gross carrying value as at April 1, 2020	113	-	26	26	165
Addition through business transfer	-	54	-	-	54
Deletions during the year	-	-	-	-	-
Gross carrying value as at March 31, 2021	113	54	26	26	219
Accumulated amortization as at April 1, 2020	(72)	-	(23)	(22)	(117)
Amortization expense	(16)	(12)	(3)	(4)	(35)
Accumulated amortization on deletions	-	-	-	-	-
Accumulated amortization as at March 31, 2021	(88)	(12)	(26)	(26)	(152)
Carrying value as at March 31, 2021	25	42	-	-	67
Carrying value as at April 1, 2020	41	-	3	4	48
Estimated Useful Life (in years)	7	2	5	5	-
Estimated Remaining Useful Life (in years)	2	2	-	-	-

The amortization expense has been included under depreciation and amortization expense in the Standalone Statement of Profit and Loss.

Research and Development Expenditure

Research and Development expense recognized in net profit in the statement of profit and loss for the year ended March 31, 2022 and March 31, 2021 is ₹529 crore and ₹508 crore, respectively.

2.3 LEASES

Accounting Policy

The Company as a lessee

The Company's lease asset classes consist of leases for land, buildings and computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Infosys's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2022:

Particulars	Category of ROU asset			Total
	Land	Buildings	Computers	
Balance as at April 1, 2021	556	2,766	113	3,435
Additions ⁽¹⁾	-	306	68	374
Deletions	-	(18)	-	(18)
Depreciation	(4)	(433)	(43)	(480)
Balance as at March 31, 2022	552	2,621	138	3,311

⁽¹⁾ Net of adjustments on account of modifications and lease incentives

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2021:

Particulars	Category of ROU asset			Total
	Land	Buildings	Computers	
Balance as at April 1, 2020	554	2,209	42	2,805
Additions ⁽¹⁾	7	1,010	92	1,109
Additions through Business transfer	-	8	-	8
Deletions	-	(89)	-	(89)
Depreciation	(5)	(372)	(21)	(398)
Balance as at March 31, 2021	556	2,766	113	3,435

⁽¹⁾ Net of adjustments on account of modifications and lease incentives

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at March 31, 2022 and March 31, 2021:

Particulars	As at	
	March 31, 2022	March 31, 2021
	Current lease liabilities	558
Non-current lease liabilities	3,228	3,367
Total	3,786	3,854

The movement in lease liabilities during the year ended March 31, 2022 and March 31, 2021 is as follows:

Particulars	As at	
	March 31, 2022	March 31, 2021
	Balance at the beginning	3,854
Additions	394	1,198
Additions through business combination	-	10
Finance cost accrued during the period	126	125
Deletions	(18)	(99)
Payment of lease liabilities	(628)	(536)
Translation Difference	58	(9)
Balance at the end	3,786	3,854

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2022 and March 31, 2021 on an undiscounted basis:

Particulars	As at	
	March 31, 2022	March 31, 2021
	Less than one year	637
One to five years	2,100	2,109
More than five years	1,519	1,751
Total	4,256	4,445

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Rental expense recorded for short-term leases was ₹12 crore and ₹24 crore for the year ended March 31, 2022 and March 31, 2021.

The following is the movement in the net investment in sublease in ROU asset during the year ended March 31, 2022 and March 31, 2021:

Particulars	As at	
	March 31, 2022	March 31, 2021
	Balance at the beginning of the period	385
Interest income accrued during the period	13	14
Lease receipts	(47)	(49)
Translation Difference	14	(13)
Balance at the end of the period	365	385

The table below provides details regarding the contractual maturities of net investment in sublease of ROU asset as at March 31, 2022 and March 31, 2021 on an undiscounted basis:

Particulars	As at	
	March 31, 2022	March 31, 2021
	Less than one year	54
One to five years	230	216
More than five years	126	179
Total	410	445

2.4 CAPITAL WORK -IN-PROGRESS

Particulars	As at	
	March 31, 2022	March 31, 2021
	Capital work-in-progress	411
Total Capital work-in-progress	411	906

The capital work-in-progress ageing schedule for the year ended March 31, 2022 and March 31, 2021 is as follows:

Particulars	Amount in CWIP for a period of				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
	Projects in progress	267	48	51	
	407	268	37	194	906
Total Capital work-in-progress	267	48	51	45	411
	407	268	37	194	906

For capital-work-in progress, whose completion is overdue or has exceeded its cost compared to its original plan the project wise details of when the project is expected to be completed is given below as of March 31, 2022 and March 31, 2021 :

Particulars	To be completed in				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years

Business transfer reserve	(62)

Business transfer- Kallidus Inc. and Skava Systems Private Limited

On October 11, 2019, the Board of Directors of Infosys authorized the Company to execute a Business Transfer Agreement and related documents with its wholly-owned subsidiaries, Kallidus Inc. and Skava Systems Private Limited (together referred to as "Skava"), to transfer the business of Skava to Infosys Limited, for a consideration based on an independent valuation.

Accordingly on August 15, 2020 the company entered into a business transfer agreement to transfer the business of Kallidus Inc. and Skava Systems Private Limited for a consideration of ₹171 crore and ₹66 crore respectively on securing the requisite regulatory approvals.

The transaction was between a holding company and a wholly owned subsidiary, the resultant impact on account of business transfer was recorded in 'Business Transfer Adjustment Reserve' during the year ended March 31, 2021.

On March 9, 2021, Kallidus Inc was liquidated. Further, on March 29, 2021, the shareholders of Skava have approved to voluntarily liquidate the affairs of the Company. Accordingly, Skava will complete the process of voluntary liquidation pursuant to Section 59 of the Insolvency and Bankruptcy Code of 2016 and applicable provisions of the Companies Act, 2013.

The table below details out the assets and liabilities taken over upon business transfer:

(In ₹ crore)

Total current other assets	8,935	6,784
Total other assets	10,351	7,933
⁽¹⁾ Includes dues from subsidiaries	204	237

⁽²⁾ Classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

⁽³⁾ Includes technology assets taken over by the Company from a customer as a part of transformation project which is not considered as distinct goods or services and the control related to the assets is not transferred to the Company in accordance with Ind AS 115 - Revenue from contract with customers. Accordingly, the same has been considered as a reduction to the total contract value and accounted as Deferred contract cost. Further as at March 31, 2022 the Company has entered into a financing arrangement with a third party for these assets which has been considered as financial liability. (Refer to note 2.13)

Withholding taxes and others primarily consist of input tax credits and Cenvat recoverable from Government of India.

2.11 FINANCIAL INSTRUMENTS

Accounting Policy

2.11.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

2.11.2 Subsequent measurement

a. Non-derivative financial instruments

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

b. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

(i) Financial assets or financial liabilities, at fair value through profit or loss.

This category includes derivative financial assets or liabilities which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

(ii) Cash flow hedge

The Company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedge instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedge reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedge reserve till the period the hedge was effective remains in cash flow hedge reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedge reserve is transferred to the net profit in the Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedge reserve is reclassified to net profit in the Statement of Profit and Loss.

2.11.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.11.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to table 'Financial instruments by category' below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.11.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenues which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Group considers current and anticipated future economic conditions relating to industries the Company deals with and the countries where it operates.

The amount of ECLs (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in statement of profit or loss.

Financial instruments by category

The carrying value and fair value of financial instruments by categories as at March 31, 2022 are as follows:

⁽¹⁾ The carrying value of debentures approximates fair value as the instruments are at prevailing market rates

⁽²⁾ On account of fair value changes including interest accrued

⁽³⁾ Excludes interest accrued on tax free bonds and government bonds carried at amortized cost of ₹92 crore

⁽⁴⁾ Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

For trade receivables and trade payables and other assets and payables maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2022 is as follows:

Particulars	As at March 31, 2022	Fair value measurement at end of the year using (In ₹ crore)		
		Level 1	Level 2	Level 3
Assets				
Investments in tax free bonds (Refer note no. 2.5)	2,425	1,238	1,187	-
Investments in government bonds (Refer note no. 2.5)	13	13	-	-
Investments in liquid mutual fund units (Refer note no. 2.5)	1,337	1,337	-	-
Investments in certificates of deposit (Refer note no. 2.5)	3,141	-	3,141	-
Investments in non convertible debentures (Refer note no. 2.5)	3,873	3,472	401	-
Investments in government securities (Refer note no. 2.5)	7,215	7,177	38	-
Investments in equity instruments (Refer note no. 2.5)	2	-	-	2
Investments in preference securities (Refer note no. 2.5)	192	-	-	192
Investments in Compulsorily convertible debentures (Refer note no. 2.5)	7	-	-	7
Other investments (Refer note no. 2.5)	76	-	-	76
Derivative financial instruments - gain on outstanding foreign exchange forward and option contracts (Refer note no. 2.7)	131	-	131	-
Liabilities				
Derivative financial instruments - loss on outstanding foreign exchange forward and option contracts (Refer note no. 2.13)	11	-	11	-

During the year ended March 31, 2022, tax free bonds and non-convertible debentures of ₹576 crore were transferred from Level 2 to Level 1 of fair value hierarchy since these were valued based on quoted price. Further tax free bonds and non-convertible debentures of ₹890 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs.

The fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2021 was as follows:

Particulars	As at March 31, 2021	Fair value measurement at end of the year using (In ₹ crore)		
		Level 1	Level 2	Level 3
Assets				
Investments in tax free bonds (Refer Note no. 2.5)	2,513	1,352	1,161	-
Investments in government bonds (Refer Note no. 2.5)	14	14	-	-
Investments in liquid mutual fund units (Refer Note no. 2.5)	1,326	1,326	-	-
Investments in non convertible debentures (Refer Note no. 2.5)	4,380	4,085	295	-
Investments in government securities (Refer Note no. 2.5)	5,302	5,302	-	-
Investments in equity instruments (Refer Note no. 2.5)	2	-	-	2
Investments in preference securities (Refer Note no. 2.5)	165	-	-	165
Investments in Compulsorily convertible debentures (Refer note no. 2.5)	7	-	-	7
Other investments (Refer Note no. 2.5)	42	-	-	42
Derivative financial instruments - gain on outstanding foreign exchange forward and option contracts (Refer Note no. 2.7)	178	-	178	-
Liabilities				
Derivative financial instruments - loss on outstanding foreign exchange forward and option contracts (Refer note 2.13)	9	-	9	-
Liability towards contingent consideration (Refer note no. 2.13) ⁽¹⁾	5	-	-	5

⁽¹⁾ Discout rate pertaining to contingent consideration ranges from 8% to 14.5%

During the year ended March 31, 2021, tax free bonds and non-convertible debentures of ₹107 crore were transferred from Level 2 to Level 1 of fair value hierarchy since these were valued based on quoted price. Further tax free bonds and non-convertible debentures of ₹1,177 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs.

A one percentage point change in the unobservable inputs used in fair valuation of Level 3 assets and liabilities does not have a significant impact in its value.

Majority of investments of the Company are fair valued based on Level 1 or Level 2 inputs. These investments primarily include investment in liquid mutual fund units, tax free bonds, fixed maturity plan securities, certificates of deposit, commercial papers, quoted bonds issued by government and quasi-government organizations and non-convertible debentures. The Company invests after considering counterparty risks based on multiple criteria including Tier 1 capital, Capital Adequacy Ratio, Credit Rating, Profitability, NPA levels and Deposit base of banks and financial institutions. These risks are monitored regularly as per its risk management program.

Financial risk management

Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table analyses the foreign currency risk from financial assets and liabilities as at March 31, 2022:

Particulars	(In ₹ crore)					Total
	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	
Net financial assets	16,185	4,148	1,290	1,314	1,670	24,607
Net financial liabilities	(8,202)	(1,689)	(678)	(956)	(875)	(12,400)
Total	7,983	2,459	612	358	795	12,207

The following table analyses the foreign currency risk from financial assets and liabilities as at March 31, 2021:

Particulars	(In ₹ crore)					Total
	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	
Net financial assets	13,782	2,855	1,153	1,182	1,280	20,252
Net financial liabilities	(5,959)	(1,058)	(643)	(787)	(492)	(8,939)
Total	7,823	1,797	510	395	788	11,313

Sensitivity analysis between Indian Rupee and USD

Particulars	Year ended March 31,	
	2022	2021
Impact on the Company's incremental Operating Margins	0.48%	0.49%

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The details in respect of outstanding foreign currency forward and option contracts are as follows :

Particulars	As at		As at	
	March 31, 2022		March 31, 2021

Total forwards and option contracts		20,459		15,432

The foreign exchange forward and option contracts mature within 12 months. The table below analyses the derivative financial instruments into relevant maturity groupings based on the remaining period as at the Balance Sheet date:

Particulars	(In ₹ crore)	
	As at	
	March 31, 2022	March 31, 2021
Not later than one month	5,323	5,028
Later than one month and not later than three months	11,973	6,698
Later than three months and not later than one year	3,163	3,706
	20,459	15,432

During the year ended March 31, 2022 and March 31, 2021 the Company has designated certain foreign exchange forward and option contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions for balance in cash flow hedge reserve as at March 31, 2022 are expected to occur and reclassified to statement of profit and loss within 3 months.

The Company determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of its forecasted cash flows. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in the Statement of Profit or Loss at the time of the hedge relationship rebalancing.

The following table provides the reconciliation of cash flow hedge reserve for the year ended March 31, 2022 and March 31, 2021:

Particulars	(In ₹ crore)	
	Year ended March 31,	
	2022	2021
Gain / (Loss)		
Balance at the beginning of the year	10	(15)
Gain / (Loss) recognized in other comprehensive income during the year	102	(126)
Amount reclassified to profit and loss during the year	(113)	160
Tax impact on above	3	(9)
Balance at the end of the year	2	10

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The quantitative information about offsetting of derivative financial assets and derivative financial liabilities is as follows:

Particulars	(In ₹ crore)			
	As at		As at	
	March 31, 2022		March 31, 2021	
	Derivative financial asset	Derivative financial liability	Derivative financial asset	Derivative financial liability
Gross amount of recognized financial asset / liability	167	(47)	190	(21)
Amount set off	(36)	36	(12)	12
Net amount presented in Balance Sheet	131	(11)	178	(9)

Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹18,966 crore and ₹16,394 crore as at March 31, 2022 and March 31, 2021, respectively and unbilled revenue amounting to ₹9,279 crore and ₹6,229 crore as at March 31, 2022 and March 31, 2021, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue from customers majorly located in the United States of America and Europe. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. Exposure to customers is diversified and there is no single customer contributing more than 10% of outstanding trade receivables and unbilled revenues.

The details in respect of percentage of revenues generated from top 5 customers and top 10 customers are as follows:

Particulars	(In %)	
	Year ended March 31,	
	2022	2021
Revenue from top 5 customers	11.9	12.0
Revenue from top 10 customers	20.5	19.6

Credit risk exposure

The Company's credit period generally ranges from 30-75 days.

The allowance for lifetime expected credit loss on customer balances recognized for the year ended March 31, 2022 and March 31, 2021 is ₹93 crore and ₹146 crore, respectively.

The movement in credit loss allowance on customer balance is as follows:

Particulars	(In ₹ crore)	
	Year ended March 31,	
	2022	2021
Balance at the beginning	615	580
Impairment loss recognized/ (reversed), net	93	146
Amounts written off	(49)	(106)
Translation differences	14	(5)
Balance at the end	673	615

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings as at the date of approval of these financial statements.

Majority of investments of the Company are fair valued based on Level 1 or Level 2 inputs. These investments primarily include investment in liquid mutual fund units, tax free bonds, fixed maturity plan securities, certificates of deposit, commercial papers, quoted bonds issued by government and quasi-government organizations and non convertible debentures. The Company invests after considering counterparty risks based on multiple criteria including Tier 1 capital, Capital Adequacy Ratio, Credit Rating, Profitability, NPA levels and deposit base of banks and financial institutions. These risks are monitored regularly as per its risk management program.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings. The Company believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2022, the Company had a working capital of ₹27,461 crore including cash and cash equivalents of ₹12,270 crore and current investments of ₹5,467 crore. As at March 31, 2021, the Company had a working capital of ₹30,660 crore including cash and cash equivalents of ₹17,612 crore and current investments of ₹2,037 crore.

As at March 31, 2022 and March 31, 2021, the outstanding compensated absences were ₹1,850 crore and ₹1,731 crore, respectively, which have been substantially funded. Accordingly, no liquidity risk is perceived.

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2022 are as follows:

Particulars					<i>(In ₹ crore)</i>
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	2,669	-	-	-	2,669
Other financial liabilities (excluding liability towards contingent consideration) on an undiscounted basis (Refer to note 2.13)	9,496	381	202	10	10,089

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2021 were as follows:

Particulars					<i>(In ₹ crore)</i>
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	1,562	-	-	-	1,562
Other financial liabilities (excluding liability towards contingent consideration) (Refer to note 2.13)	6,705	98	52	18	6,873
Liability towards contingent consideration on an undiscounted basis (Refer to note 2.13)	5	-	-	-	5

2.12 EQUITY

Accounting policy

Ordinary Shares

Ordinary shares are classified as equity share capital. Incremental costs directly attributable to the issuance of new ordinary shares, share options and buyback are recognized as a deduction from equity, net of any tax effects.

Description of reserves

Capital redemption reserve

In accordance with section 69 of the Indian Companies Act, 2013, the Company creates capital redemption reserve equal to the nominal value of the shares bought back as an appropriation from general reserve.

Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

Securities premium

The amount received in excess of the par value of equity shares has been classified as securities premium. Amounts have been utilized for bonus issue and share buyback from share premium account.

Share options outstanding account

The Share options outstanding account is used to record the fair value of equity-settled share based payment transactions with employees. The amounts recorded in share options outstanding account are transferred to securities premium upon exercise of stock options and transferred to general reserve on account of stock options not exercised by employees.

Special Economic Zone Re-investment reserve

The Special Economic Zone Re-investment reserve has been created out of the profit of the eligible SEZ unit in terms of the provisions of Sec 10AA (1)(ii) of Income Tax Act, 1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in terms of the provisions of the Sec 10AA (2) of the Income Tax Act, 1961.

Other components of equity

Other components of equity include remeasurement of net defined benefit liability / asset, equity instruments fair valued through other comprehensive income, changes on fair valuation of investments and changes in fair value of derivatives designated as cash flow hedges, net of taxes.

Cash flow hedge reserve

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the statement of Profit and Loss upon the occurrence of the related forecasted transaction.

2.12.1 EQUITY SHARE CAPITAL

(In ₹ crore, except as otherwise stated)

Particulars	As at	
	March 31, 2022	March 31, 2021
Authorized		
Equity shares, ₹5/- par value		
480,00,00,000 (480,00,00,000) equity shares	2,400	2,400
Issued, Subscribed and Paid-Up		
Equity shares, ₹5/- par value ⁽¹⁾	2,103	2,130
4,20,67,38,641 (426,06,60,846) equity shares fully paid-up		
	2,103	2,130

⁽¹⁾ Refer to note 2.22 for details of basic and diluted shares

Forfeited shares amounted to ₹1,500/- (₹1,500/-)

The Company has only one class of shares referred to as equity shares having a par value of ₹5/-. Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depository Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

In the event of liquidation of the company, the holders of equity shares will be entitled to receive any of the remaining assets of the company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts. However, no such preferential amounts exist currently. For details of shares reserved for issue under the employee stock option plan of the Company, refer to the note below.

In the period of five years immediately preceding March 31, 2022:

Bonus Issue

The Company has allotted 2,18,41,91,490 fully paid-up shares of face value ₹5/- each during the quarter ended September 30, 2018 pursuant to bonus issue approved by the shareholders through postal ballot. The bonus shares were issued by capitalization of profits transferred from general reserve. Bonus share of one equity share for every equity share held, and a bonus issue, viz., a stock dividend of one American Depository Share (ADS) for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depository Receipt holder remains unchanged.

The bonus shares once allotted shall rank pari passu in all respects and carry the same rights as the existing equity shareholders and shall be entitled to participate in full, in any dividend and other corporate action, recommended and declared after the new equity shares are allotted.

Capital allocation policy and buyback

Effective from fiscal 2020, the company expects to return approximately 85% of the free cash flow cumulatively over a 5-year period through a combination of semi annual dividends and/or share buyback and/or special dividends, subject to applicable laws and requisite approvals, if any. Free cash flow is defined as net cash provided by operating activities less capital expenditure as per the consolidated statement of cash flows prepared under IFRS. Dividend and buyback include applicable taxes.

Buyback completed in September 2021

In line with the capital allocation policy, the Board, at its meeting held on April 14, 2021, approved the buyback of equity shares, from the open market route through the Indian stock exchanges, amounting to ₹9,200 crore (Maximum Buyback Size, excluding buyback tax) at a price not exceeding ₹1,750 per share (Maximum Buyback Price), subject to shareholders' approval in the ensuing Annual General Meeting.

The shareholders approved the proposal of buyback of Equity Shares recommended by its Board of Directors in the Annual General meeting held on June 19, 2021.

The buyback was offered to all eligible equity shareholders of the Company (other than the Promoters, the Promoter Group and Persons in Control of the Company) under the open market route through the stock exchange. The buyback of equity shares through the stock exchange commenced on June 25, 2021 and was completed on September 8, 2021. During this buyback period the Company had purchased and extinguished a total of 55,807,337 equity shares from the stock exchange at a volume weighted average buyback price of ₹1,648.53/- per equity share comprising 1.31% of the pre buyback paid up equity share capital of the Company. The buyback resulted in a cash outflow of ₹9,200 crore (excluding transaction costs and tax on buyback). The Company funded the buyback from its free reserves including Securities Premium as explained in Section 68 of the Companies Act, 2013.

In accordance with section 69 of the Companies Act, 2013, as at March 31, 2022 the Company has created 'Capital Redemption Reserve' of ₹28 crore equal to the nominal value of the shares bought back as an appropriation from general reserve.

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of March 31, 2022, the Company has only one class of equity shares and has no debt. Consequent to the above capital structure there are no externally imposed capital requirements.

2.12.2 Shareholding of promoter

The details of the shares held by promoters as at March 31, 2022 are as follows:

Promoter name	No. of shares	% of total shares	% Change during the year
Sudha Gopalakrishnan	9,53,57,000	2.27%	-

2.12.3 DIVIDEND

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors. Income tax consequences of dividends on financial instruments classified as equity will be recognized according to where the entity originally recognized those past transactions or events that generated distributable profits.

The Company declares and pays dividends in Indian rupees. Companies are required to pay/distribute dividend after deducting applicable withholding income taxes. The remittance of dividends outside India is governed by Indian law on foreign exchange and is also subject to withholding tax at applicable rates.

The amount of per share dividend recognized as distribution to equity shareholders in accordance with Companies Act 2013 is as follows:

Particulars	(in ₹)	
	Year ended March 31, 2022	2021
Interim Dividend for fiscal 2022	15.00	-
Final dividend for fiscal 2021	15.00	-
Interim Dividend for fiscal 2021	-	12.00
Final dividend for fiscal 2020	-	9.50

During the year ended March 31, 2022, on account of the final dividend for fiscal 2021 and interim dividend for fiscal 2022 the Company has incurred a net cash outflow of ₹ 12,700 crore.

The Board of Directors in their meeting on April 13, 2022 recommended a final dividend of ₹16/- per equity share for the financial year ended March 31, 2022. This payment is subject to the approval of shareholders in the Annual General Meeting (AGM) of the Company to be held on June 25, 2022 and if approved would result in a net cash outflow of approximately ₹6,731 crore.

The details of shareholder holding more than 5% shares as at March 31, 2022 and March 31, 2021 are set out below:

Name of the shareholder	As at March 31, 2022		As at March 31, 2021	
	Number of shares	% held	Number of shares	% held
Deutsche Bank Trust Company Americas (Depository of ADR's - legal ownership)	66,63,70,669	15.84	73,24,89,890	17.19
Life Insurance Corporation of India	24,33,47,641	5.78	25,00,63,497	5.87

The reconciliation of the number of shares outstanding and the amount of share capital as at March 31, 2022 and March 31, 2021 is set out below:

Particulars	(in ₹ crore, except as stated otherwise)			
	As at March 31, 2022		As at March 31, 2021	
	Number of shares	Amount	Number of shares	Amount
As at the beginning of the period	4,26,06,60,846	2,130	4,25,89,92,566	2,129
Add: Shares issued on exercise of employee stock options	18,85,132.00	1	16,68,280	1
Less: Shares bought back	5,58,07,337	28	-	-
As at the end of the period	4,20,67,38,641	2,103	4,26,06,60,846	2,130

2.12.4 Employee Stock Option Plan (ESOP):

Accounting Policy

The Company recognizes compensation expense relating to share-based payments in net profit based on estimated fair-values of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the statement of profit and loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

Infosys Expanded Stock Ownership Program 2019 (the 2019 Plan) :

On June 22, 2019 pursuant to approval by the shareholders in the Annual General Meeting, the Board has been authorized to introduce, offer, issue and provide share-based incentives to eligible employees of the Company and its subsidiaries under the 2019 Plan. The maximum number of shares under the 2019 plan shall not exceed 5,00,00,000 equity shares. To implement the 2019 Plan, up to 4,50,00,000 equity shares may be issued by way of secondary acquisition of shares by Infosys Expanded Stock Ownership Trust. The restricted stock units (RSUs) granted under the 2019 plan shall vest based on the achievement of defined annual performance parameters as determined by the administrator (Nomination and remuneration committee). The performance parameters will be based on a combination of relative total shareholders return (TSR) against selected industry peers and certain broader market domestic and global indices and operating performance metrics of the company as decided by administrator. Each of the above performance parameters will be distinct for the purposes of calculation of quantity of shares to vest based on performance. These instruments will generally vest between a minimum of 1 to maximum of 3 years from the grant date.

2015 Stock Incentive Compensation Plan (the 2015 Plan) :

On March 31, 2016, pursuant to the approval by the shareholders through postal ballot, the Board was authorized to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Stock Incentive Compensation Plan (the 2015 Plan). The maximum number of shares under the 2015 plan shall not exceed 24,038,883 equity shares (this includes 11,223,576 equity shares which are held by the trust towards the 2011 Plan as at March 31, 2016). The Company expects to grant the instruments under the 2015 Plan over the period of 4 to 7 years. The plan numbers mentioned above would further be adjusted for the September 2018 bonus issue.

The equity settled and cash settled RSUs and stock options would vest generally over a period of 4 years and shall be exercisable within the period as approved by the Nomination and Remuneration Committee (NARC). The exercise price of the RSUs will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant.

Controlled trust holds 1,37,25,712 and 1,55,14,732 shares as at March 31, 2022 and March 31, 2021, respectively under the 2015 plan. Out of these shares, 2,00,000 equity shares each have been earmarked for welfare activities of the employees as at March 31, 2022 and March 31, 2021.

The following is the summary of grants during the year ended March 31, 2022 and March 31, 2021:

Particulars	2019 Plan		2015 Plan	
	Year ended March 31,		Year ended March 31,	
	2022	2021	2022	2021
Equity settled RSU				
KMPs	148,762	313,808	284,543	457,151
Employees other than KMPs	2,701,867	1,282,600	1,305,880	2,203,460
	2,850,629	1,596,408	1,590,423	2,660,611
Cash settled RSU				
KMPs	-	-	-	-
Employees other than KMPs	-	-	49,960	115,250
	-	-	49,960	115,250
Total Grants	2,850,629	1,596,408	1,640,383	2,775,861

Notes on grants to KMP:

CEO & MD

Under the 2015 Plan:

In accordance with the employee agreement which has been approved by the shareholders, the CEO is eligible to receive an annual grant of RSUs of fair value ₹3.25 crore which will vest overtime in three equal annual installments upon the completion of each year of service from the respective grant date. Accordingly, annual time-based grant of 18,340 RSUs was made effective February 1, 2022 for fiscal 2022.

The Board, on April 14, 2021, based on the recommendations of the nomination and remuneration committee, in accordance with the terms of his employment agreement, approved the grant of performance-based RSUs of fair value of ₹13 crore for fiscal 2022 under the 2015 Plan. These RSUs will vest in line with the employment agreement based on achievement of certain performance targets. Accordingly, 96,150 performance based RSUs were granted effective May 2, 2021.

Under the 2019 Plan:

The Board, on April 14, 2021, based on the recommendations of the Nomination and Remuneration Committee, approved performance-based grant of RSUs amounting to ₹10 crore for fiscal 2022 under the 2019 Plan. These RSUs will vest in line with the employment agreement based on achievement of certain performance targets. Accordingly, 73,962 performance based RSUs were granted effective May 2, 2021.

Other KMPs

Under the 2015 Plan:

On April 14, 2021, based on the recommendations of the Nomination and Remuneration Committee, in accordance with employment agreement, the Board, approved performance-based grant of 5,547 RSUs to a KMP under the 2015 Plan. The grants were made effective May 2, 2021. The performance based RSUs will vest over three years based on certain performance targets.

On January 12, 2022, based on the recommendations of the Nomination and Remuneration Committee, the Board, approved time based grant of 9,876 RSUs to a KMP under the 2015 Plan. The grants were made effective February 1, 2022. These RSUs will vest over four years.

On March 31, 2022, based on the recommendations of the Nomination and Remuneration Committee, the Board, approved time based grant of 154,630 RSUs to other KMPs under the 2015 Plan. The grants were made effective March 31, 2022. These RSUs will vest over four years.

Under the 2019 plan:

On March 31, 2022, based on the recommendations of the Nomination and Remuneration Committee, the Board, approved performance based grant of 74,800 RSUs to other KMPs under the 2019 Plan. The grants were made effective March 31, 2022. These RSUs will vest over three years based on achievement of certain performance targets.

The break-up of employee stock compensation expense is as follows:

Particulars	(in ₹ crore)	
	Year ended March 31,	
	2022	2021
Granted to:		
KMP	65	76
Employees other than KMP	307	221
Total ⁽¹⁾	372	297
⁽¹⁾ Cash settled stock compensation expense included in the above	13	71

Share based payment arrangements that were modified during the year ended March 31, 2021:

During the year ended March 31, 2021, the company issued ADS settled RSU and ESOP awards as replacement for outstanding stock appreciation rights awards. The replacement was pursuant to SEBI Circular 'Framework for issue of Depository Receipts - Clarifications' dated December 18, 2020 which allows Non resident Indians to hold depository receipts. The awards were granted after necessary approvals from the NARC. All other terms and conditions of the replaced awards remain the same as the original award.

The replacement awards was accounted as a modification and the fair value on the date of modification of ₹85 crore is recognized as equity with a corresponding adjustment to financial liability.

The activity in the 2015 and 2019 Plan for equity-settled share based payment transactions during the year ended March 31, 2022 and March 31, 2021 is set out as follows:

Particulars	Year ended March 31, 2022		Year ended March 31, 2021	
	Shares arising out of options	Weighted average exercise price (₹)	Shares arising out of options	Weighted average exercise price (₹)
2015 Plan: RSUs				
Outstanding at the beginning	80,47,240	4.52	87,80,898	3.96
Granted	1,590,423	5.00	26,60,611	5.00

Outstanding at the end	4,958,938	5.00	3,050,573	5.00
Exercisable at the end	692,638	5.00	233,050	5.00

During the year ended March 31, 2022 and March 31, 2021 the weighted average share price of options exercised under the 2015 Plan on the date of exercise was ₹1,705 and ₹1,097 respectively.

During the year ended March 31, 2022 and March 31, 2021 the weighted average share price of options exercised under the 2019 Plan on the date of exercise was ₹1,560 and 1,166 respectively.

The summary of information about equity settled RSUs and ESOPs outstanding as at March 31, 2022 is as follows:

Range of exercise prices per share (₹)	2019 plan - Options outstanding			2015 plan - Options outstanding		
	No. of shares arising out of options	Weighted average remaining contractual life	Weighted average exercise price (₹)	No. of shares arising out of options	Weighted average remaining contractual life	Weighted average exercise price (₹)
0 - 5 (RSU)	4,958,938	1.43	5.00	6,232,975	1.47	4.82
450 - 600 (ESOP)	-	-	-	700,844	0.65	557

The summary of information about equity settled RSUs and ESOPs outstanding as at March 31, 2021 was as follows:

Range of exercise prices per share (₹)	2019 plan - Options outstanding			2015 plan - Options outstanding		
	No. of shares arising out of options	Weighted average remaining contractual life	Weighted average exercise price (₹)	No. of shares arising out of options	Weighted average remaining contractual life	Weighted average exercise price (₹)
0 - 5 (RSU)	3,050,573	1.48	5.00	8,047,240	1.67	4.52
450 - 600 (ESOP)	-	-	-	1,049,456	1.83	535.00

As at March 31, 2022 and March 31, 2021, 2,65,561 and 3,87,088 cash settled options were outstanding respectively. The carrying value of liability towards cash settled share based payments was ₹13 crore and ₹7 crore as at March 31, 2022 and March 31, 2021 respectively.

The fair value of the awards are estimated using the Black-Scholes Model for time and non-market performance based options and Monte Carlo simulation model is used for TSR based options.

The inputs to the model include the share price at date of grant, exercise price, expected volatility, expected dividends, expected term and the risk free rate of interest. Expected volatility during the expected term of the options is based on historical volatility of the observed market prices of the Company's publicly traded equity shares during a period equivalent to the expected term of the options. Expected volatility of the comparative company has been modelled based on historical movements in the market prices of their publicly traded equity shares during a period equivalent to the expected term of the options. Correlation coefficient is calculated between each peer entity and the indices as a whole or between each entity in the peer group.

The fair value of each equity settled award is estimated on the date of grant with the following assumptions:

Particulars	For options granted in			
	Fiscal 2022- Equity Shares- RSU	Fiscal 2022- ADS-RSU	Fiscal 2021- Equity Shares-RSU	Fiscal 2021- ADS-RSU
Weighted average share price (₹) / (\$ ADS)	1,791	24.45	1,253	18.46
Exercise price (₹) / (\$ADS)	5.00	0.07	5.00	0.07
Expected volatility (%)	20-35	25-36	30-35	30-36
Expected life of the option (years)	1.4	1.4	1.4	1.4
Expected dividends (%)	2.3	2.3	2.3	2.3
Risk-free interest rate (%)	4.6	1.3	4.5	0.1-0.3
Weighted average fair value as on grant date (₹) / (\$ADS)	1,548	20.82	1,124	16.19

The expected life of the RSU/ESOP is estimated based on the vesting term and contractual term of the RSU/ESOP, as well as expected exercise behavior of the employee who receives the RSU/ESOP.

2.16 PROVISIONS

Accounting Policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

a. Provision on SLA client support

The Company provides its clients with a fixed-period post sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Provision for post-sales client support and other provisions

Particulars	<i>(In ₹ crore)</i>	
	As at	
	March 31, 2022	March 31, 2021
Current		
Others		
Post-sales client support and others	920	661

	Year ended March 31,	
	2022	
Balance at the beginning		661
Provision recognized/(reversed)		343
Provision utilized		(152)
Exchange difference		28
Balance at the end		880

Provision for post sales client support represents cost associated with providing post sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 1 year.

2.17 INCOME TAXES

Accounting Policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to equity.

Income tax expense in the statement of profit and loss comprises:

(In ₹ crore)

Particulars	Year ended March 31,	
	2022	2021
Current taxes	6,960	6,013
Deferred taxes	300	416
Income tax expense	7,260	6,429

Income tax expense for the year ended March 31, 2022 and March 31, 2021 includes reversal (net of provisions) of ₹250 crore and ₹298 crore, respectively. These reversals pertain to prior periods on account of adjudication of certain disputed matters in favor of the Company and upon filing of return across various jurisdictions.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In ₹ crore)

Particulars	Year ended March 31,	
	2022	2021
Profit before income taxes	28,495	24,477
Enacted tax rates in India	34.94%	34.94%
Computed expected tax expense	9,957	8,553
Tax effect due to non-taxable income for Indian tax purposes	(2,849)	(2,468)
Overseas taxes	958	688
Tax provision (reversals)	(250)	(298)
Effect of exempt non-operating income	(478)	(166)
Effect of non-deductible expenses	122	127
Impact of change in tax rate	(104)	-
Others	(96)	(7)
Income tax expense	7,260	6,429

The applicable Indian corporate statutory tax rate for the year ended March 31, 2022 and March 31, 2021 is 34.94% each..

The foreign tax expense is due to income taxes payable overseas, principally in the United States. In India, the Company has benefited from certain income tax incentives that the Government of India had provided for export of software from the units registered under the Special Economic Zones Act (SEZs), 2005. SEZ units which began the provision of services on or after April 1, 2005 are eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50% of such profits or gains for further five years. Up to 50% of such profits or gains is also available for a further five years subject to creation of a Special Economic Zone re-investment Reserve out of the profit for the eligible SEZ units and utilization of such reserve by the Company for acquiring new plant and machinery for the purpose of its business as per the provisions of the Income Tax Act, 1961.

Deferred income tax for the year ended March 31, 2022 and March 31, 2021 substantially relates to origination and reversal of temporary differences.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the year, computed in accordance with the Internal Revenue Code. As at March 31, 2022, Infosys' U.S. branch net assets amounted to approximately ₹6,332 crore. As at March 31, 2022, the Company has a deferred tax liability for branch profit tax of ₹158 crore (net of credits), as the Company estimates that these branch profits are expected to be distributed in the foreseeable future.

Deferred income tax liabilities have not been recognized on temporary differences amounting to ₹9,618 crore and ₹9,670 crore as at March 31, 2022 and March 31, 2021, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets have not been recognized on accumulated losses of ₹1,345 crore and ₹1,014 crore as at March 31, 2022 and March 31, 2021, respectively as it is probable that future taxable profit will be not be available against which the unused tax losses can be utilized in the foreseeable future. Majority of the accumulated losses as at March 31, 2022 will expire between financial years 2028 to 2030.

The details of income tax assets and income tax liabilities as at March 31, 2022 and March 31, 2021:

(In ₹ crore)

Particulars	As at	
	March 31, 2022	March 31, 2021
Income tax assets	5,585	5,287
Current income tax liabilities	2,179	1,737
Net current income tax assets/(liabilities) at the end	3,406	3,550

The gross movement in the current income tax assets/ (liabilities) for the year ended March 31, 2022 and March 31, 2021 is as follows:

Particulars	(In ₹ crore)	
	As at	
	March 31, 2022	March 31, 2021
Net current income tax assets/(liabilities) at the beginning	3,550	3,471
Income tax paid	6,736	6,061
Current income tax expense	(6,960)	(6,013)
Income tax benefit arising on exercise of stock options	63	45
Income tax on other comprehensive income	12	1
Tax impact on buyback expenses	8	-
Tax liability taken over from Kallidus	-	(15)
Translation differences	(3)	-
Net current income tax assets/ (liabilities) at the end	3,406	3,550

The movement in gross deferred income tax assets and liabilities (before set off) for the year ended March 31, 2022 is as follows:

Particulars	(In ₹ crore)					
	Carrying value as of April 1, 2021	Changes through profit and loss	Additions through business transfer	Changes through OCI	Translation difference	Carrying value as of March 31, 2022
	Property, plant and equipment	315	(126)	-	-	-
Lease liabilities	149	14	-	-	-	163
Trade receivables	194	(25)	-	-	-	169
Compensated absences	437	29	-	-	-	466
Post sales client support	115	3	-	-	-	118
Derivative financial instruments	(54)	27	-	3	-	(24)
Credits related to branch profits	355	308	-	-	13	676
Intangibles through business transfer	(10)	6	-	-	-	(4)
Branch profit tax	(500)	(316)	-	-	(18)	(834)
SEZ reinvestment reserve	(613)	(217)	-	-	-	(830)
Others	56	(3)	-	(13)	-	40
Total Deferred income tax assets/(liabilities)	444	(300)	-	(10)	(5)	129

The movement in gross deferred income tax assets and liabilities (before set off) for the year ended March 31, 2021 is as follows:

Particulars	(In ₹ crore)					
	Carrying value as of April 1, 2020	Changes through profit and loss	Additions through business transfer	Changes through OCI	Translation difference	Carrying value as of March 31, 2021
	Property, plant and equipment	203	111	-	-	1
Lease liabilities	120	29	-	-	-	149
Trade receivables	182	12	-	-	-	194
Compensated absences	380	56	1	-	-	437
Post sales client support	101	14	-	-	-	115
Derivative financial instruments	155	(201)	-	(8)	-	(54)
Credits related to branch profits	377	(11)	-	-	(11)	355
Intangibles through business transfer	-	5	(14)	-	(1)	(10)
Branch profit tax	(555)	38	-	-	17	(500)
SEZ reinvestment reserve	(82)	(531)	-	-	-	(613)
Others	(8)	62	-	2	-	56
Total Deferred income tax assets/(liabilities)	873	(416)	(13)	(6)	6	444

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

Particulars	(In ₹ crore)	
	As at	
	March 31, 2022	March 31, 2021
Deferred income tax assets after set off	970	955
Deferred income tax liabilities after set off	(841)	(511)

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the reliability of deferred income tax assets, the management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The Company's Advanced Pricing Arrangement (APA) with the Internal Revenue Service (IRS) for US branch income tax expired in March 2021. The Company has applied for renewal of APA and currently the US taxable income is based on the Company's best estimate determined based on the expected value method.

2.18 REVENUE FROM OPERATIONS

Accounting Policy

The Company derives revenues primarily from IT services comprising software development and related services, maintenance, consulting and package implementation, and from licensing of software products and platforms across the Company's core and digital offerings (together called as "software related services"). Contracts with customers are either on a time-and-material, unit of work, fixed-price or on a fixed-timeframe basis.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material and unit of work based contracts, are recognized as the related services are performed. Fixed price maintenance revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the term of the contracts and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance based billing and / or milestone based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as "unearned revenues").

In arrangements for software development and related services and maintenance services, by applying the revenue recognition criteria for each distinct performance obligation, the arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For allocating the transaction price, the Company measures the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Company is unable to determine the standalone selling price, the Company uses the expected cost plus margin approach in estimating the standalone selling price. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Certain cloud and infrastructure services contracts include multiple elements which may be subject to other specific accounting guidance, such as leasing guidance. These contracts are accounted in accordance with such specific accounting guidance. In such arrangements where the Company is able to determine that hardware and services are distinct performance obligations, it allocates the consideration to these performance obligations on a relative standalone selling price basis. In the absence of standalone selling price, the Group uses the expected cost-plus margin approach in estimating the standalone selling price. When such arrangements are considered as a single performance obligation, revenue is recognized over the period and measure of progress is determined based on promise in the contract.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period.

Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two distinct separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the Company uses the expected cost plus margin approach in estimating the standalone selling price. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably on a straight line basis over the period in which the services are rendered.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it controls the good or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or service and therefore is acting as a principal or an agent.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Company expects to recover them.

Certain eligible, nonrecurring costs (e.g. set-up or transition or transformation costs) that do not represent a separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Company that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered.

Capitalized contract costs relating to upfront payments to customers are amortized to revenue and other capitalized costs are amortized to expenses over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates. Capitalized costs are monitored regularly for impairment. Impairment losses are recorded when present value of projected remaining operating cash flows is not sufficient to recover the carrying amount of the capitalized costs.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenue from operations for the year ended March 31, 2022 and March 31, 2021 is as follows:

Particulars	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2022	2021
Revenue from software services	103,615	85,669
Revenue from products and platforms	325	243
Total revenue from operations	103,940	85,912

The Company has evaluated the impact of COVID – 19 pandemic on (i) the possibility of constraints in our ability to render services which may require revision of estimations of costs to complete the contract because of additional efforts; (ii) onerous obligations; (iii) penalties relating to breaches of service level agreements, and (iv) termination or deferment of contracts by customers. The company has concluded that the impact of COVID – 19 pandemic is not significant based on these estimates. Due to the nature of the COVID – 19 pandemic, the company will continue to monitor developments to identify significant uncertainties relating to revenue in future periods.

Disaggregated revenue information

The table below presents disaggregated revenues from contracts with customers by offerings for the year ended March 31, 2022 and March 31, 2021 respectively. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

Particulars	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2022	2021
Revenue by offerings		
Core	43,410	43,810
Digital	60,530	42,102
Total	1,03,940	85,912

Digital Services

Digital Services comprise of service and solution offerings of the company that enable our clients to transform their businesses. These include offerings that enhance customer experience, leverage AI-based analytics and big data, engineer digital products and IoT, modernize legacy technology systems, migrate to cloud applications and implement advanced cyber security systems.

Core Services

Core Services comprise traditional offerings of the company that have scaled and industrialized over a number of years. These primarily include application management services, proprietary application development services, independent validation solutions, product engineering and management, infrastructure management services, traditional enterprise application implementation, support and integration services.

Products & platforms

The Company also derives revenues from the sale of products and platforms including Infosys Nia - Artificial Intelligence (AI) platform which applies next-generation AI and machine learning.

The percentage of revenue from fixed-price contracts for each of the year ended March 31, 2022 and March 31, 2021 is approximately 53%.

Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore unbilled revenues for other fixed price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as "unearned revenue".

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended March 31, 2022 and March 31, 2021, the company recognized revenue of ₹2,831 crore and ₹1,861 crore arising from opening unearned revenue as of April 1, 2021 and April 1, 2020 respectively.

During the year ended March 31, 2022 and March 31, 2021, ₹3,711 crore and ₹3,401 crore of unbilled revenue pertaining to other fixed price and fixed time frame contracts as of April 1, 2021 and April 1, 2020, respectively has been reclassified to Trade receivables upon billing to customers on completion of milestones.

Remaining performance obligation disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2022, other than those meeting the exclusion criteria mentioned above, is ₹65,748 crore. Out of this, the Company expects to recognize revenue of around 55% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2021 is ₹62,114 crore. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

2.19 OTHER INCOME, NET

2.19.1 Other income - Accounting Policy

Other income is comprised primarily of interest income, dividend income, gain / loss on investments and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

2.19.2 Foreign currency - Accounting Policy

Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are recognized in the Statement of Profit and Loss and reported within exchange gains/(losses) on translation of assets and liabilities, net, except when deferred in Other Comprehensive Income as qualifying cash flow hedges. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Other Comprehensive Income, net of taxes includes translation differences on non-monetary financial assets measured at fair value at the reporting date, such as equities classified as financial instruments and measured at fair value through other comprehensive income (FVOCI).

Government grant

The Company recognizes government grants only when there is reasonable assurance that the conditions attached to them will be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in the net profit in the Statement of Profit and Loss on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in the net profit in the Statement of Profit and Loss over the periods necessary to match them with the related costs which they are intended to compensate.

Other income for the years ended March 31, 2022 and March 31, 2021 is as follows:

Particulars	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2022	2021
Interest income on financial assets carried at amortized cost		
Tax free bonds and government bonds	151	143
Deposit with Bank and others	668	951
Interest income on financial assets fair valued through other comprehensive income		
Non-convertible debentures, certificates of deposit and government securities	580	372
Income on investments carried at fair value through other comprehensive income	1	80
Income on investments carried at fair value through profit or loss		
Dividend income on liquid mutual funds	-	8
Gain / (loss) on liquid mutual funds and other investments	127	70
Dividend received from subsidiary ⁽¹⁾	1,218	321
Interest income on income tax refund	-	-
Exchange gains/(losses) on foreign currency forward and options contracts	189	558
Exchange gains/(losses) on translation of assets and liabilities	105	(279)
Miscellaneous income, net	185	243
Total other income	3,224	2,467

⁽¹⁾ The Company received dividend from its wholly owned subsidiaries - Infosys BPM Limited and Brilliant Basics Holdings Limited

2.20 EXPENSES

(In ₹ crore)

Particulars	Year ended March 31,	
	2022	2021
<i>Employee benefit expenses</i>		
Salaries including bonus	49,575	43,605
Contribution to provident and other funds	1,417	1,146

Auditor's remuneration		
Statutory audit fees	5	5
Tax matters	-	-
Other services	-	1
Contributions towards Corporate Social Responsibility (CSR) (Refer to note 2.25)		
Towards CSR*	397	412
Proposed transfer of CSR assets**	-	283
Others	141	54
	2,490	2,743

* Figures for the year ended March 31, 2021 includes ₹37 crore which the Company intends to spend in the future relating to and in addition to the amounts spent in the prior years

**Consequent to the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 ("the Rules"), the Company is required to transfer its CSR capital assets created prior to January 2021. Towards this the Company had incorporated a controlled subsidiary 'Infosys Green Forum' under Section 8 of the Companies Act, 2013. The carrying amount of the capital asset amounting to ₹283 crore had been impaired and included as CSR expense in the standalone financial statements during the year ended March 31, 2021 because the Company will not be able to recover the carrying amount of the asset from its Subsidiary on account of prohibition on payment of dividend by this Subsidiary. During the year ended March 31, 2022, the transfer has been completed on obtaining the required approvals from regulatory authorities.

2.21 EMPLOYEE BENEFITS

Accounting Policy

2.21.1 Gratuity and Pensions

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible Indian employees of Infosys. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The Company contributes Gratuity liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law.

The Company operates defined benefit pension plan in certain overseas jurisdictions, in accordance with the local laws. These plans are managed by third party fund managers. The plans provide for periodic payouts after retirement or for a lumpsum payment as set out in rules of each fund and includes death and disability benefits.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market risk.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

2.21.2 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the Government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

2.21.3 Superannuation

Certain employees of Infosys are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

2.21.4 Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

a. Gratuity and Pension

The following tables set out the funded status majorly of the Indian gratuity plans and the amounts recognized in the Company's financial statements as at March 31, 2022 and March 31, 2021:

Particulars	<i>(In ₹ crore)</i>	
	As at March 31,	
	2022	2021
Change in benefit obligations		
Benefit obligations at the beginning	1,382	1,195
Service cost	193	181
Interest expense	77	72
Transfer of obligation	3	3
Remeasurements - Actuarial (gains)/ losses	69	14
Benefits paid	(257)	(83)
Benefit obligations at the end	1,467	1,382
Change in plan assets		
Fair value of plan assets at the beginning	1,391	1,338
Interest income	84	80
Transfer of assets	3	-
Remeasurements- Return on plan assets excluding amounts included in interest income	21	10
Contributions	235	45
Benefits paid	(257)	(82)
Fair value of plan assets at the end	1,477	1,391
Funded status	10	9

The amount for the year ended March 31, 2022 and March 31, 2021 recognized in the Statement of Profit and Loss under employee benefit expense are as follows:

Particulars	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2022	2021
Service cost	193	181
Net interest on the net defined benefit	(7)	(8)
Net gratuity cost	186	173

The amount for the year ended March 31, 2022 and March 31, 2021 recognized in the statement of other comprehensive income are as follows:

Particulars	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2022	2021
Remeasurements of the net defined benefit liability/ (asset)		
Actuarial (gains) / losses	69	14
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	(21)	(10)
	48	4

Particulars	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2022	2021
(Gain)/loss from change in demographic assumptions	-	-
(Gain)/loss from change in financial assumptions	(33)	8
(Gain) / loss from change in experience assumptions	102	6
	69	14

The weighted-average assumptions used to determine benefit obligations as at March 31, 2022 and March 31, 2021 are set out below:

Particulars	As at March 31,	
	2022	2021
	Discount Rate ⁽¹⁾	6.5%
Weighted average rate of increase in compensation levels ⁽²⁾	6.0%	6.0%
Weighted average duration of defined benefit obligation ⁽³⁾	5.9 years	5.9 years

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2022 and March 31, 2021 are set out below:

Particulars	Year ended March 31,	
	2022	2021
Discount rate	6.1%	6.2%
Weighted average rate of increase in compensation levels	6.0%	6.0%

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

⁽¹⁾ In India, the market for high quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of the post-employment benefit obligations.

⁽²⁾ The average rate of increase in compensation levels is determined by the Company, considering factors such as, the Company's past compensation revision trends and management's estimate of future salary increases.

⁽³⁾ Attrition rate considered is the management's estimate based on the past long-term trend of employee turnover in the Company.

The sensitivity of significant assumptions used for valuation of defined benefit obligation is as follows :

Impact from percentage point increase / decrease in	As at March 31,	
	2022	2021
Discount Rate	81	78
Weighted average rate of increase in compensation level	73	70

(in ₹ crore)

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant. The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is not probable, and changes in some of the assumptions may be correlated.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. Trustees administer contributions made to the trust. As at March 31, 2022 and March 31, 2021, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for the year ended March 31, 2022 and March 31, 2021 were ₹105 crore and ₹90 crore respectively.

The Company expects to contribute ₹200 crore to the gratuity trusts during the fiscal 2023.

Maturity profile of defined benefit obligation:

Within 1 year	204
1-2 year	214
2-3 year	231
3-4 year	242
4-5 year	284
5-10 years	1,559

(In ₹ crore)

The Company operates defined benefit pension plan in certain overseas jurisdictions, in accordance with local laws. As at March 31, 2022 and March 31, 2021, the defined benefit obligation (DBO) is ₹610 crore and ₹541 crore, fair value of plan assets is ₹534 crore and ₹434 crore, resulting in recognition of a net DBO of ₹76 crore and ₹107 crore.

b. Superannuation

The Company contributed ₹342 crore and ₹242 crore to the Superannuation trust during the year ended March 31, 2022 and March 31, 2021 respectively and the same has been recognized in the Statement of Profit and Loss account under the head employee benefit expense.

c. Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India.

The following tables set out the funded status of the defined benefit provident fund plan of Infosys limited and the amounts recognized in the Company's financial statements as at March 31, 2022 and March 31, 2021:

Particulars	(In ₹ crore)	
	As at March 31,	
	2022	2021
Change in benefit obligations		
Benefit obligations at the beginning	8,287	7,366
Service cost	656	423
Employee contribution	1,153	816
Interest expense	516	606
Actuarial (gains) / loss	118	(26)
Benefits paid	(1,426)	(898)
Benefit obligations at the end	9,304	8,287
Change in plan assets		
Fair value of plan assets at the beginning	8,140	7,117
Interest income	507	596
Remeasurements- Return on plan assets excluding amounts included in interest income	18	125
Contributions	1,819	1,200
Benefits paid	(1,426)	(898)
Fair value of plan assets at the end	9,058	8,140
Net liability	(246)	(147)

Amount for the year ended March 31, 2022 and March 31, 2021 recognized in the statement of other comprehensive income:

Particulars	(In ₹ crore)	
	Year ended March 31,	
	2022	2021
Remeasurements of the net defined benefit liability/ (asset)		
Actuarial (gains) / losses	118	(26)
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	(18)	(125)
	100	(151)

The assumptions used in determining the present value obligation of the defined benefit plan under the Deterministic Approach are as follows:

Particulars	As at March 31,	
	2022	2021
	Government of India (GOI) bond yield ⁽¹⁾	6.50%
Expected rate of return on plan assets	7.70%	8.00%
Remaining term to maturity of portfolio	6 years	6 years
Expected guaranteed interest rate	8.10%	8.50%

⁽¹⁾ In India, the market for high quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of the post- employment benefit obligations.

The breakup of the plan assets into various categories as at March 31, 2022 and March 31, 2021 is as follows:

Particulars	As at March 31,	
	2022	2021
	Central and State government bonds	57%
Public sector undertakings and Private sector bonds	37%	40%
Others	6%	6%

The asset allocation for plan assets is determined based on investment criteria prescribed under the relevant regulations.

As at March 31, 2022 the defined benefit obligation would be affected by approximately ₹88 crore and ₹114 crore on account of a 0.25% increase / decrease in the expected rate of return on plan assets.

The Company contributed ₹768 crore and ₹568 crore to the provident fund during the year ended March 31, 2022 and March 31, 2021, respectively. The same has been recognized in the net profit in the statement of profit and loss under the head employee benefit expense.

The provident plans are applicable only to employees drawing a salary in Indian rupees.

Employee benefits cost include:

Particulars	(In ₹ crore)	
	Year ended March 31,	
	2022	2021
Salaries and bonus ⁽¹⁾	50,338	44,078
Defined contribution plans	342	242
Defined benefit plans	984	859
	51,664	45,179

(1) Includes employee stock compensation expense of ₹372 crore and ₹297 crore for the year ended March 31, 2022 and March 31, 2021, respectively (Refer to note 2.12).

2.22 BASIC AND DILUTED SHARES USED IN COMPUTING EARNING PER SHARE

Accounting Policy

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as at the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

Particulars	Year ended March 31,	
	2022	2021
Basic earnings per equity share - weighted average number of equity shares outstanding	4,22,43,39,562	4,25,94,38,950
Effect of dilutive common equivalent shares - share options outstanding	52,06,766	36,53,564
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	4,22,95,46,328	4,26,30,92,514

For the years ended March 31, 2022 and March 31, 2021, there were no options to purchase equity shares which had an anti-dilutive effect.

2.23 CONTINGENT LIABILITIES AND COMMITMENTS

Accounting Policy

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Particulars	As at	
	March 31, 2022	March 31, 2021
<i>(In ₹ crore)</i>		
Contingent liabilities :		
Claims against the Company, not acknowledged as debts ⁽¹⁾ [Amount paid to statutory authorities ₹5,617 crore (₹5,827 crore)]	4,245	3,753
Commitments :		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits) ⁽²⁾	1,092	609
Other Commitments*	11	10

* *Uncalled capital pertaining to investments*

⁽¹⁾ As at March 31, 2022, claims against the Company not acknowledged as debts in respect of income tax matters amounted to ₹3,898 crore. As at March 31, 2021, claims against the Company not acknowledged as debts in respect of income tax matters amounted to ₹3,424 crore.

The claims against the Company primarily represent demands arising on completion of assessment proceedings under the Income Tax Act, 1961. These claims are on account of multiple issues of disallowances such as disallowance of profits earned from STP Units and SEZ Units, disallowance of deductions in respect of employment of new employees under section 80JJAA, disallowance of expenditure towards software being held as capital in nature, payments made to Associated Enterprises held as liable for withholding of taxes. These matters are pending before various Appellate Authorities and the management including its tax advisors expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

Amount paid to statutory authorities against the tax claims amounted to ₹5,607 crore and ₹5,817 crore as at March 31, 2022 and March 31, 2021, respectively.

⁽²⁾ Capital contracts primarily comprises of commitments for infrastructure facilities and computer equipment's.

Legal Proceedings

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management reasonably expects that these legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company's results of operations or financial condition.

The Company's related party transactions during the year ended March 31, 2022 and March 31, 2021 and outstanding balances as at March 31, 2022 and March 31, 2021 are with its subsidiaries with whom the Company generally enters into transactions which are at arms length and in the ordinary course of business.

Refer to Note 2.25. During the year ended March 31, 2022, the Company purchased fixed assets amounting to ₹24 crore from Infosys Green Forum.

Transactions with key management personnel

The table below describes the compensation to key managerial personnel which comprise directors and executive officers:

Particulars	(In ₹ crore)	
	Year ended March 31,	
	2022	2021
Salaries and other employee benefits to whole-time directors and executive officers (1)(2)	134	144
Commission and other benefits to non-executive / independent directors	11	6
Total	145	150

(1) Total employee stock compensation expense for the year ended March 31, 2022 and March 31, 2021, includes a charge of ₹65 crore and ₹76 crore respectively, towards

(2) Does not include post-employment benefit based on actuarial valuation as this is done for the Company as a whole.

2.25 CORPORATE SOCIAL RESPONSIBILITY (CSR)

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. The areas for CSR activities are eradication of hunger and malnutrition, promoting education, art and culture, healthcare, destitute care and rehabilitation, environment sustainability, disaster relief, COVID-19 relief and rural development projects. A CSR committee has been formed by the company as per the Act. The funds were primarily utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013:

Particulars	(In ₹ crore)	
	As at	
	March 31, 2022	March 31, 2021
i) Amount required to be spent by the company during the year	397	372
ii) Amount of expenditure incurred	345	325
iii) Shortfall at the end of the year*	52	50
iv) Total of previous years shortfall	22	-
v) Reason for shortfall	Pertains to ongoing projects	Pertains to ongoing projects
vi) Nature of CSR activities	Eradication of hunger and malnutrition, promoting education, art and culture, healthcare, destitute care and rehabilitation, environment sustainability, disaster relief, COVID-19 relief and rural development projects	
vii) Details of related party transactions, e.g., contribution to a trust controlled by the company in relation to CSR expenditure as per relevant Accounting Standard ⁽¹⁾	12	20
viii) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision	NA	NA

⁽¹⁾ Represents contribution to Infosys Science foundation a controlled trust to support the Infosys Prize program towards contemporary research in the various branches of science as a part of ongoing project.

*The unspent amount will be transferred to unspent CSR account within 30 days from the end of the financial year, in accordance with the Companies Act, 2013 read with the CSR Amendment Rules.

Consequent to the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021 ("the Rules"), the Company was required to transfer its CSR capital assets created prior to January 2021. Towards this the Company had incorporated a controlled subsidiary, 'Infosys Green Forum' under Section 8 of the Companies Act, 2013. During the year ended March 31, 2022 the Company has completed the transfer of assets upon obtaining the required approvals from regulatory authorities, as applicable.

The carrying amount of the capital asset amounting to ₹283 crore has been impaired and included as CSR expense in the standalone financial statements for the year ending March 31, 2021 as the Company will not be able to recover the carrying amount of the asset from its Subsidiary on account of prohibition on payment of dividend by this Subsidiary.

2.26 SEGMENT REPORTING

The Company publishes this financial statement along with the consolidated financial statements. In accordance with Ind AS 108, Operating Segments, the Company has disclosed the segment information in the consolidated financial statements.

2.27 Ratios

The ratios for the years ended March 31, 2022 and March 31, 2021 are as follows:

Particulars	Numerator	Denominator	31st March 2022	31st March 2021	Variance
Current Ratio	Current assets	Current liabilities	2.1	2.7	(23.4%)
Debt – Equity Ratio	Total Debt (represents lease liabilities) ⁽¹⁾	Shareholder's Equity	0.1	0.1	0.1%
Debt Service Coverage Ratio	Earnings available for debt service ⁽²⁾	Debt Service ⁽³⁾	38.5	38.8	(0.8%)
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	30.2%	27.0%	3.2%
Trade receivables turnover ratio	Revenue	Average Trade Receivable	5.9	5.4	9.0%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	11.3	9.9	13.3%
Net capital turnover ratio	Revenue	Working Capital	3.8	2.8	35.1% *
Net profit ratio	Net Profit	Revenue	20.4%	21.0%	(0.6%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed ⁽⁴⁾	38.8%	32.5%	6.3%
Return on Investment(ROI)					
Unquoted	Income generated from investments	Time weighted average investments	8.7%	7.9%	0.9%
Quoted	Income generated from investments	Time weighted average investments	5.9%	6.2%	(0.3%)

⁽¹⁾ Debt represents only lease liabilities

⁽²⁾ Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

⁽³⁾ Lease payments for the current year

⁽⁴⁾ Tangible net worth + deferred tax liabilities + Lease Liabilities

* Revenue growth along with higher efficiency on working capital improvement has resulted in an improvement in the ratio.
