## ACCELERATE YOUR ENTERPRISE JOURNEY WITH INFOSYS AND IFS

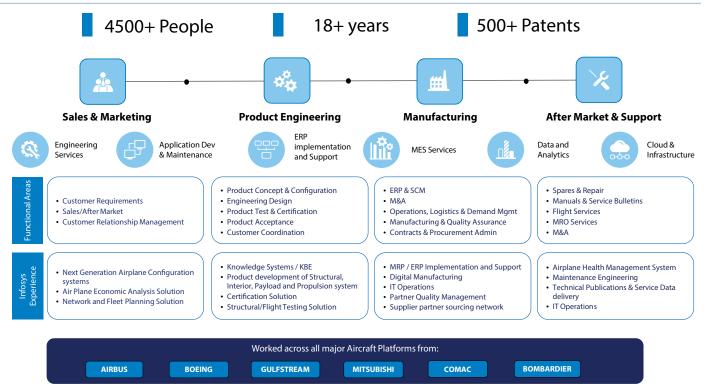

Infosys has a Platinum partnership with IFS and a strong alliance with a vision to help Aerospace and Defense enterprises achieve high user satisfaction, maximize data integrity, reduce cost of ownership and achieve high performance.

The Aerospace and Defense Industry is at the cusp of significant change

Infosys has specialized focus in the A&D industry space.

### ... across the value chain: Our service catalogue for Aerospace & Defense

# Infosys offers innovative custom solutions for using IFS Applications

Infosys has a dedicated practice for IFS ERP applications which is a part of Infosys Cobalt. This provides Business Transformation Services, Upgrades and Support to various global clients. With a committed IFS CoE (IFS Centre of Excellence) leveraging the Infosys Knowledge Platform Repository for multiple tools, business solutions, knowledge artefacts, reusable assets and frameworks, there is now a single point platform for all Internal IFS Trainings, IFS Certifications, knowledge and experience sharing among Infosys IFS community.

Our Enterprise Change Methodology provides a fluid and pragmatic framework to drive intelligent change focusing on the end state, and benefits to be achieved from the IFS implementations. Infosys practitioners can help develop a customized OCM and training strategy working collaboratively with enterprises to ensure adoption and transformation sustainment.

#### IFS

IFS has extensive knowledge of the Aerospace & Defense industry.

Independently recognized as a leading, global supplier of enterprise software, IFS provides solutions for:

Benefits for customers using IFS A&D solution:

Line Maintenance Yield*: 10%+ line maintenance yield increase within	Reduced stock levels: 8% reduction in Gross Stock Value (GSV)	Automatic application of requirements to the fleet: 70%	Reduction in non-productive time: Saved 50% of technician time	Reduced time to prepare complex component packages: Time to	Reduced maintenance management effort: Reduced handover effort	Reduced turn around times: Turn times for major checks have decreased by as much as 40%, resulting in 10 additional revenue days per aircraft per year.
twelve months with four times the precision		reduction in manual effort to incorporate maintenance program changes		prepare complex material kits reduced from 4 days to 3 hours	by 97% or \$400,000 – 30 minutes per shift per crew	

#### **Success Stories**

#### Infosys

For a leading defense warship manufacturer, Infosys is implementing an IFS solution to replace the client's legacy system. It resulted in enhanced GUI capabilities, enhanced role based dashboard lobbies for decision making and solution aligned with SOX/ DFARS imperatives to cater to client's future business needs.

For one of the largest shipbuilder and provider of professional services on large scale headquartered in USA engaged Infosys as implementation SI partner to transform their ERP environment and completely replace their existing ERP system and deploy the IFS ERP platform across their entire operation. It includes materials, planning, production, scheduling, engineering, and project management.

De Havilland is using IFS to replace 300+ legacy business applications covering the entire operation.

IFS has helped Rolls-Royce unlock new data insights on aircraft engines by automating data sharing with airlines, critical to employing predictive maintenance. IFS supports more than 10,000 users with mission-critical maintenance planning and execution capabilities, as part of the U.S. Navy NOBLE initiative.

China Airlines has seen an average

reduction of 25 days layover in unscheduled aircraft maintenance.

Lockheed Martin uses IFS supply chain

logistics software on the U.S. Army TADSS Maintenance Program, for the sustainment of 300,000 fielded assets.

Infosys Cobalt is a set of services, solutions and platforms for enterprises to accelerate their cloud journey. It offers over 14,000 cloud assets, over 200 industry cloud solution blueprints and a thriving community of cloud business and technology practitioners to drive increased business value. With Infosys Cobalt, regulatory and security compliance, along with technical and financial governance comes baked into every solution delivered.
