PARTNER WITH INFOSYS TO UNLEASH THE TRUE BENEFITS OF MICROSOFT DYNAMICS 365 BUSINESS CENTRAL

In today's dynamic market, emerging and growing businesses require agile and integrated ERP platforms to swiftly onboard systems and scale operations. These platforms must be flexible, open for integration with adjacent solutions, and designed to meet customer expectations with user-friendly and intelligent solutions. Microsoft Dynamics 365 Business Central (BC) has everything that is expected of NextGen ERP catering to all organizational needs.
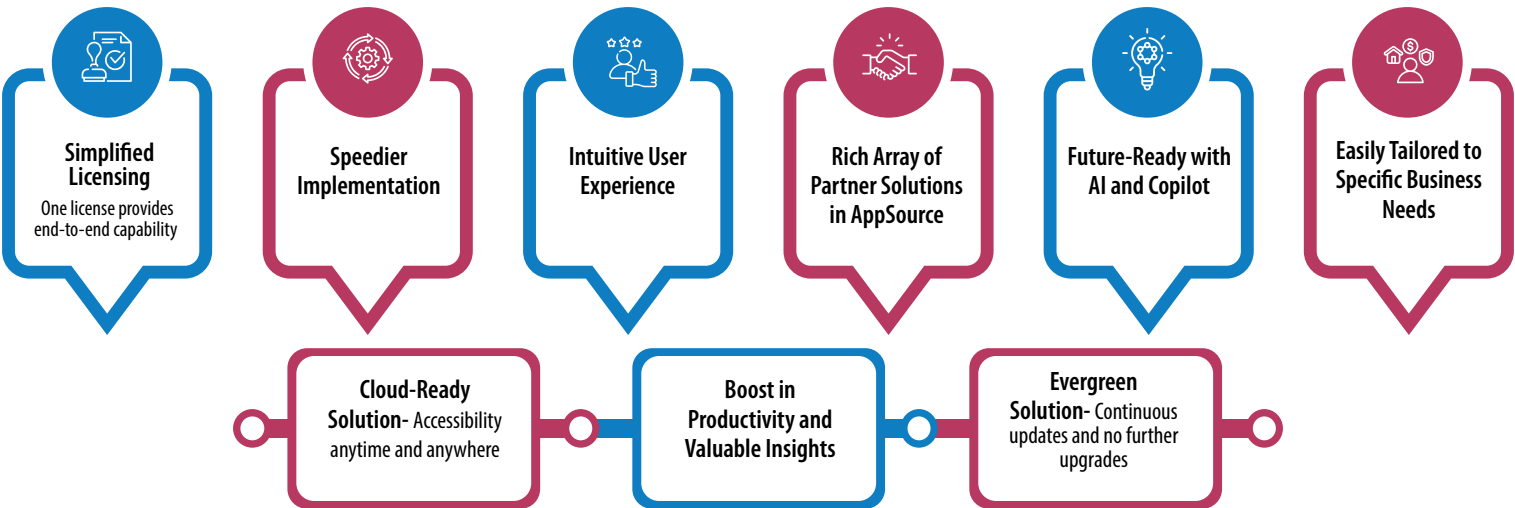

Challenges

In a fast-paced business environment, emerging and growing companies face numerous challenges that can hinder their growth and efficiency. As these businesses expand, their existing infrastructure often struggles to keep up, exacerbating these challenges.

| Business Growth Outpacing Current System | Disconnected Systems and Reporting Limitations | Declining Sales and Poor Customer Experience | Long Accounting Cycles | Scalability Concerns |

| Data Redundancy | Outdated Legacy System | Inadequate Reporting | Inaccurate Inventory Management | Low Customer Retention |

## Why choose Microsoft Dynamics 365 Business Central over other products?

Microsoft Dynamics 365 Business Central is an end-to-end ERP solution designed to meet the requirements of emerging and growing businesses. It integrates critical functions like Sales, Service, Finance, and Operations, onto a single application, and is now generally available in 170 countries worldwide.

According to Forrester's report, *"The Total Economic Impact of Microsoft Dynamics 365 Business Central,"* on an average the Return on Investment seen after implementation was 172%, and business users experienced up to an 18% improvement in the productivity.
