

PaceERP: Accelerated ERP Implementation

Meet business imperatives with quick solution development leveraging, out of the box features, and ready process frameworks (AIM-Adaptive iterative methodology for quick wins)

Quick implementation of a set of declaratives and out-of-the-box features across areas of Finance, Sales, Purchase, and HR for jumpstarting the usage of ERP. This can be followed by gradual unlocking of other ERP functions for better adaptability and risk-free transformations.

Solution Features:

This solution from Infosys is an end-to-end business solution specifically designed with a focus on “Easing the Transition” from a legacy system to a state-of-the-art ERP system.

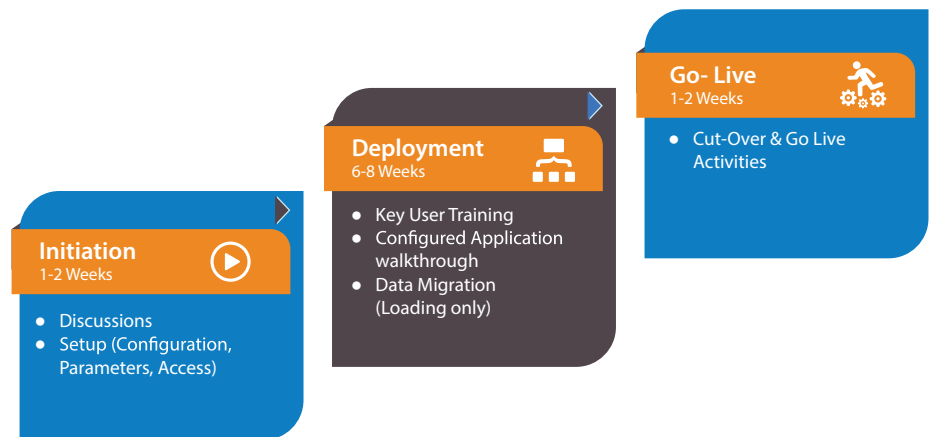

Key highlights of this ERP-based solution include:

- Bringing in best practices by having plain-vanilla processes
- Standard setups available in the application
- Template-based data upload for all masters
- Role-focused training for users on the processes covered

Beneficial For:

- Customers who are planning to Implement Integrated business solution in a short time span and thus wanting to remain a step ahead of the competition
- Customers requiring only out of the box ERP functionalities (Green Field implementations)
- Customers who require a solution with little, or no integration with legacy systems
- Customer wanting to implement world class ERP solution quickly on a limited budget

PacERP - Typical timelines

Next steps: After Accelerated Deployment unlocks other ERP Functions

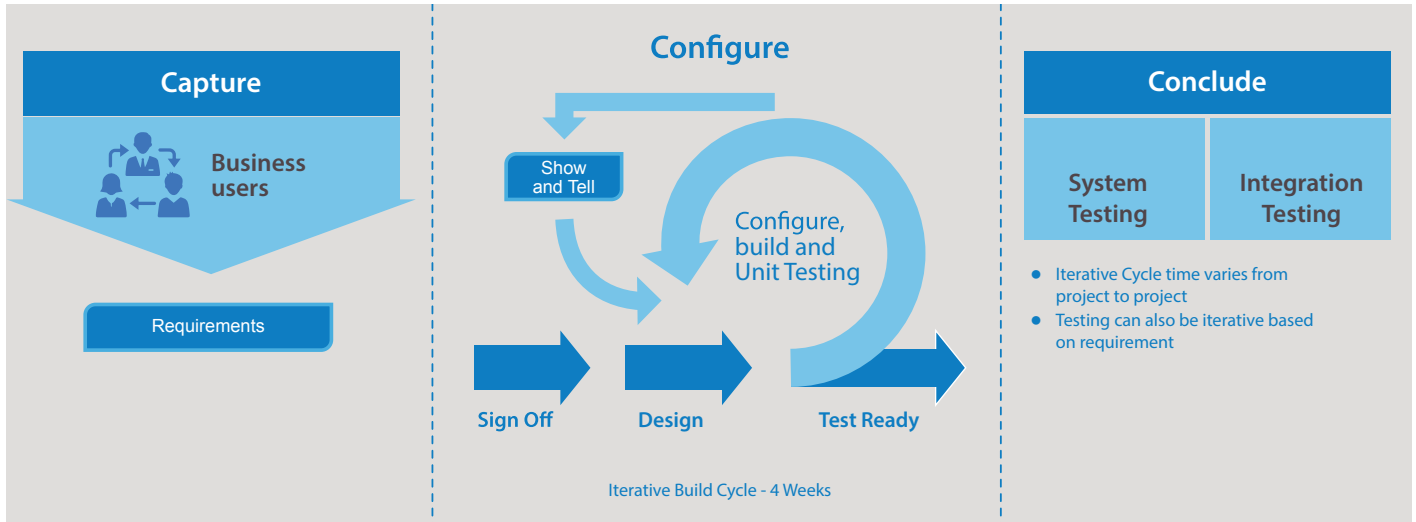

Capture: Capture the user stories through a series of periodic workshops and validation sessions

Configure: Simultaneous build, test, integrate, and validate with customers using CRPs.

Conclude: Conclude the build process and the app is ready for regression, system, and integration testing

Why AIM:

- Faster Time-to-Market through accelerated build and solution deployment
- More Transparency & Better Visibility
- Better User adoption through early user engagement by leveraging Show-n-Tell session

Solution Benefits:

- Faster Implementation of base functions; “in weeks” - faster time to market
- Built-in business processes to kick-start operations on the new application
- Sufficient time for application adaptability before unlocking whole application, resulting in smooth transformation
- Proven Infosys Global Delivery model at an affordable price

- Lower project risk due to proven implementation approach
- Predictable TCO

Customer Testimonials:

Provided accelerated ERP implementation services to the Indian arm of a leading Japanese conglomerate, to replace their disparate legacy systems, providing them a completely integrated solution which provided more accurate information and easily manageable application.

Core Competency:

Resources: 400+ resources for Microsoft Dynamics across functional, technical, architectural, and PM streams.

Multiple Dynamics Implementations across the Globe.

Key Highlights of the Microsoft Dynamics AX Practice at Infosys

Partnered with Microsoft for their internal implementation of Microsoft Dynamics Axapta

Early mover advantage: involved in developing solutions on Microsoft products that have not been released to the marketplace

End-to-end offerings: consulting, package evaluation, implementation, rollout, upgrades and support
