

## Infosys DynamicsOFS solution

**Built on the Microsoft Dynamics platform, it provides an end-to-end solution for oilfield service companies covering processes across the value chain**

The DynamicsOFS solution is a combination of field sales and service applications built

on Dynamics CRM Online that is cloud-based, mobile-ready, and can be accessed

offline along with an on-premise Microsoft Dynamics AX.

### **It provides preconfigured processes for:**

- General ledger and accounting
- Accounts payable and accounts receivable
- Inventory management and warehouse management
- Enterprise asset management
- Project management and accounting

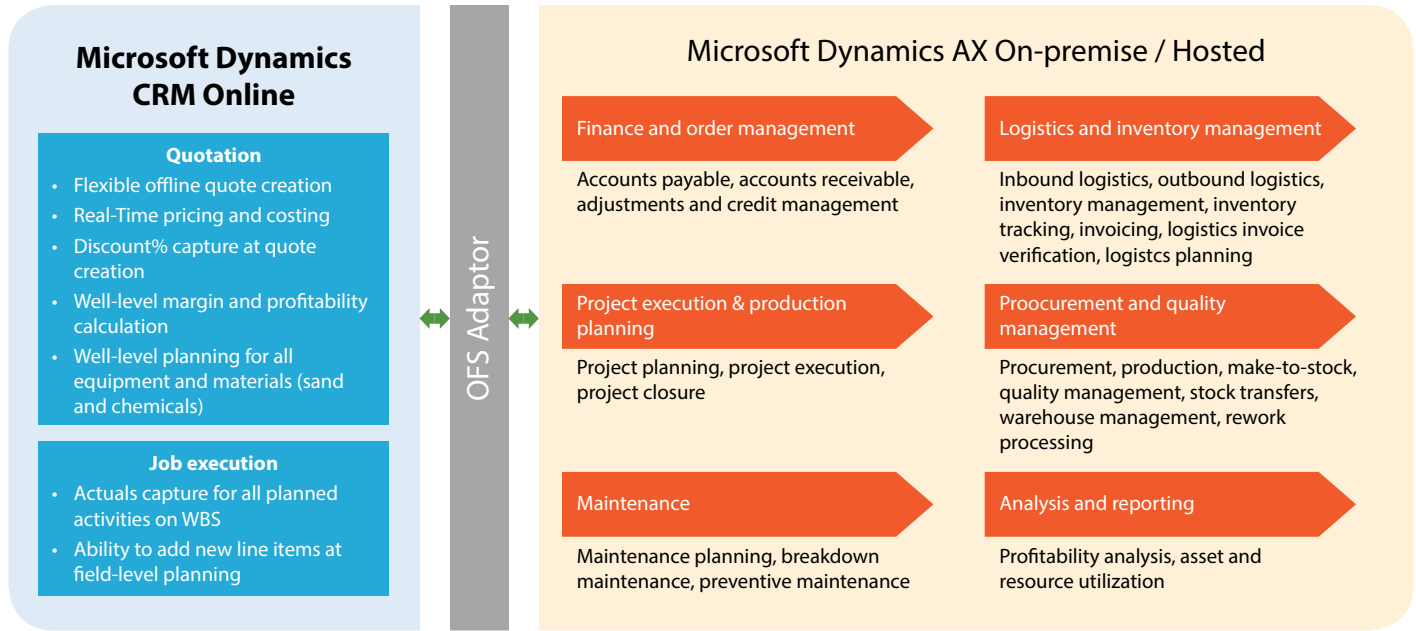

### **It caters to OFS-specific service lines such as:**

- Fracking
- Wire line
- Drilling
- Well completion
- Well intervention

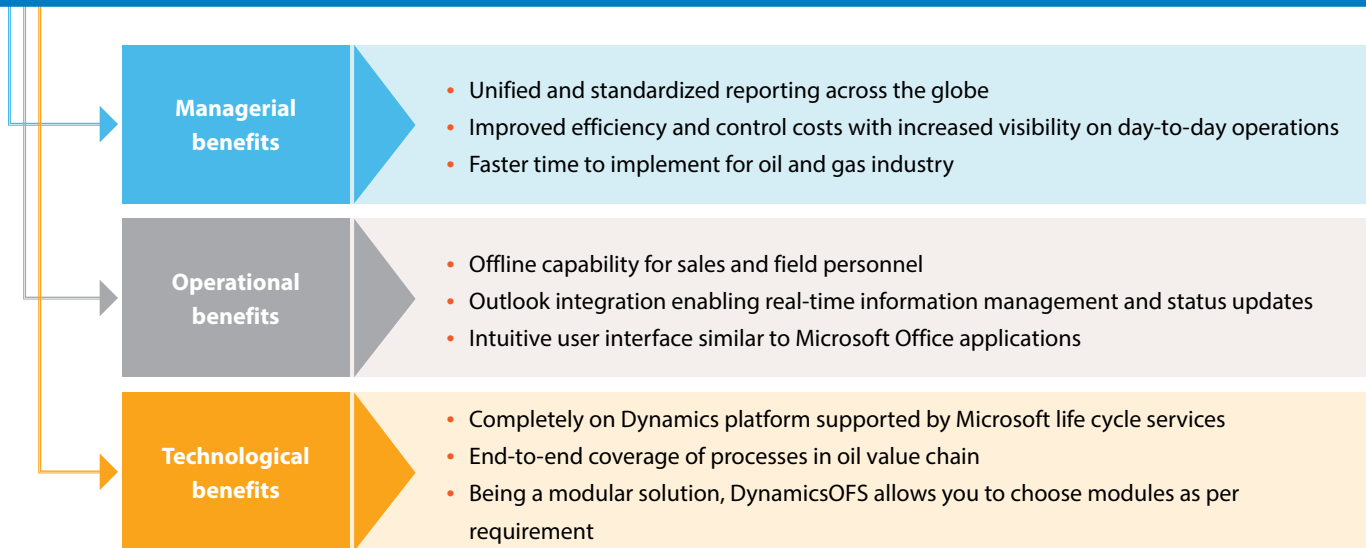

### **Key differentiators of DynamicsOFS solution are:**

- In-built enterprise asset management solution for seamless integration of OFS equipment for scheduling, maintenance, and financial management
- Provides an intuitive user interface similar to Microsoft Office applications enabling easier management of business change and reduces need for training
- Facilitates an accelerated ERP implementation bringing the benefits faster to the business community
- Integrated Microsoft Dynamics AX and CRM OFS solution leveraging offline capabilities for CRM for configured price quote, opportunity-tracking, and job-tracking for field staff
- Possesses a mobile-first, cloud-first strategy in line with industry trends
- Introduction of Internet of Things integration leveraging the Azure ML framework to incorporate real-time data analytics

## Solution framework

## Key benefits
