

Topic: Everest Group's PEAK Matrix™ for Capital Markets AO Service Providers

Focus on Infosys
August 2015

Background and scope of the research

Background of the research

Capital markets industry is grappling with high regulatory pressures, intense competition, and an uncertain economy. Market participants are adopting disruptive business models to contain cost and improve profitability. As the financial services industry undergoes a technology revolution through adoption of digital technologies, capital markets players are investing in next-generation technologies to stay ahead of competition. Buy-side and sell-side participants, as well as financial intermediaries are investing in risk & compliance management solutions, automation, cloud & open-source technologies, mobility, high-end analytics, and third-party platforms as they focus on cost reduction, standardization, and portfolio rationalization.

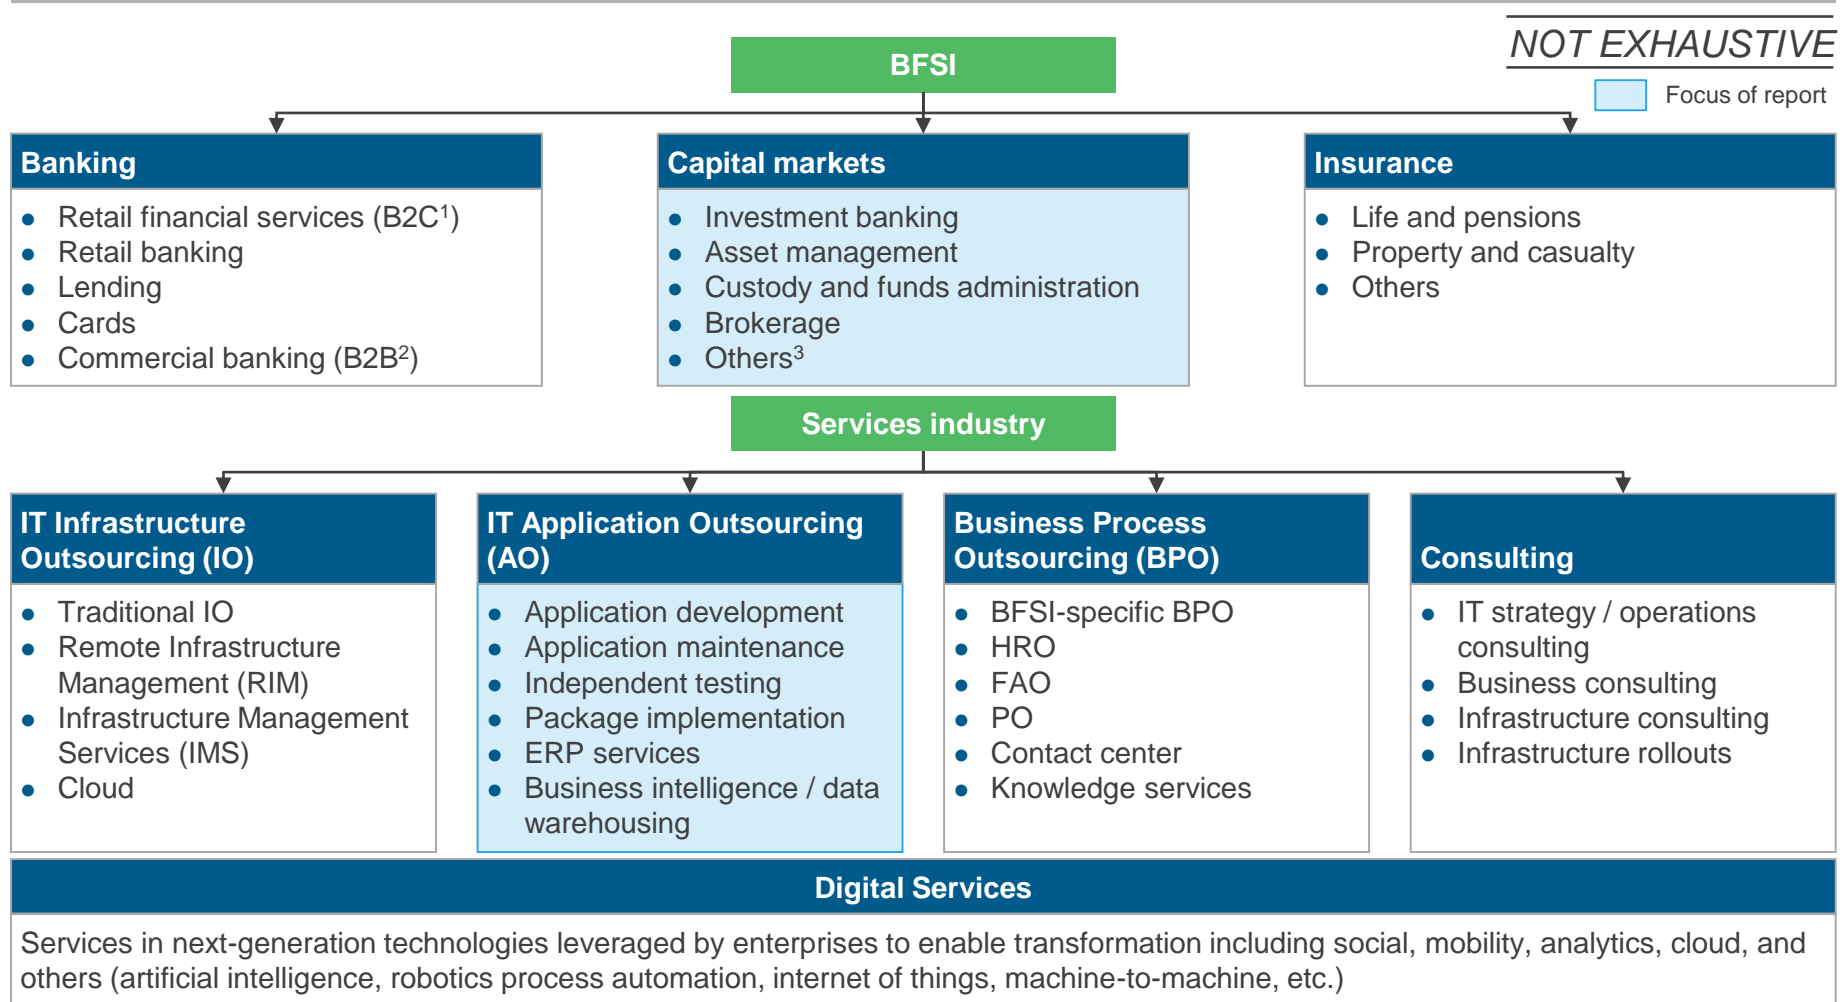

With the capital markets industry witnessing a number of changes, IT service providers are looking to capitalize on the opportunity by tailoring their offerings with next-generation technologies, providing commoditized services, collaborating with buyers to invest in innovation, and forming alliances with leading platform providers.

In this research, we analyze the capabilities of 24 leading AO service providers, specific to the global capital markets sector. These providers were mapped on the Everest Group [Performance | Experience | Ability | Knowledge \(PEAK\) Matrix](#), which is a composite index of a range of distinct metrics related to each provider's capability and market success. . Additionally, Everest Group has also profiled the capabilities of these 24 service providers in detail including a comprehensive picture of their service suite, scale of operations, domain investments, delivery locations, and buyer satisfaction specific to capital markets AO services

This document focuses on Infosys' capital markets AO experience and includes:

- Overview of the capital markets AO service provider landscape
- Everest Group's assessment of Infosys' delivery capability and market success on PEAK matrix
- Detailed capital markets AO profile for Infosys

This Everest Group report is a compendium of detailed profiles of 24 service providers featured on Everest Group's capital markets AO PEAK Matrix

1 Business-to-consumer relationships

2 Business-to-business relationships

3 Includes other capital markets functions such as structured finance, treasury, FX, and horizontal functions including risk management

Everest Group's BFSI research is based on two key sources of proprietary information

1

- Everest Group's proprietary database of 500+ large, active, multi-year AO contracts within BFSI (updated annually through primary data collection via service provider RFIs)¹
- The database tracks the following elements of each large AO relationship:
 - Buyer details including industry, size, and signing region
 - Contract details including TCV, ACV, term, start date, service provider FTEs, and pricing structure
 - Activity broken down separately for banking, capital markets, insurance, and by line of business (for example, investment banking, asset management, custody, fund administration, and brokerage)
 - Scope includes coverage of buyer geography as well as functional activities
 - Global sourcing including delivery locations and level of offshoring

2

- Everest Group's proprietary database of **operational capability of 20+ BFSI AO service providers** (updated annually through primary data collection via service provider RFIs)
- The database tracks the following capability elements for each service provider:
 - Major BFSI AO clients and recent wins
 - Overall revenue, total employees, and BFSI employees
 - Recent BFSI-related developments
 - BFSI AO delivery locations
 - BFSI AO service suite
 - Domain capabilities, proprietary solutions, and intellectual property investments

Service providers covered in the analysis¹

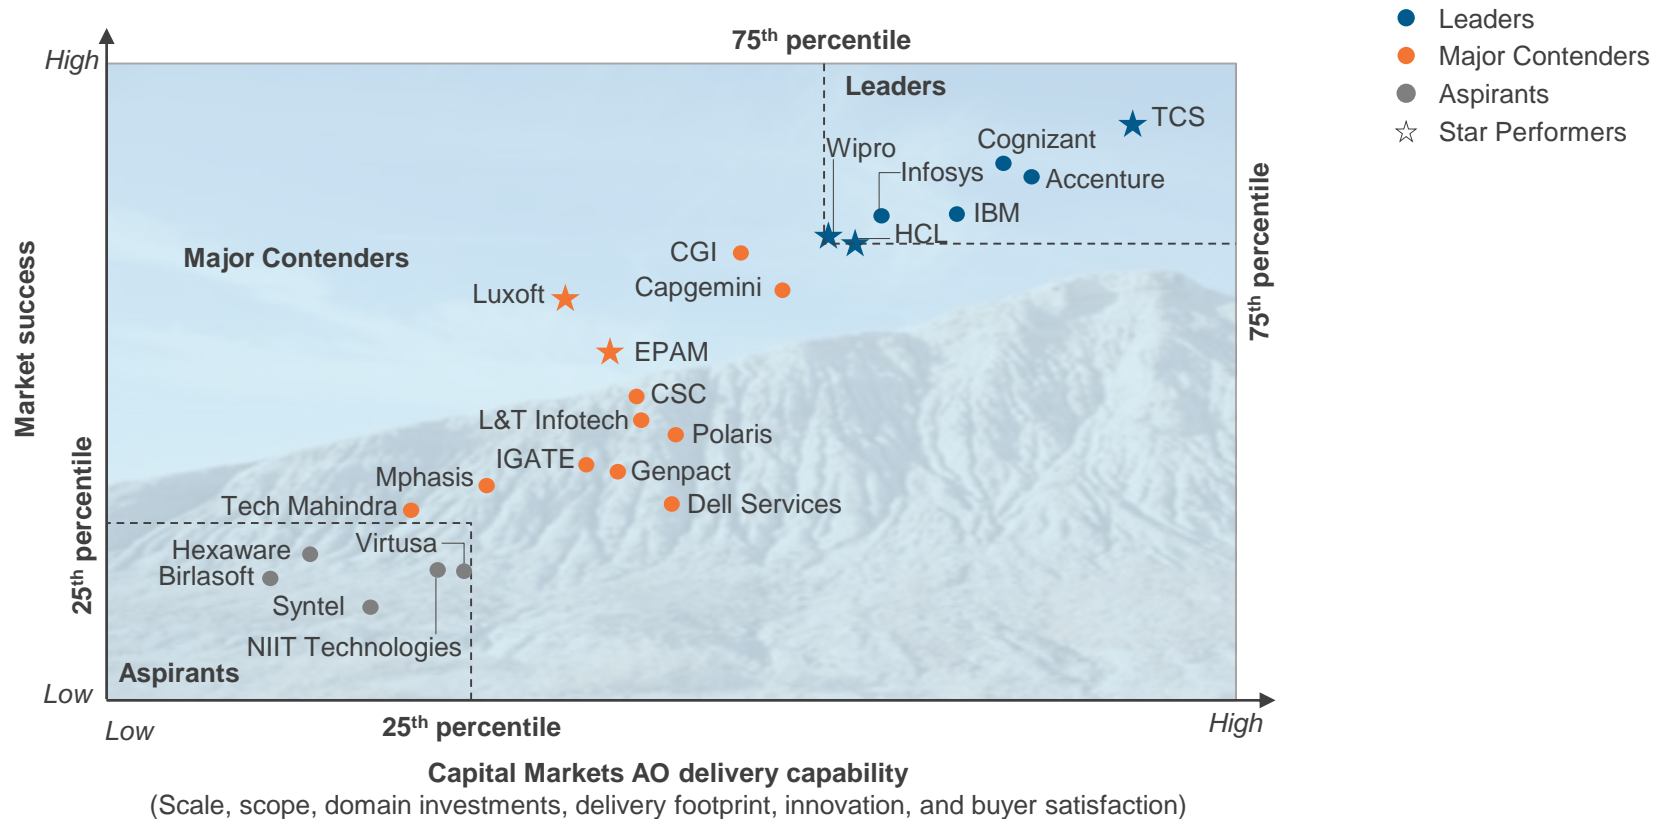

1 Assessment for Accenture, Capgemini, CSC, Hexaware, IBM, and Mphasis excludes service provider inputs, and is based on Everest Group's proprietary Transaction Intelligence (TI) database, service provider public disclosures, and Everest Group's interactions with capital markets buyers

Note: We continuously monitor market developments and track additional service providers beyond those included in the analysis

Confidentiality: Everest Group takes its confidentiality pledge very seriously. Any information, that is contract-specific, will be presented back to the industry only in an aggregated fashion

Infosys is positioned as a Leader on Everest Group PEAK Matrix for capital markets AO - 2015

Everest Group Performance | Experience | Ability | Knowledge (PEAK) Matrix for large capital markets AO relationships¹

1 PEAK Matrix specific to large (>US\$25 million TCv), multi-year (>3 years) application outsourcing relationships for the capital markets sector (Investment banking, asset management, custody, fund administration, and brokerage); excludes banking and insurance

Note: Assessment for Accenture, Capgemini, CSC, Hexaware, IBM, and Mphasis excludes service provider inputs and is based on Everest Group's proprietary Transaction Intelligence (TI) database, service provider public disclosures, and Everest Group's interactions with capital markets buyers

Appendix

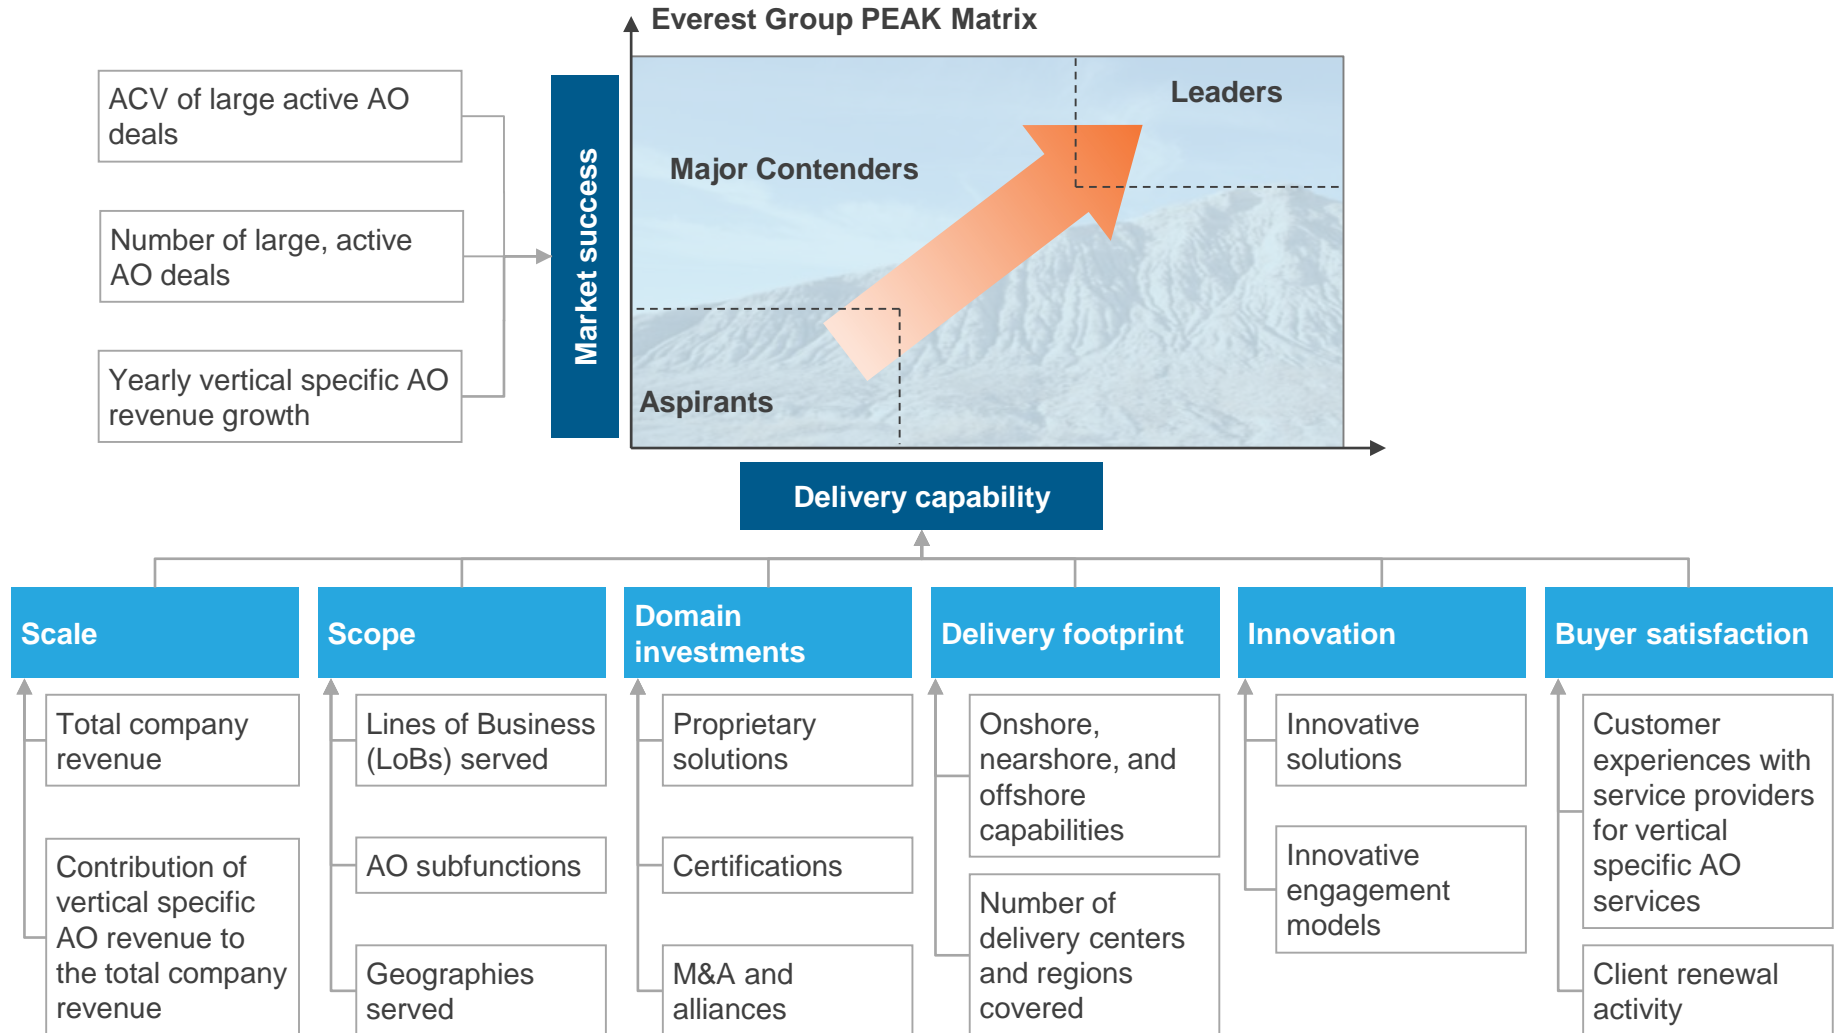

The service providers were mapped on Everest Group's Performance | Experience | Ability | Knowledge (PEAK) Matrix

Everest Group Performance | Experience | Ability | Knowledge (PEAK) Matrix for Application Outsourcing

Everest Group's PEAK Matrix is a composite index of a range of distinct metrics related to a service provider's scale, scope, technology/domain investments, delivery footprint, innovation, buyer satisfaction, and resultant market success in the context of a given outsourcing function

Dimensions of service providers' capability and market success underlying the PEAK Matrix

Does the PEAK Matrix assessment incorporate any subjective criteria?

- The Everest Group’s PEAK Matrix assessment adopts an objective and fact-based approach (leveraging service provider RFIs and the Everest Group’s proprietary databases containing providers’ deals and operational capability information). In addition, these results are validated / fine-tuned based on our market experience, buyer interaction, and provider briefings

Is being a “Major Contender” or “Aspirant” on the PEAK Matrix an unfavorable outcome?

- No. PEAK Matrix highlights and positions only the best-in-class service providers in a particular functional/vertical. There are a number of providers from the broader universe that are assessed and do not make it to the PEAK Matrix at all. Therefore, being represented on the PEAK Matrix is in itself a favorable recognition

What other aspects of the PEAK Matrix assessment are relevant to buyers and providers besides the “PEAK Matrix position”?

- The PEAK Matrix position is only one aspect of the Everest Group’s overall assessment. In addition to assigning a “Leader”, “Major Contender” or “Aspirant” title, Everest Group highlights the distinctive capabilities and unique attributes of all the PEAK Matrix providers assessed in its report. The detailed metric level assessment and associated commentary is helpful to the buyers in selecting particular providers for their specific requirements. It also helps providers showcase their strengths in specific areas

What are the incentives for buyers and providers to participate / provide input to the PEAK Matrix research?

- Participation incentives for buyers include a summary of key findings from the PEAK Matrix assessment
- Participation incentives for providers include adequate representation and recognition of their capabilities/success in the market place, and a copy of their own “profile” that is published by Everest Group as part of the “compendium of PEAK Matrix providers” profiles

What is the process for a service provider to leverage their PEAK Matrix positioning status ?

- Providers can use their PEAK Matrix positioning in multiple ways including:
 - Issue a press release declaring their positioning/rating
 - Customized PEAK Matrix profile for circulation (with clients, prospects, etc.)
 - Quotes from the Everest Group’s analysts could be disseminated to the media
 - Leverage the PEAK Matrix branding across communications (e-mail signatures, marketing brochures, credential packs, client presentations, etc.)
- **The provider must obtain the requisite licensing and distribution rights for the above activities through an agreement with the designated PoC at Everest Group**

About Everest Group

Everest Group is a consulting and research firm focused on strategic IT, business services, and sourcing. We are trusted advisors to senior executives of leading enterprises, providers, and investors. Our firm helps clients improve operational and financial performance through a hands-on process that supports them in making well-informed decisions that deliver high-impact results and achieve sustained value. Our insight and guidance empowers clients to improve organizational efficiency, effectiveness, agility and responsiveness. What sets Everest Group apart is the integration of deep sourcing knowledge, problem-solving skills and original research. Details and in-depth content are available at www.everestgrp.com and research.everestgrp.com.
