

Healthplan eConnect Solution

A holistic portal solution for health plans

“As plans ramp up for healthcare consumerism and self-service, those that fail to personalize and process-enable their online experience risk greater competition for member attention from online medical resources or HR services providers.”

- Forrester Research ¹

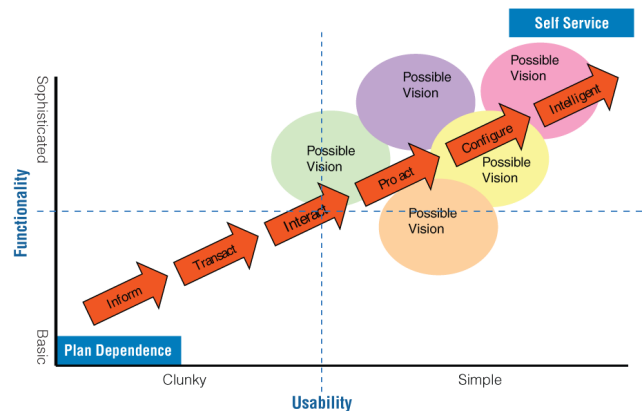

“By 2012, the customer empowered world will make Web portal experiences a fundamental differentiator among healthcare payers.”

- Gartner ²

Having a cohesive portal strategy and a robust portal that supports self-service is no longer a luxury. With rise of consumerism, ubiquitous web access and the demand for lower healthcare costs, portals have become central to health plans' competitive strategy. Infosys can help you get your portal right, with our solutions and services that include portal strategy, assessments, dashboards and payment technology.

We can help you build/enhance scalable portals that:

- Increase plan member satisfaction
- Improve drug utilization behavior
- Improve member retention and enrollment
- Lower overall administration costs and member savings through self service
- Lower contact center call volume

Infosys Healthplan eConnect Solution

The solution, developed based on our extensive experience working with portals, incorporates current eCommerce best practices from across industries. Depending on your portal maturity and needs the solution has various components to choose from.

| Solution Offering | Features and Benefits |
|-------------------------------------|--|
| Portal Assessment & Portal Strategy | Provides longer term strategy and road maps to be adopted for enhanced service levels and higher customer satisfaction and ROI within the context of a vision tailored to the clients business needs and strategies |
| Consumer Dashboard | Provides pertinent information at a single source that is simple to understand and simple to use, enabling members to make key decisions. This coupled with information access over multiple channels of communication drives consumerism in healthcare. |
| Sponsor/Broker Dashboard | Provides a report card for the plan on an ongoing basis to help determine the planned v/s achieved variances in performance or utilization |

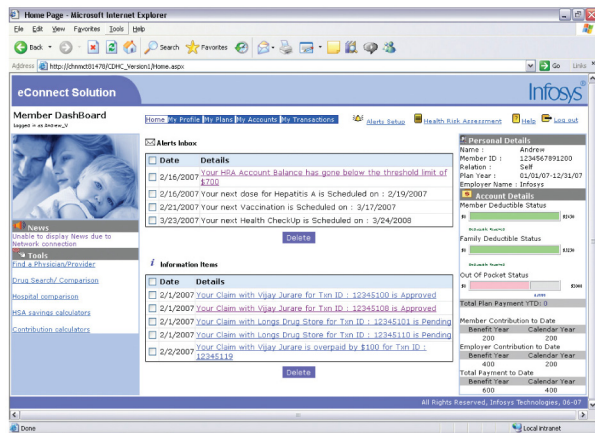

| Solution Offering | Features and Benefits |
|-------------------------|---|
| Assessment Tools | Identifies functional gaps in existing setup and help suggest approaches/ strategies to overcome them. Consumers find usability and functionality issues as the biggest barriers in adopting tools/ data available on most healthplan sites |
| Payment Technology | Defines a radical approach to submit claims at the provider office and enabling quicker settlement of claims. Supports configuration of payments to meet the needs of “investors” and “consumers alike. |
| ASP approach | Infosys BPO offers an ASP model to host the CDHC product administration functions |
| Call Center Integration | Offers an integrated view of disparate systems, to the agent using Microsoft CCF framework integrating IVR/CTI technology. |

Infosys Consumer Connection Framework

The Healthplan eConnect Solution is based on Infosys' Consumer Connection Framework.

The framework has been designed with the aim of meeting the needs of consumers, while also meeting the needs of the four other major stakeholders – Sponsors, Payors, Providers and Banks – in realizing cost savings and providing better service.

Multi-channel Communication Methodology

The Infosys Consumer Connection framework provides multi-channel capability using web, phone and other innovative technologies to drive self-service adoption levels.

The multiple channels offer the consumer a means for flexible communication and easy, convenient access from anywhere, anytime. The channels include web, speech-enabled Interactive Voice Response (IVR), text messaging, e-mail and fax. Enhanced levels of automated self services include access to information, ability to perform transactions, proactive alerts and notification deliveries on member's choice of channel such as email, sms, fax, phone etc.

Turn Service Success into Consumer Loyalty

Benefits of improved self-service capabilities include:

- Increased plan member satisfaction
- Improved drug utilization behavior
- Improved member retention and enrollment
- Lower overall administration costs and member savings through self service
- Reduced dependency on contact center
