

INFOSYS iTRANSFORM™ FOR ICD-10 TRANSITION

*Fast-Track Compliance and Ensure Neutrality with Integrated
ICD-10 Product Suite and Services*

Infosys®
Public Services

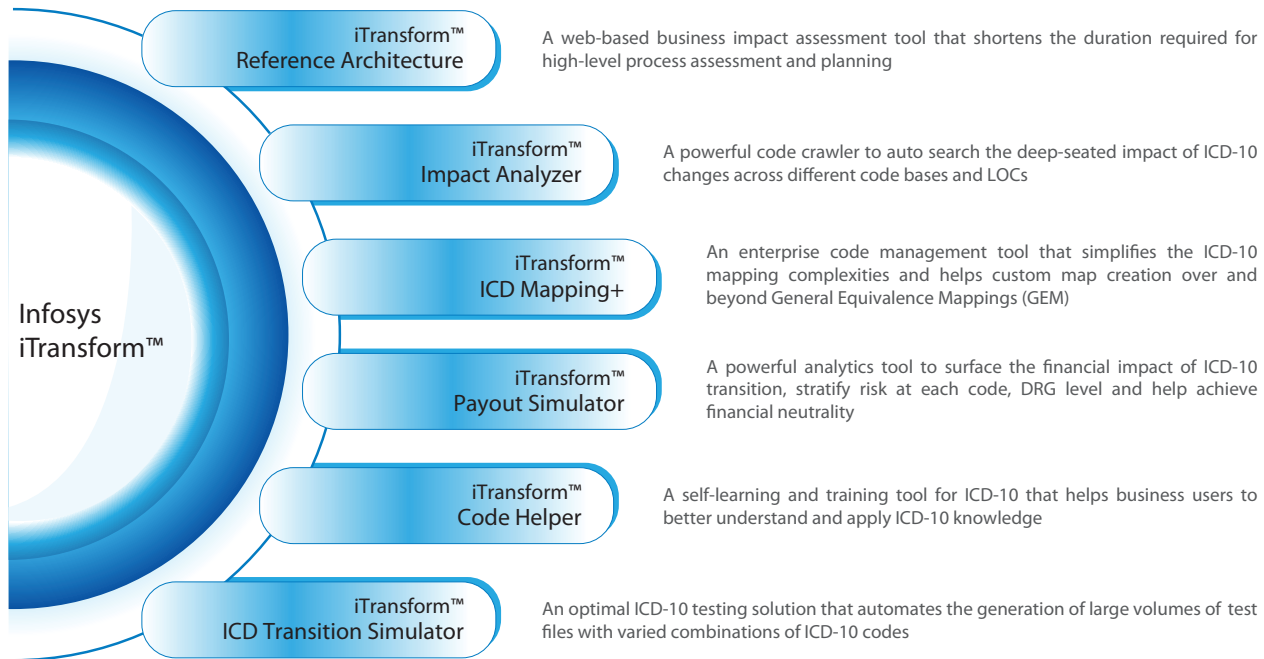

Building
Tomorrow's Enterprise

The new regulatory timeline for ICD-10 compliance by Oct 2014 has provided breathing room for Healthcare Payers. However, realizing that the transition to ICD-10 spans departments across the enterprise, Payers should use this time to adopt best practices and implement a solution that aligns with long-term technology and business strategies. For example, Payers should determine the need to support claims run out and crosswalk uses, establish mapping and neutrality Center of Excellence, approach to enhance revenue and quality opportunities, and test at each level. Streamlining the transition and minimizing disruption requires the right mix of technology products and services.

Infosys iTransform™ Product Suite

Infosys iTransform™ is an integrated product suite with modular product components to support ICD-9 to ICD-10 transition. The suite provides Payers choice and flexibility to meet distinct ICD-10 compliance requirements while cost-effectively accelerating transition and ensuring revenue & clinical neutrality.

Coupled with rich ICD-10 consulting, implementation and support services, Infosys iTransform™ helps Payers successfully manage the entire transition life cycle end-to-end.

Key Features

iTransform™ Reference Architecture

- Web based repository with generic payer processes
- Inbuilt framework for estimation, capturing and storing requirements

iTransform™ Impact Analyzer

- Powerful code crawler to auto search deep seated impact of ICD-10 changes across different code bases & LOCs
- Supports most programming languages

iTransform™ ICD Mapping +

- Simplifies complex ICD-9 to ICD-10 code translation process
- Reduces mapping effort by 60%

iTransform™ Payout Simulator

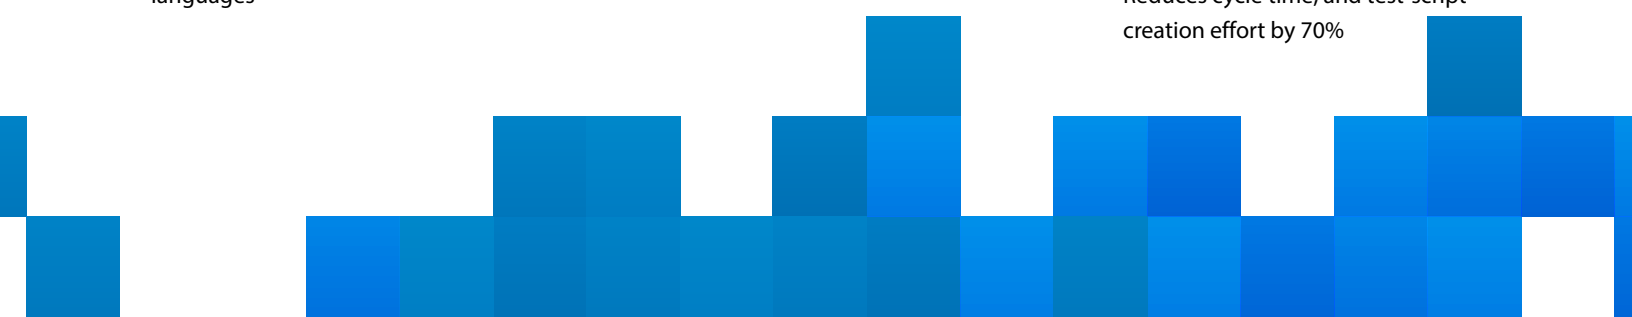

- Powerful diagnostic tool, with advanced analytics and actionable reporting capabilities
- Complete solution for ICD-10 neutrality benchmarking

iTransform™ Code Helper

- Web-based self-learning tool for complete and accurate coding
- Improved coding compliance through support of CMS Coding guideline

iTransform™ Transition Simulator

- Capable of handling large volume of historical claims and pre-loaded with out-of-the-box scenarios (clinical, financial)
- Reduces cycle time, and test-script creation effort by 70%

ICD-10 Migration Services

Infosys' ICD 10 migration services leverage deep domain and technical expertise and iTransform™ product to define a phased approach that addresses interdependencies to align different initiatives, streamlines transition and accelerates overall remediation.

Value Proposition

- End to End offering to seamlessly manage the entire ICD-10 transition from Assessment to Testing and Support
- ICD-10 Consulting, Clinical, Testing, Training and BPO services ensure successful transition
- Highly customizable components work in isolation and in tandem, targeting specific business needs out-of-the-box to address most common ICD-10 program requirements
- Significant automation provides up to 50% reduction in effort, cost and risk/rework, accelerating overall transition
- Ensures neutrality, minimizing revenue impact and cash-flow risks

Blue Cross and Blue Shield Association (BCBSA) has selected Infosys' iTransform™ product suite to be part of a national purchasing arrangement for ICD-10 transition – Infosys and BCBSA press release, June 2011

Client Success Story

BlueCross BlueShield Plan

Infosys iTransform™ Mapping+ simplified clinically accurate ICD-9 to ICD-10 mapping and business rules transition. Infosys iTransform™ Code Helper reduced coder training effort and increased proficiency. Automation reduced project cycle time for faster compliance.

National Health Plan

Defined an enterprise level test strategy for ICD-10, and established a program management office to monitor and control test execution. Testing best practices & methods and seamless execution with cross-functional teams reduced project cycle time.

Medicaid Managed Care Services Company

Infosys iTransform™ Payout Simulator for ICD-10 financial neutrality assessment helped determine high risk codes from claims data, identify data that influence payout amount, and defensive actions to offset potential financial impact.

About Infosys Public Services
