

### 3. Scenario Analysis and Executive Decision Support

- With the scenario and trend analysis functionality, you can examine the clinical, operational and financial impact of differing levels of performance, enabling you to set your quality and performance targets across each reporting period.
- Executive decision support tool provides annual payout trends, deviations from target, and performance against state, national and competition scores.

### 4. Interoperability

- The solution also provides for interoperability with Provider systems to enable corrective action by logging into the source system of KPI data.
- Instantaneous, incremental data refresh process updates your scores and metrics with new data as soon as it is available, integrating information from claims, billing, lab, pharmacy or EMR.

### 5. Mobile Device Interface

- Solution accommodates mobile device interfaces, to ensure that the stakeholders have access anytime, anywhere.

## Solution Benefits

<p><b>Adaptive to Changing Reporting Needs</b></p> <p>The solution is well equipped to accommodate the ever changing needs of CMS P4P Programs.</p>	<p><b>Predictable and Quick ROI</b></p> <p>Pre-built frameworks for CMS reporting, enabling faster implementation, integration and optimization. This, combined with low maintenance costs and real-time reporting enables your organization to realize quick and predictable ROI.</p>	<p><b>Proactive Intervention</b></p> <p>Enables each participant to proactively monitor and aid decision making with timely interventions, ensuring compliance with quality goals. Cultivates proactive behavior among caregivers.</p>	<p><b>Flexible, Scalable and Secure</b></p> <p>Highly flexible, supports high transaction and data volumes and maximizes the security of confidential health information.</p>
