## Infosys BPM Limited

# Independent Auditor's Report

TO the members of Infosys BPM Limited

## Report on the Audit of the Standalone Financial Statements

### Opinion

We have audited the accompanying standalone financial statements of Infosys BPM Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit, total comprehensive income, its cash flows and changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Board of Directors for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high

level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
  - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164<sup>(2)</sup> of the Act.
  - f. With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197<sup>(16)</sup> of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
  - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 2.22 to the standalone financial statements.
  - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 2.15 to the standalone financial statements.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
  - iv.
    - (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
  - v. As stated in Note 2.11 to the standalone financial statements
    - (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act as applicable.
    - (b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with Section 123 of the Act.
    - (c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
  - vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143<sup>(11)</sup> of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Infosys BPM Limited of even date)

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to standalone financial statements of INFOSYS BPM LIMITED (the “Company”) as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management’s and Board of Directors’ Responsibilities for Internal Financial Controls

The Company’s management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

### Meaning of Internal Financial Controls with reference to standalone financial statements

A company’s internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Annexure 'B' to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Infosys BPM Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's property, plant and equipment, right-of-use of assets and intangible assets:
  - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and relevant details of right-of-use assets.  
(B) The Company does not hold any intangible assets. Hence, reporting under clause 3(i) of the Order is not applicable.
  - (b) The Company has a program of physical verification of property, plant and equipment and right-of-use assets so to cover all the verifiable assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
  - (c) Based on our examination of the property tax receipts and lease agreement for land on which the building is constructed, registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title in respect of self-constructed buildings and title deeds of all the immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under property, plant and equipment are held in the name of the Company as at the balance sheet date.
  - (d) The Company has not revalued any of its property, plant and equipment (including right-of-use assets) during the year.
  - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii.
  - (a) The Company does not have any inventory and hence reporting under clause 3(ii)(a) of the Order is not applicable.
  - (b) The Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.
- iii. The Company has made investments in, companies, and granted unsecured loans to other parties, during the year, in respect of which:
  - (a) The Company has provided loans or advances in the nature of loans during the year, and details of which are given below:

(Amount in ₹ Crore)

Particulars	Loans	Advances in nature of loans
A. Aggregate amount granted /provided during the year:		
- Others (Fellow subsidiary)	2	-
B. Balance outstanding as at balance sheet date in respect of above cases:		
- Others	2	-

The Company has not provided any guarantee or security to any other entity during the year.

- (b) In our opinion, the investments made and the terms and conditions of the grant of loans during the year are, prima facie, not prejudicial to the Company's interest.
- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally been regular as per stipulation.
- (d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.
- (e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable.

The Company has not made investments in Firms and Limited Liability Partnerships during the year. Further the Company has not provided any guarantee or security or granted any advances in the nature of loans, secured or unsecured, to Companies, Firms, Limited Liability Partnerships or any other parties.

- iv. The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.

- v. The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified by the Central Government under sub section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence, reporting under clause 3(vi) of the Order is not applicable to the Company.
- vii. In respect of statutory dues:
- (a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.
- There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.
- (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2025 on account of disputes are given below:

Name of the statute	Nature of dues	Forum where dispute is pending	Period to which the amount relates	Amount in ₹ Crores
Finance Act, 1994	Service Tax	Customs Excise and Service Tax Appellate Tribunal	FY 2004-05 to FY 2011-12 and FY 2014-15 to FY 2017-18	100
The Income Tax Act, 1961	Income Tax	Commissioner (Appeals)	FY 2010-11, FY 2017-18 and FY 2020-21	116
		Appeal to be filed with Commissioner (Appeals)	FY 2018-19	11
The Rajasthan Sales Tax Act, 1994	RVAT	Commissioner (Appeals)	FY 2017-18	—*
Goods and Service Tax Act, 2017	Goods and Service Tax	Appels to be filed Joint Commissioner (Appeals)	FY 2017-18 to FY 2022-23	101
		Joint Commissioner (Appeals)	FY 2017-18 to FY 2020-21	55

\* Less than ₹ 1 crore  
FY = Financial Year

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix. (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause 3(ix)(a) of the Order is not applicable.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries
- (f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable
- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section <sup>(12)</sup> of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) while determining the nature, timing and extent of our audit procedures.
- xii. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

- xiii. In our opinion, the Company is in compliance with Section 188 of the Companies Act, 2013 for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards. The Company is a wholly owned subsidiary and hence the provisions of Section 177 of the Companies Act, 2013 are not applicable to the Company.
- xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.  
(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.  
(b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of section 135 of the said Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

# Statement of Cash Flows

## Accounting Policy

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(In ₹ crore)

# Notes to the Standalone Financial Statements

## 1. Overview

### 1.1 Company overview

Infosys BPM Limited ("Infosys BPM" or "the Company") (formerly known as Infosys BPO Limited) was incorporated on April 3, 2002 to provide business process management services to organizations that outsource their business processes. Infosys BPM is a wholly-owned subsidiary of Infosys Limited. The Company helps clients improve their competitive positioning by managing their business processes in addition to providing increased value.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India.

The standalone financial statements are approved by the Company's Board of Directors on April 15, 2025.

### 1.2 Basis of preparation of financial statements

These standalone financial statements are prepared in accordance with Indian Accounting Standards under the historical cost convention on the accrual basis except for certain financial instruments, which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act'). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been applied consistently to all periods presented in these standalone financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

As the year-to-date figures are taken from the source and rounded to the nearest digits, the quarter figures in this standalone financial statements added up to the figures reported for the previous quarters might not always add up to the year-to-date figures reported in this standalone financial statements.

### 1.3 Use of estimates and judgements

The preparation of the standalone financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the standalone financial statements have been disclosed in Note 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates and judgements are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the standalone financial statements.

### 1.4 Critical accounting estimates and judgements

#### a. Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

Fixed-price business process management services revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price business process management services contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the business process management services revenue requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for its other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it controls the good or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or service and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

## b. Income taxes

The Company's major tax jurisdiction is India even though the Company also files tax returns in other overseas jurisdiction. Significant judgments are involved in determining the provision for income taxes, including the amount expected to be paid/recovered for uncertain tax positions. Also, Refer to Note no. 2.16 and note no. 2.19.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## c. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. Also, Refer to Note no. 2.1.

## 2.1 Property, plant and equipment

### Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Building <sup>(1)</sup>	22-25 years
Plant and machinery <sup>(1)</sup>	5 years
Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment	5 years
Leasehold improvements	Lower of useful life of the asset or lease term

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

### Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell or the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generated Unit ("CGU") to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025 are as follows:

(In ₹ crore)

Particulars	Buildings (1)	Leasehold improvements	Plant and machinery	Office equipment	Computer equipment	Furniture and fixtures	Total

\* During the year ended March 31, 2024, certain assets, which were not in use having gross book value of ₹42 crore Net book value: Nil were retired.

(1) Includes certain assets provided on a cancellable operating lease to the holding company.

The aggregate depreciation has been included under depreciation and amortization expense in the Statement of Profit and Loss.

Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred.

## 2.2 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a Right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Infosys BPM's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The Right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value, less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined as Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related Right-of-use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and Right-of-use assets have been separately presented in the balance sheet and lease payments have been classified as financing cash flows.

#### The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a financing or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

The changes in the carrying value of right-of-use assets for the year ended March 31, 2025 is as follows:

(In ₹ crore)			
Particulars	Category of ROU asset		Total
	Land	Buildings	
Balance as of April 1, 2024	10	477	487
Additions <sup>(1)</sup>	–	221	221
Deletions	–	(1)	(1)
Depreciation	–	(115)	(115)
Translation difference	–	–	–
Balance as of March 31, 2025	10	582	592

(1) Net of adjustments on account of modifications

The changes in the carrying value of right of use assets for the year ended March 31, 2024 are as follows:

(In ₹ crore)			
Particulars	Category of ROU asset		Total
	Land	Buildings	
Balance as of April 1, 2023	10	530	540
Additions <sup>(1)</sup>	–	61	61
Deletions	–	(10)	(10)
Depreciation	–	(104)	(104)
Balance as of March 31, 2024	10	477	487

(1) Net of adjustments on account of modifications

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The break-up of current and non-current lease liabilities as at March 31, 2025 and March 31, 2024 is as follows:

(In ₹ crore)		
Particulars	As at March 31,	
	2025	2024
Non-current lease liabilities	599	484
Current lease liabilities	115	98
Total	714	582

The movement in lease liabilities during the years ended March 31, 2025 and March 31, 2024 is as follows:

(In ₹ crore)		
Particulars	As at March 31,	
	2025	2024
Balance at the beginning	582	637
Additions <sup>(1)</sup>	221	61
Deletions	(1)	(10)
Finance cost accrued during the year	41	35
Payment of lease liabilities	(136)	(136)
Translation difference	7	(5)
Balance at the end	714	582

<sup>(1)</sup>Net of adjustments on account of modifications

Rental expense recorded for short-term leases was ₹54 and ₹45 crore for the years ended March 31, 2025 and March 31, 2024.

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2025 and March 31, 2024 on an undiscounted basis:

(In ₹ crore)		
Particulars	As at March 31,	
	2025	2024
Less than one year	146	121
One to five years	472	404
More than five years	256	171
Total	874	696

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

There are no leases which are not yet commenced to which Company is committed

## 2.3 Capital work-in-progress

(In ₹ crore)

Particulars	As at March 31,	
	2025	2024
Capital work-in-progress	7	10
Total Capital work-in-progress	7	10

Capital work-in-progress ageing schedule for the year ended March 31, 2025:

(In ₹ crore)					
Particulars	Amount in CWIP for a period of				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Projects in progress	7	–	–	–	7
Total Capital work-in-progress	7	–	–	–	7

Capital work-in-progress ageing schedule for the year ended March 31, 2024:

(In ₹ crore)					
Particulars	Amount in CWIP for a period of				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Projects in progress	10	–	–	–	10
Total Capital work-in-progress	10	–	–	–	10

During the years ended March 31, 2025 and March 31, 2024, in Capital-work-in progress there are no projects whose completion is overdue or has exceeded its cost compared to its original plan.

Less: Allowance for credit loss	-	-	-	-	-	-	20
Total trade receivables	1,000	98	2	-	1	7	1,088

## 2.8 Cash and cash equivalents

(In ₹ crore)

Particulars	As at March 31,	
	2025	2024
Balances with banks		
In current and deposit accounts	577	295
Cash on hand	-	-
Total Cash and cash equivalents	577	295
Balances with banks in unpaid dividend accounts	-	-
Deposits with more than 12 months maturity	-	50

Cash and cash equivalents as at March 31, 2025 and March 31, 2024 include restricted bank balances of less than ₹ 1 crore each. This represents restricted bank balance, in trust account, in accordance with collection agency licensing requirements.

The deposits maintained by the Company with banks and financial institutions comprise of time deposits, which can be withdrawn by the Company at any point without prior notice or penalty on the principal.

## 2.9 Other assets

(In ₹ crore)

Particulars	As at March 31,	
	2025	2024
Non-current		
Capital advances	2	4
Advances other than capital advance		
Payment to vendors for supply of goods and services	-	-
Others		
Prepaid expenses	1	2
Defined benefit assets	20	4
Deferred contract cost <sup>(3)</sup>	3	6
Withholding taxes and others <sup>(4)</sup>	22	18
Unbilled revenues <sup>(2)</sup>	-	1
Total Non-current other assets	48	35

Particulars	As at March 31,	
	2025	2024
<b>Current</b>		
Advances other than capital advance		
Payment to vendors for supply of goods and services	11	2
<b>Others</b>		
Prepaid expenses <sup>(1)</sup>	107	116
Deferred contract cost <sup>(2)</sup>	12	15
Withholding taxes and others <sup>(3)</sup>	111	133
Unbilled revenues <sup>(4)</sup>	10	19
Others	2	–
Total current other assets	253	285
Total other assets	301	320

<sup>(1)</sup> Includes dues from holding company (Refer to Note 2.23)(Refer to note 2.23) – 1

<sup>(2)</sup> Deferred contract costs are upfront costs incurred for the contract and are amortized over the term of the contract. Cost, which are expected to be amortized within twelve months from the Balance Sheet date have been presented as current.

<sup>(3)</sup> Withholding taxes and others primarily consists of input tax credits and Cenvat recoverable from Government of India.

<sup>(4)</sup> Classified as non-financial asset as contractual right to consideration is dependent on completion of contractual milestones.

## 2.10 Financial instruments

### Accounting Policy

#### 2.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 2.10.2 Subsequent measurement

##### a. Non-derivative financial instruments

###### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

###### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories are subsequently fair valued through profit or loss.

###### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit or loss.

###### (v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

##### b. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

###### (i) Financial assets or financial liabilities, at fair value through profit or loss

This category has derivative financial assets or liabilities, which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses

are included in other income. Assets/liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within twelve months after the Balance Sheet date.

### 2.10.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

### 2.10.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, option pricing model, market multiples, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to financial instruments by category table below for the disclosure on carrying value and fair value on financial assets and liabilities. For financial assets and liabilities maturing within one

year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to short maturity of these instruments.

### 2.10.5 Impairment

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets and unbilled revenues which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company considered current and anticipated future economic conditions relating to industries the company deals with and the countries where it operates.

The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in Statement of Profit and Loss.

## Financial instruments by category

The carrying value and fair value of financial instruments by categories as at March 31, 2025 are as follows:

(In ₹ crore)

Trade payables (Refer to Note 2.13)	114	–	–	–	–	114	114
Other financial liabilities (Refer to Note 2.12)	701	–	–	–	–	701	701
Total	1,397	–	–	–	–	1,397	1,397

<sup>(1)</sup> The carrying value of debentures approximates fair value as the instruments are at prevailing market rates.

<sup>(2)</sup> On account of fair value changes, including interest accrued

<sup>(3)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

<sup>(4)</sup> Excludes interest accrued on government bonds carried at amortized cost of less than ₹ 1 crore

For trade receivables, trade payables, other assets and payables maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

### Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The value hierarchy of assets and liabilities measured at fair value as at March 31, 2025 is as follows:

(In ₹ crore)				
Particulars	As at March 31, 2025	Fair value measurement at end of the reporting period using		
		Level 1	Level 2	Level 3
Assets				
Investments in liquid mutual fund units (Refer to Note 2.4)	146	146	–	–
Investment in government bonds (Refer to Note 2.4)	16	16	–	–
Investments in government securities (Refer to Note 2.4)	210	210	–	–
Investment in certificates of deposit (Refer to Note 2.4)	246	–	246	–
Investment in commercial paper (Refer to Note 2.4)	198	–	198	–
Derivative financial instruments - Fair value gain on outstanding foreign currency forward contracts (Refer to Note 2.6)	13	–	13	–
Liabilities				
Derivative financial instruments - Fair value loss on outstanding foreign currency forward contracts (Refer to Note 2.12)	–	–	–	–

The fair value hierarchy of assets and liabilities measured at fair value as at March 31, 2024 are as follows:

(In ₹ crore)				
Particulars	As at March 31, 2024	Fair value measurement at end of the reporting period using		
		Level 1	Level 2	Level 3
Assets				
Investments in liquid mutual fund units (Refer to Note 2.4)	204	204	–	–
Investment in non-convertible debentures (Refer to Note 2.4) <sup>(1)</sup>	225	225	–	–
Investments in government securities (Refer to Note 2.4)	469	469	–	–
Investment in certificates of deposit (Refer to Note 2.4)	98	–	98	–
Investment in commercial paper (Refer to Note 2.4)	323	–	323	–
Derivative financial instruments - Fair value gain on outstanding foreign currency forward contracts (Refer to Note 2.6)	2	–	2	–
Liabilities				
Derivative financial instruments - Fair value loss on outstanding foreign currency forward contracts (Refer to Note 2.12)	–	–	–	–

<sup>(1)</sup> During the year ended March 31, 2024, the non-convertible debentures of ₹75 crore and government securities of ₹83 crore were transferred from Level 2 to Level 1, since they were valued based in quoted price.

### Financial risk management

#### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign

exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

### Market risk

The Company operates internationally, and a major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The analyzes of foreign currency risk from financial assets and liabilities as at March 31, 2025 is as follows:

(In ₹ crore)						
Particulars	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Net Financial Assets	1,358	209	101	24	85	1,777
Net Financial Liabilities	(392)	(116)	(29)	(15)	(473)	(1,025)
Total	966	93	72	9	(388)	752

The analyzes of foreign currency risk from financial assets and liabilities as at March 31, 2024 are as follows:

(In ₹ crore)						
Particulars	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Net Financial Assets	1,198	204	66	20	56	1,544
Net Financial Liabilities	(398)	(122)	(32)	(13)	(318)	(883)
Total	800	82	34	7	(262)	661

### Sensitivity analysis between Indian Rupees and USD

Particulars	Year ended March 31,	
	2025	2024
Impact on the Company's incremental Operating Margins	0.34%	0.34%

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

### Derivative financial instruments

The Company holds derivative financial instruments such as foreign-exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. These derivative financial instruments are valued based on inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign exchange forward contracts:

Particulars	As at March 31,			
	2025		2024	
	In million	In ₹ crore	In million	In ₹ crore
Forward contracts				
In U.S. Dollars	148	1,268	150	1,253
In Euro	5	46	–	–
In Czech Koruna	176	64	374	135
In British Pounds	6	66	–	–
In Philippine Pesos	500	75	–	–
Total forwards		1,519		1,388

The foreign exchange forward contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the Balance Sheet date:

(In ₹ crore)

Particulars	As at March 31,	
	2025	2024
Not later than one month	681	1,179
Later than one month and not later than three months	838	209
	1,519	1,388

The quantitative information about offsetting of derivative financial assets and derivative financial liabilities is as follows:

(In ₹ crore)

Particulars	As at March 31,			
	2025		2024	
	Derivative financial asset	Derivative financial liability	Derivative financial asset	Derivative financial liability
Gross amount of recognized financial asset/liability	15	(2)	4	(2)
Amount set off	(2)	2	(2)	2
Net amount presented in the Balance Sheet	13	–	2	–

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 1,263 crore and ₹ 1,088 crore as March 31, 2025 and March 31, 2024, respectively and unbilled revenue amounting to ₹ 303 crore and ₹ 243 crore as at March 31, 2025 and March 31, 2024, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customers primarily located in the United States.

Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available

The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

The following table gives details in respect of percentage of revenues generated from top customer and top ten customers:

(In %)

Particulars	Years ended March 31,	
	2025	2024
Revenue from top customer	10%	11%
Revenue from top ten customers	43%	41%

### Credit risk exposure

The Company's credit period generally ranges from 30-75 days. The allowance/(reversals) for lifetime expected credit loss/(Gain) on customer balances is ₹1 crore and ₹(1) crore for the years ended March 31, 2025 and March 31, 2024, respectively.

(In ₹ crore)

Particulars	Years ended March 31,	
	2025	2024
Balance at the beginning	21	21
Provisions recognized / (reversed)	1	(1)
Write-offs	(5)	–
Translation differences	(1)	1
Balance at the end	16	21

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investment primarily include investment in liquid mutual fund units, fixed maturity plan securities, certificates of deposit, commercial papers, quoted bonds issued by the government and quasi government organizations, non-convertible debentures issued by government aided institutions.

## Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowing. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

As at March 31, 2025, the Company had a working capital of ₹ 1,753 crore, including cash and cash equivalents of ₹ 577 crore and current investments of ₹ 708 crore. As at March 31, 2024, the Company had a working capital of ₹ 1,881 crore including cash and cash equivalents of ₹ 295 crore and current investments of ₹ 1,111 crore.

As at March 31, 2025 and March 31, 2024, the outstanding compensated absences were ₹ 174 crore and ₹ 165 crore, respectively, which have been substantially funded. Accordingly, no liquidity risk perceived.

Refer to Note 2.2 for remaining contractual maturities of lease liabilities

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2025:

(In ₹ crore)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	95	–	–	–	95
Other financial liabilities (Refer to Note 2.12)	720	1	–	–	721

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2024:

(In ₹ crore)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	114	–	–	–	114
Other financial liabilities (Refer to Note 2.12)	701	–	–	–	701

## 2.11 Equity

### Accounting Policy

#### Ordinary Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

#### Description of Reserves

#### Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

#### Securities premium

The amount received in excess of the par value of equity shares has been classified as securities premium.

#### Special Economic Zone Re-Investment reserve

The Special Economic Zone Re-investment reserve has been created out of the profit of the eligible SEZ unit in terms of the provisions of Section 10AA(1)(ii) of Income Tax Act, 1961. The reserve should be utilized by the Company for acquiring new plant and machinery for the purpose of its business in terms of the provisions of the Section 10AA (2) of the Income Tax Act, 1961.

#### Other components of equity

Other components of equity consist of remeasurement of net defined benefit liability / (asset), equity instruments fair valued through other comprehensive income, changes on fair valuation of investments and changes in fair value of derivatives designated as cash flow hedges, net of taxes.

#### Equity share capital

(In ₹ crore, except as otherwise stated)		
Particulars	As at March 31,	
	2025	2024
Authorized		
Equity shares, ₹ 10,000/- par value		
1,23,375 (1,23,375) equity shares	123	123

Particulars	As at March 31,	
	2025	2024
Issued, Subscribed and Paid-Up		
Equity shares, ₹ 10,000/- par value		
33,828 (33,828) equity shares fully paid up	34	34
	34	34

The Company has only one class of shares referred to as equity shares having a par value of ₹ 10,000/-. Each holder of equity shares is entitled to one vote per share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts. However, no such preferential amounts exist currently.

The details of shareholder holding more than 5% shares as at March 31, 2025 and March 31, 2024 are set out below :

Name of the shareholder	As at March 31,			
	2025		2024	
	Number of shares	% held	Number of shares	% held
Infosys Limited (the holding company)	33,828	100.00	33,828	100.00

The details of shares held by promoters at the end of the year March 31, 2025 is set below :

Promoter name	No. of shares	% of total shares	% Change during the year
Infosys Limited, the holding company	33,828	100.00	–

The details of shares held by promoters at the end of the year March 31, 2024 is set out :

Promoter name	No. of shares	% of total shares	% Change during the year
Infosys Limited, the holding company	33,828	100.00	–

The reconciliation of the number of shares outstanding and the amount of share capital as at March 31, 2025 and March 31, 2024 is set out below:

Particulars	As at March 31,			
	2025		2024	
	Number of shares	Amount	Number of shares	Amount
Number of shares at the beginning of the period	33,828	34	33,828	34
Add: Shares issued during the period	–	–	–	–
Number of shares at the end of the period	33,828	34	33,828	34

## Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

The Company declares and pays dividends in Indian rupees. Companies are required to pay/distribute dividend after deducting applicable withholding income taxes.

The amount of per share ₹ 10,000/- par value (₹ 10,000/- par value) dividend recognized as distribution to equity shareholders is as follows:

Particulars	Years ended March 31,	
	2025	2024
Special Dividend for fiscal 2025	59,100	–
Interim Dividend for fiscal 2025	59,100	–
Final Dividend for fiscal 2024	1,33,000	–

(In ₹)

Particulars	Years ended March 31,	
	2025	2024
Special Dividend for fiscal 2024	–	1,47,000
Interim Dividend for fiscal 2024	–	1,77,000
Final Dividend for fiscal 2023	–	2,34,000

During the year ended March 31, 2025 on account of the final dividend for fiscal 2024 and interim & special dividend for fiscal 2025, the company has incurred a net cash outflow of approximately ₹850 crore.

The Board of Directors, in their meeting on April 15, 2025, recommended a final dividend of ₹103,000 /- per equity share for the financial year ended March 31, 2025. This payment is subject to approval of the shareholders in the ensuing Annual General Meeting (AGM) of the company and if approved, would result in a net cash outflow of approximately ₹350 crore.

Accrued defined benefit plan liability#	–	–
Total current other liabilities	360	288
Total other liabilities	361	289

# Amount represents less than ₹ 1 Crore

## 2.15 Provisions

### Accounting Policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

#### a. Post-sales client support

The Company provides its clients with a fixed-period post-sales support on its fixed-price, fixed-timeframe and time and material contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in Statement of Profit or Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

## b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Provision for post-sales client support and others as at March 31, 2025 and March 31, 2024 is as follows:

(In ₹ crore)		
Particulars	As at March 31,	
	2025	2024
Current		
Others		
Post-sales client support and others	26	29
Total provisions	26	29

Provision for post-sales client support and others are expected to be utilized over a period of six months to one year.

Provision for post-sales client support and others

The movement in the provision for post-sales client support and others is as follows :

(In ₹ crore)		
Particulars	As at March 31,	
	2025	2024
Balance at the beginning	29	22
Provision recognized / (reversed)	2	11
Provision utilized	(5)	(4)
Translation difference	-	-
Balance at the end	26	29

## 2.16 Income taxes

### Accounting Policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively

enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The Company offsets current tax assets and current tax liabilities; deferred tax assets and deferred tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to equity.

Income tax expense in the Statement of Profit and Loss comprises:

(In ₹ crore)		
Particulars	Years ended March 31,	
	2025	2024
Current taxes	256	202
Deferred taxes	(18)	44
Income tax expense	238	246

Income tax expense for the years ended March 31, 2025 and March 31, 2024 includes reversal (net of provision) of ₹15 crore and reversal (net of provisions) of ₹60 crore respectively, pertaining to earlier periods. These reversals pertain to prior periods on account of adjudication of certain disputed matters in favor of the Company and upon filing of return across various jurisdictions.

Deferred income tax for the years ended March 31, 2025 and March 31, 2024 substantially relates to origination and reversal of temporary differences.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In ₹ crore)		
Particulars	Years ended March 31,	
	2025	2024
Profit before income taxes	1,011	1,045
Enacted tax rates in India	25.17%	25.17%
Computed expected tax expense	254	263
Overseas taxes	9	13

Particulars	Years ended March 31,	
	2025	2024
Tax provision (reversals)	(15)	(60)
Effect of exempt non-operating income	–	(13)
Effect of non-deductible expenses	7	4
Effect of non-utilization / (utilization)" of SEZ reserve	(9)	35
Others	(8)	4
Income tax expense	238	246

The applicable Indian corporate statutory tax rates for fiscal 2025 and 2024 is 25.17% and 25.17% respectively.

The provision for taxation includes tax liabilities in India on the company's global income as reduced by exempt incomes and any tax liabilities arising overseas on income sourced from those countries as per Indian Income Tax Act, 1961.

The details of income tax assets and income tax liabilities as of March 31, 2025 and March 31, 2024:

Deferred income tax assets/(liabilities)					
Property, plant and equipment	27	1	–	–	28
Lease liabilities	25	6	–	–	31
Compensated absences	42	3	–	–	45
Trade receivables	5	(1)	–	–	4
Derivative Financial instruments	–	(3)	–	–	(3)
Unutilized SEZ	(58)	9	–	–	(49)
Others	4	3	–	–	7
Total deferred tax assets/(Liabilities)	45	18	–	–	63

The movement in gross deferred income tax assets and liabilities (before set off) for the year ended March 31, 2024 is as follows:

Particulars	(In ₹ crore)				
	Carrying Value as on April 01, 2023	Changes through Profit & Loss	Changes through OCI	Translation difference	Carrying Value as on March 31, 2024
Deferred income tax assets/(Liabilities)					
Property, plant and equipment	23	4	–	–	27
Lease liabilities	25	–	–	–	25
Compensated absences	39	3	–	–	42
Trade receivables	6	(1)	–	–	5
Derivative Financial Instruments	(0)	–	–	–	–

Particulars	Carrying Value as on April 01, 2023	Changes through Profit & Loss	Changes through OCI	Translation difference	Carrying Value as on March 31, 2024
Unutilized SEZ	(23)	(35)	–	–	(58)
Others	19	(15)	–	–	4
Total deferred tax assets/(Liabilities)	89	(44)	–	–	45

Deferred income tax assets have not been recognized on accumulated losses of ₹ 870 crore and ₹ 700 crore as at March 31, 2025 and March 31, 2024, respectively as it is probable that future taxable profit will not be available against which the unused tax losses can be utilized in the foreseeable future. Majority of the accumulated losses as at March 31, 2025 will expire in financial year 2033.

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The credits relating to temporary differences during the years ended March 31, 2025 and March 31, 2024 are primarily on account of property, plant and equipment, compensated absences, lease liability and others partially offset by reversal of credits pertaining to derivative financial instruments.

Deferred income tax liabilities have not been recognized on the temporary difference related to investment in subsidiaries

to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable considerations, including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material contracts and unit of work-based contracts are recognized as the related services are performed. Fixed-price business process management services revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time, is recognized using the percentage-of-completion method. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the lives of the contracts and are recognized in profit or loss in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

## 2.17 Revenue from operations

### Accounting Policy

The Company derives revenue primarily from business process management services. Arrangements with customers for business process management services are either on a fixed-timeframe, unit of work or on a time-and-material basis.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as

Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two distinct separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the Company uses the expected cost plus margin approach in estimating the standalone selling price. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it controls the good or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or services and therefore is acting as a principal or an agent.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Company expects to recover them. Certain eligible, nonrecurring costs (e.g. set-up or transition or transformation costs) that do not represent a separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Company that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered.

Such Capitalized contract costs relating to upfront payments to customers are amortized to revenue and other capitalized costs are amortized to expenses over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates. Capitalized costs are monitored regularly for impairment. Impairment losses are recorded when present value of projected remaining operating cash flows is not sufficient to recover the carrying amount of the capitalized costs.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenue from operations for the and years ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In ₹ crore)	
	Years ended March 31,	
	2025	2024
Income from business process management services	8,501	7,892
	8,501	7,892

The percentage of revenue from fixed-price contracts for each of the years ended March 31, 2025 and March 31, 2024 is approximately 15.5% and 15.6%.

### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in Receivables, Unbilled Revenue, and Unearned Revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

Receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed-price business process management services are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-time frame contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore unbilled revenues for other fixed timeframe contracts are classified as non-financial asset (contract asset) because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the years ended March 31, 2025 and March 31, 2024, the company recognized revenue of ₹ 144 crore and ₹ 167 crore arising from opening unearned revenue as of April 1, 2025 and April 1, 2024 respectively.

During the years ended March 31, 2025 and March 31, 2024, ₹ 19 crore and ₹ 40 crore of unbilled revenue pertaining to fixed-price development contracts as of April 1, 2025 and April 1, 2024 respectively has been reclassified to Trade receivables upon billing to customers on completion of milestones.

### Remaining performance obligations disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation

estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revaluations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 2025, other than those meeting the exclusion criteria mentioned above is ₹ 3,014 crore. Out of this, the Group expects to recognize revenue of around 30% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2024 was ₹2,241 crore. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause

## 2.18 Other income, net

### Accounting Policy

#### 2.18.1 Other Income

Other income is comprised primarily of interest income, dividend income and gain/loss on investments and exchange gain/loss on forward and options contracts and on translation of foreign currency assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

#### 2.18.2 Foreign Currency

##### a. Functional currency

The functional currency of the Company is the Indian rupee. These standalone financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

##### b. Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss and reported within exchange gains/(losses) on translation of assets and liabilities, net. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Other Comprehensive Income, net of taxes includes translation differences on non-monetary financial assets measured at fair value at the reporting date, such as equities classified as financial instruments and measured at fair value through other comprehensive income (FVOCI).

Other income for the years ended March 31, 2025 and March 31, 2024 is as follows:

(In ₹ crore)

Particulars	Years ended March 31,	
	2025	2024
Interest income on financial assets carried at amortized cost

## 2.20 Employee benefits

### Accounting Policy

#### 2.20.1 Gratuity

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary at each Balance Sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the Infosys BPM Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation of India as permitted by Indian Law.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/asset are recognized in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profits in the Statement of Profit and Loss.

The Company provides for Minimum mandated retirement benefit scheme under Republic Act 7641 (R.A. 7641) covering eligible employees in Philippines. The R.A. 7641 scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on retirement. During the year ended March 31, 2025 and March 31, 2024, the company recognized net defined liability of ₹ 1 crore and ₹ 1 crore respectively (Refer to Note 2.14).

#### 2.20.2 Superannuation

Certain employees of the Company are participants in a defined contribution plan. The Company has no further obligations to the superannuation plan beyond the monthly contribution to the Infosys BPM Limited Employees' Superannuation Fund Trust, the corpus of which is invested with the Life Insurance Corporation of India.

#### 2.20.3 Pension

Certain employees of the Company are participants in a defined contribution plan. The Company has no further obligations to the pension plan beyond the monthly contributions.

#### 2.20.4 Provident fund

Eligible employees of the Company are participants in defined contribution plan. The Company has no further obligations under the provident fund plan beyond its monthly contributions. The fund amount is contributed to the government administered pension fund.

#### 2.20.5 Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified. The Company will assess the impact of the Code when it comes

into effect and will record any related impact in the period the Code becomes effective.

#### (a) Gratuity

The funded status of the gratuity plan and the amounts recognized in the Company's financial statements as of March 31, 2025 and March 31, 2024 is as follows:

(In ₹ crore)		
Particulars	As at March 31,	
	2025	2024
Change in benefit obligations		
Benefit obligations at the beginning	177	154
Service cost	19	18
Interest expense	12	10
Transfer of obligation	(3)	(2)
Remeasurements - Actuarial losses	19	13
Benefits paid	(17)	(16)
Benefit obligations at the end	207	177
Change in plan assets		
Fair value of plan assets at the beginning	181	160
Interest income	13	11
Transfer of employees	(4)	(2)
Remeasurements - Return on plan assets excluding amounts included in interest income	2	2
Contributions	51	26
Benefits paid	(17)	(16)
Fair value of plan assets at the end	226	181
Funded status	19	4
Prepaid gratuity asset	19	4

The amount for the years ended March 31, 2025 and March 31, 2024 recognized in the Statement of Profit and Loss under employee benefit expenses are as follows

(In ₹ crore)		
Particulars	Years ended March 31,	
	2025	2024
Service cost	19	18
Net interest on the net defined benefit liability/(asset)	(1)	(1)
Net gratuity cost	18	17

The amount for the years ended March 31, 2025 and March 31, 2024 recognized in the Statement of Other Comprehensive Income are as follows:

(In ₹ crore)		
Particulars	Years ended March 31,	
	2025	2024
Remeasurements of the net defined benefit liability/ (asset)		

Particulars	Years ended March 31,	
	2025	2024
Actuarial losses	19	13
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	(2)	(2)
	17	11

(In ₹ crore)		
Particulars	Years ended March 31,	
	2025	2024
(Gain)/loss from change in demographic assumptions	-	-
(Gain)/loss from change in financial assumptions	-	1
(Gain)/loss from change in experience assumptions	20	12
	20	13

The weighted-average assumptions used to determine benefit obligations as of March 31, 2025 and March 31, 2024 are set out below:

Particulars	As at March 31,	
	2025	2024
Discount rate	6.5%	7.0%
Weighted average rate of increase in compensation levels	7.5%	7.5%
Weighted average duration of defined benefit obligation	5.7 years	5.8 years

The weighted-average assumptions used to determine net periodic benefit cost for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	Years ended March 31,	
	2025	2024
Discount rate	6.5%	7.1%
Weighted average rate of increase in compensation levels	7.5%	7.5%

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

Sensitivity of significant assumptions used for valuation of defined benefit obligations

(In ₹ crore)		
Impact of percentage point increase/decrease in	As at March 31,	
	2025	2024
Discount rate	5	4
Weighted average rate of increase in compensation level	5	4

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant.

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

The Company contributes all ascertained liabilities towards gratuity to the Infosys BPM Limited Employees' Gratuity Fund Trust. Trustees administer contributions made to the trust. As of March 31, 2025 and March 31, 2024, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for the years ended March 31, 2025 and March 31, 2024 were ₹ 11 crore and ₹ 13 crore respectively.

The Company expects to contribute ₹15 crore to the gratuity trusts during the fiscal 2026.

Maturity profile of defined benefit obligation:

	(In ₹ crore)
Within 1 year	65
1-2 year	49
2-3 year	38
3-4 year	28
4-5 year	20
5-10 years	39

#### (b) Superannuation

The Company contributed ₹ 11 crore to the Superannuation Trust for the year ended March 31, 2025 (₹ 11 crore for the year ended March 31, 2024).

#### (c) Provident fund

The Company contributed ₹ 126 crore towards Provident Fund for the year ended March 31, 2025 (₹ 118 crore for the year ended March 31, 2024).

#### (d) Pension Fund

The Company contributed ₹ 10 crore to pension funds for the year ended March 31, 2025 (₹ 11 crore for the year ended March 31, 2024).

## 2.21 Reconciliation of basic and diluted shares used in computing earnings per share

Accounting Policy

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits, reverse share splits and bonus shares issues, including for changes effected prior to the approval of the financial statements by the Board of Directors.

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

	(In ₹ crore)	
Particulars	As at March 31,	
	2025	2024
Basic earnings per equity share	33,828	33,828
- weighted average number of equity shares outstanding		
Effect of dilutive common equivalent shares	—	—
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	33,828	33,828

## 2.22 Contingent liabilities and commitments (to the extent not provided for)

Accounting Policy

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

### 2.22.1 Contingent liability

	(In ₹ crore)	
Particulars	As at March 31,	
	2025	2024
Contingent liabilities :		
Claims against the Company, not acknowledged as debts <sup>(1)</sup>	631	461
[Amount paid to statutory authorities ₹ 69 crore (₹158 crore)]		
Commitments :		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	22	58

<sup>(1)</sup> As at March 31, 2025 and March 31, 2024, claims against the Company not acknowledged as debts in respect of income tax matters amounted to ₹223 crore and ₹178 crore, respectively.

The claims against the Company majorly represent demands arising on completion of assessment proceedings under the Income Tax Act, 1961. These claims are on account of multiple issues of disallowances such as disallowance of expenditure towards software being held as capital in

nature, disallowance under section 80G, disallowance on account of denial of certain foreign tax credit among others.

The Company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management reasonably expects that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

Amount paid to statutory authorities against the tax claims amounted to ₹69 crore and ₹158 crore as at March 31, 2025 and March 31, 2024, respectively.

<sup>(2)</sup> Capital contracts primarily comprises commitments for infrastructure, facilities and computer equipments.

## 2.22.2 Legal Proceedings

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management reasonably expects that these legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company's results of operations or financial condition."

The Company presents its standalone financial statements along with the consolidated financial statements. In accordance with Ind AS 108, Operating Segments, the Company has disclosed the segment information in the consolidated financial statements.

## 2.25 Corporate social responsibility

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. The areas for CSR activities are eradication of hunger and malnutrition, promoting education and healthcare and rural development projects. A CSR committee has been formed by the company as per the Act. The funds were primarily allocated to a corpus and utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013.

(In ₹ crore)

S.No	Particulars	As at March 31,	
		2025	2024
i)	Gross amount required to be spent by the company during the year	20	19
ii)	Amount approved by the Board to be spent during the year	20	19
ii)	Amount of expenditure incurred	20	19
	- Creation/ acquisition of a capital asset	-	-
	- On purposes other than above (Paid in Cash)	20	19
iii)	Shortfall at the end of the year	-	-
iv)	Total of previous years shortfall	-	-
v)	Reason for shortfall	Not applicable	Not applicable
vi)	Nature of CSR activities	Promoting healthcare including preventive healthcare, Eradicating hunger, poverty and sanitation programs, Promoting education, enhancing vocational skills, Rural development.	
vii)	Details of related party transactions, e.g., contribution to a trust controlled by the company in relation to CSR expenditure as per relevant Accounting Standard <sup>(1)</sup>	18	18
viii)	Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	-	-

<sup>(1)</sup> Effective January 1, 2022, Infosys Foundation a trust jointly controlled by the KMP of Infosys Limited is a related party. The Company has made contributions to Infosys foundation to fulfil its corporate social responsibilities. Infosys Foundation supports programs in the areas of education, rural development, healthcare, arts and culture, and destitute care.

## 2.26 Analytical ratios

The following are certain analytical ratios for the year ended March 31, 2025 and March 31, 2024:

Particulars	Numerator	Denominator	Years ended March 31,		% of Variance
			2025	2024	
Current Ratio	Current assets	Current liability	2.1	2.3	(9.0%)
Debt – Equity Ratio	Total Debt <sup>(1)</sup>	Shareholder's Equity	0.2	0.2	25.7%*
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	7.8	8.1	(3.4%)
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	23.3%	20.5%	13.7%
Trade receivables turnover ratio	Net Credit Revenue	Average Accounts Receivable	7.2	7.4	(1.8%)
Trade payables turnover ratio	Net Credit Purchase of services/consumables	Average Trade Payables	13.0	13.1	(0.5%)
Net capital turnover ratio	Net Sales	Working Capital	4.8	4.2	15.6%
Net profit ratio	Net Profit	Net Sales	9.1%	10.1%	(10.2%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	26.5%	27.6%	(3.8%)
Return on Investment					
Unquoted	Income from investments	Time weighted average investments	8.5%	7.9%	8%
Quoted	Income from investments	Time weighted average investments	7.6%	7.5%	1.4%

Note: Percentage of Variance is calculated based on absolute numbers.

<sup>(1)</sup> Debt represents lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + Deferred tax liabilities + Lease liabilities

\* During the year ended March 31, 2025, there is a variance of more than 25% compared to previous year due to following reason :

- Increase in Debt-Equity Ratio is due to addition in lease liability due to addition in space leased

## 2.27 Relationship with struck off companies

There are no transactions with struck off companies for the year ending March 31, 2025 and March 31, 2024.

## 2.28 Function wise classification of statement of profit and loss

(In ₹ crore)

Particulars	Note No.	Years ended March 31,	
		2025	2024

## Infosys McCamish Systems, LLC

# Independent Auditor's Report

To the Board of Directors of Infosys BPM Limited

## Report on the Audit of the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS MCCAMISH SYSTEMS LLC ("the Company"), which comprise the Balance Sheet as at December 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements give a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing ("SA"s) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the special purpose financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Emphasis of Matter

We draw attention to Note 1.2 to the special purpose financial statements, which describes the purpose and the basis of preparation. As a result, the special purpose financial statements may not be suitable for another purpose. Our report is intended solely for the use of Company's management for the above purpose and should not be distributed to or used by any other parties. We neither accept nor assume any duty, responsibility or liability to any other party or for any other purpose.

### Our opinion is not modified in respect of this matter.

Responsibilities of Management and Board of Directors for the Special Purpose Financial Statements

The Company's Board of Directors is responsible for the preparation and presentation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Notes to the financial statements

## 1. Overview

### 1.1 Company overview

Infosys McCamish Systems LLC, ("the Company") is a platform-based business process outsourcer (BPO) that provides end-to-end administrative services to the financial services industry in support of life insurance and annuity products, non-qualified retirement plans and the distribution organizations that sell these products as part of core services. The Company leverages its suite of proprietary intellectual property and deep domain expertise to provide services through a myriad of deployment options including comprehensive BPO, SaaS (Software as a Service), license and other hybrid service models. The Company's clients, which include many of the largest financial services companies in the United States of America (United States / USA / US) and a growing number outside of the United States, hire the Company to support single products, a single line of business or the client's entire product portfolio. The Company along with its Group companies also provides technology, outsourcing and software solutions to its clients.

The Company was formed in December 1994 as a limited liability company under the provisions of the Georgia Limited Liability Company Act, limited by member's interest. The Company was acquired by Infosys BPM Limited (formerly Infosys BPO Limited), a subsidiary of Infosys Limited, on December 4, 2009. The terms of formation were specified by the operating agreement of the Company. The Company will continue until December 31, 2060, unless terminated earlier pursuant to the terms of the operating agreement.

The financial statements are approved by the Company's Board of Directors on May 15, 2025.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the holding company, Infosys BPM Limited, and the ultimate holding company, Infosys Limited, under the requirements of Section 129 (3) of the Companies Act, 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ("the Act") (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The functional currency of the company is United States Dollars ("US Dollars") and the financial statements are also presented in US Dollars. All amounts included in the financial statements are reported in US Dollars, unless otherwise stated.

Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly issued accounting standard is initially adopted or a revision to an

existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the financial statements have been disclosed in Note 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Critical accounting estimates

#### a. Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

Fixed-price business process management services revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price business process management services contract is recognized ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the business process management revenues services requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. The use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the

period of the contract to reflect any changes based on the latest available information.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. Also, refer to Note 2.16.

**b. Income taxes**

The Company’s tax jurisdiction is United States of America. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. Also, refer to Note 2.15.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

**c. Property, plant and equipment**

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset’s expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company’s assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. Also, refer to Note 2.1.

**2.1 Property, plant and equipment**

**Accounting policy**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment	5 years
Plant and machinery <sup>(1)</sup>	5 years
Leasehold improvements	Over the lease term or 5 years, whichever is lower

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under ‘Capital work-in-progress’. Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

**Impairment**

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell or the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In US\$)

Particulars	Leasehold improvement	Plant and machinery	Office equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as at January 1, 2024	3,791,348	24,600	339,085	12,644,333	846,865	17,646,231

Carrying value as at January 1, 2023	940,964	21,459	55,798	2,847,496	195,012	4,060,729

The aggregate depreciation has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## 2.2 Leases

### Accounting policy

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and computer equipment. The Company assesses whether a contract contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset; (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease; and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a Right-Of-Use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined as CGU to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

### The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease substantially transfer all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a financing or operating lease by reference to the ROU asset arising from the head lease.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

The changes in the carrying value of ROU assets for the year ended December 31, 2024 are as follows:

Particulars	Category of ROU asset on buildings		Total
	Buildings	Computers	
Balance as of January 1, 2024	8,347,783	73,763,209	82,110,992
Additions / modifications*	(2,701,722)	21,128,182	18,426,460
Deletions	–	(5,343,728)	(5,343,728)
Amortization	(1,037,837)	(24,806,106)	(25,843,943)
Balance as of December 31, 2024	4,608,224	64,741,557	69,349,781

\*Net of adjustments on account of partial termination of lease space

The changes in the carrying value of ROU assets for the year ended December 31, 2023 were as follows:

Particulars	Category of ROU asset on buildings		Total
	Buildings	Computers	
Balance as of January 1, 2023	9,603,723	48,837,962	58,441,685
Additions	–	55,661,134	55,661,134
Deletions	–	(10,469,734)	(10,469,734)
Amortization	(1,255,940)	(20,266,153)	(21,522,093)
Balance as of December 31, 2023	8,347,783	73,763,209	82,110,992

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The break-up of current and non-current lease liabilities as at December 31, 2024 is as follows:

(In US\$)	
Particulars	Amount
Non-current lease liabilities	58,864,223
Current lease liabilities	40,040,383
<b>Total</b>	<b>98,904,606</b>

The break-up of current and non-current lease liabilities as at December 31, 2023 was as follows:

(In US\$)	
Particulars	Amount
Non-current lease liabilities	76,912,705
Current lease liabilities	32,764,782
<b>Total</b>	<b>109,677,487</b>

The movement in lease liabilities during the year ended December 31, 2024 is as follows:

(In US\$)	
Particulars	Amount
Balance as of January 1, 2024	109,677,487
Additions	18,728,133
Deletions	-
Finance cost accrued during the period	4,436,065
Payment of lease liabilities	(33,937,079)
<b>Balance as of December 31, 2024</b>	<b>98,904,606</b>

The movement in lease liabilities during the year ended December 31, 2023 was as follows:

(In US\$)	
Particulars	Amount
Balance as of January 1, 2023	72,966,264
Additions	55,661,134
Deletions	(1,520,935)
Finance cost accrued during the period	3,694,124
Payment of lease liabilities	(21,123,100)
<b>Balance as of December 31, 2023</b>	<b>109,677,487</b>

The details regarding the contractual maturities of lease liabilities as at December 31, 2024 on an undiscounted basis are as follows:

(In US\$)	
Particulars	Amount
Less than one year	36,341,193
One to five years	62,346,498
More than five years	569,803
<b>Total</b>	<b>99,257,494</b>

The details regarding the contractual maturities of lease liabilities as at December 31, 2023 on an undiscounted basis were as follows:

(In US\$)	
Particulars	Amount
Less than one year	31,283,576
One to five years	79,086,428
More than five years	2,279,211
<b>Total</b>	<b>112,649,215</b>

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The following is the movement in the net investment in lease during the year ended December 31, 2024 and December 31, 2023:

(In USD)		
Particulars	Year ended December 31	
	2024	2023
Balance as of January 1, 2024	1,179,378	1,426,240
Additions	-	-
Interest accrued during the period	7,010	10,939
Others	(62,951)	(39,325)
Lease Receipts	(174,648)	(218,475)
<b>Balance as of December 31, 2024</b>	<b>948,789</b>	<b>1,179,378</b>

## 2.3 Other intangible assets

### Accounting policy

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

### Impairment

Intangible assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell or the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of acquired intangible assets for the year ended December 31, 2024 is as follows:

(In US\$)	
Particulars	Software
Gross carrying value as of January 1, 2024	3,300,000
Additions during the year	–
Deletions during the year	–
Gross carrying value as of December 31, 2024	3,300,000
Accumulated amortization as of January 1, 2024	2,530,957
Amortization expense	400,824
Deletion during the year	–
Accumulated amortization as of December 31, 2024	2,931,781
Carrying value as of December 31, 2024	368,219
Carrying value as of January 1, 2024	769,043
Total estimated useful life (in years)	5

The changes in the carrying value of acquired intangible assets for the year ended December 31, 2023 was as follows:

(In US\$)	
Particulars	Software
Gross carrying value as of January 1, 2023	3,300,000
Additions during the year	–
Deletions during the year	–
Gross carrying value as of December 31, 2023	3,300,000
Accumulated amortization as of January 1, 2023	2,131,781
Amortization expense	399,176
Deletion during the year	–
Accumulated amortization as of December 31, 2023	2,530,957
Carrying value as of December 31, 2023	769,043
Carrying value as of January 1, 2023	1,168,219
Total estimated useful life (in years)	5

The amortization expense has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## 2.4 Loans

(In US\$)		
Particulars	As at December 31,

## 2.7 Cash and cash equivalents

(In US\$)

Particulars	As at December 31,	
	2024	2023
Balances with banks		
In current and deposit accounts <sup>1</sup>	248,270,365	70,092,706
	248,270,365	70,092,706

Cash and cash equivalents as at December 31, 2024 and December 31, 2023 include restricted bank balance of US\$ 493,879 and US\$ 7,939, respectively. This represents restricted bank balance, in trust account, in accordance with collection agency licensing requirements.

## 2.8 Other assets

(In US\$)

Particulars	As at December 31,	
	2024	2023
Non-current		
Prepaid expenses	4,055,431	10,645,814
Unbilled revenues <sup>(1)</sup>	30,199	1,332,852
Deferred contract cost		
Cost of obtaining a contract	696,233	2,267,111
Cost of fulfilling a contract	3,749,072	696,448
Total non-current other assets	8,530,935	14,942,225
Current		
Advances other than capital advance		
Payment to vendors for supply of goods	5,074	32,600
Others		
Prepaid expenses	16,650,567	61,361,230
Unbilled revenues <sup>(1)</sup>	1,001,569	20,548,104
Deferred contract cost		
Cost of obtaining a contract	1,656,049	1,593,028
Cost of fulfilling a contract	1,986,783	3,311,544
Withholding taxes and others	79,911	114,950
Others	1,724,101	1,741,275
Total current other assets	23,104,054	88,702,731
Total other assets	31,634,989	103,644,956

<sup>(1)</sup> Classified as non-financial asset as contractual right to consideration is dependent on completion of contractual milestones.

## 2.9 Financial instruments

### Accounting policy

#### 2.9.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 2.9.2 Subsequent measurement

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

### (iii) Financial assets at fair value through profit or loss

A financial asset that is not classified in any of the above categories is subsequently fair valued through profit or loss.

### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit or loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 2.9.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

## 2.9.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 2.9.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenues, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in Statement of Profit and Loss.

## Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

Particulars	(In US\$)	
	As at December 31,	
	2024	2023
<b>Assets</b>		
Cash and cash equivalents (Refer to Note 2.7)	248,270,365	70,092,706
Trade receivables (Refer to Note 2.6)	89,938,739	85,500,947
Loans (Refer to Note 2.4)	47,484,031	46,786,257
Other financial assets (Refer to Note 2.5)	112,409,180	141,078,235
<b>Total</b>	<b>498,102,315</b>	<b>343,458,145</b>
<b>Liabilities</b>		
Trade payables (Refer to Note 2.12)	25,003,957	40,924,179
Borrowings (Refer to Note 2.11)	158,537,306	–
Lease liabilities (Refer to Note 2.2)	98,904,606	109,677,487
Other financial liabilities (Refer to Note 2.11)	146,832,718	187,707,906
<b>Total</b>	<b>429,278,587</b>	<b>338,309,572</b>

All the above financial assets and financial liabilities are carried at amortized cost and the carrying values approximate their fair values.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: Market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to US\$ 89,938,739 and US\$ 85,500,947 as at December 31, 2024 and December 31, 2023, respectively. Trade receivables are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables. The provision matrix takes into account available external and internal credit risk

factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

The details in respect of percentage of revenues generated from top customer and top 10 customers are as follows:

Particulars	(In %)	
	Year ended December 31,	
	2024	2023
Revenue from top customer	17%	16%
Revenue from top 10 customers	65%	71%

#### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances is US\$ 4,215,132 and US\$ 4,432,138 for the years ended December 31, 2024 and December 31, 2023, respectively.

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Balance at the beginning	6,210,674	5,661,460
Provisions recognized / (reversed)	(1,540,383)	550,233
Amounts written off	–	(1,019)
Balance at the end	4,670,291	6,210,674

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks with high credit ratings assigned by credit rating agencies.

#### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents. The Company has outstanding borrowings in the form of cash-pooling loans with outstanding balance of US\$ 158,537,306 as at December 31, 2024. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

As of December 31, 2024, the Company has a working capital of US\$ 14,905,496 including cash and cash equivalents of US\$ 248,270,365. As of December 31, 2023, the Company has a working capital of US\$ 16,276,008 including cash and cash equivalents of US\$ 70,092,706.

Refer to Note 2.2 for remaining contractual maturities of lease liabilities.

The details regarding the contractual maturities of significant financial liabilities as at December 31, 2024 are as follows:

(In US\$)

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	25,003,957	–	–	–	25,003,957
Borrowings	158,537,306	–	–	–	158,537,306
Other financial liabilities (Refer to Note 2.11)	146,832,718				146,832,718

The details regarding the contractual maturities of significant financial liabilities as at December 31, 2023 were as follows:

(In US\$)

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	40,924,179	–	–	–	40,924,179
Other financial liabilities (Refer to Note 2.11)	187,707,906	–	–	–	187,707,906

## 2.10 Equity

As at December 31, 2024, the Company had one member, Infosys BPM Limited (“the Member”). The Member owns 100% of the interests of the Company. Upon liquidation, dissolution or winding-up of the Company, the Member is entitled to receive 100% of the available net assets of the Company. No contribution was made during the year ended December 31, 2024.

## 2.11 Other financial liabilities

Total current other liabilities	57,679,389	57,320,726
Total other liabilities	57,679,389	57,320,726

## 2.14 Provisions

### Accounting policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

#### a. Post-sales client support

The Company provides its clients with a fixed-period, post-sales support on its fixed-price, fixed-timeframe and time-and-material contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

#### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

The provision for post-sales client support and others as at December 31, 2024 and December 31, 2023 is as follows:

Particulars	(In US\$)	
	As at December 31,	
	2024	2023
Others		
Post-sales client support and others	9,556,870	11,795,112
Total provisions	9,556,870	11,795,112

Provision for post-sales client support and others

The movement in the provision for post-sales client support and others is as follows:

Particulars	(In US\$)	
	As at December 31,	
	2024	2023
Balance at the beginning	11,795,112	154,916
Provision recognized / (reversed)	626,803	12,274,172
Provision utilized	(2,865,045)	(633,976)
Balance at the end	9,556,870	11,795,112

## 2.15 Income taxes

### Accounting policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

Income tax expense in the statement of profit and loss comprises:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Current taxes	584,998	14,316,720
Deferred taxes	(4,934,889)	(7,427,934)
Income tax expense	(4,349,891)	6,888,786

Income tax expense for the years ended December 31, 2024 and December 31, 2023 includes true-up of additional provisions of US\$ 576,935 and US\$ 2,779,613 respectively, pertaining to earlier periods.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Profit before incomes taxes	(17,472,320)	17,548,586
Statutory tax rate	21%	21%
Computed expected tax expense	(3,669,187)	3,685,203
State taxes	(846,200)	927,523
Disallowed items	6,878	5,865
Deferred tax impact on ROU and lease liabilities	–	(361,095)
Effect of true-up of previous year taxes	574,998	2,779,613
Other adjustments	(416,380)	(148,323)
Income tax expense	(4,349,891)	6,888,786

The applicable US federal tax rates for 2024 and 2023 are 21% and 21%, respectively.

The details of income tax assets and income tax liabilities as of December 31, 2024 and December 31, 2023 are as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Income tax assets	8,511,427	15,821,865
Current income tax liabilities	(3,523,657)	(12,112,368)
Net income tax assets / (liabilities) at the end	4,987,770	3,709,497

The gross movement in the current income tax asset / (liability) for the years ended December 31, 2024 and December 31, 2023 is as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Net income tax assets / (liabilities) at the beginning	3,709,497	(762,006)
Income tax paid, net of refunds	1,863,271	18,788,223
Income tax expense	(584,998)	(14,316,720)
Net income tax assets / (liabilities) at the end	4,987,770	3,709,497

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended December 31, 2024 is as follows:

Particulars	(In US\$)			
	Carrying value as on January 01, 2024	Changes through profit and loss	Changes through OCI	Carrying value as on December 31, 2024
Deferred tax assets / (liabilities)				
Post-sales client support	4,396,127	(1,222,185)	–	3,173,942
Accrued compensation	243,276	6,988	–	250,264
Deferred tax on accumulated losses	–	5,262,936	–	5,262,936
Accrued vacation	194,115	(9,730)	–	184,385
Unearned revenue	4,246,864	92,709	–	4,339,573
Trade receivables	1,599,835	(379,770)	–	1,220,065
Deferred tax impact on ROU assets and lease liabilities	5,872,758	489,590	–	6,362,348
Property, plant and equipment	56,013	(82,534)	–	(26,521)
Accruals including contingent consideration reversal	(2,496,000)	–	–	(2,496,000)
Others	261,939	776,884	–	1,038,823
Total deferred tax assets / (liabilities)	14,374,927	4,934,889	–	19,309,816

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended December 31, 2023 is as follows:

Particulars	(In US\$)			
	Carrying value as on January 01, 2023	Changes through profit and loss	Changes through OCI	Carrying value as on December 31, 2023
Deferred tax assets / (liabilities)				
Post-sales client support	1,482,763	2,913,364	–	4,396,127
Accrued compensation	253,966	(10,690)	–	243,276
Deferred rent	–	–	–	–
Accrued vacation	170,439	23,676	–	194,115
Unearned revenue	2,940,748	1,306,116	–	4,246,864
Trade receivables	1,458,787	141,048	–	1,599,835
Deferred tax impact on ROU assets and lease liabilities	2,880,773	2,991,985	–	5,872,758
Property, plant and equipment	(248,159)	304,172	–	56,013
Accruals including contingent consideration reversal	(2,496,000)	–	–	(2,496,000)
Others	503,676	(241,737)	–	261,939
Total deferred tax assets / (liabilities)	6,946,993	7,427,934	–	14,374,927

The ultimate realization of deferred tax assets is dependent upon the Management's assessment of the Company's ability to generate taxable income during the periods in which the temporary differences become deductible. The Management's assessment in the near term is subject to change if estimates of future taxable income during the carry forward period are reduced.

In assessing the realizability of deferred tax assets, the Management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Management considers the scheduled reversals of deferred tax liabilities, projected future taxable income, and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, the Management believes that it is more likely than not that the Company will realize the benefit of any deductible differences at December 31, 2024.

## 2.16 Revenue from operations

### Accounting policy

The Company is a leading developer of solutions and services in the insurance industry. The Company offers flexible solutions through business process management, software-as-a-service, and license models. The Company leverages its proprietary VPAS®, PMACS®, NGIN and Deferral+® platforms, as well as VPAS® BPA, to offer the retirement and financial services industries integrated sales and administration support solutions. The Company, along with its Group companies, also provides technology, outsourcing and software solutions to its clients.

Contracts with customers are either on a time-and-material, unit-of-work, or on a fixed-timeframe basis.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material and unit-of-work-based contracts are recognized as the related services are performed. Fixed-price business process management services revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue from other fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the lives of the contracts and are recognized in profit or loss in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period.

Arrangements to deliver software products generally have three elements: License, implementation and Annual Technical Services (ATS). When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two distinct separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the Company uses the expected-cost-plus-margin approach in estimating the standalone selling price. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software

products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

Contracts with customers include third-party software in certain integrated services arrangements. In these types of arrangements, revenue from sale of third-party software licenses is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it controls the goods or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or service and therefore is acting as a principal or an agent.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Company expects to recover them. Certain eligible, non-recurring costs (e.g. set-up or transition or transformation costs) that do not represent a separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Company that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered. Such capitalized contract costs are amortized over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

### Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers for the years ended December 31, 2024 and December 31, 2023 by offerings. The Company believe that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Revenue by offerings		
Core services	68,387,292	49,716,277
Sale of third-party software solution and other services	310,950,198	384,763,100
Total	379,337,490	434,479,377

### Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

Receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed price business process management services are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-timeframe contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed-timeframe contracts are classified as non-financial asset (contract asset) because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue. Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

### Remaining performance obligations disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit-of-work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above is US\$ 290,438,239. Out of this, the Group expects to recognize revenue of around 37% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023 was US\$ 351,776,752. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.17 Other income, net

### Accounting policy

#### 2.17.1 Other income

Other income is comprised primarily of interest income, exchange gain / loss on translation of other assets and liabilities.

#### 2.17.2 Foreign currency

##### a. Functional currency

The functional currency of the Company is the United States Dollars. The financial statements are presented in United States Dollars.

##### b. Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and

non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Other income for the years ended December 31, 2024 and December 31, 2023 is as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Exchange gains / (losses) on translation of other assets and liabilities	550,898	115,610
Interest income on bank and others	10,266,574	5,896,101
Miscellaneous income	1,702,915	1,238,421
	12,520,387	7,250,132

## 2.18 Expenses

Particulars	(In US\$)

	2024	2023
Commitments		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits)	426,245	740,467

The Company is currently not involved in any significant lawsuits, claims, investigations and proceedings except in relation to the cybersecurity incident, including patent and commercial matters, which arises in the ordinary course of business. There are no such pending matters that are expected to have material effect on these financial statements.

## 2.20 Cybersecurity incident

In November 2023, certain systems of the Company were encrypted by ransomware, resulting in the non-availability of certain applications and systems. The Company initiated its incident response and engaged cybersecurity and other specialists to assist in its investigation of and response to the incident and remediation and restoration of impacted applications and systems. By December 31, 2023, McCamish, with external specialists' assistance, substantially remediated and restored the affected applications and systems. Actions taken by the Company included investigative analysis conducted by a third-party cybersecurity firm to determine, among other things, whether and the extent to which Company or customer data was subject to unauthorized access or exfiltration. The Company also engaged a third-party eDiscovery vendor in assessing the extent and nature of such data. The Company in coordination with its third-party eDiscovery vendor has identified corporate customers and individuals whose information was subject to unauthorized access and exfiltration. The Company processes personal data on behalf of its corporate customers.

From March 6, 2024 through July 25, 2024, six actions were filed in the U.S. District Court for the Northern District of Georgia against the Company. The actions arise out of the cybersecurity incident at the Company initially disclosed on November 3, 2023. All six actions have since been consolidated, and the consolidated class action complaint was filed on November 7, 2024, purportedly on behalf of all persons residing in the United States whose personally identifiable information was compromised in the incident, including all who were sent a notice of the incident. On December 20, 2024, the Court granted the parties' joint motion to stay proceedings pending the parties' efforts to resolve the lawsuit through mediation.

On March 13, 2025, the Company and the plaintiffs engaged in mediation, resulting in an agreement in principle that sets forth the terms of a proposed settlement of the class action lawsuits against the Company, as well as seven class action lawsuits arising out of the incident that have been filed against the Company's customers. Under the proposed settlement terms, the Company has agreed to pay \$17.5 million into a fund to settle these matters. The proposed terms are subject to confirmatory due diligence by the plaintiffs, finalization of the terms of the settlement agreement, and preliminary and final court approval. If approved, the settlement will resolve all claims covered under the class action lawsuits without admission of any liability.

The Company may incur additional costs including from indemnities or damages / claims, which are indeterminable at this time.

### Others

Apart from legal proceedings and claims arising from the cybersecurity incident, the Company is subject to legal proceedings and claims which have arisen in the ordinary course of business. The Company Management reasonably expects that such ordinary course legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company results of operations or financial condition.

#### List of key managerial personnel

Name of the related party	Designation
Richard Magner	Chief Executive Officer and Director
Thothathri V.	Director
Binod Choudhary <sup>(1)</sup>	Director
John Thothungal <sup>(1)</sup>	Director
<sup>(1)</sup> Appointed as director w.e.f. July 17, 2023	

## Transaction with key managerial personnel

The compensation to key managerial personnel, which comprise directors and executive officers, is as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Salaries and other employee benefits to whole-time directors and executive officers	646,919	636,908
Total	646,919	636,908

## 2.22 Compensated absences

The employees of the Company are entitled to compensated absences, which are non-accumulating in nature. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 2.23 Segment reporting

Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. The Company's operations are considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.23 Analytical ratios

Certain analytical ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	Year ended December 31,		% of Variance
			2024	2023	
Current ratio	Current assets	Current liability	1.0	1.1	(9.1%)
Debt-equity ratio	Total debt <sup>(1)</sup>	Shareholder's equity	2.0	0.8	150.0%*
Debt service coverage ratio	Earnings available for debt service <sup>(2)</sup>	Debt service <sup>(3)</sup>	0.2	1.3	(84.6%)**
Return On Equity (ROE)	Net profits after taxes	Average shareholder's equity	(9.6%)	7.7%	(17.3%)
Trade receivables turnover ratio	Revenue	Average accounts receivable	4.3	4.7	(8.5%)
Trade payables turnover ratio	Purchases of services and other expenses	Average trade payables	10.2	11.1	(8.1%)
Net capital turnover ratio	Revenue	Working capital	25.4	26.7	(4.9%)
Net profit ratio	Net profit	Revenue	(3.5%)	2.5%	(5.9%)
Return On Capital Employed (ROCE)	Earnings before interest and taxes	Capital employed <sup>(4)</sup>	(2.0%)	8.3%	(10.3%)

<sup>(1)</sup> Debt represents lease liabilities, liabilities under financing arrangements and unsecured loans.

<sup>(2)</sup> Net profit after taxes + non-cash operating expenses + interest + other adjustments like loss on sale of fixed assets etc.

<sup>(3)</sup> Lease payments and payment of rentals towards financing arrangements for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + lease liabilities + liabilities under financing arrangements

\* Debt-equity ratio due to increase in unsecured loan for the cash-pooling arrangement.

\*\* Debt service coverage ratio is mainly due to decrease in profit from US\$10,659,800 last year to loss of US\$13,122,429 this year.

## EdgeVerve Systems Limited

# Independent Auditor's Report

To The Members of EdgeVerve Systems Limited

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of EDGEVERVE SYSTEMS LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of management and Board of Directors for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement

when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
  - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements. Refer Note 2.20 to the financial statements.
- ii. The Company has made provision, as required under the applicable law or accounting standards for material foreseeable losses. Refer Note 2.14 to the financial statements. The Company does not have any long-term derivative contracts.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;  
 (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;  
 (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. As stated in Note 2.10.1 to the financial statements
  - (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
  - (b) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. Such dividend proposed is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, the Company has used an accounting software systems for maintaining its books of account for the financial year ended March 31, 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## Annexure “A” To The Independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Edgeverve Systems Limited of even date)

Report on the Internal Financial Controls with reference to Financials Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of EDGEVERVE SYSTEMS LIMITED (“the Company”) as at March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management’s and Board of Directors’ Responsibilities for Internal Financial Controls

The Company’s Management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financials statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financials statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

### Meaning of Internal Financial Controls with reference to financial statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal

financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

## Annexure 'B' to the Independent Auditor's Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Edgeverve Systems Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's property, plant and equipment and intangible assets:
  - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.  
(B) The company has maintained proper records showing full particulars of intangible assets.
  - (b) The Company has a program of physical verification of property, plant and equipment so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
  - (c) The Company does not have any immovable properties and hence reporting under clause (i)(c) of the Order is not applicable.
  - (d) The Company has not revalued any of its property, plant and equipment and intangible assets during the year.
  - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii.
  - (a) The Company does not have any inventory and hence reporting under Clause (ii)(a) of the Order is not applicable.
  - (b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions and hence reporting under clause (ii)(b) of the Order is not applicable.
- iii. The Company has made investments in, and granted unsecured loans to other parties, during the year, in respect of which:
  - (a) The Company has not provided any loans or advances in the nature of loans or stood guarantee, or provided security to any other entity during the year, and hence reporting under paragraph (iii)(a) of the Order is not applicable.
  - (b) In our opinion, the investments made and the terms and conditions of the grant of loans during the year are, prima facie, not prejudicial to the Company's interest.
  - (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments of principal amounts and receipts of interest are generally been regular as per stipulation.
  - (d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.
  - (e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
  - (f) The Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause (iii)(f) is not applicable.
- iv. According to information and explanation given to us, the Company has not granted any loans, made investments or provided guarantees or securities that are covered under the provisions of sections 185 or 186 of the Companies Act, 2013, and hence reporting under clause (iv) of the Order is not applicable.
- v. The Company has not accepted any deposits or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.
- vi. The maintenance of cost records has not been specified by the Central Government under sub section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Hence reporting under clause (vi) of the Order is not applicable to the Company.
- vii. In respect of statutory dues:

- (a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Service Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.

- (b) Details of Statutory dues referred to in sub-clause (a) which have not been deposited as on March 31, 2025 on account of dispute are given below:

Name of the statute	Nature of Dues	Forum where the dispute is pending	Period to which the amount relates	Amount not deposited (in lakhs)
Central Excise Act, 1944	Excise Duty	Customs Excise and Service Tax Appellate Tribunal	FY 2015-16, FY 2016-17 and FY 2017-18	4,054
Maharashtra Value added Tax	VAT/CST	Joint Commissioner (Appeals)	FY 2016-17 and FY 2017-18	24
Goods and Service Tax Act, 2017	Goods and Services Tax	High Court of Karnataka	FY 2017-18	11
		Joint Commissioner (Appeals)	FY 2017-18 to FY 2021-22	326
The Income Tax Act, 1961	Income Tax	National Faceless Assessment Centre, Delhi	FY 22-23	1,170
		Income Tax Appellate Tribunal	FY 2015-16, FY 2017-18 to FY 2020-21	4,465
Finance Act, 2016	Equalisation Levy	Assessing Officer	FY 2020-21	0*

\* Less than ₹ 1 lakh

FY= Financial Year

viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

- ix. (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause (ix)(a) of the Order is not applicable.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) The Company did not have any subsidiary or associate or Joint venture during the year and hence, reporting under clause (ix)(e) of the Order is not applicable.

The Company has not raised any loans during the year and hence reporting on clause (ix)(f) of the Order is not applicable.

- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable.
- xi. (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) while determining the nature, timing and extent of our audit procedures.

- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 188 of the Companies Act, 2013 for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards. The Company is a wholly owned subsidiary and hence the provisions of Section 177 of the Companies Act, 2013 are not applicable to the Company.
- xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.  
(b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under Clause (xvi)(a), (b) and (c) of the Order is not applicable.  
(b) In our opinion, there is no core investment company within the Group (as defined under Core Investment Companies (Reserve Bank) Directions) and accordingly reporting under Clause (xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. The company has fully spent the required amount toward Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer of a Fund specified in Schedule VII of the Companies Act or special account in compliance with the provision of sub section (6) of section 135 of the said Act. Accordingly reporting under clause (xx) of the Order is not applicable for the year.

# Statement of Cash Flows

## Accounting policy

Cash flows are reported using the indirect method, whereby profit for the year is adjusted for effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amount of cash to be cash equivalents.

(In ₹ lakh)

# Notes to the financial statements

## 1. Overview

### 1.1 Company overview

EdgeVerve Systems Limited ("the Company") is a limited company incorporated in India. It is a wholly-owned subsidiary of Infosys Limited. The address of its registered office is Plot No. 44, Electronic City, Hosur Main Road, Bengaluru 560100, Karnataka, India. The Company defines, develops and operates innovative cloud-hosted business platforms and software products as part of the Edge suite of products or Finacle product, which can be deployed either on premises or on cloud environments depending on its products. The Company provides implementation, integration and support services to help customers realize benefits from software solutions.

With effect from August 01, 2015, 'Finacle' and 'Edge services' businesses of Infosys Limited were transferred to the Company. The purchase consideration for the transfer was discharged by way of issue and allotment of equity shares and non-convertible unsecured debentures.

The financial statements were approved by the Company's Board of Directors on April 15, 2025.

### 1.2 Basis of preparation of financial statements

These financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments, which are measured at fair values and the provisions of the Companies Act, 2013 ("the Act") (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

As the yearend figures are taken from the source and rounded to the nearest digit, the figures reported for the previous year might not always add up to the year figures reported in this statement.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited financial statements has been discussed in the respective notes.

### 1.3 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of

changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Critical accounting estimates and judgments

#### a. Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers include subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

#### b. Income tax

The Company's tax jurisdiction is India. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. (Refer to Notes 2.15 and 2.20)

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The

Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

### c. Property, plant and equipment

Property, plant and equipment represents a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. (Refer to Note 2.1)

### 1.5 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus share issues, including for changes effected prior to the approval of the financial statements by the Board of Directors.

### 2.1 Property, plant and equipment

#### Accounting policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs, directly attributable to the acquisition, are capitalized until property, plant and equipment are ready for use as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Plant and machinery <sup>(1)</sup>	5 years
Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment	5 years
Leasehold improvements	Lower of useful life of the asset or lease term

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial yearend. The useful lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

#### Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025 are as follows:

(In ₹ lakh)						
Particulars	Leasehold improvements	Plant and machinery	Office equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as of April 1, 2024	26	21	253	19,579	211	20,090
Additions	–	–	5	2,806	1	2,812
Deletions*	–	–	–	(1,380)	(24)	(1,404)
Gross carrying value as of March 31, 2025	26	21	258	21,005	188	21,498
Accumulated depreciation as of April 1, 2024	(26)	(19)	(214)	(14,413)	(204)	(14,877)
Depreciation	–	–	(19)	(2,532)	(4)	(2,555)

Carrying value as of March 31, 2024	–	2	39	5,166	7	5,213

\*During the year ended March 31, 2024, certain assets which were not in use having gross book value of ₹1,419 lakh (Net book value: Nil) were retired.

The aggregate depreciation has been included under depreciation expense in the Statement of Profit and Loss.

## 2.1a Capital work-in-progress

(In ₹ lakh)		
Particulars	As at March 31,	
	2025	2024
Capital work-in-progress	877	538
Total capital work-in-progress	877	538

The capital work-in-progress ageing schedule for the year ending March 31, 2025 is as follows:

(In ₹ lakh)					
Particulars	Less than 1 year	1-2 years	2-3 years	>3 years	Total
Projects in progress	877	–	–	–	877
Total	877	–	–	–	877

The capital work-in-progress ageing schedule for the year ending March 31, 2024 was as follows:

(In ₹ lakh)					
Particulars	Less than 1 year	1-2 years	2-3 years	>3 years	Total
Projects in progress	538	–	–	–	538
Total	538	–	–	–	538

## 2.2 Other intangible assets

### Accounting policy

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors, including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labor, overhead costs that are directly attributable to preparing the asset for its intended use.

The changes in the carrying value of acquired intangible assets for the year ended March 31, 2025 are as follows:

(In ₹ lakh)		
Particulars	Software-related	Total
Gross carrying value as at April 1, 2024	117	117
Additions through business transfer	–	–
Deletions during the year	–	–
Gross carrying value as at March 31, 2025	117	117
Accumulated amortization as at April 1, 2024	(31)	(31)
Amortization expense	(21)	(21)
Accumulated amortization on deletions	–	–
Accumulated amortization as at March 31, 2025	(52)	(52)
Carrying value as at April 1, 2024	86	86
Carrying value as at March 31, 2025	65	65
Estimated useful life (in years)	5-6	–
Estimated remaining useful life (in years)	3	–

The changes in the carrying value of acquired intangible assets for the year ended March 31, 2024 are as follows:

(In ₹ lakh)		
Particulars	Software-related	Total
Gross carrying value as at April 1, 2023	117	117
Additions through business transfer	–	–
Deletions during the year	–	–
Gross carrying value as at March 31, 2024	117	117
Accumulated amortization as at April 1, 2023	(10)	(10)
Amortization expense	(21)	(21)
Accumulated amortization on deletions	–	–
Accumulated amortization as at March 31, 2024	(31)	(31)
Carrying value as at April 1, 2023	107	107
Carrying value as at March 31, 2024	86	86
Estimated useful life (in years)	5-6	–
Estimated remaining useful life (in years)	4	–

## 2.3 Investments

(In ₹ lakh)		
Particulars	As at March 31,	
	2025	2024
Unquoted current investments		
Investments carried at fair value through profit or loss		
Liquid mutual fund units	61,595	49,721
Total investments	61,595	49,721

Disputed trade receivables – credit impaired	–	–	–	–	–	–	–
Less: Allowance for credit loss	–	–	–	–	–	–	2,505
Total trade receivables	6,151	9,470	2,509	513	210	188	16,536

## 2.7 Cash and cash equivalents

(In ₹ lakh)

Particulars	As at March 31,	
	2025	2024
Balances with banks		
In current and deposit accounts	76,588	41,151
Total cash and cash equivalents	76,588	41,151
Deposit accounts with more than 12 months maturity	–	–
Balances with banks held as margin money deposits against guarantees	–	–

Cash and cash equivalents as of March 31, 2025 and March 31, 2024 do not include any restricted cash and bank balances.

The deposits that are maintained by the Company with banks and financial institutions comprise time deposits, which can be withdrawn by the Company at any point without prior notice or penalty on the principal.

## 2.8 Other assets

(In ₹ lakh)

Particulars	As at March 31,	
	2025	2024
Non-current		
Others		
Prepaid expenses	412	167
Cost of obtaining a contract	35	–
Cost of fulfilment	8,480	4,194
Prepaid gratuity (Refer to Note 2.19)	1,034	352
Unbilled revenues <sup>(1)</sup>	3,996	3,713
Total non-current other assets	13,957	8,426
Current		
Advance other than capital advances		
Payment to vendors for supply of goods / services	504	54
Others		
Unbilled revenues <sup>(1)</sup>	12,267	9,133
Prepaid expenses	5,059	5,720
Withholding taxes and others*	4,582	5,638
Cost of obtaining a contract	2,507	–
Cost of fulfilment	1,878	1,691
Total current other assets	26,797	22,236
Total other assets	40,754	30,662

<sup>(1)</sup> Classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones

\* Withholding taxes and others primarily consist of input tax credits.

## 2.9 Financial instruments

### Accounting policy

#### 2.9.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at the trade date.

#### 2.9.2 Subsequent measurement

##### a. Non-derivative financial instruments

###### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

###### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

###### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

##### b. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

###### (i) Financial assets or financial liabilities at fair value through profit or loss

This category has derivative financial assets or liabilities, which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred.

Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets / current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

### 2.9.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

### 2.9.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to the table below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 2.9.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets that are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL is measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime ECL. The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of Profit and Loss.

#### Financial instruments by category

The carrying value and fair value of financial instruments by categories as of March 31, 2025 are as follows:

								(In ₹ lakh)
Particulars	Note	Amortized cost	Financial assets / liabilities at fair value through profit or loss		Financial assets / liabilities at fair value through OCI		Total carrying value	Total fair value

Total		36,294	–	–	–	–	36,294	36,294

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

#### Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2025 is as follows:

(In ₹ lakh)				
Particulars	As on March 31, 2025	Fair value measurement at end of the reporting period / year using		
		Level 1	Level 2	Level 3
Assets				
Investment in liquid mutual fund units (Refer to Note 2.3)	61,595	61,595	–	–

The fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2024 is as follows:

(In ₹ lakh)				
Particulars	As on March 31, 2024	Fair value measurement at end of the reporting period / year using		
		Level 1	Level 2	Level 3
Assets				
Investment in liquid mutual fund units (Refer to Note 2.3)	49,721	49,721	–	–

The foreign currency risk from financial instruments as of March 31, 2025 is as follows:

(In ₹ lakh)						
Particulars	US dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Net financials assets	28,664	3,336	833	899	3,256	36,989
Net financial liabilities	(18,209)	(229)	(74)	(16)	(349)	(18,878)
Total	10,455	3,107	759	883	2,907	18,111

The foreign currency risk from financial instruments as of March 31, 2024 was as follows:

(In ₹ lakh)						
Particulars	US dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Net financials assets	27,855	1,785	713	(583)	7,542	37,312
Net financial liabilities	(13,689)	(479)	(79)	(8)	(200)	(14,455)
Total	14,166	1,306	634	(591)	7,342	22,857

The sensitivity analysis between Indian rupee and USD is as follows:

Particulars	As at March 31,	
	2025	2024
Impact on the Company's incremental operating margins	0.31%	0.39%

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency due to exchange rate fluctuations between the previous reporting year and the current reporting year.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹23,898 lakh and ₹16,536 lakh as of March 31, 2025 and March 31, 2024, respectively, and unbilled revenue amounting to ₹56,383 lakh and ₹50,025 lakh as of March 31, 2025 and March 31, 2024, respectively. Credit risk has always been managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company uses a provision matrix to compute the expected credit losses on the customer balances based on internal and external factors.

There is no single customer contributing more than 10% of total revenue for the year ended March 31, 2025.

### Credit risk exposure

The Company's credit period generally ranges from 30-45 days.

The movement in credit loss allowance on customer balance is as follows:

(In ₹ lakh)		
Particulars	As at March 31,	
	2025	2024
Balance at the beginning	2,723	2,546
Provisions recognized / (reversed)	(655)	423
Write-offs	(180)	(280)
Translation differences	–	34
Balance at the end	1,888	2,723

Credit risk on cash and cash equivalent is limited as the Company generally invests in deposits with banks and in liquid mutual fund units.

### Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

As of March 31, 2025, the Company had a working capital of ₹1,39,985 lakh including cash and cash equivalents of ₹76,588 lakh and current investments of ₹61,595 lakh. As of March 31, 2024, the Company had a working capital of ₹88,292 lakh, including cash and cash equivalents of ₹41,151 lakh and current investments of ₹49,721 lakh.

As of March 31, 2025 and March 31, 2024, the outstanding compensated absences were ₹1,945 lakh and ₹1,719 lakh, respectively, which have been substantially funded. Accordingly, no liquidity risk is perceived.

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2025 are as follows:

(In ₹ lakh)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	1,056	–	–	–	1,056
Other liabilities	35,935	–	–	–	35,935
	36,991	–	–	–	36,991

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2024 are as follows:

(In ₹ lakh)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	4,008	–	–	–	4,008
Other liabilities	30,567	–	–	–	30,567
	34,575	–	–	–	34,575

## 2.10 Equity

### Share capital

#### Accounting policy

#### Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

### Description of reserves

#### Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

#### Other components of equity

Other components of equity consist of remeasurement of net defined benefit liability / asset net of taxes.

### Share capital

(In ₹ lakh, except as otherwise stated)		
Particulars	As at March 31,	
	2025	2024
Authorized		
Equity shares, ₹10 par value		
410,00,00,000 (410,00,00,000) equity shares	4,10,000	4,10,000
Issued, subscribed and paid-up		
Equity shares, ₹10 par value	1,31,184	1,31,184
131,18,40,000 (131,18,40,000) equity shares fully paid-up and held by the holding company, Infosys Limited		
	1,31,184	1,31,184

The Company has only one class of shares referred to as equity shares having a par value of ₹10. Each holder of equity shares is entitled to one vote per share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company in proportion to the number of equity shares held by the shareholders after the distribution of all preferential amount. However, no such preferential amount exists currently.

The details of shareholder holding more than 5% shares as at March 31, 2025 and March 31, 2024 are as follows:

Name of the shareholder	As at March 31,			
	2025		2024	
	Number of shares	% held	Number of shares	% held
Infosys Limited, holding company	131,18,40,000	100%	131,18,40,000	100%

The reconciliation of the number of shares outstanding and the amount of share capital as at March 31, 2025 and March 31, 2024 is as follows:

Particulars	As at March 31,			
	2025		2024	
	Number of shares	Amount	Number of shares	Amount
Number of shares at the beginning and end of the year	131,18,40,000	1,311,84,00,000	131,18,40,000	1,311,84,00,000

The details of shareholding of promoters as at March 31, 2025 and March 31, 2024 are as follows:

Promoter name	As at March 31,					
	2025			2024		
	Number of shares	% held	% change	Number of shares	% held	% change
Infosys Limited, holding company	131,18,40,000	100	0	131,18,40,000	100	0

## 2.10.1 Dividend

The final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Board of Directors.

The Company declares and pays dividends in Indian rupees. Companies are required to pay / distribute dividend after deducting applicable withholding income taxes.

The amount of per share (₹ 10/- par value) dividend recognized as distribution to equity shareholders is as follows:

Particulars	(In ₹)	
	As at March 31,	
	2025	2024
Final dividend for fiscal 2023	–	3.05
Interim dividend for fiscal 2024	–	2.50
Second interim special dividend for fiscal 2024	–	2.75
Final dividend for fiscal 2024	4.00	–

During the year ended March 31, 2025, on account of the final dividend for fiscal 2024, the Company has incurred a net cash outflow of ₹52,474 lakh.

The Board of Directors, at its meeting on April 15, 2025, recommended a final dividend of ₹8 per equity share for the financial year ended March 31, 2025. This payment is subject to the approval of shareholders in the Annual General Meeting (AGM) of the Company proposed to be held on July 21, 2025, and if approved, would result in a net cash outflow of approximately ₹1,04,947 lakh.

## 2.11 Other financial liabilities

Particulars	(In ₹ lakh)	
	As at March 31,	
	2025	2024
<b>Non-current</b>		
Accrued compensation to employees	2	–
Total non-current other financial liabilities	2	–
<b>Current</b>		
Accrued compensation to employees	4,293	4,673
Capital creditors	2,515	734
Compensated absences	1,945	1,719
Accrued expenses <sup>(1)</sup>	28,395	24,930
Other payables <sup>(2)</sup>	732	230
Total current other financial liabilities	37,880	32,286
Total other financial liabilities	37,882	32,286
Financial liability carried at amortized cost	37,882	32,286
<sup>(1)</sup> Includes dues to holding company and fellow subsidiaries (Refer to Note 2.21)	11,531	10,487
<sup>(2)</sup> Includes dues to fellow subsidiaries (Refer to Note 2.21)	5	9

## 2.12 Trade payables

Particulars	(In ₹ lakh)	
	As at March 31,	
	2025	2024
<b>Current</b>		
Trade payables <sup>(1)</sup>		
Total outstanding dues of micro enterprises and small enterprises	–	475
Total outstanding dues of creditors other than micro enterprises and small enterprises	1,056	3,533
Total trade payables	1,056	4,008
<sup>(1)</sup> Includes dues to holding company / fellow subsidiaries (Refer to Note 2.21)	285	79

As at March 31, 2025, there are no outstanding dues to micro, small and medium enterprises. There is no interest due on the same.

The trade payables ageing schedule for the year ended March 31, 2025 is as follows:

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	<1 yr	1-2 years	2-3 years	>3 years	
MSME	–	–	–	–	–	–
Others	588	468	–	–	–	1,056
Disputed dues – MSME	–	–	–	–	–	–
Disputed dues – Others	–	–	–	–	–	–
Total trade payable	588	468	–	–	–	1,056

The trade payables ageing schedule for the year ended March 31, 2024 was as follows:

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	<1 yr	1-2 years	2-3 years	>3 years	
MSME	475	–	–	–	–	475
Others	3,330	203	–	–	–	3,533
Disputed dues – MSME	–	–	–	–	–	–
Disputed dues – Others	–	–	–	–	–	–
Total trade payable	3,805	203	–	–	–	4,008

There are no transactions with struck-off companies for the years ended March 31, 2025 and March 31, 2024.

## 2.13 Other liabilities

Particulars	As at March 31,	
	2025	2024
Current		
Unearned revenue	16,803	18,790
Withholding taxes and other taxes	8,769	5,501
Total current other liabilities	25,572	24,291
Total other liabilities	25,572	24,291

## 2.14 Provisions

### Accounting policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

#### a. Post-sales client support and others

The Company provides its clients with a fixed-period, post-sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

#### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Provision for post-sales client support and others

Particulars	As at March 31,	
	2025	2024
Current		
Others		
Post-sales client support and others	9	78
Total provisions	9	78

The movement in provision for post-sales client support and others is as follows:

	(In ₹ lakh)
Particulars	As at March 31, 2025
Balance at the beginning	78
Provisions reversal	(70)
Provision utilized	–
Translation differences	1
Balance at the end	9

The provision for post-sales client support and others is expected to be utilized over a period of six months to one year.

## 2.15 Income taxes

### Accounting policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to securities premium.

Income tax expense in the Statement of Profit and Loss comprises:

	(In ₹ lakh)	
Particulars	As at March 31,	
	2025	2024
Current taxes	43,928	34,545
Deferred taxes	198	(467)
Income tax expense	44,126	34,078

The applicable Indian corporate statutory tax rate for the year ended on March 31, 2025 is 25.17%. The new income tax regime as per The Taxation Laws (Amendment) Act, 2019 has been opted by the Company from financial year 2019-20 onwards.

Income tax expense for the 12 months ended March 31, 2025 and March 31, 2024 includes provision of ₹3,297 lakh and provision of ₹3,014 lakh, respectively, pertaining to prior periods on adjudication of certain matters in favor of the Company and upon filing of returns.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is as follows:

	(In ₹ lakh)	
Particulars	As at March 31,	
	2025	2024
Profit before income taxes	1,53,617	1,17,566
Enacted tax rates in India	25.17%	25.17%
Computed expected tax expense	38,662	29,589
Overseas taxes, net of foreign tax credit	1,595	930
Prior year taxes	3,297	3,022
Effect of non-deductible expenses	588	531
Others	(16)	6
Income tax expense	44,126	34,078

The applicable Indian statutory tax rates for fiscal 2025 is 25.17% and fiscal 2024 is 25.17%.

The details of income tax assets and income tax liabilities as of March 31, 2025 and March 31, 2024 are as follows:

	(In ₹ lakh)	
Particulars	As at March 31,	
	2025	2024
Income tax assets	14,066	14,704
Current income tax liabilities	27,754	24,331
Net current income tax assets / (liabilities) at the end	(13,688)	(9,627)

The gross movement in the current income tax asset for the years ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In ₹ lakh)	
	As at March 31,	
	2025	2024
Net current income tax assets at the beginning	(9,627)	12,298
Income tax paid	39,866	12,621
Current income tax expense (Refer to Note 2.15)	(43,928)	(34,545)
Net current income tax assets / (liabilities) at the end	(13,688)	(9,627)

The movement in gross deferred income tax assets and liabilities (before setoff) for the year ended March 31, 2025 is as follows:

Particulars	(In ₹ lakh)				
	Carrying value as on April 01, 2024	Change through profit and loss	Changes through OCI	Translation difference	Carrying value as on March 31, 2025
Deferred income tax assets / (liabilities)					
Property, plant and equipment	(75)	9	–	–	(66)
Compensated absences	433	57	–	–	490
Trade receivables	685	(210)	–	–	475
Financial instruments	(62)	(57)	–	–	(119)
Interest received in income tax refund	342	–	–	–	342
Outstanding dues of MSME u/s 43B(h)	–	18	–	–	18
Post-sales client support	15	(15)	–	–	–
Total deferred income tax assets / (liabilities)	1,339	(198)	–	–	1,141

The movement in gross deferred income tax assets and liabilities (before setoff) for the year ended March 31, 2024 was as follows:

Particulars	(In ₹ lakh)				
	Carrying value as on April 01, 2023	Change through profit and loss	Changes through OCI	Translation difference	Carrying value as on March 31, 2024
Deferred income tax assets / (liabilities)					
Property, plant and equipment	(112)	37	–	–	(75)
Compensated absences	385	48	–	–	433
Trade receivables	641	45	–	–	685
Financial instruments	(71)	9	–	–	(62)
Interest received in income tax refund	–	342	–	–	342
Post-sales client support	29	(14)	–	–	15
Total deferred income tax assets / (liabilities)	872	467	–	–	1,339

The gross movement in the deferred income tax account for the years ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In ₹ lakh)	
	As at March 31,	
	2025	2024
Net deferred income tax asset at the beginning	1,339	872
Credits relating to temporary differences (Refer to Note 2.15)	(198)	467
Net deferred income tax asset at the end	1,141	1,339

In assessing the reliability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 2.16 Revenue from operations

### Accounting policy

The Company derives revenues primarily from business IT services comprising software development and related services, consulting and package implementation and from the licensing of software products and platforms across our core and digital offerings (together called “software related services”). Contracts with customers are either on a time-and-material, unit of work, fixed-price or on a fixed-timeframe basis.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved in writing, by the parties, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services (“performance obligations”) to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services (“transaction price”). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Fixed-price maintenance revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using a percentage-of-completion method when the

pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive. Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended are used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the term of the contracts and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as “unearned revenues”).

In arrangements for software development, related services and maintenance services, the Company has applied the guidance in Ind AS 115, Revenue from Contracts with Customers, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Revenue from licenses where the customer obtains a “right to use” the licenses is recognized at the time the license is made available to the customer. Revenue from licenses whether the customer obtains a “right to access” is recognized over the access period.

Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the same have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected-cost-plus-margin approach. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance

obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

Contracts with customers include subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

A contract modification is a change in the scope or price or both of a contract that is approved by the parties to the contract. A contract modification that results in the addition of distinct performance obligations is accounted for either as a separate contract if the additional services are priced at the standalone selling price or as a termination of the existing contract and creation of a new contract if they are not priced at the standalone selling price. If the modification does not result in a distinct performance obligation, it is accounted for as part of the existing contract on a cumulative catch-up basis.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Company expects to recover them.

Certain eligible, non-recurring costs (e.g. set-up or transition or transformation costs) that do not represent a separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Company that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered. Such capitalized contract costs are amortized over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenues from operations for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	(In ₹ lakh)	
	Year ended March 31,	
	2025	2024
Revenue from operations	4,08,972	3,56,938
Total revenue from operations	4,08,972	3,56,938

The percentage of revenue from fixed-price contracts for the years ended March 31, 2025 and March 31, 2024 is 88% and 89%, respectively.

### Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work

progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time-and-material contracts and fixed-price maintenance contracts are classified as financial assets when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-timeframe contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed-price contracts (contract assets) are classified as non-financial assets because the right to consideration is dependent on the completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the years ended March 31, 2025 and March 31, 2024, the Company recognized revenue of ₹14,758 lakh and ₹13,659 lakh arising from opening unearned revenue as of April 1, 2024 and April 1, 2023, respectively.

During the years ended March 31, 2025 and March 31, 2024, ₹11,893 lakh and ₹11,829 lakh of unbilled revenue pertaining to other fixed-price and fixed-timeframe contracts as of April 1, 2024 and April 1, 2023, respectively, have been reclassified to trade receivables upon billing to customers on completion of milestones.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as of March 31, 2025, other than those meeting the exclusion criteria mentioned above, is ₹4,74,890 lakh. Out of this, the Company expects to recognize revenue of around 52.19% within the next one year and the remaining thereafter. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause. Based on current assessment, the occurrence of the same is expected to be remote.

## 2.17 Other income, net

Other income comprises primarily interest income, dividend income, gain / loss on investments and exchange gain / loss on forward and options contracts and on translation of foreign currency assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

### Foreign currency Accounting policy

#### Functional currency

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to lakh).

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss and reported within exchange gains / (losses) on translation of assets and liabilities, net. Non-monetary assets and liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Other income for the years ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In ₹ lakh)	
	Year ended March 31, 2025	2024
Interest income received on financial assets – carried at amortized cost:		
Deposits with banks and others	4,349	4,558
Profit on sale of property, plant and equipment	8	2
Exchange gain / (loss) on translation of assets and liabilities	627	(244)
Gain on investment carried at fair value through profit or loss	3,708	2,541
Interest income on income tax refund	2	2,726
Miscellaneous income	15	45
Total other income	8,709	9,628

## 2.18 Expenses

(In ₹ lakh)

Particulars	Year ended March 31,	
	2025	2024

Auditor's remuneration		
Statutory audit fees	43	36
Tax matters	–	–
Others	–	–
Others	762	517
	18,518	20,089

## 2.19 Employee benefits

### Accounting policy

#### 2.19.1 Gratuity

For gratuity, the Company provides a defined benefit retirement plan ("the Gratuity Plan") covering eligible Indian employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The Company contributes gratuity liabilities to the Infosys Limited Employees' Gratuity Fund Trust ("the Trust"). Trustees administer contributions made to the Trust and contributions are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law.

The Company operates defined benefit pension plans in certain overseas jurisdictions, in accordance with the local laws. These plans are managed by third-party fund managers. The plans provide for periodic payouts after retirement and / or a lump-sum payment as set out in the rules of each fund and includes death and disability benefits. The defined benefit plans require contributions, which are based on a percentage of salary that varies depending on the age of the respective employees.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market risk.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through remeasurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

### 2.19.2 Superannuation

Certain employees of EdgeVerve are participants in a defined contribution plan. The Company has no further obligations to the superannuation plan beyond its monthly contributions, which are periodically contributed to EdgeVerve Employee Superannuation Trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

### 2.19.3 Provident fund

Eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government-administered provident fund. The Company has no further obligations under the provident fund plan beyond its monthly contributions.

### 2.19.4 Compensated absences

The employees of the Company are entitled to compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expenses on non-accumulating compensated absences are recognized in the period in which the absences occur.

#### a. Gratuity

The funded status of the gratuity plans and the amounts recognized in the Company's financial statements as of March 31, 2025 and March 31, 2024 is as follows:

(In ₹ lakh)		
Particulars	As at March 31,	
	2025	2024
Change in benefit obligations		
Benefit obligations at the beginning	7,780	7,049
Service cost	653	606
Interest expense	534	489

Transfer of obligation	27	(18)
Remeasurements – Actuarial (gains) / losses	258	(37)
Benefits paid	(323)	(309)
Benefit obligations at the end	8,929	7,780
Change in plan assets		
Fair value of plan assets at the beginning	8,133	7,861
Interest income	589	546
Transfer of assets	(27)	(43)
Contributions	1,500	–
Return on plan assets greater / (lesser) than discount rate	91	78
Benefits paid	(323)	(309)
Fair value of plan assets at the end	9,963	8,133
Funded status	1,034	352
Prepaid gratuity benefit	1,034	352

The amounts for the years ended March 31, 2025 and March 31, 2024 recognized in the Statement of Profit and Loss under employee benefit expenses are as follows:

(In ₹ lakh)		
Particulars	Year ended March 31,	
	2025	2024
Service cost	653	606
Net interest on the net defined benefit liability / (asset)	(55)	(57)
Net gratuity cost	598	549

The amounts for the years ended March 31, 2025 and March 31, 2024 recognized in the Statement of Other Comprehensive Income are as follows:

(In ₹ lakh)		
Particulars	Year ended March 31,	
	2025	2024
Remeasurements of the net defined benefit liability / (asset)		
Actuarial (gains) / losses	258	(37)
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability / (asset)	(91)	(78)
Actuarial (gains) / losses recognized in OCI	167	(115)

(In ₹ lakh)		
Particulars	Year ended March 31,	
	2025	2024
(Gain) / loss from change in financial assumptions	8	40
(Gain) / loss from change in experience	250	(77)
	258	(37)

The weighted-average assumptions used to determine benefit obligations as at March 31, 2025 and March 31, 2024 are as follows:

Particulars	As at March 31,	
	2025	2024
Discount rate <sup>(1)</sup>	6.5%	7.0%
Weighted average rate of increase in compensation levels <sup>(2)</sup>	7.5%	7.5%
Weighted average duration of defined benefit obligation <sup>(3)</sup>	5.7 years	5.9 years

The weighted-average assumptions used to determine net periodic benefit cost for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	As at March 31,	
	2025	2024
Discount rate	7.0%	6.5%
Weighted average rate of increase in compensation levels	7.5%	7.5%

<sup>(1)</sup> For the domestic defined benefit plan in India, the market for high quality corporate bonds being not developed, the yield of government bonds is considered as the discount rate. For most of our overseas defined benefit plans, given that the market for high quality corporate bonds is not developed, the government bond rate adjusted for corporate spreads is used.

<sup>(2)</sup> The average rate of increase in compensation levels is determined by the Company, considering factors such as past compensation revision trends, inflation in respective markets and the Management's estimate of future salary increases.

<sup>(3)</sup> Attrition rate considered is the Management's estimate based on the past long-term trend of employee turnover in the Company. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life, which reflects the average estimated term of post-employment benefit obligation.

Sensitivity of significant assumptions used for valuation of defined benefit obligations is as follows:

	(In ₹ lakh)
Impact from percentage point increase / decrease in	As at March 31, 2025
Discount rate	471
Weighted average rate of increase in compensation level	480

Sensitivity to significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant. The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is not probable, and changes in some of the assumptions may be correlated.

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit plans.

The Company contributes all ascertained liabilities towards gratuity to the Edgeerve Systems Limited Employees' Gratuity Trust Fund. Trustees administer contributions made to the Trust. As of March 31, 2025 and March 31, 2024, the Plan assets have been primarily invested in insurer-managed funds.

Actual return on assets for the years ended March 31, 2025 and March 31, 2024 were ₹ 589 lakh and ₹ 546 lakh, respectively.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

The contributions for gratuity are invested in a scheme with the Life Insurance Corporation of India as permitted by Indian law. Entire plan asset is allocated under schemes of insurance

The Company is expected to contribute ₹500 lakh to the gratuity fund during FY2026.

Maturity profile of defined benefit obligation:

	(In ₹ lakh)
Within 1 year	1,296
1-2 years	1,264
2-3 years	1,119
3-4 years	1,087
4-5 years	1,016
5-10 years	3,779

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

## b. Provident fund

The Company contributed ₹3,288 lakh during the year ended March 31, 2025 (₹3,119 lakh for the year ended March 31, 2024).

## c. Superannuation

The Company contributed ₹800 lakh during the year ended March 31, 2025 (₹794 lakh for the year ended March 31, 2024).

## 2.20 Contingent liabilities and commitments (to the extent not provided for)

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

	(In ₹ lakh)	
Particulars	As at March 31,	
	2025	2024
Contingent liabilities		
Claims against the Company, not acknowledged as debts <sup>(1)</sup>	25,884	24,999
Commitments		
Estimated amount of unexecuted capital contracts and not provided for (net of advances and deposits) <sup>(2)</sup>	2,079	87
(net of advances and deposits)		

<sup>(1)</sup> As at March 31, 2025, claims against the Company not acknowledged as debts in respect of income tax matters amounted to ₹16,377 lakh and in respect of Central Excise and VAT / CST matters amounted to ₹9,507 lakh. The claims against the Company in respect of income tax majorly represent demands arising on completion of assessment proceedings under the Income-tax Act, 1961. These claims are on account of multiple issues of disallowances such as disallowance of expenditure towards software being held as capital in nature, among others. The claims against the Company in respect of Central Excise and VAT / CST matters represent demands arising on account of treating Finacle software as excisable goods under the Central Excise Act, 1944 and demand of CST under Rule 53(6)(b) of CST law. These matters are pending before various appellate authorities and the Management, including its tax advisors expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

The amount paid to statutory authorities against the above tax claims amounted to ₹26,565 lakh.

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's Management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

<sup>(2)</sup> Capital contracts primarily comprises commitments for facilities and computer equipment.

## Legal proceedings

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's Management reasonably expects that these legal actions, when ultimately concluded and determined, will not have a material and adverse effect on the Company's results of operations or financial condition.

	As at March 31,	
	2025	2024
Salaries and other employee benefits to whole-time directors and executive officers <sup>(1)</sup>	892	910
Commission and other benefits to non-executive / independent directors	–	–
Total	892	910

<sup>(1)</sup> Does not include post-employment benefit based on actuarial valuation as this is done for the Company as a whole.

## 2.22 Corporate social responsibility

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. A CSR Committee has been formed by the Company as per the Act. The areas for CSR activities are eradication of hunger, poverty and malnutrition, promoting education and healthcare and rural development projects. The funds were primarily utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013.

Particulars		As at March 31,	
		2025	2024
i)	Amount required to be spent by the Company during the year	2,325	2,098
ii)	Amount of expenditure incurred	2,335	2,108
iii)	Shortfall at the end of the year	–	–
iv)	Total of previous years shortfall	–	–
v)	Reason for shortfall	NA	NA
vi)	Nature of CSR activities	Refer to note below	Refer to note below
vii)	Details of related party transactions, e.g, contribution to a trust controlled by the Company in relation to CSR expenditure as per the relevant accounting standard	2,335	2,108
viii)	Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	–	–

Note: Eradication of hunger and malnutrition, promoting education, women empowerment, art and culture, healthcare, destitute care and rehabilitation, disaster relief, and rural development projects.

## 2.23 Segment reporting

The Company's business activity, falls within a single primary business segment, i.e. providing products, platforms and related services. Accordingly, disclosures as required under IND AS 108, Segment Reporting, have not been separately presented in the financial statements since the information is available directly from the Statement of Profit and Loss.

## 2.24 Analytical ratios

Particulars	Numerator	Denominator	As at March 31,		Movement (in %)
			2025	2024	
Current ratio	Current assets	Current liability	2.5	2.0	25*
Return on Equity (ROE)	Net profits after taxes	Average shareholder's equity	73.1%	62.3%	10.8
Trade receivables turnover ratio	Net credit revenue	Average accounts receivable	20.2	19.8	1.9
Trade payables turnover ratio	Net credit purchases	Average trade payables	72.6	46.6	55.7#
Net capital turnover ratio	Net sales	Working capital	2.9	4.0	(28.3)**
Net profit ratio	Net profit	Net sales	26.8%	23.4%	3.4
Return on capital employed (ROCE)	Earning before interest and taxes	Capital employed <sup>(1)</sup>	86.2%	96.9%	(10.7)
Return on investment	Gain from investments	Weighted average investment	7.1%	6.9%	0.2

<sup>(1)</sup> Tangible net worth + Deferred tax liabilities + Lease liabilities

\* Current ratio has increased due to increase in current assets.

# Trade payables turnover ratio has increased due to a drop in average trade payables.

\*\* Working capital increase is higher than the increase in revenue.

## 2.25 Function-wise classification of Statement of Profit and Loss

Particulars	Year ended March 31,	
	2025	2024
Revenue from operations	4,08,972	3,56,938
Cost of sales	2,18,594	2,03,831

## Infosys Public Services Inc.

# Independent Auditor's Report

To the Board of Directors of Infosys Public Services Inc.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS PUBLIC SERVICES INC. ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Emphasis of matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 1.2 to the special purpose financial statements, which describes the basis of accounting. The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act, 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations. As a result, the special purpose financial statements may not be suitable for another purpose. The special purpose financial statements cannot be referred to or distributed or included or used for any other purpose except with our prior consent in writing. Our report is intended solely for the above purpose and is not to be used, referred to or distributed for any other purpose without our prior written consent.

Our opinion is not modified in respect of this matter.

### Responsibilities of Management and Those Charged with Governance for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

# Overview and Notes to the financial statements

## 1 Overview

### 1.1 Company overview

Infosys Public Services operations are to provide solutions that span the entire software lifecycle encompassing technical consulting, design, development, re-engineering, maintenance, systems integration, package evaluation and implementation, testing and infrastructure management services.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Holding Company, Infosys Limited under the requirements of section 129(3) of the Companies Act, 2013 and for issuing Annual Performance Report ("APR"), which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis, except for certain financial instruments, which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendments rules issued thereafter.

Items included in the company's financial statements are measured using the currency of the primary economic environment in which the entity operates (i.e., the "functional currency"). The functional currency of the company is United States Dollars ("US Dollars"), and the financial statements are also presented in US Dollars. All amounts included in the financial statements are reported in US Dollars unless otherwise stated.

Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited condensed standalone interim financial statements have been discussed in the respective notes.

### 1.3 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities at the date of financial statement and reported amounts of income and expenses during the period. The application of accounting policies that involve critical accounting estimates involving complex and subjective judgements and the use of assumptions in the financial statements have been disclosed in Note 1.4.

Accounting estimates could change from period to period, and actual results could differ from those estimates. Appropriate changes in estimates are made as Management becomes aware of changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in

the period in which they are made, and if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Critical accounting Estimates

#### 1.4.1 Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgment.

Fixed-price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed price maintenance contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenue requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion, and other factors to determine whether it controls the specified goods or services and, therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

#### 1.4.2 Income taxes

The Company's major tax jurisdictions are in the US, though the Company also files tax returns in Canada.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. Also, Refer to Note no. 2.13.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

#### 1.4.3 Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology (Refer to Note no 2.1).

### 2.1 Property, Plant and Equipment

#### Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended

by management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years
Leasehold improvements	Lower of lease term or Useful life

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Leasehold improvements are amortized over the lower of the lease term or the useful life of the asset.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset, and the resultant gains or losses are recognized in the Statement of Profit and Loss.

#### Impairment

Property, plant and equipment and Intangible assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell or the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated unit ("CGU") to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025, were as follows:

(in US\$)					
Particulars	Office Equipment	Computer Equipment	Furniture & Fixtures	Leasehold Improvement	Total
Gross carrying value as of April 1,2024	146,210	437,650	99,251	517,219	1,200,330
Additions	6,602	496,300	–	–	502,902
Deletions	–	(15,344)	–	–	(15,344)
Gross carrying value as of March 31,2025	152,812	918,606	99,251	517,219	1,687,888
Accumulated Depreciation as of April 1,2024	(34,937)	(264,526)	(29,525)	(108,918)	(437,906)
Depreciation	(28,739)	(101,455)	(17,676)	(103,637)	(251,506)

Particulars	Office Equipment	Computer Equipment	Furniture & Fixtures	Leasehold Improvement	Total
Accumulated depreciation on deletions	–	15,171	–	–	15,171
Accumulated Depreciation as of March 31,2025	(63,676)	(350,810)	(47,201)	(212,555)	(674,242)
Carrying value as of April 1,2024	111,273	173,124	69,726	408,301	762,424
Carrying value as of March 31,2025	89,136	567,796	52,050	304,664	1,013,646

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2024, were as follows:

(in US\$)					
Particulars	Office Equipment	Computer Equipment	Furniture & Fixtures	Leasehold Improvement	Total
Gross carrying value as of April 1,2023	193,376	923,841	179,756	772,153	2,069,126
Additions	24,517	86,137	7,407	78,900	196,961
Deletions	(71,683)	(572,328)	(87,912)	(333,834)	(1,065,756)
Gross carrying value as of March 31,2024	146,210	437,650	99,251	517,219	1,200,330
Accumulated Depreciation as of April 1,2023	(57,452)	(631,958)	(74,703)	(252,221)	(1,016,334)
Depreciation	(38,300)	(142,714)	(29,930)	(151,781)	(362,725)
Accumulated depreciation on deletions	60,815	510,146	75,108	295,084	941,153
Accumulated Depreciation as of March 31,2024	(34,937)	(264,526)	(29,525)	(108,918)	(437,906)
Carrying value as of April 1,2023	135,924	291,883	105,053	519,932	1,052,792
Carrying value as of March 31,2024	111,273	173,124	69,726	408,301	762,425

The aggregate depreciation has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## Notes to the financial statements

### 2.2 Loans

(in US\$)		
Particulars	As at March 31,	
	2025	2024
Non-Current		
Loan receivables considered good - Unsecured (Refer to Note 2.18 (b) )	48,800,000	48,800,000
Total non-current loans	48,800,000	48,800,000
Current		
Loan receivables considered good - Unsecured (Refer to Note 2.18 (b))	136,107,898	20,000,000
Total current loans	136,107,898	20,000,000
Total Loans	184,907,898	68,800,000
(1) Includes loans to fellow subsidiaries (Refer to Note 2.18 (b))	184,907,898	68,800,000

### 2.3 Trade receivables

(in US\$)		
Particulars	As at March 31,	
	2025	2024
Current		
Unsecured		
Considered good <sup>(1)</sup>	32,566,011	23,063,339
Less: Allowances for credit losses	(978,952)	(884,113)
Total trade receivables	31,587,059	22,179,226
(1) Includes dues from holding company (Refer to Note 2.18 (b))	71,301	88,907

Trade Receivable ageing schdeule for the year ended as on March 31 2025, and March 31 2024, are as follows:

(In US\$)

Particulars	Not Due	Outstanding for following periods from due date of payment					Total
		Less than 6 months	6 months - 1 year	1-2 years	2-3 years	More than 3 years	
Undisputed Trade receivables – considered good	28,165,445	3,854,439	–	–	–	–	32,019,884
	16,081,278	6,435,934	–	–	–	–	22,517,212
Disputed Trade receivables – considered good	–	–	–	–	546,127	–	546,127
	–	–	–	546,127	–	–	546,127
Less: Allowance for credit loss							(978,952)
							(884,113)
Total trade receivables							31,587,059
							22,179,226

## 2.4 Cash and cash equivalents

(in US\$)

Particulars	As at March 31,	
	2025	2024
Balances with Bank		
In current accounts	9,847,950	20,856,852
In deposits accounts	–	70,000,000
	9,847,950	90,856,852

## 2.5 Other Financial Assets

(in US\$)

Particulars	As at March 31,	
	2025	2024
Non Current		
Interest accrued on loan <sup>(1)(3)</sup>	–	2,269,876
Unbilled revenues <sup>(1)#</sup>	–	5,050,591
	–	7,320,467
Current		
Unbilled revenues <sup>(1)#</sup>	15,018,868	21,686,128
Interest accrued on loan <sup>(1)(3)</sup>	2,711,458	484,933
Others <sup>(1)(2)</sup>	1,444,015	1,341,247
	19,174,341	23,512,308
Total	19,174,341	30,832,775
<sup>(1)</sup> Financial assets carried at amortized cost.	19,174,341	30,832,775
<sup>(2)</sup> Includes dues from holding company and other group companies (Refer to Note 2.18 (b))	1,380,583	751,726
<sup>(3)</sup> Includes interest accrued on loan to fellow subsidiaries (Refer to Note 2.18 (b) )	2,711,458	2,754,809

# Classified as financial asset as right to consideration is unconditional and is due only after a passage of time

## 2.6 Other Current Assets

(in US\$)

Particulars	As at March 31,	
	2025	2024
Current		
Payment to vendors for supply of goods	706	16,897
Prepaid expenses <sup>(3)</sup>	392,075	363,822
Unbilled Revenue <sup>(1)</sup>	9,960,331	7,405,378
Withholding taxes <sup>(2)</sup>	64,344	250,307
Others	15,784	–
Total other Current assets	10,433,240	8,036,404
<sup>(1)</sup> Classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.		
<sup>(2)</sup> Withholding taxes related to employees		
<sup>(3)</sup> Includes dues from other group companies		
	19,293	49,466

## 2.7 Equity

### Equity Share Capital

(In US\$, except equity share data)

	As at March 31,	
	2025	2024
Authorized		
Equity shares, USD 0.5 (USD 0.5) per value		
40,000,000 (40,000,000) equity shares	20,000,000	20,000,000
Issued, subscribed and paid-up		
Equity shares, USD 0.5 (USD 0.5) par value	17,500,000	17,500,000
35,000,000 (35,000,000) equity shares fully paid up	17,500,000	17,500,000

The Company has only one class of shares referred to as equity shares having a par value of USD 0.5. Each holder of equity shares is entitled to one vote per share.

As at March 31, 2025, the company had one member, Infosys Limited (the "member"). In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts.

#### The details of shareholder holding more than 5% shares as at:

Name of the shareholder	As at March 31,		As at March 31,	
	2025		2024	
	Number of shares	% held	Number of shares	% held
Infosys Limited, the holding company	35,000,000	100.00	35,000,000	100.00

The reconciliation of the number of shares outstanding and the amount of share capital as at :

(in US\$ except as stated otherwise)

Particulars	As at March 31,		As at March 31,	
	2025		2024	
	Number of shares	Amount	Number of shares	Amount
At the beginning of the period	35,000,000	17,500,000	35,000,000	17,500,000
Add: Shares issued during the period	–	–	–	–
At the end of the period	35,000,000	17,500,000	35,000,000	17,500,000

#### Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period.

## 2.8 Trade payables

(in US\$)

Particulars	As at March 31,	
	2025	2024
Trade payables <sup>(1)</sup>	15,395,072	12,577,140
	15,395,072	12,577,140
<sup>(1)</sup> Includes dues to holding company and other group companies (refer note 2.18(b))	12,602,145	7,636,596

Trade Payable ageing schedule for the year ended as on March 31, 2025, and March 31, 2024, are as follows:

							(In US\$)
Particulars	Not Due	Outstanding for following periods from due date of payment				Total	
		Less than 1 year	1-2 years	2-3 years	More than 3 years		
Outstanding dues to MSME	–	–	–	–	–	–	–
	–	–	–	–	–	–	–
Others	2,755,271	12,639,801	–	–	–	15,395,072	
	3,972,743	8,604,397	–	–	–	12,577,140	
Total trade payables						15,395,072	
						12,577,140	

## 2.9 Other Financial Liabilities

			(In US\$)
Particulars	As at March 31,		
	2025	2024	
Current			
Others			
Compensated absences	2,901,490	2,434,618	
Accrued compensation to employees <sup>(1)</sup>	2,952,605	2,850,653	
Accrued expenses <sup>(1)</sup>	18,283,384	30,057,253	
Payable to related parties <sup>(1)*</sup>	671,892	1,181,057	
Others payables <sup>(1)</sup>	72,544	60,235	
	24,881,915	36,583,816	
(1) Financial liability carried at amortized cost	21,980,425	34,149,198	
*Includes dues to holding company and other group companies (Refer to Note 2.18(b))	658,331	1,181,057	

## 2.10 Other Liabilities

			(In US\$)
Particulars	As at March 31,		
	2025	2024	
Current			
Unearned revenue	12,270,520	9,702,597	
Others			
Withholding taxes payable	378,364	748,894	
	12,648,884	10,451,491	

## 2.11 Provisions

### Accounting Policy

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### a. Post-sales client support and others

The Company provides its clients with a fixed-period post-sales support on its fixed-price and fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

			(In US\$)
Particulars	As at March 31,		
	2025	2024	
Current			
Others			
Post-sales client support and other provisions	870,729	853,191	
Total provisions	870,729	853,191	

The movement in provision for post-sales client support and other provisions is as follows:

			(In US\$)
Particulars	For the Year ended March 31,		
	2025	2024	
Balance at the beginning	853,191	1,292,832	
Provision recognized / (reversed)	17,538	(360,284)	
Provision utilized	–	(79,357)	
Balance at the end	870,729	853,191	

Provision for post-sales client support and other provisions are expected to be utilized over a period of one year.

## 2.12 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU assets") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined as Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost using the effective interest rate method at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, incremental borrowing rates in the countries of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The changes in the carrying value of right-of-use assets for the year ended March 31, 2025, are as follows:

(In US\$)	
Particulars	Buildings
Balance as of April 1, 2024	2,525,242
Addition/Adjustments*	44,338
Depreciation	(305,366)
Translation differences	—
Balance as of March 31, 2025	2,264,214

\* Addition / Adjustment includes lease incentive

The changes in the carrying value of right-of-use assets for the year ended March 31, 2024, are as follows:

(In US\$)	
Particulars	Buildings
Balance as of April 1, 2023	3,253,386
Additions	(412,939)
Depreciation	(315,205)
Translation differences	—
Balance as of March 31, 2024	2,525,242

The break-up of current and non-current lease liability as at March 31, 2025, and March 31, 2024, is as follows:

(In US\$)		
Particulars	As at March 31,	
	2025	2024
Current Lease Liability	364,585	305,903
Non-Current Lease Liability	2,588,772	2,814,474
Total	2,953,357	3,120,377

The movement in lease liability during the year ended March 31, 2025, and March 31, 2024, is as follows:

(In US\$)		
Particulars	For the Year ended March 31,	
	2025	2024
Balance as of April 1	3,120,375	3,333,546
Additions	102,842	—
Interest accrued during the period	128,409	123,638
Lease Payments	(369,546)	(334,743)
Translation differences	(28,723)	(2,066)
Balance as of March 31	2,953,357	3,120,375

The table below provides details regarding the contractual maturities of lease liabilities on undiscounted basis as at March 31, 2025, and March 31, 2024:

(In US\$)

Particulars	As at March 31,	
	2025	2024
Less than one year	417,367	419,812
One to five years	1,763,834	1,760,122
More than five years	1,367,786	1,524,664
Total	3,548,987	3,704,598

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The aggregate depreciation on ROU assets has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## 2.13 Income taxes

### Accounting Policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the condensed Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

Income tax expense in the Statement of Profit and Loss comprises:

(In US\$)

Particulars	For the year ended March 31,	
	2025	2024
Current tax	14,876,411	17,300,614
Deferred tax credit / (expense)	176,849	(403,786)
Income tax expense	15,053,260	16,896,828

Income tax expense for the year ended March 31, 2025, and March 31, 2024, includes reversals (net of provisions) of USD 902,693 and USD 214,643, respectively, pertaining to prior years.

The entire deferred income tax for the year ended March 31, 2025, and March 31, 2024, respectively, relates to the origination and reversal of temporary differences.

A reconciliation of income tax provision to the amount computed by applying the statutory income tax rate to the income before taxes is summarized below:

(In US\$)

Particulars	For the year ended March 31,	
	2025	2024
Profit before incomes taxes	55,907,214	58,359,162
Enacted tax rate	21%	21%
Computed expected tax expense	11,740,515	12,255,424
State Taxes	3,913,505	4,085,141
Branch Provision net off FTC	85,628	161,930
Disallowed Items	216,305	639,327
Tax pertaining to prior year	(902,693)	(214,643)
Others	–	(30,351)
Income tax expense	15,053,260	16,896,828

The details of income tax assets and income tax liabilities are as follows:

(In US\$)

Particulars	For the year ended March 31,	
	2025	2024
Income tax assets	–	2,201,607
Current Income tax liabilities	(2,099,486)	(3,260,414)
Net income tax liabilities	(2,099,486)	(1,058,807)

The gross movement in the current income tax asset/ (liability) for the year ended March 31, 2025, and March 31, 2024, is as follows:

(In US\$)

Particulars	For the year ended March 31,	
	2025	2024
Net income tax liabilities	(1,058,807)	(5,944)
Income tax paid	13,835,732	16,244,873
Income tax expense	(14,876,411)	(17,300,614)
Net income tax liability at the end	(2,099,486)	(1,058,806)

The movement in gross deferred income tax assets for the year ended March 31, 2025, is as follows:

(In US\$)			
Particulars	Carrying Value as on April 1, 2024	Changes through Profit & Loss	Carrying Value as on March 31, 2025
Deferred income tax assets	–	–	–
Property, plant and equipment	57,868	(47,624)	10,245
Compensated absences	685,545	130,145	815,690
Accrued compensation	800,074	32,627	832,701
Provision for post-sales customer support	238,894	4,909	243,803
Trade receivables	323,913	27,869	351,782
Others	1,060,297	(324,775)	735,522
Total deferred income tax assets	3,166,591	(176,849)	2,989,742

The movement in gross deferred income tax assets for the year ended March 31, 2024, is as follows:

(In US\$)			
Particulars	Carrying Value as on April 1, 2023	Changes through Profit & Loss	Carrying Value as on March 31, 2024
Deferred income tax assets	–	–	–
Property, plant and equipment	(131,432)	189,299	57,867
Compensated absences	689,787	(4,242)	685,545
Accrued compensation	789,674	10,400	800,074
Provision for post-sales customer support	361,994	(123,099)	238,895
Trade receivables	161,235	162,678	323,913
Others	891,547	168,750	1,060,297
Total deferred income tax assets	2,762,805	403,786	3,166,590

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In US\$)		
Particulars	For the year ended March 31,	
	2025	2024
Deferred income tax assets after set off	2,989,742	3,166,590

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the

deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible.

Management considers the scheduled reversals of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes that it is more likely than not that the Company will realize the benefit of the deductible differences at March 31, 2025.

## 2.14 Revenue

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate a standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material contracts are recognized as the related services are performed. Fixed-price maintenance revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue from other fixed-price and other fixed-timeframe contracts, where the performance obligations are satisfied over

time is recognized using the percentage-of-completion method. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the term of the contracts and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and/or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue, while billing in excess of revenues is classified as contract liabilities (which we refer to as Unearned Revenues).

Revenue from licenses where the customer obtains a “right to use”, the license is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a “right to access” is recognized over the access period.

Arrangements to deliver software products generally have three elements : license, implementation and Annual Technical Services (ATS). When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two distinct separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the Company uses the expected cost-plus margin approach in estimating the standalone selling price. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

Contracts with customers includes third-party software in certain integrated services arrangements. In these types of arrangements, revenue from sale of third-party software licenses is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it controls the goods or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or service and therefore is acting as a principal or an agent.

The incremental costs of obtaining a contract (i.e., costs that would not have been incurred if the contract had not been obtained) are recognized as an asset if the Company expects to recover them. Certain eligible, nonrecurring costs (e.g. set-up or transition or transformation costs) that do not represent a

separate performance obligation are recognized as an asset when such costs (a) relate directly to the contract; (b) generate or enhance resources of the Company that will be used in satisfying the performance obligation in the future; and (c) are expected to be recovered. Such capitalized contract costs are amortized over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.

The Company presents revenues net of indirect taxes in its statement of profit and loss

Revenues for the year ended March 31, 2025, and March 31, 2024, are follows:

Particulars	(in US\$)	
	For the year ended March 31,	
	2025	2024
Revenue from software services	224,041,193	261,168,106
Total	224,041,193	261,168,106

### Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers for the year ended March 31, 2025, and March 31, 2024, by geography .

Particulars	(in US\$)	
	For the year ended March 31,	
	2025	2024
Revenues by Geography*		
North America	214,126,234	227,781,749
Rest of the world	9,914,959	33,386,357
Total	224,041,193	261,168,106

\* Geographical revenues is based on the domicile of customer

### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in Receivables, Unbilled Revenue, and Unearned Revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

Receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed price maintenance are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract, and therefore, the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed-timeframe contracts are classified as non-financial asset (contract asset) because the right to consideration is dependent on the completion of contractual milestones

Invoicing in excess of earnings are classified as unearned revenue.

During the year ended March 31, 2025 and March 31, 2024 , the company recognized revenue of USD 8,871,481 and USD

14,239,216 arising from opening unearned revenue as of April 1, 2024 and April 1, 2023 respectively.

During the year ended March 31, 2025 and March 31, 2024, USD 7,350,907 and USD 10,122,254 of unbilled revenue pertaining to other fixed price and fixed time frame contracts as of April 1, 2024 and April 1, 2023, respectively has been reclassified to Trade receivables upon billing to customers on completion of milestones.

### Remaining performance obligations disclosure

"The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations,

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2025, other than those meeting the exclusion criteria mentioned above is USD 112,630,955 . Out of this, the Group expects to recognize revenue of around 66% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2024 was USD 136,765,976 . The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

### 2.15 Other income

#### Accounting policy

Other income is comprised primarily of interest income and on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

### Foreign currency

#### Functional currency

The functional currency of the Company is the US Dollar. These financial statements are presented in US Dollar.

Other income / (expense) consists of the following:

Particulars	(in US\$)	
	For the year ended March 31,	
	2025	2024
Interest income on financial assets carried at amortized cost:		
Deposits with banks and others	629,383	2,740,791
Loan to fellow subsidiaries	8,116,025	5,142,299

Particulars	For the year ended March 31,	
	2025	2024
Exchange gains / (losses) on translation of other assets and liabilities	(643,296)	(215,780)
Other Miscellaneous income net	(8,317)	28,043
Interest received on deposit with others	169,867	–
<b>Total</b>	<b>8,263,662</b>	<b>7,695,353</b>

### 2.16 Expenses

(in US\$)

Particulars	For the year ended March 31,	
	2025	2024
Employee benefit expenses		
Salaries including bonus	51,129,062	50,804,677
Share-based payments to employees	395,038	123,987
Staff welfare	68,128	30,852
	51,592,228	50,959,516
Cost of software packages and others		
For own use	–	276,040
Third-party items bought for service delivery to clients	9,421,371	36,977,183
	9,421,371	37,253,223
Other expenses		
Rates and taxes	226,894	210,536
Branding and marketing expenses	225,340	207,236
Provision / (reversal) for post-sales client support	42,643	(396,734)
Impairment loss under expected credit loss model	72,963	579,389
Communication expenses	59,965	(251,523)
Repair and Maintenance	80,881	96,766
Statutory Audit fees*	27,600	24,000
Others	66,182	37,103
<b>Total</b>	<b>802,468</b>	<b>506,773</b>

### 2.17 Financial Instruments

#### Accounting Policy

#### 2.17.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at the trade date.

## 2.17.2 Subsequent measurement

### a. Non-derivative financial instruments

#### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments, which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

#### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories are subsequently fair valued through profit or loss.

#### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 2.17.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

## 2.17.4 Fair value of financial instrument

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices, and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 2.17.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenue, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenue with no

significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime ECL. The amount of expected credit losses or (reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in Statement of Profit and Loss.

### Financial instruments by category

The carrying value and fair value of financial instruments as of March 31, 2025, and March 31, 2024, are as follows:

Particulars	(In US\$)	
	As at March 31,	
	2025	2024
Assets:		
Cash and cash equivalents (Refer to Note 2.4)	9,847,950	90,856,852
Trade receivables (Refer to Note 2.3)	31,587,059	22,179,226
Loans (Refer to Note 2.2)	184,907,898	68,800,000
Other financial assets (Refer to Note 2.5)	19,174,341	30,832,775
Total	245,517,248	212,668,853
Liabilities:		
Trade payables (Refer to Note 2.8)	15,395,072	12,577,140
Lease Liabilities ( Refer to Note 2.12)	2,953,357	3,120,377
Other financial liabilities (Refer to Note 2.9)	21,980,425	34,149,198
Total	40,328,854	49,846,715

## Financial risk management

### Financial risk factors

The company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the company is foreign exchange risk. The company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently the company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies.

The following table analyses the foreign currency risk from financial assets and liabilities as at March 31, 2025:

(In US\$)			
Particulars	Canadian Dollar	Other currencies	Total
Net financial assets	10,095,183	1,650	10,096,833
Net financial liabilities	(4,115,402)	(48,546)	(4,163,947)
Net assets / (liabilities)	5,979,781	(46,896)	5,932,886

The following table analyses the foreign currency risk from financial assets and liabilities as at March 31, 2024:

(In US\$)			
Particulars	Canadian Dollar	Other currencies	Total
Net financial assets	9,461,979	1,590	9,463,569
Net financial liabilities	(6,385,412)	(136,655)	(6,522,067)
Net assets / (liabilities)	3,076,567	(135,065)	2,941,502

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to USD 31,587,059 USD 22,179,226 as of March 31, 2025 and March 31, 2024, respectively and unbilled revenue amounting to USD 24,979,199 and USD 34,142,097 as of March 31, 2025 and March 31, 2024, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. The company uses

the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

The following table gives details in respect of percentage of revenues generated from top customer and top ten customers:

(In %)		
Particulars	Year ended March 31,	
	2025	2024
Revenue from top customers - Customer A	15	15
Revenue from top customers - Customer B	12	10
Revenue from top ten customers	70	70

### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2025, and March 31, 2024, is 94,464 and 579,389 respectively.

Movement in credit loss allowance:

(In US\$)		
Particulars	Year ended March 31,	
	2025	2024
Balance at the beginning	1,156,835	575,841
Impairment loss recognized / (reversed)	94,464	579,389
Write-offs	(21,501)	–
Translation differences	26,567	1,605
Balance at the end	1,256,365	1,156,835

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Ratings are monitored periodically and the Company has considered the latest available credit ratings as at the date of approval of these financial statements.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The company believes that the working capital is sufficient to meet its current requirements.

As of March 31, 2025, the Company had a working capital of USD 150,889,817, including cash and cash equivalents of USD 9,847,950. As of March 31, 2024, the company had a working capital of USD 100,552,836, including cash and cash equivalents of USD 90,856,852.

As of March 31, 2025 and March 31, 2024, the compensated absences were USD 2,901,490 and USD 2,434,618 respectively. Further, as of March 31, 2025, and March 31, 2024, the Company had no outstanding bank borrowings. Accordingly, no liquidity risk is perceived.

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2025

(In US\$)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	15,395,072	–	–	–	15,395,072
Other liabilities (Refer Note 2.10)	21,980,425	–	–	–	21,980,425

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2024

(In US\$)

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	12,577,140	–	–	–	12,577,140
Other liabilities (Refer Note 2.10)	34,149,198	–	–	–	34,149,198

	2025	2024
Commitments		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits) <sup>(1)</sup>	–	12,117
Total	–	12,117

<sup>(1)</sup> Capital contracts primarily comprise commitments for infrastructure facilities and computer equipmen

## 2.20 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'Management approach', as defined in Ind AS 108, Segment Reporting the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.21 Subsequent Event

There are no material subsequent events between April 01, 2025 and May 30, 2025, which requires adjustments or disclosures in the consolidated financial statements for the year ended March 31, 2025.

## 2.22 Ratios

The following are analytical ratios for the year ended March 31, 2025 and March 31, 2024

Particulars	Numerator	Denominator	March 31 2025	March 31 2024	Variance
Current Ratio	Current assets	Current liabilities	3.7	2.6	43.2% *
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.014	0.019	(24.2%)
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	112.4	126.3	(11.0%)
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	28.5%	28.9%	(0.4%)
Trade receivables turnover ratio	Revenue	Average Trade Receivable	8.3	7.8	6.6%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	8.9	11.5	(22.6%)
Net capital turnover ratio	Revenue	Working Capital	1.5	2.6	(42.8%) **
Net profit ratio	Net Profit	Revenue	18.2%	15.9%	2.4%
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	27.3%	35.6%	(8.3%)

<sup>(1)</sup>Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup>Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

\*Due to Increase in current assets primarily due to Loans, which is mainly due cash pooling loan is given to McCamish Systems.

\*\* Due to decrease in profits and Increase in current assets, primarily due to increase in C&CE, and out of which cash pooling loan is given to McCamish Systems.

## Infy Consulting Company Limited

# Independent Auditor's Report

To the Members of Infy Consulting Company Limited

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infy Consulting Company Limited ("the Company"), which comprise the Balance Sheet as at March, 31<sup>st</sup> 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infy Consulting Company Limited is a wholly-owned subsidiary of Infosys Consulting Holding AG (Infosys Lodestone) (formerly Lodestone Holding AG). The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from April 1 to March 31 for the current period and from April 1 to March 31 for the previous period.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (i.e., the “functional currency”). The functional currency of the Company is the Great Britain Pound (GBP), and the financial statements are also presented in GBP. All amounts included in the financial statements are reported in GBP, unless otherwise stated. Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company’s presentation currency is the Great Britain Pound

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the financial statements have been disclosed in Note 1.4. Accounting estimates could change from period to period.

Actual results could differ from those estimates. Management makes appropriate changes in estimates as it becomes aware of changes in circumstances surrounding the estimates.

Changes in estimates are reflected in the financial statements in the period in which they are made, and if material, their effects are disclosed in the notes to the financial statements.

## 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Effective January 1, 2019, the Company adopted Ind AS 115 “Revenue from Contracts with Customers” using the cumulative catch-up transition method, applied to contracts that were not completed as of January 1, 2019. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised significant accounting policies related to revenue recognition. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

### 1.5.1 Time and material

Revenue on time-and-material contracts is recognized as the related services are performed, and revenue from the end of the last billing to the reporting date is recognized as unbilled revenue.

### 1.5.2 Fixed price

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

### 1.5.3 Unbilled / Unearned

Revenues in excess of billing are classified as contract assets (which we refer as unbilled revenue) while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

### 1.5.4 Licenses

Revenue from licenses where the customer obtains a “right to use” the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a “right to access” is recognized over the access period. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts is allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of a standalone selling price for implementation, the performance obligation is estimated using the expected cost-plus margin approach. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered

to be a single performance obligation, and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support, and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

### 1.5.5 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

### 1.5.6 Provisions for estimated losses

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

### 1.5.7 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

## 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## 1.7 Post-sales client support and warranties

The Company provides its clients with a fixed-period warranty for corrections of errors and telephone support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in the cost of sales. The Company estimates such costs based on historical experience, and the estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

## 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

## 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years

<sup>(1)</sup> For this class of assets, based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date are classified as capital advances under other non-current assets, and the cost of assets not put to use before such date is disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant, and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset, and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed of are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end

## 1.10 Financial instruments

### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.10.2 Subsequent measurement

#### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### *(ii) Financial assets at fair value through other comprehensive income*

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Further, based on its business model, for its investments, which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

#### *(iii) Financial assets at fair value through profit or loss*

A financial asset that is not classified in any of the above categories is subsequently fair valued through profit or loss.

#### *(iv) Financial liabilities*

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### **1.11 Fair value of financial instruments**

In determining the fair value of its financial instruments, the Company uses various methods and assumptions based on market conditions and risks at each reporting date. These methods include discounted cash flow analysis, available quoted market prices, and dealer quotes. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

### **1.12 Impairment**

#### **a. Financial assets**

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets, which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, they are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss in the Statement of Profit or Loss.

#### **b. Non-financial assets**

##### *(i) Property, plant and equipment*

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other

assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment is recognized in the Statement of Profit and Loss and is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

### **1.13 Employee Benefits**

#### **Compensated absences**

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

### **1.14 Foreign currency**

#### **Functional currency**

The functional currency of the company is the GBP.

#### **Transactions and translations**

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are recognized in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### **1.15 Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and

tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.16 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from the Company's operating, investing, and financing activities are segregated.

### 1.17 Other income

Other income is comprised primarily of interest income, dividend income, and exchange gain/loss on forward and options contracts, and on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

### 1.18 Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.19 Leases

Lease under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Such assets acquired are capitalized at the fair value of the asset or the present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognized as an expense on a straight-line basis in the Statement of Profit and Loss over the lease term

### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and the useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025, are as follows:

(In GBP)

Particulars	Leasehold Improvements	Computer equipment	Total
Gross carrying value as of April 1, 2024	122,869	1,082,185	1,205,054
Additions / Adjustments	–	360,752	360,752
Deletions / Adjustments	–	(109,648)	(109,648)
Gross carrying value as of March 31, 2025	122,869	1,333,289	1,456,158
Accumulated depreciation as of April 1, 2024	122,869	757,492	880,361

(In GBP)		
Particulars	As at March 31,	
	2025	2024
Current		
Others		
Deferred contract cost	–	6
Prepaid expenses	422,806	2,076,595
Unbilled Revenue	10,485	5,402
Cost of fulfillment	3,305,486	3,305,486
Advance for supply of goods and rendering of services	83,656	–
Devices - Dealer type lease	99,639	125,269
Withholding taxes and others	6,204,492	12,232,131
Total Current other assets	10,126,564	17,744,889

## 2.8 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

(In GBP)		
Particulars	As at March 31,	
	2025	2024
Assets		
Cash and cash equivalents (Refer to Note 2.6)	9,231,848	15,927,265
Trade receivables (Refer to Note 2.5)	37,194,643	20,105,141
Loans (Refer to Note 2.3)	74,433	86,070
Other financial assets (Refer to Note 2.4)	7,236,802	8,552,561
Total	53,737,726	44,671,037
Liabilities		
Trade payables (Refer to Note 2.10)	17,791,365	12,141,900
Lease liabilities (Refer to Note 2.15)	4,216,081	3,745,896
Other financial liabilities (Refer to Note 2.11)	18,724,399	21,146,201
Total	40,731,845	37,033,997

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximates their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

## Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to GBP 37,194,643 and GBP 20,105,141 as of March 31, 2025, and March 31, 2024, respectively and unbilled revenue amounting to GBP 2,524,305 as of March 31, 2025, and GBP 4,795,873 as of March 31, 2024, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits, and continuously monitoring the creditworthiness of customers to whom the Company grants credit terms in the normal course of business. As per Ind AS 109, the Company uses the ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default

swap quotes, credit ratings from credit rating agencies, and the Company's historical experience for customers.

## Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

As of March 31, 2025, the Company had a positive working capital of GBP 8,293,487, including cash and cash equivalents of GBP 9,231,848. As of March 31, 2024, the Company had a positive working capital of GBP 3,283,418, including cash and cash equivalents of GBP 15,927,265.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2025:

In GBP					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade Payables (Refer to Note 2.10)	17,791,365	–	–	–	17,791,365

Current		
Unearned revenue	3,283,648	3,880,837
Withholding taxes and others	6,949,255	14,572,487
	10,232,903	18,453,324

## 2.13 Provisions

Particulars	As at March 31,	
	2025	2024
Current		
Others		
Post-sales client support and warranties	149,631	247,014
Total provisions	149,631	247,014

Provision for post-sales client support and warranties

The movement in the provision for post-sales client support and warranties and others is as follows :

Particulars	As at March 31,	
	2025	2024
Balance at the Beginning	247,014	184,072
Provision recognized / (reversed)	(58,216)	66,493
Exchange difference	(39,167)	(3,551)
Balance at the end	149,631	247,014

Provision for post-sales client support and warranties and other provisions are expected to be utilized over a period of six months to one year.

## 2.14 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	Year ended March 31,	
	2025	2024
Current taxes	3,178,757	2,024,906
Deferred taxes	(312,261)	36,398
Income tax expense	2,866,496	2,061,304

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

Particulars	Year ended March 31,	
	2025	2024
Profit before income tax	9,795,201	9,238,345
Enacted tax rates in United Kingdom (%)	25.00%	25.00%
Computed expected tax expense	2,448,800	2,309,586
Expenses not deductible for tax purposes	–	–
Tax provisions /(reversals)	52,682	68,570
Prior period tax expense	204,042	(614,856)
Permanent Difference	59,827	174,854
Deferred Tax catch up	131,801	134,304
Others	(30,656)	(11,154)
Income tax expense	2,866,496	2,061,304

The applicable United Kingdom statutory tax rate for year ended March 31, 2025 and March 31, 2024 is 25%

The details of income tax assets and income tax liabilities are as follows :

Particulars	As at March 31,	
	2025	2024
Income tax assets	448,403	865,710
Current income tax liabilities	(3,777,140)	(3,201,341)
Net current income tax assets / (liability) at the end	(3,328,737)	(2,335,631)

The gross movement in the current income tax asset / (liability) is as follows:

Particulars	Year ended March 31,	
	2025	2024
Net current income tax asset / (liability) at the beginning	(2,335,631)	(1,660,725)
Income tax paid	2,185,651	1,350,000
Current income tax expense	(3,178,757)	(2,024,906)
Net current income tax asset / (liability) at the end	(3,328,737)	(2,335,631)

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

Particulars	(In GBP)	
	Year ended March 31,	
	2025	2024
Deferred income tax assets		
Property, plant and equipment	58,861	16,399
Others	572,799	302,999
Total deferred income tax assets	631,660	319,398

## 2.15 Leases

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2025:

Particulars	(In GBP)	
	Category of ROU asset	Total
	Computers	
Balance as of April 1, 2024	334,424	334,424
Additions	2,280,764	2,280,764
Deletion	(1,165,350)	(1,165,350)
Translation difference	119,867	119,867
Depreciation	374,113	374,113
Balance as of March 31, 2025	1,943,818	1,943,818

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2024:

Particulars	(In GBP)	
	Category of ROU asset	Total
	Computers	
Balance as of April 1, 2023	1,771,228	1,771,228
Additions	1,097,673	1,097,673
Deletion	(1,002,683)	(1,002,683)
Translation difference	11,873	11,873
Depreciation	(1,543,667)	(1,543,667)
Balance as of March 31, 2024	334,424	334,424

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at March 31, 2025 and March 31, 2024

Particulars	(In GBP)	
	As at March 31,	
	2025	2024
Current lease liabilities	2,368,094	1,932,668
Non-current lease liabilities	1,847,987	1,813,228
Total	4,216,081	3,745,896

The following is the movement in lease liabilities during the year ended March 31, 2025 and March 31, 2024

Particulars	(In GBP)	
	Year ended March 31,	
	2025	2024
Balance at the beginning	3,745,896	4,949,242
Additions	2,280,764	1,097,673
Finance cost accrued during the period	111,864	77,332
Payment of lease liabilities	(1,935,256)	(1,792,086)
Translation Difference	12,813	(586,265)
Balance at the end	4,216,081	3,745,896

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2025 and March 31, 2024 on an undiscounted basis:

Particulars	(In GBP)	
	As at March 31,	
	2025	2024
Less than one year	1,613,175	1,481,546
One to five years	1,783,104	1,531,168
More than five years	–	–
Total	3,396,279	3,012,714

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the ligations related to lease liabilities as and when they fall due.

Rental expense recorded for short-term leases was Nil for the year ended March 31, 2025 and as well as March 31, 2024.

## 2.16 Revenue from operations

Particulars	(In GBP)	
	Year ended March 31,	
	2025	2024
Income from consultancy services	213,356,023	207,213,899
	213,356,023	207,213,899

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2025, other than those meeting the exclusion criteria mentioned above, is GBP 12,762,431. Out of this, the company expects to recognize revenue of around 35% within the next one year and the remaining thereafter. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2024, other than those meeting the exclusion criteria mentioned above, is GBP 15,241,416.

## 2.17 Other income

Particulars	(In GBP)	
	Year ended March 31,	
	2025	2024
Miscellaneous income, net	493,082	666,503
	493,082	666,503

## 2.18 Expenses

## 2.20 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'Management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.21 Ratios

The ratios for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	Numerator	Denominator	March 31,		Variance
			2025	2024	
Current Ratio	Current assets	Current liabilities	1.2	1.1	9.1%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.1	0.1	(1.6%)
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	3.6	4.7	(23.9%) *
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	23.5%	28.8%	(5.3%)
Trade receivables turnover ratio	Revenue	Average Trade Receivable	7.4	10.8	(31.1%) **
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	8.4	11.3	(26.0%) ***
Net capital turnover ratio	Revenue	Working Capital	25.7	63.1	(59.2%) ****
Net profit ratio	Net Profit	Revenue	3.2%	3.5%	(0.2%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	26.7%	31.6%	(4.9%)

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

\* Debt Service Coverage Ratio has decrease due to decrease in earnings

\*\* Trade receivable turnover ratio has decreased due to reduction in average trade receivable

\*\*\* Trade payable turnover ratio has decreased due to increase in average trade payable.

\*\*\*\* Net capital turnover ratio decreased due to higher increase in working capital as compared to movement in revenue

*This page is left blank intentionally*

# Independent Auditor's Report

To The Board of Directors of Infosys Poland Sp. Z.o.o

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS POLAND Sp. z.o.o ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Emphasis of matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 1.2 to the special purpose financial statements, which describes the basis of accounting. The special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company, Infosys Limited under the requirements of section 129 (3) of the Companies Act, 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys BPM to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations. As a result, the special purpose financial statements may not be suitable for another purpose. The special purpose financial statements cannot be referred to or distributed or included or used for any other purpose except with our prior consent in writing. Our report is intended solely for the above purpose and is not to be used, referred to or distributed for any other purpose without our prior written consent.

Our opinion is not modified in respect of this matter.

### Responsibilities of Management and Those Charged with Governance for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a

material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Statement of Cash Flows

## Accounting policy

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(In PLN)			
Particulars	Note No.	Year ended March 31,	
		2025	2024
Cash flow from operating activities:			
Profit for the year		75,962,532	60,847,619
Adjustments to reconcile net profit to net cash provided by operating activities:			
Income tax expense	2.16	14,622,703	16,176,103
Depreciation and amortization	2.1 & 2.2	16,857,664	17,447,231
Finance cost		2,829,291	4,020,286
Interest on bank deposits and others		(20,500,239)	(19,316,190)

# Notes to the financial statements

## 1. Overview

### 1.1 Company overview

Infosys Poland Sp.z.o.o ("the Company") is a leading provider of business process management services to organizations that outsource their business processes. The Company leverages the benefits of accounting, book keeping and auditing activities; tax consultancy, computer consultancy activities, computer facilities management activities, other information technology and computer service activities, data processing, hosting and related activities, other information service activities not elsewhere classified, business and other management consultancy activities, research and experimental development on social sciences and humanities and other professional, scientific and technical activities not elsewhere classified.

The Company is incorporated and domiciled in Poland and has its registered office at ul. Pomorska 106A, 91-402 Łódź, Poland.. The Company is a wholly-owned subsidiary of Infosys BPM Limited.

The Company's financial statements are approved by the Company's Board of Directors on May 30, 2024.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the ultimate holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013 and for issuing annual performance report ("APR") which is required to be furnished by the Holding company, Infosys BPM Limited to authorized bank in accordance with Regulation 10 of Foreign Exchange Management (Overseas investment) regulations.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values i.e., House of fund. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the financial statements have been disclosed in Note 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in

estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Critical accounting estimates and judgements

#### a. Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to the contract are committed to performing their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

Fixed-price business process management services revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price business process management services contracts is recognized ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of the contract, because the services are generally discrete in nature and not repetitive. The use of a method to recognize the business process management services revenue requires judgment and is based on the promises in the contract and the nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for its other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion, as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. Also, refer to Note no. 2.17.

#### b. Income taxes

The Company's major tax jurisdiction is Poland. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also, refer to Note no. 2.16.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods

in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

### c. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. (Refer note no. 2.1).

### d. Impairment of goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on the higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash generating unit or the Company's cash generating units, which are benefiting from the synergies of the acquisition and which represent the lowest level at which goodwill is monitored for internal management purpose.

Market-related information and estimates are used to determine the recoverable amount. Key assumptions on which the Management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital, and estimated operating margins. Cash flow projections take into account past experience and represent the Management's best estimate about future developments.

## 2.1 Property, plant and equipment

### Accounting policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Plant and machinery <sup>(1)</sup>	5 years
Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years
Leasehold improvements	Over lease term or 5 years whichever is lower

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Depreciation methods, useful lives, and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date are classified as capital advances under other non-current assets, and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress.' Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset, and the resultant gains or losses are recognized in the Statement of Profit and Loss.

### Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell or the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit ("CGU") to which the asset belongs.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025 are as follows:

(In PLN)

Particulars	Leasehold improvements	Plant and machinery	Office equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as at April 1, 2024	10,816,984	843	2,713,722	21,978,230	1,246,496	36,756,275

Carrying value as at April 1, 2023	17,566	46	221,972	7,268,047	120,038	7,627,669

The aggregate depreciation has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## 2.2 Leases

### Accounting Policy

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and Computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except

for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. The ROU

assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. The ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined as Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and Right-of-use assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

### The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a financing or operating lease by reference to the ROU asset arising from the head lease.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2025

Particulars	Category of ROU asset		Total
	Buildings	Computers	
Balance as of April 1, 2024	42,863,985	5,206,852	48,070,837
Additions/Adjustments <sup>(1)</sup>	8,130,740	5,739,059	7,102,730
Deletions	(388,223)	(779,662)	(1,167,885)
Depreciation	(12,470,405)	(1,571,513)	(17,684,623)
Translation difference	-	-	-
Balance as of March 31, 2025	31,369,028	8,594,736	39,963,764

<sup>(1)</sup> Net of adjustments on account of modifications

The Following are the changes in the carrying value of right of use assets for the year ended March 31, 2024

Particulars	Category of ROU asset		Total
	Buildings	Computers	
Balance as of April 1, 2023	52,047,022	332,972	52,379,994
Additions/Adjustments*	3,550,504	6,707,325	10,257,829
Deletions	(66,329)	(1,077,829)	(1,144,158)
Depreciation	(12,667,212)	(755,616)	(13,422,828)
Balance as of March 31, 2024	42,863,985	5,206,852	48,070,837

\* Includes adjustments based on the change in Indexation rates and tenancy incentives.

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The break-up of current and non-current lease liability as at March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In PLN)	
	As at March 31,	
	2025	2024
Non-current lease liability	3 3,866,231	45,404,881
Current lease liability	18,508,736	16,266,187
Total	52,374,967	61,671,068

The movement in lease liabilities during the year ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In PLN)	
	As at March 31,	
	2025	2024
Balance as of April 1	61,671,068	72,049,939
Additions/Adjustments	7,101,735	10,404,917
Deletions	(393,734)	(75,776)
Finance cost accrued during the period	2,748,303	3,438,441
Payment of lease liabilities	(17,669,562)	(19,713,889)
Translation difference	(1,082,843)	(4,432,564)
Balance as of March 31	52,374,967	61,671,068

Rental expense recorded for short-term leases was PLN 567,927 for the year ended March 31, 2025 and PLN 1,744,146 for the year ended March 31, 2024.

The details regarding the contractual maturities of lease liabilities as at March 31, 2025 on an undiscounted basis are as follows:

Particulars	(In PLN)	
	As at March 31,	
	2025	2024
Less than one year	19,231,251	19,022,305
One to five years	35,177,906	48,577,051
More than five years	–	–
Total	54,409,157	67,599,356

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.3 Goodwill

### Accounting policy

Goodwill represents the purchase consideration in excess of the company's interest in the net fair value of identifiable assets, liabilities, and contingent liabilities of the acquired entity. When the net fair value of the identifiable assets, liabilities, and contingent liabilities acquired exceeds purchase consideration, the fair value of net assets acquired is reassessed, and the bargain purchase gain is recognized in capital reserve. Goodwill is measured at cost less accumulated impairment losses.

## Impairment

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit (CGU) is less than its carrying amount. For the impairment test, goodwill is allocated to the CGU or groups of CGUs which benefit from the synergies of the acquisition, and which represents the lowest level at which goodwill is monitored for internal management purposes. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or a group of assets.

Impairment occurs when the carrying amount of a CGU including goodwill exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU. Key assumptions in the cash flow projections are prepared based on current economic conditions and include estimated long-term growth rates, weighted average cost of capital, and estimated operating margins.

A summary of changes in the carrying amount of goodwill is as follows:

Particulars	(In PLN)	
	As at March 31,	
	2025	2024
Carrying value at the beginning	22,046,332	22,046,332
Translation differences	–	–
Carrying value at the end	22,046,332	22,046,332

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The value-in-use is determined based on specific calculations. These calculations use pre-tax cash flow projections for a CGU over a period of five years. An average of the range of each assumption used is mentioned below. As of March 31, 2025, the estimated recoverable amount of the CGU exceeded its carrying amount. The key assumptions used for the calculations are as follows:

Particulars	(In %)	
	As at March 31,	
	2025	2024
Long-term growth rate	2-5	2-5
Operating margins	10-11	10-11
Discount rate	11.5	11.01

## 2.4 Investments

## 2.8 Cash and cash equivalents

(In PLN)

Particulars	As at March 31,	
	2025	2024
Balances with banks		
In current and deposit accounts	430,070,461	315,607,275
Cash on hand	–	4,714
	430,070,461	315,611,989
Deposit with more than 12 months maturity	–	–

The deposits maintained by the Company with banks comprise of time deposits, which can be withdrawn by the Company at any point without prior notice or penalty on the principal.

## 2.9 Other assets

(In PLN)

Particulars	As at March 31,	
	2025	2024
Non-current		
Advances other than capital advance		
Prepaid expenses	312,554	299,338
Total non-current other assets	312,554	299,338
Current		
Advances other than capital advance		
Payment to vendors for supply of goods	12,055	27,293
Others		
Withholding taxes and others <sup>(1)</sup>	11,584,270	5,977,522
Prepaid expenses	2,332,054	1,922,348
Unbilled revenues <sup>(2)</sup>	4,334,240	8,633,246
Deferred contract cost <sup>(3)</sup>	11,799	10,700
Total current other assets	18,274,418	16,571,109
Total other assets	18,586,972	16,870,447

<sup>(2)</sup> Classified as a non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

<sup>(3)</sup> Deferred contract costs are upfront costs incurred for the contract and are amortized over the term of the contract. Costs that are expected to be amortized within twelve months from the Balance Sheet date have been presented as current

## 2.10 Financial instruments

### Accounting policy

#### 2.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at the trade date.

#### 2.10.2 Subsequent measurement

##### a. Non-derivative financial instruments

###### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are

solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments, which are classified as equity instruments, to present the subsequent changes in fair value in other comprehensive income based on its business model.

###### (iii) Financial assets at fair value through profit or loss

A financial asset that is not classified in any of the above categories is subsequently fair valued through profit or loss.

###### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

##### b. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

###### (i) Financial assets or financial liabilities, at fair value through profit or loss

This category has derivative financial assets or liabilities that are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated as a

hedge or is so designated but is ineffective as per Ind AS 109 is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value, and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss, and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the Balance Sheet date.

### 2.10.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged, cancelled, or expires.

### 2.10.4 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices, and dealer quotes. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

Refer to the table 'Financial instruments by category' below for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the Balance Sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 2.10.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenue, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenue with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime ECL. The amount of expected credit losses or (reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of Profit and Loss.

## Financial instruments by category

The carrying value and fair value of financial instruments by categories as at March 31, 2025 are as follows:

(In PLN)					
Particulars	Amortized cost	Financial assets/ liabilities at fair value through profit or loss		Total carrying value	Total fair value
		Designated upon initial recognition	Mandatory		
Assets:					
Cash and cash equivalents (Refer to Note 2.8)	430,070,461	–	–	430,070,461	430,070,461
Investments (Refer to Note 2.4)					
Preference and other securities	–	–	53,894,925	53,894,925	53,894,925
Trade receivables (Refer to Note 2.7)	86,098,435	–	–	86,098,435	86,098,435
Loans (Refer to Note 2.5)	46,655,490	–	–	46,655,490	46,655,490
Other financial assets (Refer to Note 2.6) <sup>(1)</sup>	30,464,223	–	2,540,700	33,004,923	33,004,923
Total	593,288,609	–	56,435,625	649,724,234	649,724,234
Liabilities:					
Trade payables (Refer to Note 2.13)	6,891,328	–	–	6,891,328	6,891,328
Lease liabilities (Refer to Note 2.2)	52,374,967	–	–	52,374,967	52,374,967
Other financial liabilities (Refer to Note 2.12)	71,908,503	–	174,300	72,082,803	72,082,803
Total	131,174,798	–	174,300	131,349,098	131,349,098

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones.

The carrying value and fair value of financial instruments by categories as at March 31, 2024 were as follows:

(In PLN)

Particulars	Amortized cost	Financial assets/ liabilities at fair value through profit or loss		Total carrying value	Total fair value
		Designated upon initial recognition	Mandatory		
Assets:					
Cash and cash equivalents (Refer to Note 2.8)	315,611,989	–	–	315,611,989	315,611,989
Investments (Refer to Note 2.4)					
Preference and other securities	–	–	44,623,242	44,623,242	44,623,242
Trade receivables (Refer to Note 2.7)	118,694,737	–	–	118,694,737	118,694,737
Loans (Refer to Note 2.5)	99,543,530	–	–	99,543,530	99,543,530
Other financial assets (Refer to Note 2.6) <sup>(1)</sup>	26,306,383	–	–	26,306,383	26,306,383
Total	560,156,639	–	44,623,242	560,156,639	604,779,882
Liabilities:					
Trade payables (Refer to Note 2.13)	8,093,062	–	–	8,093,062	8,093,062
Lease liabilities (Refer to Note 2.2)	61,671,068	–	–	61,671,068	61,671,068
Other financial liabilities (Refer to Note 2.12)	89,027,924	–	791,200	89,819,124	89,819,124
Total	158,792,054	–	791,200	159,583,254	159,583,254

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value hierarchy of assets and liabilities measured at fair value as at March 31, 2025 is as follows:

(In PLN)

Particulars	As at March 31, 2025	Fair value measurement at end of the reporting period using		
		Level 1	Level 2	Level 3
Assets				
Investments in other securities (Refer to Note 2.4)	53,894,925	–	–	53,894,925
Derivative financial instruments – gain on outstanding foreign currency forward and option contracts (Refer to Note 2.6)	2,540,700	–	2,540,700	–
Liabilities				
Derivative financial instruments – loss on outstanding foreign exchange forward contracts (Refer to Note 2.12)	174,300	–	174,300	–

The fair value hierarchy of assets and liabilities measured at fair value as at March 31, 2024 was as follows:

(In PLN)				
Particulars	As at March 31, 2024	Fair value measurement at end of the reporting year using		
		Level 1	Level 2	Level 3
Assets				
Investments in other securities (Refer to Note 2.4)	44,623,242	–	–	44,623,242
Derivative financial instruments – gain on outstanding foreign currency forward and option contracts (Refer to Note 2.6)	–	–	–	–
Liabilities				
Derivative financial instruments – loss on outstanding foreign exchange forward contracts (Refer to Note 2.12)	174,300	–	174,300	–

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally, and a major portion of the business is transacted in several currencies, consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Poland zloty and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the Poland zloty appreciates/ depreciates against these currencies.

The analysis of foreign currency risk from financial assets and liabilities as at March 31, 2025 is as follows:

(In PLN)

Particulars	US Dollar	Euro	United Kingdom Pound Sterling	Australian Dollar	Other currencies	Total
Net financial assets	49,419,257	81,071,419	3,929,492	–	367,073	134,787,241
Net financial liabilities	(4,617,137)	(47,990,196)	(80,831)	–	(110,716)	(52,798,880)
Total	44,802,120	33,081,223	3,848,661	–	256,357	81,988,361

The analysis of foreign currency risk from financial assets and liabilities as at March 31, 2024 was as follows:

(In PLN)

Particulars	US Dollar	Euro	United Kingdom Pound Sterling	Australian Dollar	Other currencies	Total
Net financial assets	151,781,322	87,499,338	5,142,558	–	697,292	245,120,510
Net financial liabilities	(7,441,016)	(58,908,076)	(104,629)	–	(1,915,289)	(68,369,010)
Total	144,340,306	28,591,262	5,037,929	–	(1,217,997)	176,751,500

## Sensitivity analysis between Poland zloty and USD

Particulars	Year ended March 31,	
	2025	2024
Impact on the Company's incremental operating margins	0.63%	0.68%

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting year and the current reporting year.

## Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign exchange forward contracts:

Particulars	As at March 31,			
	2025		2024	
	In million	In PLN	In million	In PLN
Forward contracts				
In US Dollar	27	104,574,536	43	171,609,091
In United Kingdom Pound Sterling	1	5,015,859	–	–
In Euro	8	33,381,060	–	–
Total forwards		142,971,454		171,609,091

The foreign exchange forward contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as at the Balance Sheet date:

Particulars	As at March 31,	
	2025	2024
Not later than one month	25,035,795	–
Later than one month and not later than three months	117,935,659	171,609,091
	142,971,454	171,609,091

(In PLN)

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts, and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The following table provides quantitative information about the offsetting of derivative financial assets and derivative financial liabilities:

Particulars	As at March 31,			
	2025		2024	
	Derivative financial asset	Derivative financial liability	Derivative financial asset	Derivative financial liability
Gross amount of recognized financial asset/liability	2,540,700	(174,300)	–	(791,200)
Amount set off	–	–	–	–
Net amount presented in Balance Sheet	2,540,700	(174,300)	–	(791,200)

(In PLN)

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty, resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to PLN 86,098,436 and PLN 118,694,737 as at March 31, 2025 and March 31, 2024 and unbilled revenue amounting to PLN 21,936,780 and PLN 26,065,321 as of March 31, 2025 and March 31, 2024, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits, and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of the adoption of Ind AS 109, the Company uses the ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies, and the Company's historical experience with customers.

### Write-off policy

Receivables are written off when there is no realistic prospect of recovery. This is generally the case when the Company determines through its continuous credit monitoring that the amount is not recoverable due to the financial inability of or disputes with the customer. In some cases, such financial assets written off could still be subject to enforcement activities by the Company in line with its policy of recovery of dues.

The details in respect of percentage of revenues generated from top customer and top ten customers are as follows: (In %)

Particulars	Year ended March 31,	
	2025	2024
Revenue from top customer	12%	18%
Revenue from top ten customers	50%	56%

### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2025 was PLN 1,198,070. The allowance for lifetime expected credit loss on customer balances for the year ended March 31, 2024 was PLN 1,680,811.

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements.

As of March 31, 2025, the Company had a working capital of PLN 401,870,239, including cash and cash equivalents of PLN 430,070,461. As of March 31, 2024, the Company had a working capital of PLN 288,391,932 including cash and cash equivalents of PLN 315,611,989.

As of March 31, 2025 and March 31, 2024, the outstanding compensated absences were PLN 17,100,595 and PLN 20,198,399, respectively, which have been substantially funded. Further, as of March 31, 2025 and March 31, 2024, the Company had no outstanding bank borrowings. Accordingly, no liquidity risk is perceived.

The details regarding the contractual maturities of significant financial liabilities as of March 31, 2025 are as follows:

(In PLN)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	6,891,328	–	–	–	6,891,328
Other financial liabilities (Refer to Note 2.12)	71,641,250	267,253	–	–	71,908,503

The details regarding the contractual maturities of significant financial liabilities as of March 31, 2024 were as follows:

(In PLN)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	8,093,062	–	–	–	8,093,062
Other financial liabilities (Refer to Note 2.12)	86,903,401	2,124,523	–	–	89,027,924

## 2.11 Equity

### Accounting policy

#### Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

### Description of Reserves

#### Retained earnings

Retained earnings represent the amount of accumulated earnings of the Company.

#### Securities premium

The amount received in excess of the par value of equity shares has been classified as securities premium.

#### Other components of equity

Other components of equity consist of changes on fair valuation of investments.

### Equity share capital

#### Shared held by others

(In PLN, except as otherwise stated)

Particulars	As at March 31,	
	2025	2024
Authorized		
Equity shares, PLN 500/- (PLN 500/-) par value		
5,000 (5,000) equity shares	2,500,000	2,500,000
Issued, subscribed and paid-up		
Equity shares, PLN 500/- (PLN 500/-) par value	2,500,000	2,500,000
5,000 (5,000) equity shares fully paid up		
	2,500,000	2,500,000

The Company has only one class of shares referred to as equity shares having a par value of PLN 500/-. Each holder of equity shares is entitled to one vote per share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the Company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts. However, no such preferential amounts exist currently.

The details of shareholder holding more than 5% shares are as follows:

Name of the shareholder	As at March 31,			
	2025		2024	
	Number of shares	% held	Number of shares	% held
Infosys BPM Limited, the holding company	5,000	100.00	5,000	100.00

The reconciliation of the number of shares outstanding and the amount of share capital is as follows:

(In PLN, except as otherwise stated)

Particulars	As at March 31,			
	2025		2024	
	Number of shares	Amount	Number of shares	Amount
At the beginning of the period	5,000	2,500,000	5,000	2,500,000
Add: Shares issued during the period	–	–	–	–
At the end of the period	5,000	2,500,000	5,000	2,500,000

There has been no buyback of shares, issuance of bonus shares, or shares issued for consideration other than cash during the last 5 years.

### Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e., the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus share issues including changes effected prior to the approval of the financial statements by the Board of Directors.

## 2.12 Other financial liabilities

(In PLN)		
Particulars	As at March 31,	
	2025	2024
Non-current		
Financial liability under revenue deals <sup>(1)</sup>	267,253	2,124,523
Total non-current other financial liabilities	267,253	2,124,523
Current

Foreign currency forward contracts <sup>(2)</sup>	174,300	791,200
Total current other financial liabilities	88,916,144	107,893,000
Total other financial liabilities	89,183,397	110,017,523
<sup>(1)</sup> Financial liability carried at amortized cost	71,908,503	89,027,924
<sup>(2)</sup> Financial liability carried at fair value through profit or loss	174,300	791,200
* Includes dues to related parties (Refer to Note 2.21)	1,301,327	1,337,718
** Includes dues to related parties (Refer to Note 2.21)	2,540,144	3,359,097

## 2.13 Trade payables

(In PLN)		
Particulars	As at March 31,	
	2025	2024
Current		
Trade payables <sup>(1)</sup>	6,891,328	8,093,062
Total Trade payables	6,891,328	8,093,062
<sup>(1)</sup> Includes dues to related parties (Refer to Note 2.21)	199,780	339,745

As at March 31, 2025 and March 31, 2024, there are no outstanding dues to Micro, Small and Medium Enterprises (MSME). There is no interest due or outstanding on the same.

The details regarding the ageing of trade payables as at March 31, 2025 are as follows:

(In PLN)

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Trade payables	6,051,220	840,108	–	–	–	6,891,328
Total trade payables	6,051,220	840,108	–	–	–	6,891,328

The details regarding the ageing of trade payables as at March 31, 2024 were as follows:

(In PLN)

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Others	6,569,902	1,523,160	–	–	–	8,093,062
Total trade payables	6,569,902	1,523,160	–	–	–	8,093,062

## 2.14 Other liabilities

(In PLN)

Particulars	As at March 31,	
	2025	2024
Current		
Unearned revenue	23,173,152	19,986,457
Others		
Withholding taxes and other payables	15,675,699	22,355,722
Total current other liabilities	38,848,851	42,342,179
Total other liabilities	38,848,851	42,342,179

## 2.15 Provisions

### Accounting policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### a. Post-sales client support and others

The Company provides its clients with fixed-period post-sales support on its fixed-price, fixed-timeframe and time and material contracts. Costs associated with such support services are accrued at the time-related revenues are recorded and included in the cost of sales. The Company estimates such costs based on historical experience, and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

### Provision for post-sales customer support and other provisions

(In PLN)

Particulars	As at March 31,	
	2025	2024
Current		
Others		
Post-sales client support and other provisions	703,294	1,414,607
Total provisions	703,294	1,414,607

### Provision for post-sales client support and other provisions

The movement in the provision for post-sales client support and other provisions is as follows :

Particulars	(In PLN)	
	As at March 31,	
	2025	2024
Balance at the beginning	1,414,607	1,557,444
Provision recognized/(reversed)	(757,668)	30,260
Provision utilized	–	(143,410)
Exchange difference	46,355	(29,687)
Balance at the end	703,294	1,414,607

## 2.16 Income taxes

### Accounting policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities where it has a legally enforceable right to set off the recognized amounts, and where it intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Income tax expense in the statement of profit and loss comprises:

Particulars	(In PLN)	
	Year ended March 31,	
	2025	2024
Current taxes	13,700,680	12,341,449
Deferred taxes	922,021	3,834,654
Income tax expense	14,622,701	16,176,103

Income tax expense for the year ended March 31, 2025 and March 31, 2024 includes reversals (net of provision) of PLN 179,223 and Provision (net of reversal) PLN 520,471 respectively, pertaining to earlier periods on completion of assessments.

Deferred income tax for the year ended March 31, 2025 and March 31, 2024, substantially relates to the origination and reversal of temporary differences.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

Particulars	(In PLN)	
	Year ended March 31,	
	2025	2024
Profit before income taxes	90,585,233	77,023,722
Statutory tax rate	19.00%	19.00%
Computed expected tax expense	17,211,194	14,634,507
Tax provision (reversals)	(179,223)	(520,471)
Effect of non-deductible expenses	1,437,586	1,931,342
Others	(3,846,856)	130,725
Income tax expense	14,622,701	16,176,103

The applicable Poland statutory tax rate for fiscal 2025 and fiscal 2024 is 19% and 19%, respectively.

The details of income tax assets and income tax liabilities as of March 31, 2025 and March 31, 2024 are as follows:

Particulars	(In PLN)	
	As at March 31,	
	2025	2024
Income tax assets	–	–
Current Income tax liabilities	4,258,496	8,456,544
Net income tax liabilities at the end	4,258,496	8,456,544

The gross movement in the current income tax asset/ (liability) for the year ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In PLN)	
	Year ended March 31,	
	2025	2024
Net income tax asset/ (liability) at the beginning	(8,456,544)	(2,071,778)
Income tax paid, net of refunds	17,898,731	5,956,683
Income tax expense	(13,700,683)	(12,341,449)
Net income tax asset/(Liability) at the end	(4,258,496)	(8,456,544)

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended March 31, 2025 is as follows:

Particulars	(In PLN)				
	Carrying Value as on April 1, 2024	Changes through Profit and Loss	Changes through other equity	Translation difference	Carrying value as on March 31, 2025
Provision for expenses	3,576,478	(354,963)	–	–	3,221,515
Deferred tax assets:					
Accrued compensation	3,756,909	(447,194)	–	–	3,309,715
Accrued vacation	3,837,696	(588,583)	–	–	3,249,113
Trade receivables	2,042,744	1,032,324	–	–	3,075,068
Lease liabilities	2,584,044	(225,915)	–	–	–
Others	424,157	(261,381)	–	–	162,776
Total deferred tax assets	16,222,028	(845,712)	–	–	15,376,316
Deferred income tax liabilities					
Property, plant and equipment	(414,004)	208,983	–	–	(205,021)
Others	(5,023,635)	(285,291)	–	–	(5,308,926)
Total deferred tax liabilities	(5,437,639)	(76,308)	–	–	(5,513,947)

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended March 31, 2024 was as follows:

Particulars	(In PLN)				
	Carrying Value as on April 1, 2023	Changes through Profit and Loss	Changes through other equity	Translation difference	Carrying value as on March 31, 2024
Deferred tax assets:					
Accrued compensation	3,136,732	620,177	–	–	3,756,909
Accrued vacation	4,365,060	(527,364)	–	–	3,837,696
Trade receivables	5,560,101	(3,517,357)	–	–	2,042,744
Lease liabilities	3,737,290	(1,153,246)	–	–	2,584,044
Others	4,617,311	(616,676)	–	–	4,000,635
Total deferred tax assets	21,416,494	(5,194,466)	–	–	16,222,028
Deferred income tax liabilities					
Property, plant and equipment	(572,722)	158,718	–	–	(414,004)
Others	(6,224,728)	1,201,093	–	–	(5,023,635)
Total deferred tax liabilities	(6,797,450)	1,359,811	–	–	(5,437,639)

The ultimate realization of deferred tax assets is dependent upon the Management's assessment of the Company's ability to generate taxable income during the periods in which the temporary differences become deductible. The Management's assessment in the near term is subject to change if estimates of future taxable income during the carry forward period are reduced.

In assessing the realizability of deferred tax assets, the Management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Management considers the scheduled reversals of deferred tax liabilities, projected

future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, the Management believes that it is more likely than not the Company will realize the benefit of any deductible differences at March 31, 2025.

## 2.17 Revenue from operations

### Accounting policy

The Company derives revenue primarily from the management of business processes, both on the basis of allocation of staff, fixed-price agreed with the client, number of hours, or based on the unit price for a given activity. Revenue based on the allocation of staff is recognized when realized, and the revenue realized from the date of the last invoice to the date of the Balance Sheet, are recognized as unbilled revenue. Revenue based on the fixed-price agreed with the client or the number of hours is recognized at a reliable amount, if they are probable. Revenue based on the unit price for a given activity is recognized as transactions based on measurable deliverables. Provisions for expected losses, if any, on unfulfilled contracts are recognized in the period in which the loss is probable, based on current estimates.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate the standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration, including rebates, volume discounts, and penalties. The Company includes variable consideration as part of the transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material contracts and unit of work-based contracts are recognized as the related services are performed. Fixed-price business process management services revenue is recognized ratably either on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not

even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue from other fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the lives of the contracts and are recognized in profit or loss in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

Such capitalized contract costs relating to upfront payments to customers are amortized to revenue, and other capitalized costs are amortized to expenses over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates. Capitalized costs are monitored regularly for impairment. Impairment losses are recorded when the present value of projected remaining operating cash flows is not sufficient to recover the carrying amount of the capitalized costs.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenues for the year ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	(In PLN)	
	Year ended March 31,	
	2025	2024
Income from business	573,739,019	620,274,476
process management services		
	573,739,019	620,274,476

### Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

Receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed-price business process management services are classified as financial asset

when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-timeframe contracts is based on milestones as defined in the contract, and therefore, the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed-timeframe contracts are classified as non-financial assets (contract asset) because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended March 31, 2025 and March 31, 2024, the Company recognized revenue of PLN 17,932,262 and PLN 20,502,281 arising from opening unearned revenue as of April 1, 2024 and April 1, 2023, respectively.

During the year ended March 31, 2025 and March 31, 2024, PLN 8,608,312 and PLN 9,730,535 of unbilled revenue pertaining to fixed-price development contracts as of April 1, 2024 and April 1, 2023, respectively has been reclassified to Trade receivables upon billing to customers on completion of milestones.

Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. The remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as of March 31, 2025 other than those meeting the exclusion criteria mentioned above is PLN 152,697,450. Out of this, the Group expects to recognize revenue of around 45.1% within the next one year and the remaining thereafter. This includes contracts that can be terminated for convenience without a substantive penalty since,

based on current assessment, the occurrence of the same is expected to be remote.

## 2.18 Other income, net

### Accounting policy

Other income is comprised primarily of interest income, exchange gain/loss on forward contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

### Foreign currency

#### Functional currency

The functional currency of the Company is the Polish zloty. The financial statements are presented in Polish zloty.

### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

Other income for the year ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In PLN)	
	Year ended March 31, 2025	2024
Interest income on financial assets carried at amortized cost:		
Deposit with banks and others	20,500,239	19,316,190
Exchange gains/(losses) on foreign currency forward and options contracts	7,985,570	16,513,950
Exchange gains/(losses) on translation of other assets and liabilities	(7,353,313)	(18,585,254)
Fair Valuation gains/(losses) on investments	(621,617)	(860,497)
Other Miscellaneous income, net	666,753	157,975
	21,177,632	16,542,364

## 2.19 Expenses

(In PLN)

Particulars	Year ended March 31,	
	2025	2024
Employee benefit expenses

Provision for post-sales customer support and others	(2,735)	(95,050)
Other miscellaneous expenses	(342,555)	67,138
	22,180,229	23,473,351

## 2.20 Contingent liabilities and commitments (to the extent not provided for)

### Accounting policy

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Particulars	As at March 31,	
	2025	2024
Contingent liabilities :		
Claims against the Company, not acknowledged as debts <sup>(1)</sup>	–	–
Commitments :		
Estimated amount of unexecuted capital contracts <sup>(2)</sup>	19,576	764,990
(net of advances and deposits)		
Other commitments <sup>(3)</sup>	22,522,256	35,179,863

<sup>(1)</sup> The Company is currently not involved in any significant lawsuits, claims, investigations and proceedings, including patent and commercial matters, which arise in the ordinary course of business. There are no such pending matters that are expected to have a material effect on these financial statements.

<sup>(2)</sup> Capital contracts primarily comprise commitments for infrastructure, facilities and computer equipment.

<sup>(3)</sup> Other commitments relate to the investment committed by the Company in the House Fund II & III, L.P., during the years."

### List of key management personnel

Name of the related party	Designation
Prasanth Nair	Member of the Management Board
Sanjay Arora	Member of the Management Board
Satish Nair	Member of the Management Board
Arindam Roy Chowdhury	Member of the Management Board

### Transaction with key management personnel

The table below describes the compensation to key managerial personnel which comprise directors and executive officers:

Particulars	(In PLN)	
	Year ended March 31,	
	2025	2024
Salaries and other employee benefits to whole-time directors and executive officers <sup>(1)</sup>	461,430	522,722
Total	461,430	522,722

<sup>(1)</sup> Does not include post-employment benefit based on actuarial valuation, as this is done for the Company as a whole.

### 2.22 Retirement benefits

Under the Company's remuneration rules, employees are entitled to retirement benefits. Liabilities due to retirement benefits have been measured using the actuarial method and the discount rate based on the market rate of return as at the end of the reporting period. Staff turnover is estimated based on historical data and expected staff levels.

### 2.23 Business Combinations

#### Accounting policy

Our business combinations are accounted for using Ind AS 103, Business Combinations. Business combinations between entities under common control is accounted for at carrying value. The identity of the reserves is preserved as they appear in the financial statements of the Company in the same form in which they appear in the financial statements of the acquired entity. The difference, if any, between the consideration and the amount of share capital of the acquired entity is transferred to the business transfer reserve.

### 2.24 Segment reporting

Based on the 'management approach,' as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. The Company's operations are considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.25 Analytical ratios

The analytical ratios for the year ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	Numerator	Denominator	Year ended March 31,		% of Variance
			2025	2024	
Current ratio <sup>(9)</sup>	Current assets	Current liability	3.6	2.6	38.9%
Debt – Equity ratio <sup>(5)</sup>	Total debt <sup>(1)</sup>	Shareholder's equity	0.1	0.1	-26.8%
Debt service coverage ratio <sup>(6)</sup>	Earnings available for debt service <sup>(2)</sup>	Debt service <sup>(3)</sup>	5.5	4.2	32.3%
Return on Equity (ROE)	Net profit after taxes	Average shareholder's equity	14.8%	13.7%	8.2%
Trade receivables turnover ratio	Net credit revenue	Average accounts receivable	5.6	5.4	3.5%
Trade payables turnover ratio	Net credit purchase of services/consumables	Average trade payables	16.4	17.2	-5.1%
Net capital turnover ratio <sup>(7)</sup>	Net sales	Working capital	1.4	2.2	(-34.1%)
Net profit ratio <sup>(10)</sup>	Net profit	Net sales	13.2%	9.8%	35.0%
Return on Capital Employed (ROCE)	Earning before interest and taxes	Capital employed <sup>(4)</sup>	16.0%	18.3%	-12.4%
Return on Investment (ROI)					
Unquoted <sup>(8)</sup>	Income from investments	Time-weighted average investments	-4.7%	(13.3%)	-64.6%

<sup>(1)</sup> Debt represents lease liabilities

<sup>(2)</sup> Net profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + Deferred tax liabilities + Lease liabilities

<sup>(5)</sup> Debt equity ratio decreased due to decrease in lease liability

<sup>(6)</sup> Debt Service ratio increased due to decrease in lease liability

<sup>(7)</sup> Net Capital turnover ratio decreased due to decrease in turnover

<sup>(8)</sup> Unquoted Return on Investment (ROI) increased due to lower fair valuation loss in FY'25

<sup>(9)</sup> Current ratio has improved due to receipt of loans and cash generation from operations

<sup>(10)</sup> NetProfit ratio has increased due to cost savings

## WONGDOODY, Inc.

# Independent Auditor's Report

To the Board of Directors of WONGDOODY, Inc.

## Report on the Audit of Financial Statements

### Opinion

We have audited the financial statements of WONGDOODY, Inc. (the 'Company'), which comprise the Balance Sheets as at December 31, 2024, and the Statements of Operations, Statements of Stockholders' Equity, and the Statements of Cash Flows for the year then ended, and the related notes to the financial statements including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects the financial position of the Company as at December 31, 2024, and the results of its operation and its cash flow for the year then ended in accordance with the accounting principles generally accepted in the United States of America (US GAAP).

### Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements, which includes the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of the Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the US GAAP and for the design, implementation and maintenance of internal control to the preparation and presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions and events, considered in aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued, or are available to be issued; to disclose, as applicable, matters relating to going concern and to use the going concern basis of accounting unless the Management either intends to liquidate the Company, or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

We give in 'Annexure A', a detailed description of Auditor's responsibilities for Audit of the financial statements.

for BDO India LLP

Place: Bengaluru

Date: January 21, 2025

## Annexure A to the independent Auditor's Report on even date on the financial statements.

### Auditor's Responsibilities for the Audit of the financial statements.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the management, as well as evaluate the overall presentation of the financial statements.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to such events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to Financial Statements

## 1. Description of Business and Summary of Significant Accounting Policies

### 1.1 Description of Business

WONGDOODY, Inc. ('the Company') is incorporated under the laws of the State of Washington and promotes products and services for clients across the United States, primarily through targeted integrated marketing campaigns focused on live, digital, and social brand experiences.

### 1.2 Basis of Financial Statement Presentation

The accompanying financial statements present the financial position, results of operations, and cash flows of the Company in conformity with accounting principles generally accepted in the United States of America (GAAP). Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred.

These financial statements have been prepared on a going concern basis, which assumes the realization of assets and satisfaction of liabilities in the normal course of business. These financial statements have been presented in U.S. Dollars, which is the functional and reporting currency of the Company.

### 1.3 Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. The Company's significant estimates include estimated useful lives of assets, taxation and revenue recognition. Accordingly, actual results could materially differ from those estimates.

### 1.4 Cash and Cash Equivalents

The Company maintains cash balances with various major financial institutions located in the United States. The Company's Management does not believe cash is exposed to significant credit risk. The Company periodically evaluates the relative credit standings of the financial institutions with which they do business. Cash and cash equivalents are stated at cost, which approximates fair value.

### 1.5 Accounts Receivable

The Company's credit policy towards its customers is 30–60 days. The Company carries its accounts receivable at cost less an allowance for doubtful accounts. On the basis of ASC 326, no allowance for doubtful accounts was deemed necessary on December 31, 2024 and 2023.

### 1.6 Financial instruments

The carrying amount of the financial instruments, which is cash and cash equivalents, accounts receivables, accounts payables and accrued expenses, approximate their fair value at December 31, 2024.

### 1.7 Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization and impairment losses (if any).

The Company provides for depreciation and amortization on a straight-line basis over the estimated useful lives of the respective assets:

Furniture, fixtures, and office equipment	5-7 years
Computer hardware and software	3-5 years

Leasehold improvements are amortized over the term of the lease, or the estimated useful lives of the improvements, whichever is shorter. Expenditures for major renewals and betterments are capitalized while those for repairs and maintenance are expensed as incurred.

### 1.8 Impairment of long-lived assets

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. The Company measures recoverability of assets to be held and used by a comparison of the carrying value of an asset to its fair value. If such assets are considered impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of assets. Fair value of property and equipment is usually estimated using discounted cash flows expected to be generated from the use of the asset.

### 1.9 Employee Benefits

#### Defined Contribution Plan

Eligible employees in the U.S. participate in an employee retirement savings plan (the '401K Plan') under Section 401(K) of the U.S. Internal Revenue Code. The 401K Plan allows employees to defer a portion of their annual earnings on a pre-tax basis through voluntary contributions to the 401K Plan and for the Group to make matching contributions.

#### Compensated Absences

The Company provides compensated absences which are expected to be utilized within the next 12 months, are treated as short-term employee benefits. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of unused entitlement that has accumulated at the reporting date. The Company treats compensated absences expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on actuarial valuation using the projected unit credit method at the period-end.

#### Employee Retention Credit

During the year ended 2023, the Company has obtained a refund of \$1,401,332 through the Employee Retention Credit (ERC). This credit is designed to provide eligible businesses and tax-exempt organizations with a refundable tax credit if they had employees and were impacted by the COVID-19 pandemic.

### 1.10 Revenue Recognition

The Company recognizes revenue in accordance with Accounting Standards Codification Topic 606, Revenue from Contracts with

Customers ("ASC 606"). Under ASC 606, revenue is recognized when a customer obtains control of promised goods or services (the performance obligation) in an amount that reflects the consideration the Company expects to receive in exchange for those goods or services (the transaction price). The Company measures revenue by estimating the transaction price based on the consideration specified in the client arrangement. Revenue is recognized as the performance obligations are satisfied. The Company's revenue is primarily derived from providing advertising services to its customers, including creative strategy and development, strategic planning, market plan development, connection planning, advertising, digital marketing, retail marketing, and video/ digital/ print production. The Company's contracts are primarily retainer contracts for advertising services, or fees for service on a rate per hour or per project basis for project-based work.

### 1.11 Performance Obligations

Substantially, all the Company's contracts with customers, the performance obligation requires providing creative consulting services at an agreed level of effort to accomplish the specified engagement. The customer contracts may comprise fees based on monthly billing rate, a fixed project fee, or an hourly rate, as agreed in the contract. The transaction price of a contract is allocated to each distinct performance obligation based on its relative standalone selling price and is recognized as revenue, when, or as, the customer receives the benefit of the performance obligation. Clients typically receive and consume the benefit of the services as they are performed. Substantially, all the client contracts provide that the Company is compensated for services performed to date and allow for cancellation by either party on short notice without penalty.

Generally, the Company's short-term contracts, which normally take 30 to 90 days to complete, consist of a single performance obligation. As a result, the Company does not consider the underlying services as separate or distinct performance obligations because the services are highly interrelated, occur in proximity, and the integration of the various components of a marketing message is essential to overall service. In certain of the Company's long-term retainer contracts, which have a term of up to one year, the performance obligation is a stand-ready obligation because the Company provides a constant level of similar services over the term of the contract. In certain creative services agreements, the Company acts as an agent and arranges, at the client's direction, for third parties to perform studio production efforts.

### 1.12 Revenue Recognition Methods

A substantial portion of the Company's revenue is recognized over time as the services are performed, because the client receives and consumes the benefit of the Company's performance throughout the contract period, or the Company creates an asset with no alternative use and is contractually entitled to performance pay to date in the event the client terminates the contract for convenience. For client contracts, other than when the Company has a stand-ready obligation to perform services, revenue is recognized over time using input measures that correspond to the level of staff effort expended to satisfy the performance obligation on a rate per hour or equivalent basis. For the client contracts when the Company has a stand-ready obligation to perform services on an ongoing basis over the life of the contract, typically for periods up to one

year, where the scope of these arrangements is broad and there are no significant gaps in performing the services, the Company recognizes revenue using a time-based measure resulting in a straight-line revenue recognition. From time to time, there may be changes in the client service requirements during the term of a contract that could be significant. These changes are typically negotiated as new contracts covering the additional requirements and the associated costs, as well as additional fees for the incremental work to be performed.

### 1.13 Principal vs. Agent

For certain contracts, the Company incurs third party costs on behalf of clients, including direct costs and incidental or out-of-pocket costs. Third party direct costs incurred in connection with the creation and delivery of advertising services include among others, purchased media, studio production services, specialized talent, including artists and other freelance labor, materials and services, and other related expenditures. Out-of-pocket costs include among others, transportation, hotel, meals and telecommunication charges incurred by the Company in the course of providing services. Billings related to out-of-pocket costs are included in revenue since the Company controls the goods or services prior to delivery to the client.

The inclusion of billings related to third party direct costs in revenue depends on whether the Company acts as a principal or as an agent in the client arrangement. In the contracts which include studio production efforts and media planning and buying services, the Company acts as an agent and arranges, at the client's direction, for third parties to perform certain services. In these cases, the Company does not control the goods or services prior to the transfer to the client. As a result, revenue is recorded net of these costs.

For contracts entered with Infosys, the Company's parent, the Company acts as the principal when contracting for third party services on behalf of Infosys. This is because the Company controls the specified services before they are transferred to Infosys and the Company is responsible for providing the specified services or is responsible for directing and integrating the third-party services to fulfill performance obligations outlined in the contract at an agreed price. In such arrangements, the Company also assumes pricing risk under the terms of the contract. For all contracts with Infosys, the Company includes the billable amounts related to third party costs in the transaction price and records revenue over time at the gross amount billed.

### 1.14 Variable Consideration

Some of the Company's client arrangements include variable consideration provisions, which include reconcilable fees based on actual labor hours worked on a project compared to budgeted labor hours. Variable consideration is estimated and included in total consideration at contract inception based on either the expected value method or the most likely outcome method. These estimates are based on historical experience and other factors known at the time.

### 1.15 Contract Assets and Contract Liabilities

The timing of revenue recognition may differ from the timing of invoicing to customers. The Group classifies its right to consideration in exchange for deliverables as either accounts receivable or contract asset.

Contract assets include unbilled amounts from projects when revenues recognized exceed the amounts invoiced to customers related to time and material contracts. Such amounts are recoverable from customers based upon various measures of performance, including the achievement of certain milestones, completion of specified units, or completion of a contract. Contract assets do not include capitalized costs to obtain and fulfill a contract.

Contract liabilities from contracts arise when amounts invoiced to customers exceed revenues recognized.

Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period.

### 1.16 Advertising Costs

The Company expenses all advertising costs when incurred. Advertising expenses for the fiscals, December 31, 2024 and 2023 were approximately \$ 343,000 and \$ 607,000, respectively.

### 1.17 Income Taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net income in the Statement of Income, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax expense or benefit for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are only included if there is greater than 50 percent likelihood of them being realized upon ultimate settlement.

The Company recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties as income tax expense. As of December 31, 2024 and 2023, the Company does not believe that it has taken any positions that

would require the recording of any additional tax liability, nor does it believe that there are any unrealized tax benefits that would either increase or decrease within the next year.

## 2. Concentration of Credit Risk

Substantially, all the Company's accounts receivable and revenues are generated from a small group of customers. The Company performs ongoing credit evaluations of its clients and generally does not require collateral. For the fiscal December 31, 2024, one third party customer represented approximately 18% of the Company's total revenues and approximately 0.06% of the Company's total accounts receivable as of December 31, 2024. For the year ended December 31, 2023, one third party customer represented approximately 15% of the Company's total revenues and approximately 28% of the Company's total accounts receivable as of December 31, 2023. The loss of any of the Company's significant customer relationships would have a material effect on the Company's operations. Refer Note 7 for discussion on the related-party concentrations.

## 3. Property and Equipment

Property and equipment are as follows:

Particulars	In US\$	
	Years ended December 31,	
	2024	2023
Furniture, fixtures, and office equipment	742,000	732,000
Computer hardware and software	2,780,000	1,767,000
Leasehold improvements	1,427,000	1,395,000
	4,949,000	3,894,000
Less accumulated depreciation and amortization	(3,520,000)	(3,038,000)
Property and equipment, net	1,429,000	856,000

Depreciation and amortization expenses related to property and equipment for the years ended December 31, 2024 and 2023 were \$521,000 and \$810,000, respectively. Property and equipment as of December 31, 2024 and 2023 included total costs of \$110,000 and \$140,000, and accumulated amortization of \$42,000 and \$73,000 respectively, of property and equipment held under capital leases.

## 4. Leases

The Company has operating leases for office spaces. The Company determines if a contract is, or contains, a lease at inception. A contract is or contains a lease, if the contract conveys the right to control the use of identified property or equipment (an identified asset) for a specific time period in exchange for consideration. The Company has the right to control the use of the identified asset when the Company has both — the right to obtain substantially all the economic benefits from use of the identified asset, and the right to direct the use of the identified asset. In making this determination, the Company considers all relevant facts and circumstances. Non-current assets include operating lease assets, and current and non-current liabilities include operating lease liabilities in the accompanying Balance Sheet.

The Company's lease assets are recognized as the lease liabilities, including any initial indirect costs and any prepaid lease payments, less any lease incentives. The Company's lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at commencement date. Lease payments consist of amounts relating to the use of the underlying asset during the lease term, specifically fixed payments, payments to be made in optional periods when the Company is reasonably certain to exercise an option to extend the lease or not to exercise an option to terminate the lease and the amounts probable of being owed by the Company under residual guarantees. Variable lease payments are excluded from measuring lease assets and lease liabilities because they do not depend on an index or a rate and are not in substance fixed payments. The Company's leases typically do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of future payments.

For operating leases, after lease commencement, the Company calculates lease obligations at the present value of the remaining lease payments, minus the rate determined at lease commencement. The Company recognizes a single operating lease expense calculated on a straight-line basis over the remaining lease term. The depreciation of the lease asset increases each year as a result of the declining lease liability balance.

During the year 2023, the Seattle Office lease was extended from May 2024 to Oct 2029 with an increase in lease term and a new lease payment schedule. As per ASC 842, if the modification does not provide any additional rights of use to the lessee, then the lease liability and the right of asset use require amendment based on the new lease term and rentals.

In the accompanying Statement of Income, the Company recognizes lease expense within selling, general and administration expense.

#### 4.1 Finance Lease Liabilities

The aggregate amount of finance lease liabilities is as follows:

Particulars	In US\$	
	Years ended December 31,	
	2024	2023
Finance Lease Liabilities	70,000	69,000
Less: Current portion	(30,000)	(39,000)
Finance Lease Liabilities, long term portion	40,000	30,000

The aggregate amounts of payments of finance lease liabilities are as follows:

Particulars	In US\$	
	Year ending December 31,	
2025	36,000	
2026	29,000	
2027	15,000	
Total future payments	80,000	
Less: Amount representing interest on finance leases	10,000	
Total finance lease liabilities	70,000	

#### 4.2 Operating Lease Liabilities

Particulars	In US\$	
	As at December 31,	
	2024	2023
Operating Lease Liabilities	4,907,000	5,809,000
Less: Current portion	(1,136,000)	(902,000)
Operating Lease liabilities, long term portion	3,771,000	4,907,000

The aggregate amounts of payments of operating lease liability are as follows:

Particulars	In US\$	
	Year ending December 31,	
2025	1,343,000	
2026	1,334,000	
2027	928,000	
2028	947,000	
2029	803,000	
Total Future payments	5,355,000	
Less: amount representing interest on operating leases	448,000	
Total operating lease liabilities	4,907,000	

The information on the weighted average remaining lease term and weighted average discount rate for our operating leases are as follows:

Operating Lease Term and Discount Rate	As at December 31,	
	2024	
Weighted average remaining lease term	4.33 years	
Weighted average discount rate	3.86%	

The supplemental cash flow and non-cash information related to our operating leases are as follows:

Particulars	In US\$	
	As at December 31,	
	2024	
Operating Lease Term and Discount Rate		
Cash paid for amounts included in the measurement of operating lease liabilities	1,106,000	
ROU assets obtained in exchange for operating lease liabilities	4,534,000	

#### 5. Income Taxes

Income tax expense in the Statement of Income is comprises:

Particulars	In US \$	
	Year Ended December 31,	
	2024	2023
Current income tax expense	1,210,000	1,418,000
Deferred income tax expense	754,000	1,156,000
Prior income tax expense	(556,000)	(371,000)
Total Income Tax Expense	1,408,000	2,203,000

For the year ended December 31, 2024, the difference between the provision for income taxes and the income tax determined by applying the statutory federal income tax rate of 24% to income before income taxes is primarily due to the Company's goodwill and intangible deferred tax assets recorded in the tax provision from the acquisition by Infosys, but not recorded in the financial statements, state income taxes and permanent items.

Significant components of the Company's deferred tax assets and liabilities are as follows:

Particulars	In US\$	
	As at December 31,	
	2024	2023
Property and equipment	(207,000)	(164,000)
Accrued compensation	108,000	233,000
Accrued vacation	366,000	382,000
Other assets	(14,000)	(283,000)
Goodwill and intangible assets from acquisition	7,060,000	7,899,000
Accrued payroll taxes	14,000	14,000
Net Deferred Tax Assets	7,327,000	8,081,000

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. As of December 31, 2024, the Company determined that no valuation allowance against its net deferred tax assets was necessary.

## 6. Contribution Plan

The Company also has a defined contribution plan pursuant to Section 401(k) of the Internal Revenue Code covering substantially all its employees in the USA. The Group's matching expense in connection with this plan for the year is \$262,000 and for Previous year is \$460,000.

## 7. Related Party Transactions

During the years ended December 31, 2024, and 2023, the Company performed certain services for Infosys. The related-party accounts receivable balance on December 31, 2024 and 2023 totaled \$12,073,000 and \$6,946,000, respectively. Revenues from related-party during the year ended December 31, 2024 is \$82,426,000 from sub-contracting services and \$1,057,000 from professional services performed. Revenues from the related party during the year ended December 31, 2023, is \$96,724,000 from sub-contracting services and \$2,886,000 from professional services performed.

As on December 31, 2024, the Company loaned \$8,000,000 to Outbox Systems, Inc. (Simplus). Also, the Outbox Systems Inc. repaid \$4,500,000 of the principal amount in December 2024. The loan bears interest rate calculated as the 12-month Secured Overnight Funding Rate (SOFR) plus a 1.10% simple interest for the period from January to December 2024. The interest rate is reviewed quarterly based on the 12-month Secured Overnight Funding Rate (SOFR) on the first day of each quarter. Interest payments are due annually on the anniversary date. At December 31, 2024, \$3,500,000 of the principal loan is outstanding. The principal shall be repaid in full on February 16, 2025. Therefore, the principal balance has been classified under current assets in the accompanying Balance Sheet. Interest is receivable on the

anniversary date of loan disbursement each year. Therefore, the interest receivable balances have been classified under current assets in the accompanying Balance Sheet.

During the year ended December 31, 2024, the Company has not given any additional loan to Infosys Automotive and Mobility GmbH & Co. KG (IGAM). The loan bears interest rate calculated as the 12-month Secured Overnight Funding Rate (SOFR) plus a 1.83% simple interest for the period from January to December 2024. The rate shall be revisited quarterly based on the 12-month Secured Overnight Funding Rate (SOFR) on the first day of each quarter. Interest payments are due on each anniversary date. At December 31, 2024, \$5,000,000 of the principal and \$99,000 of accrued interest receivable are outstanding on this loan. The principal is repayable on demand. Therefore, the principal and interest receivable balances have been classified as current assets in the accompanying Balance Sheet.

During the year, the Board of Directors approved the Company's participation in the Infosys Cash Pooling Program. Additionally, the Board designated Infosys McCamish Systems LLC as Header entity for the program. The Pool Header will earn interest income on deposits and investments with designated counterparties, and the interest earned by the lending pool will be distributed proportionally among participating entities based on their contributions to the pool, after deducting the Pool Header's remuneration. The Pool Header's remuneration is set at 25 basis points of the incremental interest earned, relative to the Current Account interest rate of Bank of America (BOFA). As of December 31, 2024, the closing balance with the Pool Header stood at \$ 28,716,000 and interest earned by the Company is \$ 778,934.

For the year ended December 31, 2024, revenue from the parent company represented approximately 80% of the Company's total revenues and approximately 99.84% of the Company's total accounts receivable as of December 31, 2024. For the year ended December 31, 2023, revenue from the parent company represented approximately 81% of the Company's total revenues and approximately 68% of the Company's total accounts receivable as of December 31, 2023.

## 8. Commitment and Contingencies

Liabilities for loss contingencies arising from claims, tax assessments, litigations, fines and penalties, and other sources are recorded when it is probable that a liability was incurred, and the amount of the assessment and/or remediation can be reasonably estimated. Legal costs incurred in connection with the same are expensed as incurred.

## 9. Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the Balance Sheet date through January 17, 2024, the date that the financial statements were issued. Based upon this review, other than as described below, the Company did not identify any subsequent events that could have required adjustment or disclosure in the financial statements.

On January 1, 2025, WONGDOODY, Inc. merged with Infosys Nova Holdings LLC, with Infosys Nova Holdings LLC. as the surviving entity.

## 10. Rounded off:

## Blue Acorn iCi Inc.

# Independent Auditor's Report

To the Board of Directors of Blue Acorn iCi Inc.

## Opinion

We have audited the financial statements of Blue Acorn iCi Inc. (the "Company"), which comprise the balance sheets as of December 31, 2024 and 2023, and the related statements of operations, shareholder's equity, and cash flows for the years then ended, and the related notes to the financial statements (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Emphasis of Matter

As discussed in Note 9 to the financial statements, the Company has entered into significant related party transactions with affiliated entities. As a result of the significant related party transactions with affiliated entities, the accompanying financial statements may not be indicative of the conditions that would have existed, or results of operations, had the Company operated without these related party transactions. Our opinion is not modified with respect to this matter.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Cash paid for income taxes – Net of refunds	1,249,376	1,437,048

See accompanying notes to financial statements.

# Notes to financial statements

As of and for the years ended December 31, 2024 and 2023

## 1. Nature of business

Blue Acorn iCi Inc. (“the Company”) provides information technology solutions, consulting, business process and commerce services to its clients to optimize and enhance the digital experience of their end customers. The Company’s core competencies include software staging and deployment, system integrations, data analytics and optimization and strategic assessments. The Company was incorporated on September 13, 2017, in the state of Delaware.

Infosys Nova Holdings, LLC (“the Parent Company”) owns all the issued and outstanding shares of the Company.

## 2. Summary of significant accounting policies

### Basis of Presentation

These financial statements have been prepared in accordance with Generally Accepted Accounting Principles for the United States of America (“US GAAP”).

### Use of estimates

The preparation of these financial statements requires the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities. These estimates also affect the disclosure of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Due to the use of estimates inherent in the financial reporting process, actual results could differ from those estimates. Significant estimates and assumptions include revenue recognition related to fixed-price estimates utilizing the percentage completion method for measuring progress, and the valuation of accounts receivable, unbilled receivables, and deferred revenue.

### Credit risk

The Company is exposed to credit risk with respect to collectability of customer accounts receivable and unbilled revenue. The Company provides for probable uncollectable amounts through a charge to net income and a credit to a valuation allowance based on its assessment of the current status of individual contracts considering factors such as historical experience, creditworthiness, and the age of the receivable and unbilled revenue. Balances that are still outstanding after the Company has used reasonable collection efforts are written off through a charge to the valuation allowance and credit to accounts receivable.

### Concentration risk

The Company does not have any concentration risk with respect to revenue generated from third parties nor with respect to any vendors. Revenues with Infosys Limited, the parent of the Parent Company, (“Ultimate Parent Company”), and subsidiaries of the Ultimate Parent Company approximated 69% and 68% of revenue for the years ended December 31, 2024 and 2023, respectively. Three customers approximated 54% of accounts receivable as of both December 31, 2024 and 2023.

### Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less at the date of purchase to be cash equivalents. Cash and cash equivalents are stated at cost and consist of bank deposits that, at times, may exceed federally insured limits. The balances are insured by the Federal Deposit Insurance Corporation up to US\$250,000. As of December 31, 2024 and 2023, the Company had balances in excess of insured limits totaling US\$4,851,252 and US\$24,873,437, respectively.

### Accounts receivable

Accounts receivable are generated from service agreements for information technology solutions, consulting, and business process and commerce services. Billed amounts represent invoices that have been prepared and sent to the customer.

### Unbilled receivables and deferred revenue

The timing of revenue recognition may differ from the timing of billing and cash receipts from customers. Amounts are invoiced as work progresses, typically monthly in arrears, or upon the achievement of contractual milestones. The Company records an asset when revenue is recognized prior to invoicing, or deferred revenue when cash is received in advance of satisfying the performance obligation. Unbilled receivables and deferred revenue are recorded net on a contract-by-contract basis and are generally classified as current based on the Company’s contract operating cycle.

### Allowance for credit losses

The Company maintains an allowance for credit losses related to accounts receivable and unbilled revenue by evaluating the creditworthiness of each customer, historical collection experiences and other information, including the aging of the respective balances. The Company evaluates the collectability of its accounts receivable and unbilled revenue on an ongoing basis. Balances are written off when deemed uncollectible against the allowance for credit losses established. As of December 31, 2024 and 2023, no allowance for credit losses was recorded.

### Property and equipment

Property and equipment are recorded at cost. Expenditures for major additions and improvements are capitalized while expenditures for repair and maintenance costs are expensed as incurred. Property and equipment is depreciated on a straight-line basis over the following estimated useful lives of the assets:

Leasehold improvements	Shorter of estimated useful life or lease term
Machinery and equipment	5 years
Computer equipment and software	3 - 5 years
Furniture and fixtures	7 years

## Financial instruments

The fair value of financial instruments classified as current and non-current assets or liabilities, including accounts receivable, accounts payable and accrued liabilities and amounts due to affiliates approximates carrying value, principally due to the short maturity of those items.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value measurements are estimated based on inputs categorized as follows:

- Level 1 inputs include quoted prices (unadjusted) for identical assets or liabilities in active markets that are observable.
- Level 2 inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs include unobservable inputs that reflect the Company's own assumption about what factors market participants would use in pricing the asset or liability.

When measuring fair value, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs.

## Leases

Leases with a lease term of more than 12 months are classified as either finance or operating leases. Leases are classified as finance leases when the Company expects to consume a major part of the economic benefits of the leased assets over the remaining lease term. Conversely, the Company is not expected to consume a major part of the economic benefits of assets classified as operating leases. The lease classification affects both the pattern and presentation of expense recognized in the income statement, the categorization of assets and liabilities in the Balance Sheet, and classification of cash flows in the Statement of Cash Flow.

The Company made an accounting policy election not to recognize right-of-use (ROU) assets and lease liabilities for leases with a term of 12 months or less. Lease payments for these leases are recognized as lease costs on a straight-line basis over the lease term.

For finance leases, total lease cost is recorded on an accelerated basis whereby interest expense is recorded using the effective interest method and is included in interest, net in the Statement of Operations. ROU assets for finance leases are amortized on a straight-line basis over the remaining lease term. Amortization expense related to finance leases is included in selling, general and administrative expenses in the Statement of Operations. For operating leases, total lease cost is measured and recorded on a straight-line basis over the lease term and is included in selling, general and administrative expenses in the Statement of Operations.

The Company has elected to apply a practical expedient under which it does not separate lease and non-lease components for its operating leases. Under the election, the Company combines base rents with fixed, non-lease common area maintenance

charges and computes its lease obligations based on the combined lease and non-lease components. Lease obligations are measured and recorded at the present value of future lease payments using a discount rate. For operating leases, the Company elected to apply the practical expedient for non-public business entities, which allows the use of a risk-free rate for a period comparable to the lease term when the incremental borrowing rate is not readily determinable. For the finance lease, the Company used the incremental borrowing rate implicit in the respective lease agreement as the discount rate.

Certain of the Company's real estate leases contain options to renew or extend the terms of the lease, as well as termination options that could shorten the original lease term, which are included in the determination of the ROU assets and lease liabilities when it is reasonably certain that the Company will exercise the option. Lease agreements do not contain any material residual value guarantees, restrictions, or covenants.

ROU assets are generally measured and recorded at the sum of the lease obligation, any initial direct costs to consummate the lease, and any lease payments made on or before the commencement date.

## Impairment of long-lived assets

The Company reviews long-lived assets, including intangible assets with finite useful lives, for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. In connection with this review, the Company also re-evaluates the periods of depreciation and amortization for these assets. The Company assesses recoverability by determining whether the net book value of the related asset will be recovered through the projected undiscounted cash flows from the asset. If the Company determines that the carrying value may not be recoverable, the Company measures any impairment based on the asset's fair value as compared to its' carrying value. As of December 31, 2024 and 2023, no impairment of long-lived assets was recorded.

## Intangible asset

The intangible asset represents capitalized development costs for internal-use software, which is amortized on a straight-line basis over its estimated useful life of two years. Amortization expense is included in amortization and depreciation expense reported on the Statement of Operations.

## Income taxes

The Company accounts for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Under this method, deferred tax assets and liabilities are determined on the basis of the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

The Company recognizes deferred tax assets to the extent that the Company believes these assets are more likely than not to be realized. In making such a determination, the Company considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected

future taxable income, tax-planning strategies, and results of recent operations. A valuation allowance is recorded against deferred tax assets if the Company determines that it is more likely than not that such deferred tax assets will not be realized within the foreseeable future.

## Revenue recognition

The Company's revenue is primarily derived from the planning and execution of consulting services centric to customer experience, including digital marketing and commerce application development and architecture ("Commerce Services"), data-driven strategic services ("Data Services"), such as, design, strategic analysis, process reviews, data research and optimization, and "Experience Driven Commerce Services" including, but not limited to, website hosting, optimization services, and customer service support.

In accordance with ASC 606, Revenue from Contracts with Customers, revenue is recognized when a customer obtains control of promised goods or services (the performance obligation) in an amount that reflects the consideration the Company expects to receive in exchange for those goods or services (the transaction price). Revenue recognition is determined through the application of the following steps:

Step 1: Identification of the contract with a customer

Step 2: Identification of the performance obligations in the contract

Step 3: Determination of the transaction price

Step 4: Allocation of the transaction price to the performance obligations in the contract; and

Step 5: Recognition of revenue when, or as, the Company satisfies a performance obligation.

## Time and Materials and Fixed Price revenue

The Company's contracts with customers comprise diverse arrangements involving fees based on any one or a combination of the following: An agreed rate per hour for the level of effort expended by the Company's resources ("Time and Materials"); a monthly fee for support services which typically are capped at a designated number of hours, and / or a fixed fee engagement which is priced based on the estimated effort to complete the identified work (collectively "Fixed Price").

Substantially, all the Company's contracts provide that the Company is compensated for services performed and allow for cancellation by either party, without penalty. The Company's contracts with customers typically do not include extended warranty periods; warranty-type work is typically limited to correction to deliverables within the defined user acceptance test periods.

At contract inception, the Company assesses the services promised and identifies a performance obligation for each promise to transfer to the customer a service that is distinct. When identifying individual performance obligations, the Company considers all services promised in the contract regardless of whether they are explicitly stated in the customer contract or implied by customary business practices. For all revenue streams, the performance obligation is to provide consulting services at an agreed-upon level of effort to accomplish the specific engagement.

The transaction price of a contract is allocated to each distinct performance obligation based on its relative standalone selling price and is recognized as revenue when, or as, the customer receives the benefit of the performance obligation. The Company's customers typically receive and consume the benefit of the Company's services as they are performed. The Company's contracts with customers typically allow for the use of third-party contractors. The contractors are typically engaged to function in a staff augmentation model whereby the Company controls the assignments and tasks to be completed; the Company retains all risks and liabilities related to the defined performance obligations. The Company maintains the relationship of a principal in the subcontracting of client work.

For Time and Material contracts, the hours of development and / or support provided each day or month represent a series of distinct services that have the same pattern of transfer to the customer and thus are considered a single performance obligation. For Fixed Price contracts, the performance obligations are typically based on defined deliverables within the individual contracts. For each of these contracts, the Company determines whether the performance obligations are separately identifiable (distinct) or should be combined (bundled) for measurement purposes. The Company considers:

- The presence of a significant integration service;
- The presence of significant modification or customization; and / or
- The level of interdependencies between the services.

For these transactions, the transaction price is allocated to the distinct and bundled performance obligations based on their standalone selling price which is the standard rate multiplied by the estimated hours to complete the performance obligation. The standard rates are those quoted to customers which reflect a cost-plus-margin approach.

A substantial portion of the Company's revenue is recognized over time, as the services are performed, because the customer receives and consumes the benefit of performance throughout the contract period (Time and Materials). For these contracts, revenue is recognized over time using the input method on the basis of hours incurred, which correspond to the level of effort expended to satisfy the performance obligation on a rate per hour or equivalent basis. The Company recognizes revenue for distinct performance obligations defined by Fixed Price contracts at a point in time; upon delivery and / or completion of the performance obligation at which time value transfers to the customer. Revenue for bundled performance obligations identified within these contracts is recognized over time using the percentage of completion method.

## Service Unit revenue

Experience-driven commerce service contracts allow the customer to define the performance obligation(s) by selection of specific independent services including, but not limited to, website hosting, optimization services, customer service support, and software license management. The transaction price for each independent service component is based on a standard pricing model for the relevant units of effort required ("Service Unit"). The units of effort can be measured in terms of hours, volume of transactions, and / or the gross market value of the underlying product. The standard pricing of the units, for the most part, are based on cost plus margin. Website hosting service unit revenue

is recognized over time using the output method based on days the website is hosted. Optimization services and customer service support service unit revenue is recognized over time using the input method based on hours incurred.

#### Affiliate revenue

The Company has entered into contractual agreements with the Ultimate Parent Company and subsidiaries of the Ultimate Parent Company to provide services at the direction of the affiliated company. Consistent with Time and Material contracts, the respective revenue is recognized over time using the input method based on hours incurred, which corresponds to the level of effort expended to satisfy the performance obligation on a rate per hour or equivalent basis.

#### Partner Referral Program revenue

The Company partners with software and / or service providers to cross sell and market each other's products or services. In certain cases, the Company recognizes revenue based on rebates received. Because the Company is not providing the actual license, subscription and / or professional services (in most cases) which the partner is selling, the Company is an agent as defined by ASC 606. Specifically, the Company is not controlling the goods and / or services to be provided to the end customer in any way and the consideration to be received is not tied to specific services the Company is providing to the customer. The Company recognizes this revenue at the point in time in which the performance obligation has been satisfied.

#### Cost of revenue

Cost of revenue consists primarily of contractor services, labor incurred, and technology platform costs and processing fees.

#### Comprehensive income

Comprehensive income is defined as a change in equity of a business enterprise during a period, resulting from transactions from non-owner sources. To date, the Company has not had any transactions that are required to be reported in comprehensive income other than net income, therefore, comprehensive income is the same as net income for the periods presented.

### 3. Recently issued accounting standards not yet adopted

In December 2023, FASB issued Accounting Standards Update (ASU) 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (ASU 2023-09). The ASU focuses on income tax disclosures around effective tax rates and cash income taxes paid. ASU 2023-09 is effective for annual periods beginning after December 15, 2025. The adoption of ASU 2023-09 is expected to have a financial statement disclosure impact only and is not expected to have a material impact on the Company's financial statements.

There have been no recent accounting pronouncements, changes in accounting pronouncements or recently adopted accounting guidance during fiscal 2024 that are of significance or potential significance to the Company's financial statements.

### 4. Property and equipment

Property and equipment consists of the following as of December 31, 2024 and 2023:

(In US\$)

2024	Cost	Accumulated depreciation	Net book value
Leasehold improvements	865,750	530,621	335,129
Computer equipment and software	1,410,956	730,260	680,696
Furniture and fixtures	111,601	111,601	–
Total property and equipment – Net	2,388,307	1,372,482	1,015,825

(In US\$)

2023	Cost	Accumulated depreciation	Net book value
Leasehold improvements	2,306,706	1,837,077	469,629
Computer equipment and software	931,953	684,228	247,725
Furniture and fixtures	367,904	366,159	1,745
Total property and equipment – net	3,606,563	2,887,464	719,099

Depreciation expense for the years ended December 31, 2024 and 2023 was US\$333,288 and US\$459,818, respectively.

### 5. Leases

The Company leases administrative facilities in Charleston, SC and Raleigh, NC, all under operating leases. The Company also had operating leases for facilities in Shelton, CT and Boulder, CO which expired in June and August 2024, respectively.

As of December 31, 2024 and 2023, the Company's operating leases have a weighted-average remaining term of 2.64 years and 2.77 years, respectively. The weighted-average discount rate was 0.74% and 1.80%, respectively, for the Company's operating leases.

During the year ended December 31, 2024, the Company's finance lease for furniture and fixtures expired. The carrying amount of the lease liability at the expiration date was US\$0 as all lease payments has been made, and the ROU asset was fully amortized.

As of December 31, 2024, the Company had no additional operating and finance leases commitments that have not yet commenced.

As of December 31, 2024 and 2023, ROU assets related to operating and finance leases were as follows:

(In US\$)			
2024	ROU asset	Accumulated amortization	Net book value
Operating leases	3,320,807	1,964,756	1,356,051
Finance lease	–	–	–
Total	3,320,807	1,964,756	1,356,051

(In US\$)			
2023	ROU asset	Accumulated amortization	Net book value
Operating leases	6,895,374	4,114,299	2,781,075
Finance lease	95,473	79,012	16,461
Total	6,990,847	4,193,311	2,797,536

As of December 31, 2024 and 2023, liabilities related to operating and finance leases were as follows:

(In US\$)			
2024	Current portion	Non-current portion	Total
Operating leases	738,822	1,103,662	1,842,484
Finance lease	–	–	–
Total	738,822	1,103,662	1,842,484

(In US\$)			
2023	Current portion	Non-current portion	Total
Operating leases	1,659,614	1,842,484	3,502,098
Finance lease	10,359	–	10,359
Total	1,669,973	1,842,484	3,512,457

The components of lease cost for the years ended December 31, 2024 and 2023 are as follows:

(In US\$)		
Particulars	Years ended December 31,	
	2024	2023
Finance lease cost		
Amortization of right-of-use assets	16,461	42,798
Interest on lease liabilities	90	1,752
Operating lease cost	1,455,605	2,198,738
Short-term lease cost	13,060	29,512
	1,485,216	2,272,800
Less sublease income	959,240	1,167,963
Total lease cost	525,976	1,104,837

On March 25, 2024, the Company entered into a sublease agreement for the Raleigh, NC administrative facility. The lease commenced April 1, 2024, and extends through the remaining term of the existing lease which expires on October 31, 2027.

On July 17, 2023, the Company entered into a sublease agreement for the entire Boulder, CO facility, which expired concurrently with expiration of the primary lease on August 15, 2024.

On July 15, 2022, the Company entered into a sublease agreement for the entire Shelton, CT facility, which expired concurrently with the primary lease on June 30, 2024.

The future minimum lease income, as of December 31, 2024, from the remaining sublease agreement is as follows:

(In US\$)	
Years ending December 31	
2025	381,604
2026	381,604
2027	318,004
	1,081,212

Cash paid during the years ended December 31, 2024 and 2023, for amounts included in the measurement of lease liabilities is as follows:

(In US\$)		
Particulars	Years ended December 31,	
	2024	2023
Operating cash flows used for operating leases	1,698,115	2,499,985
Operating cash flows for finance leases	90	1,751
Financing cash flows for finance leases	10,359	41,697
Total	1,708,564	2,543,433

Future minimum lease payments for operating leases, as of December 31, 2024, are as follows:

(In US\$)	
Years ending December 31	
2025	748,447
2026	598,299
2027	511,561
Total undiscounted future lease payments	1,858,307
Less imputed interest	(15,823)
Total lease obligations	1,842,484

## 6. Revenue

For the years ended December 31, 2024 and 2023, revenue was disaggregated into the following categories:

(In US\$)

2024	Commerce services	Analytics services	Experience-driven commerce services	Affiliate revenue	Other	Total
Time and Materials	13,171,598	1,289,868	4,402,939	51,226,184	–	70,090,589
Fixed Price	811,746	65,740	7,500	–	–	884,986
Service Unit	–	–	2,256,284	–	–	2,256,284
Partner referrals	–	–	–	–	818,725	818,725
Total revenue	13,983,344	1,355,608	6,666,723	51,226,184	818,725	74,050,584

(In US\$)

2023	Commerce services	Analytics services	Experience-driven commerce services	Affiliate revenue	Other	Total
Time and Materials	20,472,439	1,420,051	1,692,086	60,222,857	–	83,807,433
Fixed Price	644,782	–	442,725	–	–	1,087,507
Service Unit	–	–	3,018,438	–	–	3,018,438
Partner referrals	–	–	–	–	537,455	537,455
Total revenue	21,117,221	1,420,051	5,153,249	60,222,857	537,455	88,450,833

## 7. Income taxes

The provision for income taxes for the years ended December 31, 2024 and 2023 was as follows:

(In US\$)

Particulars	Years ended December 31,	
	2024	2023
Current:		
Federal	1,083,628	1,184,011
State	95,647	203,306
Total current	1,179,275	1,387,317
Deferred – Federal	(10,524,999)	–
Total income tax (benefit) expense	(9,345,724)	1,387,317

The effective income tax rates for 2022 differ from the federal statutory rates principally because of the effect of valuation allowance, state income taxes, and other non-deductible expenses.

The components of the deferred tax assets and liabilities as of December 31, 2024 and 2023 are as follows:

(In US\$)

Particulars	As at December 31,	
	2024	2023
Goodwill amortization	7,913,605	9,183,118
Property and equipment	(186,653)	(172,798)
Accrued expenses	219,058	82,504
ROU assets and lease liabilities	111,004	171,387

Particulars	As at December 31,	
	2024	2023
Net operating loss	2,467,985	2,712,138
Valuation allowance	–	(11,976,349)
Net deferred tax asset	10,524,999	–

The Company continually assesses the realizability of its deferred tax assets. Due to the history of losses, the Company had concluded in prior years that it was not more likely not to realize the net deferred tax asset. Therefore, the Company recorded a full valuation allowance on its net deferred tax asset as of December 31, 2023. At December 31, 2024, the Company considered all positive and negative evidence, and based on the weight of the evidence available has determined a valuation allowance against the Company's deferred tax assets is not necessary. Positive evidence analyzed included three years of cumulative book income and profitable projections in the near future. The Company recorded a net valuation allowance release of US\$10,524,999.

As of December 31, 2024 and 2023, the Company had federal operating loss ("NOL") carryforwards of approximately US\$10,815,010 and US\$11,409,921, respectively which carry forward indefinitely. The utilization of the federal and state net operating loss carryforwards may be subject to limitation under the rules regarding a change in stock ownership as determined by the Internal Revenue Code or the laws of the respective state. Specifically, Section 382 of the U.S. Internal Revenue Code imposes limitations on the utilization of net operating losses (NOLs) and certain built-in losses following an ownership change in a corporation. Utilization of NOLs for the Company is limited to US\$591,282 each year.

The Company has determined that there are no significant tax positions that result in uncertainty requiring recognition as of and for the years ended December 31, 2024 and 2023. The Company recognizes interest and penalties accrued related to any unrecognized tax benefits in interest within the Statement of Operations. As of December 31, 2024 and 2023, the Company had no accrued interest and penalties related to unrecognized tax benefits. Tax years 2021–2023 remain open to audit in the federal and state jurisdictions in which the Company operates.

## 8. Commitments and contingencies

Periodically, the Company may be involved in claims and other legal matters. The Company records accruals for loss contingencies to the extent that the Management concludes that it is probable that a liability has occurred, and the amount of the related loss can be reasonably estimated. There are no matters pending that the Company currently believes are reasonably possible to have a material impact on our business, financial condition, results of operations or cash flows. Legal fees and other expenses related to litigation are expensed as incurred and included in selling, general and administrative expenses within the Statement of Operations.

## 9. Related party transactions

During the years ended December 31, 2024 and 2023, the Company recognized both revenue and expenses related to services provided to / from related parties as follows:

(In US\$)

Particulars	Years ended December 31,			
	2024		2023	
	Revenue	Expenses	Revenue	Expenses
Ultimate Parent Company	50,398,213	542,206	58,142,512	256,381
Subsidiaries of the Ultimate Parent Company	827,971	85,690	2,080,345	25,598
	51,226,184	627,896	60,222,857	281,979

During the year ended December 31, 2024, the Company also purchased US\$568,872 of computer equipment from a subsidiary of the Ultimate Parent Company, which was recorded in property and equipment in the Balance Sheet.

Due from and to affiliates reflect payments due to / from the Ultimate Parent Company and its subsidiaries. Due from affiliates represent those amounts owed in connection with the services provided to the Ultimate Parent Company and its subsidiaries. These amounts are non-interest bearing, due on demand, and measured at the exchange amount. As at December 31, 2024 and 2023, the related party balances were as follows:

(In US\$)

Particulars	As at December 31,			
	2024		2023	
	Due from affiliate	Due to affiliate	Due from affiliate	Due to affiliate
Ultimate Parent Company	3,640,556	1,005,167	3,576,926	163,619
Subsidiaries of the Ultimate Parent Company	33,178	6,399	165,723	7,568
	3,673,734	1,011,566	3,742,649	171,187

During the year ended December 31, 2024, the Company, Infosys McCamish Systems LLC, a subsidiary of the Ultimate Parent Company ("McCamish"), and Citibank N.A. ("Citi") entered into agreements for the purposes of involving the Company in a centralized cash management arrangement ("Cash Pool"). The Cash Pool requires the Company to sweep cash on hand in its participating bank account in excess of US\$4,000,000 at the end of the day to a Citi account owned by McCamish. If the Company has a shortfall in its participating bank account at the end of the day, McCamish transfers the Company the shortfall balance. Interest earned by McCamish on the Cash Pool balance is distributed to the Company proportionately based on their contributions to the overall Cash Pool, after deducting the remuneration set at 25 basis points of the incremental interest earned. As of December 31, 2024, the Company had a cash position in the Cash Pool of US\$33,674,954 and interest receivable

of US\$112,464. Interest earned on the Cash Pool for the year ended December 31, 2024, was US\$309,961.

On June 15, 2022, the Company entered into a loan agreement with a subsidiary of the Ultimate Parent Company to provide US\$2,500,000 for working capital needs. The loan was fully funded upon execution and bears interest equal to the 12-month USD LIBOR rate plus 2.5%, adjusted quarterly. Effective July 1, 2023, the loan agreement was renewed with interest to be accrued at a rate equal to the 12-month Secured Overnight Funding Rate (SOFR) plus 1.83%. Interest is payable at the time of repayment or on the anniversary date each, whichever comes first. The principal amount of the loan is repayable on demand. As of December 31, 2023, principal and accrued interest totaled US\$2,515,415. The loan payable and accrued interest was paid in full on March 22, 2024.

On August 25, 2021, Beringer Capital Digital, Inc. ("Original Lender") entered into a loan agreement with the Ultimate Parent Company to provide funding up to US\$5,000,000 to the Ultimate Parent Company for potential merger-and-acquisition-related activities. The funding can be disbursed in multiple tranches with interest charged at a rate equal to the 12 months USD Libor plus 1.25%. Interest is payable on the anniversary date of fundings or upon repayment of principal, whichever comes first. At such time that funding is provided under this agreement the interest rate will be amended to a new borrowing rate. Principal payments are to be made on demand. The loan agreement was amended on April 1, 2022, to name the Company as the Original Lender and for the Company to assume and fulfill all obligations of the Original Lender under the loan agreement. No disbursements of funds have been made under the loan agreement to date.

As a result of the significant related party transactions with affiliated entities, the accompanying financial statements may not be indicative of the conditions that would have existed, or results of operations, had the Company operated without these related party transactions.

## 10. Retirement plans

The Company sponsors a 401(k) plan that covers all employees. The plan provides for safe harbor employer matching contributions. Employer matching contributions to the retirement plan for the years ended December 31, 2024 and 2023, were US\$741,639 and US\$864,265, respectively.

## 11. Subsequent events

The Management has evaluated subsequent events through April 30, 2025, the date on which the financial statements were available to be issued and no other events were noted other than those described below.

On January 1, 2025, the Company was merged into Infosys Nova Holdings LLC, with Infosys Nova Holdings LLC as the surviving entity.

On April 17, 2025, the Company entered into a Termination of Lease Agreement with respect to their Charleston, SC administrative facility. The termination is effective March 31, 2025, with no additional cost or penalty to the Company.

## Infosys Compaz Pte. Ltd.

# Directors' statement

The directors present their statement together with the audited financial statements of the Company for the financial year ended March 31, 2025.

## In our opinion:

The directors present their statement together with the audited financial statements of the Company for the financial year ended March 31, 2025.

In the opinion of the directors, the financial statements of the Company as set out on pages 7 to 45 are drawn up so as to give a true and fair view of the financial position of the Company as at March 31, 2025, and the financial performance, changes in equity and cash flows of the Company for the financial year then ended and at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts when they fall due.

## 1 Directors

The directors in office at the date of this statement are as follows:

Alan Raymond Thompson	(Chairman)
Andrew Stewart Groth	
Salil Satish Parekh	
Baskararao Paidithali	
Babu Atul	(Director and Chief Executive Officer) (Appointed on 27 July 2024)
Lim Ming Pey	(Alternate director to Alan Raymond Thompson)
Lim Choon Lye, Mark	(Alternate director to Baskararao Paidithali)(Appointed on 6 November 2024)
Dennis Kantilal Gada	(Alternate director to Salil Satish Parekh and Andrew Stewart Groth)

## 2 Arrangements to enable directors to acquire benefits by means of the acquisition of shares and debentures

Neither at the end of the financial year nor at any time during the financial year did there subsist any arrangement whose object is to enable the directors of the Company to acquire benefits by means of the acquisition of shares or debentures in the Company or any other body corporate.

## 3 Directors' interests in shares and debentures

According to the register kept by the Company for the purposes of Section 164 of the Companies Act 1967 ("the Act"), particulars of interests of directors who held office at the end of the financial year (including those held by their spouses and infant children) in shares, debentures, warrants and share options in the Company and in related corporations are as follows:

Name of director and corporation in which interests are held	Holdings at the beginning of the year /date of appointment	Holdings at the end of the year
Andrew Stewart Groth		
Infosys Limited		
Stock Incentive Rewards Program Share Plan		
ADR RSU	52,828	38,265
ADR PSU	30,185	18,586
Salil Satish Parekh		
Infosys Limited		
Employee Stock Options (ESOP)	959,354	1,185,548
Dennis Kantilal Gada		
Infosys Limited		
Ordinary shares	44,571	49,257

Except as disclosed in this statement, no director who held office at the end of the financial year had interests in shares, debentures, warrants or share options of the Company, or of related corporations, either at the beginning of the financial year or date of appointment if later, or at the end of the financial year.

## 4 Share options

- (a) Options to take up unissued shares

During the financial year, no option to take up unissued shares of the Company was granted.

- (b) Options exercised

During the financial year, there were no shares of the Company issued by virtue of the exercise of an option to take up unissued shares.

- (c) Unissued shares under option

At the end of the financial year, there were no unissued shares of the Company under option

## 5 Auditors

The auditors, Deloitte & Touche LLP, have indicated their willingness to accept re-appointment.

# Independent Auditor's Report

To the Member of Infosys Compaz Pte. Ltd.

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Infosys Compaz Pte. Ltd. (the "Company"), which comprise the statement of financial position as at March 31, 2025, and the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 7 to 45.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act"), Singapore Financial Reporting Standards (International) ("SFRS(I)s") so as to give a true and fair view of the financial position of the Company as at March 31, 2025 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the 'Auditors' responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Matter

The financial statements of the Company for the year ended March 31, 2024 were audited by another auditor who expressed an unmodified opinion on those financial statements on May 31, 2024.

### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the Directors' statement set out on pages 1 to 3, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act, SFRS(I)s and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition; and transactions are properly authorized and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Directors' responsibilities include overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern..
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

### **Report on Other Legal and Regulatory Requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

Net decrease in cash and cash equivalents		28,412,234	(11,799,522)
Cash and cash equivalents at April 1		22,369,388	34,168,910
Cash and cash equivalents at March 31	6	50,781,622	22,369,388

The accompanying notes form an integral part of these financial statements.

# Notes to the financial statements

These notes form an integral part of the financial statements.

The financial statements were authorized for issue by the Board of Directors on June 2, 2025.

## 1 Domicile and activities

Infosys Compaz Pte. Ltd. ("the Company") is a company incorporated in the Republic of Singapore. The address of the Company's registered office is 401 Commonwealth Drive #05-01 Haw Par Techno Centre, Singapore 149598.

The principal activities of the Company are those relating to the provision of computer consultancy services.

The immediate holding company during the financial year is Infosys Singapore Pte. Ltd. (f.k.a Infosys Consulting Pte Ltd.), a company incorporated in the Republic of Singapore. The ultimate holding company is Infosys Limited, a company incorporated in India.

## 2 Basis of preparation

### 2.1 Statement of compliance

The financial statements have the financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards (International) ("SFRS(I)s").

### 2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

### 2.3 Functional and presentation currency

These financial statements are presented in Singapore dollars, which is the Company's functional currency.

### 2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with FRS requires management to make judgements, estimates and assumptions about the future, including climate-related risks and opportunities, that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Company's risk management and climate-related commitments where appropriate. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information on areas involving a higher degree of judgement or areas where estimates are significant to the financial statements are set out in note 21.

### 2.5 Changes in material accounting policies

New accounting standards and amendments

The Company has applied the following SFRS(I)s and amendments to SFRS(I) for the first time for the annual period beginning on 1 April 2024:

- Amendments to SFRS(I) 1-1: Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants.

Other than the below, the application of these amendments to accounting standards and interpretations does not have a material effect on the financial statements.

The amendments affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period, and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

## 3 Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except as explained in note 2.5, which addresses changes in material accounting policies.

### 3.1 Financial instruments

#### (i) Recognition and initial measurement

##### Non-derivative financial assets and financial liabilities

Trade receivables issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

#### (ii) Classification and subsequent measurement

##### Non-derivative financial assets

On initial recognition, a financial asset is classified as measured at amortized cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial

assets are reclassified on the first day of the first reporting period following the change in the business model.

#### **Financial assets at amortized cost**

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### **Non-derivative financial assets: Subsequent measurement and gains and losses**

##### **Financial assets at amortized cost**

These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

#### **Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Directly attributable transaction costs are recognized in profit or loss as incurred.

Other financial liabilities are initially measured at fair value less directly attributable transaction costs. They are subsequently measured at amortized cost under the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. These financial liabilities comprised of trade and other payables.

#### **(iii) Derecognition**

##### **Financial assets**

The Company derecognizes a financial asset when:

- The contractual rights to the cash flows from the financial asset expire; or
- It transfers the rights to receive the contractual cash flows in a transaction in which either
  - Substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - The Company neither transfers nor retains substantially all of the risks and rewards of ownership, and it does not retain control of the financial asset.

##### **Financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

#### **(iv) Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

#### **(v) Cash and cash equivalents**

Cash and cash equivalents comprise cash balances and short-term deposits with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of its short-term commitments.

#### **(vi) Share capital**

##### **Ordinary shares**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity, net of any tax effects.

### **3.2 Property, plant and equipment**

#### **Recognition and measurement**

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the costs of materials and direct labor, any other costs directly attributable to bringing the asset to a working condition for their intended use, estimated costs of dismantling and removing the items and restoring the site on which they are located when the Company has an obligation to remove the asset or restore the site, and capitalized borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment. When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in profit or loss.

#### **Subsequent costs**

The cost of replacing a component of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognized in the profit or loss on a straight-line basis to write down the cost of property, plant and equipment to its estimated residual value over the estimated useful lives (or lease term, if shorter) of each part of an item of property, plant and equipment.

Depreciation is recognized from the date that the property, plant and equipment are installed and ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use. No depreciation is provided on construction work-in-progress until the related property, plant and equipment is ready for use.

The estimated useful lives for the current and comparative years are as follows:

Buildings	1 to 6 years
Leasehold improvements	5 years
Plant and machinery	5 years
Computers and software	3 to 5 years
Office furniture and equipment	5 years

Depreciation methods, useful lives, and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3.3 Impairment

(i) Non-derivative financial assets and contract assets

The Company recognizes loss allowances for expected credit losses ("ECLs") on:

- Financial assets measured at amortized costs; and
- Contract assets (as defined in SFRS(I) 15).

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

Simplified approach

The Company applies the simplified approach to provide for ECLs for all trade receivables and contract assets. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs.

General approach

The Company applies the general approach to provide for ECLs on all other financial instruments. Under the general approach,

the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company considers a financial asset to be in default when:

- The borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- The financial asset is more than a reasonable number of days past due.

The Company considers a contract asset to be in default when the customer is unlikely to pay its contractual obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- A breach of contract, such as a default or is more than a reasonable number of days past due
- The restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;

- It is probable that the borrower will enter bankruptcy or other financial reorganization; or
- The disappearance of an active market for a security because of financial difficulties.

#### **Presentation of allowance for ECLs in the statement of financial position**

Loss allowances for financial assets measured at amortized cost and contract assets are deducted from the gross carrying amount of these assets.

#### **Write-off**

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due. Based on the experience, there have been no corporate recoveries after 12 months.

#### **(ii) Non-financial assets**

The carrying amounts of the Company's non-financial assets, are reviewed at each Balance Sheet date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or its related cash-generating unit ("CGU") exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

Impairment losses recognized in prior periods are assessed at each Balance Sheet date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### **3.4 Employee benefits**

#### **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate

entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

#### **Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

#### **Training pool provisions**

Training pool provisions are related to funds disbursed by its former immediate holding company for the training of staff. A liability is recognized for the amount expected to be utilized for the staff training and reduced by training attended by the employee in the periods during which related services are rendered to employees.

### **3.5 Provisions**

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as a finance cost.

### **3.6 Leases**

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### **(i) As a lessee**

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative standalone prices. However, for the leases of property, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as that of property and equipment. In addition, the right-of-use asset is periodically

reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and the type of asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost under the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'lease liabilities' in the statement of financial position.

### 3.7 Government grants

Government grants related to assets are initially recognized as deferred income at fair value when there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. These grants are then recognized in profit or loss as 'other income' on a systematic basis over the useful life of the asset. Grants that compensate the Company for expenses incurred are recognized in profit or loss as a deduction against salary cost on a systematic basis over financial periods, unless the conditions for receiving the grant are met after the related expenses have been recognized. In this case, the grant is recognized when it becomes receivable.

### 3.8 Revenue

Revenue from professional services and information technology services in the ordinary course of business is recognized when the Company satisfies a performance obligation ("PO") by transferring control of a promised good or service to the customer. The amount of revenue recognized is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone selling prices of the promised goods and services. The individual standalone selling price of a good and service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to goods and/or services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the performance obligations if it relates specifically to those performance obligations.

Transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised goods and services. The transaction price may be fixed or variable and is adjusted for time value of money if the contract includes a significant financing component. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue may be recognized at a point in time or over time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognized based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

### 3.9 Finance income and costs

The Company's finance income and finance costs include:

- Interest income; and
- Interest expense.

Interest income or expense is recognized using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- The gross carrying amount of the financial asset; or
- The amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no

longer credit-impaired, then the calculation of interest income reverts to the gross basis.

### 3.10 Income tax

Tax expense comprises current and deferred tax. Tax expense is recognized in the profit or loss except to the extent that it relates to a business combination, to items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable is the best estimate of the tax amount expected to be paid that reflects uncertainty related to income losses, if any.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilized. Deferred tax assets are reviewed at each balance sheet date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

### 3.11 New standards and interpretations not adopted

A number of new standards and amendments to standards are effective for annual periods beginning after April 1, 2024 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The Company is still, in the midst of, assessing the impact of the following amendments to SFRS(I)s on the Company's financial statements.

Effective for annual periods beginning on or after January 1, 2025:

- Amendments to SFRS(I) 9 and SFRS(I) 7: Amendments to the Classification and Measurement of Financial Instruments
- Annual Improvements to SFRS(I)s-Volume 11
- Amendments to SFRS(I) 9 and SFRS(I) 7: Contracts Referencing Nature-dependent Electricity

Effective for annual periods beginning on or after January 1, 2027

- SFRS(I) 18 Presentation and Disclosure in Financial Statements
- SFRS(I) 19 Subsidiaries without Public Accountability: Disclosures

## 4 Property, plant and equipment

At March 31, 2025	3,252,576	–	107,709	98,022	3,458,307

As at March 31, 2025, property, plant and equipment includes right-of-use assets of \$3,252,576 (2024: \$3,993,223) and \$3,111 (2024: \$21,762) related to leased building and office equipment and furniture, respectively.

## 5 Trade and other receivables

(In SG\$)			
Particulars	Note no.	As at March 31,	
		2025	2024
Current assets			
Trade receivables			
- ultimate holding company		640,573	376,490
- related corporations		10,402,494	25,357,979
- third parties		3,393,939	5,197,157
	14	14,437,006	30,931,626
Accrued revenue	14	2,536,032	5,987,363
Deposits		369,674	351,547
Other receivables		211,172	195,456
Non-trade receivables			
- ultimate holding company		886,323	257,755
- immediate holding company		303,374	317,630
- related corporations		63,916	201,843
Financial assets at amortised cost		18,807,497	38,243,220
Prepayments		1,660,355	5,539,181
		20,467,852	43,782,401

The Company's exposure to credit and currency risks, and impairment losses for trade and other receivables are disclosed in note 13.

Non-trade amount due from ultimate holding company, immediate holding company and related corporations are unsecured, interest-free and repayable on demand.

## 6 Cash and cash equivalents

Particulars	(In SG\$)	
	As at March 31,	
	2025	2024
Cash at bank	2,273,589	2,538,116
Fixed deposits	48,508,032	19,831,272
	50,781,621	22,369,388

The weighted average effective interest rate relating to fixed deposits at the balance sheet date for the Company are 2.10 % –5.32% (2024: 3.05% – 5.31%) per annum.

## 7 Share capital

Particulars	(In SG\$)	
	As at March 31,	
	2025	2024
	No. of shares	No. of shares
Ordinary shares		
At April 1 and March 31	1,000,000	1,000,000

Particulars	(In SG\$)	
	2025	2024
Ordinary shares		
At April 1 and March 31	2,600,000	2,600,000

The holder of ordinary shares is entitled to receive dividends as declared from time to time and is entitled to one vote per share at meetings of the Company. All shares rank equally with regards to the Company's residual assets.

All issued shares are fully paid.

### Dividends

The following exempt (one-tier) dividends were declared and paid by the Company:

Particulars	(In SG\$)	
	As at March 31,	
	2025	2024
Paid by the Company to the owners of the Company		
NIL per ordinary share (2024: \$15 per ordinary share)	–	15,000,000

## 8 Deferred tax assets and liabilities

Movement in temporary differences during the financial year:

Particulars	(In SG\$)				
	At 1 April 2023	Recognised in profit or loss (note 17)	At 31 March 2024	Recognised in profit or loss (note 17)	At 31 March 2025
Deferred tax assets					
Employee benefits	(547,881)	48,311	(499,570)	(94,758)	(594,328)
Doubtful debts	(23,680)	23,680	–	–	–
Lease liabilities	(819,300)	118,134	(701,166)	121,539	(579,627)
	(1,390,861)	190,125	(1,200,736)	26,781	(1,173,955)
Set off of tax	906,221	(178,018)	728,203	(151,998)	576,205
Net deferred tax assets	(484,640)	12,107	(472,533)	(125,217)	(597,750)
Deferred tax liabilities					
Plant and equipment	86,921	(41,265)	45,656	(22,917)	22,739
Right-of-use assets	819,300	(136,753)	682,547	(129,081)	553,466
	906,221	(178,018)	728,203	(151,998)	576,205
Set off of tax	(906,221)	178,018	(728,203)	151,998	(576,205)
Net deferred tax liabilities	–	–	–	–	–

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they relate to income taxes levied by the same tax authority on the same taxable entity.

## 9 Trade and other payables

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Trade payables:		
ultimate holding company	4,171,460	8,931,274
immediate holding company	837,081	1,392,480
related corporations	737,352	706,974
third parties	3,069,033	5,361,811
Other payables	1,772,428	2,171,628
Accruals	5,877,460	5,948,488
Non-trade payables:		
- ultimate holding company	29,391	214,472
	16,494,205	24,727,127

Accruals include bonus and payroll-related expenses of \$2,599,041 (2024: \$2,256,211).

Non-trade amounts due to the ultimate holding company are unsecured, interest-free, and repayable on demand.

The Company's exposure to liquidity risk related to trade and other payables is disclosed in note 13.

## 10 Employee benefits

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Current		
Short-term accumulating compensated absences	1,431,772	1,360,611
Training plan	568,886	671,680
	2,000,658	2,032,291

### Terms and debt repayment schedule

Terms and conditions of outstanding loans and borrowings are as follows:

Particulars	Currency	Nominal interest rate	Year of maturity	Face value	Carrying amount
				SG\$	SG\$
2025					
Lease liabilities	SGD	1.58% - 4.52%	2025 - 2030	3,730,457	3,420,468
2024					
Lease liabilities	SGD	1.58% - 4.52%	2025 - 2030	4,596,683	4,124,508

### Reconciliation of movements of liabilities to cash flows arising from financing activities

(In SG\$)

## 11 Provision for reinstatement cost

The movement for provision for reinstatement and redecoration of office premise is as follows:

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Non-current		
Beginning of financial year	305,355	298,867
Unwind of discount	6,630	6,488
End of financial year	311,985	305,355

This provision relates to the cost of dismantling and removing assets and restoring the premises to its original condition as stipulated in the operating lease agreement. The Company expects to incur the liability upon termination of the lease. The provision is measured at the best estimate of the expenditure required and timing of outflows, to settle the present obligation at the end of each reporting period.

## 12 Lease liabilities

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Current	820,473	770,191
Non-current	2,599,995	3,354,317
	3,420,468	4,124,508

Information about the Company's exposure to interest rate and liquidity risk is included in note 13

Particulars	
Balance at April 1, 2023	4,864,427
Changes from financing cash flows	
Payment of lease liabilities	(831,377)
Interest paid	(178,094)
Total changes from financing cash flows	(1,009,471)
Other changes	
Reassessment of lease	91,458
Interest expense	178,094
Total other changes	269,552
Balance at March 31, 2024	4,124,508

### Lease liabilities

(In SG\$)

Particulars	
Balance at April 1, 2024	4,124,508
Changes from financing cash flows	
Payment of lease liabilities	(833,288)
Interest paid	(152,782)
Total changes from financing cash flows	(986,070)
Other changes	
Reassessment of lease	129,248
Interest expense	152,782
Total other changes	282,030
Balance at March 31, 2025	(3,420,468)

In 2025, the Company has exercised its renewal option relating to lease of its office premise for another 1 year (2024: 1 year), resulting in an increase of lease liabilities and right-of-use assets amounting to \$ 129,248 (2024: \$91,458).

## 13 Financial instruments

### Overview

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

### Risk management framework

The Board of Directors oversees the management in monitoring compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

### Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to

meet its contractual obligations and arises principally from the Company's loans and receivables. The Company does not hold any collateral in respect of their financial assets.

### Exposure to credit risk

The Company limits its exposure to credit risk by mainly investing in low-risk funds managed by Singaporean financial institutions.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Expected credit loss assessment for trade receivables, accrued revenue and contract assets

The Company uses a provision matrix to measure the lifetime credit loss allowance for trade receivables, accrued revenue and contract assets. In measuring the expected credit losses, trade receivables and contract assets are grouped based on shared credit risk characteristics such as customer types and days past due.

In calculating the expected credit loss rates, the Company considers loss rates for each category of customers, based on actual credit loss experience for the last three years. The resultant impact arising from expected credit loss was not material.

The following table provides information about the exposure to credit risk for trade receivables, accrued revenue and contract assets as at March 31:

	(In SG\$)	
Particulars	Lifetime ECL – not impaired	Lifetime ECL – credit impaired
2025		
Current (not past due)	13,527,133	–
1 – 30 days past due	4,135,550	–
31 – 60 days past due	137,731	–
More than 60 days past due	439,509	250,642
Gross carrying amount	18,239,923	250,642
Loss allowance	–	(250,642)
Carrying amount	18,239,923	–
2024		
Current (not past due)	23,282,838	–
1 – 30 days past due	7,785,349	–
31 – 60 days past due	3,956,338	–
More than 60 days past due	2,940,980	268,553
Gross carrying amount	37,965,505	268,553
Loss allowance	–	(268,553)
Carrying amount	37,965,505	–

Movements in allowance for impairment in respect of trade receivables

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

Particulars	(In SG\$)	
	As at March 31,	
	2025	2024
Balance as at April 1	268,553	139,295
Impairment loss recognised	270,137	129,258
Reversal of impairment losses previously recognised	(288,048)	–
Balance as at March 31	250,642	268,553

The Company believes that the unimpaired amounts that are past due by more than 60 days are still collectible in full, based on historic payment behavior and analysis of customer credit risk, including underlying customers' credit ratings, when available.

#### Non-trade receivables due from the ultimate holding company, the immediate holding company and related corporations

The Company considers the non-trade amounts due from ultimate holding company, immediate holding company and related corporations to have a low credit risk by taking into consideration the financial ability of the company to settle the amount due from it on estimating the risk of default used in measuring ECL. The resultant loss allowance is expected to be insignificant.

#### Exposure to liquidity risk

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

Particulars	(In SG\$)			
	Carrying amount	Contractual cash flow	Within 1 year	2 to 5 years
March 31, 2025				
Non-derivative financial liability				
Trade and other payables	16,494,205	(16,494,205)	(16,494,205)	–
Lease liabilities	3,420,468	(3,730,457)	(962,054)	(2,768,403)
	19,914,673	(20,224,662)	(17,456,259)	(2,768,403)
March 31, 2024				
Non-derivative financial liability				
Trade and other payables	24,727,127	(24,727,127)	(24,727,127)	–
Lease liabilities	4,124,508	(4,596,683)	(953,385)	(3,643,298)
	28,851,635	(29,323,810)	(25,680,512)	(3,643,298)

#### Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

#### Currency risk

As at Balance Sheet date, the Company is not exposed to significant currency risks.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flow of the Company's financial instruments will fluctuate because of changes in market interest rates. As at balance sheet date, the Company is not exposed to significant interest rate risk.

#### Other financial assets

Impairment loss on these other financial assets have been measured on the 12-month expected loss basis and reflects the short-term maturities of the exposures. The Company consider that remaining receivables have low credit risk based on the external credit ratings of the counterparties.

#### Cash and cash equivalents

Cash and fixed deposits are placed with banks and financial institutions which are regulated. At the balance sheet date, 100% (2024: 100%) of the Company's cash and cash equivalents are placed with financial institutions with credit-rating of A-1 and above (2024: A-1 and above). Impairment on cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

#### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

The Company's objective when managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

## Capital management

The capital management of the Company is determined and managed by the immediate holding company as part of the operations of the Company. The Company's capital comprises its share capital and accumulated profits.

There were no changes in the Company's approach to capital management during the year.

The Company is not subject to externally imposed capital requirements.

## Accounting classifications and fair values

The carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy are as follows. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

(In SG\$)				
Particulars	Note	Financial assets at amortised cost	Other financial liabilities	Total carrying amounts
<b>2025</b>				
Financial assets not measured at fair value				
Trade and other receivables (excluding prepayments)	5	18,807,497	–	18,684,438
Cash and cash equivalents	6	50,781,622	–	50,781,622
		69,589,119	–	69,466,059
Financial liabilities not measured at fair value				
Trade and other payables	9	–	16,494,205	16,494,205
<b>2024</b>				
Financial assets not measured at fair value				
Trade and other receivables (excluding prepayments)	5	38,243,220	–	38,243,220
Cash and cash equivalents	6	22,369,388	–	22,369,388
		60,612,608	–	60,612,608
Financial liabilities not measured at fair value				
Trade and other payables	9	–	24,727,127	24,727,127

The notional amounts of financial assets and liabilities with a maturity of less than one year (including trade and other receivables, cash and cash equivalents, and trade and other payables) are assumed to approximate their fair values because of the short period of maturity.

## 14 Revenue

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Professional services fee income	25,419,374	16,978,281
Smart messaging services fee income	–	25,030
Utility computing services fee income	68,855,123	82,834,164
IT security services fee income	12,311,701	13,787,000
	106,586,198	113,624,475

The following tables provide information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

#### Revenue stream

Nature of goods or services	The Company generates revenue from providing IT consultancy services (which includes professional service, Smart messaging services, Utility computing services and IT security services).
When revenue is recognised	Revenue is recognised when these services are delivered to the customer and all criteria for acceptance have been satisfied.  These contracts qualify for over time revenue recognition and the Company generally has enforceable rights to payment for performance completed till date. The stage of completion is assessed by reference to the contract effort incurred till date in proportion to the estimated total effort of each contract.
Significant payment terms	Payment is due when services are rendered to the customers or when milestones are met or progress billing to the customer are based on a payment schedule in the contract that is dependent on the achievement of specified milestones. If the value of the services rendered exceeds the payments received from the customer, a contract asset is recognised.
Obligations for returns and refunds, if any	Revenue is recognized to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. Therefore, the amount of revenue recognized is adjusted based on the availability of supporting documents.  The company reviews its estimate of revenue at each reporting date and updates the amounts of the assets and liabilities accordingly.

#### Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by primary geographical markets, major products and service lines and timing of revenue recognition. The table also includes a reconciliation of the disaggregated revenue with the Company's reportable segments

(In SG\$)		
Particulars	IT consultancy	
	As at March 31,	
	2025	2024
Primary geographical markets		
Singapore	106,586,198	113,624,475
Major products/service line		
Sale of services	106,586,198	113,624,475
Timing of revenue recognition		
Products and services transferred over time	106,586,198	113,624,475

#### Contract balances

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers.

(In SG\$)			
Particulars	Note	As at March 31,	
		2025	2024
Trade receivables	5	14,437,005	31,055,945
Accrued revenue	5	2,536,032	5,863,044
Contract assets		1,266,885	1,046,516
Contract liabilities		(3,685,078)	(4,783,620)
		14,554,844	33,181,885

The contract assets primarily relate to the Company's rights to consideration for work completed but not billed at the reporting date on services rendered and project completion. The contract assets are transferred to trade receivables when the rights become unconditional. This usually occurs when the Company invoices the customer.

The contract liabilities primarily relate to advance consideration received from customers for projects over a period of time.

Significant changes in the contract assets and the contract liabilities balances during the year are as follows:

(In SG\$)				
Particulars	Contract assets		Contract liabilities	
	2025	2024	2025	2024
Revenue recognised that was included in the contract liability balance at the beginning of the year		–	4,687,003	8,118,700
Increase due to cash received, excluding amounts recognised as revenue during the year		–	(3,588,461)	(3,450,325)
Contract assets reclassified to trade receivable				–
	(886,414)	(1,983,677)		
Changes in measurement of progress	1,106,783	1,046,516		

Actual agreements and service orders are used to estimate the total contract costs to complete.

In making these estimates, management has relied on the expertise of project managers as well as timesheets to determine the progress of the projects. The estimated total contract costs are reviewed every reporting period and adjusted where necessary, with the corresponding adjustment to profit margin being recognized prospectively from the date of change.

### Transaction price allocated to the remaining performance obligations

The following table includes revenue expected to be recognized in the future related to performance obligations that are unsatisfied (or partially satisfied) at the reporting date.

(In SG\$)				
Particulars	2026	2027	2028	Total
2025				
IT consultancy services	38,084,698	20,992,308	20,199,803	79,276,809

(In SG\$)				
Particulars	2025	2026	2027	Total
2024				
IT consultancy services	42,947,580	34,685,276	35,669,196	113,302,052

Variable consideration that is constrained and therefore not included in the transaction price is excluded from the amount presented above.

The Company applies the practical expedient in paragraph 121 of SFRS(I) 15 and does not disclose information about its remaining performance obligations if:

- the performance obligation is part of a contract that has an original expected duration of one year or less; or
- Company has a right to invoice a customer in an amount that corresponds directly with its performance to date, then it recognizes revenue in that amount.

### 15 Finance income and costs

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Interest income under the effective interest method on:		
Fixed deposits	896,810	1,098,533
Finance income	896,810	1,098,533
Lease liabilities	(152,782)	(178,094)
Unwind of discount for provision for reinstatement cost	(6,630)	(6,488)
Finance costs	(159,412)	(184,582)
Net finance income	737,398	913,951

### 16 Profit before income tax

The following items have been included in arriving at profit before income tax:

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Depreciation of plant and equipment	1,108,109	1,212,007
Staff costs	35,850,163	41,262,783
Contributions to defined contribution plans, included in staff costs	2,288,951	2,713,759
Government grant income, included in staff cost	(102,730)	(42,342)
Provision made for unconsumed leave	1,142,029	220,062
Legal and professional fee	577,796	343,082

In 2025, the Company has received government grant income related to Job Growth Incentive,

an incentive to support employers to expand local hiring amounting to \$ 102,730 (2024: Job Growth Incentive of \$42,342).

### 17 Income tax expense

(In SG\$)			
Particulars	Note no.	As at March 31,	
		2025	2024
Current tax expense			
Current year		3,082,314	2,244,564
Over provision in prior years		40,936	(52,754)
		3,123,250	2,191,810
Deferred tax expense			
Origination and reversal of temporary differences	8	(125,217)	12,107
Income tax expense		2,998,033	2,203,917
Reconciliation of effective tax rate			
Profit before income tax		16,719,958	12,936,010
Income tax using Singapore tax rate of 17% (2024: 17%)		2,842,393	2,199,122
Tax incentives		(14,408)	(12,244)
Non-deductible expenses		146,537	87,218
Income not subject to tax		(17,425)	(17,425)
Over provision in prior years		40,936	(52,754)
		2,998,033	2,203,917

## 18 Leases

### Leases as lessee (SFRS(I) 16)

The Company leases office and office equipment. The leases typically run for a period of 3 years, with an option to renew the lease after that date.

Information about leases for which the Company is a lessee is presented below.

(In SG\$)			
Particulars	Building	Office furniture and equipment	Total
Balance at April 1, 2024	3,993,223	21,762	4,014,985
Depreciation charge for the year	(869,895)	(18,651)	(888,546)
Additions to right-of-use assets	129,248	–	129,248
Balance at March 31, 2025	3,252,576	3,111	3,255,687

(In SG\$)			
Particulars	Building	Office furniture and equipment	Total
Balance at April 1, 2023	4,775,493	43,920	4,819,413
Depreciation charge for the year	(873,728)	(22,158)	(895,886)
Additions to right-of-use assets	91,458	–	91,458
Balance at March 31, 2024	3,993,223	21,762	4,014,985

### Amounts recognized in profit or loss

(In SG\$)		
Particulars	As at March 31, 2025	2024
Leases under SFRS(I) 16		
Interest on lease liabilities	152,782	178,094

### Amounts recognized in the Statement of Cash Flows

(In SG\$)		
Particulars	As at March 31, 2025	2024
Total cash outflow for leases	986,072	1,009,471

## Extension options

Some property leases contain extension options exercised by the Company up to three months before the end of the non-cancellable contract period. Where applicable, the Company seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Company and not by the lessors. The Company assesses at the lease commencement date whether it is reasonably certain to exercise options. The company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

The Company has estimated that the potential future lease payments, should it exercise the extension option, would result in an increase in lease liability of NIL (2024: \$128,619).

## 19 Commitments

### License and Maintenance contracts

The Company has entered into contracts for the license and maintenance of certain software and equipment. The non-cancellable expenses are payable as follows:

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Within one year	24,351,269	14,629,512
Between one and five years	15,912,014	12,390,183
	40,263,283	27,019,695

## 20 Related parties

### Key management personnel compensation

Key management personnel of the Company are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity. The directors and executive officers are considered as key management personnel of the Company.

Key management personnel compensation comprised:

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Short-term employee benefits	1,839,489	1,708,287
Contributions to defined contribution plans	–	19,325
	1,839,489	1,727,612

No Director's fees was proposed in respect of the financial year ended 31 March 2025 (2024: \$Nil).

### Other related party transactions

For the purpose of these financial statements, parties are considered to be related to the Company if the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, where the Company and the party are subject to common control or common significant influence. Related parties may be individuals or other entities. Other than as disclosed elsewhere in the financial statements, the transactions with related parties during the year based on terms agreed between the parties are as follows:

(In SG\$)		
Particulars	As at March 31,	
	2025	2024
Ultimate holding company		
Professional services fee income	1,638,352	636,327
Utility computing services fee income	1,122,710	2,217,918
IT security services fee income	–	208,528
Manpower cost recovery	(25,345,801)	(28,640,603)
Immediate holding company		
Manpower cost recovery	(3,832,343)	(3,449,508)
Related corporations		
Professional services fee income	23,367,499	14,721,091
Smart messaging services fee income	–	25,030
Utility computing services fee income	47,041,191	60,849,912
IT security services fee income	12,307,071	13,578,472
Manpower cost recovery	(1,605,722)	(1,252,777)
Information technology services and internet services expense	(3,823,156)	(4,626,703)

## 21 Critical accounting estimates, assumptions and judgements

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year and critical judgements in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are discussed below:

### Impairment of financial assets

The Company maintains impairment loss at a level considered adequate to provide for potential uncollectible receivables. The level of this allowance is evaluated by the Company on the basis of factors that affect the collectability of the accounts. These factors include, but not limited to, the length of the Company's relationship with the debtors, their payment behavior and known market factors. The Company reviews the age and status of receivables and identifies accounts that require allowance to be

made on a continuous basis. The amount and timing of recorded expenses for any period would differ if the Company made a different judgment or utilized different estimates. An increase in the Company's impairment loss would increase the Company's recorded other expenses and decrease its current assets.

### IT consultancy services contracts

The Company accounts for revenue and profit based on the stage of completion of individual contracts. The amount of revenue and profit recognized is dependent on management's assessment on the stage of completion and the forecast profit of each contract. Changes in conditions and circumstances over time can result in variations to the original terms, including cost overruns which may require further negotiation and settlements resulting in penalties and provision for losses.

Significant judgments are used to estimate the total contract costs to complete. The estimated total contract costs are reviewed every reporting period and adjusted where necessary, with the corresponding adjustment to profit margin being recognized prospectively from the date of change.

## Infosys Consulting AG

# Report of the Statutory Auditor

To the General Meeting of Infosys Consulting AG, Kloten

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Infosys Consulting AG, Kloten (the Company), which comprise the balance sheet at 31 December 2024 and the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements comply with Swiss law and the Company's articles of incorporation.

### Basis for Opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the provisions of Swiss law, and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Board of Directors' Responsibilities for the Financial Statements

The Board of Directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on EXPERTsuisse's website at: <https://www.expertsuisse.ch/en/audit-report>. This description forms an integral part of our report.

### Report on Other Legal and Regulatory Requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the financial statements according to the instructions of the Board of Directors.

Based on our audit in accordance with Art. 728a para. 1 item 2 CO, we confirm that the proposed appropriation of available earnings complies with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

# Notes to the financial statement

Infosys Consulting AG is a wholly-owned subsidiary of Infosys Consulting Holding AG, Kloten (Switzerland). The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1. Principles

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 General aspects

These financial statements were prepared according to the principles of the Swiss Law on Accounting and Financial Reporting (32<sup>nd</sup> title of the Swiss Code of Obligations). Where not prescribed by law, the significant accounting and valuation principles applied are described below. Swiss law allows the company to create, and as a consequence, also release hidden reserves in its financial statements.

### 1.3 Revenue recognition

The method for recognizing revenues and cost depends on the nature of the services rendered and on the substance of the contractual agreement. Revenues and costs generated under time-and-material contracts are recognized as services are rendered. Revenue from fixed-price, fixed-timeframe contracts is recognized as per the percentage-of-completion method. An expected project loss is recognized as an expense immediately. Efforts expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Revenue comprises the invoiced value for the services and expense reimbursements, net of value-added tax.

### 1.4 Tangible assets

Tangible assets are valued at acquisition or manufacturing costs less accumulated depreciation and impairment losses. With the exception of land, tangible assets are depreciated using the straight-line method. As soon as there are indicators that book values may be overstated, these are reviewed and, if necessary, adjusted.

### 1.5 Leases

Leasing and rental agreements are accounted for as right-of-use assets on the balance sheet and subject to depreciation based on the assets' useful lives.

### 1.6 Foregoing a cash flow statement and additional disclosures in the notes

As Infosys Ltd., the owner of Infosys Consulting Holding AG, has prepared its consolidated financial statements in accordance with a recognized accounting standard (IFRS IASB), it has decided to forego presenting additional information on interest-bearing liabilities and audit fees in the notes as well as a cash flow statement and management report in accordance with Swiss law.

## 2. Information on balance sheet and income statement items

### 2.1 Investments

Company: Infosys Consulting S.R.L.

Net result for the year	5,247,623.12	18,278,151.08
Total voluntary retained earnings	12,552,679.03	22,305,055.91
Dividend	10,000,000.00	15,000,000.00
To be carried forward	2,552,679.03	7,305,055.91

## Outbox Systems, Inc. dba Simplus

# Independent Auditors' Report

To the Board of Directors of Outbox Systems, Inc. dba Simplus

## Opinion

We have audited the accompanying consolidated financial statements of Outbox Systems, Inc. dba Simplus and subsidiaries (collectively, the Company), which comprise the consolidated balance sheets as of December 31, 2024 and January 31, 2024, and the related consolidated statements of income, stockholders' equity, and cash flows for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024, and the related notes to consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Outbox Systems, Inc. dba Simplus and subsidiaries as of December 31, 2024 and January 31, 2024, and the results of their operations and their cash flows for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

## Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

Tanner LLC

# Notes to Consolidated Financial Statements

## 1. Description of Organization and Summary of Significant Accounting Policies

### Organization

Outbox Systems, Inc. was incorporated on September 12, 2014 as a Delaware corporation. On April 14, 2015, Outbox Systems, Inc. began operating under the business name of Simplus. Outbox Systems, Inc. dba Simplus (Simplus) is a platinum Salesforce partner and leading provider of quote-to-cash implementations. Simplus provides advisory, implementation, change management, custom configuration, and managed services for the following Salesforce platforms: CPQ, Billing, Sales Cloud, Service Cloud, Community Cloud, Mulesoft, and CLM.

In March 2020, the Company entered into an agreement for all of the Company's outstanding common stock to be acquired by Infosys Limited (Infosys), a consulting and information technology company based in India. Outbox Systems, Inc. and its subsidiaries are now wholly-owned subsidiaries of Infosys. These financials do not include any pushdown accounting adjustments relating to the acquisition of the Company by Infosys.

### Consolidated Financial Statements

The consolidated financial statements include the accounts of Simplus and its wholly-owned subsidiaries: Simplus ANZ, Pty Ltd, Simplus Australia, Pty Ltd., and Simplus Philippines Inc. (SPI) (collectively, the Company). SPI provides managed services and implementation services for the Company's customers and performs certain administrative and information technology functions for the Company. Simplus Australia performs quote-to-cash implementation services in their respective regions. All material intercompany accounts and transactions have been eliminated in consolidation.

The merger with Infosys Nova Holdings LLC, see Note 11, resulted in the Company changing its fiscal year from January 31 to December 31. This change aligns the Company's financial reporting with Infosys Nova Holdings LLC and improves consistency in operational and accounting periods. As a result, the 2024 consolidated financial statements reflect a transition period from February 1, 2024 to December 31, 2024" same as Audit report.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect reported amounts and disclosures. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgements about the carrying values of assets and liabilities as well as the reported amounts of revenues and expenses during the period. Actual results could differ from these estimates.

### Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash

equivalents and accounts receivable. In the normal course of business, the Company provides unsecured credit terms to its customers and requires no collateral. The Company maintains allowances for estimated losses, which, when realized, have been within the range of management's expectations. The Company maintains its cash in bank deposit accounts which balances, at times, exceed federally insured limits. To date, the Company has not experienced a lack of access to its cash.

For the 11-months ended December 31, 2024, revenue from Infosys represented approximately 54% of the Company's total revenues and approximately 31% of the Company's total accounts receivable as of December 31, 2024. For the fiscal year ended January 31, 2024, revenue from Infosys represented approximately 66% of the Company's total revenues and approximately 43% of the Company's total accounts receivable as of January 31, 2024.

### Accounts Receivable

The Company records its accounts receivable at sales value. Accounts outstanding longer than the contracted payment terms are considered past due. The Company has tracked historical loss information for its accounts receivable and compiled historical credit loss percentages for customers who share similar risk characteristics considering current trends and forecasts. This information is used to estimate the allowance for doubtful accounts. Management believes that the historical loss information it has compiled is a reasonable base on which to determine expected credited losses for accounts receivable held as of fiscal year end because the composition of the accounts receivable at that date is consistent with that used in developing the historical credit-loss percentages (i.e. the similar risk characteristics of its customers and its lending practices have not changed significantly over time). Accounts receivable are written off when management determines the likelihood of collection is remote. Recoveries of accounts receivable previously written off are recorded as income when the cash is received. As of January 31, 2023, accounts receivable was \$13,299,607. Contract assets (unbilled accounts receivable) as of December 31, 2024, January 31, 2024, and January 31, 2023, was \$870,029, \$1,140,159, and \$2,744,687, respectively.

### Goodwill

Goodwill represents the excess of the cost of an acquired entity over the net fair value of the identifiable assets acquired and liabilities assumed. The Company uses the simplified approach under US GAAP and included all customer related intangible assets and noncompetition agreements acquired in goodwill. Goodwill is stated at cost less accumulated amortization. Amortization expense is determined using the straight-line method over the estimated useful life of 10 years. The Company assesses goodwill for impairment at the entity level, whenever a triggering event occurs that indicates the fair value of the Company may be below its carrying amount. As of December 31, 2024, management determined that the Company's goodwill was not impaired.

## Property and Equipment

Property and equipment are stated at cost, net of accumulated depreciation. Depreciation is provided on a straight-line basis over the estimated useful lives. Estimated useful lives for financial reporting purposes are determined based on the expected term the asset is expected to be utilized.

## Revenue Recognition

The Company generates revenue through the performance of professional services, either in a time-and-materials-based contract or through a managed services contract. The Company determine revenue recognition through the following steps:

- Identification of the contract with a customer
- Identification of the performance obligations in the contract
- Determination of the transaction price
- Allocation of the transaction price to the performance obligations in the contract and
- Recognition of revenue when, or as, the Company satisfies a performance obligation.

Revenue is presented net of sales credits, which are recognized proportionate to revenue over the estimated life of the project.

## Performance Obligations

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer and is the unit of account under Topic 606. The transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied by transferring the promised good or service to the customer. The Company identified and tracks performance obligations at contract inception so that the Company can monitor and account for the performance obligations over the life of the contract. Materially all of the Company's contracts are single performance obligation arrangements—either a professional services implementation project or a managed services arrangement.

### Professional Services:

Revenue from professional services is typically comprised of implementation or other consulting services. Professional services are typically sold on a time-and-materials basis. The Company recognizes time-and-materials arrangements as the services are performed. Services are invoiced either bi-monthly or monthly and payments are typically due 30 days after the invoice.

### Managed Services:

Revenue from managed services is recognized ratably over the term of the arrangement, typically either one-year or three-years in length. The services are typically invoiced monthly and payments are typically due 30 days after invoice.

## Disaggregated Revenue

The Company disaggregates revenue from contracts with customers by geography and by the product type, as it believes it best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors.

The Company's revenue by geography is as follows for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
North America	63,139,655	88,043,686
Asia Pacific	11,901,943	17,920,273
Total	75,041,598	105,963,959

The Company's revenue by offering is as follows for the 11-months ended December 31 and the fiscal year ended January 31, respectively:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
Professional services	47,962,226	88,976,650
Managed services	27,079,372	16,987,309
Total	75,041,598	105,963,959

## Deferred Revenue

Deferred revenue primarily consists of cash deposits or payments received in advance of revenue recognition and is recognized as the revenue recognition criteria are met. The Company generally invoices customers semi-monthly as work is performed or monthly based on contractual terms. As of January 31, 2023 the deferred revenue balance was \$729,674.

## Practical Expedients and Exemptions

There are several practical expedients and exemptions allowed under Topic 606 that impact timing of revenue recognition and the Company's disclosure. Below is a list of practical expedients the Company applied in the adoption of Topic 606:

- The Company does not evaluate a contract for significant financing component if payment is expected within one year or less from the transfer of promised items to the customer.

## Costs to Obtain and Fulfill a Contract

The Company's incremental direct costs of obtaining a contract consist of sales commissions. The Company's policy is to pay sales commission upon invoicing. As the invoicing occurs consistent with when the revenue is recognized, the timing of the expensing of the contract asset matches the revenue recognition.

## Cost of Services

Cost of services primarily consists of employee-related costs associated with the delivery of these services, the cost of subcontractors and certain third-party fees, as well as any expenses incurred by these personnel that are not billed to the customer.

## Advertising

Advertising costs are expensed as incurred. Advertising expenses, including sponsorships and events, totaled \$1,348,633 and \$1,574,933 for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024, respectively.

## Income Taxes

The Company recognizes deferred income tax assets and liabilities for temporary differences between the financial reporting and tax reporting bases of the Company's assets and liabilities and expected benefits of utilizing net operating loss carryforwards.

The impact on deferred income taxes of changes in tax rates and laws, if any, applied to the years during which temporary differences are expected to be settled, is reflected in the consolidated financial statements in the period of enactment. The Company records net deferred income tax assets to the extent it believes these assets will more likely than not be realized. In making such determination, the Company considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax planning strategies and recent financial operations. In the event the Company determines it would be able to realize its deferred income tax assets in the future in excess of their recorded amount, the Company would make an adjustment to the valuation allowance which would reduce the provision for income taxes.

The Company recognizes an income tax benefit from an uncertain tax position only if it is "more likely than not" that the position is sustainable upon examination, including resolutions of any related appeals or litigation processes, based on its technical merits. The income tax benefit of a qualifying position is the largest amount of income tax benefit that is greater than 50% likely of being realized upon settlement with a tax authority having full knowledge of all relevant information. The liability for unrecognized income tax benefits is classified as noncurrent unless the liability is expected to be settled in cash within 12 months of the reporting date. The Company records any estimated interest or penalties from the uncertain tax position as income tax expense. As of December 31, 2024, the Company had no uncertain tax positions that qualify for either recognition or disclosure in the consolidated financial statements. The Company has no federal or state income tax return examinations in progress.

## Leases

Leases with a lease term of more than 12 months are classified as either finance or operating leases. Leases are classified as finance leases when the Company expects to consume a major part of the economic benefits of the leased assets over the remaining lease term. Conversely, the Company is not expected to consume a major part of the economic benefits of assets classified as operating leases. The lease classification affects both the pattern and presentation of expense recognized in the income statement, the categorization of assets and liabilities in the balance sheet, and classification of cash flows in the statement of cash flows.

The Company made an accounting policy election not to recognize right-of-use (ROU) assets and lease liabilities for leases with a term of 12 months or less. Lease payments for these leases are recognized as lease costs on a straight-line basis over the lease term.

Lease obligations are measured and recorded at the present value of future lease payments using a discount rate. For operating leases, the Company elected to apply the practical expedient for nonpublic business entities, which allows the use of a risk-free rate for a period comparable to the lease term when

the incremental borrowing rate is not readily determinable. For finance leases, the Company uses the incremental borrowing rate implicit in the respective lease agreement as the discount rate.

Certain agreements of the Company's real estate leases contain options to renew or extend the terms of the lease, as well as termination options that could shorten the original lease term, which are included in the determination of the ROU assets and lease liabilities when it is reasonably certain that the Company will exercise the option.

ROU assets are generally measured and recorded at the sum of the lease obligation, any initial direct costs to consummate the lease, and any lease payments made on or before the commencement date. Lease agreements do not contain any material residual value guarantees, restrictions, or covenants.

## Reclassifications

Certain amounts in the January 31, 2024 financial statements have been reclassified to conform with the December 31, 2024 financial statement presentation.

## Subsequent Events

Management has evaluated events and transactions for potential recognition or disclosure through May 23, 2025, which is the day the consolidated financial statements were available to be issued.

## 2. Goodwill

Goodwill consisted of the following as of December 31, 2024 and January 31, 2024:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
Goodwill	22,765,818	22,765,818
Less accumulated amortization	(14,748,368)	(12,661,501)
Total	8,017,450	10,104,317

Amortization related to goodwill was \$2,086,867 and \$2,276,582 for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024, respectively.

## 3. Property and Equipment

Property and equipment and accumulated depreciation and amortization were as follows as of December 31, 2024 and January 31, 2024:

(In US\$)			
Particulars	Estimated Useful Lives	December 31, 2024	January 31, 2024
Furniture and fixtures	5 years	610,553	598,056
Equipment	3 - 5 years	582,338	463,107
Other	5 years	1,441	7,650
Total property and equipment		1,194,332	1,068,813
Accumulated depreciation and amortization		(735,109)	(837,041)
Total property and equipment, net		459,223	231,772

Depreciation and amortization associated with property and equipment was \$295,873 and \$503,412 for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024, respectively.

#### 4. Accrued Expenses

Accrued expenses consisted of the following as of December 31, 2024 and January 31, 2024:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
Accrued compensation	2,627,993	7,641,935
Accrued expenses payable to Infosys	1,049,809	670,100
AU other accrued expenses	708,171	953,119
Other accrued expenses	511,543	460,053
Reimbursable expenses	90,484	121,425
	4,988,000	9,846,632

#### 5. Debt

Debt consisted of the following as of December 31, 2024 and January 31, 2024:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
Unsecured loan payable to Wongdoody (an Infosys affiliate), bears interest at an interest rate equal to SOFR plus 1.10% interest (5.59% as of December 31, 2024). The principal amount of the loan is payable on demand.	3,500,000	8,000,000

The loan payable to Wongdoody was eliminated January 1, 2025 as part of the merger with Infosys Nova Holdings LLC (see Note 11).

#### 6. Equity

In March 2020, all the Company's common stock and preferred stock was acquired by Infosys and consolidated into 10 shares of common stock.

#### 7. Commitments and Contingencies

##### Litigation

The Company is involved in legal proceedings from time to time arising in the normal course of business. Management, after consultation with legal counsel, believes that the outcome of these proceedings will not have a material impact on the Company's financial position, results of operations, or liquidity.

##### Leases

During April 2024, the Company entered into a lease agreement for office space. The right-of-use asset obtained in exchange for an operating lease liability totaled \$1,040,317, with an interest rate of 5.09% and remaining life of 10.38 years as of December

31, 2024. The components of lease expense, included in general and administrative operating expenses in the accompany consolidated statements of income, consisted of amortization of the right-of-use asset of \$70,366 and \$178,720 and accretion of the lease liability of \$52,467 and \$3,645 for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2023, respectively.

Maturities of the operating lease liability, including principal and interest, as of December 31, 2024, was as follows:

(In US\$)	
Years Ending December 31,	
2025	122,318
2026	125,999
2027	129,786
2028	133,665
2029	137,673
Thereafter	645,601
Total lease payments	1,295,042
Less: imputed interest	(274,895)
Present value of lease liabilities	1,020,147

#### 8. Income Taxes

The domestic and foreign components of income before provision for income taxes consisted of the following for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
Domestic	3,838,099	345,655
Foreign	2,900,618	2,291,299
	6,738,717	2,636,954

The federal income tax provision differed from the federal income tax provision computed at the statutory rate for the following reasons for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024:

(In US\$)		
Particulars	December 31, 2024	January 31, 2024
Federal income tax benefit at statutory rate	1,422,964	553,759
State income tax benefit, net of federal tax benefit	147,734	101,500
Permanent difference related to stock compensation expense and goodwill amortization	269,175	534,340
Prior period tax expense	(22,643)	–
Change in tax rate	236,624	84,724
Change in valuation allowance	(1,337,874)	(575,158)

Particulars	December 31, 2024	January 31, 2024
Deferred tax accounting during the year	(89,084)	(574,631)
Other	198,760	144,695
	<b>825,656</b>	<b>269,229</b>

Deferred income tax assets (liabilities) consisted of the following as of December 31, 2024 and January 31, 2024:

	(In US\$)	
Particulars	December 31, 2024	January 31, 2024
Net operating loss carryforwards	<b>6,844,882</b>	7,927,109
Accrued expenses and allowances	<b>749,234</b>	1,048,703
Lease	<b>8,707</b>	4,260
Depreciation	<b>(153,091)</b>	13,996
Prepaid expenses	<b>(4,111)</b>	(209,903)
Intangibles	<b>668,904</b>	586,245
Valuation allowance	<b>(7,745,354)</b>	(9,083,228)
	<b>369,171</b>	<b>287,182</b>

Deferred income taxes reflect the tax effect of temporary differences between the bases of assets and liabilities for financial reporting and tax reporting purposes. The Company establishes a valuation allowance if it is more likely than not these assets will not be realized. Annually, the valuation allowance is reviewed and adjusted based on management's assessments of realizability. Management has evaluated the available evidence about future taxable income and other possible sources of realization of deferred income tax assets. The Company has decided to account deferred tax assets on carry forward and temporary differences based on the future projection available which shows that sufficient profit will be available to offset deferred tax assets accounted.

As of December 31, 2024, the Company has net operating loss (NOL) carryforwards available to offset future taxable income of approximately \$27 million. The utilization of the NOL carryforwards is subject to annual limitations under Section 382 of the Internal Revenue Code. Section 382 imposes limitations on a corporation's ability to utilize its NOL carryforwards if it experiences an "ownership change." In general terms, an ownership change results from transactions increasing the ownership of certain stockholders in the stock of a corporation by more than 50% over a three-year period.

The carryforward NOL are available to offset future taxable income to Infosys Nova Holding LLC, subject to Section 382 limitation even post merger with effect from January 1, 2025.

## 9. Employee Benefit Plan

The Company has a defined contribution plan eligible to employees that meet certain requirements. The Company makes matching contributions to the plan. Matching contributions made to the plan by the Company for the for the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024 totaled \$165,053 and \$918,102, respectively.

## 10. Related-Party Transactions

During the 11-months ended December 31, 2024 and the fiscal year ended January 31, 2024, the Company performed certain services for Infosys, the Company's parent. The related-party receivable balance as of December 31, 2024 and January 31, 2024 was \$3,411,387 and \$4,617,615, respectively, included in accounts receivable on the accompanying consolidated balance sheets. Revenues from Infosys during the 11-months ended December 31, 2024 and year ended January 31, 2024 totaled \$40,371,176 and \$70,240,482, respectively. The professional services performed by Infosys for the Company totaled \$768,208 and \$1,380,349, respectively.

## 11. Subsequent Events

Management has evaluated subsequent events through May 23, 2025, which is the date the accompanying financial statements were available to be issued.

### Merger with Infosys Nova Holdings LLC

The Company merged with Infosys Nova Holdings LLC, a Delaware limited liability Company, effective as of January 1, 2025. The name of the surviving limited liability company will be Infosys Nova Holdings LLC. All shares of capital stock will be cancelled in exchange for no consideration and each holder of capital stock of the Company shall cease to have any rights with respect thereto.

## Infosys Technologies, S. de R. L. de C. V.

# Independent Auditors' Report

To the Board of Managers and Partners of Infosys Technologies, S. de R. L. de C. V. (Subsidiary of Infosys Limited)

## Opinion

We have audited the financial statements of Infosys Technologies, S. de R. L. de C. V. (the "Entity"), which comprise the statements of financial position as of December 31, 2024 and 2023, and the statement of income, the statement changes in partner's interest and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Entity as of December 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with Mexican Financial Reporting Standards (MFRS's) issued by the Mexican Board for Research and Development of Financial Reporting Standards (CINIF).

## Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA's). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of Financial Statements section of our report. We are independent of the Entity in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for professional Accountants (IESBA Code) together with the Code of Ethics issued by the Mexican Institute of Public Accountants (IMCP Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and with the IMCP Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Other issues

These financial statements have been translated into English solely for the convenience of readers of this language. In all cases, where there are any disagreements between the English and Spanish versions, the Spanish version shall be considered authoritative and controlling.

## Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with NIF (Financial Reporting Standards by their acronym in Spanish) and for the internal control that management specified necessary to enable the preparation of financial statements free of material misstatement due to fraud or error.

In preparing the financial statements, management is responsible for evaluating the Company's ability to continue as a going concern, disclosing, where appropriate, matters relating to the going concern and making the basic going concern assumption, unless the Administration intends to liquidate the Company or cease operations, or there is no other more realistic alternative.

Those charged with governance of the Company are responsible for overseeing the Company's financial reporting process.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the Financial Statements

## 1. Activities

Infosys Technologies, S. de R. L. de C. V. (the Entity), is an incorporated entity under the laws of Mexico. The address of the Entity is Boulevard Gustavo Díaz Ordaz 130 west, 18<sup>th</sup> floor, Santa María, Monterrey, Nuevo León. The Entity is a subsidiary of Infosys Limited, and its main activity is to provide services of advice, operational support personnel trained in the area of design, development, implementation and adaptation of business solutions related to information technology.

## 2. Framework for the preparation of financial statements

### a. Explanation for preparation into English

The accompanying financial statements have been prepared in English for convenience of readers. These financial statements are presented based on Mexican Financial Reporting Standards ("MFRS"), which are comprised of accounting standards that are individually referred to as, Normas de Información Financiera or "NIFs". Certain accounting practices applied by the Entity that conform with MFRS may not conform with accounting principles generally accepted in the country of use.

### b. Use of estimates

Preparation of financial statements in compliance with NIF requires certain estimations and assumptions to be made to value certain financial statement items and to make the required disclosures. However, real results may differ from said estimations, reason for which it is considered that the estimations and assumptions made are correct under the current circumstances.

The key relevant assumptions used in the determination of accounting estimates are periodically reviewed, and the relative effects, if any, are recognized in the same affected period and future periods. The main estimations are described in the following notes:

Note 3-e Leases. Determination of the lease term, reasonable certainty of exercising the purchase options established in the contracts, determination of the incremental financing rate.

Note 3-f Provisions. Identification and quantification of present obligations, and determination of the present value of the obligation.

Note 3-g Employee benefits. Key Actuarial Assumptions.

Note 3-k Contingencies. Evaluation of the probability and amount of outflow of resources.

### c. Functional and informative currency

The Company's functional currency is the Mexican Peso, since it's the currency used in the economic environment under which the subsidiary operates, due to its sales and purchasing transactions, as well as major assets and liabilities are in the above mentioned currency.

The Company does not convert its financial statements from the functional currency to the informative currency, due to the

currency used for reporting being the same as the one used for record entries, and to the financial statements presented only being utilized for legal and tax purposes, is the Mexican peso.

### d. Effects of Inflation

The accompanying financial statements have been prepared on a historical basis, without including the effects of inflation on financial information until December 31, 2007, as required by the NIF. According to our evaluation of the effects of said recognition, there is no potential effect for the fixed assets item as of December 31, 2024, since the balances of the fixed assets acquired until 2007 are fully depreciated.

As of December 31, 2024 and 2023, the inflation percentage during the two previous periods is 16.27% and 21.14%, respectively.

### e. Going concern

The financial statements have been prepared by the Management under the assumption that the Entity will continue as a going concern.

### f. Comprehensive income

The Entity presents comprehensive income in a single statement of income or loss titled, 'Statement of Income', given that the Entity did not generate other Comprehensive Income (OCI) during the current year or the preceding year, which is presented for comparative purposes.

### g. Classification of costs and expenses

Given that the Entity is a service entity, ordinary costs and expenses are presented based on their nature to present the information clearer.

### h. Operating income

Additionally, the 'Operating income' line item is included, which results from subtracting the expenses from service income as this line item is considered to provide a better understanding of the Entity's economic and financial performance.

## 3. Summary of significant accounting policies

The accompanying financial statements have been prepared in conformity with MFRS, which require that the Management make certain estimates and use certain assumptions that affect the amounts reported in the financial statements and their related disclosures. However, actual results may differ from such estimates. The Entity's Management, upon applying professional judgment, considers that estimates made and assumptions used were adequate under the circumstances. The significant accounting policies of the Entity are as follows:

### a. Accounting changes

As of January 1, 2024, CINIF issued several NIFs, improvements and guidance to the NIFs that came into force as of that date but are not relevant to the Company's activities.

Likewise, the conceptual framework was updated through the issuance of NIF A-1 'Conceptual Framework of Financial

Reporting Standards', going from eight individual standards to a single standard with ten chapters and updating several concepts to be consistent with the NIFs.

## **b. Cash and equivalents**

Cash consists of checking accounts, and foreign currency. Cash is stated at nominal value; any fluctuations in value are recognized in comprehensive financing (cost)/ income of the period.

## **c. Accounts receivable**

Accounts receivable are recognized according to the percentage of completion of service to the date of the statement of financial position and include amounts billed and unbilled net of provisions for returns and discounts and the allowance for doubtful accounts.

## **d. Offsetting of financial assets and financial liabilities**

The Entity offsets a recognized financial asset and a financial liability and presents the net amount on the statement of financial position only when it fulfills the following two conditions: a) Currently, it has a legally enforceable right to offset the financial asset and the financial liability under any circumstance and b) It has the intention of settling the financial asset and the financial liability on a net basis, or to realize the financial asset and settle the financial liability simultaneously. In all other cases, the Entity presents the financial assets and the financial liabilities separately on the statement of financial position as its rights and obligations in accordance with their characteristics

## **e. Computer equipment and furniture and equipment, net**

Furniture and equipment are recorded at acquisition cost. Depreciation on furniture and equipment is calculated on the straight-line basis over the estimated useful lives of the assets as determined by the Entity's Management. The total useful lives annual depreciation rates of the principal asset classes are as follows:

Particulars	Years	Rates
Furniture and equipment	5	20%
Computer equipment	2-5	50 – 20%

Minor repairs and maintenance costs are expensed as incurred.

## **f. Lease right-of-use assets**

Lease contracts that transfer the right to the Entity to utilize an asset for a specified period in exchange for a payment are evaluated at the start of the contract to determine whether the Entity obtains the right to control the use of an identified asset for a given period of time. If it substantially obtains all the economic benefits derived from the use of the asset, the Entity records these rights-of-use, which are recorded at cost at the contract starting date, while also considering: i) The initial valuation of the lease liability; ii) The payments made before or at the lease starting date; iii) The initial direct costs incurred, and iv) The estimated cost to be incurred at the end of the lease to retire the asset and restore the asset or the place where it is located. The Rights-of-use assets are subsequently valued at cost, less accumulated depreciation or amortization and any accrued

impairment losses, and are adjusted for remeasurements of the related lease liability.

The costs incurred in relation to the design, construction or installation of an asset are capitalized in conformity with the NIF applicable to the underlying asset.

The depreciation (amortization) of lease right-of-use asset is calculated as follows: i) For leases that do not transfer asset ownership, during the period of lease contract, while considering the options to extend the contract period that are reasonably certain to be exercised, and ii) For leases that transfer asset ownership, during the useful life of the underlying asset.

## **g. Prepayments**

Mainly include prepayments for the purchase of services that are received after the date of the statement of financial position and in the ordinary course of operations. This includes a prepayment amount with related party Panaya Limited for \$4,584,268.

## **h. Impairment of long-lived assets in use**

The Entity reviews the carrying amounts of long-lived assets in use when an impairment indicator suggests that such amounts might not be recoverable, considering the greater of the present value of future net cash flows or the net sales price upon disposal. Impairment is recorded when the carrying amounts exceed the greater of the aforementioned amounts. Impairment indicators considered for these purposes are, among others, operating losses or negative cash flows in the period, if they are combined with a history or projection of losses, depreciation and amortization charged to results, which in percentage terms in relation to revenues are substantially higher than those of previous years, obsolescence, reduction in the demand for the services rendered, competition and other legal and economic factors. The impairment loss on the value of long-lived assets in use, as well as its reversal, are classified in the same cost and expense line items where the related depreciation or amortization associated with those assets are recognized.

## **i. Lease liabilities**

At the commencement date of the lease, these liabilities are recognized by considering the present value of the lease payments to be made. Future payments include: i) fixed payments less any incentives; ii) variable payments that depend on an index or rate; iii) Payments expected to guarantee the residual value; iv) purchase options, when the Entity is reasonably certain to exercise them; v) payments made when exercising an option at the end of the lease period and which are discounted by utilizing the discount rate implicit in the lease or, otherwise, by utilizing the Entity's incremental borrowing rate. These items are subsequently valued by i) adding accrued interest, ii) reducing for lease payments, and iii) remeasuring the effects of revaluations or modifications, together with the effect of changes to substantially fixed lease payments. The variable payments that are not included in the valuation of lease liabilities are recognized in the results of the period as they arise.

## **j. Financial liability under revenue contracts**

The financial liability is created for Sale and Lease back (of old assets purchased from Daimler) to Hewlett-Packard Operations Mexico S. de R. L. de C. V.

## k. Accruals

Based on the Management's estimates, the Entity recognizes accruals for present obligations where the transfer of assets or the rendering of services is virtually inevitable and arises due to past events, principally services and other amounts payable to employee.

## l. Employee benefits

Employee benefits are those granted to personnel and/ or their beneficiaries in exchange for the services rendered by the employee, which include all kinds of remuneration earned, as follows:

**Direct employee benefits** — Are determined based on the services rendered by employees, considering their most recent salaries, and recognizing the liability as it accrues. These benefits include mainly compensated absences, such as vacation and vacation premiums, and incentives.

**Termination benefits** — A liability for termination benefits and a cost or expense is recognized when the Entity has no realistic alternative other than to face the payments or cannot withdraw the offer of those benefits, or when it meets the conditions to recognize the costs of a restructuring, whichever comes first.

**Defined Contribution Plans** — Obligations for contributions to defined contribution plans are recognized in the Income Statement as the related services are provided by employees. Prepaid contributions are recognized as an asset to the extent that down payment results in a reduction in payments to be made in the future or a cash refund.

**Defined Benefit Plans** — The calculation of obligations by defined benefit plans is performed annually by qualified actuaries using the projected unit credit method.

When the calculation results in a possible asset for the Entity, the asset recognized is limited to the present value of the available economic benefits in the form of future refunds of the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, any minimum funding requirement should be considered.

The labor cost of the current service, which represents the cost of the benefit period to the employee for having completed one more year of working life based on the benefit plans, is recognized in the costs and operating expenses. Net interest is recognized under the 'Comprehensive financial result, net'.

Changes to plans that affect the cost of past services are recognized in operating results immediately in the year in which the change occurs, with no possibility of deferral in subsequent years. Likewise, the effects of liquidation events or reduction of obligations in the period that significantly reduce the cost of future services and/ or significantly reduce the population subject to benefits, respectively, are recognized in the results of operations.

Remedies (before actuarial gains and losses) resulting from differences between the projected and actual actuarial assumptions at the end of the period are recognized in the period in which the results of the period are incurred.

**Statutory employee profit sharing (PTU, for its acronym in Spanish)** — Is determined by applying the 10% rate to taxable income as defined in article 9 of the Income Tax Law, The resulting PTU expense is then compared to the greater of the

maximum limit of three months of the employee's salary or the average amount of profit-sharing received during the three preceding years. If the 10% rate exceeds either of these two amounts, the employee's PTU will either be equal to the greater of three months' salary or the average PTU of the three preceding years, as the case may be.

Deferred PTU derived from temporary differences between the accounting and tax bases of assets and liabilities, including projected PTU in accordance to the preceding paragraph, is recognized only when it can be reasonably assumed that a liability may be settled or a benefit is generated, and there is no indication that circumstances will change in such a way that the liabilities will not be paid or benefits will not be realized.

## m. Income Tax

Income tax ('ISR', its acronym in Spanish) are recorded in results of the year in which they are incurred. Deferred taxes are calculated by applying the corresponding tax rate to temporary differences resulting from comparing the accounting and tax bases of assets and liabilities and including, if any, future benefits from tax loss carryforwards and certain tax credits. Deferred tax assets are recorded only when there is a high probability of recovery.

## n. Revenue recognition

Revenues from services are recognized as services are provided.

The revenue from contracts for hours dedicated to management services and/ or technical support application in the information centers or at the customer's place of business are recognized in the period in which they are performed, based on the hours dedicated to the projects and the fixed fees negotiated for the respective project.

Revenues from fixed-price contracts are recognized using the percentage-of-completion method. Based on the percentage-of-completion method, income is recognized based on the costs incurred to date, obtaining a percentage of the total estimated costs to complete the contract. No revenue is recognized when there is significant doubt about their recoverability.

If there are projections that change the estimated income, or costs, or if the process to conclude the contract is extended, checks are performed to determine the new estimates.

These revisions may result in increases or decreases in estimated revenues and costs, which are recognized in income for the corresponding period.

If during the life of the projects, the Entity estimates that the costs incurred plus costs to be incurred exceed the total revenues, the estimated loss is recognized in operating income immediately.

Unbilled costs and profits are recognized under unbilled receivables, while revenues in excess of costs and profits are recognized as deferred revenues and are presented under current liabilities until all the conditions required for revenue recognition are met.

Maintenance revenues are recognized proportionally according to the contractual terms.

The Entity estimates after-sales services for certain customers to provide support in case of error corrections, volume discounts, among other reserve times.

#### **o. Business and credit concentration**

Expenses for administrative services with related parties as of December 31, 2024, and 2023 amount to 5% of total operating expenses. In addition, balances receivable from related parties as of December 31, 2024, and 2023 represent to 32% and 20%, respectively, of total assets and balances payable to related parties as December 31, 2024, and 2023 represent 12% and 6% of total liabilities.

#### **p. Comprehensive financial results (CFR)**

The CFR includes foreign exchange loss/gain and interest income. Transactions in foreign currency are recorded at the exchange rate prevailing on the date of execution or settlement. Foreign

currency assets and liabilities are translated at the exchange rate in force at the statement of financial position date. Exchange differences arising from assets and liabilities denominated in foreign currencies are reported on the income statement.

#### **q. Contingencies**

Liabilities for loss contingencies are recorded when it is probable that a liability has been incurred and the amount thereof can be reasonably estimated. When a reasonable estimation cannot be made, disclosure is provided in the notes to the financial statements. Contingent revenues, earnings or assets are not recognized until realization is assured.

### **4. Foreign currency exposure and translation**

Monetary assets and liabilities denominated in dollars, euros and pound sterling translated into the reporting currency, as of December 31, 2024 and 2023, are as follows:

2024	Pound sterling	Dollars	Euros
Assets:			
Assets	(27,270)	493,233,465	689,820,138
Liabilities	–	39,982,156	80,448,610
Net (liability)/assets	(27,270)	453,251,309	609,371,527

2023	Pound sterling	Dollars	Euros
Assets:			
Assets	(19,087)	385,931,705	498,056,771
Liabilities	–	4,352,101	44,285,553
Net (liability)/assets	(19,087)	381,579,604	453,771,218

At December 31, 2024 and 2023, amounts recorded \$77,679,755 and \$(83,609,228), respectively, for the foreign exchange gain and (loss).

The exchange rates used in the various translation processes for the reporting currency are as follows:

Country	Currency	Exchange Rate	
		2024	2023
United States of America	Dollars	20.6812	17.3417
European Union	Euros	21.5459	21.5755
England	Pound Sterling	25.9614	18.9771

At December 31, 2024, the Entity did not have foreign exchange hedging instruments.

### **5. Accounts receivable**

Accounts receivable at December 31, 2024 and 2023, are as follows:

Particulars	(In MXN)	
	As at December 31,	
	2024	2023
Billed accounts receivable	473,856,070	266,567,033
Less:		
Provision for discount to customers	(48,473,320)	(38,163,204)
Allowance for expected credit loss	(4,873,044)	(3,514,028)
	(53,346,364)	(41,677,232)
Related Parties (Refer to Note 6)	69,895,251	60,521,230
	490,404,957	285,411,031

## 6. Related parties

Transactions carried out with related parties, during the years ended December 31, 2024 and 2023, are as follows:

(In MXN)

Particulars	Years ended December 31,	
	2024	2023
Revenues for consulting and implementation provided to customers on behalf of its related party. <sup>(1)</sup>	686,337,315	630,765,667
Interest Income on loan to subsidiary. <sup>(2)</sup>	28,946,239	29,653,823
Expenses for specialized personnel services in project implementation. <sup>(3)</sup>	82,481,773	94,682,341
Licence <sup>(4)</sup>	8,033,228	9,595,908

<sup>(1)</sup> Infosys Limited in 2024 and 2023, Infosys BPM Limited in 2024 and 2023, Infosys Chile SPA in 2024 and 2023, McCamish Systems LLC in 2024.

<sup>(2)</sup> Infosys Automotive and Mobility GmbH & Co. KG.

<sup>(3)</sup> EdgeVerve Systems Limited, Infosys (Czech Republic) Ltd, Infosys Technologies (China) Company Limited, Infosys Limited and Infosys BPM Limited in 2024 and 2023, Infosys Chile SPA and Infosys Tech (Shanghai) Co. LTD in 2023.

<sup>(4)</sup> Panaya Limited in 2024 and 2023.

Balance receivables from related parties are as follows:

(In MXN)

Particulars	As at December 31,	
	2024	2023
Infosys Limited	56,568,554	56,455,304
Infosys Consulting S.R.L.	1,876,292	1,876,292

Lease current liabilities	17,307,813	15,316,540
Liabilities for long-term leases	117,508,549	86,700,804

## 13. Direct employee benefits

Accruals as at December 31, 2024 and 2023, are as follows:

	(In MXN)		
2024	Subcontracting and others	Other personnel benefits	Total
Balances at December 31, 2023	(106,158,429)	75,145,005	(31,013,424)
Increases recorded in earnings	408,202,771	2,038,238,611	2,446,441,382
Payments	(318,350,572)	(2,141,993,905)	(2,460,344,477)
Balances at December 31, 2024	(16,306,230)	(28,610,289)	(44,916,519)

2023	Subcontracting and others	Other personnel benefits	Total
Balances at December 31, 2022	(2,157,342)	19,129,814	16,972,472
Increases recorded in earnings	276,644,856	2,140,650,750	2,417,295,606
Payments	(380,645,943)	(2,084,635,559)	(2,465,281,502)
Balances at December 31, 2023	(106,158,429)	75,145,005	(31,013,424)

## 14. Deferred PTU

The deferred PTU expense (benefit) is as follows:

	(In MXN)	
	As at December 31,	
Particulars	2024	2023
Deferred PTU	(7,750,576)	(2,957,755)

Maturity value of the liabilities for long-term leased assets as of December 31, 2024 and 2023, as as follows:

	(In MXN)
Year	Amount
2025	21,803,869
2026	23,860,220
2027	25,692,723
2028 onwards	46,151,737
Total	117,508,549

## 12. Taxes payable

Taxes payable as of December 31, 2024 and 2023, are as follows:

	(In MXN)	
	As at December 31,	
Particulars	2024	2023
Income tax withheld to third parties	30,582,233	8,148,103
Value-added tax	76,528,524	41,400,390
Other tax payments social security contributions	24,603,852	21,030,350
Provision for income tax	150,277,921	46,998,403
	281,992,530	117,577,246

The effects of PTU on temporary differences that give rise to significant portions of deferred PTU assets and liabilities as of December 31, are detailed as follows:

(In MXN)

Particulars	As at December 31,	
	2024	2023
Deferred tax assets:		
Allowance for doubtful receivables	771,789	675,382

Deferred revenues	10,120,477	1,845,081
Lease right of use asset	3,119,939	3,723,117
Provisions for vacations	3,761,514	4,590,802
Total gross deferred tax assets	28,637,399	21,449,501
Deferred tax liabilities:		
Furniture and equipment	(337,794)	56,926
Prepayments	2,365,370	2,533,328
Total gross deferred tax liabilities	2,027,576	2,590,254
Net deferred tax asset	26,609,823	18,859,247

## 15. Partner's interest

The principal characteristics of partner's interest are described as follows:

### a) Structure of contributed capital

The Entity's contributed capital at December 31, 2024 and 2023, comprises two social parties, fixed and variable. Social fixed portion has a value of 10,000,000 and variable portion of 165,000,000.

### b) Comprehensive income

For the years ended at December 31, 2024 and 2023, there were no items that, in accordance with MFRS applicable, have to be taken directly to equity, so the comprehensive income equals net income for the year, as presented in income statements.

### c) Restrictions on partner's interest

In accordance with the General Law of Commercial Companies, the net income for the year is subject to the legal provision that requires that 5% thereof be transferred to the legal reserve, until this reaches 20% of the common stock. The balance of the legal reserve is not susceptible of being distributed to the shareholders during the existence of the Company, except as share dividends.

Partner's contributions restated as provided for by with the tax law, may be refunded to partner's tax-free, to the extent that such contributions equal or exceed their equity interest.

Retained earnings on which no IT have been paid, are subject to income taxes in the events of distribution, at the rate of 30% payable by the Entity, consequently, the partner's may only receive 70% of such amounts.

## 16. Income taxes

### a. The Entity is subject to ISR. According with the ISR law, the rate is 30%.

The income tax expense is as follows:

(In MXN)

Particulars	As at December 31,	
	2024	2023
Income tax:		
Current	103,547,237	46,998,403
Prior		(13,269,909)
Deferred	(22,183,003)	(2,360,584)
	81,364,234	31,367,910

### b. The reconciliation of the statutory and effective ISR rates, expressed in amounts and as a percentage of income before income taxes are as follows:

(In MXN)

Particulars	As at December 31,	
	2024	2023
Profit before income tax	264,566,753	136,409,632
Enacted tax rate	30%	30%
Computed "expected" tax expense	79,370,026	40,922,890
Increase/ (reduction) resulting from		
Effects of inflation, net	(35,101,667)	(8,068,610)
Non-deductible expenses	51,808,201	13,811,116
Other, net	(14,712,326)	(15,297,485)
	81,364,234	31,367,910

### c. The main items that give rise to a deferred ISR asset (liability) are as follows:

(In MXN)

Particulars	As at December 31,	
	2024	2023
Deferred tax assets:		
Allowance for doubtful receivables	2,315,366	2,026,145
Provisions for accounts receivable	13,606,446	11,136,424
Accruals	18,984,595	20,708,930
Deferred revenues	30,361,430	5,535,244
Lease right of use asset	9,359,817	11,169,352
Profit sharing payable	153,562	(1,102,886)
Provisions for vacations	11,284,542	13,772,407
Total gross deferred tax assets	86,065,758	63,245,616
Deferred tax liabilities		
Prepayments	7,096,111	7,599,983
Furniture and equipment	(1,013,384)	170,178
Deferred PTU	7,982,947	5,657,774
Total gross deferred tax liabilities	14,065,674	13,428,535
Net deferred tax asset	72,000,084	49,817,081

## 17. Commitments and contingent liabilities

**a)** According to the Mexican income tax law, the tax authorities are empowered to examine transactions carried out during the five years prior to the most recent income tax return filed.

**b)** In accordance with the income tax law, companies carrying out transactions with related parties are subject to certain requirements as to the determination of prices, which should be similar to those that would be used in arm's-length transactions.

Should the tax authorities examine the transactions and reject the related-party prices, they could assess additional taxes plus the related inflation adjustment and interest, in addition to penalties of up to 100% of the omitted taxes.

## 18. New accounting principles

During 2023, CINIF issued several NIFs, Improvements and Guidance to the NIF that come into force as of January 1, 2024 and 2025, but are not relevant to the Company's activities or establish accounting requirements consistent with current policies.

## 19. Subsequent Events

In preparing the financial statements, the Entity has evaluated the events and transactions for their subsequent recognition or disclosure as of December 31, 2024, and until May 31, 2025 (the date on which the financial statements were authorized for issuance), and has concluded that there are no subsequent events.

## 20. Authorization to issue financial statements

On May 20, 2025, Muthuvel Gajapathi, Expedition and Operations Leader, authorized the issuance of the accompanying financial statements and related notes thereto.

In accordance with the General Corporations Law and the Bylaws of the Entity, the partners' are empowered to modify the financial statements after issuance. The accompanying financial statements will be submitted to the next Partner's Meeting for approval.

## Infosys Consulting GmbH

# Independent Auditor's Report

To the Members of Infosys Consulting GmbH

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Consulting GmbH ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Consulting GmbH is a wholly-owned subsidiary of Infosys Consulting Holding AG (Infosys Lodestone) (formerly Lodestone Holding AG). The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operate (i.e. the “functional currency”). The functional currency of the Company is Euro and the financial statements are also presented (in EUR). All amounts included in the financial statements are reported (in EUR), unless otherwise stated. Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Euro.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the application of accounting policies and the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 Time & Material

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Fixed Price

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

#### 1.5.3 Unbilled/ Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

#### 1.5.4 Volume Discounts

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

#### 1.5.5 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

### 1.5.6 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

### 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.7 Post-sales client support

The Company provides its clients with a fixed-period post-sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

### 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

### 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows :

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

<sup>(1)</sup> For these class of assets, based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under

‘Capital work-in-progress’. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

### 1.10 Financial instruments

#### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.10.2 Subsequent measurement

##### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 1.10.3 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include

discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.11 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets, which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.12 Employee Benefits

### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using the projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.13 Foreign currency

### Functional currency

The functional currency of the company is the EUR. These financial statements are presented (in EUR)

#### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.14 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability, simultaneously.

## 1.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions

of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.16 Other income

Other income is comprised primarily of interest income and exchange gain on translation of other assets and liabilities.

### 1.17 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.18 Borrowing Cost

Borrowing costs are charged to the Statement of Profit and Loss in the period in which they occurred.

### 1.19 Leases:

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses

whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors, such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Infosys's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024, are as follows:

(In €)					
Particulars	Plant and machinery	Computer equipment	Furniture and fixtures	Office Equipment	Total
Gross carrying value as of January 1, 2024	–	610,178	177,531	2,360	790,069
Additions	–	46,440	–	–	46,440
Deletions	(1)	(78,843)	–	(620)	(79,464)

## 2.7 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories as of December 31, 2024, and December 31, 2023, were as follows:

(In €)

Particulars	As at December 31,	
	2024	2023
<b>Assets</b>		
Cash and cash equivalents (Refer to Note No. 2.5)	8,091,732	7,717,346
Trade receivables (Refer to Note 2.4)	16,404,948	8,656,129
Loans (Refer to Note 2.2)	1,318	20,285
Other financial assets (Refer to Note 2.3)	2,734,970	5,261,738
Total	27,232,968	21,655,498
<b>Liabilities</b>		
Trade payables (Refer to Note 2.9)	2,632,314	3,454,312
Lease Liability (Refer to Note 2.18)	2,858,642	1,409,108
Other financial liabilities (Refer to Note 2.10)	4,214,177	3,846,164
Total	9,705,133	8,709,584

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximates their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments, such as foreign exchange forward and option(s) contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Euro and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the Euro appreciates / depreciates against these currencies.

The foreign currency risk from financial instruments as of December 31, 2024 is as follows:

(In €)						
Particulars	USD	CHF	GBP	INR	Other currencies	Total
Net financial assets	809,009	–	2,017,878	–	13,217	2,840,104
Net financial liabilities	(781,713)	(154,981)	(116,333)	(362,267)	(1,452)	(1,416,746)
Net assets / (liabilities)	27,296	(154,981)	1,901,545	(362,267)	11,765	1,423,358

The foreign currency risk from financial instruments as of December 31, 2023, is as follows:

(In €)						
Particulars	USD	CHF	GBP	INR	Other currencies	Total
Net financial assets	784,813	–	1,957,528	–	11,414	2,753,755
Net financial liabilities	(758,334)	(150,346)	(112,854)	(351,433)	–	(1,372,967)
Net assets / (liabilities)	26,479	(150,346)	1,844,674	(351,433)	11,414	1,380,788

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to EUR 16,291,773 and EUR 8,656,129 as of December 31, 2024 and December 31, 2023, respectively and unbilled revenue amounting to EUR 607,601 and EUR 1,140,101 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company uses ECL model to assess any required allowances and uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The matrix takes into account credit reports and other related credit information to the extent available.

### Credit risk exposure

The recognition / (reversal) for lifetime ECL on customer balances for the year ended December 31, 2024, was EUR 38,023 and allowance for year ended December 31, 2023, was EUR 17,293 respectively.

The movement in credit loss allowance on customer balance is as follows:

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Balance at the beginning	79,293	61,930
Impairment loss recognized / (reversed)	38,023	17,293
Translation differences	819	70
Balance at the end	118,135	79,293

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies.

#### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of December 31, 2024, the Company had a working capital of EUR 15,395,524, including cash and cash equivalents of EUR 8,091,732. As of December 31, 2023, the Company had a working capital of 9,739,611, including cash and cash equivalents of EUR 7,717,346.

As of December 31, 2024, and December 31, 2023, the outstanding compensated absences were EUR 231,522 and EUR 200,465 respectively.

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2023:

Particulars	(In €)				
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade Payables (Refer to Note 2.9)	2,632,314	–	–	–	2,632,314
Accrued expenses (Refer to Note 2.10)	3,100,794	–	–	–	3,100,794
Accrued compensation to employees (Refer to Note 2.10)	901,213	–	–	–	901,213
Other payables (Refer to Note 2.10)	212,170	–	–	–	212,170

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2022:

Particulars	(In €)				
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade Payables (Refer to Note 2.9)	3,454,312	–	–	–	3,454,312
Accrued expenses (Refer to Note 2.10)	2,243,482	–	–	–	2,243,482
Accrued compensation to employees (Refer to Note 2.10)	1,301,406	–	–	–	1,301,406
Other payables (Refer to Note 2.10)	301,276	–	–	–	301,276

## 2.14 Revenue from operations

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Income from consultancy services	56,877,708	64,587,471
Total revenue from operations	56,877,708	64,587,471

#### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in

excess of billings from time and material contracts and fixed price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on the completion of contractual milestones.

Invoicing in excess of earnings are classified as "unearned revenue".

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024, the Company recognized revenue of EUR 25,815 arising from opening unearned revenue as of January 1, 2024.

During the year ended December 31, 2023, the Company recognized revenue of EUR 62,590 arising from opening unearned revenue as of January 1, 2023.

During the year ended December 31, 2024, EUR 155,010 of unbilled revenue pertaining to fixed-price development contracts as of January 1, 2024, has been reclassified to Trade receivables upon billing to customers on completion of milestones.

During the year ended December 31, 2023, there were no unbilled revenue pertaining to other fixed-price and fixed-time frame contracts as of January 1, 2023, which has been reclassified to trade receivables upon billing to customers on completion of milestones.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material including unit of work based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is EUR 16,665,542. Out of this, the Company expects to recognize revenue of around 21.8% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023 was EUR 1,617,475. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

### 2.15 Other income

Particulars	(In €)	
	Year ended December 31,

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Balance at the beginning	36,287	93,558
Provision recognized / (reversed)	42,946	(57,271)
Balance at the end	79,233	36,287

Provision for post-sales client support and other provisions are expected to be utilized over a period of six months to one year.

## 2.13 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	(In €)	
	As at December 31,	
	2024	2023
Current taxes	860,825	1,519,665
Deferred taxes	(63,379)	–
Income tax expense	797,446	1,519,665

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

Particulars	(In €)	
	As at December 31,	
	2024	2023
Profit/(Loss) before income tax	4,160,387	7,337,191
Enacted tax rates in Germany (%)	27.38%	27.38%
Computed expected tax expense	1,138,906	2,008,556
Effect of unrecognized deferred tax assets	(54,877)	(410,197)
Tax provision (reversals)	(347,869)	(143,614)
Others	61,286	64,920
Income tax expense	797,446	1,519,665

The applicable Germany statutory tax rate for year ended December 31, 2024, is 27.38% and tax rate for the year ended December 31, 2023, is 27.38%.

Current tax expense for the years ended December 31, 2024, and December 31, 2023, includes reversal (net of provisions) amounting to EUR 347,869 and reversal (net of provisions) of EUR 143,614 respectively, pertaining to prior periods.

The details of income tax assets and income tax liabilities are as follows :

Particulars	(In €)	
	As at December 31,	
	2024	2023
Income tax assets	–	759,080
Current income tax liabilities	(1,205,334)	(1,710,054)
Net current income tax assets / (liability) at the end	(1,205,334)	(950,974)

The gross movement in the current income tax asset / (liability) is as follows:

(In €)

Particulars	As at December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	(950,974)	277,153
Income tax paid	606,465	291,538
Current income tax expense	(860,825)	(1,519,665)
Net current income tax asset / (liability) at the end	(1,205,334)	(950,974)

## 2.18 Leases

The changes in the carrying value of right of use assets for the year ended December 31, 2024, are as follows:

(In €)

Particulars	Category of ROU asset			Total
	Buildings	Computer Equipment	Vehicles	
Balance as of January 1, 2024	23,605	316,659	15,341	355,605
Additions	1,080,083	1,537,825	–	2,617,908
Sub Lease	–	(459,870)	–	(459,870)
Modification	–	(374,253)	–	(374,253)
Depreciation	(199,975)	(368,134)	–	(568,109)
Balance as of December 31, 2024	903,713	652,227	15,341	1,571,281

The changes in the carrying value of right of use assets for the year ended December 31, 2023, are as follows:

(In €)

Particulars	Category of ROU asset			Total
	Buildings	Computer Equipment	Vehicles	
Balance as of January 1, 2023	246,453	733,813	15,341	995,607
Additions	–	322,337	–	322,337
Sub Lease	–	(409,137)	–	(409,137)
Modification	(37,180)	–	–	(37,180)
Depreciation	(185,668)	(330,354)	–	(516,022)
Balance as of December 31, 2023	23,605	316,659	15,341	355,605

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at:

(In €)

Particulars	As at December 31,	
	2024	2023
Current lease liabilities	1,243,795	1,025,694
Non-current lease liabilities	1,614,847	383,414
Total	2,858,642	1,409,108

The movement in lease liabilities during the year ended is as follows:

(In €)

Particulars	For the year ended December 31,	
	2024	2023
Balance at the beginning	1,409,108	2,654,783
Additions	2,617,908	322,337
Modifications	(374,253)	(37,180)
Finance cost accrued during the period	20,367	2,984
Payment of lease liabilities	(814,488)	(1,533,816)
Balance at the end	2,858,642	1,409,108

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.20 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.21 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	December 31, 2024	December 31, 2023	Variance
Current Ratio	Current assets	Current liabilities	2.3	1.9	23.1%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.2	0.1	62.2%
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	12.3	5.8	112.1% <sup>(4)</sup>
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	22.3%	55.4%	(59.8%) <sup>(5)</sup>
Trade receivables turnover ratio	Revenue	Average Trade Receivable	4.5	6.7	(32.1%) <sup>(6)</sup>
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	9.0	6.5	37.9% <sup>(7)</sup>
Net capital turnover ratio	Revenue	Working Capital	3.7	6.6	(44.3%) <sup>(8)</sup>
Net profit ratio	Net Profit	Revenue	5.9%	9.0%	(34.4%) <sup>(9)</sup>
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed	21.2%	49.5%	(57.2%) <sup>(10)</sup>

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Reduction in both earnings and debt

<sup>(5)</sup> Decrease in Net profit in the current year in comparison to last year while the average equity deployed has increased between the years

<sup>(6)</sup> Reduction in Revenue with an increase in Trade Receivables

<sup>(7)</sup> Decrease in Credit purchase and decrease in Trade Payables

<sup>(8)</sup> Decrease in Revenue and increase in working capital.

<sup>(9)</sup> Decrease in Net Profit due to reduction in Sales revenue

<sup>(10)</sup> Reduction in Net Profit before taxes while the Capital employed increased year on year

## Infosys (Czech Republic) Limited s.r.o.

# Independent Auditor's Report

Infosys (Czech Republic) Limited s.r.o.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys (Czech Republic) Limited s.r.o. ("the Company"), which comprise the Balance Sheet as at March, 31<sup>st</sup> 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the ultimate holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Statement of Cash Flows

## Accounting Policy

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(In CZK thousands)

Particulars	Note No.	Year ended March 31,	
		2025	2024
Cash flow from operating activities:			
Profit for the year		(39,095)	12,911
Adjustments to reconcile net profit to net cash provided by operating activities:			
Income tax expense	2.4	22,233	(832)
Depreciation and amortization		41,884	57,085
Finance cost		5,380	4,619
Interest on bank deposits and others		(8,658)	(768)
Impairment loss recognised/(reversed) under expected credit loss model		499	447
Fair Value loss/(gain) on investments		9	–
Changes in assets and liabilities			
Trade receivables and unbilled revenue		85,106	11,442
Other financial assets and other assets		(2,050)	84,931
Trade payables		(5,936)	11,726
Other financial liabilities, other liabilities and provisions		(87,611)	(142,555)
Cash generated from operations		11,760	39,006
Income taxes paid, net of refunds		(1,549)	(25,577)
Net cash generated by operating activities		10,211	13,428
Cash flow from investing activities:			
Expenditure on property, plant and equipment (net of sale proceeds)		(2,782)	(16,100)
Additions on Right of use assets		86,897	(4,334)
Loans (given)/ repaid by employees		5	(156)
Interest received on bank deposits and others		8,658	1,150
Net cash from investing activities		92,778	(19,439)
Cash flow from financing activities:			
Payment of lease liabilities		(96,699)	(10,500)
Net cash used in financing activities		(96,699)	(10,500)
Net increase in cash and cash equivalents		6,290	(16,511)
Cash and cash equivalents at the beginning	2.6	211,794	228,304
Cash and cash equivalents at the end	2.6	218,085	211,794

# Significant accounting policies

## Company overview

Infosys (Czech Republic) Limited s.r.o. is a wholly-owned subsidiary of Infosys BPM Limited. The company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from April 1 to March 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operate (i.e. the "functional currency"). The functional currency of the Company is CZK and the financial statements are also presented in CZK. All amounts included in the financial statements are reported in CZK, unless otherwise stated. Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is CZK

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the application of accounting policies and the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 Time & Material

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Fixed Price

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

#### 1.5.3 Unbilled/ Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

#### 1.5.4 Volume Discounts

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

#### 1.5.5 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

#### 1.5.6 Tax

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

## 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## 1.7 Post-sales client support

The Company provides its clients with a fixed-period post sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

## 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Company recognizes any impairment loss on the assets associated with that contract.

## 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows :

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment	5 years
Plant and Machinery	5 years
Leasehold improvements	Lower of useful life of the asset or lease term

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

<sup>(1)</sup> For these class of assets, based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating

to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

## 1.10 Financial instruments

### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.10.2 Subsequent measurement

#### Non-derivative financial instruments

##### (i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

##### (v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

### 1.10.3 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.11 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.12 Employee Benefits

### Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.13 Foreign currency

### Functional currency

The functional currency of the company is the CZK. These financial statements are presented in CZK

### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognised using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.14 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability, simultaneously."

## 1.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions

of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.16 Other income

Other income is comprised primarily of interest income and exchange gain on translation of other assets and liabilities.

### 1.17 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.19 Cash and cash equivalents

The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

### 1.18 Borrowing Cost

Borrowing cost are charged to the Statement of Profit and Loss in the period in which they occurred.

### 1.19 Leases:

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Infosys's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 2.1 Property, plant and equipment

Following are the changes in the carrying value of property, plant and equipment for year ended March 31, 2025

(In CZK thousands)

Particulars	Leasehold Improvement	Plant and machinery <sup>(2)</sup>	Office Equipment <sup>(2)</sup>	Computer equipment <sup>(2) (3)</sup>	Furniture and fixtures <sup>(2)</sup>	Total

## 2.12 Leases

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2025:

(In CZK thousands)

Particulars	Category of ROU asset		Total
	Buildings	Computer Equipment	
Balance as of April 1, 2024	212,813	4,310	217,123
Additions	–	12,473	12,473
Deletion	(114,264)	(4,607)	(118,871)
Depreciation	(2,429)	(2,248)	(4,677)
Balance as of March 31, 2025	96,121	9,927	106,048

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2024:

(In CZK thousands)

Particulars	Category of ROU asset		Total
	Buildings	Computer Equipment	
Balance as of April 1, 2023	247,082	1,450	248,531
Additions	–	4,334	4,334
Modification	–	–	–
Depreciation	(34,268)	(1,474)	(35,742)
Balance as of March 31, 2024	212,813	4,310	217,123

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at:

(In CZK thousands)		
Particulars	As at March 31	
	2025	2024
Current lease liabilities	42,484	33,236
Non-current lease liabilities	99,467	200,034
Total	141,951	233,270

The movement in lease liabilities during the year ended is as follows:

(In CZK thousands)		
Particulars	As at March 31	
	2025	2024
Balance at the beginning	233,270	239,150
Additions		
Modifications		
Finance cost accrued during the period	5,380	4,619
Payment of lease liabilities	(96,699)	(10,500)
Translation Difference		
Balance at the end	141,951	233,270

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2025 and March 31, 2024 and on an undiscounted basis:

(In CZK thousands)		
Particulars	As at March 31,	
	2025	2024
More than five years	–	50,360
Between 1 to 5 years	118,069	163,317
Within 1 year	30,565	39,922
Total	148,635	253,599

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.13 Revenue from operations

(In CZK thousands)		
Particulars	Year ended March 31,	
	2025	2024
Income from consultancy services	893,352	1,307,032
Total revenue from operations	893,352	1,307,032

## Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore unbilled revenues for other fixed price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as "unearned revenue".

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended March 31, 2025, the company recognized revenue of CZK 0 arising from opening unearned revenue as of April 1, 2024.

During the year ended March 31, 2024, the company recognized revenue of CZK 299 arising from opening unearned revenue as of April 1, 2023.

During the year ended March 31, 2025, CZK 0 of unbilled revenue pertaining to revenue contracts as of April 1, 2024 has been reclassified to Trade receivables upon billing to customers on completion of milestones.

## Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material including unit of work based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

## 2.14 Other income

Particulars	(In CZK thousands)	
	Year ended March 31,	
	2025	2024
Interest received on financial assets Carried at amortised cost		
Deposits with banks and others	8,658	768

## 2.20 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories as of March 31, 2025 and March 31, 2024 were as follows:

(In CZK thousands)

Particulars	As at March 31,	
	2025	2024
Assets		
Cash and cash equivalents (Refer to Note No. 2.6)	218,085	211,794
Trade receivables (Refer to Note No. 2.5)	105,956	194,684
Other financial assets (Refer to Note No.2.6)	68,016	60,641
Total	392,057	467,119
Liabilities		
Trade payables (Refer to Note No. 2.9)	42,484	33,236
Lease Liability (Refer to Note 2.12)	42,629	33,236
Other financial liabilities (Refer to Note No.2.10)	137,982	226,192
Total	223,095	292,664

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximates their fair value.

### Financial risk management

#### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

#### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option(s) contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the CZK and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the CZK appreciates / depreciates against these currencies.

The foreign currency risk from financial instruments as of March 31, 2025 is as follows:

(In CZK thousands)						
Particulars	USD	EUR	GBP	INR	Other currencies	Total
Net financial assets	293,334	42,120	–	35	264	335,753
Net financial liabilities	(13,388)	(162,687)	(104)	(129)	(240)	(176,548)
Net assets / (liabilities)	279,946	(120,567)	(104)	(94)	24	159,205

The foreign currency risk from financial instruments as of March 31, 2024 is as follows:

(In CZK thousands)						
Particulars	USD	EUR	GBP	INR	Other currencies	Total
Net financial assets	368,303	25,910	–	89	–	394,302
Net financial liabilities	(5,622)	(314,142)	(53)	(1,849)	(15)	(321,681)
Net assets / (liabilities)	362,681	(288,232)	(53)	(1,760)	(15)	72,621

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to CZK 105,956 and CZK 194,984 as of March 31, 2025 and March 31, 2024, respectively and unbilled revenue amounting to CZK 35,668 and CZK 38,066 as of March 31, 2025 and March 31, 2024, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company uses ECL model to assess any required allowances and uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The matrix takes into account credit reports and other related credit information to the extent available.

#### Credit risk exposure

The recognition/ (reversal) for lifetime ECL on customer balances for the year ended March 31, 2025 and March 31, 2024 was Nil.

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies.

#### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of March 31, 2025, the Company had a working capital of CZK 173,543 including cash and cash equivalents of CZK 218,085. As of March 31, 2024, the Company had a working capital of CZK 177,720 including cash and cash equivalents of CZK 211,794.

As of March 31, 2025 and March 31, 2024, the outstanding compensated absences were CZK 10,310 and CZK 14,220 respectively."

## 2.21 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.22 Ratios

The ratios for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	Numerator	Denominator	Years ended March 31,		Variance
			2025	2024	
Current Ratio	Current assets	Current liabilities	1.9	1.6	14.6%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.5	0.8	(30.1%)
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	0.1	7.2	(98.8%) <sup>(4)</sup>
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	(14.9%)	4.3%	(447.9%) <sup>(5)</sup>
Trade receivables turnover ratio	Revenue	Average Trade Receivable	5.9	6.6	(10.6%)
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	5.2	5.7	(9.1%)
Net capital turnover ratio	Revenue	Working Capital	5.1	7.4	(30.7%) <sup>(6)</sup>
Net profit ratio	Net Profit	Revenue	(4.3%)	1.0%	(542.1%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed	(6.4%)	4.0%	(260.4%) <sup>(7)</sup>

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> On account of current period losses

<sup>(5)</sup> ROE reduced due to losses in current year

<sup>(6)</sup> Decrease in Revenue and Increase in Working Capital

<sup>(7)</sup> Change it to Decrease in Net Profit in the current year

## Infosys Technologies (Shanghai) Co. Limited

# Auditor's Report

De Shi Bao (Shen) Zi (25) No. P08787

The Board of Directors of Infosys Technologies (Shanghai) Co. Limited:

## 1. Opinion

We have audited the accompanying financial statements of Infosys Technologies (Shanghai) Co. Limited (the "Company"), which comprise the Balance Sheet as at December 31, 2024, the Statement of Income, the Statement of Cash Flow, and the Statement of Changes in Owners' equity for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements of the Company are prepared and present fairly, in all material respects, the Company's financial position as of December 31, 2024, and the Company's results of operation and cash flow for the year ended in accordance with Accounting Standards for Business Enterprises.

## 2. Basis for Opinion

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the code of ethics for Chinese Certified Public Accountants, and we have fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## 3. Responsibilities of the Management and Those Charged with Governance for the Financial Statements

The management of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with Accounting Standards for Business Enterprises, and designing, implementing and maintaining internal control that is necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## 4. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with China Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- (3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- (4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- (5) Evaluate the overall presentation, structure and content of the financial statements (including the disclosures), and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the financial statements

## I. Basic information

Infosys Technologies (Shanghai) Co. Limited. (the “Company”), is a Limited Liability Company established in Shanghai in the People’s Republic of China (PRC). The Company obtained an approval certificate Shang Wai Zi Hu Ming Du Zi Zi [2011] 0512 from the Shanghai Municipal Government on February 16, 2011, and a business license 310000400643765 (Minhang) on February 21, 2011 issued by Shanghai Administration of Industry and Commerce of the PRC. The parent and ultimate holding Company is Infosys Limited (formerly Infosys Technologies Limited).

In 2012, The Company’s Board of Directors resolved to increase the Company’s registered capital from US \$20,000,000 to US \$150,000,000. The Company obtained a revised approval certificate Shang Wai Zi Hu Du Zi Zi [2011] 0512 from the Shanghai Municipal Government for the change on August 9, 2012 and a revised business license 310000400643765 (Shiju) on October 19, 2012 issued by Shanghai Administration of Industry and Commerce of the PRC.

On October 24, 2016, the Company updated its scope of principal activities and obtained a renewed business license with the unified social credit code of 91310000569580636B.

In 2020, the Company’s Board of Directors resolved to increase the Company’s registered capital from USD 150,000,000 to USD 165,000,000. The Company obtained approval from the China (Shanghai) Free Trade Zone Market Supervision Administration for the change on December 9, 2020. The Company also obtained a renewed business license with the unified social credit code of 91310000569580636B on December 9, 2020. As at December 31, 2024, details of capital contribution by the investing parties are set out in Note VIII, 15.

The Company’s year of operation is 50 years and its principal activities are to carry out research, develop, design, produce software; sale of self-produced products; provide related technology consulting services and after sale services; develop computer and network technology; provide testing and maintenance of software solutions; provide business process management.

## II. Basis for the preparation of financial statements

### Going concern

As of December 31, 2024, the Company’s accumulated losses is RMB 709,553,804.59. Total current liabilities exceed total current assets RMB 219,718,969.54. The parent company of the Company agrees not to collect the amount owed by the Company in the foreseeable future, and to provide all necessary financial assistance for the repayment of the amount owed by the Company in the foreseeable future, so as to maintain the Company’s ability to continue as a going concern. Therefore, the financial statements have been prepared on the going concern basis.

## III. Statements of compliance with the ASBE

The financial statements of the Company have been prepared in accordance with Accounting Standards for Business Enterprises (“ASBE”), and present truly and completely, the Company’s financial position as of December 31, 2024, and the Company’s results of operations and cash flows for the year ended.

## IV. Significant accounting policies and accounting estimates

The following significant accounting policies and accounting estimates are determined in accordance with ASBE.

### 1. Accounting year

The Company has adopted the calendar year as its accounting year, i.e. from January 1 to December 31.

### 2. Functional currency

Renminbi (‘RMB’) is the currency of the primary economic environment in which the Company operates. Therefore, the Company chooses RMB as its functional currency and adopts RMB to prepare its financial statements.

### 3. Basis of accounting and principle of measurement

The Company has adopted the accrual basis of accounting. Except for certain financial instruments which are measured at fair value, the Company has adopted the historical cost as the principle of measurement of the financial statements. Where assets are impaired, provisions for asset impairment are made in accordance with relevant requirements.

Where the historical cost is adopted as the measurement basis, assets are recorded at the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds or assets received or the contractual amounts for assuming the present obligation, or, at the amounts of cash or cash equivalents expected to be paid to settle the liabilities in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using valuation technique. Fair value measurement and/or disclosure in the financial statements are determined according to the above basis.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly;
- Level 3 inputs are unobservable inputs for the asset or liability.

#### 4. Cash and cash equivalents

Cash comprises cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are the Company's short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### 5. Financial instruments

When the Company becomes a party to a financial instrument contract, it recognizes a financial asset or financial liability.

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. For financial assets purchased or sold in a regular way, the Company recognizes assets acquired and liabilities assumed on a trade date basis, or derecognizes the assets sold on a trade date basis.

Financial assets and financial liabilities are initially measured at fair value. For financial assets and financial liabilities at fair value through profit or loss, transaction costs are immediately recognized in profit or loss. For other financial assets and financial liabilities, transaction costs are included in their initial recognized amounts. Upon initial recognition of accounts receivable that does not contain significant financing component or without considering the financing component included in the contract with a term not exceeding one year under the Accounting Standards for Business Enterprises No. 14 - Revenue ("Revenue Standards"), the Company adopts the transaction price as defined in the Revenue Standards for initial measurement.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant accounting periods. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or financial liability to the carrying amount of the financial asset or to the amortized cost of the financial liability. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial asset or financial liability (such as repayment in advance, extension, call option or other similar options etc.) without considering the expected credit losses.

The amortized cost of a financial asset or financial liability is the initially recognized amount net of principal repaid, plus or less the cumulative amortized amount arising from amortization of difference between the amount initially recognized and the amount at the maturity date using effective interest method, and then net of cumulative credit loss allowance (only applicable to financial assets).

##### 5.1 Classification, recognition and measurement of financial assets

After initial recognition, the Company's financial assets of various types are subsequently measured at amortized cost, at fair value through other comprehensive income ("FVTOCI") or at fair value through profit or loss ("FVTPL"), respectively.

If the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, and the financial asset is held within a business model whose objective is achieved by collecting contractual cash flows, the Company classifies such financial asset as financial assets at amortized cost, which include cash and bank balances, notes receivable, accounts receivable and other receivables, etc.

If the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, and the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial asset, the Company classifies such financial asset as financial assets at FVTOCI. The accounts receivable and notes receivable classified as at FVTOCI upon acquisition are presented under financing with receivables, while the remaining items due within one year (inclusive) upon acquisition are presented under other current assets. Other financial assets of such type are presented as other debt investments if it is due after one year since the acquisition, or presented under non-current assets due within one year if it is due within one year (inclusive) since the Balance Sheet date.

Upon initial recognition, the Company may irrevocably designate the non-held-for-trading equity instrument investments other than contingent considerations recognized in business combination not involving enterprises under common control as financial assets at FVTOCI on an individual basis. Such type of financial assets are presented as investments in other equity instruments.

A financial asset is classified as held-for-trading if any of the following criteria is satisfied:

- It has been acquired principally for the purpose of selling it in near term.
- On initial recognition, it is part of a portfolio of identified financial instruments that the Company manages together and there is objective evidence that the Company has a recent actual pattern of short-term profit-taking.
- It is a derivative that is neither a financial guarantee contract nor designated as an effective hedging instrument.

##### 5.1.1 Financial assets at amortized cost

Financial assets at amortized cost are subsequently measured at amortized cost using effective interest method. Any gains or losses arising from impairment or derecognition are included in profit or loss.

For financial assets at amortized cost, the Company recognizes interest income using effective interest rate. The Company calculates and recognizes interest income through carrying amount of financial assets multiplying effective interest, except for the following circumstances:

- For purchased or originated credit-impaired financial assets, the Company calculates and recognizes its interest income based on amortized cost of the financial asset and the effective interest through credit adjustment since initial recognition.

- For purchased or originated financial assets that were not credit-impaired but have become credit-impaired in subsequent period, the Company calculates the interest income by applying the effective interest rate to the amortized cost of the financial assets in subsequent period. If the financial instrument is no longer credit-impaired due to improvement of credit risk, and the improvement is linked with an event occurred after application of above provisions, the Company will calculate the interest income by applying effective interest rate to the carrying amount of the financial assets.

## 5.2 Impairment of financial instruments

For financial asset at amortized cost, the Company recognizes the provision for losses on the basis of expected credit loss ("ECL").

For contract assets, notes receivable and accounts receivable arising from transactions regulated by Revenue Standards that do not contain significant financing component or without considering the financing component included in the contract with a term not exceeding one year, the Company recognizes the provision for losses at an amount equivalent to the lifetime ECL.

For other financial instruments (other than purchased or originated credit-impaired financial assets), the Company assesses the changes of credit risk since initial recognition of relevant financial instruments at each balance sheet date. If the credit risk has increased significantly since initial recognition of the financial instruments, the Company recognizes the provision for losses at an amount equivalent to lifetime ECL; if the credit risk has not increased significantly since initial recognition of the financial instruments, the Company recognizes the provision for losses at an amount equivalent to 12-month ECL. The increase or reversal of credit loss provision for financial assets other than those classified as at FVTOCI is recognized as impairment loss or gain and included in profit or loss for the period. For financial assets classified as at FVTOCI, the credit loss provision is recognized in other comprehensive income and the impairment loss or gain is included in profit or loss for the period without reducing the carrying amount of the financial assets in the balance sheet.

Where the Company has measured the provision for losses at an amount equivalent to lifetime ECL of a financial instrument in prior accounting period, but the financial instrument no longer satisfies the criteria of significant increase in credit risk since initial recognition at the current balance sheet date, the Company recognizes the provision for losses of the financial instrument at an amount equivalent to 12-month ECL at the current balance sheet date, with any resulting reversal of provision for losses recognized as impairment gains in profit or loss for the period.

### 5.2.1 Significant increase in credit risk

The Company uses reasonable and supportable forward-looking information to assess whether the credit risk has increased significantly since initial recognition by comparing the risk of a default occurring on the financial instrument at the balance sheet date with the risk of a default occurring on the financial instrument at the date of initial recognition.

The following information is taken into account when assessing whether the credit risk has increased significantly:

- (1) An actual or expected decrease in the internal credit rating for the debtor;
- (2) An actual or expected significant change in the financial instrument's external credit rating;
- (3) Significant changes in the external market indicators of credit risk of the same financial instrument or similar financial instruments with the same expected duration. These indicators include: credit spreads, credit default swap prices against borrower, length of time and extent to which the fair value of financial assets is less than their amortized cost, and other market information related to the borrower (such as the borrower's debt instruments or changes in the price of equity instruments);
- (4) Significant adverse changes in regulatory, economic, or technological environment of the debtor;
- (5) Adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days (inclusive) past due.

At the balance sheet date, if the Company determines that the financial instrument has only lower credit risk, the Company assumes that the credit risk of such financial instrument has not increased significantly since initial recognition. The financial instrument is deemed as having lower credit risk if (i) it has a low risk of default; (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flows obligations.

### 5.2.2 Credit-impaired financial assets

When an event or several events that are expected to have adverse impact on the future cash flows of the financial assets have occurred, the financial assets become credit-impaired. The evidences of credit impairment of financial assets include the following observable information:

- (1) Significant financial difficulty of the issuer or debtor;
- (2) Breach of contract by the debtor, such as a default or delinquency in interest or principal payments;
- (3) The creditor of the debtor, for economic or contractual reasons relating to the debtor's financial difficulty, have granted to the debtor a concession that the creditor would not otherwise consider;
- (4) It is probable that the debtor will enter bankruptcy or other financial reorganizations;

Based on the Company's internal credit risk management, the Company considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collaterals held by the Company).

Irrespective of the outcome of the above assessment, the Company presumes that an event of default on the financial instrument has occurred if the contractual payment of the financial instrument has been more than 90 days (inclusive) past due.

### 5.2.3 Determination of ECL

The Company determines the credit losses on accounts receivable and other receivable on a portfolio basis using an impairment matrix for related financial instruments. The financial instruments are grouped based on common risk characteristics. The common credit risk characteristics adopted by the Company include: type of financial instrument, credit risk rating, overdue status, industry of the debtor and company size company size, etc.

The Company determines the ECL of relevant financial instruments using the following method:

- For financial assets, the credit loss represents the present value of the difference between the contractual cash flows receivable by the Company and the cash flows expected to be received by the Company.
- For credit-impaired financial assets that are not purchased or originated at the balance sheet date, the credit loss represents the difference between the carrying amount of the financial assets and the present value of expected future cash flows discounted using original effective interest rate.

The factors reflected by the Company's measurement of ECL of financial instruments include: unbiased probability weighted average amount recognized by assessing a series of possible results; time value of money; reasonable and supportable information related to historical events, current condition and forecast of future economic position that is available without undue cost or effort at the balance sheet date.

### 5.2.4 Write-down of financial assets

When the Company will no longer reasonably expect that the contractual cash flows of financial assets can be collected in aggregate or in part, the Company will directly write down the book value of the financial asset, which constitutes derecognition of relevant financial assets.

## 5.3 Transfer of financial assets

The Company derecognizes a financial asset if one of the following conditions is satisfied: (1) the contractual rights to the cash flows from the financial asset expire; or (2) the financial asset has been transferred and substantially all the risks and rewards of ownership of the financial asset is transferred to the transferee; or (3) although the financial asset has been transferred, the Company neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but has not retained control of the financial asset

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, the difference between (1) the carrying amount of the financial asset transferred; and (2) the sum of the consideration received from the transfer and any cumulative gain or loss that has been recognized in other comprehensive income, is recognized in profit or loss. Where the transferred assets are non-trading equity instrument investments designated as at FVTOCI, cumulative gains or losses previously recognized in

other comprehensive income are transferred out and included in retained profits.

If a part of the transferred financial asset qualifies for derecognition, the overall carrying amount of the financial asset prior to transfer is allocated between the part that continues to be recognized and the part that is derecognized, based on the respective fair value of those parts at the date of transfer. The difference between (1) the carrying amount allocated to the part derecognized on the date of derecognition; and (2) the sum of the consideration received for the part derecognized and any cumulative gain or loss allocated to the part derecognized which has been previously recognized in other comprehensive income, is recognized in profit or loss. Where the transferred assets are non-trading equity instrument investments designated as at FVTOCI, cumulative gains or losses previously recognized in other comprehensive income are transferred out and included in retained profits.

For a transfer of a financial asset in its entirety that does not satisfy the derecognition criteria, the Company continues to recognize the transferred financial asset in its entirety. The consideration received from transfer of assets is recognized as a liability upon receipt.

## 5.4 Classification of financial liabilities and equity instruments

Financial instruments issued by the Company or their components are classified into financial liabilities or equity instruments on the basis of not only the legal form but also the contractual arrangements and their economic substance, together with the definition of financial liability and equity instrument.

### 5.4.1 Classification, recognition and measurement of financial liabilities

On initial recognition, financial liabilities are classified into financial liabilities at FVTPL and other financial liabilities.

#### 5.4.1.1 Other financial liabilities

Except for financial liabilities and financial guarantee contracts and loan commitments arising from transfer of financial assets that do not meet the derecognition criteria or those arising from continuing involvement in the transferred financial assets, other financial liabilities are subsequently measured at amortized cost, with gain or loss arising from derecognition or amortization recognized in profit or loss.

If the modification or renegotiation for the contract by the Company and its counterparties does not result in derecognition of a financial liability subsequently measured at amortized cost but the changes in contractual cash flows, the Company will recalculate the carrying amount of the financial liability, with relevant gain or loss recognized in profit or loss. The Company will determine the carrying amount of the financial liability based on the present value of renegotiated or modified contractual

cash flows discounted at the original effective interest rate of the financial liability. For all costs or expenses arising from modification or renegotiation of the contract, the Company will adjust the modified carrying amount of the financial liability and make amortization during the remaining term of the modified financial liability.

#### 5.4.2 Derecognition of financial liabilities

The Company derecognizes a financial liability (or part of it) only when the underlying present obligation (or part of it) is discharged. An agreement between the Company (an existing borrower) and an existing lender to replace the original financial liability with a new financial liability with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

When the Company derecognizes a financial liability or a part of it, it recognizes the difference between the carrying amount of the financial liability (or part of the financial liability) derecognized and the consideration paid (including any non-cash assets transferred or new financial liabilities assumed) in profit or loss for the period.

#### 5.4.3 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued (including refinanced), repurchased, sold and cancelled by the Company are recognized as changes of equity. Change of fair value of equity instruments is not recognized by the Company. Transaction costs related to equity transactions are deducted from equity.

The Company recognizes the distribution to holders of the equity instruments as distribution of profits, and dividends paid do not affect total amount of shareholders equity.

### 5.5 Offsetting financial assets and financial liabilities

Where the Company has a legal right that is currently enforceable to set off the recognized financial assets and financial liabilities, and intends either to settle on a net basis, or to realize the financial asset and settle the financial liability simultaneously, a financial asset and a financial liability shall be offset and the net amount is presented in the balance sheet. Except for the above circumstances, financial assets and financial liabilities shall be presented separately in the balance sheet and shall not be offset.

## 6. Property plant and equipment

Property plant and equipment is tangible assets that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and have useful lives of more than one accounting year. Property plant and equipment is recognized only when it is probable that economic benefits associated with the asset will flow to the Company and the cost of the asset can be measured reliably. Property plant and equipment is initially measured at cost.

Subsequent expenditures incurred for the property plant and equipment are included in the cost of the property plant and equipment and if it is probable that economic benefits associated with the asset will flow to the Company and the subsequent expenditures can be measured reliably. Meanwhile the carrying amount of the replaced part is derecognized. Other subsequent expenditures are recognized in profit or loss in the period in which they are incurred.

A property plant and equipment is depreciated over its useful life using the straight-line method since the month subsequent to the one in which it is ready for intended use. The depreciation method, useful life, estimated net residual value rate and annual depreciation rate of each category of property plant and equipment is as follows:

Categories	Useful life	Estimated net residual value rate	Annual depreciation rate
Buildings	25 years	0%	4%
Electronic equipment	2 - 5 years	0%	20% - 50%
Office equipment	2 - 5 years	0%	20% - 50%

Estimated net residual value of property plant and equipment is the estimated amount that the Company would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the property plant and equipment was already of the age and in the condition expected at the end of its useful life.

If property plant and equipment is upon disposal or no future economic benefits are expected to be generated from its use or disposal, the property plant and equipment is derecognized. When property plant and equipment is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognized in profit or loss for the period.

The Company reviews the useful life and estimated net residual value of property plant and equipment and the depreciation method applied at least once at each financial year-end, and account for any change as a change in an accounting estimate.

## 7. Construction in progress

Construction in progress is measured at its actual costs. The actual costs include various construction expenditures during the construction period and other relevant costs. Construction in progress is not depreciated. Construction in progress is transferred to property plant and equipment when it is ready for intended use.

## 8. Intangible assets

Intangible assets include land use right. An intangible asset is initially measured at cost.

An intangible asset with a finite useful life is amortized using the straight-line method over its useful life when the asset is available for use.

The Company reviews the useful life and amortization method at least at each financial year-end. A change in the useful life or the amortization method used is accounted for as a change in an accounting estimate.

For an intangible asset with a finite useful life, the Company reviews the useful life and amortization method at the end of the year, and makes adjustments when necessary.

The useful life for such intangible asset is as follows:

Category	Useful life
Land use right	50 years

## 9. Long-term deferred expenses

Long-term deferred expenses represent expenses incurred that should be borne and amortized over the current and subsequent periods (together of more than one year). Long-term deferred expenses are amortized using the straight-line method over the expected periods in which benefits are derived.

## 10. Impairment of non-financial assets

The Company reviews the property plant and equipment, construction in progress and other long-term assets at each balance sheet date to determine whether there is any indication that they have suffered an impairment loss. If an impairment indication exists, the recoverable amount is estimated. Intangible assets with indefinite useful life and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that the assets may be impaired.

Recoverable amount is estimated on individual basis. If it is not practical to estimate the recoverable amount of an individual asset, the recoverable amount of the asset group to which the asset belongs will be estimated. The recoverable amount of an asset or asset group is the higher of its fair value less costs of disposal and the present value of the future cash flows expected to be derived from the asset.

If such recoverable amount is less than its carrying amount, a provision for impairment losses in respect of the deficit is recognized in profit or loss for the period.

Once the impairment loss of such assets is recognized, it is not be reversed in any subsequent period.

## 11. Employee benefits

Actually occurred short-term employee benefits are recognized as liabilities, with a corresponding charge to the profit or loss for the period or in the costs of relevant assets in the accounting period in which employees provide services to the Company. Staff welfare expenses incurred by the Company are recognized in profit or loss for the period or the costs of relevant assets based on the actually occurred amounts when it actually occurred. Non-monetary staff welfare expenses are measured at fair value.

Payment made by the Company of social security contributions for employees such as premiums or contributions on medical insurance, work injury insurance and maternity insurance, etc. and payments of housing funds, as well as trade union fund and employee education fund provided in accordance with relevant requirements, are calculated according to prescribed bases and percentages in determining the amount of employee benefits and recognized as relevant liabilities, with a corresponding charge to the profit or loss for the period or the costs of relevant assets in the accounting period in which employees provide services.

During the accounting period of rendering service to employees of the Company, amount which should be paid according to defined contribution plans is recognized as liabilities, and recognized in profit or loss or related costs of assets.

A liability for a termination benefit is recognized in profit or loss for the period at the earlier of when the Company cannot unilaterally withdraw from the termination plan or the redundancy offer and when the Company recognizes any related restructuring costs or expenses.

## 12. Revenue recognition

The Company's revenue is mainly from rendering of services.

The Company recognizes revenue based on the transaction price allocated to the performance obligation when the Company satisfies a performance obligation in the contract, namely, when the customer obtains control over relevant goods or services. A performance obligation is a commitment that the Company transfers a distinct good or service to a customer in the contract. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties and amounts expected to be refunded to a customer.

It is a performance obligation satisfied during a period of time and the Company recognizes revenue during a period of time according to the progress of performance if one of the following conditions is met: (i) the customer obtains and consumes economic benefits at the same time of the Company's performance; (ii) the customer is able to control goods or services in progress during the Company's performance; (iii) goods or services generated during the Company's performance have irreplaceable utilization, and the Company is entitled to collect amounts of cumulative performance part which have been done up to now. Otherwise, revenue is recognized at a point in time when the customer obtains control over the relevant goods or services.

Contract assets refer to the Company's right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time. For the details of accounting policies on impairment of contract assets, please see Note IV. The Company's unconditional (i.e., depending on the passage of time only) right to receive consideration from the customer is separately presented as receivables.

Contract liabilities refer to the Company's obligation to transfer goods or services to a customer for consideration received or receivable from the customer. Contract assets and contract liabilities under the same contract will be presented on a net basis.

If there are two or more of performance obligations included in the contract, at the contract inception, the Company allocates the transaction price to each single performance obligation based on the proportion of stand-alone selling price of goods or services promised in each stand-alone performance obligation. However, if there is conclusive evidence indicating that the contract discount or variable consideration is only relative with one or more (not the whole) performance obligations in the contract, the Company will allocate the contract discount or variable consideration to relative one or more performance obligations. Stand-alone selling price refers to the price of a single sale of goods or services. If the stand-alone selling price cannot be observed directly, the Company estimates the stand-alone selling price through comprehensive consideration of all relative information that can be reasonably acquired and maximum use of observable inputs.

In case of the existence of variable consideration in the contract, the Company shall determine the best estimate of variable consideration based on the expected value or the most probably occurred amount. The transaction price including variable consideration shall not exceed the amount of the cumulatively

recognized revenue which is unlikely to be significantly reversed when relevant uncertainty is eliminated. At each balance sheet date, the Company re-estimates the amount of variable consideration which should be included in transaction price.

The Company assesses whether it controls each specified good or service before that good or service is transferred to the customer to determine whether the Company is a principal or an agent. The Company considers whether it has the primary obligation to fulfil the contract, pricing discretion and other factors to determine whether it controls the goods or service and therefore is acting as a principal or an agent. If the Company controls the specified good or service before that good or service is transferred to a customer, the Company is a principal and recognizes revenue in the gross amount of consideration received or receivable. Otherwise, the Company is an agent and recognizes revenue in the amount of any fee or commission to which it expects to be entitled. The fee or commission is the net amount of consideration that the Company retains after paying the other party the consideration received in exchange for the goods or services to be provided by that party, or is determined in accordance with the established commission amount or percentage, etc.

Where the Company receives receipts in advance from a customer for sales of goods or rendering of services, the amount is first recognized as a liability and then transferred to revenue when the related performance obligation has been satisfied. When the Company's receipts in advance are not required to be refunded and it is probable that the customer will waive all or part of its contractual rights, the Company recognizes the said amounts as revenue on a pro-rata basis in accordance with the pattern of exercise of the customer's contractual rights, if the Company expects to be entitled to the amounts relating to the contractual rights waived by the customer; otherwise, the Company reverses the related balance of the said liabilities to revenue only when it is highly unlikely that the customer will require performance of the remaining performance obligations.

A non-refundable initial fee (including membership fee of club, X, etc.) charged to the customer at (or near) the contract commencement date is included in the transaction price. Where the initial fee is related to the goods or services committed to be transferred to the customers, and these goods or services constitute a single performance obligation, the Company recognizes revenue based on the transaction price allocated to the goods or services upon their transfer; where the initial fee is related to the goods or services committed to be transferred to the customers, but these goods or services do not constitute a single performance obligation, the Company recognizes revenue based on the transaction price allocated to the single performance obligation upon fulfilment of the single performance obligation including the goods or services; where the initial fee is not related to the goods or services committed to be transferred to the customers, the initial fee will be recognized as revenue upon their transfer in the future as receipts in advance to transfer goods or services in the future.

### **12.1 Costs of obtaining a contract**

For the incremental cost of obtaining the contract (cost that will not occur if the contract is not obtained) that is expected to be recoverable, it is recognized as an asset, and shall be amortized

on a basis that is consistent with the revenue recognition of the goods or services to which the asset relates and recognized in profit or loss for the period. If the amortization period of such asset is less than one year, it is recognized in profit or loss for the period when incurred. Other expenses incurred for obtaining the contract is included in profit or loss for the period when incurred, except for those explicitly assumed by the customer.

### **12.2 Costs to fulfil a contract**

If the costs incurred in fulfilling a contract are not within the scope of any standards other than Revenue Standards, the Company recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria: (1) the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify; (2) the costs generate or enhance resources of the Company that will be used in satisfying performance obligations in the future; and (3) the costs are expected to be recovered. The asset mentioned above shall be amortized on a basis that is consistent with the revenue recognition of the goods or services to which the asset relates and recognized in profit or loss for the period.

## **13. Government grants**

Government grants are monetary assets and non-monetary assets from the government to the Company at no consideration. A government grant is recognized only when the Company can comply with the conditions attaching to the grant and the Company will receive the grant.

If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount received or receivable.

A government grant related to an asset is recognized as deferred income and included in profit or loss over the useful life of the related asset.

For a government grant related to income, if the grant is a compensation for related expenses or losses to be incurred in subsequent periods, the grant is recognized as deferred income over the periods in which the related costs or losses are recognized; If the grant is a compensation for related expenses or losses already incurred, the grant is recognized immediately in profit or loss.

A government grant related to the Company's daily activities is recognized in other income or written off related cost and expense based on the nature of economic activities; a government grant not related to the Company's daily activities is recognized in non-operating income and expenses.

## **14. Income taxes**

Tax expense comprises current income tax and deferred income tax.

### **14.1 Current income taxes**

At the balance sheet date, current income tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid (or recovered) according to the requirements of tax laws.

## 14.2 Deferred tax assets and deferred tax liabilities

For temporary differences between the carrying amounts of certain assets or liabilities and their tax base, or between the nil carrying amount of those items that are not recognized as assets or liabilities and their tax base that can be determined according to tax laws, deferred tax assets and liabilities are recognized using the balance sheet liability method.

Deferred tax is generally recognized for all temporary differences. Deferred tax assets for deductible temporary differences are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized. However, for temporary differences associated with the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction (not a business combination) that affects neither the accounting profit nor taxable profits (or deductible losses) at the time of transaction, no deferred tax asset or liability is recognized.

For deductible losses and tax credits that can be carried forward, deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the deductible losses and tax credits can be utilized.

At the balance sheet date, deferred tax assets and liabilities are measured at the tax rates, according to tax laws, that are expected to apply in the period in which the asset is realized or the liability is settled.

Current and deferred tax expenses or income are recognized in profit or loss for the period, except when they arise from transactions or events that are directly recognized in other comprehensive income or in owners' equity, in which case they are recognized in other comprehensive income or in owners' equity; and when they arise from business combinations, in which case they adjust the carrying amount of goodwill.

At the balance sheet date, the carrying amount of deferred tax assets is reviewed and reduced if it is no longer probable that sufficient taxable profits will be available in the future to allow the benefit of deferred tax assets to be utilized. Such reduction in amount is reversed when it becomes probable that sufficient taxable profits will be available.

## 14.3 Income tax offsetting

When the Company has a legal right to settle on a net basis and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

When the Company has a legal right to settle current tax assets and liabilities on a net basis, and deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be reversed, deferred tax assets and deferred tax liabilities are offset and presented on a net basis.

## 15. Transactions denominated in foreign currencies

A foreign currency transaction is recorded, on initial recognition, by applying the spot exchange rate on the date of the transaction.

At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rates at the balance sheet date. Exchange differences arising from the differences between the spot exchange rates prevailing at the balance sheet date and those on initial recognition or at the previous balance sheet date are recognized in profit or loss for the period, except that (1) exchange differences related to a specific-purpose borrowing denominated in foreign currency that qualify for capitalization are capitalized as part of the cost of the qualifying asset during the capitalization period; (2) exchange differences related to hedging instruments for the purpose of hedging against foreign currency risks are accounted for using hedge accounting; (3) exchange differences arising from available-for-sale non-monetary items (such as shares) denominated in foreign currencies and changes in the carrying amounts (other than the amortized cost) of available-for-sale monetary items are recognized as other comprehensive income and included in capital reserve.

Foreign currency non-monetary items measured at historical cost are translated to the amounts in functional currency at the spot exchange rates on the dates of the transactions and the amounts in functional currency remain unchanged. Foreign currency non-monetary items measured at fair value are re-translated at the spot exchange rate on the date the fair value is determined. The difference between the re-translated functional currency amount and the original functional currency amount is treated as changes in fair value (including changes of exchange rate) and is recognized in profit and loss or as other comprehensive income.

## 16. Leases

A lease is a contract whereby the lessor conveys to the lessee in return for a consideration the right to use an asset for an agreed period of time.

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

### 16.1 The Company as lessee

#### 16.1.1 Separating components of a lease

If the contract contains one or more lease and non-lease components, the Company will separate the individual lease and non-lease components and allocate contract consideration according to the relative proportion of the sum of the stand-alone prices of the lease components and the stand-alone prices of the non-lease components.

#### 16.1.2 Right-of-use assets

Except for short-term leases and leases of low-value assets, at the commencement date of the lease, the Company recognizes a right-of-use asset.

The commencement date of the lease is the date on which a lessor makes an underlying asset available for use by the Company. The Company measures the right-of-use assets at cost. The cost of the right-of-use assets comprises:

- the amount of the initial measurement of the lease liabilities;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Company;
- an estimate of costs to be incurred by the Company in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs incurred to produce inventories.

The Company depreciates right-of-use assets by reference to the relevant depreciation provisions of Accounting Standards for Business Enterprises No. 4 - property plant and equipment. The right-of-use assets are depreciated over the remaining useful lives of the leased assets where the Company is reasonably certain to obtain ownership of the underlying assets at the end of the lease term. Otherwise, right-of-use assets are depreciated over the shorter of the lease term and the remaining useful lives of the leased assets.

#### 16.1.3 Lease liabilities

Except for short-term leases and leases of low-value assets, at the commencement date of the lease, the Company measures the lease liabilities at the present value of the lease payments that are not paid at that date. In calculating the present value of lease payments, the Company uses the interest rate implicit in the lease as the discount rate. The Company uses the incremental borrowing rate if the interest rate implicit in the lease is not readily determinable.

Lease payments refer to payments relating to the right to use leased assets during the lease term which are made by the Company to the lessor, including:

- fixed payments and in-substance fixed payments, less any lease incentives receivable (if any);
- variable lease payments that depend on an index or a rate;
- the exercise price of a purchase option reasonably certain to be exercised by the Company;
- payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate the lease; and
- amounts expected to be paid under residual value guarantees provided by the Company.
- Variable lease payments that depend on an index or a rate, are initially measured using the index or rate as at the commencement date. Variable lease payments not included in the measurement of the lease liabilities, are recognized in profit or loss or cost of related assets in the period of those payments.

After the commencement date of the lease, the Company calculates interest expenses of lease liabilities for each period of the lease term based on fixed periodic rate, and recognizes such expenses in profit or loss or cost of related assets.

After the commencement date of the lease, the Company re-measures the lease liabilities and adjusts the right-of-use assets accordingly in the following cases: If the book value of the right-of-use asset has been reduced to zero, but the lease liability needs to be reduced further, the Company will recognize the difference in profit or loss for the period:

- There is a change in the lease term, or in the assessment of an option to purchase the underlying asset, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment;
- There is a change in the amounts expected to be payable under a residual value guarantee, or in future lease payments resulting from a change in an index or a rate used to determine those payments, in which case the related lease liability is remeasured by discounting the revised lease payments using the unchanged discount rate. If the change of lease payment comes from the change of floating interest rate, the revised discount rate shall be used to calculate the present value.

#### 16.1.4 Short-term leases

The Company chooses not to recognize right-of-use assets and lease liabilities for short-term leases of and leases of low-value assets. A short-term lease is a lease that at the commencement date, has a lease term of 12 months or less and does not contain a call option. A lease of low-value assets, is a lease that the single underlying asset, when is new, is of low value. The Company shall recognize the lease payments associated with short-term leases and leases of low-value assets in profit or loss or cost of related assets on a straight-line basis over the lease term.

### V. Critical judgements in applying accounting policies and key assumptions and uncertainties in accounting estimates

In the application of the Company's accounting policies, which are described in Note IV, the Company is required to make judgements, estimates and assumptions about the carrying amounts of items in the financial statements that cannot be measured accurately, due to the internal uncertainty of the operating activities. These judgements, estimates and assumptions are based on historical experience of the Company's management as well as other factors that are considered to be relevant. Actual results may differ from these estimates.

The aforementioned judgements, estimates and assumptions are reviewed regularly on a going concern basis. The effect of a change in accounting estimate is recognized in the period of the change, if the change affects that period only; or recognized in the period of the change and future periods, if the change affects both.

At the balance sheet date, the key assumptions and uncertainties in the accounting estimates that are likely to result in material adjustments to the carrying amounts of assets and liabilities in the future are:

### Deferred tax assets

The management of the Company considers that it is uncertain for the Company to obtain enough income tax payable in the future, so the Company did not recognize RMB 326,270,324.93 of deductible losses as deferred tax assets at the end of this year according to Note VIII. 20.

### Provision of ECL for accounts receivable

The Company uses provision matrix to calculate ECL for the accounts receivable. The provision rates are based on internal credit ratings as groupings of various debtors that have similar risk patterns. The provision matrix is based on the Company's historical default rates. At December 31, 2024, the historical observed default rates are reassessed and changes in the forward-looking information are considered. The provision of ECL will vary based on the Company's estimates. The information about the ECL and the Company's accounts receivable is disclosed in Note VIII. 2.

## VI. Changes in accounting policies and corrections of prior period accounting errors

The Ministry of Finance issued Interpretation No. 17 of the Accounting Standards for Business Enterprises (the "Interpretation No. 17") and Interpretation No. 18 of the Accounting Standards for Business Enterprises (the "Interpretation No. 18") on October 25, 2023 and December 6, 2024, respectively.

Interpretation No. 17 stipulated the classification of current liabilities and non-current liabilities and came into effect on January 1, 2024.

Interpretation No. 18 stipulated the accounting treatment of assurance-type warranties which are not separate performance obligations. The interpretation became effective from December 6, 2024, and enterprises are allowed to implement it in advance from the year of release.

Upon assessment, the Company considers that the adoption of these interpretations has no significant impact on the financial statements of the Company.

## VII. Taxation

### Value-added tax

Value added tax ("VAT") on sales is calculated at 6% on revenue of rendering of services according to the relevant requirements of tax laws and paid after deducting input VAT on purchases.

Based on the zero VAT rate policy, the overseas revenue of the Company is exempted from VAT.

### Income tax

The statutory income tax rate of the Company is 25 % (2023: 25%). The accumulated tax loss of the Company as at December 31, 2024 has not been fully deducted, therefore, the income tax of this year has not been accrued.

### Other taxes

Urban maintenance and construction tax is levied at 5% of the VAT actually paid.

Educational surcharge is levied at 3% of the VAT actually paid.

Local educational tax is levied at 2% of the VAT actually paid.

## VIII. Notes to the financial statements

### 1. Cash and bank balances

Particulars	As at December 31,	
	2024	2023
Deposits with banks	26,420,190.03	29,416,496.27

### 2. Accounts receivable

(1) The customer analysis of accounts receivable is as follows:

Particulars	As at December 31,	
	2024	2023
Amounts due from other customers	36,903,117.42	47,916,774.48
Less: Credit losses provision	992,694.33	1,102,548.45
Total	35,910,423.09	46,814,226.03

As a part of the Company's credit risk management, the Company conducts internal credit rating on debtors of accounts receivable and determines the expected loss rate of accounts receivable of each rating. As at December 31, 2024, the analysis of the credit risk and expected loss for accounts receivable is as follows:

(In RMB)

Internal credit rating	As at December 31, 2024			
	Expected average loss rate	Amount	Credit losses provision	Book value
Risk free	0.00%	29,901,214.86	–	29,901,214.86
Low risk	0.61%	6,046,235.92	37,027.69	6,009,208.23
High risk	100.00%	955,666.64	955,666.64	–
Total		36,903,117.42	992,694.33	35,910,423.09

(2) The analysis of the movements of expected credit losses provision for accounts receivable is as follows:

(In RMB)

Particulars	Expected credit losses
1-Jan-24	1,102,548.45
Provision during the year	996,223.74
Reverse during the year	(1,106,077.56)
31-Dec-24	992,694.33

### 3. Other receivables

(1) Summary of other receivables

The ageing analysis of other receivables is as follows:

Aging	As at December 31, 2024				As at December 31, 2023			
	Amount	Ratio	Bad debt provision	Book value	Amount	Ratio	Bad debt provision	Book value
	RMB	%	RMB	RMB	RMB	%	RMB	RMB
Within 1 year	193,231.15	14.76	(15,040.70)	178,190.45	188,274.03	12.62	(21,990.54)	166,283.49
1 to 2 years	–	–	–	–	300,000.00	20.10	–	300,000.00
2 to 3 years	–	–	–	–	1,004,030.70	67.28	–	1,004,030.70
More than 3 years	1,116,309.46	85.24	–	1,116,309.46	–	–	–	–
Total	1,309,540.61	100.00	(15,040.70)	1,294,499.91	1,492,304.73	100.00	(21,990.54)	1,470,314.19

### 4. Property plant and equipment

(In RMB)

Particulars	Electronic equipment	Office equipment	Buildings	Total
Cost				
January 1, 2024	29,355,751.95	81,879,541.48	775,097,899.22	886,333,192.65
Additions during the year	1,266,877.77	104,579.54	–	1,371,457.31
Decrease during the year	(76,320.26)	(600.00)	–	(76,920.26)
Balance at December 31, 2024	30,546,309.46	81,983,521.02	775,097,899.22	887,627,729.70
Accumulated depreciation

**X. Financial instruments and risk management**

The Company's major financial instruments include cash and bank balances, accounts receivable, other receivables, accounts payable, other payables and short-term loans. Details of these financial instruments are disclosed in Note VIII. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

The Company adopts sensitivity analysis technique to analyze how the profit and loss for the period and owners' equity would have been affected by reasonably possible changes in the relevant risk variables. As it is unlikely that risk variables will change in an isolated manner, and the interdependence among risk variables will have significant effect on the amount ultimately influenced by the changes in a single risk variable, the following are based on the assumption that the change in each risk variable is on a stand-alone basis.

**1. Risk management objectives and policies**

The Company's risk management objectives are to achieve property balance between risks and yield, minimize the adverse impacts of risks on the Company's operation performance, and maximize the benefits of the shareholders and other equity investors. Based on these risk management objectives, the Company's basic risk management strategy is to identify and analyze the industry's exposure to various risks, establish appropriate bottom line for risk tolerance, implement risk management, and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

**1.1 Market risk****1.1.1 Foreign currency risk**

Foreign currency risk is the risk that losses will occur because of changes in foreign exchange rates. The Company's exposure to the foreign currency risk is primarily associated with USD and INR. The Company's principal activities are settled in RMB. As at December 31, 2024, the balance of the Company's assets and liabilities are both denominated in RMB except that the assets and liabilities set out below are denominated in foreign currencies. Foreign currency risk arising from the assets and liabilities denominated in foreign currencies may have impact on the Company's performance.

(In RMB)

Particulars	As at December 31,	
	2024	2023
Cash and bank balances	14,826,819.00	4,576,622.45
Accounts receivable	15,342,465.91	20,314,257.68
Short-term loans	–	(35,413,500.00)
Other payables	(102,616.54)	(1,486,493.77)
Accounts payable	(641,109.40)	(5,399,433.21)
Total	29,425,558.97	(17,408,546.85)

### Sensitivity analysis on currency risk

The assumption for the sensitivity analysis on currency risk is that all hedges of net investments in foreign operations and the cash flow hedges are highly effective.

On the basis of the above assumption, where all other variables are held constant, the reasonably possible changes in the foreign exchange rate may have the following pre-tax effect on the profit or loss for the period and owners' equity:

(In RMB)

Item	Changes in exchange rate	2024		2023	
		Effect on profit	Effect on Owners' equity	Effect on profit	Effect on Owners' equity
Foreign currencies	10% increase against RMB	2,942,555.90	2,942,555.90	(1,740,854.69)	(1,740,854.69)
Foreign currencies	10% decrease against RMB	(2,942,555.90)	(2,942,555.90)	1,740,854.69	1,740,854.69

### 1.2 Credit risk

As at 31 December 2024, the Company's maximum exposure to credit risk which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties.

The Company reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Company consider that the Company credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit rating.

### 1.3 Liquidity risk

In the management of the liquidity risk, the Company monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Company's operations and mitigate the effects of fluctuations in cash flows. The management monitors use of loans and ensures to observe loan agreements.

## XI. Capital management

The Company's primary objectives when managing capital are to safeguard the Company's ability to continue as a going concern.

The Company defines "capital" as including all components of equity. The balance of related party transactions are not regarded by the Company as capital.

The Company's capital structure is regularly reviewed and managed with due regard to the capital management practices of the Infosys Limited Group to which the Company belongs. Adjustments are made to the capital structure in light of changes in economic conditions affecting the Company. The results of the Board of Directors' review of the Company's capital structure are used as a basis for the determination of the level of dividends, if any, that are declared.

The Company is not subject to externally imposed capital requirements.

## Infosys Consulting Ltda.

# Independent Auditor's Report

To the Members of INFOSYS CONSULTING LTDA.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS CONSULTING LTDA. ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Consulting Ltda. is a wholly-owned subsidiary of Infosys Limited effective August 14, 2018. The Company renders professional management consulting services, thereby enabling its customers to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act, 2013.

These financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Brazilian real (BRL).

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which the changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company derives revenue primarily from business IT services comprising software development and related services, consulting and package implementation and from the licensing of software products and platforms across our core and digital offerings (together called as "software-related services").

The following is a summary of new and / or revised significant accounting policies related to revenue recognition.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

When there is uncertainty as to the measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement.

Revenues in excess of invoicing are classified as contract assets (which we refer to as "unbilled revenue") while invoicing in excess of revenues are classified as contract liabilities (which we refer to as "unearned revenues").

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in Ind AS 115, Revenue from Contracts with Customers, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering software development and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Company is unable to determine the standalone selling price, the Company uses the expected-cost-plus-margin approach in estimating the standalone selling price. For software development and related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Revenue from licenses, where the customer obtains a "right to use" the licenses, is recognized at the time the license is made available to the customer. Revenue from licenses, where the customer obtains a "right to access", is recognized over the access period. Arrangements to deliver software products generally have three elements – license, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate

performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected-cost-plus-margin approach. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts / incentives to each of the underlying performance obligations that corresponds to the progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then the discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

### Rendering of services

Revenue from a contract to provide services is recognized in the period in which the services are provided in accordance with the terms of the contract. At each year end, revenue from unbilled services provided are included within accrued income and any amounts invoiced in advance are deferred to the accounting period when those services will be provided.

The stage of completion is determined based on the actual completion of a proportion of the total services to be rendered. An expected loss on a contract is recognized immediately in the Profit and Loss account.

## 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## 1.7 Post-sales customer support and others

The Company provides its customers with fixed-period post-sales support for corrections of errors and support with all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in the cost of sales. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

## 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

## 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years
Plant and machinery <sup>(1)</sup>	5 years
Leasehold improvements	Over lease term

Depreciation methods, useful lives and residual values are reviewed periodically, including at the end of each financial year.

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with

these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized as net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

## 1.10 Financial instruments

### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.10.2 Subsequent measurement

#### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset that is not classified in any of the above categories is subsequently fair valued through profit or loss.

##### (iv) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

## 1.11 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.12 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets that are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) required to adjust the loss allowance at the reporting date to the amount that is required is recognized as an impairment gain or loss in profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.13 Employee benefits

### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non- accumulating compensated absences is recognized in the period in which the absences occur.

## 1.14 Foreign currency

### Functional currency

The Company's functional currency is the BRL.

### Transactions and translations

Foreign currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and

non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.15 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.16 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or items of income or expenses associated with investing or financing cash flows. The cash flows from the Company's operating, investing, and financing activities are segregated.

### 1.17 Other income

Other income primarily comprises interest income, dividend income and exchange gain on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

### 1.18 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.19 Cash and cash equivalents

The Company considers all highly liquid investments with remaining maturity at the date of purchase of three months or less and which are readily convertible to known amounts of cash to be cash equivalents.

### 1.20 Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Group has concluded that no changes are required to the lease period relating to the existing lease contracts (refer to note no. 2.8).

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and vehicles. The Company assesses whether a contract contains a lease with the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) The contract involves the use of an identified asset; (ii) The Company has substantially all of the economic benefits from use of the asset through the period of the lease; and (iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a Right-Of-Use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease, plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value, less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments

are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 1.21 Borrowing cost

Borrowing cost is charged to the Statement of Profit and Loss in the period in which they were incurred.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In BRL)

Particulars	Plant and machinery	Office equipment	Computer equipment	Furniture and fixtures	Leasehold improvement	Total
Gross carrying value as of January 1, 2024	1,255,081	263,146	17,344,850	4,640,442	1,818,265	25,321,784
Additions	–	(0)	181,314	87,944	–	269,258
Deletions	–	(6,537)	(558,348)	(356,475)	–	(921,360)

Carrying value as of January 1, 2023	3,721	10,297	9,545,949	34,040	–	9,594,007

## 2.2 Other financial assets

(In BRL)

Particulars	As at December 31	
	2024	2023
Current		
Unbilled revenues	10,778,890	9,309,972
Interest accrued but not due	2,833,406	2,054,748
Others <sup>(1)</sup>	13,286,741	11,291,058
Total other current financial assets	26,899,037	22,655,778
Total other financial assets	26,899,037	22,655,778
Financial assets carried at amortized cost	26,899,037	22,655,778
<sup>(1)</sup> Includes dues from related parties (Refer to Note 2.18)	8,002,112	6,100,115

## 2.3 Trade receivables

(In BRL)

Particulars	As at December 31	
	2024	2023
Current		
Unsecured		
Considered good <sup>(1)</sup>	44,924,669	55,302,690
	44,924,669	55,302,690
Less: Allowances for credit losses	(1,455,151)	(4,541,555)
Total trade receivables	43,469,518	50,761,135
<sup>(1)</sup> Includes dues from related parties (Refer to Note 2.18)	16,201,583	13,716,192

Years ended December 31, 2024 and December 31, 2023

(In BRL)

Particulars	Outstanding for following periods from due date of payment						Total
	Not due	Less than 6 months	6 months-1 year	1-2 years	2-3 years	More than 3 years	
Undisputed trade receivables – considered good	655,819	41,481,644	826,820	255,952	2,190,862	(486,428)	44,924,669
	40,660,133	15,557,750	(104,831)	1,107,140	1,209,025	(3,126,526)	55,302,690
Less: Allowance for credit loss							1,455,151
							4,541,555
Total trade receivables							43,469,518
							50,761,135

## 2.4 Cash and cash equivalents

(In BRL)

Particulars	As at December 31	
	2024	2023
Balances with banks		
In current accounts	34,977,595	27,471,858
Fixed deposit	49,000,000	32,687,000
Total cash and cash equivalents	83,977,595	60,158,858

## 2.5 Loans

(In BRL)		
Particulars	As at December 31	
	2024	2023
Current		
Unsecured, considered good		
Loans to employees	999,450	826,703
Total current loans	999,450	826,703

## 2.6 Other current assets

(In BRL)		
Particulars	As at December 31	
	2024	2023
Current		
Others		
Unbilled revenues	6,366,123	4,660,369
Withholding taxes and others	10,472,526	9,754,745
Total current other assets	16,838,649	14,415,114
<sup>(1)</sup> Includes dues from subsidiaries (Refer to Note 2.18)	–	–

## 2.7 Financial instruments

### Financial instruments by category

(In BRL)		
Particulars	As at December 31	
	2024	2023
Assets		
Cash and cash equivalents (Refer to Note 2.4)	83,977,595	60,158,858
Trade receivables (Refer to Note 2.3)	43,469,518	50,761,135

Particulars	As at December 31	
	2024	2023
Loans (Refer to Note 2.5)	999,450	826,703
Other financial assets (Refer to Note 2.2)	26,899,037	22,655,778
Total	155,345,600	134,402,474
Liabilities		
Trade payables (Refer to Note 2.10)	5,219,684	4,136,756
Other financial liabilities (Refer to Note 2.11)	41,833,835	38,466,889
Total	47,053,519	42,603,645

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximate their fair value.

### Financial risk management

#### Financial risk factors

The Company's activities expose it to a variety of financial risks – market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

#### Market risk

The Company operates globally and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in other countries and purchases from overseas suppliers in various foreign currencies.

The foreign currency risk from monetary assets and liabilities as at December 31, 2024 is as follows:

(In BRL)						
Particulars	US Dollars	Euro	UK Pound Sterling	Swiss Francs	Other currencies	Total
Net financial assets	33,043,416	8,229,066	(9,836)	4,774,833	(35,185)	46,002,294
Net financial liabilities	(929,856)	(24,617,995)	–	–	253,206	(25,294,645)
Net assets / (liabilities)	32,113,560	(16,388,929)	(9,836)	4,774,833	218,021	20,707,649

The foreign currency risk from monetary assets and liabilities as at December 31, 2023 was as follows:

(In BRL)						
Particulars	US Dollars	Euro	UK Pound Sterling	Swiss Francs	Other currencies	Total
Net financial assets	25,324,128	6,346,272	(9,836)	4,319,883	(46,773)	35,933,674
Net financial liabilities	(416,561)	(18,408,015)	–	–	(631,797)	(19,456,373)
Net assets / (liabilities)	24,907,567	(12,061,743)	(9,836)	4,319,883	(678,570)	16,477,301

## Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to BRL 43,469,518 and BRL 50,761,135 as of December 31, 2024 and December 31, 2023, respectively, and unbilled revenue amounting to BRL 10,778,890 and BRL 9,309,972 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. As per Ind AS 109, the Company uses ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account the available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

## Credit risk exposure

Provision of BRL (92,548) and BRL (64,989) for ECL on customer balances was done for the year ended December 31, 2024 and December 31, 2023, respectively.

(In BRL)

Particulars	Year ended December 31,	
	2024	2023
Balance at the beginning	3,253,544	3,318,533
Impairment loss recognized / reversed	(92,548)	(64,989)
Amounts written off	–	–
Translation differences	–	–
Balance at the end	3,160,996	3,253,544

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by international and domestic credit rating agencies.

## Liquidity risk

The Company's principal source of liquidity are cash and cash equivalents.

As of December 31, 2024 and December 31, 2023, the Company had cash and cash equivalents of BRL 83,977,595 and BRL 60,158,858, respectively.

As of December 31, 2024 and December 31, 2023, the outstanding compensated absences were BRL 13,000,857 and BRL 13,753,618, respectively.

## 2.8 Leases

The weighted average incremental borrowing rate applied to lease liabilities as at January 1, 2024 is 10.4%.

The changes in the carrying value of ROU assets for the year ended December 31, 2024 are as follows:

(In BRL)

Particulars	Category of ROU asset			Total
	Buildings	Vehicles	Computer equipment	
Balance as of January 1, 2024	6,364,547	1,748,912	7,265,468	15,378,927
Modifications / Additions	737,192	2,090,639	11,750,514	14,578,344
Deletion	–	(26,515)	(4,656,991)	(4,683,506)
Depreciation	(1,928,153)	(1,012,907)	(5,300,003)	(8,241,063)
Balance as of December 31, 2024	5,173,585	2,800,129	9,058,989	17,032,703

The changes in the carrying value of ROU assets for the year ended December 31, 2023 were as follows:

(In BRL)

Particulars	Category of ROU asset			Total
	Buildings	Vehicles	Computer equipment	
Balance as of January 1, 2023	7,003,121	2,028,169	4,473,502	13,504,792
Additions	1,235,950	1,152,020	13,983,910	16,371,880
Deletion	–	(126,247)	(5,645,467)	(5,771,714)
Depreciation	(1,874,524)	(1,305,030)	(5,546,477)	(8,726,031)
Balance as of December 31, 2023	6,364,547	1,748,912	7,265,468	15,378,927

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The break-up of current and non-current lease liabilities as at December 31, 2024 and December 31, 2023, is as follows:

Particulars	(In BRL)	
	As at December 31,	
	2024	2023
Current lease liabilities	11,687,278	9,798,900
Non-current lease liabilities	15,629,966	15,776,111
Total	27,317,244	25,575,011

The movement in lease liabilities during the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	(In BRL)	
	For the year ended December 31,	
	2024	2023
Balance at the beginning	25,575,011	15,954,130
Additions	12,043,174	16,117,545
Deletions	(26,515)	(129,284)
Finance cost accrued during the period	3,508,965	3,930,838
Payment of lease liabilities	(13,185,374)	(11,604,046)
Gain / Loss on lease	(76)	(5,910)
Translation difference	(597,941)	1,311,738
Balance at the end	27,317,244	25,575,011

The details regarding the contractual maturities of lease liabilities as at December 31, 2024 and December 31, 2023 on an undiscounted basis are as follows:

Particulars	(In BRL)	
	As at December 31,	
	2024	2023
Less than one year	11,687,278	9,798,900
One to five years	23,680,112	24,027,757
More than five years	—	—
Total	35,367,390	33,826,657

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Rental expense recorded for short-term leases is Nil for the years ended December 31, 2024 and December 31, 2023.

## 2.9 Equity

### Equity share capital

Particulars	(In BRL), except as otherwise stated	
	As at December 31,	
	2024	2023
Authorized		
275,071,070 (275,071,070) equity shares of BRL1/- par value, fully paid	275,071,070	275,071,070
Issued, subscribed and paid-up		
275,071,070 (275,071,070) equity shares of BRL1/- par value, fully paid	275,071,070	275,071,070
(Of the above, 275,071,070 equity shares are held by the holding company, Infosys Limited as at December 31, 2024)		
	275,071,070	275,071,070

The details of shareholders holding more than 5% shares as at December 31, 2024 and December 31, 2023 are as follows:

(In BRL, except as otherwise stated)

Name of the shareholder	As at December 31, 2024		As at December 31, 2023	
	Number of shares	% held	Number of shares	% held
Infosys Limited	275,071,070	100	275,071,070	100

The reconciliation of the number of shares outstanding and the amount of share capital as at December 31, 2024 and December 31, 2023 is as follows:

(In BRL, except as stated otherwise)

Particulars	As at December 31, 2024		As at December 31, 2023	
	Number of shares	Amount	Number of shares	Amount
Number of shares at the beginning of the period	275,071,070	275,071,070	275,071,070	275,071,070
Issue of shares during the year	–	–	–	–
Number of shares at the end of the period	275,071,070	275,071,070	275,071,070	275,071,070

## 2.10 Trade payables

(In BRL)

Particulars	As at December 31,	
	2024	2023
Trade payables*	5,219,684	4,136,756
Total trade payables	5,219,684	4,136,756
*Includes dues to related parties (Refer to Note 2.18)	1,008,499	518,728

Years ended December 31, 2024 and December 31, 2023

(In BRL)

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Others	962,407	1,962,520	154,224	2,140,532	–	5,219,684
	467,830	1,528,393	2,140,532	–	–	4,136,756
Total trade payables	962,407	1,962,520	154,224	2,140,532	–	5,219,684
	467,830	1,528,393	2,140,532	–	–	4,136,756

## 2.11 Other financial liabilities

(In BRL)

Particulars	As at December 31,	
	2024	2023
Current		
Others		
Accrued compensation to employees*	1,381,390	2,217,314
Accrued expenses <sup>(1)*</sup>	15,871,872	19,887,021
Compensated absences	13,000,857	13,753,618
Other payables <sup>(2) *</sup>	24,580,573	16,362,554
Total current other financial liabilities	54,834,693	52,220,507
* Financial liability carried at amortized cost	41,833,835	38,466,889

<sup>(2)</sup> Includes dues to related parties (Refer to Note 2.18)	28,367,726	15,565,664

## 2.12 Other current liabilities

(In BRL)		
Particulars	As at December 31,	
	2024	2023
Non-current		
Current		
Unearned revenue	7,326,808	7,720,276
Others		
Withholding taxes and others	26,975,210	22,344,002
Total other current liabilities	34,302,018	30,064,278

## 2.13 Provisions

(In BRL)		
Particulars	As at December 31,	
	2024	2023
Current		
Others		
Post-sales customer support	160,384	226,341
Total current provisions	160,384	226,341

## 2.14 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In BRL)		
Particulars	Year ended December 31,	
	2024	2023
Current taxes	4,352,082	1,741,294
Deferred taxes	(12,077,354)	–
Prior period tax	(387,764)	(100,124)
Income tax expense	(8,113,036)	1,641,170

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

(In BRL)		
Particulars	Year ended December 31,	
	2024	2023
Profit / (loss) before income tax	20,227,479	18,401,217
Enacted tax rates in Brazil (%)	34.00%	34.00%
Computed expected tax expense	6,877,343	6,256,414
Tax reversals, overseas and domestic	(387,764)	(100,124)
Effect of unrecognized deferred tax assets	(14,635,414)	(4,437,133)
Effect of non-deductible expenses	32,799	9,520
Others	–	(87,507)
Income tax expense	(8,113,036)	1,641,170

Income tax expense for the years ended December 31, 2024 and December 31, 2023 includes provisions (net of reversals) amounting to BRL (8,113,035) and BRL 1,641,170, respectively. These reversals pertaining to prior periods are primarily on account of filing of tax return.

The applicable Brazil statutory tax rate for years ended December 31, 2024 and December 31, 2023 is 34%.

The details of income tax assets and income tax liabilities are as follows:

(In BRL)		
Particulars	Year ended December 31,	
	2024	2023
Income tax assets	24,888,795	15,417,910
Current income tax liabilities	(4,352,082)	(1,741,294)
Net current income tax assets / (liability) at the end	20,536,713	13,676,616

The gross movement in the current income tax asset / (liability) is as follows:

(In BRL)		
Particulars	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	13,676,616	1,708,519
Income tax paid / (set off)	4,753,883	2,620,230
Forex	125,230	(100,115)
Movement due to Customer WHT	5,945,302	11,089,152
Current income tax expense	(3,964,318)	(1,641,170)
Net current income tax asset / (liability) at the end	20,536,713	13,676,616

## 2.15 Revenue from operations

Revenue from operations for the years ended December 31, 2024 and December 31, 2023 is as follows:

(In BRL)		
Particulars	Year ended December 31,	
	2024	2023
Revenue from software services	239,875,680	252,990,054
Total revenue from operations	239,875,680	252,990,054

## Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time-and-material contracts are recognized as related services are performed. Revenue for fixed-price maintenance contracts is recognized on a straight-line basis over the period of the contract. Revenue in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed-price development contracts is based on the percentage-of-completion method. Invoicing to the customers is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different

from the timing of billing the customers. Unbilled revenue for fixed-price development contracts (contract asset) is classified as non-financial asset as the contractual right to consideration is dependent on the completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the years ended December 31, 2024 and December 31, 2023, the Company recognized revenue of BRL 2,165,497 and BRL 6,053,111 arising from opening unearned revenue of BRL 7,720,275 and BRL 10,089,958 as of January 1, 2024 and January 1, 2023, respectively.

During the years ended December 31, 2024 and December 31, 2023, BRL 3,067,488 and BRL 7,506,073 of unbilled revenue pertaining to fixed-price development contracts of BRL 4,840,947 and BRL 10,313,465 as of January 1, 2024 and January 1, 2023, respectively, has been reclassified to trade receivables upon billing to customers on the completion of milestones.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is BRL 73.28 million. Out of this, the Company expects to recognize revenue of 41.80% within the next one year and the remaining thereafter. This includes contracts that can be terminated for convenience without a substantive penalty since, based on current assessment, the occurrence of the same is expected to be remote.

## 2.16 Other income

(In BRL)

Particulars	Year ended December 31,	
	2024	2023
Interest received on financial assets carried at amortized cost		
Deposits with banks and others	4,400,650	4,108,560
Interest received on fair valued financial assets through other comprehensive income		
Exchange gains / (losses) on translation of other assets and liabilities	(6,066,246)	(1,645,427)
Miscellaneous income, net	1,066,864	2,985,120
Total other income	(598,732)	5,448,253

## 2.17 Expenses

(In BRL)

Particulars	Year ended December 31,	
	2024	2023
Employee benefit expenses		
Salaries including bonus	153,840,667	177,519,325
Share-based payments to employees	397,819	228,387
Staff welfare	175,864	188,849
Total employee benefit expenses	154,414,350	177,936,561

(In BRL)

Particulars	Year ended December 31,	
	2024	2023
Other expenses		
Power and fuel	43,919	31,729
Brand and marketing	323,584	352,096
Rates and taxes	3,571,823	5,124,110

## 2.19 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	As at December 31,		Variance
			2024	2023	
Current ratio	Current assets	Current liabilities	1.6	1.5	5.1%
Debt-equity ratio	Total debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's equity	0.26	0.33	(7.0%)
Debt service coverage ratio	Earnings available for debt service <sup>(2)</sup>	Debt service <sup>(3)</sup>	3.3	3.0	10.5%
Return on Equity (ROE)	Net profit after taxes	Average shareholder's equity	30.6%	23.9%	6.7%
Trade receivables turnover ratio	Revenue	Average trade receivable	5.1	5.3	(3.5%)
Trade payables turnover ratio	Purchases of services and other expenses	Average trade payables	10.5	3.9	171.9%*
Net capital turnover ratio	Revenue	Working capital	3.6	4.8	(24.7%)
Net profit ratio	Net profit	Revenue	11.8%	6.6%	5.2%
Return On Capital Employed (ROCE)	Earning before interest and taxes	Capital employed <sup>(4)</sup>	17.8%	22.9%	(5.1%)

<sup>(1)</sup> Debt represents only lease liabilities.

<sup>(2)</sup> Net profit after taxes + non-cash operating expenses + interest + other adjustments like loss on sale of fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + lease liabilities

\* Due to decrease in average trade payables on account of payment to vendors

## **2.20 Segment reporting**

The Company is engaged in providing consultancy service in a single geography. Based on the 'Management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

# Independent Auditor's Report

To the Members of Infosys Romania S.R.L.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Romania S.R.L. ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Romania S.R.L. (formerly Infosys Consulting S.R.L.) (registered in Romania) became a wholly-owned subsidiary of Infosys Limited w.e.f 01<sup>st</sup> February 2019. The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the Ultimate Holding Company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Romanian Lei (RON).

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period, and actual results could differ from those estimates. Appropriate changes in estimates are made as Management becomes aware of changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which they are made, and if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 T&M

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Licenses

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of a standalone selling price for implementation, the performance obligation is estimated using the expected cost-plus margin approach. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

#### 1.5.3 Volume Discounts

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts / incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

#### 1.5.4 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

### 1.5.5 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

### 1.6 Provisions

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.7 Post-sales client support

The Company provides its clients with a fixed-period post-sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in the cost of sales. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

### 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

### 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Plant and Machinery	5 years
Office Equipment	5 years
Computer equipment	3-5 years
Furniture and fixtures	5 years
Leasehold Improvements	Over the lease tenure

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified

as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

### 1.10 Financial instruments

#### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.10.2 Subsequent measurement

##### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 1.11 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

### 1.12 Impairment

#### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets, which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, they are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

#### b. Non-financial assets

##### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

### 1.13 Employee Benefits

#### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

### 1.14 Foreign currency

#### Functional currency

The functional currency of the Company is the Romanian Lei. These financial statements are presented in its functional currency.

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.15 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

## 1.16 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

## 1.17 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

## 1.18 Other Income

Other income is comprised primarily of interest income, dividend income and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

## 1.19 Leases

### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows."

## 2.1 Property, plant and equipment

The changes in the carrying value of Property, plant and equipment for the year ended December 31, 2024, are as follows:

(In RON)						
Particulars	Plant and machinery	Office Equipment	Computer equipment	Furniture and fixtures	Leasehold Improvements	Total
Gross carrying value as at January 1, 2024	84,053	1,779,182	12,312,029	6,585,179	12,266,642	33,027,085
Other Adjustments	–	–	(1,716,869)	(151,915)	–	(1,868,784)

Total current other assets	14,224,241	14,040,886

## 2.7 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

Particulars	(In RON)	
	As at December 31	
	2024	2023
Assets		
Cash and cash equivalents (Refer to Note No.2.5)	42,750,572	26,763,718
Trade receivables (Refer to Note 2.4)	20,727,362	26,928,745
Loans (Refer to Note 2.2)	–	186
Other financial assets (Refer to Note 2.3)	30,672,740	21,105,662
Total	94,150,674	74,798,311
Liabilities		
Trade payables (Refer to Note 2.10)	7,289,741	6,222,341
Lease Liability (Refer to Note 2.13)	15,524,094	12,309,625
Other financial liabilities (Refer to Note 2.9)	12,558,678	17,687,708
Total	35,372,513	36,219,673

All the above financial assets and financial liabilities are carried at amortized cost and the carrying values approximates their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

The Company operates internationally, and a major portion of the business is transacted in several currencies and consequently, the Company is exposed to foreign exchange risk through its sales and services and purchases from overseas suppliers in various foreign currencies. The exchange rate between the Romanian leu and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the Romanian leu appreciates/ depreciates against these currencies.

The following table analyses the foreign currency risk from financial assets and liabilities as at December 31, 2024:

(In RON)				
Particulars	U.S. dollars	EUR	Others	Total
Net financial assets	1,377,757	52,667,957	1,392	54,047,106
Net financial liabilities	(6,550,061)	(37,835,210)	(241,599)	(44,626,870)
Total	(5,172,304)	14,832,747	(240,207)	9,420,236

The following table analyses the foreign currency risk from financial assets and liabilities as at December 31, 2023:

(In RON)				
Particulars	U.S. dollars	EUR	Others	Total
Net financial assets	1,332,377	50,933,213	1,346	52,266,936
Net financial liabilities	(6,334,319)	(36,589,018)	(233,642)	(43,156,978)
Total	(5,001,941)	14,344,195	(232,296)	9,109,958

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to RON 20,727,362 and 26,928,745 as of December 31, 2024 and December 31, 2023, respectively and unbilled revenue amounting to RON 6,182,853 and 5,319,650 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of the adoption of Ind AS 109, the Company uses the ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from credit rating agencies and the Company's historical experience for customers.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of December 31, 2024, the Company had a working capital of RON 67,554,924, including cash and cash equivalents of RON 42,750,572. As of December 31, 2023, the Company had a working capital of RON 43,214,330, including cash and cash equivalents of RON 26,763,718.

As of December 31, 2024, and December 31, 2023, the outstanding compensated balances were RON 6,355,099 and RON 5,065,244 respectively.

## 2.8 Equity

### Equity share capital

(In RON, except as stated otherwise)		
Particulars	As at December 31,	
	2024	2023
Authorized		
99,183 (99,183) equity shares of RON 100 par value, fully paid	9,918,300	9,918,300
Issued, subscribed and paid up		
99,183 (99,183) equity shares of RON 100 par value, fully paid	9,918,300	9,918,300
	9,918,300	9,918,300

The details of shareholders holding more than 5% shares are as follows :

Name of the shareholder	As at December 31, 2024		As at December 31, 2023	
	Number of shares	% held	Number of shares	% held
Infosys Limited	99,183	100.00	99,183	100.00

The reconciliation of the number of shares outstanding and the amount of share capital as at December 31, 2024, and December 31, 2023, is as follows :

Particulars	As at December 31, 2024		As at December 31, 2023	
	Number of shares	Amount	Number of shares	Amount
Number of shares at the beginning of the period	99,183	9,918,300	99,183	9,918,300
Number of shares at the end of the period	99,183	9,918,300	99,183	9,918,300

## 2.9 Other financial liabilities

Particulars	As at December 31,	
	2024	2023
Current		
Others		
Accrued compensation to employees <sup>(1)</sup>	7,129,016	4,415,471
Accrued expenses <sup>(1) (2)</sup>	1,702,318	2,404,489
Compensated absences	6,355,099	5,065,244
Other payables <sup>(1)(3)</sup>	3,727,344	10,867,748
	18,913,777	22,752,952
Non-Current		
Financial Liability under revenue deals	22,63,191	1,522,909
Accrued compensation to employees	197,129	–
	2,460,320	1,522,909
Total financial liabilities	21,734,097	24,275,861
<sup>(1)</sup> Financial liability carried at amortized cost	12,558,678	17,687,708
<sup>(2)</sup> Includes dues to related parties (Refer to Note 2.17)	1,702,318	855,748
<sup>(3)</sup> Includes dues to related parties (Refer to Note 2.17)	1,715,105	7,458,729

## 2.10 Trade payables

Particulars	As at December 31,	
	2024	2023
Trade payables <sup>(1)</sup>	7,289,741	6,222,341
	7,289,741	6,222,341
<sup>(1)</sup> Includes dues to related parties (Refer to Note 2.17)	7,113,037	6,222,341

## Trade payables ageing schedule

Year ended December 31, 2024, and December 31, 2023

(In RON)						
Particulars	Outstanding for following periods from due date of payment					Total
	Not Due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Others	1,104,133	6,185,608		–	–	7,289,741
	829,251	5,393,090	–	–	–	6,222,341
Total trade payables	1,104,133	6,185,608	–	–	–	7,289,741
	829,251	5,393,090	–	–	–	6,222,341

## 2.11 Other liabilities

(In RON)		
Particulars	As at December 31,	
	2024	2023
Current		
Unearned revenue	2,668,272	3,366,554
Others		
Withholding taxes and others	3,318,537	4,275,988
	5,986,809	7,642,542

## 2.12 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In RON)		
Particulars	Year ended December 31,	
	2024	2023
Current taxes	2,567,672	1,011,675
Deferred taxes	(587,664)	932,199
Income tax expense	1,980,008	1,943,873

Current tax expense for the years ended December 31, 2024, and December 31, 2023, includes Income tax cost (net of provisions) amounting to RON (312,443) and RON (1,606,162) respectively, pertaining to prior periods.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

(In RON)		
Particulars	Year ended December 31,	
	2024	2023
Profit before income tax	14,955,969	18,174,588
Enacted tax rates in Romania (%)	16.00%	16.00%
Computed expected tax expense	2,392,955	2,907,934
Tax reversals, overseas and domestic - Prior year	(312,443)	(1,606,162)
Effect of unrecognized deferred tax assets	–	1,153,522
Effect of non-deductible expenses	24,518	(22,831)
Overseas/PE Taxes	1,478	11,405
Others	(126,500)	(499,996)
Income tax expense	1,980,008	1,943,873

The applicable Romanian statutory tax rate for the year ended December 31, 2024, and December 31, 2023, is 16%.

The details of income tax assets and income tax liabilities are as follows :

Particulars	(In RON)	
	As at December 31	
	2024	2023
Current income tax liabilities	1,491,609	263,678
Net current income tax assets / (liability) at the end	(1,491,609)	(263,678)

The gross movement in the current income tax asset / (liability) is as follows:

Particulars	(In RON)	
	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	(263,678)	(1,767,747)
Income tax paid	1,339,741	2,515,744
Current income tax expense	(2,567,672)	(1,011,675)
Net current income tax asset / (liability) at the end	(1,491,609)	(263,678)

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

Particulars	(In RON)	
	As at December 31,	
	2024	2023
Deferred income tax assets		
Accrued compensation to employees	1,016,816	810,439
Compensated absences	1,025,578	644,290
Total Deferred income tax assets	2,042,394	1,454,729

## 2.13 Leases

The changes in the carrying value of right of use assets for the year ended December 31, 2024 are as follows:

Particulars	(In RON)			
	Category of ROU asset			
	Computer	Buildings	Vehicles	Total
Balance as of January 1, 2024	922,577	7,312,008	–	8,234,585
Additions, Net	2,078,930	–	–	2,078,930
Deletion	–	–	–	–
Depreciation	(531,929)	(3,992,275)	–	(4,524,204)
Balance as of December 31, 2024	2,469,578	3,319,733	–	5,789,311

The changes in the carrying value of right-of-use assets for the year ended December 31, 2023 are as follows:

Particulars	(In RON)			
	Category of ROU asset			
	Computer	Buildings	Vehicles	Total
Balance as of January 1, 2023	3,097,366	11,296,987	10,170	14,404,523
Additions	–	–	–	–
Deletion	(1,613,076)	–	–	(1,613,076)
Depreciation	(561,713)	(3,984,979)	(10,170)	(4,556,862)
Balance as of December 31, 2023	922,577	7,312,008	–	8,234,585

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at:

Particulars	(In RON)	
	As at December 31,	
	2024	2023
Current lease liabilities	4,947,016	4,781,828
Non-current lease liabilities	10,577,078	7,527,796
Total	15,524,094	12,309,625

The following is the movement in lease liabilities during the year ended:

Particulars	(In RON)	
	As at December 31,	
	2024	2023
Balance at the beginning	12,309,625	16,531,192
Additions	508,968	–
Modifications	5,740,710	–
Deletions	(173,813)	–
Finance cost accrued during the period	145,786	129,397
Payment of lease liabilities	(3,008,028)	(4,807,606)
Translation Difference	846	456,642
Balance at the end	15,524,094	12,309,625

The table below provides details regarding the contractual maturities of lease liabilities as at December 31, 2024, and December 31, 2023, on an undiscounted basis:

Particulars	(In RON)	
	As at December 31,	
	2024	2023
Less than one year	4,947,016	3,909,999
One to five years	10,577,078	11,421,142
More than five years	–	–
Total	15,524,094	15,331,141

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Rental expense recorded for short-term leases was RON 3,437,545 for the year ended December 31, 2024.

## 2.14 Revenue from operations

Particulars	(In RON)	
	Year ended December 31,	
	2024	2023
Income from consultancy services	219,905,046	214,355,603
	219,905,046	214,355,603

### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed-price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024, and December 31, 2023, the Company recognized revenue of RON 567,905 and RON 193,558 arising from opening unearned revenue as of January 1, 2023, and January 1, 2022, respectively.

During the years ended December 31, 2024, and December 31, 2023, RON NIL and RON 62,061 of unbilled revenue pertaining to other fixed-price and fixed-time-frame contracts as of January 1, 2023, and January 1, 2022, respectively, have been reclassified to Trade receivables upon billing to customers on completion of milestones.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that has not materialized, and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is RON 23,890,000. Out of this, the Company expects to recognize revenue of around 51.0% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023, is RON 31,274,833. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

### 2.15 Other income

(In RON)

Particulars	Year ended December 31,	
	2024	2023
Miscellaneous income, net	2,772,793	3,522,824
	2,772,793	3,522,824

## 2.18 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108 Segment Reporting.

## 2.19 Ratios

The ratios for the years ended Dec 31, 2024 and Dec 31, 2023 are as follows:

Particulars	Numerator	Denominator	December 31, 2024	December 31, 2023	Variance
Current Ratio	Current assets	Current liabilities	2.7	2.1	32.6%*
Debt – Equity Ratio	Total Debt (represents lease liabilities) (1)	Shareholder's Equity	0.2	0.2	1.6%
Debt Service Coverage Ratio	Earnings available for debt service(2)	Debt Service(3)	7.1	5.6	26.3%**
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	21.5%	35.5%	(14.0%)
Trade receivables turnover ratio	Revenue	Average Trade Receivable	9.2	7.8	18.3%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	4.4	8.6	(48.3%)*
Net capital turnover ratio	Revenue	Working Capital	3.3	4.8	(32.1%)##
Net profit ratio	Net Profit	Revenue	6.8%	8.5%	(1.7%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed(4)	18.5%	27.4%	(9.0%)

<sup>(1)</sup>Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

\* Current ratio has increased mainly as a result of increase in current asset (Cash & Cash Equivalents).

\*\* Debt Service Coverage ratio has increased as a result of decrease in earnings for the year.

# Trade payable turnover ratio has increased as a result of decrease in average trade payables in current year.

## NET capital turnover ratio has decreased as a result of increase in working capital.

HIPUS Co., Ltd

# Independent Auditor's Report

To the Members of HIPUS Co., LTD

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of HIPUS Co., Ltd ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Notes to the financial statement

## Company overview

HIPUS Co., Ltd is a majority-owned subsidiary of Infosys Consulting Pte Ltd. The Company renders procurement outsourcing services to customers, thereby enabling clients to enhance business performance.

## 1 Material accounting policies

### 1.1 Accounting year

The Accounting year for the company is from April 1 to March 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the holding company, Infosys Limited, under the requirements of Section 129 (3) of the Companies Act 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendments rules issued thereafter.

### 1.3 Presentation currency

The Company's presentation currency is Japanese Yen (¥ or JPY)

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the accounting policies and reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of percentage of completion which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts to be expended, impairment losses on financial assets, income taxes, post-sales customer support, and the useful lives of property, plant, and equipment and intangible assets.

### 1.5 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured as the value of the consideration received or receivable, excluding discounts, value-added tax and other sales taxes.

Arrangements with customers for services are either on a fixed-price, fixed-timeframe or on a transactional basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time, and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

### 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.7 Property, plant, and equipment

Property, plant, and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Asset	Life of asset
Furniture and fixture	5 years
Building	8 - 12 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software, and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labor, overhead costs that are directly attributable to preparing the asset for its intended use.

### 1.9 Leased assets

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) The contract involves the use of an identified asset (ii) The Company has substantially all of the economic benefits

from use of the asset through the period of the lease and (iii) The Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 1.10 Financial instruments

### 1.11.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.11.2 Subsequent measurement

#### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

##### (ii) Financial assets at fair value through other comprehensive income

The financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal amount.

##### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair-valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.11 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.12 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair-valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

## **b. Non-financial assets**

### **(i) Property, plant, and equipment**

Property, plant, and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in previous years.

### **1.13 Employee Benefits**

#### **Provision for retirement benefits**

Provided for payment of retirement benefits to employees, in the amount deemed accrued at the fiscal year-end, based on the projected retirement benefit obligation at the fiscal year-end. (Equals the benefits payable for voluntary retirements at the current year based on simplified method)

#### **Provision for director bonus and employee bonus**

Recognized based on the estimated payment amount for bonus to directors and employees

### **1.14 Income taxes**

Income tax is computed based on the consolidated tax system.

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### **1.15 Cash flow statement**

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### **1.16 Earning per share**

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

Balance as at April 1, 2024	347	347
Additions	312	312
Deletion	–	–
Depreciation	(197)	(197)
Balance as at March 31, 2025	462	462

Following are the changes in the carrying value of right of use assets for the year-ended March 31, 2024, are as follows:

(In ¥ million)		
Particulars	Category of ROU asset	Total
	Buildings	
Balance as at April 1, 2023	487	487
Additions	11	11
Deletion	(3)	(3)
Depreciation	(148)	(148)
Balance as at March 31, 2024	347	347

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The Following is the break-up of current and non-current lease liabilities as at March 31, 2025 and March 31, 2024, are as follows:

(In ¥ million)		
Particulars	As at March 31,	
	2025	2024
Current lease liabilities	262	148
Non-current lease liabilities	194	199
Total	456	347

The following is the movement in lease liabilities during the years ended March 31, 2025 and March 31, 2024, are as follows:

(In ¥ million)		
Particulars	For the years ended March 31,	
	2025	2024
Balance at the beginning	347	487
Additions	311	11
Finance cost accrued during the period	–	–
Deletions	–	(3)
Payment of lease liabilities	(202)	(148)
Balance at the end	456	347

The table below provides details regarding the contractual maturities of lease liabilities as at March 31, 2025 and March 31, 2024, on an undiscounted basis, are as follows:

(In ¥ million)		
Particulars	As at March 31,	
	2025	2024
Less than one year	258	148
One to five years	194	199
More than five years	–	–
Total	452	347

The Company does not face a significant liquidity risk with regard to its lease liabilities, as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## Note 3: Equity share capital

(In ¥ million)		
Particulars	For the years ended March 31,	
	2025	2024
Authorized		
Equity shares, JPY 500,000 par value

(In ₹ million)						
Particulars	Not Due	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Trade Payables	22,125	–	–	–	–	22,125

Refer to Note 22 for related party balances.

## Note 12: Other liabilities

(In ₹ million)		
Particulars	As at March 31,	
	2025	2024
Provision for dividend distribution tax	–	–
Others	540	442
	540	442

## Note 13: Revenue from operations

(In ₹ million)		
Particulars	For the years ended March 31,	
	2025	2024
Revenue from services	6,863	6,328
	6,863	6,328

### Trade receivables

The Company classifies the right to consideration in exchange for deliverables as a receivable. Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides with the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts, where invoicing is on time and material basis. The remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2025, other than those meeting the exclusion criteria mentioned above, is ₹ nil. Out of this, the Group expects to recognize revenue of around 100% within the next one year and the remaining thereafter. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them.

The impact on account of applying the erstwhile Ind AS 18, Revenue Standard, instead of Ind AS 115, Revenue from Contract with Customers, on the financials results of the Group for the year ended March 31, 2025, is insignificant.

## Note 14: Other income

(In ¥ million)

Particulars	For the years ended March 31,	
	2025	2024
Interest income	95	83
Miscellaneous income (net)	1	1
	96	84

## Note 15: Employee benefits expense

Other financial liabilities	10	526	–	–	526	–	–	–	–
Total financial liabilities		22,998	–	–	22,998	–	–	–	

### Notes:

The carrying value of all the items in the table above have been classified as amortized cost. Amortized cost is deemed to be the carrying value.

## Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## Note 20: Financial risk management

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables and financial guarantee contracts. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include investments, loans, trade and other receivables, cash and cash equivalents and other bank balances that derive directly from its operations.

The Company's activities expose it to market risk, credit risk and liquidity risk.

### (a) Risk management framework

The Company's risk management is carried out by the Management under the policies approved by the Board of Directors that help in identification, measurement, mitigation and reporting all risks associated with the activities of the Company. These risks are identified on a continuous basis and assessed for the impact on the financial performance. The Board of Directors reviews and agree policies for managing each of these risks, which are summarized below.

### (b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, trade receivables, trade payables, deposits and investments.

#### (i) Foreign Currency Risk

The Company operates primarily in Japan and does not have any foreign currency risk.

#### (ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any debt and hence does not carry any interest rate risk.

### (c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to the credit risk from its trade receivables, unbilled revenue, investments, cash and cash equivalents, bank deposits and loans. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

#### (i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a credit evaluation before entering into an arrangement. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company considers the credit risk with respect to trade receivables as low, since majority of the customers are parties with good reputation and regular in discharging their obligation within the credit period provided by the Company. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information

Expected credit loss for the years ended March 31, 2025 and 2024, is nil.

The following table gives details in respect of percentage of revenues generated from top five customers and top ten customers:

Particulars	(In %)	
	As at 31March 2025	2024
Revenue from top five customers	84.7	86.5
Revenue from top ten customers	91.4	91.8

#### (ii) Financial instrument and cash deposit

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors.

#### (d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Company has unutilized credit limits with banks. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the Senior Management.

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2025.

(In ¥ million)				
Particulars	Less than 1 year	1 to 5 Years	More than 5 years	Total
31-Mar-25				
Trade payables	21,019	–	–	21,019
Other financial liabilities	754	194	–	948
	21,773	194	–	21,967

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2024.

(In ¥ million)				
Particulars	Less than 1 year	1 to 5 Years	More than 5 years	Total
31-Mar-24				
Trade payables	22,125	–	–	22,125
Other financial liabilities	674	199	–	873
	22,799	199	–	22,998

#### Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium, and all other equity reserves attributable to the equity holders with the primary objective to maximize the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt.

#### Note 21: Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In ¥ million)

Salaries and other employee benefits to whole-time directors and executive officers	35	30
Commission and other benefits to non-executive/ independent directors	–	–
Total	35	30

#### Note 23: Segment reporting

The Company is engaged in developing and marketing solutions in a single geography. Its operations are therefore considered to constitute a single segment. Based on the 'management approach', as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment reporting.

## Note 24: Ratios

Particulars	Numerator	Denominator	March 31, 2025	2024	Variance	Reason (If variation is more than 25%)
Current ratio	Current assets	Current liabilities	1.1	1.1	0.8%	
Debt – Equity ratio	Total debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's equity	0.2	0.1	11%	
Debt service coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt service <sup>(3)</sup>	4.3	5.2	(16.8%)	
Return on equity (ROE)	Net Profits after taxes	Average shareholder's equity	22%	23%	(8%)	
Trade receivables turnover ratio	Revenue	Average trade receivable	0.1	0.1	10.8%	
Trade payables turnover ratio	Net credit purchases	Average trade payables	0.0	0.0	7.2%	
Net capital turnover ratio	Revenue	Average working capital	0.8	0.9	(12.8%)	
Net profit ratio	Net profit	Net sales	9%	9%	0.0%	
Return on capital employed	EBIT	capital employed <sup>(4)</sup>	32%	35%	(3%)	

<sup>(1)</sup> Debt represents only lease liabilities.

<sup>(2)</sup> Earnings available for debt service represents net profit after taxes + non-cash operating expenses + finance cost.

<sup>(3)</sup> Lease payments for the current year.

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + lease liabilities.

## Kaleidoscope Animations, Inc.

# Independent Auditor's Report

To Those Charged with Governance of Kaleidoscope Animations, Inc.

## Opinion

We have audited the consolidated financial statements of Kaleidoscope Animations, Inc. and subsidiary (the "Company"), which comprise the consolidated balance sheets as of December 31, 2024 and 2023, and the related consolidated statements of income and comprehensive income, changes in stockholder's equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Deloitte & Touche LLP**

Date: May 27, 2025

# Notes to consolidated financial statements

## 1. Basis of presentation and summary of significant accounting policies

### General information

Kaleidoscope Animations, Inc. ("Animations" or the "Company") is a full-service insights, design, and development firm innovating across medical, consumer, and industrial markets.

These consolidated financial statements include the accounts of its wholly owned subsidiary Kaleidoscope Prototyping ("Prototyping"), which manufacturers prototypes based on specifications requested by customers. All intercompany transactions have been eliminated. Animations and Prototyping are headquartered in Cincinnati, Ohio, with customer bases concentrated in southwest Ohio.

On October 31, 2023, Prototyping was dissolved into Animations.

On October 9, 2020, Animations was purchased by Infosys Nova Holdings, LLC. However, Animations elected not to apply push-down accounting. Accordingly, the consolidated financial statements are presented at the Company's historical carrying amounts.

### Basis of accounting

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) using the accrual method of accounting.

### Accounting Principles Adopted

The Company did not adopt any new accounting pronouncements during the year ended December 31, 2024.

### Pending Accounting Pronouncements

In December of 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-09, Improvements to Income Tax Disclosures. This ASU improves the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. This ASU is effective for annual periods beginning after December 15, 2025 for private companies. Early adoption is permitted. The Company is currently evaluating these new disclosure requirements.

### Use of estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

### Cash and cash equivalents

Cash and cash equivalents include cash on hand, amounts on deposit, and a certificate of deposit with an original maturity of less than three months at financial institutions.

### Contract receivables

Contract receivables are stated at their contractual outstanding balances, net of any allowance for doubtful accounts. Accounts are considered past due if any portion of an account has not been paid in full within the contractual terms of the account. Contract receivables are generally based on amounts billed and currently due from customers and amounts currently due but unbilled.

The Company begins to assess its ability to collect receivables that are more than 120 days past due and provides for an adequate allowance for doubtful accounts based on the Company's collection history, the financial stability and recent payment history of the customer, and other pertinent factors such as reasonable and supportable forecasts about collectability. Receivables are written off as uncollectible after the Company has used reasonable collection efforts and deems them uncollectible. Based on these criteria, no allowance for doubtful accounts has been provided at December 31, 2024 and 2023.

There was no bad debt expense for the years ended December 31, 2024 and 2023.

### Property and equipment

Property and equipment are presented at cost less accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, which range from 3 to 15 years for furniture and equipment and software. Leasehold improvements are capitalized and amortized on a straight-line basis over the shorter of the estimated useful life of the improvement or the associated remaining lease term. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in the income statement for the period. The cost of maintenance and repairs is charged to expense as incurred; significant renewals and betterments are capitalized.

### Leases

The Company leases certain buildings and equipment. The determination of whether an arrangement is a lease is made at the lease's inception. Under Accounting Standards Codification (ASC) 842, Leases, a contract is (or contains) a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is defined under the standard as having both the right to obtain substantially all of the economic benefits from use of the asset and the right to direct the use of the asset. Management only reassesses its determination if the terms and conditions of the contract are changed.

Operating leases are included in Operating lease right-of-use assets-net, Short-term operating lease liability, and Operating lease liabilities - net of current portion in the Balance Sheets.

Right-of-use ("ROU") assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. The Company uses the implicit rate when it is readily determinable. For leases that do not provide an implicit rate, the Company adopted the accounting policy election to use the risk-free rate for a term similar to the related lease term. Lease expense for lease payments is recognized on a straight-line basis over the lease term. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise those options.

The Company has lease agreements with lease and non-lease components, which are generally accounted for separately with amounts allocated to the lease and non-lease components based on stand-alone prices.

Certain building lease agreements include provisions for variable rent payments, which relate to real estate taxes paid under two leases. As these amounts vary from year-to-year, these variable costs are expensed as incurred. None of the Company's lease agreements contain any material residual value guarantees.

The Company has elected to recognize payments for short-term leases with a lease term of 12 months or less as expenses as incurred and these leases are not included as lease liabilities or right-of-use assets on the balance sheets.

### **Revenue, cost recognition and contract assets and liabilities**

The Company follows the practical expedient whereby costs incurred to obtain a contract are expensed as incurred as the amortization period is one year or less. All of the Company's revenue is recognized over time as the Company satisfies its performance obligations by performing consulting services, on-site services to customers, or prototyping work. There are no performance obligations satisfied at a point in time.

For contracts based on time and materials, revenue is recorded as the hours are incurred. For fixed rate contracts, the Company recognizes revenue over time as performance obligations progress under statements of work or purchase orders primarily based on labor hours incurred or milestones reached. The revenue earned in a period is based on the ratio of hours incurred to total estimated hours required by the contract, as the Company believes this output method best depicts the transfer of value to the customer. The majority of the projects do not contain variable consideration.

Contracts are billed as work progresses in accordance with agreed-upon contractual terms at periodic intervals or upon achievement of contractual milestones. Billings do not necessarily correlate with revenues recognized under the labor hours output method. The Company records contract assets and contract liabilities to account for these differences in timing.

### **Income taxes**

Provisions for income taxes are based on taxes payable or refundable for the current year and deferred taxes on temporary differences between the amount of taxable income and pretax financial income and between the tax bases of assets and liabilities and their reported amounts in the financial statements. Deferred tax assets and liabilities are included in the consolidated financial statements at currently enacted income tax rates applicable to the period in which the deferred tax assets and liabilities are expected to be realized or settled as prescribed in FASB ASC 740, Income Taxes. As changes in the tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

In assessing the realizability of deferred tax assets, management considers the likelihood that some or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of temporary differences and projected future taxable income in making this assessment.

### **Uncertain tax positions**

The Company is required to recognize, measure, classify, and disclose in the consolidated financial statements uncertain tax positions taken or expected to be taken in the Company's tax returns. Management has determined that the Company does not have any uncertain tax positions and associated unrecognized benefits that materially impact the consolidated financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that the Company's tax returns will not be challenged by the taxing authorities and that the Company will not be subject to additional tax, penalties, and interest as a result of such challenge. The Company is no longer subject to income tax examinations for years ended prior to December 31, 2019. The Company's policy with regard to interest and penalty, if incurred, is to recognize interest through interest expense and penalties through Other expenses.

### **Advertising costs**

Advertising is expensed as incurred. Advertising costs for the year ended December 31, 2024, were \$114,531 (2023—\$150,183) and are included in Occupancy and office expenses in the consolidated statements of income and comprehensive income.

### **Impairment of long-lived assets**

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of carrying amount or the fair value less the costs to sell. Management has determined that no impairment exists at December 31, 2024 or 2023.

## Subsequent Events

In preparing these consolidated financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through May 22, 2025, the date the consolidated financial statements were available to be issued.

## 2. Contract receivables and contract liabilities

Contract receivables on the balance sheet consist of the following:

Particulars	(in US\$)	
	As at December 31,	
	2024	2023
Contracts in progress—billed	18,481,362	10,806,460
Contracts in progress—unbilled	581,649	504,124
	19,063,011	11,310,584

The Company's only contract liability is unearned revenue, which represents payments received in advance of services performed. The following table depicts activities for contract liabilities:

(in US\$)				
Balance at December 31, 2022	Refunds issued	Revenue recognized Included in December 31 2022 Balance	Cash received in advance of performance	Balance at December 31, 2023
1,312,072	-	1,312,072	1,190,595	1,190,595

(in US\$)				
Balance at December 31, 2023	Refunds issued	Revenue recognized Included in December 31 2023 Balance	Cash received in advance of performance	Balance at December 31, 2024
1,190,595	-	1,190,595	1,522,320	1,522,320

The Company expects to recognize the balance in unearned revenue as revenue within the next year.

## 3. Property and equipment

At year-end, property and equipment consisted of:

Particulars	(in US\$)	
	As at December 31,	
	2024	2023
Furniture and equipment	3,345,026	2,486,744
Leasehold improvements	36,510	36,510
Software	257,131	257,131
Subtotal	3,638,667	2,780,385
Less accumulated depreciation	(1,996,726)	(1,462,318)
Net book value	1,641,941	1,318,067

Depreciation expense for the years ended December 31, 2024 and 2023 was \$534,408 and \$450,787, for 2024 and 2023, respectively.

## 4. Income taxes

The provision for taxes on income consists of the following:

Particulars	(in US\$)	
	As at December 31,	
	2024	2023
Current tax expense:		
Federal	1,422,116	152,085
State	281,731	30,588
	1,703,847	182,673
Deferred tax expense:		
Federal	69,952	109,691
State	13,324	20,894
	83,276	130,585
Total provision for income taxes	1,787,123	313,258

FASC 740 requires the following disclosure of the Company's total deferred tax assets and liabilities at year-end:

Particulars	(in US\$)	
	2024	2023
Deferred tax asset:		
Accrued expenses	123,858	\$67,432
Lease liabilities	437,664	338,304
Intangibles	1,538,791	1,280,722
	2,100,313	1,686,458
Deferred tax liability:		
Property and equipment—net	(321,948)	(296,392)
ROU assets	(426,255)	(333,414)
Goodwill	(1,438,646)	(1,061,074)
Other current assets	(11,371)	(10,210)
	(2,198,220)	(1,701,090)
Net deferred tax liability	(97,907)	\$(14,632)

There were no valuation allowances for deferred tax assets at December 31, 2024 and 2023. There are no net operating loss carryforwards. The Company's effective income tax rate for the year ended December 31, 2024 and 2023 varied from the U.S. statutory rate of 25% primarily due to additional amortization expense of goodwill and intangibles for tax purposes.

## 5. Concentrations, risks and uncertainties

The Company maintains cash balances at one financial institution. At times, the cash account may exceed federally insured limits of \$250,000. At December 31, 2024, the amount uninsured was \$10,863,225 (2023—\$5,065,475).

The Company generated approximately 80% of its sales from three customers during 2024 (2023—68% from three customers). The top three customers represent 50%, 16%, and 14% of external sales (2023—30%, 26%, and 12%). At December 31, 2024, approximately 78% of Contract receivables are due from three customers (2023—81% from three customers). The top three customers represent 34%, 30%, and 14% of Contract receivables (2023—39%, 30%, and 12%).

## 6. Retirement plan

The Company sponsors a 401(k) retirement plan covering all employees who are 21 years old and have completed at least one year of service based on employment status of at least 1,000 service hours per year. Employees may enter the plan on either January 1, April 1, July 1, or October 1. Participants are vested over a six-year period at 20% per year beginning in year two. There is also a discretionary employer match in which the Company has the discretion to make a matching contribution to the plan in a pro rata formula based on compensation. There was \$237,051 of discretionary contributions expensed in the consolidated statement of income and comprehensive income in cost of revenue and salaries and related expenses on behalf of the Company's employees in 2024 (2023—\$273,390).

## 7. Leasing activities

Other than short-term leases, the Company is a party to five operating leases, with lease terms ranging from two to eight years. The Company leases its corporate headquarters and the buildings in which it operates and also leases equipment for use in its labs.

The following table provides quantitative information concerning the Company's operating leases for the years ended December 31:

Particulars	(in US\$)	
	As at December 31,	
	2024	2023
Lease costs included in occupancy and office expenses:		
Operating lease cost	587,046	546,983
Short-term lease cost		
Variable lease cost	38,540	90,729
Net lease costs	625,586	637,712
Other information:		
Operating lease — operating cash flows (fixed payments)	574,860	511,394
Operating lease — operating cash flows (liability reduction)	522,756	461,619

The following table summarizes the weighted average remaining lease term and discount rate as of December 31:

Particulars	(in US\$)	
	As at December 31,	
	2024	2023
Weighted average lease term — operating leases	3.43 years	4.34 years
Weighted average discount rate — operating leases	4.25 %	4.00 %

Maturities of lease liabilities as of December 31, 2024, were as follows:

(in US\$)	
Particulars	As at December 31, 2024
2025	599,942
2026	483,534
2027	436,588
2028	343,266
2029	
Total lease payments	1,863,330
Less: interest	(112,673)
Present value of lease payments	1,750,657

## 8. Related party transactions

During the year ended December 31, 2024, the Company generated \$35,420,637 (2023—\$13,095,618) of revenue from entities affiliated with Infosys Nova Holdings, LLC. Included in Contract receivables at December 31, 2024 is \$6,519,894 (2023—\$3,397,587) due from Infosys. The Company provided product development, design and engineering services as part of various medical technology and industrial customer solutions.

Related party payables, included in Accounts Payable, due to Infosys were \$1,052,086 at December 31, 2024 (2023—\$171,639).

## 9. Subsequent events

On January 1, 2025, Kaleidoscope Animations, Inc. was merged into Infosys Nova Holdings LLC, with Infosys Nova Holdings LLC. as the surviving entity.

## Portland Group Pty Ltd

# Independent Auditor's Report

To the Members of Portland Group Pty Limited

## Report on the Audit of the Financial Report

### Opinion

We have audited the financial report of Portland Group Pty Limited (the "Company") which comprises the statement of financial position as at 31 March 2025, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- Giving a true and fair view of the Company's financial position as at 31 March 2025 and of its financial performance for the year then ended; and
- Complying with Australian Accounting Standards – Simplified Disclosures and the Corporations Regulations 2001.

### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 31 March 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible:

- For the preparation of the financial report in accordance with the Corporations Act 2001, including giving a true and fair view of the financial position and performance of the Company in accordance with Australian Accounting Standards – Simplified Disclosures; and
- For such internal control as the directors determine is necessary to enable the preparation of the financial report in accordance with the Corporations Act 2001, including giving a true and fair view of the financial position and performance of the Company, and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Parramatta, May 30, 2025

# Directors' report

For the year ended 31 March 2025

The Directors present their report together with the financial report of Portland Group Pty Ltd (the Company), for the financial year ended 31 March 2025 and the auditor's report thereon.

## 1. Directors

The directors of the Company at any time during or since the end of the financial year are:

Mr. Andrew James Jarvis

Mr. Andrew Stewart Groth

Mr. Abhay Harigobind Das Chauhan

Mr. Srikrishna Koneru (appointed on 9 January 2024)

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

## 2. Principal activities

The principal activities of the Company include provision of sourcing and category management service, project based consultancy support and ongoing management services. The Company offers clients' complete procurement and supply chain functions from innovative, high-end strategy to effective, low cost transactional processing and resale of software.

## 3. Operating and financial review

The profit after tax for the year ended 31<sup>st</sup> March 2025 amounted to \$527,205 (2024: \$ 2,040,700). The reduction in profit after tax was primarily a result of decrease in revenue from \$63,506,497 for the year ended 31 March 2024 to \$33,329,372 for the year ended 31 March 2025 on account of a high margin one-time deal of \$37 Million with Westpac Banking Corporation, during the previous year ended 31 March 2024.

## 4. Environmental regulation

The Company's operations are not regulated by any significant environmental regulation under a law of the commonwealth or of a state or territory. However, the Board believes that the Company has adequate systems in place for the management of its environmental requirements, and is not aware of any breach of those environmental requirements as they apply to the Company.

## 5. Events subsequent to reporting date

No matters or circumstances, except as mentioned in note 26 have arisen since the end of the financial year and the date of this report which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

## 6. Likely developments

The Company will continue to pursue its policy of growing its market share and profitability for its major business sectors during the upcoming financial years.

Further information about likely developments in the operations of the Company and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Company.

## 7. Indemnification and insurance of officers and auditors

No indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is or has been an officer or auditor of the Company.

## 8. Lead auditor's independence declaration

The Lead auditor's independence declaration is set out on page 26 and forms part of the directors' report for the financial year ended 31 March 2025.

The Directors are not aware of any other matter or circumstance that has occurred since the end of the financial period that has significantly affected or may affect the operations of the company, the results of those operations or the state of affairs of the company in subsequent financial years.

This report is made with a resolution of the directors:

Andrew Jarvis  
*Director*

Dated at Sydney this 30<sup>th</sup> day of May 2025

# Notes to the financial statements

## 1. Reporting entity

Portland Group Pty Ltd (the “Company”) is a Company domiciled in Australia. The Company’s registered office and principal place of business is Suite 9.01, Level 9, 130 Pitt Street, Sydney NSW 2000, Australia. The parent entity of the Company is Infosys BPM Ltd, India and the ultimate parent is Infosys Ltd, India. The Company is a for-profit entity and primarily is involved in provision of project based consultancy support and ongoing management services to improve the Company’s profitability in the long term.

## 2. Basis of preparation

### (a) Statement of Compliance

The Company does not have ‘public accountability’ as defined in AASB 1053 Application of Tiers of Australian Accounting Standards and is therefore eligible to apply the ‘Tier 2’ reporting framework under Australian Accounting Standards.

The financial statements comply with the recognition and measurement requirements of Australian Accounting Standards, the presentation requirements in those Standards as modified by AASB 1060 General Purpose Financial Statements – Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities (AASB 1060) and the disclosure requirements in AASB 1060. Accordingly, the financial statements comply with Australian Accounting Standards – Simplified Disclosures.

The annual financial statements were approved by the Board of Directors on the date of signing of the directors report.

### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis, unless otherwise stated.

### (c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Company’s functional currency.

### (d) Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company’s accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

### (e) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment are:

- (i) Recognition of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

- (ii) AASB 16 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment of the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company’s operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contracts (refer note 19).

## 3. Material accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

### (a) Revenue

The Company’s main source of income is from provision of sourcing and category management service, project-based consultancy support and ongoing management services.

#### Fixed price:

Revenue from fixed-price, fixed-time frame contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method using input method such as efforts expended, time elapsed or costs incurred.

#### (a) Maintenance:

Maintenance revenue is recognised ratably over the term of the underlying maintenance arrangement.

#### (b) Non-maintenance:

Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

#### (i) Licenses:

Revenue from licenses where the customer obtains a “right to use” the licenses is recognised at the time the license is made available to the customer. Arrangements to deliver software products generally have three elements: license, implementation and annual technical services (ATS). The Company has applied the principles under AASB 15 to account for revenues from these performance obligations. ATS revenue is recognised ratably over the period in which the services are rendered.

## **(ii) Agency revenue:**

Where the company acts as an agent on behalf of any group company, the revenue is recognised on net basis – Revenue less costs (refer note 5).

## **Time and material:**

Revenue on time-and-material contracts are recognised using output method such as hours of service provided or units delivered or serviced. Revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

## **Uncertainty:**

When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

## **Contract modification:**

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

## **Unbilled/unearned:**

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

## **Tax:**

The Company presents revenues net of indirect taxes in its Statement of profit or loss and other comprehensive income.

## **(b) Contracts in progress**

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably. When the outcome of a contract can be estimated reliably, contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. When the outcome of a contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Contract expenses are recognised as incurred unless they create an asset related to future contract activity. An expected loss on a contract is recognised immediately in profit or loss.

Contracts in progress represents the gross amount expected to be collected from customers for contract work performed to date. It is measured at costs plus profits recognised to date less progress billings and recognised losses.

Contracts in progress are presented as part of trade and other receivables in the statement of financial position for all contracts in which costs incurred plus recognised profits exceed progress billings and recognised losses. If progress billings and recognised losses exceed costs incurred plus recognised profits, then the difference is presented as deferred income in the statement of financial position. Customer advances are presented as deferred income in the statement of financial position.

## **(c) Foreign currency transactions**

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

## **(d) Employee benefits**

### **(i) Short-term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

### **(ii) Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

### **(iii) Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. The discount rate is the yield at the repay date on Australian corporate bonds that have maturity dates approximately the term of the Company's obligations. Remeasurements are recognised in profit or loss in the period in which they arise.

### **(iv) Termination benefits**

Termination benefits are expensed at the earlier of when the company can no longer withdraw the offer of those benefits and when the Company recognises costs for a restructuring. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

## **(e) Income tax**

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

### **(i) Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

### **(ii) Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit nor loss.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### **(iii) Tax exposures**

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

## **(f) Property, plant and equipment**

### **(i) Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain and loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

### **(ii) Subsequent expenditure**

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Company and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

### **(iii) Depreciation**

Depreciation is calculated to write off the cost of property, plant and equipment less their estimated residual values using the straight-line basis over their estimated useful lives, and is generally recognised in profit or loss. The estimated useful lives of property, plant and equipment are as follows:

Plant and machinery	5 years
Computer equipment	3-5 years
Furniture and fixtures	5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

## **(g) Financial instruments**

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables which are initially measured at the transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

### **(i) Financial assets**

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

#### **Classification of financial assets:**

Debt instruments that meet the following conditions are measured subsequently at amortised cost:

- 1) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are measured subsequently at fair value through other comprehensive income (FVTOCI)

- 1) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets.

- 2) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss (FVTPL).

Despite the foregoing, the Company may make the following irrevocable election / designation at initial recognition of a financial asset:

- 1) The Company may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met.
- 2) The Company may irrevocably designate a debt investment that meets the amortised cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

#### **Derecognition of financial assets**

The company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the company recognises its retained interest in the asset and an associated liability for the amounts it may have to pay. If the company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

#### **Cash and cash equivalents:**

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of its short-term commitments in the current liabilities on the Balance sheet.

#### **(ii) Financial liabilities**

##### **Classification and measurement of financial liabilities:**

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest rate method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments)."

#### **(iii) Share capital**

##### **Ordinary shares:**

Incremental costs directly attributable to the issue of ordinary shares, net of any tax effects, are recognised as a deduction from equity.

#### **(h) Impairment**

##### **(i) Financial assets**

Impairment of financial assets is based on an expected credit loss ("ECL") model under AASB 9 rather than incurred loss model. ECLs are a probability-weighted estimate of credit losses. The company calculated ECLs based on consideration of customer-specific factors and actual credit loss experience over the past few years. As a percentage of revenue, the company's actual credit loss experience has not been material. There has been no material impact in adopting AASB 9.

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at each balance date. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted.

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

##### **(ii) Non-financial assets**

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Indefinite life intangible assets are tested annually for impairment. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

##### **Impairment losses are reco**

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (or group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (or group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### **(i) Other current assets**

Other current assets include rental deposits made to lease vendors as per lease agreement and Interest accrued but not due on fixed deposits made to bank. Once the interest amount is received, the asset account is decreased.

### **(j) Prepayments**

Prepaid expenses are future expenses that are paid in advance and hence recognised initially as an asset. As the benefits of the expenses are recognised, the related asset account is decreased and expensed

### **(k) Trade and other payables**

Trade payables are obligations to pay for goods or services that have been acquired from suppliers in the ordinary course of business. Trade payables are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. The average credit period on purchases is 30 days from the date of invoice. No interest is charged on overdue payables. The Company has financial risk management policies in place to ensure that all payables are paid within the pre-agreed credit terms.

### **(l) Other current and non-current liabilities**

Other current and non-current liabilities consist of accrued expenses and deferred revenue relating to contract revenue majorly. Other liabilities are classified as current if payment is due within 12 months.

### **(m) Provisions**

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

### **Post sales client support**

A provision for post sales client support is recognised when the underlying services are sold, based on historical post sales client support data and a weighting of all possible outcomes against their associated probabilities.

### **(n) Capital management**

The Directors' policy is to maintain strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. There were no changes to the Company's capital management during the year.

### **(o) Goods and service tax**

Revenue, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or

payable to, the ATO is included as a current asset or liability in the balance sheet.

Cash flows are included in the statement of cash flows on a gross basis. The GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the ATO are classified as operating cash flows.

### **(p) Leases**

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (1) the contract involves the use of an identified asset;
- (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease; and
- (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined as cash generating unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liabilities and right-of-use assets have been separately presented in the balance sheet and lease payments have been classified as financing cash flows.

#### (q) Finance income

Finance income comprises interest income on funds invested, gains on the disposal of available-for-sale financial assets, changes in the fair value of financial assets at fair value through profit or loss, and reclassification of amounts previously recognised in other comprehensive income. Interest income is recognised as it accrues in profit or loss, using the effective interest method.

Foreign currency gains and losses are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

#### 4. New and amended AASB Standards that are effective for the current year

Standard/Amendment	Impact
AASB 2020-1 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current	No material impact.
AASB 2020-6 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current – Deferral of Effective Date	No material impact.
AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants	No material impact.
AASB 2022-5 Amendments to Australian Accounting Standards – Lease Liability in a Sale and Leaseback	No material impact.
AASB 2023-1 Amendments to Australian Accounting Standards – Supplier Finance Arrangements	No material impact.
AASB 2023-3 Amendments to Australian Accounting Standards – Disclosure of Non-current Liabilities with Covenants: Tier 2	No material impact.
AASB 2023-5 Amendments to Australian Accounting Standards – Lack of Exchangeability	No material impact.
AASB 2024-1 Amendments to Australian Accounting Standards – Supplier Finance Arrangements: Tier 2 Disclosures	No material impact.

#### New and revised AASB Standards issued but not yet effective

At the date of authorisation of these financial statements, the Company has not applied the new and revised AASB Standards that have been issued but are not yet effective. These standards, amendments or interpretations are not expected to have a material impact on the Company in the current or future reporting periods and foreseeable future transactions.

#### 5. Revenue

(In AUD)

Particulars	As at March 31,	
	2025	2024
Related party revenue	3,254,997	6,529,183
Third party revenue (Principal)	30,074,375	56,977,314
	33,329,372	63,506,497

At 31 March 2025, the Company has deferred revenue of \$570,018 (2024: \$179,485), which represents the fair value of that portion of the revenue and unbilled revenue of \$11,009,206 (2024: \$23,271,221).

#### Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers by contract-type for each of our business segments. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

(In AUD)

Revenues by contract type	As at March 31,	
	2025	2024
Fixed price	16,692,495	47,692,269
Time and material	16,636,877	15,814,228
Total	33,329,372	63,506,497

(In AUD)

Revenues by period of recognition	As at March 31,	
	2025	2024
Over a period	31,648,971	29,417,584
Point in time	1,680,401	34,088,913
Total	33,329,372	63,506,497

#### Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognised as related service are performed. Revenue from fixed price maintenance contracts is recognised on a straight line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the statement of financial position.

## 6. Cost of sales

	122,853	(110,725)
Total income tax expense	392,499	878,498

**(d)** The Company is within the scope of the Pillar Two top up tax that has been substantively enacted in Australia for income years beginning on or after 1 January 2024. The first period for which a Pillar Two return will be required is the income year ending on 31 December 2024. The Company has applied the mandatory exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.

The ultimate parent entity has performed the necessary analysis in preparation for complying with the Pillar Two model rules for the income year ending on 31 March 2025. Based on the analysis derived from information in respect of the financial year ended 31 March 2025, the Company does not expect any potential exposure to Pillar Two top up taxes.

## 17. Provisions

Particulars	(In AUD)	
	As at March 31,

## 25. Capital and reserves

### (a) Share capital

#### Ordinary shares

(In AUD)		
Particulars	As at March 31,	
	2025	2024
On issue at 1 April (17,450,000 number of shares)	3,389,049	3,389,049
Issued for cash	–	–
On issue at 31 March (17,450,000 number of shares)	3,389,049	3,389,049

#### Ordinary shares

All shares rank equally with regard to the Company's residual assets.

The Company does not have authorised capital or par value in respect of its issued shares. Holders of these shares are entitled to dividends as declared from time to time and are entitled to one vote per share at meetings of the Company.

### (b) Dividends

(In AUD)		
Particulars	As at March 31,	
	2025	2024
Dividends declared and paid	–	9,772,000

#### Dividend franking account

(In AUD)		
Particulars	As at March 31,	
	2025	2024
30 per cent franking credits available to shareholders of Portland Group Pty Ltd for subsequent financial years	2,848,308	3,175,328
	2,848,308	3,175,328

The above available amounts are based on the balance of the dividend franking account at year-end adjusted for:

- a. franking credits/ debits that will arise from the payment/ receipts of the current tax liabilities/ assets;
- b. franking debits that will arise from the payment of dividends recognised as a liability at the year-end;
- c. franking credits that will arise from the receipt of dividends recognised as receivables by the tax consolidated company at the year-end; and
- d. franking credits that the entity may be prevented from distributing in subsequent years.

The ability to utilise the franking credits is dependent upon there being sufficient available profits to declare dividends.

## 26. Events subsequent to reporting date

The Directors are not aware of any other matter or circumstance that has occurred since the end of the financial period that has significantly affected or may affect the operations of the company, the results of those operations or the state of affairs of the Company in subsequent financial years.

### Directors' declaration

In the opinion of the directors of the Portland Group Pty Ltd ("the Company"):

- (a) The Company is not publicly accountable nor a reporting entity;
- (b) The financial statements and notes, are in accordance with the Corporations Act 2001, including:
  - (i) giving a true and fair view of the financial position of the Company as at 31<sup>st</sup> March 2025 and of its performance for the financial year ended on that date; and
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) to the extent described in Note 2, and the Corporations Regulations 2001; and
- (c) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors.

Andrew Jarvis

## Panaya Ltd.

# Independent Auditor's Report

To the shareholders of Panaya Ltd.

We have audited the accompanying statement of financial position of Panaya Ltd. ("the Company") as of December 31, 2024 and 2023, and the related statements of comprehensive income, changes in shareholders' deficiency and cash flows for the years then ended. These financial statements are the responsibility of the Company's Board of Directors and Management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with generally accepted auditing standards, including those prescribed by the Auditors' Regulations (Auditor's Mode of Performance) - 1973. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the principles used and significant estimates made by the Board of Directors and Management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in Israel (Israeli GAAP).

# Notes to the financial statements

## Note 1 - General

- A. Panaya Ltd. (the "Company") was incorporated and commenced operations on January 2, 2006, as a wholly-owned subsidiary of Panaya Inc. ("the Parent Company"), which is incorporated in Delaware, U.S.
- B. The Company develops and markets solutions for ERP systems, by identifying the changes on the ERP system through automated analysis.
- C. The Company has incurred losses since its inception and its continued operations as a going concern are dependent on financing from the Parent Company, until it reaches sufficient profitability.
- D. Related parties - Within their meaning in Opinion No. 29 of the Institute of Certified Public Accountants in Israel.
- E. The functional currency of the Company is NIS, as the NIS is the primary currency of the economic environment in which the Company has operated and expects to continue to operate in the foreseeable future.

## Note 2 -Significant Accounting Policies

The significant accounting policies applied are as follows:

### A. Use of estimates:

The preparation of financial statements in accordance with generally accepted accounting principles in Israel requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of expenses during the reported periods. Actual results could differ from those estimates.

### B. Cash equivalents:

The Company considers all highly liquid investments, which include short-term bank deposits (up to three months from date of deposit) that are not restricted as to withdrawal or use, to be cash equivalents.

### C. Research and development:

Costs incurred in connection with the research of the Company's products are expensed as incurred.

### D. Property and equipment

Property and equipment are stated at cost. Depreciation is computed by the straight-line method over the estimated useful life of the assets.

Annual rates of depreciation are as follows:

Particulars	%
Computers and software	33
Office furniture and equipment	7
Leasehold improvements	10
Communications equipment	15

Leasehold improvements are amortized by the straight-line method over the term of the lease, which is shorter than the estimated useful life of the improvements.

### E. Intangible assets

These assets that represent acquired domains, copyrights, licenses and trademarks are stated at cost and amortized using the straight-line method over their estimated useful lives of 3 to 4 years.

### F. Fair value of financial instruments

The carrying amount of some of the Company's financial instruments, including cash equivalents, accounts receivable, accounts payable, and accrued liabilities, approximates their fair value, due to their short maturities.

### G. Income taxes

Income taxes are accounted for using the asset and liability approach. The asset and liability approach requires the recognition of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in the Company's financial statements or tax returns. The measurement of current and deferred tax liabilities and assets is based on provisions of the relevant tax law. The measurement of deferred tax assets is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, are not expected to be realized.

### H. Revenues

The Company derives its revenue principally from the sale of its ERP systems analysis services, including activation and monthly service fees. Revenues from services are recognized as services are performed or on a straight-line basis if service is ongoing. Revenue is recognized provided that an arrangement (usually in the form of a purchase order) exists, the fee is fixed and determinable and collection is reasonably assured. If uncertainties exist, revenue is recognized when the uncertainties are resolved.

## Note 3 - Property and Equipment, net

### The composition:

Particulars	(NIS in thousands)	
	As at December 31,	
	2024	2023
Cost:		
Furniture and fixtures	2,168	2,149
Computers and software	12,031	11,774
Leasehold improvements	11,337	11,337
Communication equipment	436	444
	25,972	25,704
Less - Accumulated depreciation	24,121	23,052
Net book value	1,851	2,652

## Note 4 - Loan – Related Parties

On March 9, 2021, the Company received a loan of NIS 52.7 Million (USD 16 Million) from related party. The loan will be repayable on demand with annual interest of SOFR+1.64% simple interest. The Company repaid NIS 5.25 million (USD 1.42 million) and NIS 4.01 million (USD 1.09 million) including accrued interest in 2024 and 2023 respectively.

## Note 5 -Liability for Severance Pay

On February 28, 2015, the Company's employees have signed off on Section 14 of the Severance Pay law - 1963, pursuant to which the Company's regular deposits with pension funds and/or insurance companies release it from any further liability to the employees for whom such deposits are made. Therefore, the financial statements do not include a liability in respect of the amounts that were deposited from that date to cover that liability. As regards to severance pay liability until the sign off, a liability is recognized in the financial statements in respect of the employer's obligation to pay severance pay, which is calculated on the basis of their most recent salary as at balance sheet date, multiplied by the employee's years of employment until February 28, 2015, and is presented net of the amounts deposited for severance pay as aforesaid.

## Note 6 - Commitments and Contingent Liabilities-

### A. Lease agreements:

In January 2020 the Company utilized its option to extend the lease agreement until December 2025.

Future lease payments under the lease agreement for the new premises are NIS 197 thousand per month, for a period of 12 months commencing January 2025.

- B. The Company entered into several operating lease agreements in respect of vehicles that it uses. The leases are for a period of three years.

## Note 7 - Stockholders' Equity

### Common Stock:

Particulars	As of December 31	
	2024	2023
	Authorized	Issued and fully paid
	Number of shares	
Ordinary shares NIS 1.00 par value each	10,000	6,000

Each ordinary share is entitled to one vote and to receive dividends as declared by the Board of Directors.

## Note 8 - Taxes on Income

- A. The tax rate relevant to the Company in 2024 and 2023 is 23%.

Tax benefits under the Law for the Encouragement of Capital Investments, 1959 (hereinafter - "the Law")

The Law was amended as part of the Economic Policy Law for the years 2011-2012, which was passed in the Knesset on December 27, 2010 (hereinafter - "the Amendment").

The Amendment sets alternative benefit tracks to the ones currently in place under the provisions of the Law, as follows: investment grants track designed for enterprises located in national development zone A and two new tax benefits tracks (preferred enterprise and a special preferred enterprise), which provide for application of a unified tax rate to all preferred income of the Company, as defined in the Law.

The benefits granted to the preferred enterprises will be unlimited in time, unlike the benefits granted to special preferred enterprises, which will be limited for a period of 10 years. The benefits shall be granted to companies that will qualify under criteria set in the law; for the most part, those criteria are similar to the criteria that were set in the Law prior to its amendment.

The Company's Management believes that it is in compliance with the conditions stipulated by the above law.

- B. The Company has received final tax assessments through tax year 2019.
- C. As of December 31, 2024, the Company had a net carryforward tax loss of approximately NIS 322 million. Under Israeli tax laws, the carryforward tax losses of the Company can be utilized indefinitely.
- D. Deferred tax assets were not created since the realization of any future benefit from deductible temporary differences, net operating loss and tax credit carryforwards cannot be sufficiently assured as of December 31, 2024.

## Note 9 - Supplementary Statements of Operations Information

## Fluido Oy

# Independent Auditor's Report

To the Annual General Meeting of Fluido Oy

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Fluido Oy (business identity code 2304624-7) for the year ended 31 December 2024. The financial statements comprise the balance sheets, the income statements, cash flow statements and notes for the group as well as for the parent company.

In our opinion, the financial statements give a true and fair view of the group's and the company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

### Basis for Opinion

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the parent company and of the group companies in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director are responsible for the preparation of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the Managing Director are responsible for assessing the parent company's and the group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the parent company or the group or cease operations, or there is no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the parent company's or the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the parent company's or the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **Other reporting requirements**

### **Other information**

The Board of Directors and the Managing Director are responsible for the other information. The other information comprises the report of the Board of Directors. Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. Our responsibility also includes considering whether the report of the Board of Directors has been prepared in compliance with the applicable provisions.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in compliance with the applicable provisions.

If, based on the work we have performed, we conclude that there is a material misstatement of the report of the Board of Directors, we are required to report that fact. We have nothing to report in this regard.

In Helsinki 31 May 2025

BDO Oy,

# Information about the year

## Significant events during the financial year

Fluido Group provides professional services relating to the Salesforce software and digital transformation processes. The group operates in Finland, Sweden, Norway, Denmark, Germany, Switzerland, France, England, Ireland, and the Netherlands. In 2024, the revenue of the Group was 67,099,281 euros and the profit before taxes was 5,326,615 euros. The revenue of the Group grew 2 % in 2024 and the Company was able to strengthen its market position as a prominent actor in the Nordics. The revenue of Fluido Oy was 35,786,119 euros, and the profit before taxes was 1,033,697 euros.

The crisis in Ukraine and insecurities in global macroeconomics have caused challenges in the business environment. The purchase decisions of clients are taking longer than expected, and the client prices are under pressure. The business operations of Fluido have continued steadily despite challenges in the markets, and the Company has been able to provide its clients with digital transformation services normally. During the financial period, the business environments of different countries were very diverse, but the Group was able to distribute the workforce into the countries with higher demands for the projects with the help of a new skill-based operating model. This is a prominent competitive advantage for the Group.

Additionally, the Group has the ability to utilize nearshore and offshore prowess corresponding to the price competition. The profit or loss of individual subsidiaries depends on whether the subsidiary is a net importer or exporter of resources. The group started to use Artificial Intelligence more actively in the operations during 2024, and the Company is among leading companies to implement the new Agent force technology of Salesfores to the clients.

## The leadership and auditors of the company

The Board of Directors consists of Dinesh Ramakrishna, Thomas Johanson, and Jamseet Singh. Dinesh Ramakrishna has acted as the Chairman of the Board and Thomas Johanson has served as the CEO of the Company. The Company's auditor has been the auditing firm BDO Oy, with Certified Auditor Joonas Selenius as the responsible auditor.

## Share capital

The share capital is fully owned by Infosys-group. The number of shares is 157,116. The shares consist of two classes: A-shares (99,521 shares) and B-shares (57,595 shares). The owners of B-class shares have a preference for the Company's assets up to the paid acquisition price. The preference is described in detail in the Articles of Association.

The Articles of Association include redemption and approval clauses relating to the shares.

The domicile of Infosys-group is Bangalore, and it is listed in New York and Mumbai. At the end of the year 2024 Infosys-group had approximately 300,000 employees. The revenue of the Infosys-group at the end of the financial period (March 2025) is approximately 19.2 billion USD and the profit for the financial year approximately 3.1 billion USD

## Authorizations

The shareholders' meetings on December 17, 2015, and on August 19, 2016, authorized the Board of Directors to decide upon issuing the other special right entitling to shares. According to the authorization 12,000 A-class shares can be issued.

## Branches

The Company has branches in Germany (Business ID HRB 252914) and in the Netherlands (Business ID 80799140).

## Estimate on the significant risks and insecurities of operations

The business risks relate to the general global economic developments, impact of tariffs to the business operations of the clients, and their impact on corporate investments.

The Company has been able to acquire professional personnel and has invested in being an attractive and interesting employer now and in the future. Fluido does not have a significant client risk. The revenue from bigger clients is distributed in such a way that no individual client forms over 15% of the revenue. Artificial intelligence will change the business operations of the Company, and the Company believes to be sufficiently prepared in order to utilize AI as comparative advantage instead of seeing it as a risk.

## Estimate on future developments

The financial year 2025 started according to expectations. The group's business plan targets revenue and profit growth that is at least equal to the previous years. Agent-based solutions and the responsible utilization of generative AI in increasingly efficient customer service and automation of internal processes are at the center of the company strategy during 2025.

## Significant events after the end of the financial year

After the end of the financial year there have been no significant events.

### Key figures

Parent company	(In € Thousands)		
	For the period between January 1 and December 31,

# Notes to the financial statements

## Financial statements’ accounting principles

The financial statements and the consolidated financial statements have been prepared in compliance with the legislation and other standards concerning the preparation of the financial statements.

The consolidated financial statements include Fluido Sweden AB, Fluido Norway AS, Fluido Denmark A/S, Fluido Slovakia s.r.o, Infosys Fluido UK, Ltd and Infosys Fluido Ireland Ltd.

The consolidated financial statements have been prepared according to the consolidation method. The inter-company holdings, receivables, debts, internal contribution margin and other transactions have been eliminated.

In the consolidation of the profit and loss statement the average exchange rate of Bank of Finland was used, and for the consolidation of the Balance Sheet the exchange rate of December 31, 2024.

## Valuation principles and methods

The tangible assets of non-current assets are valued according to the acquisition cost reduced with the planned depreciations.

Receivables, securities, and other similar financial assets as well as debts are valued according to the Accounting Act Chapter 5 Section 2.

## Periodization principles and methods

The fixed assets are depreciated according to the plan. The depreciations have been adjusted to the tax depreciation. The depreciations according to the plan have been calculated as follows:

Intangible assets:	5-year straight-line depreciation
Tangible assets:	25% expenditure residue depreciation
Group goodwill:	5-year straight-line depreciation

In the consolidated financial statements, the revenue concerning items with long production lead time has been accounted as revenue according to the stage of production. Projects with production lead time of one year at minimum have been considered items with long production lead time. The stage of production has been defined according to the actual costs in relation to the estimated total costs.

## Infosys Technologies (Sweden) AB

# Auditor's Report

To the general meeting of the shareholders of Infosys Technologies (Sweden) AB corporate identity number 556779-1040

## Report on the annual accounts

### Opinions

We have audited the annual accounts of Infosys Technologies (Sweden) AB for the financial year 2024-01-01 - 2024-12-31.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act and present fairly, in all material respects, the financial position of Infosys Technologies (Sweden) AB as of 31 December 2024 and its financial performance and cash flow for the year then ended in accordance with the Annual Accounts Act. The statutory administration report is consistent with the other parts of the annual accounts.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet.

### Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of Infosys Technologies (Sweden) AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

### Responsibilities of the Board of Directors

The Board of Directors is responsible for the preparation of the annual accounts and that they give a fair presentation in accordance with the Annual Accounts Act. The Board of Directors is also responsible for such internal control as it determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, The Board of Directors is responsible for the assessment of the company's ability to continue as a going concern. It discloses, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors intend to liquidate the company, to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the company's internal control relevant to our audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting in preparing the annual accounts. We also draw a conclusion, based on the audit evidence obtained, as to whether any material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion about the annual accounts. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We must inform the Board of Directors of, among other matters, the planned scope and timing of the audit. We must also inform of significant audit findings during our audit, including any significant deficiencies in internal control that we identified.

## Report on other legal and regulatory requirements

### Opinions

In addition to our audit of the annual accounts, we have also audited the administration of the Board of Directors of Infosys Technologies (Sweden) AB for the financial year 2024-01-01 - 2024-12-31 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit to be appropriated in accordance with the proposal in the statutory administration report and that the members of the Board of Directors be discharged from liability for the financial year.

### Basis for Opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of Infosys Technologies (Sweden) AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

### Responsibilities of the Board of Directors

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's type of operations, size and risks place on the size of the company's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner.

### Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether any member of the Board of Directors in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

As part of an audit in accordance with generally accepted auditing standards in Sweden, we exercise professional judgment and maintain professional scepticism throughout the audit. The examination of the administration and the proposed appropriations of the company's profit or loss is based primarily on the audit of the accounts. Additional audit procedures performed are based on our professional judgment with starting point in risk and materiality. This means that we focus the examination on such actions, areas and relationships that are material for the operations and where deviations and violations would have particular importance for the company's situation. We examine and test decisions undertaken, support for decisions, actions taken and other circumstances that are relevant to our opinion concerning discharge from liability. As a basis for our opinion on the Board of Directors' proposed appropriations of the company's profit or loss we examined whether the proposal is in accordance with the Companies Act.

Umeå, 2025

# Notes

## Note 1 Accounting and Valuation principles

### General Information

The annual report is prepared in accordance with the Swedish Annual Accounts Act and BFNAR 2012:1 Annual Reporting and consolidated reports (K3).

Receivables and liabilities in foreign currencies have been valued at the exchange rate on the Balance Sheet date. Exchange profit and exchange loss on operating receivables and liabilities are reported in the operating result. Exchange profit and exchange loss on financial operating receivables and liabilities are reported in the financial items.

Currency forwards are used to hedge assets or liabilities against currency risks.

The accounting principles remain unchanged as compared to the previous year.

### Revenue Recognition

Revenue has been raised to the fair value of consideration received or receivable and is recognized to the extent that it is probable that the economic benefits will be available to be used by the company and the revenue can be measured reliably.

### Fixed assets

Intangible and tangible fixed assets are posted at the acquisition value less accumulated depreciation and any write-downs.

Depreciation is done on a straight-line basis over the estimated useful life of the asset taking the significant residual value into account. The following depreciation percentage is applied:

### Tangible fixed assets

Equipment, tools and installations 20%

### Financial instruments

Receivables are reported as current assets with the exception of items with a due date of more than 12 months after the balance date, which are classified as fixed assets.

Claims are taken into account to the expected amount to be paid after deduction for individually assessed bad debts.

### Leasing Agreements

When the risks and rewards related to the leased assets are transferred to the lessee, the agreement is classified as a finance lease. On initial recognition is accounted a receivable in the balance sheet. Direct expenditure incurred in connection with the Company include finance lease are distributed over the entire term of the lease. On subsequent reporting opportunities, the finance income is distributed, attributable to the agreement, over the lease period so that an equal remuneration is obtained.

When the risks and rewards associated with the asset have not been transferred to the lessee, the lease is classified as an operating lease. The assets of the Company are accounted for as fixed assets or current assets, depending on when the lease term expires. The leasing fee is determined annually and is reported on a straight-line basis over the lease term.

### Income Taxes

Total tax consists of current tax and deferred tax. Taxes are reported in the income statement, except when the underlying transaction is reported directly in equity, whereby the associated tax effects are reported in equity.

### Current tax

Current tax refers to income tax for the current financial year and that part of the previous financial year's income tax that has not yet been reported. Current tax is calculated based on the tax rate that applies on the balance sheet date.

### Employee Remuneration

Remuneration to employees in the form of wages, bonuses, paid vacation, sick leave, etc. is reported in line with earnings.

### Cash Flow Analysis

The cash flow statement is prepared using the indirect method. The reported cash flow includes only transactions that involve receipts or disbursements.

### Definition of Key Business Ratios

#### Net turnover

Main operating revenues, invoiced expenses, side income and revenue adjustments.

#### Profit / loss after financial items

Profits after financial items and costs but before appropriations and taxes.

#### Balance sheet total Company's gathered assets.

Equity / assets ratio (%)

Adjusted equity (equity and untaxed reserves with deductions for deferred tax) as a percent of the Balance Sheet total.

#### Number of employees

Average number of employees during the financial year.

## Infosys Management Consulting Pty Ltd

# Independent Auditor's Report

to the Members of Infosys Management Consulting Pty Limited

## Report on the Audit of the Financial Report

### Opinion

We have audited the financial report of Infosys Management Consulting Pty Limited (the "Company") which comprises the statement of financial position as at 31 December 2024, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the Corporations Act 2001, including:

- Giving a true and fair view of the Company's financial position as at 31 December 2024 and of its financial performance for the year then ended; and
- Complying with Australian Accounting Standards – Simplified Disclosures and the Corporations Regulations 2001.

### Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 31 December 2024, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the Financial Report

#### The directors of the Company are responsible:

- For the preparation of the financial report in accordance with the Corporations Act 2001, including giving a true and fair view of the financial position and performance of the Company in accordance with Australian Accounting Standards – Simplified Disclosures; and
- For such internal control as the directors determine is necessary to enable the preparation of the financial report in accordance with the Corporations Act 2001, including giving a true and fair view of the financial position and performance of the Company, and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a

material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

*Board of Directors*  
Infosys Management Consulting Pty Limited  
68 Pitt Street  
Sydney, NSW 2000

Dear Directors,

Auditor's Independence Declaration to Infosys Management Consulting Pty Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the Directors of Infosys Management Consulting Pty Limited.

As lead audit partner for the audit of the financial report of Infosys Management Consulting Pty Limited for the year ended 31 December 2024, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- The auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- Any applicable code of professional conduct in relation to the audit

Yours faithfully

**DELOITTE TOUCHE TOHMATSU**

# Directors' report

For the year ended December 31, 2024

The directors present their report together with the financial report of Infosys Management Consulting Pty Ltd (the Company), for the financial year ended December 31, 2024, and the auditor's report thereon.

## 1. Directors

The directors of the Company at any time during or since the end of the financial year are:

Mr Geoffrey Anton Leong Appointed May 16, 2016

Mr Anmol Jain Appointed July 08, 2024

## 2. Company Secretary

Mr Roger Gibson was appointed as Company Secretary on August 09, 2019, and resigned with effect from December 17, 2021. There is no Company Secretary from December 18, 2021, onwards.

## 3. Principal activities

Infosys Management Consulting Pty Ltd. supports clients in designing and delivering simple and pragmatic solutions to their complex business problems. The focus is set on processes, data and systems, enabling operating models which work pragmatically and efficiently in today's complex and global business environment.

The strategy of the business is: remaining cost competitive and to increase the market share by owning our client's business challenges, identifying new opportunities and reimagine business solutions to help create new markets and disrupt existing ones.

There were no significant changes in the nature of the activities of the Company during the year.

## 4. Dividends

The Board of Directors proposed a dividend of AUD 3 Million for the financial year ended December 31, 2024. No dividends were declared for financial year ended December 31, 2023.

## 5. Operating and financial review

The profit after tax for the year ended December 31, 2024 amounted to \$3,560,670 (2023 Profit after tax of 2,578,158). This was primarily a result of an increase of revenue from \$50,326,748 in year 2023 to \$67,497,873 in year 2024. During the year, the Company has earned gross margin on sales of 10.1% (2023: 11.8%). The decrease in gross margin is attributable to the increase in costs, particularly employee benefit and external contractor expenses during the current year.

## 6. Environmental regulation

The Company's operations are not regulated by any significant environmental regulation under a law of the commonwealth or of a state or territory. However, the Board believes that the Company has adequate systems in place for the management of its environmental requirements and is not aware of any breach of those environmental requirements as they apply to the Company.

## 7. Events subsequent to reporting date

No matters or circumstances have arisen since the end of the financial year and the date of this report which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

## 8. Likely developments

The Company will continue to pursue its policy of profitable growth and focus on growing market share in the major business sectors during the next financial year.

Further information about likely developments in the operations of the Company and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Company.

## 9. Indemnification and insurance of officers and auditors

No indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is or has been an officer or auditor of the Company.

## 10. Lead auditor's independence declaration

The Lead auditor's independence declaration is set out on page 22 and forms part of the directors' report for the financial year ended December 31, 2024.

This report is made with a resolution of the directors:

**Geoffrey Leong**  
*Director*

Place: Sydney

Date: April 30, 2025

# Statement of Financial Position

Net increase in cash and cash equivalents		3,962,662	3,791,881
Cash and cash equivalents at January 1		10,336,368	6,544,487
Cash and cash equivalents as at December 31	8	14,299,030	10,336,368

The notes below are an integral part of these financial statements.

# Notes to the financial statements

For the financial year ended December 31, 2024

## 1. Reporting entity

Infosys Management Consulting Pty Ltd (the "Company"), is a company domiciled in Australia. The Company's registered office is located at Level 3, 100 Arthur Street, PO Box 1885, North Sydney, NSW 2060. The financial statements of the Company are as at and for the year ended December 31, 2024. The Company is a for-profit entity and is primarily involved in specialized IT consulting service.

## 2. Basis of preparation

### (a) Statement of compliance

The Company does not have 'public accountability' as defined in AASB 1053 Application of Tiers of Australian Accounting Standards and is therefore eligible to apply the 'Tier 2' reporting framework under Australian Accounting Standards.

The financial statements comply with the recognition and measurement requirements of Australian Accounting Standards, the presentation requirements in those Standards as modified by AASB 1060 General Purpose Financial Statements - Simplified Disclosures for For-Profit and Not-for-Profit Tier 2 Entities (AASB 1060) and the disclosure requirements in AASB 1060. Accordingly, the financial statements comply with Australian Accounting Standards – Simplified Disclosures.

The annual financial statements were authorized by the directors on 30<sup>th</sup> day of April 2025.

### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis, unless otherwise indicated.

### (c) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the Company's functional currency.

### (d) Use of estimates and judgements

The preparation of financial statements in conformity with AASB requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

## 3. Material accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements and have been applied consistently by the Company.

### (a) Foreign currency

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated

in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the end of the year. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Exchange differences arising on the translation of non-monetary items are recognized directly in equity to the extent that the gain or loss is directly recognized in equity, otherwise the exchange difference is recognized in profit or loss.

### (b) Financial instruments

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables which are initially measured at the transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

#### (i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognized financial assets are measured subsequently in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

### Classification of financial assets

Debt instruments that meet the following conditions are measured subsequently at amortized cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are measured subsequently at fair value through other comprehensive income (FVTOCI):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss (FVTPL).

Despite the foregoing, the Company may make the following irrevocable election / designation at initial recognition of a financial asset:

- the Company may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met.
- the Company may irrevocably designate a debt investment that meets the amortized cost or FVTOCI criteria as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

## Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits with original maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the Company in the management of its short-term commitments in the current liabilities on the Balance Sheet.

### (ii) Financial liabilities

Classification and measurement of financial liabilities

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortized cost using the effective interest rate method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognized in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

### (c) Share Capital

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity, net of any tax effect.

### (d) Property, plant and equipment

#### (i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gains and losses on disposal of an item of property, plant and equipment (calculated as the difference between the net

proceeds from disposal and the carrying amount of the item) is recognized in profit or loss.

#### (ii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of the day to day servicing of property, plant and equipment are recognized in profit or loss as incurred.

#### (iii) Depreciation

Items of property, plant and equipment are depreciated on a straight-line basis in profit or loss over the estimated useful lives of each component.

Items of property, plant and equipment are depreciated from the date that they are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative periods are as follows:

Leasehold improvement / installation	5 years or lease term, whichever is earlier
IT equipment	3 years
Office machine	2 years
Furniture	5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

### (e) Impairment

#### (i) Financial assets

The Company recognizes a loss allowance for expected credit losses on investments in debt instruments that are measured at amortised cost or at FVTOCI, lease receivables, trade receivables and contract assets, as well as on financial guarantee contracts. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Company's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- An actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating.
- Significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortized cost.
- Existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations.
- An actual or expected significant deterioration in the operating results of the debtor.
- Significant increases in credit risk on other financial instruments of the same debtor.

An actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- When there is a breach of financial covenants by the debtor; or
- Information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collateral held by the Company).

Irrespective of the above analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- Significant financial difficulty of the issuer or the borrower.
- A breach of contract, such as a default or past due event.
- The lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider.
- It is becoming probable that the borrower will enter bankruptcy or other financial reorganization, or
- The disappearance of an active market for that financial asset because of financial difficulties.

The Company writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade

receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

The measurement of expected credit losses is a function of the probability of default, loss given default and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information.

## (ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Indefinite life intangible assets are tested annually for impairment. An impairment loss is recognized if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (or group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (or group of CGUs) on a pro rata basis. An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

## (f) Employee benefits

### (i) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee expense in profit and loss when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

### (ii) Long term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods plus related on costs; that benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is the yield at the reporting date on corporate bond rates that have maturity dates approximating the terms of the Company's obligations.

### (iii) Termination benefits

Termination benefits are recognized as an expense when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

### (iv) Short-term benefits

Short-term employee benefit obligations are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under short term cash bonus or profit sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

If the amount of the leave is expected to be settled beyond 12 months from the reporting date, the amount is measured in accordance with a long-term benefit as noted above (note 3(g)(ii)).

### (v) Employee stock compensation

The employees of the Company are given stock options of the ultimate parent entity and the cost is charged to the Profit and Loss account based on the recharges from the ultimate parent entity.

### (g) Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as a finance cost.

### (h) Onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with the contract.

### (i) Services – Revenue recognition

The Company derives revenues primarily from Information Technology ("IT") consultancy services. Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those services. Revenue is measured as the value of the consideration received or receivable, excluding discounts, value added tax and other sales taxes.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved in writing, by the parties, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The Company's contracts may include variable consideration including rebates, volume discounts and penalties. The company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue from a contract to provide services is recognized in the period in which the services are provided in accordance with the terms of the contract. In service arrangements, the Company satisfies the performance obligation and recognizes revenue over time. The company recognizes revenue on the basis of contractually agreed mark up on costs incurred for Intercompany revenue. In fixed-priced contracts, revenue is recognized based on progress towards completion of performance obligation using a percentage of completion method. Efforts or costs expensed have been used to measure progress towards completion as there is a direct relationship between input and productivity. Revenue in excess of invoicing is classified as unbilled revenue, while invoicing in excess of revenues are classified as unearned revenue. Revenue on time-and-material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

### (j) Leases

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognizes a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

In the case of the Company, all leases are short-term leases and hence are exempted from the recognition and measurement requirements of AASB 16 Leases.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the lessee uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date.
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Company did not make any such adjustments during the periods presented.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured under AASB 137. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset.

The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statement of financial position.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occurs and are included in profit or loss.

As a practical expedient, AASB 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Company has not used this practical expedient. For contracts that contain a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

#### (k) Tax

Tax expense comprises current and deferred tax. Current and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current and deferred tax the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior

experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

#### (l) Goods and Service tax

Revenue, expenses and assets are recognized net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognized as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Balance Sheet.

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the ATO are classified as operating cash flows.

#### 4. New and amended AASB Standards that are effective for the current year

Standard / Amendment	Impact
AASB 2020-1 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current	No material impact.
AASB 2020-6 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current – Deferral of Effective Date	No material impact.
AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants	No material impact.
AASB 2022-5 Amendments to Australian Accounting Standards – Lease Liability in a Sale and Leaseback	No material impact.
AASB 2023-1 Amendments to Australian Accounting Standards – Supplier Finance Arrangements	No material impact.

Standard / Amendment	Impact
AASB 2023-3 Amendments to Australian Accounting Standards – Disclosure of Non-current Liabilities with Covenants: Tier 2	No material impact.
AASB 2023-5 Amendments to Australian Accounting Standards – Lack of Exchangeability	No material impact.
AASB 2024-1 Amendments to Australian Accounting Standards – Supplier Finance Arrangements: Tier 2 Disclosures	No material impact.

#### New and revised AASB Standards issued but not yet effective

At the date of authorization of these financial statements, the Company has not applied the new and revised AASB Standards that have been issued but are not yet effective. These standards, amendments or interpretations are not expected to have a material impact on the Company in the current or future reporting periods and foreseeable future transactions.

#### 5. Revenue

(In AUD)

Particulars	Year ended December 31

Origination and reversal of temporary difference	(398,458)	(46,307)
	1,548,781	1,134,389

(d) The Company is within the scope of the Pillar Two top up tax that has been substantively enacted in Australia for income years beginning on or after January 1, 2024. The first period for which a Pillar Two return will be required is the income year ending on December 31, 2024. The Company has applied the mandatory exception to recognizing and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.

The ultimate parent entity has performed the necessary analysis in preparation for complying with the Pillar Two model rules for the income year ending on December 31, 2024. Based on the analysis derived from information in respect of the financial year ended December 31, 2024, the Company does not expect any potential exposure to Pillar Two top up taxes.

## 8. Cash and cash equivalents

(In AUD)

Particulars	As at December 31	
	2024	2023
Cash and cash equivalents	14,299,030	10,336,368
	14,299,030	10,336,368

## 9. Trade and other receivables

(In AUD)

Particulars	As at December 31	
	2024	2023
Trade receivable due from related party (Refer to Note 17)	5,285,807	4,476,705
Other receivables	204,300	150,404
	5,490,107	4,627,109

No allowance is recognized for expected credit losses. Based on management's best estimate, there is no impairment of receivables and exposure to credit risk from trade receivables. The average credit period on sale is 30 days. No interest is charged on trade receivables.

## 10. Property, plant and equipment

Carrying amount as at December 31, 2024	2,171,945	864,089	86,097	883,882	4,006,013

## 14. Capital and reserves

### Share capital in shares

Particulars	As at December 31	
	2024	2023
On issue at January 1	3,500,300	3,500,300
Add: Shares issued during the year	–	–
On issue at December 31	3,500,300	3,500,300

### Ordinary shares

The Company does not have authorized capital or par value in respect of its issued shares. All issued shares are fully paid. All shares rank equally with regard to the Company's residual assets, except that preference shareholders participate only to the extent of the face value of the shares.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. In respect of the Company's shares that are held by the Company, all rights are suspended until those shares are reissued.

## 13. Provisions

(In AUD)

Particulars	As at December 31	
	2024	2023
Current		
Annual leave	2,171,945	1,485,175
Long service leave outstanding	222,787	209,999
Incentive provision	86,097	464,011
Accrued bonus	883,882	890,634
	3,364,711	3,049,819
Non-current		
Long service leave outstanding	641,302	394,815
	641,302	394,815
Total employee provisions	4,006,013	3,444,634

## Dividend franking account

(In AUD)

Particulars	As at December 31	
	2024	2023
30 per cent franking credits available to shareholders of Infosys Management Consulting Pty Ltd for subsequent financial years	4,914,633	3,460,241
	4,914,633	3,460,241

The above available amounts are based on the balance of the dividend franking account at year-end adjusted for:

- franking credits / debits that will arise from the payment / receipts of the current tax liabilities / assets;
- franking debits that will arise from the payment of dividends recognized as a liability at the year-end;
- franking credits that will arise from the receipt of dividends recognized as receivables at the year-end; and

- d. franking credits that the entity may be prevented from distributing in subsequent years.

The ability to utilize the franking credits is dependent upon there being sufficient available profits to declare dividends.

## 15. Key management personnel compensation

Key management personnel of the Company are those persons having the authority and responsibility for planning, directing and controlling activities of the Company. The directors of the Company are considered as key management personnel of the Company.

The employee compensation is as follows:

Particulars	(In AUD)	
	As at December 31	
	2024	2023
Short-term employee benefits*	913,712	528,552

\*Does not include employment benefits recognized based on the actuarial valuation since they are computed for the Company as a whole and not at individual basis.

## 16. Reconciliation of cash flow from operating activities

Particulars	(In AUD)	
	As at December 31	
	2024	2023
Reconciliation of cash flows from operating activities		
Profit for the year after tax	3,560,670	2,578,158
Adjustments for:		
Depreciation expense	88,139	72,362
Income tax expense	1,548,781	1,134,389
Operating profit before changes in working capital	5,197,590	3,784,909
Increase in trade and other receivables and other assets	(847,872)	(944,832)
Increase in trade and other payables	560,504	778,693
Increase / (decrease) in provision and employee benefits	561,379	574,403
Income tax paid	(1,422,376)	(395,385)
Net cash from operating activities	4,049,225	3,797,788

## 17. Related party disclosures

The details of the related party transactions entered into by the Company during the year ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	(In AUD)	
	As at December 31

Financial liabilities at amortized cost:		
Trade payables	(1,598,326)	(468,033)
Other payables	(2,227,275)	(2,797,064)
	(3,825,601)	(3,265,097)

## 19. Auditors' remuneration

Particulars	(In AUD)	
	As at December 31	
	2024	2023
Audit of financial reports*	37,000	35,000
Others	–	6,750
Total	37,000	41,750

\* The auditor for financial year 2024 and 2023 is Deloitte Touche Tohmatsu.

## 20. Ultimate parent entity

As at, and throughout the financial year ending December 31, 2024, the parent entity of the Company was Infosys Consulting Holding AG, incorporated in Switzerland, and the ultimate parent is Infosys Ltd., India.

## 21. Events subsequent to reporting date

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Company, the results of those operations, or the state of affairs of the Company, in future financial years, other than above.

## 22. Capital management

The Board's policy is to improve its capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors will continue to monitor the return on capital, and level of dividends to ordinary shareholders.

The Board seeks to maintain a balance between higher returns that might be possible with higher levels of borrowings and the advantages and security offered by a sound capital position. There were no changes to the Company's approach to capital management during the year.

The Company is not subject to externally imposed capital requirements, other than any requirements that exist by way of arrangements entered into by the Company's ultimate parent entity.

## 23. Dividend paid to owners of the Company

The Board of Directors have proposed a dividend of AUD 3 Million for the financial year ended December 31, 2024. No dividends were declared for financial year ended December 31, 2023.

### Directors' Declaration

In the opinion of the directors of Infosys Management Consulting Pty Ltd ("the Company"):

- (a) the Company is not publicly accountable nor a reporting entity;
- (b) the financial statements and notes, are in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the financial position of the Company as at December 31, 2024 and of its performance, as represented by the results of its operations and its cash flows, for the financial year ended on that date in accordance with the statement of compliance and basis of preparation described in Note 2;
- (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) to the extent described in Note 2, and the Corporations Regulations 2001; and
- (c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors:

**Geoffrey Leong**  
Director

Place: Sydney

Date: April 30, 2025

## BASE life science A/S

# Independent Auditor's Report

To the Shareholders of BASE life science A/S

## Opinion

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of BASE life science A/S for the financial year July 1, 2023 to June 30, 2024, which comprise a summary of significant accounting policies, income statement, Balance Sheet, Statement of Changes in Equity and notes for both the Group, the Parent Company, as well as Consolidated Statement of Cash Flows. The Consolidated Financial Statements and the Parent Company Financial Statements are prepared under the Danish Financial Statements Act.

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at June 30, 2024, and of the results of the Group and the Company's operations as well as the consolidated cash flows for the financial year July 1, 2023 to June 30, 2024 in accordance with the Danish Financial Statements Act.

## Basis for Conclusion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and the Parent Company Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Management's responsibilities for the consolidated financial statements and the parent company financial statements

The Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as the Management determines is necessary to enable the preparation of consolidated financial statements and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the Parent Company financial statements, the Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and the Parent Company financial statements unless the Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the Parent Company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and Parent Company financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the Parent Company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the Parent Company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's report to the related disclosures in the consolidated financial statements and the Parent Company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the consolidated financial statements and the Parent Company financial statements, including the disclosures, and whether the consolidated financial statements and the Parent Company financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Statement on Management's Review**

#### **Management is responsible for Management's Review.**

Our opinion on the Consolidated Financial Statements and the Parent Company financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our Audit of the Consolidated Financial Statements and the Parent Company financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Consolidated Financial Statements and the Parent Company financial statements or our knowledge obtained during the Audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed; we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

## Management's Review

### The principal activities of the Group

The Company's purpose is to conduct business with consultancy within business development.

### Development in activities and financial matters

The gross profit for the Parent Company for the year totals DKK 93,372,000 against DKK 84,928,000 last year. Result from ordinary activities after tax totals DKK (87,921,000) against DKK (31,224,000) last year. The Management considers the net loss for the year not satisfactory but according to their expectations.

The gross profit for the group for the year totals DKK 236,774,000 against DKK 202,295,000 last year. Result from ordinary activities after tax totals DKK (88,307,000) against DKK (31,224,000) last year. The Management considers the net loss for the year not satisfactory but according to their expectations.

The result of FY 2023/2024 was not satisfactory and significantly lower than expected. This significant shortfall was mainly due to lower-than-expected revenue driven by weaker demand in key markets. We are actively addressing these challenges through revenue-generation plans, and ongoing efforts to improve operational efficiency.

During the financial year the Company has lost more than 50 % of its equity and, as a result, the Company is subject to the capital loss rules of the Danish Companies Act.

After year end the equity has been reestablished through a loan conversion and capital contribution from the Parent Company.

The Management expects to receive further capital contribution from the Parent Company to cover the expected loss for the following financial year.

The Management finds the principles of going concern to be met.

In 2023/24, the parent company's cash and cash equivalents increased by DKK 7,681,000, i.e. from DKK 4,123,000 to DKK 11,804,000.

In 2023/24, the group's cash and cash equivalents increased by DKK 6,452,000, i.e. from DKK 12,229,000 to DKK 18,681,000.

## Research and development activities

The Company has worked with the development of software for use on client projects to improve operations and development processes.

## Expected developments

The management expects continued growth in the coming financial year based on improvements of operations. But due to investments in development and retention of employees the management expects a deficit of DKK (35,000,000) to – (40,000,000) before tax.

## Events occurring after the end of the financial year

There have not occurred any events after the end of the financial year which could dislocate the Company's financial position significantly.

## Accounting Policies

The Annual Report for BASE life science A/S has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class C Enterprises (medium sized enterprises).

The accounting policies are unchanged from last year, and the Annual Report is presented in DKK.

## Recognition and measurement in general

Income is recognized in the income statement concurrently with its realization, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognized in the income statement, including depreciations amortization, write-downs for impairment, provisions, and reversals due to changes in estimated amounts previously recognized in the income statement.

Assets are recognized in the statement of financial position when it seems probable that future economic benefits will flow to the group and the value of the asset can be reliably measured.

Liabilities are recognized in the Statement of Financial Position when it seems probable that future economic benefits will flow out of the group and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortized cost, allowing a constant effective interest rate to be recognized during the useful life of the asset or liability. Amortized cost is recognized as the original cost, less any payments, plus/less accrued amortization of the difference between cost and nominal amount. In this way, capital losses and gains are allocated over the useful life of the liability.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the Annual Report and concern matters that exist on the reporting date.

## Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognized in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognized directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognized in the income statement under financial income and expenses.

The Group Enterprises abroad, associates, and equity investments are considered to be independent entities. The income statements are translated at an average exchange rate for the month, and the Balance Sheet items are translated at the closing rates. Currency translation differences, arising from the translation of the equity of Group Enterprises abroad at the beginning of the year to the closing rate and from the translation of income statements from average prices to the closing rate, are recognized directly in equity in the fair value reserve in the consolidated financial statement. This also applies to differences arising from translation of income statements from average exchange rate to closing rate.

## The consolidated financial statements

The consolidated income statements comprise the Parent Company BASE life science A/S and those Group Enterprises of which BASE life science A/S directly or indirectly owns more than 50 % of the voting rights or in other ways exercise control.

## Consolidation policies

The consolidated financial statements have been prepared as a summary of the Parent Company's and the Group Enterprises' financial statements by adding together uniform accounting records calculated in accordance with the Group's accounting policies.

Investments in Group Enterprises are eliminated by the proportionate share of the Group Enterprises' fair value of net assets and liabilities at the acquisition date.

In the consolidated financial statements, the accounting records of the Group Enterprises are recognized by 100%. The minority interests' share of the profit for the year and of the equity in the group enterprises, which are not 100% owned, is included in the Group's profit and equity, but presented separately.

Purchases and sales of minority interests under continuing control are recognized directly in equity as a transaction between shareholders.

Investments in associates are measured in the Statement of Financial Position at the proportionate share of the Enterprises' equity value which is calculated in accordance with the Parent Company's accounting policies and with proportionate elimination of unrealized intercompany gains and losses. In the income statement, the proportional share of the associates' results is recognized after elimination of the proportional share of intercompany gains and losses.

The Group's activities in joint operations are recognized in the consolidated financial statements record by record.

### Non-controlling interests

Non-controlling interests constitute a share of the Group's total equity. By distribution of net profit, profit or loss for the year is distributed on the share attributable to the non-controlling interests and the share attributable to the Parent Company's shareholders respectively.

### Income statement

#### Gross profit

Gross profit comprises the revenue, changes in inventories of finished goods, and work in progress, own work capitalized, other operating income, and external costs.

The enterprise will be applying IAS 11 and IAS 18 as its basis of interpretation for the recognition of revenue.

Revenue is recognized in the income statement if delivery and passing of risk to the buyer have taken place before the end of the year and if the income can be determined reliably and inflow is anticipated. Revenue is measured at the fair value of the consideration promised exclusive of VAT and taxes and less any discounts relating directly to sales.

Cost of sales comprises costs concerning purchase of external consultants.

Other external expenses comprise expenses incurred for distribution, sales, advertising, administration, premises, loss on receivables, and operational leasing costs.

#### Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

### Depreciation, amortization, and write-down for impairment

Depreciation, amortization, and write-down for impairment comprise depreciation on, amortization of, and write-down for impairment of intangible and tangible assets, respectively.

### Results from investments in group enterprises

After full elimination of intercompany profit or loss less amortized consolidated goodwill, the equity investment in the individual entities are recognized in the income statement of the Parent as a proportional share of the entities' post-tax profit or loss.

### Financial income and expenses

Financial income and expenses are recognized in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, realized and unrealized capital gains and losses relating to debt and transactions in foreign currency, amortization of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

### Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognized in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

## Statement of Financial Position

### Intangible assets

#### Development projects, patents, and licences

Development costs and internally generated rights are recognized in the income statement as costs in the acquisition year.

Patents and licenses are measured at cost less accrued amortization. Patents are amortized on a straight-line basis over the remaining patent period and licenses are amortized over the contract period, however, for a maximum of 10 years.

#### Property, plant, and equipment

The depreciable amount is cost less any expected residual value after the end of the useful life of the asset. The amortization period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, the depreciation is discontinued.

Depreciation is done on a straight-line basis according to an assessment of the expected useful life and the residual value of the individual assets:

Particulars	Useful life	Residual value
Other fixtures and fittings, tools and equipment	3-5 years	0-20 %

Minor assets with an expected useful life of less than 1 year are recognised as costs in the income statement in the year of acquisition.

Profit or loss derived from the disposal of property, land, and equipment is measured as the difference between the sales price less selling costs and the carrying amount at the date of disposal. Profit or loss is recognized in the income statement as other operating income or other operating expenses.

### Leases

#### Investments

Investments in group enterprises

Investments in group enterprises are recognized and measured by applying the equity method. The equity method is used as a method of consolidation.

Investments in group enterprises are recognized in the Statement of Financial Position at the proportionate share of the enterprise's equity value. This value is calculated in accordance with the Parent's accounting policies with deductions or additions of unrealized intercompany gains and losses as well as with additions or deductions of the remaining value of positive or negative goodwill calculated in accordance with the acquisition method. Negative goodwill is recognized in the income statement at the time of acquisition of the equity investment. If the negative goodwill relates to contingent liabilities acquired,

negative goodwill is not recognized until the contingent liabilities have been settled or lapsed.

Investments in group enterprises with a negative equity value are measured at DKK 0, and any accounts receivable from these enterprises are written down to the extent that the account receivable is uncollectible. To the extent that the Parent has a legal or constructive obligation to cover a negative balance that exceeds the account receivable, the remaining amount is recognized under provisions.

To the extent the equity exceeds the cost, the net revaluation of equity investments in group enterprises transferred to the reserve under equity for net revaluation according to the equity method. Dividends from group enterprises expected to be adopted before the approval of this Annual Report are not subject to a limitation of the revaluation reserve. The reserve is adjusted by other equity movements in group enterprises.

Newly acquired or newly established companies are recognized in the financial statement as of the time of acquisition. Sold or liquidated companies are recognized until the date of disposal.

On the acquisition of enterprises, the acquisition method, the uniting-of-interests method or the book value method is applied, cf. the above description under Business combinations.

### **Deposits**

Deposits are measured at amortized cost and represent lease deposits, etc.

### **Impairment loss relating to non-current assets**

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Write-down for impairment is done to the recoverable amount if this value is lower than the carrying amount.

### **Receivables**

Receivables are measured at amortized cost, which usually corresponds to nominal value.

In order to meet expected losses, impairment takes place at the net realizable value. If an objective indication shows that an individual account receivable has been impaired, an impairment takes place at individual level.

### **Contract work in progress**

Contract work in progress is measured at the selling price of the work performed. The selling price is measured on the basis of the stage of completion on the reporting date and the total expected income from the individual work in progress. The stage of completion is calculated as the share of costs incurred in proportion to the estimated total costs of the individual work in progress.

When the selling price of the individual work in progress cannot be determined reliably, the selling price is measured at the costs incurred or at net realizable value, if this is lower.

The individual work in progress is recognized in the statement of financial position under accounts receivables or liabilities. Net assets consist of the sum of the work in progress, where the selling price of the work performed exceeds invoicing on account. Net liabilities consist of the sum of the work in progress, where invoicing on account exceeds the selling price.

Costs in connection with sales work and the procurement of contracts are recognized in the income statement when incurred.

### **Prepayments**

Prepayments recognized under assets comprise incurred costs concerning the following financial year.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand.

## **Equity**

### **Treasury shares**

Purchase prices and sales prices of own shares are recognized directly in equity. The capital reduction arising from the cancellation of own shares will reduce the share capital by an amount corresponding to the nominal value of the shares and increase the results brought forward, respectively.

The dividend of own shares is recognized directly in equity under retained earnings.

### **Reserve for net revaluation according to the equity method**

The reserve for net revaluation according to the equity method comprises net revaluation of equity investments in subsidiaries, associates and equity interests proportional to cost.

The reserve may be eliminated in the event of losses, realization of equity investments, or changes in the accounting estimates.

The reserve cannot be recognized by a negative amount.

### **Reserve for development costs**

The reserve for development costs comprises recognized development costs less related deferred tax liabilities.

The reserve cannot be used as dividends or for covering losses.

The reserve is reduced or dissolved if the recognized development costs are amortized or abandoned. This is done by direct transfer to the distributable reserves of the equity.

### **Dividend**

Dividend expected to be distributed for the year is recognized as a separate item under equity.

### **Income tax and deferred tax**

Current tax liabilities and current tax receivable are recognized in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the Statement of Financial Position. Deferred tax is measured at net realizable value.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognized at the value at which they are expected to be realizable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realizable value.

## Provisions

Provisions comprise expected costs of warranty commitments, loss on work in progress, restructuring, etc. Provisions are recognized when the group has a legal or actual commitment resulting from a previously occurred event and when it is probable that the settlement of the liability will result in consumption of the financial resources of the Group.

Provisions are measured at net realizable value or at fair value. If the fulfilment of a liability is expected to take place far in the future, the liability is measured at fair value.

## Liabilities other than provisions

Financial liabilities other than provisions related to borrowings are recognized at the received proceeds less transaction costs incurred. In subsequent periods, the financial liabilities are recognized at amortized cost, corresponding to the capitalized value when using the effective interest rate. The difference between the proceeds and the nominal value is recognized in the income statement during the term of the loan.

Mortgage loans and bank loans are thus measured at amortized cost which, for cash loans, corresponds to the outstanding payables. For bond loans, the amortized cost corresponds to an outstanding payable calculated as the underlying cash value at the date of borrowing, adjusted by amortization of the market value on the date of the borrowing effectuated over the repayment period.

Also, capitalized residual leasing liabilities associated with financial leasing contracts are recognized in the financial liabilities.

Liabilities other than provisions relating to investment properties are measured at amortized cost.

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortized cost which usually corresponds to the nominal value.

## Statement of Cash Flows

The Statement of Cash Flows shows the cash flows of the Group for the year, divided in cash flows deriving from operating activities, investment activities and financing activities, respectively, the changes in the liabilities, and Group's cash and cash equivalents at the beginning and the end of the year, respectively.

The effect on cash flows derived from the acquisition and sale of enterprises appears separately under cash flows from investment activities. In the Statement of Cash Flows, cash flows derived from acquirees are recognized as of the date of acquisition, and cash flows derived from sold enterprises are recognized until the date of sale.

### Cash flows from operating activities

Cash flows from operating activities are calculated as the Group's share of the profit adjusted for non-cash operating items, changes in the working capital, and corporate income tax paid. Dividend income from equity investments is recognized under "Interest income and dividend received".

### Cash flows from investment activities

Cash flows from investment activities comprise payments in connection with the acquisition and sale of enterprises and activities as well as the acquisition and sale of intangible assets, property, plant, and equipment, and investments, respectively.

### Cash flows from financing activities

Cash flows from financing activities include changes in the size or the composition of the Group's share capital and costs attached to it, as well as raising loans, repayments of interest-bearing payables and payment of dividend to shareholders.

### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and short-term financial instruments with a term of less than 3 months, which can easily be converted into cash and cash equivalents and are associated with an insignificant risk of value change.

	Cash and cash equivalents at 30 June 2024	18,681,477	12,229,006

# Notes

## 1. Uncertainties relating to going concern

During the financial year the company has lost more than 50 % of its share capital and, as a result, the Company is subject to the capital loss rules of the Danish Companies Act. After year end the equity has been reestablish through a loan conversion and capital contribution from the Parent Company.

The Management expect to receive further capital contribution from the Parent Company to cover the expected loss for the following financial year.

The Management finds the principles of going concern to be met.

## 2. Staff costs

**GuideVision, s.r.o.**

# Independent Auditor's Report

To the Shareholder of GuideVision, s.r.o.

Having its registered office at: Türkova 2319/5 b, Chodov, 149 00 Prague 4

## Opinion

We have audited the accompanying financial statements of GuideVision, s.r.o. consolidation group (the "Group") prepared on the basis of accounting regulations applicable in the Czech Republic, which comprise the consolidated balance sheet as at 31 December 2024, the consolidated profit and loss account, the statement of changes in equity, the consolidated cash flow statement and notes to these consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements give a true and fair view of the financial position of the consolidation group as at 31 December 2024, of its consolidated financial performance and consolidated cash flows for the year then ended in accordance with accounting regulations applicable in the Czech Republic.

## Basis for Opinion

We conducted our audit in accordance with the Act on Auditors and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application guidelines. Our responsibilities under this law and regulation are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Other Information in the Consolidated Annual Report

Pursuant to Section 2(b) of the Auditors Act, other information is information in the annual report other than the consolidated financial statements and our Auditor's report. Other information is the responsibility of the Company's statutory executives.

Our opinion on the consolidated financial statements does not relate to other information. Nevertheless, part of our responsibility in relation to the audit of the consolidated financial statements is to read the other information and to assess whether the other information is materially consistent with the consolidated financial statements or our knowledge of the entity and the consolidation group obtained in the course of the audit of the consolidated financial statements or otherwise appears to be materially misstated. We also consider whether the other information has been prepared, in all material respects, in accordance with applicable legislation. This assessment means whether the other information complies with the legal requirements for the form and preparation of other information in the context of materiality, i.e. whether any failure to comply with those requirements would be likely to affect the judgement made on the basis of the other information.

On the basis of the procedures performed, to the extent that we are able to assess, we conclude that:

- The other information, which describes the facts that are also presented in the consolidated financial statements, is consistent in all material respects with the consolidated financial statements.
- The other information has been prepared in accordance with applicable legislation.

We are also required to state whether, based on our knowledge and understanding of the Company obtained in the course of our audit, the other information is free from material misstatement. As part of those procedures, we did not identify any material misstatements in the other information received.

## Responsibilities of the Company's Statutory Executives for the Consolidated Financial Statements

The Statutory Executives are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting regulations applicable in the Czech Republic and for such internal control as the Statutory Executives determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Statutory Executives are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Statutory Executives either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement

when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Statutory Executives.
- Conclude on the appropriateness of the Statutory Executives' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Statutory Executives regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# General Information

GuideVision, s.r.o. has prepared a consolidated annual report for 2024 pursuant to Section 22b of Act No. 563/1991 Coll., on Accounting.

## 1.1. Definition of the Consolidation Group

GuideVision, s.r.o., together with its fully owned subsidiaries, forms a group (the "GuideVision Group") that is subject to the obligation to prepare consolidated financial statements.

The companies listed below are included in the consolidated group:

### Parent company:

GuideVision, s.r.o., Türkova 2319/5 b, Chodov, 149 00 Praha 4, Czech Republic

### Subsidiaries:

GuideVision Polska Sp. z o.o., Wołoska 18/, 02-675 Warszawa, Poland

GuideVision Suomi Oy, Urho Kekkosen katu 4-6 E, 00100 Helsinki, Finland

GuideVision Magyarország Kft., Fehérvári út 79, 1119 Budapest, Hungary

GuideVision Deutschland GmbH, Parkring 2, 85748 Garching b. München, Germany

GuideVision UK Ltd, 71-75 Shelton Street, WC2H 9JQ London, Great Britain

## 1.2. Description of Services Provided

The Group's principal activity is provision of advisory, consulting, and implementation services in the field of information technology in the Central and Eastern Europe region.

GuideVision provides its international clients with strategic advisory, expertise and innovative technical practices.

## 1.3. ServiceNow Product Description

The Group specialises in the supply, implementation and post-implementation support of the American product ServiceNow from the American company of the same name.

ServiceNow is an enterprise cloud platform that helps companies digitalise business processes and the employee experience. It is designed especially for larger corporations with a large headcount.

Thanks to a series of successful projects, the Group was ranked among the top ten ServiceNow Elite Partners in 2021 and recognised as one of the top three specialised ServiceNow Elite Partners globally—a position it plans to maintain. In early 2025, the Group achieved the highest level of partnership, becoming a ServiceNow Global Elite Partner as a subsidiary of Infosys.

## 1.4. SnowMirror Product Description

SnowMirror is an internally developed product of the parent company, GuideVision, s.r.o., which it sells to its customers. It is a data replication tool for the ServiceNow platform that improves its performance and enables the creation of custom reports.

The parent company sells licenses for this product. During its existence, the Group has sold this product to hundreds of customers worldwide.

## 1.5. Cooperation with Infosys

In October 2020, the GuideVision Group became part of the international Infosys Group. Thanks to this integration, it has gained a global business scope and the opportunity to bid for and work on large contracts that would be difficult to achieve without a strategic partner.

GuideVision has grown significantly over more than four years of collaboration with Infosys, acquiring dozens of new customers and successfully completing numerous projects together with Infosys. The Group aims to continue this trend in the upcoming period.

## 2. Additional information

### 2.1. Financial Performance of the Consolidated Entity in 2024

The Group's consolidated net profit amounts to CZK 75,890 thousand, which represents a modest increase compared to 2023 (CZK 69,094 thousand).

The average recalculated headcount in 2024 was 212 (2023: 242).

### 2.2. Information on Events that Occurred subsequent to the Balance Sheet Date that are Material to the Purpose of this Annual Report

The statutory executives of the parent company are not aware of any matters that occurred subsequent to the balance sheet date that would require disclosure in the consolidated annual report.

### 2.3. Information on the Anticipated Development of the Entity's Activities

The Group does not anticipate any significant changes to the business in 2025. It anticipates a steady increase in sales volume. The Group's objective for 2025 remains primarily to provide top quality service and customer satisfaction. In the medium term, the Group plans to expand into the markets of the Scandinavian countries and the DACH region.

The statutory executives of the parent company are not aware of any matter or circumstance that occurred subsequent to the reporting period that would or may have a material impact on the Group's operations, its results or financial position in the following financial years.

### 2.4. Other Information

The Group has no research activities; a natural part of its activities includes development of software solution and its maintenance or improvement.

The Group does not own any treasury shares.

In providing services, the Group strives to be as energy, water and other raw materials efficient as possible.

The Group complies with all obligations arising from labour relations as stipulated by the Labour Code.

The Group does not have a branch or other part of a business plant abroad. The individual subsidiaries included in the GuideVision Group operate abroad as independent companies under the legislation of their respective countries.

# General Information

## 1.1. Incorporation and Description of the Consolidating Entity

GuideVision, s.r.o. (hereinafter referred to as the “Parent Company”) was formed by a Deed of Association as a limited liability company on 1 August 2014 and was incorporated following its registration in the Register of Companies held by the Court in Prague on 27 August 2014. The Company’s principal business activities focus on information technology.

The following table shows individuals and legal entities with an equity interest greater than 20% and the amount of their equity interest:

Shareholder/Owner	Ownership percentage
Infy Consulting Company Limited Registration No.: 06087315 Registered office: 14 <sup>th</sup> Floor, 10 Upper Bank Street, Canary Wharf, London, E14 5NP, United Kingdom of Great Britain and Northern Ireland	100%
Total	100 %

## 1.2. Statutory Body at the Balance Sheet Date

	Position	Name
Statutory executive		Norbert Nagy
Statutory executive		Radovan Krejčí

## 1.3. Group Identification

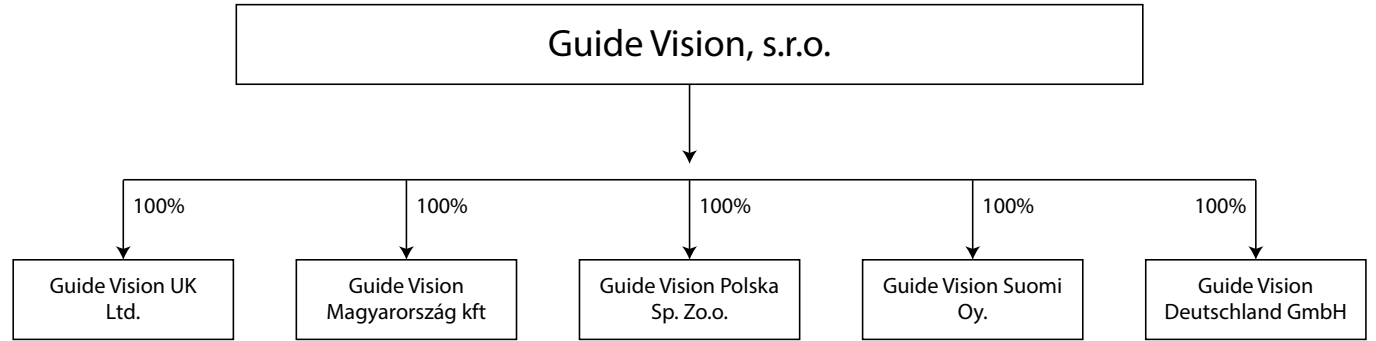

GuideVision, s.r.o. is part of a group. The consolidated financial statements for the widest group of entities are prepared by Infosys Limited, a company registered in the Republic of India.

The consolidated financial statements for the narrowest group of entities are prepared by Infy Consulting Company Limited, a company registered in the United Kingdom of Great Britain and Northern Ireland.

Both consolidated entities present their financial statements in compliance with their respective country’s regulations.

# 2. Definition of the consolidation group (hereinafter referred to as the “GuideVision group”)

## 2.1. Organisational Chart of the Group

### 2.1.1. Overview of Group Entities

Name	Registered office	Equity investment percentage	Level of control	Consolidation method
GuideVision, s.r.o.	Türkova 2319/5 b, Chodov, 149 00 Prague 4	consolidating entity	n/a	n/a
GuideVision Polska Sp. z o.o.	Wołoska 18/, 02-675 Warszawa	100	Subsidiary	Full consolidation
GuideVision Suomi Oy	Urho Kekkosen katu 4-6 E, 00100 Helsinki	100	Subsidiary	Full consolidation
GuideVision Magyarország Kft	Fehérvári út 79, 1119 Budapest	100	Subsidiary	Full consolidation
GuideVision UK Ltd	71-75 Shelton Street, WC2H 9JQ London	100	Subsidiary	Full consolidation
GuideVision Deutschland GmbH	Parkring 2, 85748 Garching b. München	100	Subsidiary	Full consolidation

The consolidation group includes all entities in which the parent entity has an interest.

The financial statements of all companies included in the Group are presented in compliance with the regulations applicable in the respective country. They are also available for consolidation purposes at the registered office of the Parent Company.

No change occurred in the structure of the Group in 2024. No subsidiaries have been included or eliminated. In 2025, the parent company plans to liquidate GuideVision UK Ltd., whose business activities were taken over by the parent company GuideVision s.r.o.

The balance sheet date of all companies included in the Group is 31 December 2024.

## 2.2. Subsidiaries

The following table shows information on the Group's subsidiaries as of 31 December 2024:

Name	Place of incorporation (or registration) and operation	Ownership percentage %	Voting rights %	Principal activity
GuideVision Polska Sp. z o.o.	Warsaw, The Republic of Poland	100	100	Provision of IT consulting services
GuideVision Suomi Oy	Helsinki, Finland	100	100	Provision of IT consulting services
GuideVision Magyarország Kft	Budapest, Hungary	100	100	Provision of IT consulting services
GuideVision UK Ltd	London, United Kingdom	100	100	Provision of IT consulting services
GuideVision Deutschland GmbH	Meissen, The Federal Republic of Germany	100	100	Provision of IT consulting services

## 3. Accounting principles and policies

The Group's accounting books and records are maintained and the financial statements were prepared in accordance with Accounting Act No. 563/1991 Coll., as amended; Regulation No. 500/2002 Coll., which provides implementation guidance on certain provisions of the Accounting Act for reporting entities that are businesses maintaining double-entry accounting records, as amended; and Czech Accounting Standards for Businesses, as amended.

The accounting records are maintained in compliance with general accounting principles, specifically the historical cost valuation basis (unless stated otherwise), the accruals principle, the prudence concept and the going concern assumption.

For the purpose of the preparation of the consolidated financial statements of the GuideVision Group, the accounting policies within the Group have been consolidated. The significant accounting policies as applied by each company are described below.

The Group's consolidated financial statements have been prepared as of the balance sheet date, i.e. 31 December 2024, for the calendar year ended 31 December 2024.

These financial statements are presented in thousands of Czech crowns (CZK '000), unless stated otherwise.

### 3.1. Impact of the Invasion of Ukraine and on the Group's Operation and Going Concern Assumption

The Group's management assesses the adverse effects of the conflict in Ukraine in general terms, particularly in view of the deteriorating fiscal situation and economic recession in the EU countries.

The management does not anticipate that the impact of the ongoing conflict in Ukraine will lead to losses or disruption to the Company's normal operations and business activities.

### 3.2. Scope and Method of Consolidation

Consolidation is performed in accordance with the relevant direct consolidation method. Direct consolidation means that all entities within a group are consolidated at the same time, without the use of possible consolidated financial statements prepared for sub-groups.

The group of companies comprises the Parent Company GuideVision, s.r.o. and its subsidiaries. The definition of subsidiaries is stated below.

#### 3.2.1. Subsidiary

Equity investments in companies whose financial and operating processes can be controlled by the parent company in order to obtain benefits from their activities are classified as Equity investments in controlled entities.

For the purposes of consolidation, a subsidiary is defined as a company in which the Parent Company has a controlling influence through the ownership of more than 50% of the share capital.

These companies are consolidated using the full consolidation method.

### 3.3. Full Consolidation Procedure

#### 3.3.1. Description of the Full Consolidation Method

Full consolidation method means:

- the inclusion of individual components of the balance sheets and profit and loss accounts of subsidiaries in the Parent Company's balance sheet and profit and loss account in full after reclassification and adjustments, if any,
- the elimination of accounting transactions between the Group's entities that represent intercompany relationships,
- the recognition of a potential consolidation difference and its amortisation,

### 3.3.2. Full Consolidation Method Stages

Reclassifications and adjustments of items in the financial statements of the Parent Company and its subsidiaries.

The information for the Parent Company and its subsidiaries is reclassified considering the items added to the consolidated balance sheet and consolidated profit and loss account and their content.

Adjustments are made in accordance with the valuation principles specified in the consolidation rules. Adjustments of this kind will be made only for those subsidiaries whose valuation principles differ from those stipulated in the consolidation rules and would materially affect the view of the valuation of assets in the consolidated financial statements and the reported profit or loss.

The figures from financial statements of subsidiaries with their registered offices abroad maintaining their accounts in a foreign currency are translated at the exchange rate prevailing on the date on which the consolidated financial statements are prepared. The difference arising from the year-on-year exchange rate change is reflected in the special revaluation fund – refer to the note on Equity.

**Adjustments to the valuation of assets and liabilities of a subsidiary.**

If the valuation of assets and liabilities in the accounting records of subsidiaries differs significantly from the fair value, a valuation adjustment is made to reflect the fair values of assets and liabilities at the date of acquisition or at the date of increase in the equity interest in connection with the determination of the consolidation difference. The relevant assets and liabilities of the subsidiary are included in the consolidated financial statements at this adjusted valuation amount.

When adjustments are made to the valuation of assets and liabilities in accordance with the paragraph above, adjustments are also made to reflect the differences between the transactions occurring subsequent to the date of acquisition or increase in the equity interest as a result of the relevant assets or liabilities being charged or credited to the profit or loss of the subsidiary as valued in the subsidiary's accounts, and those transactions recognised (valued) following the adjusted valuation of the relevant items of assets and liabilities for consolidation purposes.

**Summary of the Parent Company's and its subsidiaries' financial statements.**

The Parent Company aggregates the reclassified and adjusted figures in its financial statements with the reclassified and adjusted figures in the financial statements of its subsidiaries.

**Intercompany transactions between the Parent Company and its subsidiaries are eliminated.**

Accounting transactions with no effect on the profit or loss are eliminated.

- Intercompany receivables and payables, and expenses and income within the Group that have a material impact on assets, liabilities and the profit or loss items in the consolidated financial statements are completely eliminated.

Elimination of accounting transactions with impact on profit or loss.

- The preparation of the consolidated balance sheet and the consolidated profit and loss account eliminates transactions between the Parent Company and a subsidiary, or intercompany transactions between subsidiaries, that have a material impact on the profit or loss of the Group with regards to accruals and deferrals, including in the following cases:

- a) intercompany sales and purchases of inventory or services,
- b) intercompany sales and purchases of fixed assets,
- c) intercompany dividends or profit shares received and paid.

The application of the full consolidation method eliminates transactions between the Parent Company and its subsidiaries and intercompany transactions between subsidiaries.

The elimination of transactions affecting each other's profit or loss is made in accordance with the consolidation rules declared.

The income item in the consolidated profit and loss account is reduced by the dividend or profit share income received, while the accumulated profits or losses brought forward in the consolidated balance sheet are increased or reduced, respectively.

#### Consolidation difference

The consolidation difference is the difference between the acquisition cost of the subsidiary's interests and their valuation according to the Parent Company's equity interest stated at fair value, which arises from the difference between the fair values of assets and the fair values of liabilities at the date of acquisition or at the date of further increase in the interest (further acquisition of securities or shares). The acquisition date is the date on which the controlling entity effectively begins to exercise control over the consolidated entity.

The consolidation difference is amortised over 20 years on a straight-line basis. The consolidation difference is recognised through the positive consolidation difference or negative consolidation difference items and is charged or credited to expenses or income from ordinary activities, respectively.

#### Elimination of equity securities and investments

The shares issued by the subsidiary and the equity of the subsidiary that is attributable to the investment held by the parent company will be excluded from the consolidated balance sheet.

### 3.4. Tangible and Intangible Fixed Assets

As of 1 January 2022, fixed assets are defined as all assets with an estimated useful life greater than one year and acquisition cost greater than CZK 5 thousand. This limit applies to both tangible and intangible assets. The exception is mobile phones, for which the limit for classification as fixed assets was set at CZK 10 thousand, and office furniture, for which the limit for classification as assets was set at CZK 15 thousand.

Purchased tangible and intangible fixed assets are stated at cost less accumulated depreciation and provisions, if any.

The cost of fixed asset improvements exceeding CZK 5 thousand for individual tangible assets for the reporting period increases the acquisition cost of the related fixed asset.

The cost of tangible and intangible fixed assets is depreciated/amortised over the estimated useful life of the assets using the straight-line method.

Type of assets	Depreciation method	Number of years
Computers and accessories	straight line	3
Office equipment and furniture	straight line	5
Vehicles	straight line	5
Software and other intangible assets	straight line	3-5*

\*for the expected useful life of the respective software

Assets held under finance leases are depreciated by the lessor, however there are no finance leases.

### 3.5. Financial Assets

Financial assets with maturity or intent to hold exceeding one year are reported as non-current. Financial assets with maturity or intent to hold up to one year are recognised as current.

### 3.6. Receivables

Upon origination, receivables are stated at their nominal value as subsequently reduced by appropriate provisions.

### 3.7. Payables

Payables are stated at nominal value.

### 3.8. Loans

Loans are stated at their nominal value. The portion of long-term loans maturing within one year from the balance sheet date is included in short-term loans.

### 3.9. Reserves

Reserves are intended to cover liabilities and expenditure the nature of which is clearly defined, and which are either likely to be incurred or certain to be incurred as of the balance sheet date but uncertain as to their amount or as to the date on which they will arise.

The Group recognises reserves for outstanding vacation days, unused points in the Cafeteria benefit scheme (or equivalent benefit scheme in the respective country), performance bonuses and management (ESOP, EIP) and sales staff bonuses.

### 3.10. Foreign Currency Translation

Transactions of the Parent Company denominated in foreign currencies during the year are translated using the exchange rate of the Czech National Bank prevailing on the date of the transaction. As of the date of the financial statements, the Parent Company's foreign currency assets and liabilities are translated using the exchange rate of the Czech National Bank prevailing on the date of the financial statements.

The financial statements of foreign companies entering into consolidation are translated into CZK using the exchange rate of the Czech National Bank as of 31 December 2024.

### 3.11. Revenue Recognition

Revenue from the sale of consultancy services is recognised either on the basis of a statement of the actual hours worked at the client's site in the previous month (so-called "time and material" projects, hereinafter referred to as "TM projects") or after a certain milestone has been reached as specified in the project's contract documentation (so-called "fix time-fix price" projects, hereinafter referred to as "FTFP projects").

The Group recognises revenue from TM projects using estimates in the month to which they relate in terms of time and substance. Actual billing is always delayed by one month and is based on a written approval of the number of hours worked at the client's site.

If there is an FTFP project in progress at the end of the reporting period, the entity records work-in-progress at the cost of inputs, net of profit margin.

Revenue from the sale of licences is accrued on a time basis according to the term of the licence sold. The monthly amount released in revenue is calculated with the precision of days. On the accruals basis, sales of licences correspond to the cost of purchased licenses held for resale.

Revenue is measured at the value of the consideration received or receivable and represents amounts receivable for services provided in the normal course of business, net of discounts, value added tax and other sales related taxes.

### 3.12. Use of Estimates

The presentation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Management of the Group has made these estimates and assumptions on the basis of all the relevant information available to it. Nevertheless, pursuant to the nature of estimates, the actual results and outcomes in the future may differ from these estimates.

### 3.13. Cash Flow Statement

The cash flow statement is prepared using the indirect method. Cash equivalents include current liquid assets which are easily convertible into cash in an amount agreed in advance and not expected to be subject to material fluctuations in value over time. Cash and cash equivalents correspond to the items reported under line item C.IV. Cash in the consolidated balance sheet.

Cash flows from operating, investment and financial activities presented in the cash flow statement are not offset.

Cash flows relating to payables from financing (line item C.1.) include, for the purposes of the cash flow statement, short-term and long-term liabilities to credit institutions or related parties.

### 3.14. Derivatives

The Group uses derivative financial instruments as effective hedging instruments in accordance with the Group's risk management strategy. The Group's currency risk hedging is performed solely by the Parent Company.

The Parent Company does not evidence the fulfilment of hedge accounting criteria under Czech Accounting Standards and

hence the derivatives are not accounted for as hedges. These derivatives are recognised as derivatives held for trading.

Derivatives held for trading are carried at fair value at the balance sheet date. In determining fair value, the Company has referred to market values.

Fair value changes in respect of trading derivatives are recognised as part of profit or loss for the current period.

### 3.15. Net Turnover for the Reporting Period

In the current period, due to the change in accounting legislation, the method of calculating the net turnover for the reporting period was changed. The net turnover information presented in the financial statements for the prior reporting period is not comparable with the information for the current period and is not therefore presented in the prior period's information in accordance with Section 4(7) of Regulation No. 500/2002 Coll., as amended.

Method of calculating the net turnover indicator:

- For the year 2023, the indicator was determined as the sum of all revenues recorded on the respective lines of the profit and loss account in the financial statements for the year 2023.
- For the year 2024, the indicator was determined as the sum of revenues from the sale of products, goods and services, as well as revenues from the sale of licences generated internally. These are only selected revenues on which the entity's business model is based, determined by taking into

account the industry and market in which the entity operates, and the nature of the activity carried out for customers.

If the net turnover indicator for the year 2023 were determined using the methodology applied for the year 2024, its value would amount to CZK 666,408 thousand.

### 3.16. Top-up Tax

The Company is subject to a top-up tax. The calculation of the top-up tax charge is based on the information available at the financial statements date. The top-up tax was not taken into account in the calculation of deferred tax. The management of the parent company assumes that the impact of the top-up tax on the entities within the consolidation group will be either nil or insignificant, considering the effective tax rate or the application of transitional safe harbours.

### 3.17. Year-on-Year Changes in Accounting Policies, Changes in the Presentation of Reported Information, and Retention of Non-Comparable Information

There were no changes in accounting policies during 2023. In accordance with the November 2024 guidance issued by the Ministry of Finance of the Czech Republic concerning the structure of consolidated financial statements, the consolidated statement of cash flows and the consolidated statement of changes in equity were incorporated into the 2024 consolidated financial statements. Comparative information for 2023 was not presented in the consolidated statement of cash flows.

## 4. Additional information

### 4.1. Intangible Fixed Assets (IFA)

#### Cost

(CZK '000)

Particulars	Opening balance	Additions	Disposals	Transfers	Closing balance
Software and development	16 662	2 610	–	–	19 272
Total 2024	16 662	2 610	–	–	19 272
Total 2023	12 795	3 867	–	–	16 662

#### Provisions and accumulated amortisation

(CZK '000)

Particulars	Opening balance	Additions	Disposals	Transfers	Closing balance	Provisions	Net book value
Development	10 907	4 035	–	–	14 942	–	4 330
Total 2024	10 907	4 035	–	–	14 942	–	4 330
Total 2023	8 367	2 870	330	–	10 907	–	5 755

### 4.2. Tangible Fixed Assets (TFA)

#### Cost

(CZK '000)

Particulars	Opening balance	Additions	Disposals	Transfers	Closing balance
Tangible movable assets and their sets	6 947	9 377	1 791	–	14 533
Other TFA	699	–	699	–	–
Total 2024	7 646	9 377	2 490	–	14 533
Total 2023	6 666	2 880	1 863	–	7 683 <sup>(1)</sup>

## Provisions and Accumulated Depreciation

(CZK '000)

Particulars	Opening balance	Additions	Disposals	Transfers	Closing balance	Provisions	Net book value
Tangible movable assets and their sets	4 034	1 495	304	–	5 225	–	9 308
Other TFA	613	4	617	–	–	–	–
Total 2024	4 647	1 499	921	–	5 225	–	9 308
Total 2023	3 710	1 175	267	–	4 618 <sup>(1)</sup>	–	3 065

### 4.3. Settlement of the Consolidation Difference

(CZK '000)

Particulars	Value of the consolidation difference as of 1 Jan 2024	Amortisation of the consolidation difference	Value of the consolidation difference as of 31 Dec 2024
GuideVision Polska Sp. z o.o.	8	1	7

The value of the identified consolidation difference is immaterial.

<sup>(1)</sup> The difference between the opening balance of the current period and the closing balance of the prior period is attributable to the retranslation of items originating from foreign group entities using the exchange rate prevailing at the reporting date.

### 4.4. Short-Term Receivables

The Group records only short-term receivables. As of 31 December 2024, the Group records no trade receivables past their due dates for more than 90 days (31 December 2023: CZK 0 thousand).

The structure of other than Group receivables is presented in the following table:

(CZK '000)

Particulars	Balance at 31 December	
	2024	2023
Trade receivables	79 369	87 245
Receivables – controlled or controlling entity	81 880	79 526
Social security and health insurance contributions	–	–
State – tax receivables	3 225	3 182
Prepayments made	3 425	2 688
Estimated receivables	17 612	12 137
Sundry receivables	395	656
Receivables (excluding deferred tax asset)	185 906	185 434
Deferred tax asset	4 093	2 232
Total receivables	189 999	187 666

Receivables are not collateralised and do not serve as collateral for the Company's liabilities.

### 4.5. Derivatives

The Company did not use any derivatives during the reporting period.

### 4.6. Deferred Expenses and Accrued Income

The most significant item of deferred expenses and accrued income consists of purchased ServiceNow licenses intended for resale to end customers in the total amount of CZK 41,474

thousand (31 December 2023: CZK 7,136 thousand) in the Parent Company GuideVision, s.r.o.

### 4.7. Equity

The Parent Company's statutory body anticipates that the 2024 profit will be transferred to retained earnings brought forward and used to cover the future operating needs of the Company. A final decision has not yet been made.

The reported profit of prior years has increased from CZK 149,829 thousand at the end of 2023 to CZK 218,923 thousand due to the fact that the Parent Company's profit share for 2023 was not paid out during 2024.

The item Share premium and capital funds includes the cumulative effect of the year-on-year change in the exchange rate applied to include foreign subsidiaries in the consolidation.

### 4.8. Reserves

#### Other reserves

(CZK '000)

Particulars	Balance at 31 December	
	2024	2023
Outstanding vacation days	3 755	4 630
Unused points in the Cafeteria benefit scheme	25	–
Employee bonuses (performance bonuses)	6 445	2 311
EIP management bonuses	3 034	–
ESOP bonus programme	6 907	4 424
Bonuses for sales staff	674	438
Total other reserves	20 840	11 803

The most significant item in other reserves comprises a reserve for outstanding vacation days and ESOP bonus programme, which has gradually replaced retention and incentive bonuses, the payment of which was terminated in 2023. ESOP bonus programme serves to increase the involvement of management and other key staff in the performance of the Infosys Group.

Another significant item is the category of employee bonuses, which includes performance-based bonuses paid to employees twice a year in accordance with the approved bonus scheme.

In 2024, Executive Incentive Plan (EIP) bonuses were newly introduced for the Company's senior management. These bonuses are designed to enhance the alignment of top management's incentives with the overall performance of the Infosys Group.

#### 4.9. Short-Term Payables

The Group records only short-term payables. As of 31 December 2024, the Group records no payables past their due dates for more than 90 days (the situation was the same in 2023).

The structure of other than Group payables is presented in the following table:

	(CZK '000)	
	Balance at 31 December	
	2024	2023
Trade payables	18 207	5 053
Payables to employees	9 760	14 262
Social security and health insurance payables	6 469	7 738
State - tax payables and subsidies	15 731	9 667
Estimated payables	32 085	17 634
Sundry payables	357	2 422
Total	92 609	56 776

#### 4.10. Accrued Expenses and Deferred Income

The most significant item in accrued expenses and deferred income consists of the SnowMirror licences (an internally developed product) in the total amount of CZK 90,018 thousand (31 December 2023: CZK 80,411 thousand). Compared to the previous year, the accruals for ServiceNow licenses increased significantly, reaching CZK 48,913 thousand (31 December 2023: CZK 11,017 thousand). These are purchased licenses that the Group acquires and resells to end customers.

#### 4.11. Deferred Income Tax

The deferred tax calculation for the Czech tax jurisdiction as of 31 December 2024, was based on a rate of 21% (31 December 2023: 21%).

The Group recorded a deferred tax asset in the amount of CZK 4,093 thousand (31 December 2023: CZK 2,232 thousand) arising from temporary differences between tax and carrying amounts of assets and reserves.

The partial deferred tax asset for tax losses in the subsidiaries that have incurred losses has not yet been recorded due to the prudence principle – the uncertainty in the utilisation of these losses. The Group's management will periodically review the assumptions for the utilisation of these losses in future reporting periods.

#### 4.12. Income from Ordinary Activities

The most significant income items include consulting services provided in the implementation of the ServiceNow product and sales of ServiceNow and SnowMirror licenses ("SN" and "SM").

	(CZK '000)	
	Balance at 31 December	
	2024	2023
SN Consulting services – TM projects	472 625	530 716
SN Consulting services – FTFP projects	1 245	5 610
Post-implementation support and training	17 918	21 368
Sales of SN+SM licences	152 558	108 714
Total sales of own products and services	644 346	666 408

#### 4.13. Employees, Management and Statutory Bodies

The following table summarises the average headcount of GuideVision's employees and managers for the years ended 31 December 2024 and 31 December 2023:

##### 2024

	(CZK '000)	
	Number of staff	Total staff costs in CZK '000
Employees	205	284 743
Management	7	21 950
Total	212	306 693

##### 2023

	(CZK '000)	
	Number of staff	Total staff costs in CZK '000
Employees	242	344 347
Management	7	28 419
Total	249	372 766

The number of employees is based on the average headcount during the reporting period.

The management of the Company is defined at the level of "top management", which consists of three persons in the management of the Parent Company and four persons in the position of "management directors" in the subsidiaries.

#### 4.14. Significant Post-Balance Sheet Events

No events occurred subsequent to the balance sheet date that would have a material impact on the Company's financial statements.

## Infosys Automotive and Mobility GmbH & Co.KG

# Independent Auditor's Report

To the Members of Infosys Automotive and Mobility GmbH & Co.KG.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Automotive and Mobility GmbH & Co.KG ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Company overview and significant accounting policies

## Company overview

Infosys Automotive and Mobility GmbH & CoKG ("the Company") is a wholly-owned subsidiary of Infosys Limited. The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose consolidated financial statements are prepared for inclusion in the Annual Report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act, 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Euro.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions. These estimates and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company

assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

Fixed price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed price maintenance contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

### 1.6 Financial instruments

#### 1.6.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial

recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.6.2 Subsequent measurement

#### a. Non-derivative financial instruments

##### *(i) Financial assets carried at amortised cost*

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### *(ii) Financial assets at fair value through other comprehensive income*

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### *(iii) Financial assets at fair value through profit or loss*

A financial asset that is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### *(iv) Financial liabilities*

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination that is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 1.7 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

### 1.8 Impairment

#### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenues, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from

initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of Profit and Loss.

#### b. Non-financial assets

##### *(i) Property, plant and equipment*

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation), had no impairment loss been recognized for the asset in prior years.

### 1.9 Foreign currency

#### Functional currency

The functional currency of the Company is the Euro (EUR).

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss and reported within exchange gains / (losses) on translation of assets and liabilities. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.10 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.11 Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of the past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.12 Other income

Other income primarily comprises interest income and exchange gain / loss on translation of other assets and liabilities. Interest income is recognised using effective interest method.

### 1.13 Borrowing costs

Borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

	(In €)		
Particulars	Computer equipment	Gross – Software	Total
Gross carrying value as of January 1, 2024	–	–	–
Additions	865,755	159,463	1,025,218
Deletions	–	–	–
Gross carrying value as of December 31, 2024	865,755	159,463	1,025,218
Accumulated depreciation as of January 1, 2024	–	–	–
Depreciation	(33,711)	(37,718)	(71,429)
Accumulated depreciation on deletions	–	–	–
Accumulated depreciation as of December 31, 2024	(33,711)	(37,718)	(71,429)
Carrying value as of December 31, 2024	832,044	121,745	953,789

## 2.2 Leases

### Accounting policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset; (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease; and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a Right-Of-Use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The changes in carrying value of right of use assets for the years ended December 31, 2024 and December 31, 2023 are as follows:

(In €)		
Particulars	Category of ROU asset Computer equipment	Total
Balance as of January 1, 2023	124,685,612	124,685,612
Additions	71,262,859	71,262,859
Deletion	–	–
Depreciation <sup>(1)</sup>	(43,562,036)	(43,562,036)
Balance as of December 31, 2023	152,386,435	152,386,435
Additions	66,654,092	66,654,092
Deletion	(43,681,001)	(43,681,001)
Depreciation <sup>(1)</sup>	(52,910,170)	(52,910,170)
Balance as of December 31, 2024	122,449,355	122,449,355

<sup>(1)</sup> Includes cost to fulfill the contract, which are recoverable

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The break-up of current and non-current lease liabilities as at December 31, 2024 and December 31, 2023 is as follows:

(In €)		
Particulars	As at December 31,	
	2024	2023
Current lease liabilities	105,759,565	67,778,485
Non-current lease liabilities	117,926,701	153,635,023
Total	223,686,265	221,413,509

The movement in lease liabilities during the year ended December 31, 2024 and December 31, 2023 is as follows:

(In €)		
Particulars	As at December 31,	
	2024	2023
Balance at the beginning	221,413,509	148,470,287
Additions	75,034,198	116,528,181
Finance cost accrued during the period	6,249,918	5,591,061
Deletions	1,562,290	–
Payment of lease liabilities	78,185,782	48,909,596
Translation difference	736,713	(266,423)
Balance at the end	223,686,265	221,413,509

The details regarding the contractual maturities of lease liabilities as at December 31, 2024 and December 31, 2023 on an undiscounted basis are as follows:

Particulars	(In €)	
	As at December 31,	
	2024	2023
Less than one year	86,354,431	68,082,444
One to five years	144,282,712	159,821,896
Total	230,637,143	227,904,341

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The following is the movement in the net investment in lease during the year ended December 31, 2024 and December 31, 2024.

Particulars	(In €)	
	As at December 31,	
	2024	2023
Balance at the beginning	109,854,985	42,310,488
Addition	69,145,669	85,345,058
Interest	1,673,260	850,960
Lease receipts	(29,069,447)	(18,651,521)
Balance at the end	151,604,467	109,854,985

## 2.3 Capital work-in-progress

Particulars	(In €)	
	As at December 31,	
	2024	2023
Capital work-in-progress	297,144	–
Total capital work in progress	297,144	–

The capital work-in-progress schedule for the year ended December 31, 2024 and December 31, 2023 is as follows:

Total trade payables	21,970,533	10,337,466	–	–	–	32,307,999
	27,749,591	402,751	10,449,737	–	–	38,602,079

## 2.14 Borrowings

Particulars	As at December 31,	
	2024	2023
Current		
Unsecured loan	164,462,680	193,911,195
Total borrowings	164,462,680	193,911,195
<sup>(1)</sup> Includes dues from other fellow subsidiaries (Refer to Note 2.21)	164,458,783	193,911,195

## 2.15 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

Particulars	As at December 31,	
	2024	2023
Assets		
Cash and cash equivalents (Refer to Note 2.9)	34,879,602	47,545,270
Trade receivables (Refer to Note 2.8)	81,132,355	89,392,572
Other financial assets (Refer to Note 2.5) <sup>(1)</sup>	362,136,240	303,479,875
Total	478,148,197	440,417,717
Liabilities		
Trade payables (Refer to Note 2.13)	32,307,999	38,602,079
Borrowings (Refer to Note 2.14)	164,462,680	193,911,195
Lease liabilities (Refer to Note 2.2)	223,686,265	221,413,509
Other financial liabilities (Refer to Note 2.11)	355,556,328	297,309,685
Total	776,013,273	751,236,468

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

All the above financial instruments are carried at amortized cost and the carrying values approximate their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: Market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign-exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently, the Company is exposed to foreign exchange risk through its sales and services and purchases from overseas suppliers in various foreign

currencies. The exchange rate between the Euro and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the Euro appreciates / depreciates against these currencies.

The foreign currency risk from financial assets and liabilities as at December 31, 2024 is as follows:

(In €)						
Particulars	US dollar	INR	IDR	Australian dollar	Other currencies	Total
Net financial assets	(461,250)	351	750,716	–	785,793	1,075,610
Net financial liabilities	(46,994,237)	(52,714)	–	–	(163,401)	(47,210,352)
Total	(47,455,487)	(52,363)	750,716	–	622,392	(46,134,742)

The foreign currency risk from financial assets and liabilities as at December 31, 2023 was as follows:

(In €)						
Particulars	US dollars	INR	IDR	Australian dollars	Other currencies	Total
Net financial assets	(447,455)	762,292	728,264	–	341	1,043,441
Net financial liabilities	(45,588,754)	(155,051)	–	–	(4,334)	(45,748,139)
Total	(46,036,209)	607,241	728,264	–	(3,993)	(44,704,698)

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to €8,132,355 as at December 31, 2024. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by credit rating agencies.

### Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents. The Company has taken a loan from its related party to meet its working capital requirements.

As of December 31, 2024 and December 31, 2023, the Company had cash and cash equivalents of €34,879,602 and €47,545,270, respectively.

The details regarding the contractual maturities of significant financial liabilities as at December 31, 2024 are as follows:

(In €)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	32,307,999	–	–	–	32,307,999
Borrowings	173,359,314	–	–	–	173,359,314
Other financial liabilities on an undiscounted basis	354,622,231	934,097	–	–	355,556,328

The details regarding the contractual maturities of significant financial liabilities as at December 31, 2023 are as follows:

(In €)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	38,602,079	–	–	–	38,602,079
Borrowings	206,326,429	–	–	–	206,326,429
Other financial liabilities on an undiscounted basis	292,707,656	4,602,029	–	–	297,309,685

## 2.16 Revenue from operations

(In €)

Particulars	Year ended December 31,	
	2024	2023
Income from software services	332,577,289	350,904,345
Income from products and platforms	57,831,171	71,582,752
Total revenue from operation	390,408,460	422,487,096

### Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections result in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon the achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time-and-material contracts and fixed-price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract and therefore, the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed-price contracts (contract assets) are classified as non-financial assets because the right to consideration is dependent on the completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the years ended December 31, 2024 and December 31, 2023, the Company recognized revenue of €5,380,013 and €2,790,189 arising from opening unearned revenue as of January 1, 2024 and January 1, 2023, respectively.

During the years ended December 31, 2024 and December 31, 2023, € 4,914,616 and 19,531 of unbilled revenue pertaining to other fixed-price and fixed-timeframe contracts as of January 1, 2024 and January 1, 2023, respectively, have been reclassified to trade receivables upon billing to customers on completion of milestones.

### Remaining performance obligation disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance-obligation-related disclosures for contracts where the revenue

recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit-of-work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is €39,701,084. Out of this, the Company expects to recognize revenue of around 59.31% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023 is €46,752,338. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.17 Other income

(In €)

Particulars	Year ended December 31,	
	2024	2023
Interest received on financial assets – Carried at amortised cost	570,873	1,103,874

Others	1,753,685	3,544,714
	19,710,692	(58,296,999)

\* Rental charges from parent company

## 2.19 Finance costs

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Interest expense on loan taken	8,896,634	12,415,234
Bank interest	158,231	191,240
Interest expense on finance deals	6,825,207	6,694,951
Total finance costs	15,880,072	19,301,425

## 2.20 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Current taxes	(63,514)	866,774
Income tax expense	(63,514)	866,774

Income tax expense for the years ended December 31, 2024 and December 31, 2023 includes provisions (net of reversal) of €(63,514) and €866,774, respectively, pertaining to prior periods on account of filing of return.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is as follows:

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Profit before income taxes	(28,708,422)	(52,147,990)
Enacted tax rates in Germany	30.53%	30.53%
Tax provision / reversals	(63,514)	866,774
Income tax expense	(63,514)	866,774

The applicable Germany statutory tax rate for the years ended December 31, 2024 and December 31, 2023 is 30.53% each.

The details of income tax assets and income tax liabilities are as follows:

Particulars	(In €)	
	As at December 31	
	2024	2023
Income tax assets	803,259	641,949
Current income tax liabilities	798,398	866,774
Net current income tax assets / (liability) at the end	4,861	(224,825)

The gross movement in the current income tax asset / (liability) for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	(In €)	
	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	(224,825)	–
Income tax paid	803,260	641,949
TDS written off	(637,088)	–
Current income tax expense	(63,514)	866,774
Net current income tax asset / (liability) at the end	4,861	(224,825)

## 2.22 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108.

## 2.23 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	As at December 31,		Variance
			2024	2023	
Current ratio	Current assets	Current liabilities	0.7	0.7	(5.8%)
Debt-equity ratio	Total debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's equity	(1.75)	(2.24)	(21.8%)*
Debt service coverage ratio	Earnings available for debt service <sup>(2)</sup>	Debt service <sup>(3)</sup>	1.5	2.0	(25.6%)**
Return on Equity (ROE)	Net profits after taxes	Average shareholder's equity	(25.3%)	(73.0%)	47.7%***
Trade receivables turnover ratio	Revenue	Average trade receivable	4.6	3.2	44.3%#
Trade payables turnover ratio	Purchases of services and other expenses	Average trade payables	9.2	0.8	1105.9%##
Net capital turnover ratio	Revenue	Working capital	(1.7)	(2.3)	(26.6%)###
Net profit ratio	Net profit	Revenue	(7.3%)	(12.5%)	5%
Return On Capital Employed (ROCE)	Earning before interest and taxes	Capital employed <sup>(4)</sup>	(13.4%)	(26.8%)	13%####

<sup>(1)</sup>Debt represents only lease liabilities.

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year.

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities.

\* Increase in lease liability has resulted in improvement in the ratio.

\*\*Higher depreciation during the year has resulted in improvement in the ratio.

\*\*\*Improvement in ration is due to decrease in shareholders equity in absolute value linked to higher loss for the year.

#Decrease in trade receivables significantly resulted in deterioration in the ratio.

##Decrease in expenses resulted in improvement in the ratio.

###Improvement in ration is due to significant increase in revenue.

####Improvement in ration is due to significant increase in lease liabilities.

## Infosys Luxembourg S.à r.l

# Independent Auditor's Report

To the Members of Infosys Luxembourg S.à r.l

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Luxembourg S.à r.l ("the Company"), which comprise the Balance Sheet as at March, 31<sup>st</sup> 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Luxembourg S.à r.l is a wholly-owned subsidiary of Infosys Limited.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from April 1 to March 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act, 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, and relevant amendments rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is EURO (€).

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## Post sales client support

The Company provides its clients with fixed-period post-sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

### 1.6 Financial instruments

#### 1.6.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.6.2 Subsequent measurement

##### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through Other Comprehensive Income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair-valued through Profit or Loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through Profit and Loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.7 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.8 Impairment

### Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair-valued through profit or loss. Loss allowance for trade receivables, with no significant financing component, is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) required to adjust the loss allowance at the reporting date is recognized in Profit or Loss as an impairment gain or loss.

## 1.9 Foreign currency

### Functional currency

The functional currency of the Company is the EURO (€). These financial statements are presented in EURO (€).

### Transactions and translations

Foreign currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.10 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in

the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the reporting date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts, and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 1.11 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

## 1.12 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

## 1.13 Leases

### The Company as a lessee.

The Company's lease asset classes consist of leases for buildings. The Company assesses whether a contract is or contains a lease at the inception of a contract. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) The contract involves the use of an identified asset (2) The Company has substantially all the economic benefits from the use of the asset throughout

the period of lease and (3) The Company has the right to direct the use of the asset.

At the commencement date of the lease, the Company recognizes a right-of-use asset (ROU assets) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for short-term leases with a term of twelve months or less and low value leases. For such leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. The ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

Lease liabilities are initially measured at amortized cost using the effective interest rate method at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease. If it is not readily determinable, the Company uses the incremental borrowing rates applicable in the lessors' countries of domicile. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset, when the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liabilities and ROU assets have been separately presented in the Balance Sheet, where lease payments have been classified as financing cash flows.

## 2.1 Leases

Changes in the carrying value of the right-of-use assets are as follows:

(In €)		
Particulars	Years ended March 31	
	2025	2024
Balance at the beginning	392,721	456,463
Additions	12,484	50,912

	1,398,802	1,461,803	–	–	–	2,860,605

## 2.8 Other financial liabilities

(In €)		
Particulars	As at March 31	
	2025	2024
Current		
Others		
Compensated absences	82,326	33,424
Accrued compensation to employees	91,405	78,544
Payable to employee	(3,862)	–
Other payables <sup>(1)(2)</sup>	153,776	252,486
	323,645	364,455
<sup>(1)</sup> Financial liability carried at amortized cost	323,645	364,455
<sup>(2)</sup> Includes dues to related parties (Refer to Note 2.16)	91,492	161,900

## 2.9 Other liabilities

(In €)		
Particulars	As at March 31	
	2025	2024
Current		
Unearned revenue	1,735,930	416,931
Others		
Withholding taxes and others	535,244	141,526
	2,271,174	558,457

## 2.10 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories are as follows:

(In €)		
Particulars	As at March 31,	
	2025	2024
Assets:		
Cash and cash equivalents (Refer to Note 2.2)	6,441,639	6,152,198
Trade receivable	5,078,028	1,702,201
Others financial assets	1,197,136	629,956
Total	12,716,803	8,484,354
Liabilities:		
Other financial liabilities (Refer to Note 2.9)	323,645	364,455
Trade payable	2,961,311	2,860,605
Lease liabilities	279,341	400,451
Total	3,564,297	3,625,510

All the above financial instruments are carried at amortized cost and the carrying value approximates the fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents. The Company has no outstanding borrowings.

As of March 31, 2025 and March 31, 2024, the Company had cash and cash equivalents of € 6,441,639 and € 6,152,198 respectively.

## 2.11 Income taxes

Income tax expense in the statement of profit and loss comprises:

(In €)		
Particulars	Year ended March 31,	
	2025	2024
Current taxes	639,408	559,879
Income tax expense	639,408	559,879

The following table provides the details of income tax assets and income tax liabilities as of March 31, 2025 and March 31, 2024:

(In €)		
	Year ended March 31,	
	2025	2024
Income tax assets	12,038	18,993
Current income tax liabilities	(1,214,147)	(574,739)
Net current income tax assets/ (liability) at the end	(1,202,109)	(555,746)

The gross movement in the current income tax asset/ (liability) is as follows:

(In €)		
	Year ended March 31,	
	2025	2024
Net current income tax asset/ (liability) at the beginning	(555,746)	(1,217)
Income tax paid/ (refund)	6,955	5,350
Current income tax expense	(639,408)	(559,879)
Net current income tax asset/ (liability) at the end	(1,188,199)	(555,746)

## 2.12 Revenue from operations

(In €)		
Particulars	Years ended March 31,	
	2025	2024
Income from software services	23,191,860	20,857,173
Overseas inter-company transfers	1,422,774	302,702
Total revenue from operations	24,614,634	21,159,875

## 2.13 Other income

Particulars	(In €)	
	Years ended March 31,	
	2025	2024
Interest received on bank deposits	123,169	96,423
Exchange gains/ (losses) on translation of other assets and liabilities	(520)	(1,158)

## 2.17 Segment reporting

The Company is engaged in providing consultancy services in a single geography. Based on the 'management approach', defined in Ind AS 108 - Segment reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108 - Segment Reporting.

## 2.18 Ratios

The ratios for the years ended March 31, 2025 and March 31, 2024, are as follows:

Particulars	Numerator	Denominator	March 31,		Variance
			2025	2024	
Current Ratio	Current assets	Current liabilities	1.9	1.9	(1%)
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.0	0.1	(52%) #
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	14.1	15.9	(11%)
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	37.0%	66.7%	(30%) ##
Trade receivables turnover ratio	Revenue	Average Trade Receivable	7.3	6.3	14%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	6.7	5.6	20%
Net capital turnover ratio	Revenue	Working Capital	4.1	5.2	(21%)
Net profit ratio	Net Profit	Revenue	10.4%	10.5%	(0%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	40.0%	48.5%	(8%)

#Debt Equity ratio has decreased due to increase in shareholder's equity.

##Return on Equity has decreased due to increase in average shareholder's equity.

<sup>(1)</sup>Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup>Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

## Infosys Singapore Pte Ltd

# Directors' statement and financial statements

## Directors' statement

The directors present their statement together with the audited financial statements of the Company for the financial year ended December 31, 2024.

In the opinion of the directors, the financial statements of the Company as set out on pages 67 to 435 are drawn up so as to give a true and fair view of the financial position of the Company as at December 31, 2024, and the financial performance, changes in equity and cash flows of the Company for the financial year then ended and at the date of this statement, with the continuing financial support from Infosys Limited, its ultimate holding company.

### 1 Directors

The directors of the Company in office at the date of this statement are:

Manohar Madgula Atreya (Resigned on February 13, 2025)

Andal Alwan

Atul Babu (Appointed on February 13, 2025)

### 2 Arrangements to enable directors to acquire benefits by means of the acquisition of shares and debentures

Neither at the end of the financial year nor at any time during the financial year did there subsist any arrangement whose object is to enable the directors of the Company to acquire benefits by means of the acquisition of shares or debentures in the Company or any other body corporate.

### 3 Directors' interests in shares and debentures

The directors of the Company holding office at the end of the financial year had no interests in the share capital and debentures of the Company and related corporations as recorded in the Register of Directors' Shareholdings kept by the Company under Section 164 of the Singapore Companies Act 1967.

Name of director and the Company	Shareholdings registered in the name of director	
	At the beginning of the year	At the end of the year
in which interests are held		
Infosys Limited		
(Ultimate holding company)		
Cash bonus		
Manohar Madgula Atreya	14,250	12,772
Andal Alwan	3,717	1,834
Incentive units		
Manohar Madgula Atreya	16,200	18,605

### 4 Share options

#### (a) Options to take up unissued shares

During the financial year, no option to take up unissued shares of the Company was granted.

#### (b) Options exercised

During the financial year, there were no shares of the Company issued by virtue of the exercise of an option to take up unissued shares.

#### (c) Unissued shares under option

At the end of the financial year, there were no unissued shares of the Company under option.

### 5 Auditors

The auditors, Deloitte & Touche LLP, have expressed their willingness to accept reappointment.

On behalf of the directors

Andal Alwan

Atul Babu

# Independent Auditor's Report

To the member of Infosys Singapore Pte Ltd

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of Infosys Singapore Pte Ltd (the "Company"), which comprise the statement of financial position as at December 31, 2024, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 6 to 43.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act 1967 (the "Act") and Financial Reporting Standards in Singapore ("FRSs") so as to give a true and fair view of the financial position of the Company as at December 31, 2024, and the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the Directors' Statement set out on pages 1 to 2, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

# Notes to financial statements

## 1. General

The Company (Registration No. 200009030D) is incorporated in Singapore with its principal place of business and registered office at Level 43, Unit 1, Suntec Tower 2, 9 Temasek Boulevard, Singapore 038989. The financial statements are expressed in Singapore Dollars.

The principal activities of the Company are to carry on the development of e-commerce applications and IT consulting as well as that of investment holding.

The financial statements of the Company for the year ended December 31, 2024 were authorised for issue by the Board of Directors on May 27, 2025.

## 2 Material accounting policy information

### Basis of accounting

The financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Financial Reporting Standards in Singapore ("FRSs").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of FRS 102 Share based payment, leasing transactions that are within the scope of FRS 17 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in FRS 2 Inventories or value in use in FRS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

### Adoption of new and revised standards

On January 1, 2024, the Company has adopted all the new and revised FRSs and Interpretations of FRS ("INT FRS") that are

relevant to its operations. The adoption of these new / revised FRSs and INT FRSs does not result in changes to the Company's accounting policies and has no material effect on the amounts reported for the current or prior years except are as follows:

### Adoption of new and revised standards

In the current year, the Company has applied all the new and revised FRSs that are mandatorily effective for an accounting period that begins on or after January 1, 2024. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements except are as follows:

### Amendments to FRS 1: Classification of liabilities as current or non-current

The amendments affect only the presentation of liabilities as current or non-current in the statement of financial position and not the amount or timing of recognition of any asset, liability, income or expenses, or the information disclosed about those items.

The amendments clarify that the classification of liabilities as current or non-current is based on rights that are in existence at the end of the reporting period, specify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability, explain that rights are in existence if covenants are complied with at the end of the reporting period and introduce a definition of 'settlement' to make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

Effective for annual periods beginning on or after January 1, 2025

- Amendments to FRS 21: Lack of exchange ability

Effective for annual periods beginning on or after January 1, 2026

- Amendments to FRS 109 and FRS 107: Amendments to the classification and measurement of financial instruments
- Annual improvements to FRSs: Volume 11

Effective for annual periods beginning on or after January 1, 2027

- FRS 118 Presentation and disclosure in financial statements
- FRS 119 Subsidiaries without Public Accountability: Disclosures

The Management anticipates that the adoption of the above FRSs and amendments to FRS in future periods will not have a material impact on the financial statements of the Company in the period of their initial adoption.

### Basis of consolidation

A subsidiary is an entity controlled by the Company. Control is achieved when the Company:

- Has power over its investee;
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

The consolidated financial statements of the Company and its subsidiaries have not been prepared as the Company is a wholly-owned subsidiary of another company. Consolidated financial statements are prepared by the Company's ultimate holding company, Infosys Limited, a company incorporated in India, whose registered address is Electronics City, Hosur Road, Bengaluru 560 100 and is publicly available.

In the Company's financial statements, investment in subsidiaries is carried at costless any impairment in net recoverable value that has been recognised in profit or loss.

## Financial instruments

Financial assets and financial liabilities are recognised on the statement of financial position when the Company becomes a party to the contractual provisions of the instruments.

### Financial assets

All financial assets are recognised and derecognised on a trade date where the purchase or sale of an investment is under contract whose terms require delivery of the investment within the timeframe established by the market concerned.

All recognised financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

### Classification of financial assets

Debt instruments mainly comprise cash and bank balances and trade and other receivables that meet the following conditions and are subsequently measured at amortized cost:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### Amortized cost and effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortized cost of the debt instrument on initial recognition.

The amortized cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a

financial asset is the amortized cost of a financial asset before adjusting for any loss allowance.

Interest is recognised using the effective interest method for debt instruments measured subsequently at amortized cost, except for short-term balances when the effect of discounting is immaterial.

### Impairment of financial assets

The Company recognises a loss allowance for Expected Credit Losses (ECLs) on trade and other receivables. The amount of ECLs is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

### Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- An actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- Significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent

to which the fair value of a financial asset has been less than its amortized cost;

- Existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- An actual or expected significant deterioration in the operating results of the debtor;
- Significant increases in credit risk on other financial instruments of the same debtor; and
- An actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if

i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Company considers a financial asset to have low credit risk when it has an internal or external credit rating of "investment grade" as per globally understood definition.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

### Definition of default

The Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- When there is a breach of financial covenants by the counterparty; or
- Information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collaterals held by the Company).

Irrespective of the above analysis, the Company considers that default has occurred when a financial asset is more than 90 days past due unless the Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

### Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- a) Significant financial difficulty of the borrower;
- b) A breach of contract, such as a default or past due event;
- c) The lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- d) It is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- e) The disappearance of an active market for that financial asset because of financial difficulties.

### Write-off policy

The Company writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

### Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

If the Company has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Company measures the loss allowance at an amount equal to 12-month ECL at the current reporting date.

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments (i.e. the Company's trade and other receivables);
- Past-due status;
- Nature, size and industry of debtors;
- Nature of collaterals for finance lease receivables; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

If the Company has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Company measures the loss allowance at an amount equal to 12-month ECL at the current reporting date.

### **Derecognition of financial assets**

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortized cost, the difference between the asset's carrying amount and the sum of the consideration received, and receivable is recognised in profit or loss.

### **Financial liabilities and equity instruments**

#### **Classification as debt or equity**

Debt and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

#### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

#### **Preference shares**

Preference shares are classified as equity if they are non-redeemable or are redeemable only at the option of the Company and dividend payments are discretionary. Dividends thereon are recognised as distributions within equity and are recognised as a liability in the period in which they are declared.

#### **Financial liabilities**

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortized cost, using the effective interest method, with interest expense recognised on an effective yield basis.

Contingent consideration of an acquirer in a business combination is stated at fair value with any gains or losses arising on changes in fair value recognised in profit or loss to the extent that they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liabilities.

### **Derecognition of financial liabilities**

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

### **Derivative financial instruments**

The Company enters into derivative financial instruments (primarily foreign currency forward contracts) to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Further details of derivative financial instruments are disclosed in Note 12A to the financial statements.

The Company does not use derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of recognition in profit or loss depends on the nature of the hedge relationship.

A derivative is presented as a non-current asset or non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

### **Offsetting arrangements**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Company has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

### **Leases**

#### **The Company as lessee**

The Company assesses whether a contract is or contains a lease, at inception of the contract.

FRS 116 determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration.

This is in contrast to the focus on 'risks and rewards' in FRS 17 and INT FRS 104.

The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses the incremental borrowing rate specific to the lessee.

Lease payments included in the measurement of the lease liability comprises of fixed lease payments (including in-substance fixed payments), less any lease incentives.

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); or
- A lease contract is modified, and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under FRS 37. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Office space	5 years
Fax machine	5 years
Hardware	3 years

The right-of-use assets are presented as a separate line in the statement of financial position.

The Company applies FRS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in Note 3.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line 'Other operating costs in the statement of profit or loss.

As a practical expedient, FRS 116 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Company has not used this practical expedient. For the contracts that contain a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

### Investment in subsidiaries

A subsidiary is an enterprise in which the Company has control. Control is achieved when the Company:

- Has power over the investee;
- Is exposed, or has rights, to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- Potential voting rights held by the Company, other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Investment in subsidiaries is stated at cost less any impairment in net recoverable value that has been recognised in profit or loss.

### Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If

any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

### Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

### Contingent consideration

The consideration for the acquisition of subsidiaries includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments. The subsequent accounting for changes in the

fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates at fair value, with changes in fair value recognised in profit or loss.

### Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

### Revenue recognition

The Company derives revenues from business IT services comprising of software development and related services and consulting ("together called as software related services").

Revenue is derived from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method. Revenue from time-and-material contracts are recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as contract assets.

### Dividend income

Dividend income from investments is recognised when the shareholders' right to receive payment have been established.

### Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and the effective interest rate applicable.

### Management fee income

Revenue from management fee income is recognised when such services are rendered and on an accrual basis.

### Retirement benefit costs

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Company's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

### Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

### Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Company's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited outside profit or loss (either in other comprehensive income or directly in equity), in which case the tax is also recognised directly outside profit or loss (either in other comprehensive income or directly in equity, respectively).

### Foreign currency transactions and translation

The financial statements of the Company are measured and presented in Singapore Dollar, the currency of the primary

economic environment in which the Company operates (its functional currency).

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

### Cash and cash equivalents in the statement of cash flows

Cash and cash equivalents in the statement of cash flows comprise cash on hand and demand deposits, bank overdrafts, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

## 3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### (i) Critical judgements in applying the Company's accounting policies

Management is of the opinion that any instances of judgements (other than those arising from estimates discussed below) are not expected to have a significant effect on the amounts recognised in the financial statements.

### (ii) Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material

adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

#### Fair value measurements and valuation process

Some of the Company's liabilities are measured at fair value for financial reporting purposes.

In estimating the fair value of a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party qualified valuers to perform the valuation. Management works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Notes 4 and 13.

#### Impairment assessment of investment in subsidiaries (Refer to Note 10)

Market related information and estimates are used to determine the recoverable amount.

Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

Determining whether investment in subsidiaries is impaired involves the consideration of the performance of the subsidiaries and the market conditions in which the subsidiaries operate in. At the end of the reporting period, management of the Company has performed an impairment assessment of its investment in its subsidiaries. As at December 31, 2024 and December 31, 2023, no allowance for impairment loss has been recognised.

## 4 Financial risks and capital management

### (a) Categories of financial instruments

The following table sets out the financial instruments as at the end of reporting period:

Particulars	(In SGD)	
	As at December 31, 2024	2023
Financial assets		
Financial assets at amortized cost	284,369,319	310,468,607
Derivative financial instruments	–	1,222,604
Financial liabilities		
Financial liabilities at amortized cost	222,948,971	245,008,930
Lease liabilities	16,489,245	22,098,353
Derivative financial instruments not designated as hedges	141,790	4,420,305

### (b) Financial instruments subject to offsetting, enforceable master netting arrangements and similar agreements

The Company does not have any financial instruments which are subject to enforceable master netting arrangements or similar netting agreements.

### (c) Financial risk management policies and objectives

The Board of Directors has an overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company is exposed to a variety of financial risks, comprising market risk (including foreign currency risk, commodity price risk and interest rate risk), credit risk and liquidity risk.

There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below:

#### (i) Foreign exchange risk management

The Company's foreign currency exposures arise mainly from the exchange rate movements of the Japanese yen, Chinese Yuan, Euro, Swiss Franc, Malaysia Ringgit, Indian Rupees and United States dollar against the Singapore dollar.

The Company ensure that the net exposure is kept to an acceptable level by entering into hedging activities such as forward foreign currency contracts. Forward foreign currency contracts are entered purely as a hedging tool and the Company do not hold or issue derivative financial instruments for speculative purposes. The Company's commitments on forward contracts at the end of the reporting period are disclosed in Note 11A.

The carrying amounts of foreign currency denominated monetary assets and monetary liabilities denominated in currency other than the Company's functional currency at the end of the reporting period are as follows:

Particulars	(In SGD)			
	Liabilities		Assets	
	2024	2023	2024	2023
United States Dollar	(117,166,910)	(113,390,254)	20,431,131	28,783,802
Chinese Yuan	–	–	266,034	8,337,171
Japanese Yen	(80,980,166)	(57,448,525)	2,671	–
Euro	(40,305,535)	(42,834,132)	222,670,016	252,612,800
Great Britain	(5,462,886)	(5,409,045)	–	–
Swiss Franc	(30,387,167)	(31,690,810)	–	–
Malaysian Ringgit	(1,392,664)	(340,261)	–	–
Indian Rupee	(63,905)	(39,132)	–	–
Danish Krone	(572,288)	–	–	–
Total	(276,331,521)	(251,152,159)	243,369,852	289,733,773

### Foreign currency sensitivity

(In SGD)

The sensitivity rate used when reporting foreign exchange risk to key management personnel is 5%, which is the change in a foreign exchange rate that management deems reasonably possible, which will affect outstanding foreign currency denominated monetary items at the end of the reporting period.

If the relevant foreign currency strengthens by 5% against the functional currency of the Company, the effect on profit or loss (before tax) will increase (decrease) by:

Particulars	(In SGD)	
	As at December 31,	
	2024	2023
United States Dollar	(4,836,789)	(4,230,323)
Chinese Yuan	13,302	416,859
Japanese Yen	(4,048,875)	(2,872,426)
Euro	9,118,224	10,488,933
Great Britain	(273,144)	(270,452)
Swiss Franc	(1,519,358)	(1,584,541)
Malaysian Ringgit	(69,633)	(17,013)
Indian Rupee	(3,195)	(1,957)
Danish Krone	(28,614)	–

If the relevant foreign currency weakens by 5% against the functional currency of the Company, the above will have an opposite effect.

### (ii) Interest rate risk management

The Company is not exposed to significant interest rate risk.

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instrument will fluctuate because of changes in market interest rates.

The Company's exposure to interest rate risk arises primarily from its loans from related companies. The Company has no policy to hedge against its interest rate risk.

### (iii) Credit risk management

The Company develops and maintains its credit risk gradings to categorise exposures according to their degree of risk of default. The Company uses its own trading records to rate its major customers and other debtors.

The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses
Performing	The counterparty has a low risk of default and does not have and past-due amounts.	12-month ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL - not credit-impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECL - credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery.	Amount is written off

(In SGD)

Particulars	Note	Internal credit rating	12-month or lifetime ECL	Gross carrying amount	Loss allowance	Net carrying amount
2024						
Trade receivables	8	(i)	Lifetime ECL	46,051,388	(92,735)	45,958,653
Other receivables	8	Performing	12-month ECL	6,076,464	–	6,076,464
Loan to related companies	8	Performing	12-month ECL	205,491,699	–	205,491,699

Particulars	Note	Internal credit rating	12-month or lifetime ECL	Gross carrying amount	Loss allowance	Net carrying amount
2023						
Trade receivables	8	(i)	Lifetime ECL	36,149,345	(100,386)	36,048,959
Other receivables	8	Performing	12-month ECL	4,966,829	–	4,966,829
Loan to related companies	8	Performing	12-month ECL	254,213,984	–	254,213,984

(i) The Company has applied the simplified approach to measure the loss allowance at lifetime ECL and in determining, has taken into account the historical default experience and the financial position of the counterparties, adjusted for factors that are specific to the debtors and general economic conditions of the industry in which the debtors operate, in estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, as well as the loss upon default in each case.

The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the Company's maximum exposure to credit risk without taking into account of the value of any collateral obtained.

#### (iv) Liquidity risk management

Liquidity risk refers to the risk in which the Company has difficulties in meeting its short-term obligations. The holding Company will also provide the Company with sufficient liquidity to meet the working capital needs when required. The holding company will also provide the Company with sufficient liquidity to meet the working capital needs when required.

As at December 31, 2024, the Company's current liabilities exceeded its current assets by \$154,575,689 (2023 : \$202,550,380). In addition, the Company has capital surplus of \$1,269,121,055 (2023 : \$558,043,069). The financial statements have been prepared based on a going concern basis on letter of support provided by the holding company,

Infosys Limited. Infosys Limited has committed to provide continuing financial support to the Company to enable it to operate as a going concern. The directors are satisfied that such financial support will be available and forthcoming as and when required.

All financial assets and liabilities in 2023 and 2024 are repayable on demand or due within 1 year from the end of the reporting period, except for the contingent consideration and lease liabilities as disclosed in Notes 13 and 21 respectively.

#### Non-derivative financial liabilities

The table below summarises the maturity profile of the Company's non-derivative financial liabilities at the end of the reporting period based on contractual undiscounted payments.

Particulars	Average effective interest rate %	On demand or within 1 year	1 to 5 years	Over 5 years	Adjustment	Total
2024						
Trade and other payables	–	4,144,760	–	–	–	4,144,760
Financial liability under revenue deals	5.99	37,508	–	–	–	37,508
Loan from related companies	3.56	218,766,703	–	–	–	218,766,703
Lease liabilities	2.82	7,752,977	9,369,683	–	(633,415)	16,489,245
		230,701,948	9,369,683	–	(633,415)	239,438,216
2023						
Trade and other payables	–	5,043,347	–	–	–	5,043,347
Financial liability under revenue deals	5.27	1,352,434	56,962	–	–	1,409,396
Loan from related companies	4.24	238,556,186	–	–	–	238,556,186
Lease liabilities	1.63	7,327,412	16,044,818	–	(1,273,877)	22,098,353
		252,279,379	16,101,780	–	(1,273,877)	267,107,282

#### (v) Fair values of financial assets and financial liabilities

Fair value of the Company's financial assets and liabilities that are measured at fair value on a recurring basis

Some of the Company's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Entity	Fair value as at		Fair value hierarchy	Valuation technique and key input	Significant unobservable input	Relationship of unobservable inputs to fair value
	2024	2023				
	\$	\$				
Foreign currency forward contracts (Derivative financial instruments), net	-	(1,800,262)	Level 2	Discounted cash flow. Future cash flows are estimated based on forward exchange rates (from observable forward exchange rates at the end of the reporting period) and contract forward rates, discounted at a rate that reflects the credit risk of various counterparties.	Not Applicable	Not Applicable
Fair value (loss) gain on call and put option	(141,790)	(1,397,439)	Level 3	Monte Carlo simulations to carry out the valuation. The valuation uses simulations of expected revenue and EBITDA on the maturity date to estimate the payoff and therefore the fair value of the options on the valuation date. Expected revenue and EBITDA have been modelled using Geometric Brownian Motion model.	Expected revenue and EBITDA on the maturity date	A one percentage point change in the unobservable inputs used in the fair valuation would not have a significant impact in its value.

#### Fair value of the Company's financial assets and liabilities that are not measured at fair value on a recurring basis

Management considers that the carrying amounts of cash and cash equivalents, trade and other current receivables and payables and other liabilities recorded at amortized cost in the financial statements approximate their fair values due to the relatively short-term maturity of these financial instruments. In respect of the financial assets and liabilities recorded at amortized cost whose maturity is more than a year, management also considers that such financial instruments approximate their fair values. The fair values of other classes of financial assets and financial liabilities are disclosed in the respective notes to the financial statements.

#### (d) Capital management policies and objectives

The Company reviews its capital structure at least annually to ensure that the Company will be able to continue as a going concern. The capital structure of the Company comprises only of issued capital and accumulated profits.

The Company's overall strategy remains unchanged from the prior year.

## 5 Related party transactions

The Company is a wholly owned subsidiary of Infosys Limited, incorporated in India, hereby referred to as ultimate holding company. Related companies in these financial statements refer to members of the ultimate holding company's group of companies.

Some of the Company's transactions and arrangements and terms thereof are arranged by or between members of the group.

Significant intercompany transactions are as follows: (In SGD)

Particulars	As at December 31,	
	2024	2023
Holding company, subsidiaries and related companies		
Management fee income	(78,820)	(75,715)
Dividend income from a subsidiary	(10,214,615)	(1,289,202)
Services rendered	(32,083,698)	(31,452,344)
Interest income	(11,454,202)	(13,834,123)
Management fee expense	54,963	20,918
Guarantee fee	156,000	156,000
Loan interest expense	8,926,347	9,146,829
Recharge of costs	(956,722)	(2,202,191)
Third party cost transfer - Subsidiary *	1,382,976	–

\* Included in these professional charges - others pertains to the cross charges of costs between the Company and its subsidiaries as per the signed intercompany agreement.

## 6 Related party transactions

Some of the Company's transactions and arrangements are with related parties and the effect of these on the basis determined between the parties are reflected in these financial statements. The balances are unsecured, interest-free and repayable within the next twelve months unless otherwise stated.

### Compensation of directors and key management personnel

The remuneration of directors and other members of key management during the year is Nil (2023 : Nil).

## 7 Cash and cash equivalents

(In SGD)

Particulars	As at December 31,	
	2024	2023
Cash at bank	26,841,920	15,238,250
Cash in hand	582	583
	26,842,502	15,238,833

## 8 Trade and other receivables

(In SGD)

Particulars	As at December 31,	
	2024	2023
Trade receivables - third party	4,146,788	5,034,899
Less: Loss allowance for trade receivables - third party	(92,735)	(100,386)
	4,054,053	4,934,513
Holding company - trade (Refer to Note 5)	834,104	1,924,214
Related companies - trade (Refer to Note 5)	41,070,496	29,190,231
Loan to related companies <sup>(1)</sup>	205,491,699	254,213,984
Other receivables	50,737	1,135
Unbilled revenues	5,900,071	4,840,248
Deposits	125,656	125,446
Prepayments	1,237,001	1,409,592
	258,763,817	296,639,363
Classified as:		
Current	53,028,217	42,107,242
Non-current	205,735,600	254,532,121
	258,763,817	296,639,363

<sup>(1)</sup> Loan to related company 'Infosys Austria GmbH' is denominated in US Dollars, bears simple interest at the rate equal to 12 month SOFR plus 1.83% (2023 : 12 month SOFR plus 1.83%) per annum, is unsecured and repayable on demand.

Loan to related company 'Panaya Ltd' is denominated in USD, bears simple interest at the rate equal to 12 month SOFR plus 1.64% (2023 : 12 month SOFR plus 1.65%) per annum, is unsecured and repayable on demand.

Loan to related company 'Infosys Automotive and Mobility GmbH & Co.KG' is denominated in EUR, bears interest rate at equal to EURIBOR + appropriate risk premium which is 1.83% (2023 : EURIBOR + appropriate risk premium which is 1.83%) simple interest per annum, is unsecured and repayable on demand.

Loan to related company 'Infosys Germany GmbH' is denominated in EUR, bears interest rate at equal to 12 months EURIBOR + appropriate risk premium which is 1.83% (2023 : 12 months EURIBOR + appropriate risk premium which is 1.83%) simple interest per annum, is unsecured and repayable on demand.

Loss allowance for trade receivables has been measured at an amount equal to lifetime expected credit losses (ECL). The ECL on trade receivables are estimated using reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate.

ECL on loan to related companies and other receivables is measured at an amount equal to the 12-month ECL, as there is low risk default and does not have any past due amount.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

A trade receivable is written off when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery.

The movement in credit loss allowance are as follows:

Particulars	(In SGD)	
	As at December 31,	
	2024	2023
Balance at beginning of the year	100,386	58,070
Loss allowance recognised in profit or loss during the year	(7,651)	42,316
Balance at end of the year	92,735	100,386

## 9 Right-of-use assets

The Company has taken office space, fax machine and hardware on leases. The average lease term is five years.

Particulars	(In SGD)			
	Office space	Fax machine	Hardware	Total
Cost:				
At January 1, 2023	1,431,448	8,578	29,245,949	30,685,975
Additions	489,382	–	1,951,120	2,440,502

Infosys Germany SE (fka. Blitz 24–893 SE <sup>(2)</sup>	Germany	100	–	–

\* The Company and the non-controlling shareholder have a call option and a written put option relating to the 25% stake held by the non-controlling shareholder respectively, which are exercisable after May 2022. The Company has used the Monte Carlo simulations to carry out the fair valuation of the options. The valuation uses simulations of expected revenue and EBITDA on the maturity date to estimate the payoff and therefore the fair value of the options on the valuation date. Expected revenue and EBITDA have been modelled using Geometric Brownian Motion model. The key inputs used in determination of the fair value of call and put options are included in Note 4. The fair value of the options is recognised as derivative financial instruments under Note 11B to the financial statements. As at December 31, 2024, these options are still not exercised yet.

On September 26, 2023, Stater NV repurchased 115,194 units of shares, each with a nominal value of EUR 1. As a result, the value of the investment has been reduced to SGD 227,772,540 as of December 31, 2023.

\*\* On August 19, 2024, the Company increased the Base Life science A/S share capital by converting debt of EUR 8,000,000 to equity equivalent to SGD 11,587,247. This is a non-cash transaction and has been adjusted accordingly in the statement of cash flows.

\*\*\*On April 18, 2024, the Company increased Infosys Germany GmbH's capital reserve by EUR 469,000,000 (approximately SGD 686,616,000) through an equity payment.

<sup>(1)</sup> Infosys Tech SAS, a wholly-owned subsidiary of the Company, was established on July 3, 2024. The Company invested EUR 10,000 (approximately SGD 14,290) to support the registration of Infosys Tech SAS. As of December 31, 2024, Infosys Tech SAS was not operational.

<sup>(2)</sup> On October 17, 2024, the Company acquired 100% of the equity share capital of Infosys Germany SE with a purchase consideration of EUR 135,000 (approximately SGD 192,105). Infosys Germany SE had no business activity at the time of the acquisition. The acquisition was made for compliance purposes. Effective January 1, 2025, Infosys Germany GmbH merged with Blitz 24-893 SE, and the name of Blitz 24-893 SE was changed to Infosys Germany SE.

## 11 Trade and other payables

(In SGD)

Particulars	As at December 31,	
	2024	2023

(In SGD)

Particulars	Assets	Liabilities
2024		
Foreign exchange forward contracts:		
Not designated in a hedge accounting relationship	–	–

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The details in respect of outstanding foreign currency forward contracts in traded currency are as follows:

Outstanding contracts	Average exchange rates		Foreign currency		Contract value		Fair value	
	2024	2023	2024	2023	2024	2023	2024	2023
	%	%	FC'000	FC'000	\$'000	\$'000	\$	\$

## Infosys (Malaysia) SDN. BHD.

# Directors' Report

The Directors have pleasure in submitting their report and the audited financial statements of the Company for the financial year ended March 31, 2025.

## Principal activities

The Company is principally engaged in providing remote delivery services to its customers which are principally involved in the provision of data communication and value-added network services. There has been no significant change in the nature of these activities during the financial year.

## Results of operations

The results of operations of the Company for the financial year as are follows:

	RM
Profit for the year	3,053,164

In the opinion of the Directors, the results of operations of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

## Dividends

No dividend has been paid or declared by the Company since the end of the previous financial year. The Directors also do not recommend any dividend payment in respect of the current financial year.

## Reserves and provisions

There were no material transfers to or from reserves and provisions during the financial year.

## Directors

The Directors of the Company, who held Office during the financial year, and from the end of the financial year to the date of this report, are:

Jauhari Bin Hassan

Raja Madhusudan Shah

Prabhakar Laxman Grandhi (Appointed on February 13, 2025)

## Directors' interest in shares

The interests and deemed interest in the shares of a related corporation (other than wholly-owned subsidiaries) of those who were Directors at the financial year end (including the interest of the spouse or children of the Directors who themselves were not Directors of the Company), as recorded in the Register of Directors' shareholdings, are as follows:

Particulars	At 1.4.2024	No. of ordinary shares		At 31.3.2025
		Bought	Sold	
Interests in the ultimate holding company:				
Infosys Limited				
Raja Madhusudan Shah				
- Indian equity shares	3,100	–	–	3,100
- American depositary receipt	34,877	20,144	15,124	39,897

None of the other Directors holding Office as at March 31, 2025, had any interest in the shares of the Company and of its related corporations during the financial year.

## Directors' benefits

Since the end of the previous financial year, no Directors of the Company have received nor become entitled to receive any benefit by reason of a contract made by the Company or a related corporation with the Director, or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

There were no arrangements during and at the end of the financial year which had the objective of enabling Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of the Company, or any other body corporate.

## Issue of shares and debentures

The Company has not issued any new shares or debentures during the financial year.

## Share options

No options have been granted by the Company to any person during the financial year to take up unissued shares of the Company. No shares have been issued during the financial year by virtue of the exercise of any option to take up unissued shares of the Company. As at the end of the financial year, there were no unissued shares of the Company under options.

## Indemnity and insurance for Directors, Officers and Auditors

There was no indemnity given to nor insurance effected for directors, officers and auditors of the Company in accordance with section 289 of the Companies Act, 2016.

## Holding companies

The Company is a wholly-owned subsidiary of Infosys Singapore Pte. Ltd., a company incorporated in Singapore. The Directors regard Infosys Limited, a company incorporated in India, as the Company's ultimate holding company.

## Other statutory information

Before the financial statements of the Company were prepared, the Directors took reasonable steps:

- i) to ascertain that there are no bad debts to be written off and no provision needs to be made for doubtful debts, and
- ii) to ensure that any current assets which were unlikely to be realized in the ordinary course of business have been written down to an amount which might be expected so to realize.

At the date of this report, the Directors are not aware of any circumstances:

- i) which would render it necessary to write off any bad debts or provide for any doubtful debts, or
- ii) which would render the value attributed to the current assets in the financial statements of the Company misleading, or
- iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate, or
- iv) not otherwise dealt with in this report or the financial statements that would render any amount stated in the financial statements of the Company misleading.

At the date of this report, there does not exist:

- i) any charge on the assets of the Company that has arisen since the end of the financial year and which secures the liabilities of any other person, or
- ii) any contingent liability in respect of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Company has become enforceable, nor is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Company to meet its obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Company for the financial year ended March 31, 2025, has not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

## Auditors' remuneration

The amount paid or payable as remuneration of the auditors of the Company for the financial year ended March 31, 2025, amounting to MYR 43,453 (USD 9,720).

## Auditors

The auditors, Deloitte PLT, have indicated their willingness to continue in Office,

Signed on behalf of the board, as approved by the Board, in accordance with a resolution of the Directors,

**Jauhari Bin Hassan**  
Director

**Raja Madhusudan Shah**  
Director

Petaling Jaya,  
30 May 2025

# Independent Auditors' Report

To the Members of Infosys (Malaysia) SDN. BHD. (Incorporated in Malaysia)

## Report on the audit of the financial statements

### Opinion

We have audited the financial statements of Infosys (Malaysia) SDN. BHD., comprising the statement of financial position of the Company as at March 31, 2025, the Statement of Profit or Loss, and Comprehensive Income, Statement of Changes in Equity, and Statement of Cash Flows for the period then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 700 to 707.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at March 31, 2025, and of its financial performance and its cash flows for the period then ended in accordance with Malaysian Private Entities Reporting Standard and the requirements of the Companies Act 2016 in Malaysia.

### Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence and other ethical responsibilities

We are independent of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (By-Laws) and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

### Information other than the financial statements and auditors' report thereon

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Company, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the financial statements

The Directors of the Company are responsible for the preparation of these financial statements of the Company that give a true and fair view in accordance with Malaysian Private Entities Reporting Standard and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Company, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Other matter**

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility towards any other person for the contents of this report.

Cash and cash equivalents at end of year		12,035,618	11,075,858

The accompanying notes form an integral part of these financial statements.

## Notes to the financial statements

Infosys (Malaysia) SDN. BHD. is a private limited liability company, incorporated and domiciled in Malaysia. The addresses of the principal place of business and its registered office of the Company are as follows:

Principal place of business:

Unit TA-16-1, Level 16

Plaza 33, Tower A

No.1, Jalan Kemajuan, Seksyen 13

46100 Petaling Jaya

Selangor Darul Ehsan

Registered office:

Ground Floor

8, Lorong University B

Section 16

46200 Petaling Jaya

Selangor Darul Ehsan

The Company is principally involved in providing remote delivery services to its customers which are principally involved in the provision of data communication and value-added network services. There has been no significant change in the nature of these activities during the financial year.

The Company's immediate and ultimate holding companies are Infosys Singapore Pte. Ltd., a company incorporated in Singapore, and Infosys Limited, a company incorporated in India. The Company's shares are listed on the Stock Exchange of India.

These financial statements are authorized for issue by the Board of Directors on 30 May 2025.

## 1. Basis of preparation of financial statements

### (a) Statement of compliance

The financial statements of the Company have been prepared in accordance with Malaysian Private Entities Reporting Standard (MPERS) and the requirements of the Companies Act 2016 in Malaysia.

### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

### (c) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia (RM), the Company's functional currency. All financial information is presented in RM, unless otherwise stated.

### (d) Use of estimates and judgements

The preparation of the financial statements in conformity with MPERS requires the Management to make judgements, estimates and assumptions that affect the application of accounting

policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognized in the financial statements.

## 2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

### (a) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date, except for those that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

All foreign currency differences are recognized in Profit or Loss.

### (b) Financial instruments

#### (i) Initial recognition and measurement

A financial asset or financial liability is recognized in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is recognized initially at the transaction price (including transaction costs except in the initial measurement of a financial asset or financial liability that is subsequently measured at fair value through profit or loss) unless the arrangement constitutes, in effect, a financing transaction for either the Company (for a financial liability) or the counterparty (for a financial asset) to the arrangement. If the arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument as determined at initial recognition.

#### (ii) Subsequent measurement

Debt instruments that meet the following conditions are measured at amortized cost using the effective interest method:

(a) returns to the holder are determinable, e.g. a fixed amount and/ or variable rate of return benchmark against quoted or observable interest rates;

(b) there is no contractual provision that could result in the holder losing the principal amount or any interest attributable to the current or prior periods; and

(c) prepayment option, if any, is not contingent on future events.

Debt instruments that are classified as current assets or current liabilities are measured at the undiscounted amount of the cash or other consideration expected to be paid or received unless the arrangement constitutes, in effect, a financing transaction.

All financial assets are assessed at each reporting date whether there is any objective evidence of impairment. An impairment loss is measured as follows:

- For an instrument measured at amortized cost, the impairment loss is the difference between the asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate.
- For an instrument measured at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

### (iii) Derecognition

A financial asset or part of it is derecognized when, and only when, the contractual rights to the cash flows from the financial asset expire or are settled, or control of the asset is not retained or substantially all the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset derecognized and the consideration received, including any newly created rights and obligations, is recognized in Profit or Loss.

A financial liability or a part of it is derecognized when, and only when, the obligation specified in the contract is discharged, cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in Profit or Loss.

## (c) Plant and equipment

### (i) Recognition and measurement

Items of plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures directly attributable to the acquisition of the asset, and those costs directly necessary to bring the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

When significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of plant and equipment and is recognized net within 'other income' or 'other expenses', respectively in Profit or Loss.

### (ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognized in the carrying amount of the item

if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognized to profit or loss. The costs of the day-to-day servicing of plant and equipment are recognized in Profit or Loss as incurred.

### (iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognized in Profit or Loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment from the date that they are available for use. Plant and equipment, under construction, are not depreciated until the assets are ready for their intended use. The estimated useful lives for the various classes of depreciable assets are as follows:

Computer, hardware and P & M	3 – 5 years
Furniture, fittings and office equipment	5 years

If there is an indication that there has been a significant change since the last annual reporting date in the pattern by which the Company expects to consume an asset's future economic benefits, the Company would review its present depreciation method and, if current expectations differ, the Company would amend the residual value, depreciation method or useful life to reflect the new pattern.

## (d) Leased assets

### Operating lease

Leases, where the Company does not assume substantially all the risks and rewards of ownership are classified as operating leases, and the leased assets are not recognized on the statement of financial position.

Payments made under operating leases are recognized in Profit or Loss on a straight-line basis over the term of the lease, except for lease arrangement where the operating lease payments are structured to increase in line with expected general inflation. Lease incentives received are recognized in Profit or Loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to Profit or Loss in the reporting period in which they are incurred.

## (e) Statement of cash flows

The Company adopts the indirect method in the preparation of the statement of cash flows.

Cash and cash equivalents consist of bank balances.

## (f) Impairment of non-financial assets

The carrying amounts of non-financial assets (i.e. plant and equipment and deferred tax assets) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest identifiable group of assets that generates cash inflows

from continuing use that are largely independent of the cash inflows of other assets or cash-generating units.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognized if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognized in the Profit or Loss. Impairment losses recognized in respect of cash-generating units are allocated to reduce the carrying amounts of the other assets in the cash-generating unit (group of cash-generating units) on a pro rata basis.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognized. The reversal is limited to the extent that the asset's carrying amount does not exceed the amount that would have been determined, net of depreciation, if no impairment loss had been recognized. Reversals of impairment losses are credited to Profit or Loss in the financial year in which these are recognized.

### **(g) Share capital and distribution**

The Company classifies and presents an issued financial instrument, on initial recognition as a financial liability or equity instrument in accordance with the substance of the contractual arrangement and the definitions of financial liability and an equity instrument.

#### **(i) Share Capital**

Ordinary shares (other than those issued as part of a business combination or as settlement of financial liability), are classified as equity instruments.

Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax effect.

#### **(ii) Distributions**

Distributions to holders of an equity instrument are debited directly in equity, net of any related income tax effect.

### **(h) Revenue and other income**

#### **(i) Revenue**

Revenue from the rendering of services is recognized when the services are rendered.

#### **(ii) Interest income**

Interest income is recognized as it accrues using the effective interest method in Profit or Loss.

##### **(i) Employee benefits**

##### **(i) Short-term employee benefits**

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured

on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past services provided by the employee and the obligation can be estimated reliably.

#### **(ii) State plans**

The Company's contributions to statutory pension funds are charged to profit or loss in the financial year to which they relate. Once the contributions have been paid, the Company has no further payment obligations.

### **(j) Income tax**

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in Profit or Loss.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognized using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognized for the temporary differences arising from initial recognition of assets or liabilities in a transaction that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if, and only if, there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they plan to settle current tax assets and liabilities on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

### **(k) Provisions**

Provisions are made when the Company has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources will be required to settle the obligation, and when a reliable estimate of the amount can be made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

### 3. Plant and equipment

(In RM)			
Particulars	Computer and hardware	Furniture, fittings and office equipment	Total
Cost			
At April 1, 2023	4,615,711	14,742,289	19,358,000

Charge for the year	218,254	63,623	281,878
Write off	(1,082,081)	–	(1,082,081)
At March 31, 2025	3,199,358	14,810,867	18,010,225
Carrying amounts			
At April 1, 2024	693,408	94,987	788,395
At March 31, 2025	475,154	257,347	732,501

### 4. Deferred tax

The details of deferred taxes:

(In RM)			
Particulars	Note	As at March 31,	
		2025	2024
Deferred tax assets		3,811,874	2,317,941
		3,811,874	2,317,941

(In RM)				
Particulars	Recognized in Profit or Loss (Note 10)	At March 31, 2025	Recognized in Profit or Loss (Note 10)	At March 31, 2024
Property, plant and equipment	(4,982)	(67,492)	(62,520)	(62,520)
Provision	(471,824)	1,309,020	1,780,844	1,780,844
Unused business losses	2,097,005	2,548,820	451,815	451,815
Others	(126,266)	21,526	147,792	147,792
	1,493,933	3,811,874	2,317,941	2,317,941

Pursuant to Finance Act 2021, with effective year of assessment (YA) 2021, the period for carry forward unabsorbed business losses has been extended to ten consecutive YAs. Hence, the unabsorbed business losses of RM10,620,084 can be carried forward until YA 2033. Any unabsorbed business losses will be disregarded in YA2034, whilst the unabsorbed capital allowances do not expire under the current tax legislation.

## 5. Trade and other receivables

(In RM)			
Particulars	Note	As at March 31,	
		2025	2024
Trade			
Amount due from ultimate holding company	5.1	6,355,431	6,355,431
		6,355,431	8,125,033
Non-trade			
Other receivables		24,555	80,648
Deposits		771,249	771,249
Prepayments		34,024	37,934
		829,828	889,831
		7,185,259	9,014,864

5.1 Amount due from ultimate holding company is unsecured, interest-free with a credit term of 30 days (2024: 30 days).

## 6. Share capital

(In RM)				
Particulars	Amount	No. of shares	Amount	No. of shares
	2025		2024	
	RM		RM	
Issued and fully paid shares with no par value:				
Ordinary shares				
At the beginning and end of the reporting period	16,172,100	16,172,100	16,172,100	16,172,100

### Ordinary shares

The holder of ordinary shares is entitled to receive dividends as declared from time to time.

## 7. Trade and other payables

(In RM)			
Particulars	Note	As at March 31,	
		2025	2024
Trade			
Trade payables		490,076	440,020
Non-trade			
Other payables		313,729	2,238,931
