## Infosys Public Services Canada Inc.

# Independent Auditor's Report

To the Board of Directors of Infosys Public Services Canada Inc.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Public Services Canada Inc. ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at March 31, 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Emphasis of matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 1.2 to the special purpose financial statements, which describes the basis of accounting. The special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act, 2013. As a result, the special purpose financial statements may not be suitable for another purpose. The special purpose financial statements cannot be referred to or distributed or included or used for any other purpose except with our prior consent in writing. Our report is intended solely for the above purpose and is not to be used, referred to or distributed for any other purpose without our prior written consent.

Our opinion is not modified in respect of this matter.

### Responsibilities of Management and Those Charged with Governance for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Overview and Notes to the financial statements

## 1 Overview

### 1.1 Company overview

Infosys Public Services Canada Inc. operations provide solutions spanning the entire software lifecycle from technical consulting, design, development, re-engineering, maintenance, systems integration, package evaluation and implementation, to testing and infrastructure management services.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the ultimate holding company, Infosys Limited, under the requirements of Section 129(3) of the Companies Act 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis, except for certain financial instruments which are measured at fair values. the provision of the Companies Act, 2013 ('the Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendments rules issued thereafter

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the entity operates (i.e. the "functional currency"). The functional currency of the company is Canadian Dollars ("CAD") and the financial statements are also presented in Canadian Dollars. All amounts included in the financial statements are reported in Canadian Dollars, unless otherwise stated.

Accounting policies have been applied consistently to all periods presented in these financial statements, except where a new accounting standard or amendment requires a change in the accounting policy hitherto in use.

### 1.3 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgements, and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses related to the period. The application of accounting policies involve critical accounting estimates and the use of assumptions in the financial statements as disclosed in Note 1.4.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made in the financial statements as the Management becomes aware of changed circumstances. Where material, the effects of such changes are disclosed in the Notes to the financial statements.

### 1.4 Critical accounting Estimates

#### 1.4.1 Revenue recognition

The Company's contracts with customers include multiple products and services. Revenues from customer contracts are considered when the contract is approved in writing, by the parties to the contract committing to their contract

obligations, and is legally enforceable. The Company assesses the services and identifies distinct performance obligations in the contract, based on the deliverables and the ability of the customer to benefit independently from such deliverables. And allocation of transaction price to these obligations involves significant judgement.

Fixed price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed price maintenance contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenue requires judgment and is based on the promises in the contract and nature of the deliverables.

The company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. Also refer Note - 2.11.

#### 1.4.2 Income taxes

The Company's major tax jurisdictions is Canada.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions (Refer to Note 2.10).

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon

the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

### 1.4.3 Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology (Refer to Note no 2.1).

## 2.1 Property, plant and equipment

### Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates these assets on a straight-line basis over their estimated useful lives. The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013..

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year-end.

Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

### Impairment

Property, plant and equipment and Intangible assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell or the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generated unit ("CGU") to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025, are as follows:

	(In CA\$)			
Particulars	Office equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as of April 1, 2024	15,616	176,117	18,421	210,154
Additions	–	11,684	–	11,684
Deletions	–	(375)	–	(375)

# Classified as financial asset, where right to consideration is unconditional and is due only with the passage of time.

## 2.5 Other current assets

(In CA\$)

Particulars	As at March 31,	
	2025	2024
Current		
Others	12,426	4,492
Total other current assets	12,426	4,492

As at March 31, 2025, the company had one member, Infosys Public services Inc. (the “member”). In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts.

The details of shareholders holding more than 5% shares are as follows:

Name of the shareholder	As at March 31,			
	2025		2024	
	Number of shares	% held	Number of shares	% held
Infosys Public services Inc., the holding company	1,600,000	100.00	1,600,000	100.00

The reconciliation of the number of shares outstanding and the amount of share capital are as follows:

(In CA\$)

Particulars	As at March 31,			
	2025		2024	
	Number of shares	Amount	Number of shares	Amount
At the beginning of the period	1,600,000	2,157,740	1,600,000	2,157,740
Add: Shares issued during the period	–	–	–	–
At the end of the period	1,600,000	2,157,740	1,600,000	2,157,740

## Earnings per equity share

Basic earnings per equity share are computed by dividing the net profit attributable to the Company's equity holders by the weighted average number of equities outstanding during the period.

## 2.7 Trade payables

(In CA\$)

Particulars	As at March 31,	
	2025	2024
Trade payables <sup>(1)</sup>	331,938	1,807,868
	331,938	1,807,868
<sup>(1)</sup> Includes dues to holding company and other group companies (Refer note 2.15(b))	293,417	1,584,160

## 2.6 Equity

### Equity share capital

(In CA\$, except equity share data)

	As at March 31,	
	2025	2024
Authorized		
Equity shares, USD 1 par value	2,722,703	2,722,703
2,000,000 equity shares		
Issued, subscribed and paid-up		
Equity shares, USD 1 par value	2,157,740	2,157,740
1,600,000 equity shares fully paid up		
	2,157,740	2,157,740

The Company has equities as the only class of shares with a par value of USD 1. Each equity shareholder is entitled to one vote per share.

Trade payable ageing schedule as on March 31, 2025 and March 31, 2024, are as follows:

							(In CA\$)
Particulars	Not due	Outstanding for the periods from payment due date				Total	
		Less than 1 year	1-2 years	2-3 years	More than 3 years		
Outstanding dues to MSME	–	–	–	–	–	–	–

## 2.10 Income taxes

### Accounting policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognised in the condensed Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in

other comprehensive income. Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

Income tax expense in the Statement of Profit and Loss comprises:

			(In CA\$)
Particulars	For the year ended March 31,		
	2025	2024	
Current tax	379,544	750,860	
Deferred tax credit/(expense)	(12,317)	65,522	
Income tax expense	367,227	816,382	

Income tax expense for the year ended March 31, 2025 and March 31, 2024, includes reversal (net of provision) of CAD 70,576 and NIL, respectively, pertaining to prior years. The entire deferred income tax for the year ended March 31, 2025 and March 31, 2024, respectively, relate to origination and reversal of temporary differences.

A reconciliation of income tax provision to the amount computed by applying the statutory income tax rate to the income before tax is as follows:

(In CA\$)		
Particulars	For the year ended March 31,	
	2025	2024
Profit before incomes taxes	1,492,879	2,955,804
Enacted tax rate	26.50%	26.50%
Computed expected tax expense	395,613	783,288
Disallowed Items	42,190	33,095
Tax pertaining to prior year	(70,576)	–
Income tax expense	367,227	816,383

The details of income tax assets and income tax liabilities are as follows:

(In CA\$)		
Particulars	For the year ended March 31,	
	2025	2024
Income tax assets	499,880	–
Current Income tax liabilities	–	(19,936)
Net income tax liabilities/ asset	499,880	(19,936)

The gross movement in the current income tax asset/ (liability) for the year ended March 31, 2025 and March 31, 2024, is as follows:

(In CA\$)		
Particulars	For the year ended March 31,	
	2025	2024
Net income tax liabilities	(19,935)	(94,075)
Income tax paid (net of refund)	899,359	825,000
Income tax expense	(379,544)	(750,860)
Net income tax liability/ asset at the end	499,880	(19,935)

The movement in gross deferred income tax assets for the year-ended March 31, 2025, is as follows:

(In CA\$)			
Particulars	For the year ended March 31,		
	Carrying value as on April 1, 2024	Changes through Profit and Loss	Carrying value as on March 31, 2025
Deferred income tax assets	–	–	–
Accrued compensation	66,965	11,480	78,445
Trade receivables	18,108	(12,361)	5,747
Others	2,064	13,198	15,262
Total deferred income tax assets	87,137	12,317	99,454

The movement in gross deferred income tax assets for the year ended March 31, 2024, is as follows:

(In CA\$)			
Particulars	For the year ended March 31,		
	Carrying value as on April 1, 2023	Changes through Profit and Loss	Carrying value as on March 31, 2024
Deferred income tax assets	–	–	–
Compensated absences	59,912	(59,912)	–
Accrued compensation	93,732	(26,767)	66,965
Provision for post-sales customer support	–	–	–
Trade receivables	–	18,108	18,108
Others	(984)	3,048	2,064
Total deferred income tax assets	152,660	(65,523)	87,137

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In CA\$)		
Particulars	For the year ended March 31,	
	2025	2024
Deferred income tax assets after set off	99,454	87,137

Deferred tax assets and deferred tax liabilities are offset, where the Company has a legally enforceable right to set off current tax assets against current tax liabilities, and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred tax assets, the Management considers whether it is more likely than not that some portion or all the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes that it is more likely than not that the Company will realize the benefit of the deductible differences as at March 31, 2025.

## 2.11 Revenue

Revenues from customer contracts is recognized and measured when it is approved by the parties in writing, and legally bound to perform their obligations under the contract. Revenue is recognized upon transfer of control of promised products or services (performance obligations) to customers in exchange for an amount (transaction price) that the Company has received or expects to receive. When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The company allocates the transaction price to each distinct

performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

The company's contracts may include variable consideration including rebates, volume discounts and penalties. The company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue on time-and-material contracts is recognized as the related services are performed. For fixed price maintenance, revenue is recognized ratably on a straight-line basis spread evenly over the contract period or as a percentage of completion method when revenue from customer services and the Company's costs to fulfil the contract are not evenly spread over the period of contract because the services are generally discrete in nature and not repetitive.

Revenue from other fixed price and other fixed-timeframe contracts, where the performance obligations are satisfied over time is recognized using the percentage-of-completion method. Efforts or costs expended have been used to determine progress towards completion as there is a direct relationship between input and productivity. Progress towards completion is measured as the ratio of costs or efforts incurred to date (representing work performed) to the estimated total costs or efforts. Estimates of transaction price and total costs or efforts are continuously monitored over the term of the contracts and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

The billing schedules agreed with customers include periodic performance-based billing and/ or milestone-based progress billings. Revenues earned in excess of billing are classified as unbilled revenue, while billings in excess of revenues are classified as contract liabilities (referred to as Unearned Revenues).

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

Revenues for the year ended March 31, 2025 and March 31, 2024, are follows:

(In CA\$)		
Particulars	For the year ended March 31,	
	2025	2024
Revenue from software services	20,057,781	24,226,050
Total	20,057,781	24,226,050

## Disaggregate revenue information

The disaggregated revenues from contracts with customers for the year ended March 31, 2025 and March 31, 2024, by geography, are as follows:

(In CA\$)		
Particulars	For the year ended March 31,	
	2025	2024
Revenues by geography*		
Canada	12,986,036	17,636,507
USA	7,071,745	6,589,543
Total	20,057,781	24,226,050

\* Geographical revenues is based on the customer's domicile.

## Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

Receivables are unconditional rights to consideration. Unbilled revenues comprising revenues in excess of billings from time-and-material contracts and fixed-price maintenance are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed-price contracts is based on milestones as defined in the contract and, therefore, the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed timeframe contracts are classified as non-financial asset (contract asset) because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

## Remaining performance obligations disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2025, other than those meeting the exclusion criteria mentioned above is CAD 514,907. Out of this, the Group expects to recognize revenue of around 100% within the next one year. The aggregate value of performance obligations that are completely or partially unsatisfied as at March 31, 2024 was CAD 484,408. The contracts can generally be terminated by the customers

and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause..

## 2.12 Other income

### Accounting policy

Other income is comprised primarily of interest income and on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

### Foreign currency

#### Functional currency

The functional currency of the Company is the Canadian Dollar, these financial statements are presented in Canadian Dollar (CA\$).

Other income/ (expense) are as follows:

Particulars	(In CA\$)	
	For the year ended March 31,	
	2025	2024
Interest income on financial assets carried at amortized cost:		
Exchange (losses)/ gains on translation of other assets and liabilities	(254,979)	(86,144)
Miscellaneous income	570	-
Total	(254,409)	(86,144)

## 2.13 Expenses

Particulars	(In CA\$)	
	For the year ended March 31,	
	2025	2024
Employee benefit expenses		
Salaries including bonus	11,017,590	10,759,727
Share based payments to employees	82,939	78,193
Staff welfare	14,886	7,261
	11,115,415	10,845,181
Other expenses		
Rates and taxes	6,086	11,698
Branding and marketing expenses	57,423	26,435
Impairment loss recognized/ (reversed) under expected credit loss model	(46,642)	68,333
Statutory audit fees	14,018	13,614
Software packages for own use	82,341	-
Consultancy and professional charges	(50,187)	89,741
Others	39,997	52,220
Total	103,036	262,041

\* The company have no leases during the current year and therefore no ROU and lease liabilities have been recorded

## 2.14 Financial Instruments

### Accounting Policy

#### 2.14.1 Initial recognition

The Company initially recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument, at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs, directly attributable to the acquisition or issue of financial assets and liabilities, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 2.14.2 Subsequent measurement

##### a. Non-derivative financial instruments

###### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through Other Comprehensive Income (FVOCI)

A financial asset is measured at fair value through Other Comprehensive Income, if it is held within a business model that combines collecting contractual cash flows and selling financial assets, with its contractual terms result in cash flows that are solely payments of principal and interest. Further, in cases where the Company makes an irrevocable election, for its investments classified as equity instruments, the subsequent changes in fair value are recognized in Other Comprehensive Income.

###### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is fair-valued through Profit or Loss.

###### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is measured at fair value through Profit or Loss. For trade and other payables due within one year of the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 2.14.3 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows expire, or the financial asset is transferred, and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged, cancelled, or expires.

#### 2.14.4 Fair value of financial instrument

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fairvalue include

discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized..

#### 2.14.5 Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenue which are not fair-valued through Profit or Loss. Loss allowance for trade receivables and unbilled revenue with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. Changes in ECL are recognized as an impairment gain or loss in the Statement of Profit and Loss.

#### Financial instruments by category

The carrying value and fair value of financial instruments as of March 31, 2025 and March 31, 2024, are as follows:

(In CA\$)		
Particulars	As at March 31,	
	2025	2024
Assets:		
Cash and cash equivalents (Refer to Note 2.3)	3,716,667	569,935
Trade receivables (Refer to Note 2.2)	2,577,707	6,978,586
Other financial assets (Refer to Note 2.4)	87,794	56,925
Total	6,382,168	7,605,446
Liabilities:		
Trade payables (Refer Note 2.7)	331,938	1,807,868
Other financial liabilities (Refer Note 2.8)	991,663	1,374,500
Total	1,323,601	3,182,368

### Financial risk management

#### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. It's primary focus is to minimize potential adverse effects of financial market unpredictability on its financial performance. The primary market risk is foreign exchange risk, which is mitigated using derivative financial instruments. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

#### Market risk

The Company operates internationally, with a major portion of the business is transacted in several foreign currencies. Consequently, it is exposed to foreign exchange risk arising from its sales and services in the United States and other countries, as well as imports from suppliers in foreign currencies.

The following table analyses the foreign currency risk from financial assets and liabilities as at March 31, 2025:

(In CA\$)			
Particulars	U.S. dollars	Other currencies	Total
Net financial assets	790,562	18,962	809,524
Net financial liabilities	(295,572)	(26,666)	(322,238)
Net assets/ (liabilities)	494,990	(7,704)	487,286

The following table analyses the foreign currency risk from financial assets and liabilities as at March 31, 2024:

(In CA\$)			
Particulars	U.S. dollars	Other currencies	Total
Net financial assets	646,397	4,010	650,407
Net financial liabilities	(1,507,272)	(91,171)	(1,598,444)
Net assets/ (liabilities)	(860,875)	(87,161)	(948,037)

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to CAD 2,577,707 and CAD 6,978,586 as of March 31, 2025 and March 31, 2024, respectively and unbilled revenue amounting to CAD 42,972 and CAD 53,874 as of March 31, 2025 and March 31, 2024. Trade receivables and unbilled revenue are typically unsecured, derived from revenue earned from customers primarily located in the United States. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. It uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix factors credit reports and other related credit information to the extent available.

The following table gives details in respect of percentage of revenues generated from top customers

Particulars	As at March 31,	
	2025	2024
Revenue from top customers - Customer A	49	73
Revenue from top customers - Customer B	35	27

## Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents, and the cash flow that is generated from operations. It believes that the working capital is sufficient to meet its current requirements.

As of March 31, 2025, the Company had a working capital of CAD 4,618,686 including cash and cash equivalents of CAD 3,716,667. As of March 31, 2024, it had a working capital of CAD 3,900,285 including cash and cash equivalents of CAD 569,935.

As of March 31, 2024 and March 31, 2023, the compensated absences were CAD 255,138 and CAD 274,312 respectively. Further, as of March 31, 2025 and March 31, 2024, the Company had no outstanding bank borrowings. Accordingly, no liquidity risk is perceived.

The contractual maturities of significant financial liabilities as of March 31, 2025, are as follows:

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	331,938	–	–	–	331,938
Other liabilities (Refer to Note 2.9)	991,663	–	–	–	991,663

The contractual maturities of significant financial liabilities as of March 31, 2024, are as follows:

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	1,807,868	–	–	–	1,807,868
Other liabilities (Refer to Note 2.9)	1,374,500	–	–	–	1,374,500

### 2.16 Segment Reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'Management approach', as defined in Ind AS 108, Segment Reporting the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance

of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.17 Subsequent Event

There are no material subsequent events between April 01, 2025 and May 30, 2025, which requires adjustments or disclosures in the consolidated financial statements for the year ended March 31, 2025,

## 2.18 Ratios

The following are analytical ratios for the year ended March 31, 2025 and March 31, 2024

Particulars	Numerator	Denominator	March 31, 2025	March 31, 2024	Variance*
Current Ratio	Current assets	Current liabilities	3.6	2.1	75.5% *
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	24.0%	70.1%	(46.1%) **
Trade receivables turnover ratio	Revenue	Average Trade Receivable	4.2	5.2	(19.6%)
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	6.6	11.2	(41.0%) ***
Net capital turnover ratio	Revenue	Working Capital	4.3	6.2	(30.1%) #
Net profit ratio	Net Profit	Revenue	5.6%	8.8%	(3.2%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(1)</sup>	29.0%	73.2%	(44.3%)##

<sup>(1)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

## Infosys BPO Americas LLC

# Independent Auditor's Report

To,  
The Board of Managers,  
Infosys BPO Americas, LLC

## Opinion

We have audited the accompanying financial statements of Infosys BPO Americas, LLC ("the Company"), which comprise the balance sheets as of March 31, 2025 and March 31, 2024, the related statement of income from operations, statement of changes in membership interest and statement of cash flows for the years then ended and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Infosys BPO Americas, LLC as of March 31, 2025 and March 31, 2024, and the results of its operations and its cash flow for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Infosys BPO Americas, LLC and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Infosys BPO Americas, LLC's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Infosys BPO Americas, LLC internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Infosys BPO Americas, LLC ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

## Note 1: Organization and Nature of Operations

Infosys BPO Americas LLC, (the Company) is a Mortgage fulfillment services-based business that provides end to end Mortgage fulfillment services that includes mortgage solutions to help clients to minimize risk, ensure quality control compliance and streamline loan processes like boarding, scanning trailing docs and lien release.

The Company was formed in November 2015 as a limited liability company under the provisions of the Delaware Limited Liability Company Act (the Act). The Company was formed by Infosys BPM Limited (formerly known as Infosys BPO Limited), a subsidiary of Infosys Limited.

## Note 2: Summary of Significant Accounting Policies

### 2.1 Basis of Preparation

The financial statements has been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The financial statements have been presented in United States Dollars. The following notes describe the significant accounting policies:

### 2.2 Comparative Financial Statement

The financial statements presented along with the audit report are in comparative form.

## Note 3: Summary of Significant Accounting Policies

### 3.1 Use of estimates

The preparation of financial statements is in conformity with US GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 3.2 Cash and cash equivalents

The Company defines cash equivalents as short-term, highly liquid investments readily convertible to cash with original maturities of three months or less. The Company did not hold any cash equivalents as of March 31, 2025. The Company maintained cash balances in two financial banking institutions as of March 31, 2025, which may at times exceed federally insured limits. To date, the Company has not experienced any losses in such accounts. All the accounts are insured by the Federal Deposit Insurance Corporation on aggregate balances up to \$ 250,000.

The Company has balance of cash and cash equivalents as of March 31, 2025 and March 31, 2024:

(In US\$)

Bank Account Type	As at March 31,	
	2025	2024
Current Account	5,038,386	8,346,165

### 3.3 Revenue recognition

Revenue from mortgage fulfillment services, which principally relates to implementation, enhancement, training and support services associated with the Company's products, is derived under both time-and- material and fixed-price agreements.

Revenue on time-and-material contracts is recognized as the related services are rendered. Revenue related to fixed-price agreements is recognized on a percentage of completion basis over the term of the agreement. In measuring progress towards completion, the input (efforts expended) method has been used. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates. Costs and earnings in excess of billings are classified as unbilled revenue while billings in excess of costs and earnings are classified as unearned revenue.

### 3.4 Accounts receivable

Accounts receivables are recorded at the invoiced amount. The Company's accounts receivable relates principally to revenue earned from customers located in the United States.

The Company maintains an allowance for doubtful accounts to provide coverage for losses from client receivables. In establishing the required allowance, management considers historical losses adjusted to take into account current market conditions and customers' financial condition, the amount of receivables in dispute, the current receivables aging and current payment patterns. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

The total accounts receivable are as follows:

(In US\$)

Particulars	As at March 31,	
	2025	2024
Accounts Receivable	175,069	1,053,391
Less: Provision for doubtful debts	(6,638)	(8,881)
Total	168,431	1,044,510

### 3.5 Plant and equipment

Property and equipment are stated at cost, less accumulated depreciation. The Company depreciates property and equipment over their estimated useful lives using the straight-line method.

Expenditure for renewals and improvements are capitalized; repairs and maintenance are charged to expense as incurred Leasehold improvements are amortized on a straight-line basis over the lesser of the remaining lease term or the estimated useful life of the asset.

For computer equipment, based on internal assessment and independent technical evaluation carried out by external

valuers, the management believes that the useful lives as given above best represent the period over which management expects to use these assets.

The Company evaluates the recoverability of these assets whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying value of the assets exceeds the fair value. Assets to be disposed are reported at the lower of the carrying value or the fair value less the cost to sell.

The Property, Plant and Equipment as of March 31, 2025 and April 01, 2024, are as follows:

(In US\$)					
Particulars	Balance as of April 01, 2024	Additions during the year	Retirement during the year	Balance as of March 31, 2025	Useful Life (in Years)
Leasehold Improvements	115,064	–	–	115,064	Over lease term or 5 years whichever is lower
Plant & Machinery	1,890	–	–	1,890	5
Office Equipment's	11,699	–	–	11,699	5
Computer Equipment's	148,388	11,100	(2,833)	156,655	3 to 5
Furniture & Fixtures	28,798	–	–	28,798	5
Property, Plant, and Equipment, Gross	305,839	11,100	(2,833)	314,106	–
Less: Accumulated Depreciation	(169,156)	(62,246)	2,833	(228,569)	–
Property, Plant and Equipment, Net	136,683	–	–	85,537	–

Depreciation expenses charged during the year are as follows:

(In US\$)		
Particulars	For the Year ended March 31,	
	2025	2024
Depreciation Expense	62,246	94,190
Total	62,246	94,190

### 3.6 Employee benefit obligations

The employees of the Company are entitled to compensated absences, which is non-accumulating in nature. The expense of non-accumulating compensated absences is recognized in the period in which the absences occur.

### 3.7 Sales and marketing Expense

The Company incurred Sales & Marketing expenses amounting to \$306 and Nil for the year ended March 31, 2025 and March 31, 2024, respectively.

### 3.8 Fair Value Consideration

Infosys BPO Americas, LLC uses fair value to measure certain financial and non-financial assets and liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value hierarchy is established and prioritized into three levels based on the nature of the inputs. The hierarchy gives the highest priority to inputs based on market data from independent sources (observable inputs - Level 1) and the lowest priority to a reporting entity's internal assumptions based upon the best information available when external market data is limited or unavailable (unobservable inputs - Level 3).

The fair value option allows entities to choose at specified election dates, to measure eligible financial assets and financial liabilities at fair value that are not otherwise required to be measured at fair value.

If an organization elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. Infosys BPO Americas, LLC did not elect the fair value option for the measurement of any eligible assets or liabilities.

Infosys BPO Americas, LLC's financial instruments (primarily cash and cash equivalents & receivables) are carried in the accompanying statement of financial position at amounts, which reasonably approximate fair value.

### 3.9 Investments

The Company carries no investment in marketable Securities.

### 3.10 Reclassification of Prior Year Amounts

Certain classifications for the previous year have been changed to conform to the current year classifications. Neither net income nor membership interest were impacted by the changes.

## Note 4: Income Taxes

The company is classified as an C Corporation for tax purposes. For federal income tax purposes, the Company is a disregarded entity and accordingly, its income is not taxed at the entity level but is instead reported by its Indian holding company, the sole owner i.e. BPM Limited (formerly known as Infosys BPO Limited).

Income taxes are accounted using the assets and liabilities method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between

the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred tax assets and liabilities is recognized as income or expense in the period that includes the enactment date.

The measurement of deferred tax assets is reduced, if necessary, by a valuation allowance if it is more likely than not that some portion or all of the assets will not be realized. Changes in valuation allowance from period to period are reflected in the income statement of the period of change.

The expense / (benefit) for income tax for the years ended March 31, 2025, and March 31, 2024, is as follows:

(In US\$)		
Particulars	For the Year ended March 31,

(formerly, Lodestone Management Consultants B.V.)

# Independent Auditor's Report

To the Members of Infy Consulting B.V. (formerly Lodestone Management Consultants B.V.) Report on the Special Purpose Financial Statements

## Opinion

We have audited the accompanying special purpose financial statements of Infy Consulting B.V. (formerly Lodestone Management Consultants B.V.) ("the Company"), which comprise the Balance Sheet as at December 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

## Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

## Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error,

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- I) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- II) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- III) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infy Consulting B.V.(formerly, Lodestone Management Consultants B.V.) is a wholly-owned subsidiary of Infosys Consulting Holding AG (Infosys Lodestone) (formerly, Lodestone Holding AG). The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of Section 129s(3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Indian Rupee (₹).

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balance of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of percentage of completion which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts to be expended, impairment losses on financial assets, future obligations under employee benefit plans, income taxes, post-sales customer support and the useful lives of property, plant and equipment.

## 1.5 Revenue recognition

The Company derives revenue primarily from consultancy services.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are on a fixed timeframe or time-and-material basis.

### 1.5.1 T&M

Revenue on time-and-material contracts is recognized as the related services are performed, and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

### 1.5.2 FP

For fixed-price, fixed-timeframe contracts with the performance obligations satisfied over time and no uncertainty as regards measurement or collectability of consideration, revenue is recognized using the percentage-of-completion method.

### 1.5.3 Unbilled/ Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer as unearned revenues).

### 1.5.4 Licenses

Revenue from licenses where the customer obtains a 'right to use' licenses is recognized when the license is made available to the customer. Revenue from licenses where the customer obtains a 'right to access' is recognized over the access period. Arrangements to deliver software products generally have three elements: License, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost-plus-margin approach. Where the license requires substantial customization as part of the implementation service the entire arrangement fee for license and implementation is considered as a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising from the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

### 1.5.6 Contract Modification

Contract modifications are accounted when changes to the contract scope or contract price are approved. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and priced at the standalone selling price. Non-distinct added services are accounted on a cumulative catch-up basis. Distinct services are accounted prospectively as a separate contract, if the additional services are priced at the standalone selling price, if not as a termination and replacement of the existing contract.

### 1.5.7 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and loss.

## 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## 1.7 Post-sales client support and warranties

The Company provides its clients with a fixed-period warranty for corrections of errors and telephone support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in the cost of sales. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

## 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

## 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method.

The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end

(1) Based on technical evaluation, the Management believes that the useful lives, as given above, best represent the period over which Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under 'Other non-current assets', and the cost of assets not used before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

## 1.10 Financial instruments

### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.10.2 Subsequent measurement

#### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through Other Comprehensive Income

A financial asset is subsequently measured at fair value through Other Comprehensive Income, if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of the principal and interest on the outstanding principal amount.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair-valued through profit or loss.

#### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 1.11 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

### 1.12 Impairment

#### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

#### b. Non-financial assets

##### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability when events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Such assets considered to be impaired are recognized in the Statement of Profit and Loss, measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss, if there is a change in the estimated recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

### 1.13 Employee benefits

#### Compensated absences

The Company has a policy on accumulating and non-accumulating compensated absences. The expected cost of accumulating compensated absences is determined through actuarial valuation using the projected unit credit method, performed by an independent actuary, based on the additional amount expected to be paid or availed due to unused entitlements accumulated as of the Balance Sheet date. Expense of non-accumulating compensated absences is recognized in the period in which the absences occur.

### 1.14 Foreign currency

#### Functional currency

The functional currency of the Company is the EUR (€). These financial statements are presented in Indian Rupees (₹).

#### Transactions and translations

Foreign currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value is determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flows denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.15 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable

that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.16 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.17 Other income

Other income is comprised primarily of interest income, dividend income and exchange gain/ loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

### 1.18 Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of outstanding equity shares during the period.

### 1.19 Leases

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. At the inception of a contract, the Company assesses whether a contract contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) The contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (ROU) and a corresponding lease

liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost comprising the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease, plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For impairment testing, the recoverable amount (i.e. the higher of the fair-value less cost to sell and the value-in-use) is determined on an individual asset basis, unless the assets that are largely independent of those from other assets, do not generate cash flows. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost, representing the present value of the future lease payments. These payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the Company's incremental borrowing rate applicable in the domicile of the leasing country.

If the Company changes its assessment regarding the exercise an extension or termination option, the lease liability is remeasured with a corresponding adjustment to the related ROU asset.

Lease liability and ROU asset are separately presented in the Balance Sheet. Lease payments are classified as financing cash flows.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year-ended December 31, 2024, are as follows:

(In ₹)				
Particulars	Office Equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as of January 1, 2024	65,127	54,99,946	6,75,761	62,40,834

Less: Allowances for credit loss	–	–
	17,03,04,928	9,11,52,800
<sup>(1)</sup> Includes dues from related parties (Refer to Note 2.18)	17,12,11,558	6,41,83,397

## 2.5 Cash and cash equivalents

(In ₹)

Particulars	As at December 31	
	2024	2023
Balances with banks		
In current accounts		45,33,73,961
	44,34,54,220	
Total cash and cash equivalents	44,34,54,220	45,33,73,961

## 2.6 Other assets

Particulars	(In ₹)	
	As at December 31	
	2024	2023
Current		
Others		
Prepaid expenses	88,93,369	1,69,05,876
Withholding taxes and others	3,32,51,353	5,39,47,482
Total current other assets	4,21,44,722	7,08,53,358

## 2.7 Financial instruments

Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

Particulars	(In ₹)	
	As at December 31	
	2024	2023
Assets		
Cash and cash equivalents (Refer to Note 2.5)	44,34,54,220	45,33,73,961
Trade receivables (Refer to Note 2.4)	17,03,04,928	9,11,52,800
Loans (Refer to Note 2.2)	14,64,28,897	15,38,00,636
Other financial assets (Refer to Note 2.3)	2,00,50,972	3,45,32,504
Total	78,02,39,017	73,28,59,901
Liabilities		
Trade payables (Refer to Note 2.9)	3,83,08,660	2,19,80,680
Other financial liabilities (Refer to Note 2.10)	8,14,96,300	12,74,97,684
Total	11,98,04,960	14,94,78,364

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximate their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: Market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange. The Company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to credit risk at the reporting date is primarily from trade receivables amounting to ₹170,304,928 and ₹91,152,800 as of December 31, 2024, and December 31, 2023, respectively, and

unbilled revenue amounting to ₹2,701,952 and ₹19,234,004 as of December 31, 2024, and December 31, 2023, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. As per Ind AS 109, the Company uses ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from credit rating agencies and the Company's historical experience for customers.

### Credit risk exposure

The provision for lifetime ECL on customer balances for the years-ended December 31, 2024 and 2023, were (₹143,148) and ₹493,123, respectively.

Particulars	(In ₹)	
	Year-ended December 31,	
	2024	2023
Balance at the beginning	5,08,058	–
Impairment loss recognized/reversed	(1,43,148)	4,93,123
Translation differences	(19,877)	(2,97,635)
Balance at the end	3,45,033	1,95,488

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks with high credit ratings assigned by credit rating agencies.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements

As of December 31, 2024, the Company had a working capital of ₹445,588,047 including cash and cash equivalents of ₹443,454,220. As of December 31, 2023, the Company had a working capital of ₹376,276,864 including cash and cash equivalents of ₹453,373,961

## 2.8 Equity

### Equity share capital

Net current income tax assets/ (liabilities) at the end	37,99,403	12,94,832

The gross-movement in the current income tax assets/ (liabilities) is as follows:

Particulars	Years-ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	12,94,832	(1,52,24,333)
Income tax paid	3,19,41,397	4,67,56,851
Current income tax expense	(2,99,86,887)	(2,78,38,602)
Translation difference	5,50,062	(23,99,084)
Net current income tax asset / (liability) at the end	37,99,404	12,94,832

## 2.14 Leases

The changes in the carrying value of right of use assets for the year ended December 31, 2024, are as follows:

Particulars	Category of ROU asset		Total
	Vehicles	Computer equipment	
Balance as of January 1, 2024	2,33,06,262	1,39,08,050	3,72,14,312
Additions	1,31,72,971	13,51,602	1,45,24,573
Deletion	(64,13,857)	(6,91,449)	(71,05,306)
Translation difference	(5,21,167)	(1,79,102)	(7,00,269)
Depreciation	(1,27,38,599)	(50,59,780)	(1,77,98,379)
Balance as of December 31, 2024	1,68,05,610	93,29,321	2,61,34,931

Changes in the carrying value of right of use assets for the year-ended December 31, 2023, are as follows:

Particulars	Category of ROU asset		Total
	Vehicles	Computer equipment	
Balance as of January 1, 2023	3,28,97,665	2,60,685	3,31,58,350
Additions	66,53,211	1,50,24,640	2,16,77,851
Deletion	-	(2,59,437)	(2,59,437)
Translation difference	9,30,879	1,01,093	10,31,972
Depreciation	(1,71,75,493)	(12,18,931)	(1,83,94,424)
Balance as of December 31, 2023	2,33,06,262	1,39,08,050	3,72,14,312

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The break-up of current and non-current lease liabilities as at December 31, 2024, are as follows:

Particulars	As at December 31,	
	2024	2023
Current lease liabilities	80,12,313	1,47,86,325
Non-current lease liabilities	1,41,85,306	2,18,95,164
Total	2,21,97,619	3,66,81,489

The movement in lease liabilities during the year is as follows:

Particulars	For the year-ended December 31,	
	2024	2023
Balance at the beginning	3,66,81,489	3,13,25,400
Additions	1,45,24,573	2,16,77,851
Deletions	(71,05,306)	(2,59,437)
Finance cost accrued during the period	8,50,551	3,37,174
Payment of lease liabilities	(2,13,94,437)	(1,83,48,097)
Translation difference	(13,59,251)	19,48,598
Balance at the end	2,21,97,619	3,66,81,489

The details regarding the contractual maturities of lease liabilities on an undiscounted basis are as follows:

Particulars	As at December 31,	
	2024	2023
Less than one year	48,42,09,640	1,82,89,070
One to five years	46,64,03,412	1,98,42,684
Total	95,06,13,052	3,81,31,754

The Company does not face a significant liquidity risk against its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.19 Segment reporting

The Company's business activity, falls within a single primary business segment, i.e. providing Products and platforms and related services. Accordingly, disclosures as required under IND AS 108, 'Segment Reporting', have not been separately presented in the financial statements, since the information is available directly from the Statement of Profit and Loss.

## 2.20 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	December 31, 2024	December 31, 2023	Variance
Current Ratio	Current assets	Current liabilities	3.0	2.4	23.2%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.0	0.1	-6.5%
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	(4.4)	(6.0)	10.0%
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	0.1	0.2	2.0%
Trade receivables turnover ratio	Revenue	Average Trade Receivable	7.6	11.4	52%#
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	11.2	13.3	110%##
Net capital turnover ratio	Revenue	Working Capital	2.2	3.0	-15.3%
Net profit ratio	Net Profit	Revenue	0.1	0.1	8.3%
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	0.2	0.2	2.5%

<sup>(1)</sup>Debt represents only lease liabilities

<sup>(3)</sup>Lease payments for the current year

<sup>(2)</sup>Net Profit after taxes + non-cash operating expenses + Interest + other adjustments like loss on sale of fixed assets etc.

<sup>(4)</sup>Tangible net worth + deferred tax liabilities + lease liabilities

## Infosys Chile SpA

# Report of Independent Auditors

Shareholders and Board of Directors of Infosys Chile SpA.

## Opinion

We have audited the financial statements of Infosys Chile SpA., which comprise the statements of financial position as of December 31, 2024 and 2023, and the related statements of income, comprehensive income, changes in equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Infosys Chile SpA., as of December 31, 2024 and 2023, and the results of its operations and its cash flows for the years then ended in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board.

## Basis for Opinion

We conducted our audits in accordance with Generally Accepted Auditing Standards in Chile. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Infosys Chile SpA., and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Infosys Chile SpA., ability to continue as a going concern for a foreseeable future.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with Generally Accepted Auditing Standards in Chile will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with Generally Accepted Auditing Standards in Chile, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Infosys Chile SpA. ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and any internal control significant deficiency and material weakness that we identified during the audit.

# Notes to the Financial Statements

## Note 1- Corporate Information

The company Infosys Chile SpA is a Company by Shares, Tax ID 76.813.065-5, whose domicile is located in Rosario Norte # 407 Dept. # 1601, Santiago City, Commune Las Condes, Metropolitan Region.

Its incorporation took place on November 20, 2017, through Public Deed at the 27<sup>th</sup> Notary Public of Santiago "Eduardo Avello Concha".

Its main objective is the design, development, and commercialization of software.

The shareholders and their respective participation are:

Name shareholder	Rut	% Capital	% Utilities
Infosys Limited	59243420-2	100	100

## Note 2- Basis of Presentation of the Financial Statements and Applied Accounting Criteria

### 2.1 Covered periods

The present financial statements of the Company, include the following periods:

Accumulated	As at December 31,	
	2024	2023
Statement of Financial Position	Yes	Yes
Statement of Comprehensive Income	Yes	Yes
Statement of Cash Flows	Yes	Yes
Statement of Changes in Equity	Yes	Yes

### 2.2 Basis of preparation

#### a) Financial statements

The information contained in the financial statements as of December 31, 2024 is under the responsibility of the Company's Management, which expressly states that the principles and criteria included in the International Financial Reporting Standards have been applied in full IFRS.

#### b) Responsibility for information and financial statements

The information contained in these consolidated financial statements is under responsibility of the Company's Management, which expressly states that the principles and criteria included in the IFRS have been applied in full.

#### c) Administration estimations

In the preparation of the classified financial statements, certain estimates made by the Company's Management have been used to quantify some of the assets, liabilities, income, expenses and commitments recorded in them.

These estimates basically refers to:

- The fiscal results, which will be submitted before the respective tax authorities in the future, which have served as the basis for the recording of the different balances related to the income taxes in these classified financial statements.

#### d) Accounting policies

The following describes the main accounting policies adopted in the preparation of these classified financial statements. As required by IFRS 1, these policies have been defined in accordance with IFRS, and have been applied consistently to all the years presented in these classified financial statements.

### 2.3 Presentation of financial statements

#### e) Statements of financial position

The Company has determined the current and non-current classification as presentation format for its statement of financial position.

#### f) Statement of Cash Flow

The Company has chosen to present its Statement of Cash Flow in accordance with the indirect method.

#### g) Functional currency and conversion of foreign currency

The functional currency of the Company is the Chilean peso.

The financial statements are presented in Chilean pesos. The functional currency has been determined considering the economic environment in which the Company carries out its operations and the currency in which its main cash flows are generated, as indicated in IAS 21.

Transactions other than those made in the functional currency of the entity will be converted at the exchange rate in the effective rate on the date of the transaction. Monetary assets and liabilities expressed in currencies other than the functional currency will be converted back to the closing exchange rates of the financial statements.

Gains and losses from the conversion are included in the net profit or loss for the year, within other financial items.

#### h) Conversion Basis

The closing exchange rates used as of December 31, 2024 and 2023 are as follows:

Particulars	As at December 31,	
	2024	2023
US Dollar	996,46	877,12
Euros	1.035,28	970,05
UF	38.416,69	36.789,36

#### i) Compensation of balances and transactions

As a general rule in the financial statements, neither the assets and liabilities, nor the income and expenses are compensated, except in those cases in which the compensation is required or permitted by a disposition and this presentation is a reflection of the merits of the transaction.

#### j) Cash and cash equivalents

The cash and equivalent to cash corresponds to that available in bank accounts.

### k) Accruals

The accruals are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources including economic benefits will be required to settle the obligation and a reliable estimation of the amount of the obligation.

### l) Revenue recognition

The Company recognizes its income corresponding to each one of the payment statements approved by the principal.

Income is recognized to the extent that it is probable that the economic benefits will flow to the Company and can be reliably measured. Revenue is measured at the fair value of the payment received, excluding discounts, rebates and other sale taxes or duties.

### m) Income and Deferred Tax

The Company accounts for Income Tax on the basis of the taxable net income determined according to the rules established in the Chilean Income Tax Law and IAS 12.

### n) Cost of sales and administrative expenses

Administrative expenses are mainly composed of disbursements associated with salaries or expenses of personnel directly related to services.

The administrative expenses are mainly composed of disbursements associated with legal and advisory services, patents, fines, notary fees, parking, telephone, etc.).

## Note 3.- New standards, interpretations and amendments of IFRS

At the date of issuance of these financial statements, new standards, amendments and interpretations have been issued:

The following standards, interpretations and amendments to IFRS that became effective as of the date of issuance of these financial statements:

New Standards, Interpretations and Amendments mandatory for the first time		Application Mandatory as of
Amendment IAS 1	Presentation of Financial Statements and accounting policies, classification and settlement of liabilities	Jan 1, 2024
Amendment IAS 1	Non-Current Liabilities with Covenants (amendment to IAS 1)	Jan 1, 2024
IFRS 16	Lease liabilities on a Sale and Leaseback Sale	Jan 1, 2024
Amendment IAS 7 y IFRS 7	Supplier Financing Agreements	Jan 1, 2024

The Management considers that the effectiveness of these changes in the Standards has not affected the Company's accounting.

New Standards, Interpretations and Amendments that are not yet effective and early adoption has not been made.		Application Mandatory as of
IAS 21	Absence of convertibility	Jan 1, 2025
IFRS S1	General requirements for sustainability disclosures related to financial information	Jan 1, 2025
IFRS S2	Climate-related disclosures	Jan 1, 2025
IFRS 1	Improvements to cross-references with IFRS 9, paragraphs B5 and B6	Jan 1, 2026
IFRS 10	Incorporation of improvements in the description of control evaluation when there are de facto agents.	Jan 1, 2026
IAS 7	Amendment related to the concept of "equity method" eliminating reference to "cost method".	Jan 1, 2026
IFRS 18	Presentation and disclosure of financial statements. New Standard that repeals IAS 1.	Jan 1, 2027
IFRS 19	Subsidiaries that are not in the public interest. Simplifies disclosure requirements.	Jan 1, 2026

The Management believes that the entry into force of these changes and new Standards will not significantly affect the Company's accounting.

## Note 4- Cash and cash equivalents

Datacom	35.144	24.118
Rental office and related expenses	68.667	54.393
Rates and taxes	17.415	15.898
Travel and related expenses	57.587	42.303
Others	66.516	100.684
Total	1.673.152	1.832.879

## Note 16- Contingencies and commitments

As of December 31, 2024, there are no contingencies and commitments.

## Note 17- Events after the reporting period

Between January 1, 2025, and the date of issuance of these financial statements, no subsequent events have occurred that could have a significant effect on the figures presented therein or on the economic and financial situation of the Company.

**Panaya Inc.**

# Independent Auditor's Report

To the Members of Panaya Inc. (Panaya)

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Panaya Inc. (Panaya) ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's board of directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's board of directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Panaya Inc ("the Company") was incorporated in the United States of America. The Company is a wholly-owned subsidiary of Infosys Limited.

Panaya Inc, USA develops and markets solutions for ERP (Enterprise Resource Planning) systems, by identifying the changes on the ERP system through automated analysis.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the holding company, Infosys Limited, under the requirements of Section 129 (3) of the Companies Act, 2013, and for issuing the Annual Performance Report (APR), which is required to be furnished by the holding company to the authorized bank in accordance with Regulation 10 of the Foreign Exchange Management (Overseas Investment) Regulations. These financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant rules issued thereafter.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include allowances for credit losses, future obligations under employee benefit plans, income taxes and the useful lives of property, plant, and equipment.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Revenue recognition

The Company derives its revenue principally from the sale of its ERP systems analysis services, including activation and monthly service fees. Revenues from services are recognized as services

are performed or on a straight-line basis if service is ongoing. Revenue is recognized provided that arrangement (usually in the form of a purchase order) exists, the fee is fixed and determinable and collection is reasonably assured. If uncertainties exist, revenue is recognized when the uncertainties are resolved.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

### Unbilled / unearned

Revenues in excess of invoicing are classified as contract assets (which we refer to as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period. Arrangements to deliver software products generally have three elements: License, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected-cost-plus-margin approach. Where the license is required to be substantially customized as part of the implementation service, the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

### Deferred contract cost

Deferred contract costs are incremental costs of obtaining a contract, which are recognized as assets and amortized over the term of the contract.

### Contract modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct

are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

**Tax**

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

**1.5 Provisions**

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

**1.6 Property, plant and equipment**

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Leasehold improvements	Over lease term
Office equipment <sup>(1)</sup>	5 years
Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Advances paid towards the acquisition of property, plant, and equipment outstanding at each Balance Sheet date are classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant, and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss, when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

**1.7 Financial instruments**

**1.7.1 Initial recognition**

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

**1.7.2 Subsequent measurement**

**a. Non-derivative financial instruments**

**(i) Financial assets carried at amortized cost**

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(ii) Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income, if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(iii) Financial assets at fair value through profit or loss**

A financial asset, which is not classified in any of the above categories, is subsequently fair valued through profit or loss.

**(iv) Financial liabilities**

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

**(v) Investment in subsidiaries**

Investment in subsidiaries is carried at cost in the separate financial statements.

**1.8 Fair value of financial instruments**

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.9 Impairment

### a. Financial assets

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets, which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant, and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in the previous years.

## 1.10 Employee benefits

### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid or availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.11 Foreign currency

### Functional currency

The functional currency of the Company is the US Dollar. These financial statements are presented in US Dollars.

### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses

resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.12 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities, and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 1.13 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

## 1.14 Other income

The Company has adopted Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration, which clarifies the date of transaction for the purpose of determining

the exchange rate to use on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency.

### 1.15 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.16 Borrowing cost

Borrowing costs are charged to the Statement of Profit and Loss in the period in which they incurred.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In US\$)

Particulars	Leasehold improvements	Office equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as of January 1, 2024	20,840	6,771	109,697	37,824	175,132
Additions	–	–	12,865	–	12,865
Deletions	–	–	–	–	–
Gross carrying value as of December 31, 2024	20,840	6,771	122,562	37,824	187,997

Total trade payables	6,97,071	75,687	–	–	–	772,759

For the year ended December 31, 2023

						(In US\$)
Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Others	–	883,574	–	–	–	883,574
Total trade payables	–	883,574	–	–	–	883,574

## 2.9 Borrowings

Particulars	(In US\$)	
	As at December 31,	
	2024	2023
Non-current		
Unsecured loan <sup>(1)(2)</sup>	8,332,592	8,344,033
Total non-current borrowings	8,332,592	8,344,033
<sup>(1)</sup> Includes dues to related parties (Refer to Note 2.17)	8,332,592	8,344,033
<sup>(2)</sup> The above loan carries an interest of 5.62% p.a.		

## 2.10 Other financial liabilities

(In US\$)

Particulars	As at December 31,	
	2024	2023
Current		
Accrued compensation to employees <sup>(1)</sup>	657,239	652,170
Accrued expenses <sup>(1)</sup>	117,903	128,967
Compensated absences	16,815	20,461
Total current other financial liabilities	791,957	801,597
<sup>(1)</sup> Financial liability carried at amortized cost	775,142	781,136

## 2.11 Other liabilities

(In US\$)

Particulars	As at December 31,	
	2024	2023
Current		
Unearned revenue	4,463,156	3,903,882
Others – Withholding taxes and others	27,733	25,401
Total current other liabilities	4,490,889	3,929,283

## 2.12 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In US\$)

Particulars	Year ended December 31,	
	2024	2023
Current taxes*	1,386,462	1,276,957
Deferred taxes	19,413	32,905
Income tax expense	1,405,875	1,309,862

\* On inclusion of provision of GILTI taxes

Current tax expense for the years ended December 31, 2024 and December 31, 2023 includes provisions (net of reversals) amounting to reversal of -US\$146,757 and nil respectively, pertaining to prior periods.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is as follows:

(In US\$)

Particulars	Year ended December 31,	
	2024	2023
Profit before income taxes	587,129	576,452
Enacted tax rates in USA	27.00%	27.00%
Computed expected tax expense	158,525	155,642
Effect of unrecognized deferred tax assets	–	–
Tax provision / reversals	–	–
Prior period tax expense	(146,757)	–
GILTI tax provision	1,382,284	1,213,903
Deferred tax expense	19,413	–
Opening DTAA impact on Intt	–	11,640
Profit on sale of investment	–	(260,869)
Effect of non-deductible expenses	(7,590)	10,889
Income tax expense	1,405,876	1,131,206

The applicable statutory tax rate for the years ended December 31, 2024 and December 31, 2023 is 27%.

The details of income tax assets and income tax liabilities are as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Income tax assets	2,033,152	2,189,702
Current income tax liabilities	(1,951,243)	(1,463,987)
Net current income tax assets / (liability) at the end	81,909	725,715

The gross movement in the current income tax asset / (liability) are as follows:

Particulars	(In US\$)	
	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	725,715	(252,594)
Income tax paid	742,656	2,255,266
Current income tax expense	(1,386,462)	(1,276,957)
Net current income tax asset/ (liability) at the end	81,909	725,715

The gross movement in the deferred tax asset / (liability) are as follows:

Particulars	(In US\$)		
	Carrying value as on Jan 1, 2024	Changes through profit and loss	Carrying value as on Dec 31, 2024
Accrued compensation	169,715	7,740	177,455
Compensated absences	5,525	(985)	4,540
Deferred revenue	–	–	–
Others	37,733	(31,951)	5,782
Total deferred tax assets	212,973	(25,196)	187,777

Particulars	(In US\$)		
	Carrying value as on Jan 1, 2024	Changes through profit and loss	Carrying value as on Dec 31, 2024
Property, plant and equipment	(13,762)	5,783	(7,979)
Total deferred tax liabilities	(13,762)	5,783	(7,979)

The gross movement in the deferred tax asset / (liability) are as follows:

Particulars	(In US\$)		
	Carrying value as on Jan 1, 2023	Changes through profit and loss	Carrying value as on Dec 31, 2023
Accrued compensation	190,347	(20,632)	169,715
Compensated absences	5,321	204	5,525
Deferred revenue	(1)	1	–
Others	54,412	(16,679)	37,733
Total deferred tax assets	250,079	(37,106)	212,973

Particulars	(In US\$)		
	Carrying value as on Jan 1, 2023	Changes through profit and loss	Carrying value as on Dec 31, 2023
Property, plant and equipment	(17,963)	4,201	(13,762)
Total deferred tax liabilities	(17,963)	4,201	(13,762)

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

Particulars	As at December 31,	
	2024	2023
Deferred income tax assets after set-off	187,777	212,973
Deferred income tax liabilities after set-off	(7,979)	(13,762)

In assessing the reliability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 2.13 Revenue from operations

(In US\$)

Particulars	Year ended December 31,	
	2024	2023
Revenue from products and platforms	10,451,843	10,108,326
Total revenue from operations	10,451,843	10,108,326

### Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

Revenue recognition for fixed-price development contracts is based on the percentage-of-completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers.

### Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024, the Company recognized revenue of US\$3,764,130 arising from opening unearned revenue as of January 1, 2024. During the year ended December 31, 2023, the Company recognized revenue of US\$3,528,702 arising from opening unearned revenue as of January 1, 2023.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance-obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revaluations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is US\$ 4,463,156. Out of this, the Group expects to recognize revenue of around 99.5% within the next one year and the remaining thereafter. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them.

### Disaggregate revenue information

The disaggregated revenues from contracts with customers for the years ended December 31, 2024 and December 31, 2023 by geography are as follows:

Particulars	Year ended December 31,	
	2024	2023
Revenues by geography <sup>(1)</sup>		
North America	10,451,843	10,108,326
Rest of the World	—	—
Total revenue	10,451,843	10,108,326

<sup>(1)</sup> Geographical revenue is based on the domicile of the customer.

## 2.14 Other income, net

(In US\$)

Particulars	Year ended December 31,	
	2024	2023
Interest received on bank a/c	–	273
Interest income on loan to subsidiary	–	13,219
Profit on sale of investment	–	304,477
Translation differences	–	828
Total other income, net	–	318,797

## 2.15 Expenses

(In US\$)

Particulars	Year ended December 31,	
	2024	2023
Employee benefit expenses		
Salaries including bonus	5,935,643	6,224,760
Staff welfare	24,451	18,215
Total employee benefit expenses	5,960,094	6,242,976
Cost of technical sub-contractors		
Technical sub-contractors – Subsidiaries	2,497,265	2,369,795
Total cost of technical sub-contractors	2,497,265	2,369,795
Travel expenses		
Overseas travel expenses	314,523	349,496
Overseas boarding and lodging	–	13,803
Per diem	–	2,275
Total travel expenses	314,523	365,574
Cost of software packages and others		
For own use	46,856	36,954
Total cost of software package and others	46,856	36,954
Communication expenses		
Communication expenses	11,726	8,135
Telephone charges	–	4,245
Total communication expenses	11,726	12,379

(In US\$)

Particulars	Year ended December 31,	
	2024	2023
Other expenses		
Repair and maintenance	–	(1,964)
Printing and stationery	–	121
Marketing expenses	1,125	31,530
Rent	79,760	74,272
Rates and taxes, excluding taxes on income	(697)	15,472
Postage and courier	5,165	1,522
Insurance charges	47,837	4,990
Consumables	–	3,146
Bank charges	16,635	12,272

Particulars	Year ended December 31,	
	2024	2023
Loss on sale of asset	–	–
Office maintenance	893	–
Computer maintenance	480	–
Translation differences	2,453	–
Miscellaneous expenses	8,576	3,751
Total other expenses	162,226	148,910

## 2.16 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

(In US\$)

Particulars	Carrying value as on December 31,	
	2024	2023
<b>Assets</b>		
Cash and cash equivalents (Refer to Note 2.4)	978,579	1,166,687
Trade receivables (Refer to Note 2.3)	1,644,878	1,206,466
Other financial assets (Refer to Note 2.5) <sup>(1)</sup>	24,773	34,369
Total	2,648,231	2,407,523
<b>Liabilities</b>		
Trade payables (Refer to Note 2.8)	772,759	883,574
Borrowings (Refer to Note 2.9)	8,332,592	8,344,033
Other financial liabilities (Refer to Note 2.10)	775,142	781,136
Total	9,880,493	10,008,743

All the above financial instruments are carried at amortized cost and the carrying values approximate their fair value.

## Financial risk management

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to US\$1,644,878 and US\$ 1,206,466 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses the expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

(In %)

Particulars	Year ended December 31,	
	2024	2023
Revenue from top customer	6.0%	4.5%
Revenue from top five customers	19.1%	16.6%

### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the years ended December 31, 2024 and December 31, 2023 was nil and nil, respectively.

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks.

## Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents. The Company has taken loan from its related party to meet its working capital requirements.

As of December 31, 2024, the Company had a working capital of US\$-5,276,131, including cash and cash equivalents of US\$978,579. As of December 31, 2023, the Company had a working capital of US\$-4,639,432, including cash and cash equivalents of US\$1,166,687.

As of December 31, 2024 and December 31, 2023, the outstanding compensated absences were US\$16,815 and US\$20,461, respectively.

The details regarding the contractual maturities of significant financial liabilities as of December 31, 2024 are as follows:

(In US\$)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	772,759	–	–	–	772,759
Other financial liabilities	775,142	–	–	–	775,142
Borrowings	34,440	8,298,152	–	–	8,332,592

The details regarding the contractual maturities of significant financial liabilities as of December 31, 2023 were as follows:

(In US\$)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	883,574	–	–	–	883,574
Other financial liabilities	781,136	–	–	–	781,136
Borrowings	45,881	8,838,362	–	–	8,884,243

## 2.18 Segment reporting

The Company is engaged in developing and marketing solutions in a single geography. Based on the “management approach” as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on analysis of performance of the company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of IND AS 108 Segment Reporting.

## Infosys Middle East FZ-LLC

# Independent Auditor's Report

To the Members of Infosys Middle East FZ LLC

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Middle East FZ LLC ("the Company"), which comprise the Balance Sheet as at December 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements give a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced.

- We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.
  - i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Statement of Cash Flows

## Accounting Policy

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(In AED)			
Particulars	Note No.	Year ended December 31,	
		2024	2023
Cash flow from operating activities:			
Profit for the year		2,260,856	817,813
Adjustments to reconcile net profit to net cash provided by operating activities:			
Income tax expense	2.18	188,875	–
Depreciation and amortization		409,155	790,996
Finance cost		57,454	27,564
Impairment loss recognised/(reversed) under expected credit loss model		(58,014)	850
Changes in assets and liabilities			
Trade receivables and unbilled revenue		(780,111)	3,270,190
Other financial assets and other assets		596,289	(550,108)
Trade payables		(5,327,356)	(848,806)
Other financial liabilities, other liabilities and provisions		757,852	(2,368,958)
Cash generated from operations		(1,895,000)	1,139,541
Income taxes paid, net of refunds		–	–
I. Net cash generated by operating activities		(1,895,000)	1,139,541
Cash flow from investing activities:			
Expenditure on property, plant and equipment (net of sale proceeds)		(32,849)	(12,100)
Loans (given)/ repaid by employees		(4,319)	1,638
II. Net cash from investing activities		(37,168)	(10,462)
Cash flow from financing activities:			
Payment of lease liabilities		(426,523)	(783,952)
III. Net cash used in financing activities		(426,523)	(783,952)
Net increase in cash and cash equivalents		(2,358,691)	345,127
Cash and cash equivalents at the beginning	2.4	9,175,465	8,830,337
Cash and cash equivalents at the end	2.4	6,816,775	9,175,465

# Significant accounting policies

## Company overview

Infosys Middle East FZ-LLC ("the Company"), was incorporated on 27 September 2007 as a Free Zone Company with limited liability under the provisions of the Dubai Technology & Media Free Zone Private Companies Regulations 2003 (currently known as Dubai Creative Clusters Authority) issued under Law No. 1 of 2000 of the Emirate of Dubai establishing the Dubai Technology, Electronic Commerce & Media Free Zone (TECOM). The registered address of the Company is Office 2201-2208, 22<sup>nd</sup> Floor, Aurora Tower, Dubai Media City, Dubai, P.O. Box 502292, United Arab Emirates ("UAE").

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operate (i.e. the "functional currency"). The functional currency of the Company is AED and the financial statements are also presented in AED. All amounts included in the financial statements are reported in AED, unless otherwise stated. Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is AED.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the application of accounting policies and the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period

in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 Time & Material

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Fixed Price

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

#### 1.5.3 Unbilled/ Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

#### 1.5.4 Volume Discounts

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

#### 1.5.5 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if

the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

1.5.6 Tax

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

1.7 Post-sales client support

The Company provides its clients with a fixed-period post sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Company recognizes any impairment loss on the assets associated with that contract.

1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows :

Office equipment	2 - 5 years
------------------	-------------

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be

measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

1.10 Financial instruments

1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

1.10.2 Subsequent measurement

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

1.10.3 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.11 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.12 Employee Benefits

### Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.13 Foreign currency

### Functional currency

The functional currency of the company is the AED. These financial statements are presented in AED.

### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses

resulting from such translations are included in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognised using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.14 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability, simultaneously.

## 1.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

## 1.16 Other income

Other income is comprised primarily of interest income and exchange gain on translation of other assets and liabilities.

### 1.17 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.18 Cash and cash equivalents

The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

### 1.18 Borrowing Cost

Borrowing cost are charged to the Statement of Profit and Loss in the period in which they occurred.

### 1.19 Leases:

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Infosys's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date

of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

### 2.1 Property, Plant And Equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 were as follows:

(In AED)		
Particulars	Office Equipment and Fixtures	Total
Gross carrying value as of January 01, 2024	2,171,454	2,171,454
Additions	32,850	32,850
Deletions	(75,812)	(75,812)
Gross carrying value as of December 31, 2024	2,128,492	2,128,492
Accumulated depreciation as of January 01, 2024	2,146,455	2,146,455
Depreciation	18,994	18,994
Accumulated depreciation on deletions	(75,812)	(75,812)
Accumulated depreciation as of December 31, 2024	2,089,637	2,089,637
Carrying value as of December 31, 2024	38,854	38,854

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2023 were as follows:

(In AED)

Particulars	Office Equipment and Fixtures	Total
Gross carrying value as of January 01, 2023	3,144,955	3,144,955
Additions	12,100	12,100
Deletions	(985,601)	(985,601)
Gross carrying value as of December 31, 2023	2,171,454	2,171,454
Accumulated depreciation as of January 01, 2023	3,108,896	3,108,896
Depreciation for the year	23,160	23,160
Accumulated depreciation on deletions	(985,601)	(985,601)
Accumulated depreciation as of December 31, 2023	2,146,455	2,146,455
Carrying value as of December 31, 2023	24,998	24,998

The aggregate depreciation has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## 2.2 Other Financial Assets

## 2.8 Leases

Following are the changes in the carrying value of right of use assets for the year ended December 31, 2024:

(In AED)

Particulars	Buildings
Balance as of January 01,2024	1,765,291
Additions	77,798
Depreciation	(390,160)
Balance as of December 31, 2024	1,452,929

Following are the changes in the carrying value of right of use assets for the year ended December 31, 2023:

(In AED)

Particulars	Buildings
Balance as of January 01,2023	622,471
Additions	1,910,655
Depreciation	(767,835)
Balance as of December 31, 2023	1,765,291

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at:

(In AED)

Particulars	As at December 31	
	2024	2023
Current lease liabilities	391,814	359,655
Non-current lease liabilities	1,044,260	1,367,690
Total	1,436,074	1,727,345

The movement in lease liabilities during the year ended is as follows:

(In AED)

Particulars	As at December 31	
	2024	2023
Balance at the beginning	1,727,345	573,077
Additions	77,798	1,910,656
Finance cost accrued during the period	57,454	27,564
Payment of lease liabilities	(426,523)	(783,952)
Balance at the end	1,436,074	1,727,345

The table below provides details regarding the contractual maturities of lease liabilities as at December 31, 2024 and December 31, 2023 and on an undiscounted basis:

(In AED)

Particulars	As at December 31	
	2024	2023
Less than one year	436,925	416,119
One to five years	1,092,312	1,456,417
More than five years	–	–
Total	1,529,237	1,872,536

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.9 Trade Payables

(In AED)

Withholding taxes and others	266,401	249,026
Gratuity payable	1,185,996	1,182,727
Others	1,286	14,469
	1,492,221	1,446,222
Total	13,166,750	12,979,014

## 2.12 Revenue from operations

(In AED)

Particulars	Year ended December 31,	
	2024	2023
Revenue from sale of services <sup>(1)</sup>	37,940,232	36,061,064
Total	37,940,232	36,061,064

<sup>(1)</sup> Includes Revenue from related parties (refer note 2.19)

### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore unbilled revenues for other fixed price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as "unearned revenue".

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024 and December 31, 2023, AED Nil and AED 230,002 of unbilled revenue pertaining to other fixed price and fixed time frame contracts as of January 1, 2023 and January 1, 2022, respectively has been reclassified to Trade receivables upon billing to customers on completion of milestones.

## Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material including unit of work based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is AED 4.63 Mn. Out of this, the Company expects to recognize revenue of around 100% within the next one year. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023 is AED Nil. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.13 Other Income

(In AED)

Particulars	Year ended December 31,	
	2024	2023
Exchange gains / (losses) on translation of other assets and liabilities	13,549	(42,566)

Provision for doubtful debts	(52,771)	(5,680)
Other miscellaneous expenses	30,170	(303,731)
Total	1,001,215	859,578

## 2.18 Income taxes

### Accounting Policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognised in the condensed Statement of Profit and Loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in other comprehensive income. Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses ("UAE CT Law" or the "Law") to enact a Federal corporate tax ("CT") regime in the UAE. As the Company's accounting year ends on 31 December, the first tax period will be the period from 1 January 2024 to 31 December 2024, with the respective tax return to be filed on or before

30 September 2025. A rate of 9% will apply to taxable income exceeding a particular threshold to be prescribed by way of a Cabinet Decision (expected to be AED 375,000 based on information released by the Ministry of Finance), a rate of 0% will apply to taxable income not exceeding this threshold and a rate of 0% on qualifying income of free zone entities.

Income tax expense in the statement of profit and loss comprises:

Particulars	(In AED)	
	Year ended December 31,	
	2024	2023
Current tax	188,875	–
Income tax expense	188,875	–

A reconciliation of income tax provision to the amount computed by applying the statutory income tax rate to the income before taxes is summarized below:

Total	21,394,435	21,673,985

## 2.20 Segment Reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.21 Commitment And Contingent Liability

Particulars	(In AED)	
	As at December 31,	
	2024	2023
Bank Guarantees	2,725,730	2,725,730
Total	2,725,730	2,725,730

There are no capital commitments as at 31 December 2024 (31 December 2023: Nil).

## 2.22 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	Year ended December 31,		Variance
			2024	2023	
Current Ratio	Current assets	Current liabilities	2.2	1.5	46.7%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	(0.4)	(0.3)	32.5%
Debt Service Coverage Ratio <sup>(4)</sup>	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	6.4	2.1	206.4%
Return on Equity (ROE) <sup>(5)</sup>	Net Profits after taxes	Average Shareholder's Equity	(61.6%)	(14.0%)	340.6%
Trade receivables turnover ratio <sup>(6)</sup>	Revenue	Average Trade Receivable	9.3	8.4	10.3%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	0.4	0.1	4.2
Net capital turnover ratio <sup>(7)</sup>	Revenue	Working Capital	5.3	7.1	(0.2)
Net profit ratio	Net Profit	Revenue	0.1	0.0	0.7
Return on capital employed (ROCE) <sup>(8)</sup>	Earning before interest and taxes	Capital Employed	(66.7%)	(14.0%)	3.8

- (1) Debt represents only lease liabilities
- (2) Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.
- (3) Lease payments for the current year
- (4) On account of higher increase in debt service
- (5) ROE improved as earnings were maintained with a lower Shareholders' equity. The reduction in equity is due to the issue of dividend
- (6) Increase in Revenue with a reduction in Average Trade Receivables
- (7) Increase in Revenue and decrease in working capital.
- (8) Increase in Net Profit before taxes while the Capital employed decreased year on year

## 2.23 Financial Instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories as of December 31, 2024 and December 31, 2023 were as follows:

Particulars	(In AED)	
	As at December 31,	
	2024	2023
<b>Assets</b>		
Cash and cash equivalents (Refer to Note No. 2.4)	6,816,775	9,175,465
Trade receivables (Refer to Note No. 2.3)	4,623,372	3,573,474
Other financial assets (Refer to Note No.2.2)	1,388,430	2,334,577
<b>Total</b>	<b>12,828,577</b>	<b>15,083,516</b>
<b>Liabilities</b>		
Trade payables (Refer to Note No. 2.9)	1,140,953	6,468,309
Lease Liability (Refer to Note 2.11)	1,436,074	1,727,345
Other financial liabilities (Refer to Note No.2.10)	2,891,432	2,321,311
<b>Total</b>	<b>5,468,459</b>	<b>10,516,965</b>

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximates their fair value.

### Financial risk management

#### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

#### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option(s) contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the AED and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the AED appreciates / depreciates against these currencies.

The foreign currency risk from financial instruments as of December 31, 2024 is as follows:

Particulars	(In AED)				
	USD	EUR	INR	Other currencies	Total
Net financial assets	191,148	5,953	–	794	197,895
Net financial liabilities	(45,220)	(45,937)	(344)	(206)	(91,707)
Net assets / (liabilities)	145,928	(39,984)	(344)	588	106,187

The foreign currency risk from financial instruments as of December 31, 2023 is as follows:

(In AED)

Particulars	USD	EUR	INR	Other currencies	Total
Net financial assets	395,442	5,435	522	982	402,381
Net financial liabilities	(275,163)	(6,628)	(11,497)	(255)	(293,543)
Net assets / (liabilities)	120,280	(1,193)	(10,975)	727	108,838

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to AED 4,623,372 and AED 3,573,474 as of December 31, 2024 and December 31, 2023, respectively and unbilled revenue amounting to AED 745,947 and AED 1,086,940 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company uses ECL model to assess any required allowances and uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The matrix takes into account credit reports and other related credit information to the extent available.

#### Credit risk exposure

The recognition/ (reversal) for lifetime ECL on customer balances for the year ended December 31, 2024 and December 31, 2023 was Nil.

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies.

#### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of December 31, 2024, the Company had a working capital of AED 7,164,534 including cash and cash equivalents of AED 6,816,775. As of December 31, 2023, the Company had a working capital of AED 51,07,856 including cash and cash equivalents of AED 9,175,465.

As of December 31, 2024 and December 31, 2023, the outstanding compensated absences were AED 484,215 and AED 666,222 respectively.

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2024:

(In AED)

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade Payables (Refer to Note 2.9)	1,140,953	–	–	–	1,140,953
Provision for Expenses	276,944	–	–	–	276,944
Accrued compensation to employees	1,002,521	–	–	–	1,002,521
Other payables (Refer to Note 2.10)	1,127,752	–	–	–	1,127,752

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2023:

(In AED)

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total

Accrued compensation to employees	988,799	–	–	–	988,799
Other payables (Refer to Note 2.10)	414,139	–	–	–	414,139

## Infosys Limited Bulgaria EOOD

# Independent Auditor's Report

To the Members of Infosys Limited Bulgaria EOOD

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Limited Bulgaria EOOD ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the

aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Company Overview and Significant Accounting Policies

## Company overview

Infosys Limited Bulgaria EOOD is a wholly-owned subsidiary of Infosys Limited incorporated on September 11, 2020. The purpose of the Company is to expand locally, as the same exists or as may hereafter be amended from time to time.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 01 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose consolidated financial statements are prepared for inclusion in the Annual Report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Reporting currency

The Company's reporting currency is BGN

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.6 Foreign currency

#### Functional currency

The functional currency of the Company is the BGN. These financial statements are presented in BGN.

#### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.7 Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.8 Financial instruments

#### 1.8.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

## 1.8.2 Subsequent measurement

### a. Non-derivative financial instruments

#### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

#### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### (v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

## 1.9 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.10 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenues which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to

the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of profit and Loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.11 Employee Benefits

### Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.12 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred

income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.13 Other Income

Other income is comprised primarily of interest income and exchange gain / loss on translation of other assets and liabilities. Interest Income is recognized using effective interest method.

### 1.14 Borrowing Cost

Borrowing cost are charged to the Statement of Profit and Loss in the period in which they are incurred.

## 2.1 Property, plant and equipment

Following are the changes in the carrying value of property, plant and equipment for the year ended December 31, 2024:

(In BGN)

Particulars	Computer Equipment	Total
Gross carrying value as of January 1, 2024	450,842	450,842
Additions	5,378	5,378
Gross carrying value as of December 31, 2024	456,220	456,220
Accumulated depreciation as of January 1, 2024	46,107	46,107
Depreciation	121,651	121,651
Accumulated depreciation as of December 31, 2024	167,758	167,758
Carrying value as of December 31, 2024	288,462	288,462

Following are the changes in the carrying value of property, plant and equipment for the year ended December 31, 2023: (In BGN)

Particulars	Computer Equipment	Total
Gross carrying value as of January 1, 2023	–	–
Additions	450,842	450,842
Gross carrying value as of December 31, 2023	450,842	450,842
Accumulated depreciation as of January 1, 2023	–	–
Depreciation	46,107	46,107
Accumulated depreciation as of December 31, 2023	46,107	46,107
Carrying value as of December 31, 2023	404,735	404,735

## 2.2 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Following are the changes in the carrying value of right of use assets for the year ended December 31, 2024:

(In BGN)		
Particulars	Category of ROU asset	Total
	Buildings	
Balance as of January 1, 2024	1,156,244	1,156,244
Additions (Net)	–	–
Depreciation	(831,040)	(831,040)
Balance as of December 31, 2024	325,204	325,204

Following are the changes in the carrying value of right of use assets for the year ended December 31, 2023:

(In BGN)		
Particulars	Category of ROU asset	Total
	Buildings	
Balance as of January 1, 2023	235,091	235,091
Additions (Net)	1,476,489	1,476,489
Depreciation	(555,335)	(555,335)
Balance as of December 31, 2023	1,156,244	1,156,244

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at December 31, 2024 and December 31, 2023:

(In BGN)		
Particulars	As at December 31,	
	2024	2023
Current lease liabilities	42,229	827,617
Non-current lease liabilities	338,853	381,008
Total	381,082	1,208,625

The following is the movement in lease liabilities during the year ended December 31, 2024 and December 31, 2023:

(In BGN)		
Particulars	For the year ended December 31,	
	2024	2023
Balance at the beginning	1,208,625	260,256
Additions (Net)	–	1,476,489
Finance cost accrued during the period	24,606	27,103
Payment of lease liabilities	(852,149)	(554,536)
Translation Difference		(686)
Balance at the end	381,082	1,208,625

The table below provides details regarding the contractual maturities of lease liabilities as at December 31, 2024 and December 31, 2023 on an undiscounted basis:

(In BGN)		
Particulars	As at December 31,	
	2024	2023
Less than one year	381,082	856,349
One to five years	–	356,812
More than five years	–	–
Total	381,082	1,213,161

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.3 Trade Receivables

(In BGN)		
Particulars	As at December 31,	
	2024	2023
Current		
Unsecured		
Considered good <sup>(1)</sup>	314,242	1,201,049
Considered doubtful	2,267	–
Total Trade Receivables	316,509	1,201,049
Less: Allowance for Credit Losses	2,267	–
Total Trade Receivables	314,242	1,201,049
<sup>(1)</sup> Includes dues from related parties (Refer to Note 2.17)	–	1,201,049

Years ended December 31, 2024 and December 31, 2023

(In BGN)

Particulars	Outstanding for following periods from due date of payment						Total
	Not Due	Less than 6 months	6 months - 1 year	1-2 years	2-3 years	More than 3 years	
Undisputed Trade receivables – considered good	137,679.46	178,830	–	–	–	–	316,509
	1,200,619	430	–	–	–	–	1,201,049
Less: Allowance for credit loss							2,267
							–
Total trade receivables							314,242
							1,201,049

## 2.4 Cash and Cash Equivalents

(In BGN)

Particulars	As at December 31,	
	2024	2023
Balances with banks		
In current and deposit accounts	1,781,684	397,665
	1,781,684	397,665

## 2.5 Other Financial Assets

(In BGN)

Particulars	As at December 31,	
	2024	2023
Non-Current		
Investment in lease	51,580	–
	51,580	246,761
Current		
Other advances <sup>(1)</sup>	1,313,106	414
Rental deposits	247,178	246,347
	1,560,284	246,761
<sup>(1)</sup> Includes dues from related parties (Refer to Note 2.17)	1,313,086	414

## 2.6 Other Current Assets

(In BGN)

Particulars	As at December 31,	
	2024	2023
Current		
For supply of goods and rendering of services	4,090	3,192
Unbilled revenue	92,071	–
Withholding tax	59,153	–
Others	5,555	–
	160,870	3,192

## 2.7 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

(In BGN)

Particulars	As at December 31,	
	2024	2023
Assets:		
Cash and cash equivalents (Refer to Note 2.4)	1,781,684	397,665
Trade receivables (Refer to Note 2.3)	314,242	1,201,049
Other financial assets (Refer to Note 2.5) <sup>(1)</sup>	1,560,284	246,761
Total	3,656,211	1,845,475
Liabilities:		
Trade payables (Refer to Note 2.10)	73,752	306,739
Other financial liabilities (Refer to Note 2.11)	171,100	61,972
Total	244,852	368,711

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

All the above financial instruments are carried at amortized cost and the carrying values approximates their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to BGN 3,14,242.47 and BGN 1,201,049 as at December 31, 2024 and December 31, 2023. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by credit rating agencies.

### Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operation. The Company has taken loan from its fellow subsidiary to meet its working capital requirements.

As at December 31, 2024 and December 31, 2023 the Company had a working capital of BGN 17,56,530 and negative working capital of BGN 29,825 respectively

As of December 31, 2024 and December 31, 2023, the Company had cash and cash equivalents of BGN 1,781,684 and BGN 397,665.

## 2.8 Equity

### Equity share capital

(In BGN)

Particulars	As at December 31,	
	2024	2023
Authorized share capital	458,000	458,000
458000 (458000) equity shares of BGN 1 par value		
Issued, Subscribed and Paid-Up	458,000	458,000
458000 (458000) equity shares of BGN 1 par value		

The details of shareholder holding more than 5% shares as at December 31, 2024 and 2023 are set out below:

Name of the shareholder	As at December 31,	
	2024	2023
Infosys Limited	100%	100%

## 2.9 Borrowings

(In BGN)

Particulars	As at December 31,	
	2024	2023
Current		
Unsecured Loan from Fellow Subsidiary (Refer to Note 2.17)	486,012	–
Add - Interest on Loan	19,767	–
	505,779	–

## 2.10 Trade Payables

(In BGN)

Particulars	As at December 31,	
	2024	2023
Current		
Trade payable	73,752	306,739
	73,752	306,739

### Trade payables ageing schedule

Years ended Dec 31, 2024 and Dec 31, 2023

(In BGN)

Particulars	Outstanding for following periods from due date of payment					Total
	Not Due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Trade Payables	–	73,752	–	–	–	73,752
	–	305,903	812	–	–	306,715
Total trade payables	–	73,752	–	–	–	73,752
	–	305,903	812	–	–	306,715

## 2.11 Other financial liabilities

(In BGN)		
Particulars	As at December 31,	
	2024	2023
Non-Current		
Others Financial Liabilities	169,125	–
	169,125	–
Current		
Others		
Accrued Compensation to employees <sup>(1)</sup>	785,000	652,578
Provision for Expenses	97,232	29,586
Others	57,302	–
	939,534	682,164
<sup>(1)</sup> Includes dues from related parties (Refer to Note 2.17)	57,302	–

## 2.12 Other current liabilities

(In BGN)		
Particulars	As at December 31,	
	2024	2023
Current		
Others		
Social security contribution payable	108,708	100,764
Withholding Taxes & Others	62,392	(38,791)
	171,100	61,972

## 2.13 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In BGN)		
Particulars	Year ended December 31,	
	2024	2023
Current taxes	234,822	88,706
Deferred taxes	(27,493)	(742)
Income tax expense	207,329	87,964

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In BGN)		
Particulars	Year ended December 31,	
	2024	2023
Profit / (Loss) before income taxes	1,339,592	793,932
Enacted tax rates in Bulgaria (%)	10.00%	10.00%
Computed expected tax expense	133,959	79,393
Prior period Tax provision / reversal	65,417	–
Income tax expense	207,329	87,964

The applicable Bulgarian statutory tax rate for the year ended December 31, 2024 and December 31, 2023 is 10%.

The following table provides the details of income tax assets and income tax liabilities as of December 31, 2024 and December 31, 2023

(In BGN)		
	As at December 31,	
	2024	2023
Income tax assets	48,874	11,059
Current income tax liabilities	(19,475)	–
Net current income tax assets / (liability) at the end	29,399	11,059

The gross movement in the current income tax asset / (liability) for the year ended December 31, 2024 and December 31, 2023 is as follows:

(In BGN)		
	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	11,059	(74,900)
Income tax paid	270,268	174,665
One off taxes	(17,106)	–
Current income tax expense	(234,822)	(88,706)
Net current income tax asset / (liability) at the end	29,399	11,059

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In BGN)		
Particulars	As at December 31,	
	2024	2023
Deferred income tax assets		
Accrued compensation to employees	33,860	29,101
Compensated absences	40,513	34,949
Sundry Debtors	227	–
Other Assets	16,943	–
Total deferred income tax assets	91,543	64,050
Deferred income tax assets after set off	91,543	64,050
Deferred income tax liabilities after set off	–	–

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, The Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, The Management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 2.14 Revenue form Operation

(In BGN)

Particulars	Year ended December 31,	
	2024	2023
Revenue from software services	16,277,162	12,829,101

## 2.18 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the ‘management approach’, as defined in Ind-AS 108, Segment reporting the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind-AS 108.

## 2.17 Ratios

Particulars	Numerator	Denominator	December 31,		
			2024	2023	Variance
Current Ratio	Current assets	Current liabilities	3.06	0.98	211.3%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.38	0.98	(61.8%)*
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	2.50	2.36	6.2%
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	0.63	0.80	(17.4%)**
Trade receivables turnover ratio	Revenue	Average Trade Receivable	21.48	12.08	77.8%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	6.52	5.12	27.4%***
Net capital turnover ratio	Revenue	Working Capital	6.33	(430.14)	(101.5%)*
Net profit ratio	Net Profit	Revenue	0.07	0.06	26.4%**
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	0.58	0.40	18.1%

<sup>(1)</sup>Debt represents lease liabilities and Borrowing from Subsidiary

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup>Lease payments for the current year and Interest on loan to Subsidiary

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

\*Debt Equity ratio has increased due to increase in lease liability as entity has taken new lease office.

\*\*ROE ratio has increased due to increase in profits, since it is a growing entity.

\*\*\*Trade Payables turnover ratio has decreased due to increase in trade payables and overall business.

#Net capital turnover ratio ratio has decreased due to decrease in working capital.

\*\*Net Profit ratio has increased due to increase in profits, since it is a growing entity.

*This page is left blank intentionally*

## Infosys Consulting (Belgium) N.V.

# Independent Auditor's Report

To the Members of Infosys Consulting (Belgium) N.V.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Consulting (Belgium) N.V. ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Notes to the financial statements

Infosys Consulting (Belgium) N.V. is a wholly-owned subsidiary of Infosys Consulting Holding AG (formerly Lodestone Holding AG), Kloten (Switzerland). The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, and relevant amendments and rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

These financial statements are presented in Indian Rupees.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of percentage of completion, which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts to be expended, impairment losses on financial assets, future obligations under employee benefit plans, income taxes and the useful lives of property, plant and equipment and intangible assets.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Effective January 1, 2019, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as at January 1, 2019. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised significant accounting policies related to revenue recognition.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 T&M

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Unbilled/ Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

#### 1.5.3 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

#### 1.5.4 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

### 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.7 Post-sales client support and others

The Company provides its clients with a fixed-period post-sales support for corrections of errors and support on all its fixed-price,

fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in cost of sales. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

1.9 Property, plant, and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows :

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office Equipment <sup>(1)</sup>	5 years
Leasehold Improvement	Over lease term

Depreciation methods, useful lives and residual values are reviewed periodically, including at the end of each financial year.

<sup>(1)</sup> Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under ‘Capital work-in-progress’. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss

1.10 Intangible assets

Intangible assets are recorded at the consideration paid for the acquisition of such assets and are carried at cost less accumulated amortization and impairment. Research costs are expensed as incurred. Software product development costs are expensed as incurred, unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use

or sell the software and the costs can be measured reliably. The costs that can be capitalized include the cost of material, direct labor, and overhead costs that are directly attributable to preparing the asset for its intended use.

1.11 Financial instruments

1.11.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

1.11.2 Subsequent measurement

Non-derivative financial instruments

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair-valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

1.12 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

### 1.13 Impairment

#### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets, which are not fair-valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

#### b. Non-financial assets

##### (i) Property, plant, and equipment

Property, plant, and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in previous years.

### 1.14 Employee Benefits

#### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using the projected unit credit method on the additional amount expected to be paid or availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

### 1.15 Foreign currency

#### Functional currency

The functional currency of the Company is the Euro. These financial statements are presented in Indian Rupees.

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses

resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements from functional currency to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in exchange differences on translation under other components of equity.

### 1.16 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.17 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from the Company's operating, investing, and financing activities are segregated.

### 1.18 Other income

Other income is comprised primarily of interest income and exchange gain / loss on translation of other assets and liabilities. Interest Income is recognized using the effective interest method.

### 1.19 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.20 Borrowing cost

Borrowing cost are charged to the Statement of Profit and Loss in the period in which they are incurred.

The Company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the Statement of Profit and Loss.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In ₹)					
Particulars	Leasehold Improvements	Office Equipment	Computer equipment	Furniture and fixtures	Total
Gross carrying value as at January 1, 2024	–	7,30,743	42,05,510	21,24,022	70,60,275

## 2.7 Financial instruments

Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

(In ₹)

Particulars	As at December 31	
	2024	2023
Assets		
Cash and cash equivalents (Refer to Note 2.5)	6,76,66,596	1,49,65,365
Trade receivables (Refer to Note 2.4)	5,40,30,556	8,12,94,418
Loans (Refer to Note 2.2)	–	66,70,329

Particulars	As at December 31	
	2024	2023
Other financial assets (Refer to Note 2.3)	12,80,63,697	12,56,19,666
Total	24,97,60,849	22,85,49,778
Liabilities		
Trade payables (Refer to Note 2.11)	1,50,75,096	80,27,626
Lease Liabilities (Refer to Note 2.17)	6,67,95,235	6,32,67,253
Other financial liabilities (Refer to Note 2.9)	10,14,81,769	18,24,35,727
Total	22,90,42,665	25,37,30,606

All the above financial assets are carried at amortized cost and the carrying values approximate their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option(s) contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates / depreciates against these currencies.

The foreign currency risk from financial instruments as of December 31, 2024, is as follows:

(In ₹)					
Particulars	USD	GBP	CHF	Other currencies	Total
Net financial assets	–	5,29,72,709	–	–	5,29,72,709
Net financial liabilities	(1,98,17,320)	(12,18,790)	(31,708)	(94,888)	(2,11,62,707)
Net assets / (liabilities)	(1,98,17,320)	5,17,53,919	(31,708)	(94,888)	3,18,10,002

The foreign currency risk from financial instruments as of December 31, 2023, is as follows:

(In ₹)					
Particulars	USD	GBP	CHF	Other currencies	Total
Net financial assets	–	1,29,18,084	1,78,318	–	1,30,96,402
Net financial liabilities	(2,18,79,617)	(3,36,66,904)	–	–	(5,55,46,521)
Net assets / (liabilities)	(2,18,79,617)	(2,07,48,820)	1,78,318	–	(4,24,50,119)

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the Company intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹54,030,534 and ₹81,294,418 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the Company uses ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

### Credit risk exposure

The reversal for lifetime ECL on customer balances for the year ended December 31, 2024, and December 31, 2023, was ₹8,089,602 and ₹1,028,126.

(In ₹)		
Particulars	For the year ended December 31,	
	2024	2023
Balance at the beginning	10,28,126	5,87,588
Impairment loss recognized / reversed	68,80,328	6,33,681
Amounts written off	–	–
Translation differences	1,81,148	(1,93,143)
Balance at the end	80,89,602	10,28,126

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by international and domestic credit rating agencies.

### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents. The company has taken loan from its parent company to meet its working capital requirement.

As of December 31, 2024, and December 31, 2023, the Company had cash and cash equivalents of ₹67,666,596 and ₹14,965,365 respectively.

## 2.8 Equity

Provision for post-sales client support and warranties and other provisions are expected to be utilized over a period of six months to one year.

## 2.14 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	(In ₹)	
	Year ended December 31	
	2024	2023
Current taxes	6,36,660	40,173
Income tax expense	6,36,660	40,173

Current tax expense for the years ended December 31 2024, and December 31 2023, includes reversals amounting to NIL and ₹195,446, respectively. These reversals pertaining to prior periods are primarily on account of the adjudication of certain disputed matters, upon the filing of tax returns and completion of assessments.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

Particulars	(In ₹)	
	Year ended December 31	
	2024	2023
Profit before income tax	2,42,86,568	4,85,37,991
Enacted tax rates (%)	25.00%	25.00%
Computed expected tax expense	60,71,642	1,21,34,498
Prior period tax expense	–	(1,96,481)
Permanent Difference	14,44,098	7,36,645

Particulars	Year ended December 31	
	2024	2023
Effect of unrecognized deferred tax assets on loss	(74,15,245)	(1,31,93,385)
Minimum taxes and Others	5,36,165	5,58,896
Income tax expense	6,36,660	40,173

The applicable Belgium statutory tax rates for the year ended December 31 2024, is 25% and for the year ended December 31 2023, is 25% .

The details of income tax assets and income tax liabilities are as follows :

Particulars	(In ₹)	
	Year ended December 31	
	2024	2023
Income tax assets	7,32,978	5,98,377
Current income tax liabilities	–	–
Net current income tax assets / (liability) at the end	7,32,978	5,98,377

The gross movement in the current income tax asset / (liability) is as follows:

Particulars	(In ₹)	
	Year ended December 31	
	2024	2023
Net current income tax asset / (liability) at the beginning	5,98,377	1,74,990
Income tax paid	7,73,669	4,59,750
Current income tax expense	(6,36,660)	40,173
Translation difference	(2,408)	(76,536)
Net current income tax asset / (liability) at the end	7,32,978	5,98,377

## 2.15 Revenue from operations

Particulars	(In ₹)	
	Year ended December 31,	
	2024	2023
Income from consultancy services	58,27,61,860	56,19,73,478
Total Revenue from Operations	58,27,61,860	56,19,73,478

### Disaggregate revenue information

The table below presents disaggregated revenues from contracts with customers by offerings for the year ended December 31, 2023. The Company believes that this disaggregation best depicts how the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

Particulars	(In ₹)	
	Year ended December 31,	
	2024	2023
Revenue by offerings		
Core	58,27,61,860	56,19,73,478
Digital	–	–
Total	58,27,61,860	56,19,73,478

## Digital Services

Digital Services comprise service and solution offerings of the Company that enable our clients to transform their businesses. These include offerings that enhance customer experience, leverage AI-based analytics and big data, engineer digital products and IoT, modernize legacy technology systems, migrate to cloud applications, and implement advanced cybersecurity systems.

## Core Services

Core Services comprise traditional offerings of the company that have scaled and industrialized over a number of years. These primarily include application management services, proprietary application development services, independent validation solutions, product engineering and management, infrastructure management services, traditional enterprise application implementation, support and integration services.

## Trade receivables and Contract Balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related service are performed. Revenue for fixed-price maintenance contracts is recognized on a straight-line basis over the period of the contract. Revenues in excess of billings are recorded as unbilled revenue and are classified as a financial asset for these cases as the right to consideration is unconditional upon passage of time.

Revenue recognition for fixed-price development contracts is based on percentage-of-completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts (contract asset) is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024, the Company recognized revenue of ₹ 19,526,818 arising from opening unearned revenue as of January 1, 2024.

During the year ended December 31, 2024, Nil of unbilled revenue as of January 1, 2024, has been reclassified to Trade receivables upon billing to customers on completion of milestones.

## Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on a time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is ₹1.21 crore. Out of this, the Company expects to recognize revenue of around 100% within the next one year and the remaining thereafter. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them.

## 2.16.a. Other income

Particulars	Year ended December 31,	
	2024	2023

Total other expenses	1,88,34,469	2,22,66,924

## 2.17 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The changes in the carrying value of right-of-use assets for the year ended are as follows:

Particulars	Category of ROU asset		Total
	Computers	Vehicles	
Balance as of January 1, 2024	3,14,34,722	–	3,14,34,722
Additions	2,46,65,402	–	2,46,65,402
Deletion	(1,02,31,161)	–	(1,02,31,161)
Translation difference	(8,08,957)	–	(8,08,957)
Depreciation	(1,26,65,703)	–	(1,26,65,703)
Balance as of December 31, 2024	3,23,94,303	–	3,23,94,303
Balance as of January 1, 2023	1,42,20,783	–	1,42,20,783
Additions	4,02,19,417	–	4,02,19,417
Deletion	(1,16,46,350)	–	(1,16,46,350)
Translation difference	(14,94,287)	–	(14,94,287)
Depreciation	(98,64,841)	–	(98,64,841)
Balance as of December 31, 2023	3,14,34,722	–	3,14,34,722

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the statement of Profit and Loss.

The break-up of current and non-current lease liabilities is as follows:

Particulars	As at December 31,	
	2024	2023
Current lease liabilities	3,27,69,281	2,92,50,772
Non-current lease liabilities	3,40,25,954	3,40,16,481
Total	6,67,95,235	6,32,67,253

The movement in lease liabilities during the year ended: is as follows

(In ₹)

Particulars	As at December 31,	
	2024	2023
Balance at the beginning	6,32,67,253	3,52,10,400
Additions	2,46,65,402	4,02,19,417
Modification	(21,57,007)	–
Finance cost accrued during the period	14,59,122	11,43,782
Payment of lease liabilities	1,90,34,267	2,10,33,728
Translation difference	(14,05,268)	1,00,14,946
Balance at the end	6,67,95,235	6,32,67,253

The table below provides details regarding the contractual maturities of lease liabilities on an undiscounted basis:

(In ₹)

Particulars	As at December 31,	
	2024	2023
Less than one year	1,79,67,070	2,34,17,100
One to five years	3,38,49,785	4,53,76,068
More than five years	–	–
Total	5,18,16,855	6,87,93,168

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.19 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the ‘management approach’, as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.20 Ratios

The ratios for the years ended December 31, 2024, and December 31, 2023, are as follows:

Particulars	Numerator	Denominator	December 31, 2024	December 31, 2023	Variance
Current Ratio	Current assets	Current liabilities	1.0	0.8	25% <sup>(12)</sup>
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder’s Equity	(3.4)	(1.5)	(127%) <sup>(4)</sup>
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	2.3	3.0	(26%) <sup>(5)</sup>
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder’s Equity	(0.8)	2.2	135% <sup>(6)</sup>
Trade receivables turnover ratio	Revenue	Average Trade Receivable	8.6	5.1	70% <sup>(7)</sup>
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	32.8	14.5	126% <sup>(11)</sup>
Net capital turnover ratio	Revenue	Working Capital	63.5	(12.0)	630% <sup>(8)</sup>
Net profit ratio	Net Profit	Revenue	0.0	0.1	(53%) <sup>(9)</sup>
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed	0.6	(2.3)	(124%) <sup>(10)</sup>

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + non-cash operating expenses + Interest + other adjustments like loss on sale of fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Debt Equity Ratio -Increase in Lease Liability as a result of new leases entered into.

<sup>(5)</sup> Debt Service Coverage Ratio- Increase on account of significant Increase in profit.

<sup>(6)</sup> Return on Equity (ROE) - Increase on account of significant Increase in profit.

<sup>(7)</sup> Trade Receivable turnover ratio- Increase in Revenue and reduce in Trade Receivables

<sup>(8)</sup> Net capital turnover ratio- Negative working capital has resulted in deterioration in the ratio.

<sup>(9)</sup> Net profit ratio -Increase on account of significant increase in profit.

<sup>(10)</sup> Return in capital employed- Increase on account of significant increase in profit.

<sup>(11)</sup> Trade Payable turnover ratio- Higher Increase in Net Credit Purchase of Services

<sup>(12)</sup> Current ratio- Increase in current asset is higher as compared to movement in current liability

## Infosys Business Solutions LLC

# Independent Auditor's Report

To the shareholder of Infosys Business Solutions LLC

## Opinion

We have audited the financial statements of Infosys Business Solutions LLC ("the Company"), which comprise the statement of financial position as at December 31, 2024, the statement of profit or loss and other comprehensive income, statement of changes in shareholder's equity and statement of cash flows for the year ended December 31, 2024, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects the financial position of the Company as at December 31, 2024, and its financial performance and its cash flows for the year ended December 31, 2024, in accordance with IFRS Accounting Standards as issued by the International Accounting Standard Board.

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in accordance with the Code of Ethics for Professional Accountants ("IESBA Code") issued by the International Ethics Standards Board for Accountants, and we have fulfilled our other ethical responsibilities in accordance with its requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Responsibilities of management and Those Charged with Governance ("TCWG") for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Reporting on other legal and regulatory requirements

Further, as required by Qatar Financial Centre Law, law number 7 of 2005 and general rule 9.5.1, we report that:

1. we have obtained all the information and explanation considered necessary for the purpose of our audit;
2. the Company has maintained proper books of account and the financial statements are in agreement therewith;
3. the financial statements have been properly prepared in accordance with the QFC Rules and Regulations; and
4. the financial statements have been prepared in accordance with International Financial Reporting Standards.

In addition, we report that nothing has come to our attention which causes us to believe that the Company has breached any of the applicable provisions of the Qatar Financial Centre Law, law number 7 of 2005 or its articles of association, which would materially affect its activities, or its financial position as at December 31, 2024.

# Notes to the financial statements

## 1. Legal status and principal activities

Infosys Business Solutions-LLC ("the Company"), was incorporated on 20 February 2022, as a Company with limited liability under the provisions of the Qatar Financial Centre Regulation No.2 of 2005.

The principal activity of the Company is to providing professional services in relation to:

1. Reproduction and Resale of Software ;
2. Computer Programming Activities ;
3. IT Consultancy ;
4. Other Information Technology and Computer Service Activities; and
5. Management and Business Consulting.

The registered address of the Company is Units 96-102, Piazza Level QQ05A, Regus AL Jaidah Business Centre, The Pearl, Doha, Qatar.

## 2. Basis of preparation

### Statement of compliance

The financial statements have been prepared in accordance with the IFRS Accounting Standards as promulgated by the International Accounting Standards Board ("IASB"), interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC") and the requirements Of the Qatar Financial Centre Companies Law.

### Basis of Presentation

The financial statements have been prepared under the historical cost convention and going concern basis. The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Company's accounting policies.

### Functional and presentation currency

These financial statements are presented in Qatari Riyal (QAR) which is the Company's functional currency.

### Improvements/amendments to IFRS Accounting standards

Improvements/amendments to IFRS Accounting Standards contained numerous amendments to IFRS Accounting Standards that the IASB considers non-urgent but necessary. "Improvements to IFRS Accounting Standards" comprise amendments that result in accounting changes to presentation, recognition or measurement purposes, as well as terminology or editorial amendments related to a variety of individual IFRS Accounting standards. The amendments are effective for the Company's future accounting period with earlier adoption.

### Standards, amendments and interpretations issued and effective in the year 2024 but not relevant

The following new amendments to existing IFRS accounting standard and interpretation to published standard is mandatory for accounting period beginning on or after 1 January 2024 or subsequent periods, but is not relevant to the Company's operations:

Standard or interpretation	Title	Effective for annual periods beginning on or after
IAS 1	Presentation of financial statements	1 January 2024
IAS 7	Statement of Cash Flows	1 January 2024
IFRS 7	Financial Instruments: Disclosures	1 January 2024
IFRS 16	Leases	1 January 2024

## 2 Basis of preparation (continued)

### Standards, amendments and interpretations issued but not yet effective in the year 2024

The following new/amended IFRS accounting standards and interpretations have been issued but are not mandatory for financial year ended 31 December 2024. They have not been adopted in preparing the financial statements for the year ended 31 December 2024 and will or may have an effect on the entity's future financial statements. In all cases, the entity intends to apply these standards from application date as indicated in the table below:

Standard or interpretation	Title	Effective for annual periods beginning on or after
IAS 21	The Effects of Changes in Foreign Exchange Rates	1 January 2025
IFRS 7	Financial Instruments: Disclosures	1 January 2026
IFRS 9	Financial Instruments	1 January 2026
IFRS 18	Presentation and disclosure in financial statements	1 January 2027
IFRS 19	Subsidiaries without public accountability: Disclosures	1 January 2027

### Early adoption of amendments or standards in the year 2024

The Company did not early-adopt any new or amended standards in the year 2024. There would have been no change in the operational results of the Company for the year ended 31 December 2024 had the Company early adopted any of the above standards applicable to the Company.

## Use of estimates and judgments

The preparation of the financial statements in conformity with IFRS Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are described in note 7.

## 3. Material accounting policies

The following accounting policies, which comply with IFRS Accounting Standards, have been applied consistently to all periods presented in these financial statements.

### Financial Instruments

#### Financial assets

##### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. Amount due from related parties that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under IFRS 15. Refer to the accounting policies for Revenue from contracts with customers.

For a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular-way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

##### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)

- Financial assets designated at fair value through OCI with no recycling cumulative gains and losses upon derecognition (equity instruments)

- Financial assets at fair value through profit or loss

The Company's financial assets include the amount due from related parties and bank balances.

Financial assets at amortized cost (amount due from related parties).

This category is the most relevant to the Company. The Company measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss.

when the asset is derecognized, modified or impaired. The Company's financial assets at amortized cost includes amounts due from related parties and bank balances.

### Revenue recognition

- To recognize revenues, the Company applies the following five-step approach:
  - Identify the contract with a customer,
  - Identify the performance obligations in the contract,
  - Determine the transaction price,
  - Allocate the transaction price to the performance obligations in the contract, and
  - Recognize revenues when a performance obligation is satisfied.
- At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when it is regularly sold separately. In cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables, or the Company uses the expected cost-plus margin approach in estimating the stand-alone selling price. The Company's contracts may include variable considerations including rebates, volume discounts and penalties.

- c. For performance obligations where control is transferred over time, revenues are recognized by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the promised products or services to be provided.

The Company accounts for variable considerations, such as volume discounts, as a reduction of revenue on a systematic and rational basis over the period of the contract. The Company estimates an amount of such variable consideration using expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Company may be entitled.

The timing of revenue recognition may differ from the timing of invoicing to customer. The Company classifies its rights to consideration in exchange for deliverables as either an accounts receivable or an unbilled revenue. Unbilled revenue represents earnings in excess of billings, while unearned income represents billings in excess of earnings.

During the year, the Company entered into an agreement with the Infosys Limited ("the Shareholder"), where the Company bills the Infosys Limited as total cost plus markup on total cost pertaining to the work subcontracted by Infosys Limited to the Company.

Revenue is measured based on the consideration specified in a contract with the customer. The Company recognizes revenue when it transfers control over goods or services to a customer.

In view of the risks associated with the delivery of its services to and the collection of the amounts the Company considers that it is acting as a principal in these arrangements and, therefore, has recognized the costs and associated revenue on a gross, as opposed to a net basis.

## Provisions

A provision is recognized in the statement of financial position when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

## Employees' Benefits

The cost of short-term employee benefits is recognized in the period in which the service is rendered and are not discounted.

The expected cost of compensated absence is recognized as an expense when the employee renders services that increase their entitlement or in case of no accumulating absence, when the absence occurs.

## Taxation

Income tax is calculated as per Qatar Financial Centre Tax Law effective from January 1, 2010. QFC imposed a flat tax rate of 10% on local source business profit.

The tax expense for the period comprises current and deferred tax. Tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized in the other comprehensive income or directly in equity, respectively.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax basis of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

## Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period, adjusted for effective interest and payments during the period and the amortized cost in foreign currency translated at the exchange rate at the end of the period. Realized and unrealized foreign exchange differences arising on translation are recognized in the profit or loss.

## Leases

At inception of a contract the Company assesses whether a contract is or contains a lease. A contract is, or contains, a lease if contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- a. The contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct asset or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified.
- b. The Company has the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- c. The Company has the right to direct the use of the asset.
- d. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
  - i. The Company has the right to operate the asset; or
  - ii. The Company designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on assessment of a contract that contains a lease component, the Company identifies the non-lease component in the contract and break the lease and non-lease component and present the same separately i.e., lease component is capitalized as part of right-of-use asset and non-lease component is presented separately.

## Right-of-use asset

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the

underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

#### **Lease liability**

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate.

Lease payments in the measurement of the lease liability comprise the following:

- a. fixed payments, including in-substance fixed payments;
- b. variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- c. amounts expected to be payable under a residual value guarantee; and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension, or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

For short-term and low value leases including IT equipment, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

## **4. Financial risk management**

### **Overview**

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk,
- Liquidity risk, and
- Market risk.
- Currency risk
- Interest rate risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies, and processes for measuring and managing risk, and the Company's management of capital.

The Director has an overall responsibility for the Company and oversight of the Company's risk management framework.

### **Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Credit risk is attributable to trade and other receivables, cash at bank and due from a related party. Cash is held with reputable bank. Balance due from a related party is considered fully recoverable by management.

### **Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to trade and other payables and due to a related party. The Company's approach to managing liquidity is to ensure, as far as possible, to maintain sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

### **Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

### **Currency risk**

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The majority of the Company's transactions are conducted in QAR and USD. QAR is currently pegged to USD; hence, the Company has no significant exposure to currency risk.

### **Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

### **Capital management**

The Directors' policy is to maintain a strong capital base as to maintain shareholders, creditors, and market confidence and to sustain future development of the business. There were no changes in the Company's approach to capital management during the years.

## **5. Related party transactions and balances**

The Company in the normal course of business carries out transactions with other business enterprises that fall within the definition of related parties contained in International Accounting Standard No. 24. The transactions among related parties are carried out at terms mutually agreed amongst them.

## Related party transactions and balances

The Company have entered into a Subcontracting Agreement with Infosys Limited ("the Shareholder"). Where Infosys Limited bills the Company at total cost-plus markup of 18% on total cost for the services given to the company. Other services which are in the nature of cost reimbursement are invoiced at cost.

During the year, the Company entered into an agreement with the Infosys Limited ("the Shareholder"), where the Company bills the Infosys Limited as total cost-plus markup on total cost pertaining to the work subcontracted by Infosys Limited to the Company.

Particulars	(In QAR)	
	As at December 31,	
	2024	2023
Balance with the related parties

## 6 Fair value of financial instruments

### Fair value measurement

A number of assets and liabilities included in the Company's financial statements require measurement at, and / or disclosure Of, fair value. The most significant areas requiring the use of management estimates and assumptions relate to contingencies. The fair value measurement of the Company's financial and non-financial assets and liabilities utilizes market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorized into different levels based on how Observable the inputs used in the valuation technique utilized are (the 'fair value hierarchy'):

- Level 1: Quoted prices in active markets for identical items (unadjusted);
- Level 2: Observable direct or indirect inputs other than Level 1 inputs; and
- Level 3: Unobservable inputs

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognized in the period they occur.

The financial assets and financial liabilities of the Company either require fair value measurements or only fair value disclosures as at December 31, 2024.

Financial assets of the Company comprise trade and other receivables (excluding prepayments and advances), and cash and cash equivalent. Financial liabilities include trade and other payables and due to a related party.

The carrying amounts of the financial instruments stated above, approximate their fair value as of December 31, 2024.

## 7 Accounting estimates and judgment

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

### Determination of the lease term of contracts

In determining the lease term, management considers facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options are only included in the lease term if lease is reasonably certain to be extended.

### Impairment losses on financial assets

The Company reviews its receivables to assess impairment losses. In determining whether impairment losses should be recognized in the profit or loss, the Company makes judgments as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows. Accordingly, an allowance for impairment is made where there is an identified loss event or condition which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

The measurement of the expected credit loss allowance for financial assets measured at amortized cost is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g., the likelihood of customers defaulting and the resulting losses).

## 8. Notes to the financial statements

### 8.1 Cash and cash equivalents

Cash and cash equivalents consist of the following:

Particulars	(In QAR)	
	As at December 31,	
	2024	2023
Cash at bank- current accounts	19,154,259	8,570,958
Total	19,154,259	8,570,958

This represents balance in Qatari Riyal which is kept in current account with local scheduled banks bearing no interest

Particulars	(In QAR)	
	As at December 31,	
	2024	2023
Current accounts		
Citi Bank	19,154,259	8,570,958
Total	19,154,259	8,570,958

## 8.2 Trade and other receivables

(In QAR)

Particulars	As at December 31,	
	2024	2023
Trade receivables		
Unsecured		
Considered good	1,899,598	4,748,852
Considered doubtful	–	–
	1,899,598	4,748,852
Less: allowance for expected credit loss	(12,277)	(71,738)
Trade receivables net	1,887,321	4,677,114
Other receivables		
Receivables from related party (Note 5)	223,185	975,350
Total other receivables	221,185	975,350
Total	2,110,506	5,652,464

## 8.3 Other current assets

(In QAR)

Particulars	As at December 31,	
	2024	2023
Other Advances	2,107	–
Staff Recovery	–	2,774
Total	2,107	2,774

## 8.4 Capital work-in-progress

(In QAR)

Particulars	As at December 31,	
	2024	2023
Capital work-in-progress	21,612	–
Total	21,612	–

The capital work-in-progress ageing schedule for the year ended December 31, 2024 and December 31, 2023 is as follows:

Particulars	Amount in CWIP for a period of					Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years		
As at December 31, 2023						
Capital work in progress	–	–	–	–		–
As at December 31, 2024						
Projects in progress	21,612	–	–	–		21,612
Total	21,612	–	–	–		21,612

## 8.5 Right-of-use assets and lease liabilities

The Company has taken office premises on lease. The lease period is twenty-four months with an option to extend the lease for further period

### Right-of-use asset

(In QAR)

Particulars	As at December 31,	
	2024	2023
Opening balance	17,486	–
Recognition of right-of-use asset	630	30,075
Depreciation	(15,586)	(12,589)
Total	2,530	17,486

### Lease liabilities

(In QAR)

Particulars	As at December 31,	
	2024	2023
Opening balance	17,880	–
Recognition of lease liability	630	30,075
Interest on leases	455	895
Payments during the year	(16,244)	(13,090)
Total	2,720	17,880
Classification of lease liabilities		
Non-current portion	–	2,613
Current portion	2,720	15,267
Total	2,720	17,880

(In QAR)

Particulars	Year ended December 31,	
	2024	2023
Balances recognized in statement of profit and loss		
Interest on lease liabilities	(455)	(895)
Depreciation of right-of-use asset	15,586	12,589
Total	15,131	11,694

## 8.6 Deferred tax assets

### Deferred tax

Details of the deferred tax liability, amounts recognized in profit or loss and amounts recognized in other comprehensive income are as follows:

(In QAR)			
Particulars	Carrying value as at January 01, 2024	Changes through profit and loss	Carrying value as at December 31, 2024
Deferred income tax assets/(liabilities)			
Provision for debtors	7,174	(5,946)	1,228
Total deferred income tax assets/(liabilities)	7,714	(5,946)	1,228

## 8.7 Trade and other payables

(In QAR)		
Particulars	As at December 31, 2024	2023
Trade and other payables	355,695	351,955
Due to related party (Refer to Note 5)	870,334	784,472
Total	1,226,029	1,136,427

## 8.8 Employee benefit liabilities

(In QAR)		
Particulars	As at December 31, 2024	2023
Compensated absences	226,557	271,407
Total	226,557	271,407

## 8.9 Provisions

(In QAR)		
Particulars	As at December 31, 2024	2023
Provision for expense	201,392	425,502
Total	201,392	425,502

## 8.10 Other current liabilities

(In QAR)		
Particulars	As at December 31, 2024	2023
Other liabilities	2,905	6,089
Total	2,905	6,089

## 8.11 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In QAR)		
Particulars	As at December 31, 2024	2023
Previous taxes	297	(3,957)
Current taxes	794,454	748,418
Deferred taxes	5,947	(5,353)
Income tax expense	800,697	739,108

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In QAR)		
Particulars	As at December 31, 2024	2023
Profit before income taxes	7,989,750	7,391,081
Enacted tax rate in Qatar	10.00%	10.00%
Computed expected tax expense	798,975	739,108
Reconciliation		
Permanent Difference	1,722	–
Income tax expense	800,697	739,108

The following table provides the details of income tax assets and income tax liabilities as of December 31, 2024, December 31, 2023.

(In QAR)		
Particulars	As at December 31, 2024	2023
Current income tax liabilities	(794,454)	(744,418)
Income tax assets	–	–
Net current income tax liability at the end	(794,454)	(744,418)

The gross movement in the current income tax asset / (liability) for the year ended December 31, 2024 and December 31, 2023 is as follows:

(In QAR)		
Particulars	As at December 31, 2024	2023
Net current income tax liability at the beginning	(744,418)	(155,272)
Income tax paid	744,715	155,315
Current income tax expense	(794,454)	(748,418)
Earlier year tax expenses	(297)	3,957
Net current income tax liability at the end	(794,454)	(744,418)

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In QAR)		
Particulars	As at December 31,	
	2024	2023
Deferred income tax assets		
Provision for debtors	1,228	7,174
Total deferred income tax assets	1,228	7,174

## 8.12 Equity

### Equity share capital

(In QAR)		
Particulars	As at December 31,	
	2024	2023
Authorized equity shares, USD 100 (364 QAR) par value 20,000 equity shares	7,280,000	7,280,000
Issued, subscribed and paid-up equity shares, USD 100 (361.61 QAR) par value 10,000 equity shares	3,616,100	3,616,100

The Company has only one class of shares referred to as equity shares having a par value of USD 100/-. Each holder of equity shares is entitled to one vote per share.

The details of shareholder holding more than 5% shares are set out below:

(In QAR)			
Name of the shareholder	% of shares	As at December 31,	
		2024	2023
Infosys Limited (India)	100%	3,616,100	3,616,100

## 8.13 Revenue

(In QAR)		
Particulars	Year ended December 31,	
	2024	2023
Revenue from services	18,406,404	17,907,925
Total	18,406,404	17,907,925

Revenue from services includes QAR 1,955,974 from contract with related parties at cost plus margin (refer note 5).

## 8.14 Cost of sales

Telephone expenses	20,791	25,187
Bank charges and commission	27,387	24,608
Amortization of Right-of-use asset (Refer to Note 8.5)	15,586	12,589
Postage and courier	11,365	6,021
Rent (Refer to Note 5)	–	2,618
Others	6,615	2,530
Total	538,762	1,199,436

## 8.16 Other Income

(In QAR)		
Particulars	Year ended December 31,	
	2024	2023
Miscellaneous income	2,643	–
Reversal of allowance for expected credit loss	59,461	–
	62,104	–

## 8.17 Financial income

(In QAR)		
Particulars	Year ended December 31,	
	2024	2023
Interest from bank	75,455	8,703
Total	75,455	8,703

## 8.18 Other loss, net

(In QAR)		
Particulars	Year ended December 31,	
	2024	2023
Exchange losses	13,337	30,940
	13,337	30,940

## 9. Subsequent Events

Subsequent to the year end, there have been no events noted that would require adjustments or further disclosure to the financial statements.

## 10. Contingent Liabilities

There are no contingent liabilities as of December 31, 2024.

## 11. General

### 11.1 Rounding off

Figures have been rounded off to the nearest Qatar Riyal.

### 11.2 Comparative figures

The comparative figures of the previous period have been regrouped and reclassified, wherever necessary, in order to confirm the current year's presentation. Such reclassifications do not affect previously reported profit, net assets or equity.

## Infosys Green Forum

# Independent Auditor's Report

To The Members Of Infosys Green Forum

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of INFOSYS GREEN FORUM ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Income and Expenditure, the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025 and its excess of income over expenditure, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of management and Board of Directors for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Income and Expenditure, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of section 164(2) of the act.
  - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.
  - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
  - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements. Refer Note 2.17 to the financial statements.
    - ii. The Company has made provision, as required under the applicable law or accounting standards for material foreseeable losses, if any, on long-term contracts including derivative contracts.

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;  
 (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;  
 (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
  - v. The Company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
  - vi. Based on our examination, which included test checks, the Company has used an accounting software systems for maintaining its books of account for the financial year ended March 31, 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.
2. The Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act is not applicable to the Company in terms of paragraph 2 (iii) of the Order.

## Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of INFOSYS GREEN FORUM of even date)

Report on the Internal Financial Controls with reference to Financials Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of INFOSYS GREEN FORUM (“the Company”) as at March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management’s and Board of Directors’ Responsibilities for Internal Financial Controls

The Company’s Management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financials statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financials statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

### Meaning of Internal Financial Controls with reference to financial statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to financial

statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

# Statement of Cash Flows

## Accounting Policy

Cash flows are reported using the indirect method, whereby excess of income over expenditure for the year is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

(In ₹ Lakhs)

Particulars	Note No.	Year ended March 31,	
		2025	2024
Cash flow from operating activities:			
Excess of income over expenditure for the year		648	592
Adjustments to reconcile excess of income to net cash provided by operating activities:			
Depreciation and amortization	2.1 & 2.2	2,114	2,011
Finance cost	2.2	230	241
Interest income	2.15	–	–
Gain on sale of investments	2.15	(23)	(140)
Other adjustments		–	5
Changes in assets and liabilities			
Trade receivables other financial assets and other assets		245	(169)
Trade payables other financial liabilities and other liabilities		(642)	889
Cash generated from operations		2,572	3,429
Income taxes paid		(501)	(4)
Net cash generated by operating activities		2,071	3,425
Cash flow from investing activities:			
Expenditure on property, plant and equipment		(909)	(6,021)
Payments to acquire investments			
Liquid mutual fund units		(1,700)	–
Proceeds on sale of investments			
Liquid mutual fund units		650	3,225
Interest received on bank deposits	2.15	–	–
Net cash used in investing activities		(1,959)	(2,796)
Cash flow from financing activities:			
Payment of lease liabilities		(373)	(375)
Net cash used in financing activities		(373)	(375)
Net increase in cash and cash equivalents		(261)	254
Cash and cash equivalents at the beginning of the year		355	101
Cash and cash equivalents at the end of the year		94	355

# Notes to the Financial Statements

## 1. Overview

### 1.1 Company overview

Infosys Green Forum ('the Company') was incorporated on August 31, 2021 as a company registered under section 8 of the Companies Act, 2013 and has its registered office at Electronic city, Hosur Road, Bengaluru 560100, Karnataka, India.

The Company's object is to promote commerce, art, science, sports, education, research, social welfare, religion, charity, protection of environment or any such other object and to promote establish, develop, own, operate manage any institution or undertaking and to undertake, carry out, promote, sponsor and assist any activity in the fields of education, medical relief, housing, clean energy, environmental sustainability, ecological balance, societal wellbeing, vocational training, digital literacy, skill development, sports, fine arts, research, artistic pursuits, charity, science, and similar or related areas for the welfare of the society.

The financial statements are approved for issue by the Company's Board of Directors on Apr 29, 2025

The Company is incorporated under section 8 of Companies Act, 2013 and was granted an order for provisional registration u/s 12A and order for provisional approval u/s 80G of the Income Tax Act, 1961 vide Unique Registration Number (URN)-AAGCI2826KE20215 and URN- AAGCI2826KF20213 respectively till Assessment year 2024-25. Thus, the income of the company registered under section 12A (subject to section 11 and 12) is not chargeable to tax and accordingly no provision for tax has been made by the company. The application for regularization of the provisional registration was rejected and registration cancelled vide order dated 26<sup>th</sup> March 2024 by Income Tax Commissioner (Exemption). The Company has filed an appeal before Income Tax Tribunal against the order.

### 1.2 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values with the provisions of the Companies Act, 2013 ("the Act"). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements have been prepared in Indian rupee (₹) which is the functional currency of the Company.

The Cash Flow Statement has been prepared using the indirect method as per Ind AS 7.

### 1.3 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates

involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note no. 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Critical accounting estimates and judgments

#### Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. (Refer to Note 2.1)

#### Donations

Donations specifically received towards the "Corpus" are presented as "Corpus Donations" in the Statement of Changes in Equity (SOCE). Donations (other than Corpus) are recognized as income in the Statement of Income and Expenditure in the year of receipt.

#### Income Tax

The Company's tax jurisdictions is India

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

## 2. Notes to financial statements

### 2.1 Property, plant and equipment

#### Accounting Policy

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Solar plant <sup>(1)</sup>	25 years
Computer equipment <sup>(1)</sup>	3-5 years
Building <sup>(1)</sup>	25 years
Office equipment	5 years
Vehicles <sup>(1)</sup>	5 years

<sup>(1)</sup> Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of

the Companies Act 2013.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset.

The changes in the carrying value of property, plant and equipment for the year ended March 31, 2025 are as follows:

(In ₹ Lakhs)

Particulars	Building	Office equipment	Vehicles	Solar plant	Computer equipment	Total
Gross carrying value as at April 1, 2024	1,083	18	13	33,029	169	34,312
Additions	374	8	20	397	3	802
Deletions	–	–	–	–	–	–
Gross carrying value as at March 31, 2025	1,457	26	33	33,426	172	35,114
Accumulated depreciation as at April 1, 2024	(3)	–	(1)	(3,947)	(7)	(3,958)
Depreciation	(55)	(4)	(5)	(1,786)	(34)	(1,884)
Accumulated depreciation as at March 31, 2025	(58)	(4)	(6)	(5,733)	(41)	(5,842)
Carrying value as at April 1, 2024	1,080	18	12	29,082	162	30,354
Carrying value as at March 31, 2025	1,399	22	27	27,693	131	29,272

The changes in the carrying value of property, plant and equipment for year ended March 31, 2024 were as follows:

(In ₹ Lakhs)

Particulars	Building	Office equipment	Vehicles	Solar plant	Computer equipment	Total
Gross carrying value as at April 1, 2023	–	–	–	26,512	5	26,517
Additions	1,083	18	13	6,517	164	7,795
Deletions	–	–	–	–	–	–
Gross carrying value as at March 31, 2024	1,083	18	13	33,029	169	34,312
Accumulated depreciation as at April 1, 2023	–	–	–	(2,177)	(2)	(2,179)
Depreciation	(3)	–	(1)	(1,770)	(5)	(1,779)
Accumulated depreciation as at March 31, 2024	(3)	–	(1)	(3,947)	(7)	(3,958)
Carrying value as at April 1, 2023	–	–	–	24,335	3	24,338
Carrying value as at March 31, 2024	1,080	18	12	29,082	162	30,354

The aggregate depreciation has been included under depreciation and amortization expense in the Statement of Income and Expenditure.

Repairs and maintenance costs are recognized in the Statement of Income and Expenditure when incurred.

### Significant estimates and assumptions in assessing impairment:

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Income and Expenditure

is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of Income and Expenditure if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

While computing value in use of the solar plant, the management has used certain estimates. Significant estimates have been mentioned below:

- a. Estimated yield of the solar plant: The estimated power generation of the commissioned plant is based on insolation estimates of the geography where the plant is situated, the efficiency and the degradation of the solar modules.
- b. Discount rate: The expected cash flows are discounted using discount rate commensurate to the risk associated with the asset.

Key estimates are as follows:

Particulars	Year ended March 31,	
	2025	2024
Plant load factor	19.9%	20.5%
Degradation of solar modules	0.5%	0.5%
Discount rate	10.0%	10.0%

As per the impairment analysis performed by Company, the value in use exceeds the carrying value of property, plant and equipment and accordingly the management has concluded that there is no impairment as of March 31, 2025. If the significant estimates mentioned above becomes adverse in future period, the management will reassess its value in use computation.

## 2.2 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for land, buildings, plant and machinery, furniture and computers. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset

through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

"Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows."

The changes in the carrying value of right of use assets for the year ended March 31, 2025 are as follows:

						(In ₹ Lakhs)
Particulars	Category of ROU asset					Total
	Land	Buildings	Computers	Plant & Machinery	Furniture	
Balance as at April 1, 2024	530	2,229	1	10	3	2,773
Addition / Modification	–	–	–	–	–	–
Deletion	–	–	–	–	–	–
Depreciation	(42)	(174)	(1)	(10)	(3)	(230)
Balance as at March 31, 2025	488	2,055	–	–	–	2,543

The changes in the carrying value of right of use assets for the period ended March 31, 2024 are as follows:

						(In ₹ Lakhs)
Particulars	Category of ROU asset					Total
	Land	Buildings	Computers	Plant & Machinery	Furniture	
Balance as at April 1, 2023	552	2,367	2	22	6	2,949
Addition / Modification	19	36	–	1	–	56
Deletion	–	–	–	–	–	–
Depreciation	(41)	(174)	(1)	(13)	(3)	(232)
Balance as at March 31, 2024	530	2,229	1	10	3	2,773

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Income and Expenditure.

The break-up of current and non-current lease liabilities as at March 31, 2025 and March 31, 2024 are as follows:

(In ₹ Lakhs)		
Particulars	As at March 31,	
	2025	2024
Current lease liabilities	144	143
Non-current lease liabilities	2,713	2,857
Total	2,857	3,000

The movement in lease liabilities during the year ended March 31, 2025 and period ended March 31, 2024 are as follows:

(In ₹ Lakhs)		
Particulars	As at March 31,	
	2025	2024
Opening balance	3,000	3,073
Additions	–	–
Adjustment <sup>(1)</sup> / Modification	–	61
Finance cost accrued during the period	230	241
Payment of lease liabilities	(373)	(375)
Balance at the end	2,857	3,000

<sup>(1)</sup> Adjustment of lease liability and ROU to align the accounting basis from yearly to quarterly payment terms as specified in the agreement.

## 2.9 Financial instruments

### Accounting Policy

#### 2.9.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 2.9.2 Subsequent measurement

##### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(ii) Financial assets at fair value through other comprehensive income (FVOCI)**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**(iii) Financial assets at fair value through profit or loss**

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

**(iv) Financial liabilities**

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate to fair value due to the short maturity of these instruments.

**2.9.3 Derecognition of financial instruments**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expires or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

**Financial instruments by category**

The carrying value and fair value of financial instruments by categories as at March 31, 2025 are as follows:

(In ₹ Lakhs)							
Particulars	Amortized cost	Financial assets / liabilities at fair value through profit or loss		Financial assets / liabilities at fair value through OCI		Total carrying value	Total fair value
		Designated upon initial recognition	Mandatory	Equity instruments designated upon initial recognition	Mandatory		
Assets:							
Trade receivables (Refer to Note 2.5)	143	–	–	–	–	143	143
Cash and cash equivalents (Refer to Note 2.6)	94	–	–	–	–	94	94
Other financial assets (Refer to Note 2.7)	355	–	–	–	–	355	355
Investments (Refer to note 2.4)							
Liquid mutual fund units	–	–	1,073	–	–	1,073	1,073
Total	592	–	1,073	–	–	1,665	1,665
Liabilities:							
Trade payables (Refer to Note 2.12)	52	–	–	–	–	52	52
Lease liabilities (Refer to Note 2.2)	2,857	–	–	–	–	2,857	2,857
Other financial liabilities (Refer to Note 2.11)	612	–	–	–	–	612	612
Total	3,521	–	–	–	–	3,521	3,521

The carrying value and fair value of financial instruments by categories as at March 31, 2024 are as follows:

(In ₹ Lakhs)

Particulars	Amortized cost	Financial assets / liabilities at fair value through profit or loss		Financial assets / liabilities at fair value through OCI		Total carrying value	Total fair value
		Designated upon initial recognition	Mandatory	Equity instruments designated upon initial recognition	Mandatory		
<b>Assets:</b>							
Trade receivables (Refer to Note 2.5)	117					117	117
Cash and cash equivalents (Refer to Note 2.6)	355	–	–	–	–	355	355
Other financial assets (Refer to Note 2.7)	631	–	–	–	–	631	631
<b>Investments (Refer to note 2.4)</b>							
Liquid mutual fund units	–	–	–	–	–	–	–
<b>Total</b>	<b>1,103</b>	<b>–</b>	<b>–</b>	<b>–</b>	<b>–</b>	<b>1,103</b>	<b>1,103</b>
<b>Liabilities:</b>							
Trade payables (Refer to Note 2.12)	23					23	23
Lease liabilities (Refer to Note 2.2)	3,000	–	–	–	–	3,000	3,000
Other financial liabilities (Refer to Note 2.11)	949	–	–	–	–	949	949
<b>Total</b>	<b>3,972</b>	<b>–</b>	<b>–</b>	<b>–</b>	<b>–</b>	<b>3,972</b>	<b>3,972</b>

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The liquid mutual fund units are valued using quoted prices and accordingly will be classified under level 1 in the fair value hierarchy.

For trade receivables and trade payables and other assets and payables maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: Credit risk and Liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹143 Lakhs and ₹117 Lakhs as at March 31, 2025 and March 31, 2024, respectively and unbilled revenue amounting to ₹123 Lakhs and ₹395 Lakhs as at March 31, 2025 and March 31, 2024, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue from customers located in India. Credit risk has always been managed by the Company through credit approvals. The Company uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

### Credit risk exposure

The Company's credit period generally ranges from 0-30 days for Parent Company and BESCOM.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks / Mutual funds with high ratings assigned by domestic credit rating agencies. Ratings are monitored periodically, and the Company has considered the latest available credit ratings as at the date of approval of these financial statements.

### Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company has no outstanding borrowings. The Company believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2025, the Company had a working capital of ₹627 Lakhs including cash and cash equivalents of ₹94 Lakhs and current investments of ₹1073 lakhs. As at March 31, 2024, the Company had a negative working capital of ₹598 Lakhs including cash and cash equivalents of ₹355 Lakhs and no current investments.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2025

Total other financial liabilities	612	949
<sup>(1)</sup> Financial liability carried at amortized cost	612	949
<sup>(2)</sup> Includes dues to parent company	3	383

## 2.12 Trade payables

(In ₹ Lakhs)

Particulars	As at March 31,	
	2025	2024
Outstanding dues of micro enterprises and small enterprises	–	–
Outstanding dues of creditors other than micro enterprises and small enterprises	52	23
Total trade payables	52	23

Trade payables ageing schedule for the year ended as on March 31, 2025 is as follows:

(In ₹ Lakhs)

Particulars	Outstanding for following periods from due date of payment					Total
	Not Due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Outstanding dues to MSME	–	–	–	–	–	–
Others	–	52	–	–	–	52
Total Trade payables	–	52				52

Trade payables ageing schedule for the year ended as on March 31, 2024 is as follows:

Particulars	Outstanding for following periods from due date of payment					Total
	Not Due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Outstanding dues to MSME	–	–	–	–	–	–
Others	–	23	–	–	–	23
Total Trade payables	–	23				23

Relationship with struck off companies

There are no transactions with struck off companies for the year ended March 31, 2024 and March 31, 2025.

## 2.13 Other liabilities

Particulars	As at March 31,	
	2025	2024
Current		
Advance from customer <sup>(1)</sup>	–	335
Others		
Withholding and other taxes payable	11	27
Total Other Liabilities	11	362
<sup>(1)</sup> Advance received from parent company	–	335

## 2.14 Revenue from operations

### Accounting Policy

The company derives revenue primarily from supply of solar power to its parent company. In accordance with the power supply agreement the company records revenue as and when it provides power.

Revenue from operations for the year ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	Year ended March 31,	
	2025	2024
Revenue from supply of power	4,436	3,805
Total revenue from operations	4,436	3,805

## Trade receivables and contract balances

The timing of revenue recognition, billings and cash collections results in receivables and unbilled revenue on the Company's Balance Sheet. Amounts are billed in accordance with agreed-upon contractual terms.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

## 2.15 Other income, net

### Accounting Policy

Other income is comprised primarily of interest income, gain / loss on investments and gain / loss on sale of property, plant and equipment assets. Interest income is recognized using the effective interest method.

Other income for the year ended March 31, 2025 and March 31, 2024 is as follows:

(In ₹ Lakhs)

Particulars	Year ended March 31,	
	2025	2024
Interest income on financial assets carried at amortized cost		
Deposit with Bank	–	–
Income on investments carried at fair value through profit or loss		
Gain / (loss) on liquid mutual funds	23	140
Miscellaneous income, net	16	2
Total other income	39	142

## 2.16 Expenses

(In ₹ Lakhs)

Particulars	Year ended March 31,	
	2025	2024
Other expenses		
Repairs and maintenance	1,032	708
Power and fuel	2	2
Insurance	48	34
Rates and taxes	111	144
Legal and consultancy	98	15
Donations	–	79
Contribution towards Corporate Social Responsibility (Refer to Note 2.19)	65	–
Auditor's remuneration		
Statutory audit fees	8	8
Tax matters	–	–
Other services	3	1
Others	36	35
	1,403	1,026

## 2.17 Contingent liabilities and commitments

### Accounting Policy

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

(In ₹ Lakhs)

Particulars	Year ended March 31,	
	2025	2024
Contingent liabilities:		
Claims against the Company, not acknowledged as debts <sup>(1)</sup>	17,165	12,722
[Amount paid to statutory authorities ₹ 504 Lakhs]		
Commitments:		
Estimated amount of contracts remaining to be executed on capital contracts and not provided for (net of advances and deposits) <sup>(2)</sup>	825	207

<sup>(1)</sup> As at March 31, 2025, claims against the Company not acknowledged as debts in respect of income tax matters amounted to ₹17,165 Lakhs. Amount paid to statutory authorities against the tax claims amounted to ₹504 Lakhs.

The claims against the Company primarily represent demands arising on completion of assessment proceedings for certain years under the Income Tax Act, 1961. These claims are on account of Income Tax authorities denying the exemption under section 11 of the Income Tax Act, 1961.

This matter is pending before Income Tax Appellate Authorities. The Company expect that its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial statement.

<sup>(2)</sup> Capital contracts primarily comprise of commitments for infrastructure facilities

The Company's related party transactions during the year ended March 31, 2025 and March 31, 2024 and outstanding balances as at March 31, 2025 and March 31, 2024 are with its Holding Company with whom the Company generally enters into transactions which are at arm's length and in the ordinary course of business

## 2.19 Corporate social responsibility (CSR)

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. The areas for CSR activities are promoting education, promoting gender equality by empowering women, healthcare, environment sustainability, art and culture, destitute care and rehabilitation, disaster relief and rural development projects. The funds were primarily utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013:

Particulars	(In ₹ Lakhs)	
	As at March 31,	
	2025	2024
i) Amount required to be spent by the company during the year <sup>(1)</sup>	6	–
ii) Amount of expenditure incurred	65	–
iii) Shortfall at the end of the year	–	–
iv) Total of previous years shortfall	–	–
v) Reason for shortfall	Not Applicable	Not Applicable
vi) Nature of CSR activities	Promoting healthcare including preventive healthcare and Promoting education, enhancing vocational skills, Rural development.	–
vii) Details of related party transactions, e.g. contribution to a trust controlled by the company in relation to CSR expenditure as per relevant Accounting Standard	–	–
viii) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year shall be shown separately	–	–

<sup>(1)</sup> CSR is applicable effective from 1st April 2024

## 2.20 Segment Reporting

The Company is engaged in generating solar power and selling to its parent company. Accordingly, disclosures as required under IND AS 108, 'Segment Reporting' has not been separately presented in the financial statements since the information is available directly from the Statement of Income and Expenditure.

## 2.21 Ratios

The following are the ratios for the year ended for both March 31, 2025 and March 31, 2024:

Particulars	Numerator	Denominator	31-Mar-25	31-Mar-24	Variance
Current Ratio	Current assets	Current liabilities	1.8	0.6	197% <sup>(5)</sup>
Debt – Equity Ratio	Total Debt <sup>(1)</sup>	Shareholder's Equity	0.1	0.1	(7%)
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	8.0	7.6	6%
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	2.1%	2.0%	0%
Trade receivables turnover ratio	Revenue	Average Trade Receivable	34.13	65.0	(48%) <sup>(6)</sup>
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	39.3	73.0	(46%) <sup>(7)</sup>
Net capital turnover ratio	Revenue	Working Capital	7.1	(6.4)	(211%) <sup>(8)</sup>
Net profit ratio	Net Profit	Revenue	14.6%	15.6%	(1%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	2.6%	2.5%	0%
Return on Investment (ROI)	Income generated from investments	Time weighted average	7.3%	7.4%	0%

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + Other adjustments like loss on sale of property, plant and equipment etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

<sup>(5)</sup> Increase in current assets and decrease in current liabilities has resulted in the increase in the ratio

<sup>(6)</sup> Increase in the average trade receivables has resulted in an improvement in the ratio

<sup>(7)</sup> Increase in the average trade payables has resulted in an improvement in the ratio

<sup>(8)</sup> Increase in the working capital has resulted in the increased ratio.

## 2.22 Earnings per share (EPS)

Earnings per share (EPS) is not applicable to Infosys Green Forum as it is a section 8 company and hence not disclosed.

## Infosys Consulting S.R.L (Argentina)

# Independent Auditor's Report

To the Members of INFOSYS CONSULTING S.R.L (Argentina)

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS CONSULTING S.R.L (Argentina) ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Notes to the financial statements

Infosys Consulting S.R.L. (registered in Argentina) is a majority-owned subsidiary of Infosys Limited. The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations. These financial statements are prepared in accordance with Indian Accounting Standards (Ind-AS) under the historical cost convention on the accrual basis. The Ind-AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is the Argentina Pesos (ARS).

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of percentage of completion, which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts to be expended, impairment losses on financial assets, future obligations under employee benefit plans, income taxes, post-sales customer support and the useful lives of property, plant and equipment.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 Time & Material

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Fixed Price

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

#### 1.5.3 Unbilled / Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer as unearned revenues).

#### 1.5.4 Volume Discounts

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts / incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then the discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

#### 1.5.5 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

### 1.5.6 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

### 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.7 Post-sales client support

The Company provides its clients with a fixed-period warranty for corrections of errors and telephone support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in cost of sales. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

### 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

### 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows :

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment <sup>(1)</sup>	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

<sup>(1)</sup> For these class of assets, based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with

these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

### 1.10 Financial instruments

#### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.10.2 Subsequent measurement

##### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 1.10.3 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.11 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets, which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.12 Employee Benefits

### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.13 Foreign currency

### Functional currency

The functional currency of the company is the Argentinian Peso.

### Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and

non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements from functional currency to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in exchange differences on translation under other components of equity.

## 1.14 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability, simultaneously.

## 1.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from the company's operating, investing, and financing activities are segregated.

### 1.16 Other income

Other income is comprised primarily of interest income and exchange gain on translation of other assets and liabilities.

### 1.17 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.18 Borrowing Cost

Borrowing cost are charged to the Statement of Profit and Loss in the period in which they occurred.

### 1.19 Hyperinflation accounting

To reflect changes in purchasing power at the balance sheet date, the carrying amounts of non-monetary assets and liabilities, shareholders equity and comprehensive income are restated in terms of a measuring unit current at the balance sheet date. These are indexed using a general price index in accordance with Ind AS 29 'Financial Reporting in Hyperinflationary Economies'. In contrast, no restatement is required for monetary assets and liabilities carried at amounts current at the end of the Balance Sheet date because they represent money held, to be received,

or to be paid. Corresponding figures for previous year have been restated for the changes in the general purchasing power of the functional currency and, as a result, are stated in terms of the measuring unit current at the end of the reporting year.

Gains and losses from hyperinflation are included in the income statement. Non-monetary assets that have been restated following the guidance in Ind AS 29 are still subject to impairment assessment in accordance with the guidance in the relevant Ind AS.

## 2. Effects of Hyperinflation

Due to the rapid devaluation of the Argentine Peso, Argentina is considered a hyperinflationary economy. During the year ended December 31, 2024, the financial statements of the Company were adjusted to recognize the inflationary effects since January 1, 2021. The financial statements of the Company are based on a historical cost approach and are restated using a general price index in accordance with Ind AS 29. The consumer price index on December 31, 2024, was 7,694.01, as of December 31, 2023, was 3,533.19, and as of January 1, 2023, was 1,134.59.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In ARS)						
Particulars	Plant and machinery	Office Equipment	Computer equipment	Furniture and fixtures	Leasehold Improvement	Total
Gross carrying value as of January 1, 2024	642,527	–	68,602,881	2,889,454	–	72,134,862
Additions	–	–	–	–	–	–

## 2.8 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories as of December 31, 2024, and December 31, 2023 were as follows:

Particulars	(In ARS)	
	As at December 31	
	2024	2023
<b>Assets</b>		
Cash and cash equivalents (Refer to Note 2.6)	15,391,398	66,779,525
Trade receivables (Refer to Note 2.5)	505,465,031	247,033,891
Loans (Refer to Note 2.3)	283,575	617,523
Other financial assets (Refer to Note 2.4)	1,044,802,965	1,781,814,233
<b>Total</b>	<b>1,565,942,969</b>	<b>2,096,245,172</b>
<b>Liabilities</b>		
Trade payables (Refer to Note 2.12)	866,709,660	1,771,998,005
Borrowings (Refer to Note 2.10)	–	–
Lease Liability (Refer to Note 2.19)	2,889,730,347	1,188,257,888
Other financial liabilities (Refer to Note 2.11)	2,921,770,353	2,488,768,758
<b>Total</b>	<b>6,678,210,360</b>	<b>5,449,024,651</b>

All the above financial assets and liabilities are carried at amortized cost and the carrying values approximates their fair value.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ARS 505,465,031 and ARS 247,033,891 as of December 31, 2024 and December 31, 2023, respectively and unbilled revenue amounting to ARS 411,583,521 and ARS 244,035,278 as of December 31, 2024 and December 31, 2023 respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits, and continuously monitoring the creditworthiness of customers to whom the Company grants credit terms in the normal course of business. As per Ind AS 109 the Company uses ECL model to assess the impairment loss or gain. The Company uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes credit ratings from credit rating agencies and the Company's historical experience for customers.

### Credit risk exposure

The recognition/ (reversal) for lifetime ECL on customer balances for the year ended December 31, 2024 was ARS 657,493,324 and allowance for year ended December 31, 2023 was ARS 1,139,700,880 respectively.

Particulars	(In ARS)	
	Year ended December 31	
	2024	2023
Balance at the beginning	334,728,090	23,238,750
Impairment loss recognized / (reversed)	657,493,324	1,139,700,880
Amounts written off	–	–
Translation differences	(462,286,004)	(828,211,539)
<b>Balance at the end</b>	<b>529,935,411</b>	<b>334,728,090</b>

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies.

### Liquidity risk

The Company has taken loan from its parent company to meet its working capital requirements.

As of December 31, 2024, the Company had a negative working capital of ARS 2,657,887,665 including cash and cash equivalents of ARS 15,391,398.

As of December 31, 2023, the Company had a negative working capital of ARS 3,892,367,704 including cash and cash equivalents of ARS 66,779,525.

As of December 31, 2024 and December 31, 2023, the outstanding compensated absences were ARS 49,719,160 and ARS 112,638,483 respectively.

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2024:

(In ARS)

Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total

Post-sales client support	1,370,301	963,395
Total current Provisions	1,370,301	963,395

**Provision for post-sales client support**

The movement in the provision for post-sales client support is as follows :

(In ARS)

Particulars	As at December 31,	
	2024	2023
Balance at the beginning	963,395	618,933
Provision recognized / (reversed)	406,906	344,462
Exchange difference	–	–
Balance at the end	1,370,301	963,395

Provision for post-sales client support and other provisions are expected to be utilized over a period of six months to one year.

**2.15 Income taxes**

Income tax expense in the Statement of Profit and Loss comprises:

(In ARS)

Particulars	Year ended December 31,	
	2024	2023
Current taxes	732,797,203	(19,761)
Deferred taxes	514,572,635	1,311,797,794
Income tax expense	1,247,369,838	1,311,778,033

Current tax expense for the years ended December 31, 2024 includes provisions (net of reversals) amounting to reversal of provision of ARS 732,797,203 and reversal (net of provisions) of ARS 19,761 for the year ended December 31, 2023, pertaining to prior period.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

(In ARS)

Particulars	Year ended December 31,	
	2024	2023
Profit/(Loss) before income tax	(2,212,168,377)	647,140,186
Enacted tax rates in Argentina (%)	35%	25%
Computed expected tax expense	(774,258,932)	161,785,047
Overseas taxes	–	–
Prior period tax expense	732,797,203	(19,761)
Permanent Difference	1,649,496	(6,568,141)
Deferred Tax Entry, Translation difference & others	1,287,182,071	1,156,580,888
Income tax expense	1,247,369,838	1,311,778,033

The applicable Argentina statutory tax rate for year ended December 31, 2024, is 35% and tax rate for the year ended December 31, 2023 is 25%.

The details of income tax assets and income tax liabilities are as follows :

(In ARS)

Particulars	Year ended December 31,	
	2024	2023
Income tax assets	112,029,951	81,376,726
Current income tax liabilities	–	–
Net current income tax assets / (liability) at the end	112,029,951	81,376,726

The gross movement in the current income tax asset / (liability) is as follows:

(In ARS)

Particulars	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	81,376,726	81,439,663
Income tax paid	785,053,466	49,566,166
Forex	311,475	–
Current income tax expense (Refer to Note No.2.15)	(732,797,203)	19,761

Particulars	Year ended December 31,	
	2024	2023
Impact on account of operations in hyperinflationary economy	(21,914,513)	(49,648,864)
Net current income tax asset / (liability) at the end	112,029,951	81,376,726

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

(In ARS)

Particulars	As at December 31,	
	2024	2023
Deferred income tax assets		
Accrued compensation to employees	-	-
Trade receivables	-	-
Others	-	-
Total deferred income tax assets	-	-
Deferred income tax liabilities		
Impact on account of operations in a hyperinflationary economy	522,454,347	7,881,708
Others	-	-
Total deferred income tax liabilities	522,454,347	7,881,708

The gross movement in the deferred income tax assets / (liabilities) for the year(s) ended December 31, 2024, and December 31, 2023, are as follows:

(In ARS)

Particulars	As at December 31,	
	2024	2023
Net deferred income tax asset / (liability) at the beginning	(7,881,709)	1,303,916,085
Translation differences	-	-
Credits / (charge) relating to temporary differences	(514,572,635)	(1,311,797,794)
Net deferred income tax asset / (liability) at the end	(522,454,344)	(7,881,709)

The charge relating to temporary differences during the year ended December 31, 2024, is on account of impact owing to hyperinflationary economy adjustments to the ROU assets and property, plant and equipment and The charge relating to temporary differences during the year ended December 31, 2023, are primarily on account of property, plant and equipment, accrued compensation and compensated absences partially offset by trade receivables.

## 2.16 Revenue from operations

(In ARS)

Particulars	Year ended December 31,	
	2024	2023
Income from consultancy services	4,443,496,014	2,977,784,672
Total revenue from operations	4,443,496,014	2,977,784,672

## Trade receivables and Contract Balances

The company classifies the right to consideration in exchange for deliverables as either receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related service are performed. Revenue for fixed-price maintenance contracts is recognized on a straight-line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed-price development contracts is based on percentage-of-completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts (contract asset) is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024, the Company recognized revenue of ARS 16,531 arising from opening unearned revenue as of January 1, 2024.

During the year ended December 31, 2023, the Company recognized revenue of NIL arising from opening unearned revenue as of January 1, 2023.

## Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is Nil. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them.

## 2.17 Other income

Particulars	(In ARS)	
	Year ended December 31,	
	2024	2023
Interest received on financial assets carried at amortized cost		
Interest income on prepaid contract cost	31,655,275	99,812,940

Others	166,395,452	167,564,922
Total other expenses	5,296,979,133	10,307,108,643

## 2.19 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The changes in the carrying value of Right-of-use assets for the year ended December 31, 2024 are as follows:

the changes in the carrying value of right-of-use assets for the year ended December 31, 2024 are as follows:

(In ARS)

Particulars	Category of ROU asset		Total

## 2.21 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the ‘management approach’, as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.22 Ratios

The ratios for the years ended December 31, 2024, and December 31, 2023, are as follows:

Particulars	Numerator	Denominator	December 31,		Variance
			2024	2023	
Current Ratio	Current assets	Current liabilities	0.4	0.3	34%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	(5.7)	(0.3)	(539%)
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	(1.5)	2.5	161%
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	173.3%	20.5%	153%
Trade receivables turnover ratio	Revenue	Average Trade Receivable	11.8	1.9	518%
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	2.9	0.8	260%
Net capital turnover ratio	Revenue	Working Capital	(1.7)	(0.8)	119%
Net profit ratio	Net Profit	Revenue	(77.9)%	(22.3)%	(56%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed	(91.1)%	(41.3)%	(50%)

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

### Explanation where variance in ratios is more than 25%

#### Debt – Equity Ratio

Increase as a result of significant increase in losses.

#### Debt Service Coverage Ratio

Decrease as a result of significant increase in losses.

#### Return on Equity (ROE)

Decrease on account of significant increase in losses.

#### Trade Receivables Turnover Ratio

Increase as a result of increase in revenue

#### Trade Payables Turnover Ratio

Decrease as a result of decreased purchases of cost of software packages.

#### Net capital turnover ratio

Decrease on account of increase in liabilities and increase in revenue.

#### Net profit ratio

Decrease as a result of significant increase in losses.

#### Return on capital employed (ROCE)

Decrease as a result of significant increase in losses.

## Infosys South Africa (Pty) Limited

# Independent Auditor's Report

to the shareholders of Infosys South Africa Proprietary Limited

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Infosys South Africa Proprietary Limited set out on pages 954 to 963, which comprise the statement of financial position as at 31 December 2024, and the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and the notes to the financial statements, including a summary of material accounting policy information.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Infosys South Africa Proprietary Limited as at 31 December 2024, and its financial performance and cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa.

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Statements section of our report. We are independent of the Company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' (IESBA) International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA code). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other Information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Infosys South Africa Proprietary Limited Annual Financial Statements for the year ended 31 December 2024" which includes the Directors' Report as required by the Companies Act of South Africa. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Directors' Statement of Responsibility

The directors of the company are responsible for the maintenance of adequate accounting records and the preparation and integrity of the annual financial statements and related information. The auditors are responsible for reporting on the fair presentation of the financial statements. The financial statements have been prepared in accordance with IFRS® Accounting Standards as issued by the International Accounting Standards Board (IASB®) and the requirements of the Companies Act of South Africa

The directors are also responsible for the company's system of internal financial control. These are designed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements, and to adequately safeguard, verify and maintain accountability of the company's assets, and to prevent and detect misstatement and loss. Nothing has come to the attention of the directors to indicate that any material breakdown in the functioning of these controls, procedures and systems have occurred during the year under review.

The financial statements have been prepared on the going concern basis since the directors believe that the company has adequate resources in place to continue in operation for the foreseeable future

Directors' approval of the annual financial statements

The annual financial statements and directors report were approved by the Directors on May 29, 2025 and are signed on their behalf by:

**Arunabha Das**  
*Director*

Cash and cash equivalents at the end of the year	23,598,294	21,913,854

# Company overview and significant accounting policies

## Company overview

Infosys South Africa (Pty) Ltd is a wholly-owned subsidiary of Infosys Consulting Pte. Ltd. The purpose of the Company is to expand locally, as the same exists or as may hereafter be amended from time to time.

## 1 Significant Material policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31, 2024.

### 1.2 Basis of preparation of financial statements

The annual financial statements have been prepared on the going concern basis in accordance with, and in compliance with IFRS® Accounting Standards as issued by the International Accounting Standards Board (IASB®) and International Financial Reporting Standards Interpretations Committee ("IFRS IC") interpretations issued and effective at the time of preparing these annual financial statements and the Companies Act of South Africa as amended.

The annual financial statements have been prepared on the historic cost convention, unless otherwise stated in the accounting policies which follow and incorporate the principal accounting policies set out below. They are presented in Rands, which is the company's functional currency.

These accounting policies are consistent with the previous period.

### 1.3 Reporting currency

The Company's reporting currency is ZAR.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with IFRS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Foreign currency

#### Functional currency

The functional currency of the Company is the ZAR. These financial statements are presented in ZAR.

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange

rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.6 Income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized in the other comprehensive income or directly in equity, respectively.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax basis of assets and liabilities, and their carrying amounts in the financial statements. Deferred income tax assets are recognized only to the extent that it is probable, future taxable profit will be available against which the temporary differences can be utilized.

### 1.7 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.8 Revenue

- a. To recognize revenues, the Company applies the following five-step approach:
  - i. Identify the contract with a customer,
  - ii. Identify the performance obligations in the contract,
  - iii. Determine the transaction price,
  - iv. Allocate the transaction price to the performance obligations in the contract, and
  - v. Recognize revenues when a performance obligation is satisfied.

- b. At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligations based on their relative standalone selling price or residual method. Standalone selling prices are determined based on sale prices for the components when these are regularly sold separately. In cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables, or the Company uses the expected cost-plus margin approach in estimating the stand-alone selling price.

- c. For performance obligations where control is transferred over time, revenues are recognized by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the promised products or services to be provided.

The Company accounts for variable considerations, such as volume discounts, as a reduction of revenue on a systematic and rational basis over the term of the contract. Such variable considerations are estimated using the expected value method or the single-most likely amount in a range of possible considerations, whichever method better predicts the amount of consideration the Company may be entitled to.

- d. The timing of revenue recognition may differ from the timing of invoicing to customers. The Company classifies its rights to consideration in exchange for deliverables as accounts receivable or unbilled revenue. Unbilled revenue represents earnings in excess of billings, while unearned income represents billings in excess of earnings.

Revenue is measured based on the contractually agreed consideration and is recognized when the Company transfers control over goods or services to the customer. In view of the risks associated with the delivery of its services and the collection of the amounts, the Company considers itself a principal in these arrangements and, therefore, recognizes the costs and associated revenue on a gross, as opposed to a net basis.

## 2.1 Revenue

(In ZAR)

Particulars	Years ended December 31,	
	2024	2023
Revenue from services	154,081,569	44,740,605

## 2.7 Cash and cash equivalents

(In ZAR)

Particulars	As at December 31,	
	2024	2023
Cash at bank	23,598,294	21,913,854
	23,598,294	21,913,854

## 2.8 Other assets

(In ZAR)

Particulars	As at December 31,	
	2024	2023
Employee advance	148,822	7,755
Unbilled revenue	41,985,371	-
VAT receivable	49,436	123,849
Other intercompany receivable	3,595,221	3,833,332
Payment to vendors for supply of goods	41,365	-
	45,820,216	3,964,936

## 2.9 Equity

### Equity share capital

(In ZAR)

Particulars	As at December 31,	
	2024	2023
Authorized equity shares, ZAR 10 par value 76,000,000 (7600,000) equity shares	76,000,000	76,000,000
Issued, subscribed and paid-up equity shares, ZAR 10 par value 17,135,660 (17,135,66) equity shares (2023: 17,135,660 (17,135,66) equity shares)	17,135,660	17,135,660

The details of shareholders holding more than 5% shares as at December 31, 2024 and December 31, 2023, are as follows:

Name of the shareholder	As at December 31,	
	2024	2023
Infosys Singapore Pte. Ltd. (formerly, Infosys Consulting Pte. Ltd.)	100%	100%

## Reconciliation of number of shares

The reconciliation of the number of shares outstanding and the amount of share capital as at December 31, 2024 and December 31, 2023, are as follows:

Particulars	As at December 31, 2024	
	No. of shares	Amount
Number of shares at the beginning of the period	1,713,566	17,135,660
Add: Shares issued during the year	-	-
Number of shares at the end of the period	1,713,566	17,135,660

Particulars	As at December 31, 2023	
	No. of shares	Amount
Number of shares at the beginning of the period	783,576	7,835,760
Add: Shares issued during the year	929,990	9,299,900
Number of shares at the end of the period	1,713,566	17,135,660

## 2.10 Trade payables

(In ZAR)

Particulars	As at December 31,	
	2024	2023
Trade payables <sup>(1)</sup>	6,692,196	6,565,756
Total Trade payables <sup>(1)</sup>	6,692,196	6,565,756
<sup>(1)</sup> Includes dues to related party (Refer to Note 2.12)	182,465	6,165,756

The details regarding the ageing of trade payables for the Year ended December 31, 2024 are as follows:

(In ZAR)

Particulars	Outstanding for periods from the due date of payment						Total
	Not due	Less than 6 months	6 months - 1 year	1-2 years	2-3 years	More than 3 years	
Others	182,465	6,509,731	–	–	–	–	6,692,196
Total trade payables <sup>(1)</sup>	182,465	6,509,731	–	–	–	–	6,692,196

The details regarding the ageing of trade payables for the Year ended December 31, 2023 are as follows:

(In ZAR)

Particulars	Outstanding for periods from the due date of payment						Total
	Not due	Less than 6 months	6 months - 1 year	1-2 years	2-3 years	More than 3 years	
Others	–	6,565,756	–	–	–	–	6,565,756
Total trade payables <sup>(1)</sup>	–	6,565,756	–	–	–	–	6,565,756

## 2.11 Other liabilities

(In ZAR)

Particulars	As at December 31,	
	2024	2023

## 2.13 Financial Instruments

### 2.13.1 Financial instruments

#### 2.13.1.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 2.13.1.2 Subsequent measurement

##### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

"A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 2.13.2 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

Particulars	(In ZAR)	
	As at December 31, 2024	2023
Assets:		
Trade receivables (Refer note 2.6)	16,745,261	8,159,202
Cash and cash equivalents (Refer note 2.7)	23,598,294	21,913,854
Total	40,343,555	30,073,055
Liabilities:		
Trade payables (Refer note 2.10)	6,692,196	6,565,756
Total	6,692,196	6,565,756

All the above financial instruments are carried at amortized cost and the carrying values approximates their fair value.

## Financial risk management

### Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies, and processes for measuring and managing risk, and the Company's management of capital.

The Board of Directors has an overall responsibility for the Company and oversight of the Company's risk management framework. "

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ZAR 595,530 as at December 31, 2022. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any

required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by credit rating agencies.

### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to trade and other payables and due to a related party. The Company's approach to managing liquidity is to ensure, as far as possible, to maintain sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

### Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

### Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The majority of the Company's transactions are conducted in ZAR and USD.

### Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

### Capital management

The Board of Directors' policy is to maintain a strong capital base as to maintain shareholders, creditors, and market confidence and to sustain future development of the business. There were no changes in the Company's approach to capital management during the years.

## 2.14 Details of Director Remuneration

Name of Director	(In ZAR)	
	Year ended 2024	2023
Arunabha Das	–	–
Thulani Tshabalala	2,316,199	624,000
Tumi Wessie	1,131,188	306,560
	3,447,387	930,560

## Idunn Information Technology Private Limited

(Formerly known as Danske IT and Support Services India Private Limited)

# Independent Auditor's Report

To The Members of Idunn Information Technology Private Limited (Formerly known as Danske IT and Support Services India Private Limited)

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of Idunn Information Technology Private Limited (Formerly known as Danske IT and Support Services India Private Limited) ("the Company"), which comprise the Balance Sheet as at March 31, 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Emphasis of Matter

We draw attention to Note 2.2 of the financial statements regarding transfer of business of the Company. As explained, the financial statements of the Company have not been prepared on a going concern basis in view of transfer of entire business of the Company on a slump sale basis with effect from September 1, 2023.

Our opinion is not modified in respect of this matter.

### Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report including annexures, but does not include financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Board of Directors for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting

unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Refer Note 2.2 of the financial statements.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern. Refer Note 2.2 of the financial statements and the Emphasis of Matter paragraph above.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) The going concern matter described in the Emphasis of Matter paragraph above, in our opinion, may have an adverse effect on the functioning of the Company.

- f) On the basis of the written representations received from the directors as on March 31, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.

With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements - refer note 21 to the financial statements.
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 30 to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.  
 (b) The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in the Note 30 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.  
 (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
  - v. The Board of directors of the Company have not proposed interim and final dividend for the year.
  - vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended March 31, 2025 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention. (refer note 32 of the financial statements).

- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## Annexure “A” to The Independent Auditor’s Report

(Referred to in paragraph 1 (g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of Idunn Information Technology Private Limited (Formerly known as Danske IT and Support Services India Private Limited) (“the Company”) as at March 31, 2025 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

### Management’s and Board or Director’s Responsibility for Internal Financial Controls

The Company’s Management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

### Meaning of Internal Financial Controls with reference to financial statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to financial statements established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

In terms of the information and explanation sought by us and given by the Company and books of accounts and records examined by us in the normal course of audit and to the best of our knowledge and belief, we believe that:

- (i) As the Company does not hold any Property, Plant and Equipment, (Bearer plants, capital work-in-progress, investment properties and relevant details of right-of-use assets), reporting under clause 3(i) of the Order is not applicable.
- (ii) (a) The Company does not have any inventory and hence, reporting under clause (ii)(a) of the Order is not applicable.  
(b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions and hence reporting under clause (ii)(b) of the Order is not applicable.
- (iii) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) of the Order is not applicable.
- (iv) The Company has not granted any loans, made investments or provided guarantees or securities and hence reporting under clause (iv) of the Order is not applicable.
- (v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.
- (vi) Having regard to the nature of the Company’s business/ activities, reporting under clause (vi) of the Order is not applicable.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
  - (a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees’ State Insurance, Income-tax, Sales Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities.  
There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2025 for a period of more than six months from the date they became payable.
  - (b) Details of statutory dues referred in sub-clause (a) above which have not been deposited as on March 31, 2025 on account of disputes are given below:

Name of Statute	Nature of the Dues	Forum where dispute is pending	Period to which the Amount Relates	Amount (Rs. in Millions)
Service Tax Act, 1994	Service Tax	Appeal to be field with Customs Excise and Service Tax Appellate Tribunal	FY 2013-14 and FY 2014-15	17

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause (ix)(a) of the Order is not applicable to the Company.  
(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.  
(c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable.  
(d) The Company has not taken raised any short-term funds and hence reporting under clause (ix)(d) of the order is not applicable to the Company.  
(e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause (ix)(e) of the Order is not applicable.  
(f) The Company has not raised any loans during the year and hence reporting on clause (ix)(f) of the Order is not applicable.
- (x) (a) The Company has not issued any of its securities (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.  
(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company

- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) To the best of our knowledge, no report under sub-section (12) of Section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 188 of the Companies Act for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards. The Company is a private company and hence the provisions of Section 177 of the Companies Act, 2013 are not applicable to the Company.
- (xiv) (a) In our opinion the company has an adequate internal audit system commensurate with the size and nature of its business.
- (b) We have considered the draft of the internal audit reports issued after the balance sheet date covering the period April 1, 2024 to March 31, 2025 for the period under audit.
- (xv) In our opinion during the year the Company has not entered any non-cash transactions with its directors or persons connected with its directors and hence provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable.
- (xvii) The Company has incurred cash losses amounting to Rs.2 million in the financial year covered by our audit and has not incurred cash losses in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due (Refer Note 2.2 to the financial statements).
- (xx) The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there are no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of Section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

# Notes to the financial statements

## 1. Company Overview

Idunn Information Technology Private Limited (Formerly known as Danske IT and Support Services India Private Limited) is a wholly-owned subsidiary of Infosys Limited and was incorporated on March 28, 2012, as a private limited company with its registered office at Bengaluru as an Information Technology Software Development, Consultancy organization and Information Technology Enabled Services. Effective April 1, 2024, the name of the Company has been changed to Idunn Information Technology Private Limited.

The financial statements are approved for issue by the Company's Board of Directors on May 8, 2025.

## 2. Summary of material accounting policies

### 2.1 Basis of preparation of financial statements

These standalone financial statements are prepared in accordance with the provisions of the Companies Act, 2013 ("the Act") and Indian Accounting Standard (Ind AS) under the historical cost convention on an accrual basis, except for certain financial instruments which are measured at fair values. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 2.2 Transfer of business of the Company

The Company was fully operational from April 1, 2023, to August 31, 2023. The Board of Directors of the Company at their meeting held on June 22, 2023, approved the Share Purchase agreement (SPA) between Danske Bank, the Company and Infosys Limited and the subsequent Business Transfer agreement (BTA) with Infosys Limited ("Infosys"). Pursuant to the BTA signed with Infosys Limited dated June 26, 2023, the Company transferred the entire business of the Company along with assets and liabilities as defined in the BTA on a slump sale basis with effect from September 1, 2023. As part of activities post signing the BTA, the SEZ license was also transferred from the Company to Infosys Limited. Further, the employees those who accepted the employment contract have moved to Infosys Limited.

Basis the above, the Company has ceased to continue its operations. Accordingly, the financial statements as at and for the year ended March 31, 2025 have been prepared on a liquidation basis and all assets have been stated / carried at realizable values and all liabilities have been considered/stated at their estimated pay-outs.

### 2.3 Presentation currency

The Company's presentation currency is Indian Rupees (₹)

### 2.4 Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and

their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### 2.5 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgements and assumptions that affect the accounting policies and reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include tax litigations, income taxes and any related provisions.

### 2.6 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

### 2.7 Revenue recognition

Revenue from IT Software Development and Consultancy Services and Information Technology Enabled Services is recognized on rendering of services based on the agreed mark-up on cost incurred in accordance with the terms of an agreement entered into between the company with its customers.

Revenue recognized on a cost-plus basis is recorded considering the net eligible costs incurred/identified towards such revenue contracts, the final acceptance / determination of which is based on the confirmation by the customer. The difference, if any, between the revenue recorded and the amount of revenue finally determined based on confirmation from the customer is adjusted to revenue in the period of such final determination.

Unbilled revenue represents the accrual of income relating to services provided but not billed as at the end of the period.

### 2.8 Other income

Other income comprises of Interest income, which is accounted on an accrual basis.

### 2.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property,

plant and equipment are ready for use, as intended by the Management. The charge in respect of periodic depreciation is derived at after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method.

### Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically, including at each financial year end.

## 2.10 Depreciation and amortization

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Intangible assets are amortized over their estimated useful life on a straight-line method. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

Asset block	Useful life (years)
Computers	6
Computer software	3
Office equipment	5
Leasehold improvements	5 years or lease term whichever is lower
Furnitures and fixtures	10

## 2.11 Foreign currency translation

### Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

### Measurement at the balance sheet date

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

### Treatment of exchange differences

Company: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognized as income or expense in the Statement of Profit and Loss.

Integral foreign operations: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company's integral foreign operations are recognized as income or expense in the Statement of Profit and Loss.

## 2.12 Employee Benefits

### Defined contribution plans

#### a) Provident fund

Contributions towards Employees' Provident Fund are made to the Employees' Provident Fund Scheme maintained by the Central Government and the Company's contribution to the fund are recognized as an expense in the year in which the services are rendered by the employees.

#### b) Superannuation

The Company contributes a specified percentage of eligible employees' salary to a Superannuation Fund administered by trustees and managed by the Insurer. The Company has no liability for future Superannuation Fund benefits other than its annual contribution and recognizes such contributions as an expense in the year in which the services are rendered by the employees.

#### c) Service bonus

The Company contributes a specified percentage of eligible employees' salary to Service bonus. The Company has liability for future Service bonus benefits and recognizes such contribution as an expense in the year in which the services are rendered by the employees.

### Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in other comprehensive income and not reclassified to profit or loss in subsequent periods. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost.

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences, which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- in case of non-accumulating compensated absences, when the absences occur.

## Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the balance sheet date.

### 2.13 Borrowing costs

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalization of such asset are added to the cost of the assets. Capitalization of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

### 2.14 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

### 2.15 Impairment of assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

### 2.16 Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation

in respect of which a reliable estimate can be made. Provisions (excluding benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognized in the financial statements.

### 2.17 GST input credit

GST input credit is accounted for in the books in the period in which the underlying goods and service received is accounted and when there is reasonable certainty in availing / utilizing the credits.

### 2.18 Taxes on income

Income tax expense is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

### 2.19 Leases

#### The Company as a lessee

The Company's lease asset classes primarily consist of buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified

asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

The ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities

are remeasured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment if it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

## 2.20 Financial Instruments

### Financial assets

#### Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the business model for managing them. The Company initially measures a financial assets at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date

### Subsequent measurement

- (i) Financial assets carried at amortized cost- A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- (ii) Financial assets carried at fair value through other comprehensive income (FVOCI)- A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments, which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.
- (iii) Financial assets carried at fair value through profit or loss (FVTPL)- A financial asset, which is not classified in any of the above categories are subsequently fair valued through profit or loss.
- (iv) Financial liabilities- Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit or loss.

### 2.21 Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

### 2.22 Fair value measurement

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, option pricing model, market multiples, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

### 3.1 Property, plant and equipment

(In ₹ Millions)

## 13. Income Taxes

Income tax expense in the statement of profit and loss comprises:

(In ₹ Millions)

Particulars	Year ended March 31	
	2025	2024
Current taxes <sup>(1)</sup>	7	88
Deferred taxes	–	–
Income tax expense	7	88

<sup>(1)</sup> Income tax expense for the year ended March 31, 2025 includes provisions of ₹7 Million (March 31, 2024: Nil). These provisions pertaining to prior periods are primarily upon filing of tax return..

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

(In ₹ Millions)

Particulars	Year ended March 31	
	2025	2024
Profit before income taxes	(42)	627
Enacted tax rates in India	33.38%	34.94%
Computed expected tax expense	–	219
Tax effect due to non-taxable income for Indian tax purposes	–	(91)
MAT credit utilized	–	(77)
Effect of non-deductible expenses	–	3
Tax pertaining to prior years	7	–
Others	–	34
Income tax expense	7	88

The applicable Indian statutory tax rate for fiscal 2025 is 33.38% and fiscal 2024 is 34.94%.

The following table provides the details of income tax assets and income tax liabilities as of March 31, 2025 and March 31, 2024:

(In ₹ Millions)		
Particulars	As at March 31,	
	2025	2024
Income tax assets	52	72
Current income tax liabilities	–	–
Net current income tax assets/(liability) at the end	52	72

The gross movement in the current income tax asset/(liability) for the year ended March 31, 2025 and March 31, 2024 is as follows:

(In ₹ Millions)		
Particulars	Year ended March 31,	
	2025	2024
Net current income tax asset / (liability) at the beginning	72	(23)
Net income tax paid / (Refund)	(13)	183
Current income tax expense	(7)	(88)
Net current income tax asset / (liability) at the end	52	72

## 14. Revenue from operations

### Revenue recognition

Revenue from IT Software Development and Consultancy Services and Information Technology Enabled Services is recognized on rendering of services based on the agreed mark-up on cost incurred in accordance with the terms of an agreement entered into between the Company with its customers.

Revenue recognized on a cost-plus basis is recorded considering the net eligible costs incurred/identified towards such revenue contracts, the final acceptance / determination of which is based on the confirmation by the customer. The difference, if any, between the revenue recorded and the amount of revenue finally determined based on confirmation from the customer is adjusted to revenue in the period of such final determination.

Unbilled revenue represents the accrual of income relating to services provided but not billed as at the end of the period.

### Revenue from operations

(In ₹ Millions)		
Particulars	Year ended March 31,	
	2025	2024
Sale of Service (IT Software Development and Consultancy Services and Information Technology Enabled Services)	(1)	3,667
	(1)	3,667

## Notes :

14.1 Pursuant to the Service Agreement between the Company and Danske Bank A/S, Denmark, the Company commenced providing IT Software Development and Consultancy Services w.e.f. August 1, 2015 and Information Technology Enabled Services w.e.f. May 7, 2018 accordingly, the Company has recognized revenue of Rs. 3667 Million for the year ending March 31, 2024.

Performance obligations and remaining performance obligations

Pursuant to Business transfer agreement entered with Infosys, Company does not have any open contract as on March 31, 2025 and March 31, 2024. Accordingly, Company has not disclosed the remaining performance obligation related disclosure as per Ind AS 115.

## 15. Other income

(In ₹ Millions)		
Particulars	Year ended March 31,	
	2025	2024

### 18.1 Expenditure on Corporate Social Responsibility

As per Section 135 of the Companies Act, 2013, a company, meeting the applicability threshold, needs to spend at least 2% of its average net profit for the immediately preceding three financial years on corporate social responsibility (CSR) activities. A CSR committee has been formed by the company as per the Act. The funds were primarily utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013

Particulars	(In ₹ Millions)	
	2025	2024
a) Amount required to be spent by the company during the year,	19	20
b) Amount of expenditure incurred,	19	20
c) Shortfall at the end of the year,	–	–
d) Total of previous years shortfall,	–	–
e) Reason for shortfall,	–	–
f) Nature of CSR activities, <sup>(1)</sup>	Promoting health care including preventive health care, eradicating hunger, poverty and sanitation programs, promoting education, enhancing vocation skills, rural development.	
g) Details of related party transactions, e.g., contribution to a trust controlled by the parent company in relation to CSR expenditure as per relevant Accounting Standard,	19	–
h) Where a provision is made with respect to a liability incurred by entering into a contractual obligation, the movements in the provision during the year should be shown separately.	–	–

<sup>(1)</sup> Effective January 1, 2022, Infosys Foundation a trust jointly controlled by the KMP of Infosys Limited is a related party. The Company has made contributions to Infosys Foundation to fulfil its corporate social responsibilities. Infosys Foundation supports programs in the areas of education, rural development, healthcare, arts and culture, and destitute care.

## 19. Financial instruments

Set out below, is a comparison by class of the carrying amount and fair value of the Company's financial instruments other than those with carrying amount that are reasonable approximations of fair values:

## As at March 31, 2025

(In ₹ Millions)

Particulars	Note No	Amortized cost	Financial assets/liabilities		Total carrying value	Fair value			
			Fair value through profit and loss	Fair value through other comprehensive income		Level 1	Level 2	Level 3	Total
Assets

Other financial liabilities	11	37	–	–	37	–	–	–	–
Total financial liabilities		58	–	–	58	–	–	–	–

### Notes :-

The carrying value of all the items in the table above have been classified as amortized cost. Amortized cost is deemed to be the carrying value.

### Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## 20. Financial risk management

The Company's principal financial liabilities comprise Trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents and other bank balances that derive directly from its operations.

The Company's activities exposes it to market risk, credit risk and liquidity risk.

### (a) Risk management framework

The Company's risk management is carried out by the management under the policies approved by the Board of Directors that help in identification, measurement, mitigation and reporting all risks associated with the activities of the Company. These risks are identified on a continuous basis and assessed for the impact on the financial performance. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

### (b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, trade receivables, trade payables, deposits and investments.

#### (i) Foreign Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

#### (ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any debt and hence does not carry any interest rate risk.

### (c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to the

credit risk from its trade receivables, unbilled revenue, cash and cash equivalents and bank deposits. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

#### (i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a credit evaluation before entering into an arrangement. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company considers the credit risk with respect to trade receivables as low, since majority of the customers are parties with good repute and are regular in discharging their obligation within the credit period provided by the Company. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information

Expected credit loss for the years ended March 31, 2025 and 2024 is nil."

#### (ii) Financial instrument and cash deposit

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The company does not expect any losses from nonperformance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors.

### (d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2025.

(In ₹ Millions)				
Particulars	Less than 1 year	1 to 5 Years	More than 5 years	Total
Trade payables	4	–	–	4
Other financial liabilities	–	–	–	–
	4	–	–	4

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2024.

Particulars	(In ₹ Millions)			Total
	Less than 1 year	1 to 5 Years	More than 5 years	
Trade payables	21	–	–	21
Other financial liabilities	37	–	–	37
	58	–	–	58

## Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

## 21. Commitments and contingencies

### A. Contingent liabilities

Particulars	(In ₹ Millions)	
	As at March 31, 2025	2024
Non-payment of service tax on secondment services for FY 2013-14 & FY 2014-15 (refer note below)	–	8
Total	–	8

Note: The Company has received an order dated April 20, 2023 from the Joint Commissioner of Central Tax for the non-payment of Service tax for financial year 2013-14 and 2014-15 with respect to the services received from their overseas associated company in respect of secondment of the employees and the payments made to such Company along with applicable interest and penalty. As advised by the Company's Tax consultant, the Company has not recorded provision in the books of accounts in FY 2023-24 and the same has been considered as a contingent liability in accordance with Ind AS 37- Provisions, Contingent Liabilities and Contingent Assets. Further, an appeal dated July 03, 2023 is filed with the Department for the Financial year 2014-15

### a. Gratuity and Compensated Absences

The following table sets out the details of the defined benefit retirement plans and the amounts recognized in the standalone financial statements as at March 31, 2025 and March 31, 2024:

Particulars	(In ₹ Millions)			
	Gratuity		Compensated Absences	
	2025	2024	2025	2024
Change in benefit obligations				
Benefit obligations at the beginning	–	291	–	172
Service cost	–	27	–	39
Interest expense	–	8	–	3
Past service cost - plan amendments	–	–	–	42
Transfer	–	(293)	–	(156)

with a deposit of INR 3 Million. The Company has also paid a deposit of INR 0.12 Million for the Financial year 2013-14. Further, a personal hearing was granted to the company on November 12, 2024 followed by a rejection order on January 23, 2025. The Company is evaluating to file an appeal before the CESTAT to obtain relief of the service tax demanded.

## 22. Employee Benefits

### Superannuation

The Company makes Superannuation Fund contributions, which are defined contribution plans, for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. As at March 31, 2025 the Company has made NIL Contribution (Rs. 67 Million for the year ended March 31, 2024) for Superannuation Fund contributions.

### Provident Fund

The Company makes Provident Fund contributions which are defined contribution plans, for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. As at March 31, 2025 the Company has made NIL Contribution (Rs. 89 Million for the year ended March 31, 2024) for Provident Fund contributions.

### Compensated absences

The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date.

Particulars	Gratuity	Compensated Absences		
	2025	2024	2025	2024
Remeasurements - Actuarial (gains)/ losses	-	(1)	-	27
Employee contribution	-	-	-	-
Benefits paid	-	(32)	-	(127)
Translation difference	-	-	-	-
Benefit obligations at the end	-	-	-	-
Change in plan assets	-	-	-	-
Fair value of plan assets at the end	-	-	-	-
Funded status	-	-	-	-
Defined benefit plan asset	-	-	-	-
Defined benefit plan liability	-	-	-	-

The amount for the year ended March 31, 2025 and March 31, 2024 recognized in the Statement of Profit and Loss under employee benefit expense are as follows:

(In ₹ Millions)

Particulars	Gratuity		Compensated Absences	
	2025	2024	2025	2024
Service cost	–	27	–	39
Net interest on the net defined benefit liability/asset	–	8	–	3
Actuarial (gain)/loss	–	–	–	42
Net cost	–	35	–	84

The amount for the year ended March 31, 2025 and March 31, 2024 recognized in the Statement of Other Comprehensive Income are as follows:

(In ₹ Millions)

Particulars	Gratuity	Compensated Absences		
	2025	2024	2025	2024
Remeasurements of the net defined benefit liability/ (asset)				
Actuarial (gains) / losses	-	(1)	-	27
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	-	-	-	-
	-	(1)	-	27

The weighted-average assumptions used to determine benefit obligations as at March 31, 2025 and March 31, 2024 are set out below:

Particulars	Gratuity		Compensated Absences	
	2025	2024	2025	2024
Discount Rate <sup>(1)</sup>	–	7.29%	–	7.29%
Weighted average rate of increase in compensation levels <sup>(2)</sup>	–	8.50%	–	8.50%
Weighted average duration of defined benefit obligation <sup>(3)</sup>	–	18.00%	–	18.00%

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2025 and March 31, 2024 are set out below:

Particulars	Gratuity		Compensated Absences	
	2025	2024	2025	2024
Discount rate	–	7.29%	–	7.29%
Weighted average rate of increase in compensation levels	–	8.50%	–	8.50%

<sup>(2)</sup> The average rate of increase in compensation levels is determined by the Company, considering factors such as, the Company's past compensation revision trends, inflation in respective markets and management's estimate of future salary increases.

<sup>(3)</sup> Attrition rate considered is the management's estimate based on the past long-term trend of employee turnover in the Company. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life which reflects the average estimated term of post-employment benefit obligation.

The Company assesses all the above assumptions with its projected long-term plans of growth and prevalent industry standards.

## 23. Related party transactions

Details of related parties:

**Note:**

- (i) The Company accounts for costs incurred by / on behalf of the Holding Company based on the actual invoices / debit notes raised and accruals as confirmed by the Holding Company. The Holding Company has confirmed to the Management that as at March 31, 2025, there are no further amounts payable to / receivable from them, other than as disclosed above. The Company incurs certain costs on behalf of the Holding Company. These costs have been allocated / recovered from the Holding Company on a basis mutually agreed to with the Holding Company.
- (ii) The information relating to related parties has been determined to the extent such parties have been identified on the basis of information provided by the Company, which has been relied upon by auditors.

**24. Segment Reporting**

The company's operations predominantly relates to providing IT Support Services to Danske Bank A/S, Denmark. Based on the 'management approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment reporting.

(In ₹ Millions)			
Geographical Segment	Revenue	Segment assets	Capital expenditure incurred
India	-	-	-
	(160)	(783)	(1)
Denmark	-	-	-
	(3,507)	-	-
Unallocated balances (Refer Note (i) below)	-	-	-
	-	(72)	-
Total	-	-	-
Previous year	3,667	855	1

(\*) the balances included in brackets represent previous year balances.

**Note:**

- (i) Unallocated assets represent advance taxes and deferred tax balances, which do not represent segment assets.

**25. Earnings per share**

Particulars	Year ended March 31,	
	2025	2024
Basic and Diluted		
Profit for the year (In ₹ Millions)	(49)	539
Weighted average number of equity shares outstanding	3,27,789	3,27,789
Basic earnings per equity share	(151)	1,644
Diluted earnings per equity share	(151)	1,644

## 26. Summary of variance in ratio

Ratio	Numerator	Denominator	For the year ended March 31,		Variance (%)	Explain Reason for Variance if above 25%
			2025	2024		
Current Ratio	Current Assets	Current Liabilities	100.0	12.4	709%	Refer to Note 1
Debt-Equity Ratio,	Total Debt	Total Shareholders Equity	NA	NA	NA	NA
Debt Service Coverage Ratio	Earnings available for Debt Service	Debt Service	NA	NA	NA	NA
Return on Equity Ratio	Net Profit After Tax	Average Shareholders Equity	(6%)	31%	(121%)	Refer to Note 4
Inventory turnover ratio	COGS or Sales	Average inventory	NA	NA	NA	NA
Trade Receivables turnover ratio	Net Credit Sales	Average Accounts receivable	(0.0)	8.4	(100%)	Refer to Note 1
Trade payables turnover ratio	Net Credit Purchases	Average Trade Payables	NA	NA	NA	NA
Net capital turnover ratio	Net Sales	Average Working Capital	(0.00)	2.3	(100%)	Refer to Note 2
Net profit ratio	Net Profit After Tax	Total Income	(163%)	15%	(1163%)	Refer to Note 4
Return on Capital employed	Earning before Interest and Tax	Capital Employed	(6%)	82%	(107%)	Refer to Note 3

### Note 1:

The current ratio has increased when compared to previous year as the payables to Infosys Limited has been paid.

### Note 2:

The Net Capital turnover ratio has decreased due to negative revenue in FY 2024-25. There is no business in FY 2025 post acquisition in FY 2024 followed by business transfer.

### Note 3:

The decrease in Return on Capital employed is primarily due to lower EBIT in FY 2024-25. There is no business in FY 2025 post acquisition in FY 2024 followed by business transfer.

### Note 4:

The decrease in Net profit ratio is due to lower Net profit in current year. There is no business in FY 2025 post acquisition in FY 2024 followed by business transfer.

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

(iv) The Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the company shall

(a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or

(b) provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(v) The Company does not have any transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).

(vi) The Company has not entered into any transactions involving Crypto currency or Virtual currency during the financial year.

28. Proper books of account as required by law have been kept by the Company, and such books of accounts are maintained in electronic mode, in a server physically located in India.

## 27. Additional Regulatory Information

## Infosys Austria GmbH

# Independent Auditor's Report

To the Members of Infosys Austria GMBH

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS AUSTRIA GMBH ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Company overview and significant accounting policies

## Company overview

Infosys Austria GmbH ("Infosys Austria" or "the Company") is a wholly-owned subsidiary of Infosys Limited. The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose consolidated financial statements are prepared for inclusion in the annual report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act, 2013, and for issuing Annual Performance Report (APR), which is required to be furnished by the holding company, to the authorized bank in accordance with Regulation 10 of the Foreign Exchange Management (Overseas Investment) Regulations.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Euro.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions. These estimates and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property,

plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment <sup>(1)</sup>	3-5 years
-----------------------------------	-----------

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment are capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

### 1.6 Financial instruments

#### 1.6.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.6.2 Subsequent measurement

##### a. Non-derivative financial instruments

###### (i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

###### (ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that

are solely payments of principal and interest on the principal amount outstanding.

### (iii) Financial assets at fair value through profit or loss

A financial asset that is not classified in any of the above categories is subsequently fair valued through profit or loss.

### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.7 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.8 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenues, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECL are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of ECL (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of Profit and Loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not

exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.9 Foreign currency

### Functional currency

The functional currency of the Company is the Euro (EUR).

### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss and reported within exchange gains / (losses) on translation of assets and liabilities. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.10 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

### 1.11 Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.12 Other income

Other income primarily comprises interest income and exchange gain / loss on translation of other assets and liabilities. Interest Income is recognised using effective interest method.

### 1.13 Borrowing costs

Borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In €)		
Particulars	Computer equipment	Total
Gross carrying value as of January 1, 2024	7,536	7,536
Additions	96,798	96,798
Deletions	–	–
Gross carrying value as of December 31, 2024	104,334	104,334

Carrying value as of December 31, 2023	3,039	3,039
Carrying value as of January 1, 2023	4,365	4,365

## 2.2 Leases

### Accounting policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right-of-use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and right-of-use asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Following are the changes in the carrying value of right of use assets for the year ended December 31, 2024:

(In €)			
Particulars	Category of ROU asset		Total
	Computer	Buildings	
Balance as of January 1, 2024	354,477	2,679	357,157
Additions	710,853	6,453	717,306
Deletion	(642,307)	–	(642,307)
Depreciation	(129,721)	(3,505)	(133,226)
Balance as of December 31, 2024	293,302	5,627	298,929

The changes in the carrying value of right of use assets for the year ended December 31, 2023 were as follows:

(In €)			
Particulars	Category of ROU asset		Total
	Computer	Buildings	
Balance as of January 1, 2023	190,946	3,582	194,528
Additions	433,584	1,842	435,426
Deletion	(200,270)	–	(200,270)
Depreciation	(69,783)	(2,744)	(72,527)
Balance as of December 31, 2023	354,477	2,679	357,157

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at December 31, 2024 and December 31, 2023:

(In €)		
Particulars	As at December 31,	
	2024	2023
Current lease liabilities	155,047	85,089
Non-current lease liabilities	564,745	469,345
Total	719,792	554,434

The movement in lease liabilities during the years ended December 31, 2024 and December 31, 2023 is as follows:

(In €)		
Particulars	For the year ended December 31,	
	2024	2023
Balance at the beginning	554,434	214,383
Additions	255,716	435,426
Finance cost accrued during the period	(22,743)	9,671
Payment of lease liabilities	(67,615)	(105,046)
Balance at the end	719,792	554,434

The details regarding the contractual maturities of lease liabilities as at December 31, 2024 and December 31, 2023 on an undiscounted basis are as follows:

(In €)		
Particulars	As at December 31,	
	2024	2023
Less than one year	152,179	163,140
One to five years	567,613	403,994
Total	719,792	567,134

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.3 Other assets

(In €)		
Particulars	As at December 31,	
	2024	2023
Non-current		
Investment in lease	-	213,802
Total other non-current assets	-	213,802
Current		
Others		
Withholding taxes and others	1,271,920	808,237
Total current other assets	1,271,920	808,237

## 2.7 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

(In €)		
Particulars	As at December 31,	
	2024	2023
Assets		
Cash and cash equivalents (Refer to Note 2.5)	959,573	802,446
Trade receivables (Refer to Note 2.4)	257,227	75,538
Other financial assets (Refer to Note 2.6) <sup>(1)</sup>	1,655,993	854,843
Total	2,872,793	1,732,828
Liabilities		
Trade payables (Refer to Note 2.11)	103,553	130,289
Borrowings (Refer to Note 2.9)	528,578	468,966
Lease liabilities (Refer to Note 2.2)	719,792	554,434
Other financial liabilities (Refer to Note 2.10)	2,477,317	1,350,686
Total	3,829,240	2,504,374

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

All the above financial instruments are carried at amortised cost and the carrying values approximates their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: Market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign-exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

The Company operates internationally, and a major portion of the business is transacted in several currencies and consequently, the Company is exposed to foreign exchange risk through its sales and services in Europe and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates / depreciates against these currencies.

The foreign currency risk from financial assets and liabilities as at December 31, 2024 is as follows:

(In €)	
Particulars	EURO
Net financial assets	(22,006)
Net financial liabilities	(21,191)
Total	(43,197)

The foreign currency risk from financial assets and liabilities as at December 31, 2023 was as follows:

(In €)	
Particulars	EURO
Net financial assets	(24,270)
Net financial liabilities	(572,981)
Total	(597,251)

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to €257,227 and €75,538 as at December 31, 2024 and December 31, 2023, respectively, and unbilled revenue amounting to €694,191 and €742,833 as at December 31, 2024 and December 31, 2023, respectively. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances;

and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by credit rating agencies.

## Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents. The Company has taken loans from its related party to meet its working capital requirements.

As of December 31, 2024 and December 31, 2023, the Company had cash and cash equivalents of €959,573 and €802,446.

## 2.8 Equity

### Equity share capital

(In €)

Total financial liabilities	2,477,317	1,350,686
<sup>(1)</sup> Financial liability carried at amortized cost	2,477,317	1,350,686
<sup>(2)</sup> Includes dues from holding company and other fellow subsidiaries (Refer to Note 2.18)	2,365,977	129,660
<sup>(3)</sup> Deferred contract cost in Note 2.3 includes technology assets taken over by the Company from a customer as a part of a transformation project, which is not considered as distinct goods or services and the control related to the assets is not transferred to the Company in accordance with Ind AS 115, Revenue from Contracts with Customers. Accordingly, the same has been considered as a reduction to the total contract value and accounted as deferred contract cost. The Company has entered into a financing arrangement with a third party for these assets, which have been considered as financial liability.		

## 2.11 Trade payables

(In €)		
Particulars	As at December 31,	
	2024	2023
Trade payables <sup>(1)</sup>		
Total outstanding dues of micro enterprises and small enterprises	–	–
Total outstanding dues of creditors other than micro enterprises and small enterprises	103,553	130,289

<sup>(1)</sup> Includes dues from holding company and other fellow subsidiaries	20,713	14,087

The trade payables ageing schedule for the years ended December 31, 2024 and December 31, 2023 is as follows:

(In €)

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Others	70,016	33,537	–	–	–	103,553
	94,493	35,796	–	–	–	130,289
Total trade payables	70,016	33,537	–	–	–	103,553

## 2.12 Other liabilities

(In €)

Particulars	As at December 31,	
	2024	2023
Current		
Unearned revenue	28,309	26,748
Others		
Withholding taxes and others	1,126,911	708,891
	1,155,220	735,639

## 2.13 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

(In €)

Particulars	Year ended December 31,	
	2024	2023
Current taxes	1,750	8,336
Prior Year taxes – current	1,750	–
Prior year taxes – deferred	(12,041)	–
Deferred taxes	1,507	(47,236)
Income tax expense	(7,034)	(38,900)

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is as follows:

(In €)

Particulars	Year ended December 31,	
	2024	2023
Profit before income taxes	(12,284)	(196,815)
Enacted tax rates in Austria	23.00%	24.00%
Computed expected tax expense	(2,825)	(47,236)
Prior year tax expenses	(10,291)	–
Tax provision / reversals	–	8,336
Effective non-deductible expenses	–	–
Minimum tax	1,750	–
Others	4,332	–
Effect of unrecognized deferred tax assets	–	–
Deferred tax on accumulated losses	–	–
Income tax expense	(7,034)	(38,900)

The applicable Austria statutory tax rate for the years ended December 31, 2024 and December 31, 2023 are 23% and 24%.

The details of income tax assets and income tax liabilities are as follows:

(In €)

	As at December 31	
	2024	2023
Income tax assets	19,243	40,250
Current income tax liabilities	1,750	1
Net current income tax assets / (liability) at the end	17,993	40,249

The gross movement in the current income tax asset / (liability) for the year ended is as follows:

(In €)

	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	40,249	45,545
Income tax paid	500	(5,296)
Prior year set off entries	(21,006)	–
Current income tax expense	(1,250)	–
Net current income tax asset / (liability) at the end	18,493	40,249

The movement in gross deferred income tax assets and liabilities for the year ended December 31, 2024 is as follows:

(In €)

Particulars	Carrying value as on January 1, 2024	Changes through profit and loss	Carrying value as on December 31, 2024
Deferred income tax assets / (liabilities)			
Accumulated losses	103,976	10,534	114,511
Total deferred income tax assets / (liabilities)	103,976	10,534	114,511

The movement in gross deferred income tax assets and liabilities for the year ended December 31, 2023 is as follows:

(In €)			
Particulars	Carrying value as on January 1, 2023	Changes through profit and loss	Carrying value as on December 31, 2023
Deferred income tax assets / (liabilities)			
Accumulated losses	103,976	–	103,976
Total deferred income tax assets / (liabilities)	103,976	–	103,976

## 2.14 Revenue from operations

(In €)		
Particulars	Year ended December 31,	
	2024	2023
Income from software services	2,353,664	1,416,101
Total revenue from operation	2,353,664	1,416,101

## Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon the passage of time. Revenue for time-and-material contracts are recognized as related service are performed. Revenue for fixed-price maintenance contracts is recognized on a straight-line basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon the passage of time.

Revenue recognition for fixed-price development contracts is based on the percentage-of-completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed-price development contracts (contract asset) is classified as non-financial asset as the contractual right to consideration is dependent on the completion of contractual milestones.

Invoicing in excess of earnings is classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

During the years ended December 31, 2024 and December 31, 2023, the Company recognized revenue of €1,906 and nil arising from opening unearned revenue as of January 1, 2024 and January 1, 2023, respectively.

## Remaining performance obligation disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized

as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance-obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit-of-work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that have not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is €10,000. Out of this, the Company expects to recognize revenue of around 100% within the next one year and the remaining thereafter.

## 2.15 Other income

(In €)		
Particulars	Year ended December 31,	
	2024	2023
Miscellaneous income, net	58,046	31,923
Exchange gains / (losses) on foreign currency forward and options contracts	(43,084)	7,214
Total other income	14,962	39,137

## 2.19 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108.

## 2.20 Ratios

The ratios for the years ended March 31, 2024 and March 31, 2023 are as follows:

Particulars	Numerator	Denominator	March 31, 2024	March 31, 2023	Variance
Current Ratio	Current assets	Current liabilities	0.83	0.93	(10.5%)
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	89.01	53.09	67.6% *
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	2.81	(0.27)	1147.3% **
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	(0.32)	(1.61)	80.4% ***
Trade receivables turnover ratio	Revenue	Average Trade Receivable	14.15	2.95	380.0% ****

Particulars	Numerator	Denominator	March 31, 2024	March 31, 2023	Variance
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	18.34	11.41	60.8% #
Net capital turnover ratio	Revenue	Working Capital	(13.69)	(7.26)	(88.4%) ##
Net profit ratio	Net Profit	Revenue	(0.00)	(0.14)	98.4% ###
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(4)</sup>	0.06	(0.28)	121.8% ####

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net profit after taxes + non-cash operating expenses + interest + other adjustments like loss on sale of fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + lease liabilities

\* Debt-equity ratio has increased due to increase in lease liability.

\*\* Debt service coverage ratio has decreased due to increase in losses.

\*\*\* Return on Equity ratio has decreased due to increase in losses.

\*\*\*\* Trade receivables turnover ratio has increased due to increase in revenue.

# Trade payable turnover ratio has increased due to increase in purchase of services.

## Net capital turnover ratio has increased due to increase in revenue.

### Net profit ratio has decreased due to increase in losses.

#### ROCE has decreased due to increase in losses.

## Panaya Germany GmbH

# Independent Auditor's Report

To the Members of Panaya Germany GmbH

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Panaya Germany GmbH ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's board of directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's board of directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Panaya Germany GmbH ('the Company') is a wholly-owned subsidiary of Panaya Inc., USA. The Company develops and markets solutions for ERP systems, by identifying the changes to the ERP system through automated analysis.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the Ultimate holding company Infosys Limited under the requirements of Section 129(3) of the Companies Act 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is the EURO (€).

### 1.4 Use of estimates

The preparation of the financial statements, in conformity with Ind AS, requires the Management to make estimates and assumptions that affect the accounting policies, reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements, and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period-to-period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates allowance for credit losses, future obligations under employee benefit plans, income taxes, and the useful lives of property, plant and equipment.

### 1.5 Revenue recognition

The Company derives its revenue principally from the sale of its ERP systems analysis services including activation and monthly service fees. Revenues from services are recognized as services are performed or on a straight-line basis if service is ongoing.

Revenue is recognized provided if arrangement (usually in the form of a purchase order) exists, the fee is fixed and determinable and collection is reasonably assured. If uncertainties exist, revenue is recognized when the uncertainties are resolved.

Revenue from fixed-price, fixed-timeframe contracts with the performance obligations satisfied over time and no uncertainty regarding measurement or collectability of consideration, revenue is recognized using the percentage-of-completion method.

Revenue recognition is deferred until uncertainty about measurement or ultimate collectability is resolved. Progress is measured by efforts or costs expended, as there is a direct relationship between input and productivity.

Revenue from licenses where the customer obtains a 'right to use' licenses is recognized when the license is made available to the customer. Revenue from licenses where the customer obtains a 'right to access' is recognized over the access period. Arrangements to deliver software products generally have three elements: License, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement, and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost-plus-margin approach. Where the license requires substantial customization as part of the implementation service, the entire arrangement fee for license and implementation is considered as a single performance obligation, and the revenue is recognized using the percentage-of-completion method as the implementation. Revenue from client training, support and other services arising from the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the period in which the services are rendered.

### Deferred Contract Cost

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

### Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

## Tax

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

### 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment	3-5 years
Furniture and fixtures	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at the end of each financial year.

Based on technical evaluation, the Management believes that the useful lives, as given above, best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives prescribed under Part C of Schedule II of the Companies Act, 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these flow to the Company, and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

## 1.8 Financial instruments

### 1.8.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted at trade date.

### 1.8.2 Subsequent measurement

#### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset to collect contractual cash flows. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of the principal and interest on the outstanding principal amount.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income, if it is held within a business model, whose objective is achieved by both collecting contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of the principal and interest on the outstanding principal amount.

##### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair-valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.9 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

### 1.10 Impairment

#### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair-valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

#### b. Non-financial assets

##### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability when events or changes in circumstances indicate that their

carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU (cash-generating units) to which the asset belongs.

Such assets considered to be impaired are recognized in the Statement of Profit and Loss, measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss, if there is a change in the estimated recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation), had no impairment loss been recognized for the asset in prior years.

### 1.11 Employee benefits

#### Compensated absences

The Company has a policy on accumulating and non-accumulating compensated absences. The expected cost of accumulating compensated absences is determined through actuarial valuation using the projected unit credit method is performed by an independent actuary based on the additional amount expected to be paid or availed due to unused entitlements accumulated as of the Balance Sheet date. Expense of non-accumulating compensated absences is recognized in the period in which the absences occur.

### 1.12 Foreign currency

#### Functional currency

The functional currency of the Company is the EURO (€).

#### Transactions and translations

Foreign currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value is determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transactions are settled. Revenue, expense and cash flows denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

For assets and liabilities, the translation of financial statements from functional currency to the presentation currency is performed at the exchange rate as of the Balance Sheet date. For revenue, expense and cash flows, the average exchange rate for the respective periods is used. The resulting translation gains or losses are included in exchange differences in translation under other components of equity.

### 1.13 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax for current and previous periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted, or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities, and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted, or substantively enacted by the Balance Sheet date, and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry forward period are reduced.

### 1.14 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing, and financing activities of the Company are segregated.

### 1.15 Other income

The Company has adopted Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset,

expense or income when an entity has received or paid advance consideration in a foreign currency. The effect on account of adoption of this amendment was insignificant.

### 1.16 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.17 Transfer of business from Infosys Financial Services GmbH

On January 5, 2023, the Board of Directors of Panaya Germany GmbH authorized the Company to execute a business transfer agreement and related documents with Infosys Financial Services GmbH a wholly-owned subsidiary of Panaya Inc. to transfer business for a consideration based on an independent valuation. Accordingly, on January 31, 2023, the Company

entered into a business transfer agreement to transfer the business of Infosys financial services GmbH to Panaya Germany GmbH for a consideration of €182,000 on securing the requisite approval. The resulting impact due to business transfer was recorded in business transfer adjustment during the fiscal year December 2023.

The details of assets and liabilities taken over upon business transfer are as follows:

In €	
Particulars	Amount
Net assets / (liabilities), others	(219,468)
Total	(219,468)
Less: Consideration payable	(182,000)
Business transfer reserve	(401,468)

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024, are as follows:

In €			
Particulars	Computer equipment	Furniture and fixtures	Total
Gross carrying value as of January 1, 2024	26,821	1,271	28,092
Additions	2,122	-	2,122

Unearned revenue	1,013,373	1,263,261
Total current other liabilities	1,026,162	1,378,724

## 2.9 Revenue from operations

Particulars	In €	
	Years ended December 31	
	2024	2023
Revenue from products and platforms	2,313,260	1,362,474
Total revenue from operations	2,313,260	1,362,474

### Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables either as a receivable or unbilled revenue.

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers.

Trade receivables are presented net of impairment in the Balance Sheet.

## Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation about when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation-related disclosures for contracts (typically those contracts where invoicing is on time and material basis) where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date. The remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revaluations, adjustment for revenue that has not materialized and adjustments for currency.

### Disaggregate revenue information

The disaggregated revenues from contracts with customers for the years ended December 31, 2024 and 2023 by geography are as follows:

Particulars	In €	
	Years ended December 31,	
	2024	2023
<b>Revenues by geography <sup>(1)</sup></b>		
EMEA	2,313,260	1,362,474
Total revenue	2,313,260	1,362,474

<sup>(1)</sup> Geographical revenue is based on the domicile of customer

## 2.10 Other income

Particulars	In €	
	Years ended December 31	
	2024	2023
Exchange gain/ (loss) of assets and liabilities	2,269	57
Total other income	2,269	57

## 2.11 Expenses

Particulars	In €	
	Years ended December 31	
	2024	2023
<b>Employee benefit expenses</b>		
Salaries including bonus	942,701	833,276
Staff welfare	2,632	1,945
Total employee benefit expenses	945,333	835,221
<b>Cost of technical sub-contractors</b>		
Technical sub-contractors - subsidiaries	1,075,680	325,078
Total cost of technical sub-contractors	1,075,680	325,078

Bank Charges	3,003	3,231
Commission charges	–	(6,210)
Others	903	434
Total other expenses	49,423	35,972

## 2.12 Income taxes

Income tax expense in the statement of profit and loss comprises:

Particulars	As at December 31,	
	2024	2023
Current taxes	34,476	3,118
Deferred taxes	8,699	(121,779)
Income tax expense	43,175	(118,661)

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

Particulars	As at December 31,	
	2024	2023
Profit before income taxes	102,372	36,482
Enacted tax rates in Germany	32.50%	32.50%
Computed expected tax expense	33,271	11,857
Tax provision/ (reversals)	9,048	–
Effect of non-deductible expense	8,699	(121,779)
Others	(7,843)	(8,739)
Income tax expense	43,175	(118,661)

The applicable statutory tax rate in Germany for years ending December 31, 2024 and 2023 is 32.50%.

## 2.13 Financial instruments

### Financial instruments by category

The carrying value of financial instruments as of December 31, 2024 and 2023 are as follows:

Particulars	Carrying value as on December 31	
	2024	2023
Assets:		
Cash and cash equivalents (Refer to Note 2.3)	1,103,123	439,430
Trade receivables (Refer to Note 2.2)	140,332	400,092
Other financial assets (Refer to Note 2.4)	–	485,201
Total	1,243,455	1,324,723
Liabilities:		
Trade payables (Refer to Note 2.6)	380,966	147,875
Other financial liabilities (Refer to Note 2.7)	72,993	114,176
Total	453,959	262,051

All the above financial instruments are carried at amortized cost and the carrying values approximate their fair value.

### Financial risk management

#### Financial risk factors

The Group's activities expose it to a variety of financial risks: Market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and minimize potential adverse effects on its financial performance. The primary market risk for the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to € 140,332 and € 885,293 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers primarily located in the EMEA region. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. By virtue of Ind AS 109, the Company uses the expected credit loss model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix considers available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

The details of the revenue percentage generated from top customers and top five customers :

Particulars	In %	
	Years ended December 31,	
	2024	2023
Revenue from top customer	10.6%	12.8%
Revenue from top five customers	40.6%	50.7%

#### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the years ended December 31, 2024 and 2023 is nil and nil, respectively.

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

#### Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of December 31, 2024, the Company had a working capital of € 287,031 including cash and cash equivalents of € 1,103,123. As of December 31, 2023, the Company had a working capital of € 351,391 including cash and cash equivalents of € 439,430.

As of December 31, 2024 and December 31, 2023, the outstanding compensated absences were € 22,662 and € 35,339, respectively.

The details regarding the contractual maturities of significant financial liabilities as of December 31, 2024 are as follows:

Particulars	In €				
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	380,966	–	–	–	380,966
Other financial liabilities	72,993	–	–	–	72,993

The details regarding the contractual maturities of significant financial liabilities as of December 31, 2023 are as follows:

Particulars	In €				
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	147,875	–	–	–	147,875
Other financial liabilities	114,176	–	–	–	114,176

## 2.15 Segment reporting

The Company is engaged in developing and marketing solutions in a single geography. Based on the Management approach defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on analysis of performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## Infosys Financial Services GmbH

# Independent Auditor's Report

To the Members of Infosys Financial Services GMBH

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS FINANCIAL SERVICES GMBH ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Financial Services GmbH (the Company), formerly, Panaya GmbH, is a wholly-owned subsidiary of Infosys Singapore Pte. Ltd. The Company develops and markets solutions for ERP systems by identifying the changes on the ERP system through automated analysis.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the ultimate holding company, Infosys Limited, under the requirements of Section 129 (3) of the Companies Act 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is the Indian Rupee.

### 1.4 Use of estimates

The preparation of the financial statements, in conformity with Ind AS, requires the Management to make estimates and assumptions that affect the accounting policies, the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements, and the reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates allowance for credit losses, future obligations under employee benefit plans, income taxes, and the useful lives of property, plant and equipment.

## 1.5 Revenue recognition

The Company derives its revenue principally from its ERP systems analysis services, including activation and monthly service fees. Revenues from services are recognized as services are performed or on a straight-line basis if service is ongoing. Revenue is recognized provided that arrangement (usually in the form of a purchase order) exists, the fee is fixed and determinable and collection is reasonably assured. If uncertainties exist, revenue is recognized when the uncertainties are resolved.

Effective Jan 1, 2019, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as at Jan 1, 2019. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The following is a summary of new and/or revised significant accounting policies related to revenue recognition.

Revenue is recognized upon the transfer of control of promised products or services to customers, in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenue from licenses where the customer obtains a "right to use" the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a "right to access" is recognized over the access period. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The Company has applied the principles under Ind AS 115 to account for revenues from these performance obligations. When implementation services are provided in conjunction with the licensing arrangement and the license and implementation have been identified as two separate performance obligations, the transaction price for such contracts are allocated to each performance obligation of the contract based on their relative standalone selling prices. In the absence of standalone selling price for implementation, the performance obligation is estimated using the expected cost plus margin approach. Where the license is required to be substantially customized as part of the implementation service the entire arrangement fee for license and implementation is considered to be a single performance obligation and the revenue is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the performance obligations are satisfied. ATS revenue is recognized ratably over the service period.

### Deferred contract cost

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets, amortized over the term of the contract.

### Contract modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional

### Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

## 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## 1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Computer equipment	3-5 years
Furniture and fixtures	5 years

Depreciation methods, useful lives, and residual values are reviewed periodically, including at the end of each financial year.

Based on technical evaluation, the Management believes that the useful lives, as given above, best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives prescribed under Part C of Schedule II of the Companies Act, 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under 'Other non-current assets', and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these flow to the Company, and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the

asset, and the resultant gains or losses are recognized in the Statement of Profit and Loss.

## 1.8 Financial instruments

### 1.8.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through Profit or Loss, are added to the fair value on initial recognition. Regular purchase and sale of financial assets are accounted at trade date.

### 1.8.2 Subsequent measurement

#### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of the principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through Other Comprehensive Income, if it is held within a business model whose objective is achieved by collecting contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of the principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair-valued through Profit or Loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.9 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 1.10 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair-valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount required to be recognized is recognized as an impairment gain or loss in profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.11 Employee benefits

### Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid or availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.12 Foreign currency

### Functional currency

The functional currency of the Company is the EURO (€).

### Transactions and translations

Foreign currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses

resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value is determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transactions are settled. Revenue, expense and cash-flow denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements from functional currency to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translations are included in exchange differences on translation under other components of equity.

## 1.13 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax for current and previous periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities, and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted, or substantively enacted by the Balance Sheet date, and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and

projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

#### 1.14 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing, and financing activities of the Company are segregated.

#### 1.15 Other income

The Company has adopted Appendix B to Ind AS 21, Foreign Currency Transactions and Advance Consideration which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency. The effect on account of adoption of this amendment is insignificant.

#### 1.16 Earnings per share

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024, are as follows:

	(In ₹)

Withholding and other taxes payable	8,61,123	15,42,354
Unearned revenue		
Total current other liabilities	8,61,123	15,42,354

## 2.9 Provision

### Accounting Policy

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

#### a. Post-sales client support

The Company provides its clients with a fixed-period post-sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

#### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the

contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Provision for post-sales client support and other provisions

Particulars	(In ₹)	
	As at December 31,	
	2024	2023
Current		
Post-sales client support and others	11,97,157	8,04,890
Total provisions	11,97,157	8,04,890

## 2.10 Income taxes

Income tax expense in the statement of profit and loss comprises

Particulars	(In ₹)	
	As at December 31,	
	2024	2023
Current taxes	3,41,539	1,77,81,031
Deferred taxes	–	–
Income tax expense	3,41,539	1,77,81,031

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

Particulars	(In ₹)	
	As at December 31,	
	2024	2023
Profit before income taxes	1,85,774	3,03,45,907
Enacted tax rates in Germany	32.99%	32.50%
Computed expected tax expense	61,287	98,62,420
Tax provision/(reversals)	–	–
Effect of non-deductible expenses	–	1,15,04,166
Effect of unrecognized deferred tax assets	–	(35,85,555)
Effect of prior period tax expense	2,71,503	–
Income tax expense	3,32,790	1,77,81,031

The applicable statutory tax rate in Germany for year ending December 31, 2024, is 32.99% and December 31, 2023, is 32.50%.

## 2.11 Revenue from operations

Particulars	(In ₹)	
	Years ended December 31	
	2024	2023
Revenue from products and platforms	7,25,58,228	8,68,81,687
Total revenue from operations	7,25,58,228	8,68,81,687

## Trade receivables and contract balances

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers.

Trade receivable are presented net of impairment in the Balance Sheet.

### Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides with the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Group expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. The remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is ₹5,31,77,570.12. Out of this, the Group expects to recognize revenue of around 20% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023, is ₹45,76,534.4. Out of this, the Group expects to recognize revenue of around 66% within the next one year and the remaining thereafter. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

### Disaggregate revenue information

The disaggregated revenues from contracts with customers for the years ended December 31, 2024 and December 31, 2023, by geography are as follows:

Particulars	(In ₹)	
	Years ended December 31,	
	2024	2023
Revenues by geography <sup>(1)</sup>		
EMEA	7,25,58,228	8,68,81,687
Total revenue	7,25,58,228	8,68,81,687

<sup>(1)</sup> Geographical revenue is based on the domicile of customer

## 2.12 Other income

Particulars	(In ₹)	
	Years ended December 31	
	2024	2023
Interest received on bank accounts	8,00,141	–
Forex gain/ (loss)	(6,01,321)	4,15,704
Total other income	1,98,820	4,15,704

## 2.13 Expenses

Particulars	(In ₹)	
	Years ended December 31	
	2024	2023
Employee benefit expenses		
Salaries including bonus	–	10,71,045
Staff welfare	–	–
Total employee benefit expenses	–	10,71,045

Particulars	(In ₹)	
	Years ended December 31	
	2024	2023
Other expenses		
Provision for post-sales customer support	4,22,456	7,83,814
Rates and taxes	11,155	2,47,524
Insurance	–	3,85,695
Provision for debtors and doubtful advances	5,35,874	–
Others	2,96,734	58,899
Total other expenses	12,66,218	14,75,932

## 2.14 Financial instruments

### Financial instruments by category

The carrying value of financial instruments as of December 31, 2024 and December 31, 2023, are as follows:

Particulars	(In ₹)	
	Carrying value as on December 31	
	2024	2023
Assets:		
Cash and cash equivalents (Refer to Note 2.3)	4,66,91,799	6,72,50,254
Trade receivables (Refer to Note 2.2)	59,70,121	34,01,215
Other financial assets (Refer to Note 2.4)	5,27,04,276	4,36,64,024
Total	10,53,66,196	11,43,15,493
Liabilities:		
Trade payables (Refer to Note 2.7)	4,68,92,849	5,49,42,419
Other financial liabilities (Refer tp Note 2.8)	–	–
Total	4,68,92,849	5,49,42,419

All the above financial instruments are carried at amortized cost and the carrying values approximates their fair value.

### Financial risk management

#### Financial risk factors

The Group's activities expose it to a variety of financial risks: Market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

The Company operates internationally and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in the Europe and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments, such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Indian Rupee and foreign currencies has fluctuated substantially in recent years and may repeat in the future. Therefore, the results of the Company's operations are adversely affected as the Rupee appreciates or depreciates against these currencies.

#### Market Risk

The foreign currency risk from financial assets and liabilities as at December 31, 2024 and December 2023 are as follows:

Particulars	(In ₹)	
	As at December 31,	
	2024	2023
Trade payable	2,72,60,176	2,61,38,872
Total	2,72,60,176	2,61,38,872

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹ 6,023,732 and ₹ 3,401,215 as of December 31, 2024 and December 31, 2023, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers primarily located in the EMEA region. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. By adopting Ind AS 109, the Company uses expected credit loss (ECL) model to assess the impairment loss or gain. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. The provision matrix takes into account available external and internal credit risk factors such as credit default swap quotes, credit ratings from international credit rating agencies and the Company's historical experience for customers.

## Credit risk exposure

The allowance for lifetime ECL on customer balances for the years ended December 31, 2024 and December 31, 2023, is ₹ 53,611 and nil, respectively.

Credit risk on cash and cash equivalents is limited, as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

## Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of December 31, 2024, the Company had a working capital of ₹ 38,637,978 including cash and cash equivalents of ₹ 46,691,799. As of December 31, 2023, the Company had a working capital of ₹ 39,959,580 including cash and cash equivalents of ₹ 67,250,254.

The contractual maturities of significant financial liabilities as of December 31, 2024, are as follows:

(In ₹)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	4,68,92,849	–	–	–	4,68,92,849
Other financial liabilities	–	–	–	–	–

The details regarding the contractual maturities of significant financial liabilities as of December 31, 2023, are as follows:

(In ₹)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	5,49,42,419	–	–	–	5,49,42,419
Other financial liabilities	–	–	–	–	–

## 2.16 Segment reporting

The Company is engaged in developing and marketing solutions in a single geography. Based on the 'management approach', defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on analysis of performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.17 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	December, 2024	December, 2023	Variance
Current Ratio	Current assets	Current liabilities	1.5	1.1	38.5% *
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	-0.4%	-26.8%	26.4% **
Trade receivables turnover ratio	Revenue	Average Trade Receivable	12.2	25.5	(52.4%) ***
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	1.5	1.0	49.3% ****
Net capital turnover ratio	Revenue	Working Capital	1.9	2.2	(13.6%)
Net profit ratio	Net Profit	Revenue	-0.2%	14.4%	-14.6%
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed <sup>(1)</sup>	0.5%	75.9%	-75.5% *****

<sup>(1)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities

\* Current Assets growth has resulted in an improvement in the ratio.

\*\* Increase in the expenses has resulted in an improvement in the ratio.

\*\*\* Increase in Trade Receivables has resulted in a decrease in the ratio.

\*\*\*\* Increase in Subcontractor Costs has resulted in an improvement in the ratio.

\*\*\*\*\* Decrease in EBIT has resulted in a decrease in the ratio.

## Infosys Norway AS

# Independent Auditor's Report

To the Members of Infosys Infosys Norway AS

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Norway AS ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Company Overview and Significant Accounting Policies

## Company overview

Infosys Norway AS is a wholly-owned subsidiary of Infosys Singapore Pte. Limited (formerly Infosys Consulting Pte. Limited). The Company's objective is to provide, maintain and develop software and provide consultancy services as well as activities related therewith.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January to December.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the holding company, Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Reporting currency

The Company's reporting currency is NOK

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

The Company presents revenues net of value-added taxes in its Statement of Profit and Loss.

### 1.5 Provisions

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 1.6 Intangible assets

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs, which can be capitalized, include the cost of material, direct labor, overhead costs that are directly attributable to preparing the asset for its intended use.

### 1.7 Employee Benefits

#### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using the projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

### 1.8 Foreign currency

#### Functional currency

The functional currency of the Company is the NOK. These financial statements are presented in NOK.

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.9 Income taxes

The tax expense for the period comprises current and deferred tax. Tax is recognized in the statement of profit and loss, except to the extent that it relates to items recognized in the other comprehensive income or directly in equity, respectively.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax basis of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

## 1.10 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from the company's operating, investing, and financing activities are segregated.

## 1.11 Investments

Associates are entities over which the Company has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The Company's investment in associates includes goodwill identified on acquisition.

## 1.12 Revenue

- a. To recognize revenues, the Company applies the following five-step approach:
  - i. Identify the contract with a customer,
  - ii. Identify the performance obligations in the contract,
  - iii. Determine the transaction price,
  - iv. Allocate the transaction price to the performance obligations in the contract, and
  - v. Recognize revenues when a performance obligation is satisfied.
- b. At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgment to determine whether each product or service promised to a customer is capable of being distinct, and is distinct in the context of the contract; if not, the promised products or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligations based on their relative standalone selling price or the residual method. Standalone selling prices are determined based on sale prices for the components when it is regularly sold separately. In cases where the Company is unable to determine the standalone selling price, the Company uses third-party prices for similar

deliverables, or the Company uses the expected cost-plus margin approach in estimating the standalone selling price.

- c. For performance obligations where control is transferred over time, revenues are recognized by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the promised products or services to be provided.

The Company accounts for variable considerations, such as volume discounts, as a reduction of revenue on a systematic and rational basis over the period of the contract. The Company estimates an amount of such variable consideration using the expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Company may be entitled.

- d. The timing of revenue recognition may differ from the timing of invoicing to the customer. The Company classifies its rights to consideration in exchange for deliverables as either accounts receivable or unbilled revenue. Unbilled revenue represents earnings in excess of billings, while unearned income represents billings in excess of earnings.

Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved. In view of the risks associated with the delivery of its services to and the collection of the amounts, the Company considers that it is acting as a principal in these arrangements and, therefore, has recognized the costs and associated revenue on a gross, as opposed to a net basis.

## 1.13 Financial Instruments

### 1.13.1 Financial instruments

#### 1.13.1.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.13.1.2 Subsequent measurement

##### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### (iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair valued through profit or loss.

### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 1.13.2 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses various methods and assumptions based on market conditions and risks at each reporting date. These methods include discounted cash flow analysis, available quoted market prices, and dealer quotes. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

#### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

Particulars	(In NOK)	
	As at December 31, 2024	2023
Assets:		
Cash and cash equivalents (Refer to Note 2.4)	17,123,300	12,768,792
Trade receivables (Refer to Note 2.3)	4,114,786	1,399,230
Total	21,238,087	14,168,023
Liabilities:		
Trade payables (Refer to Note 2.8)	10,563	52,525
Total	10,563	52,525

All the above financial instruments are carried at amortized cost and the carrying values approximates their fair value.

#### Financial risk management

##### Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies, and processes for measuring and managing risk, and the Company's management of capital.

The Board of Directors has the overall responsibility for the Company and oversight of the Company's risk management framework.

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to NOK 4,114,786 and NOK 1,399,230 as at December 31, 2024 and December 31, 2023 respectively. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of the customers to which the Company grants credit terms in the normal course of business. The Company uses the expected credit loss model to assess any required allowances; and uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenues. This matrix takes into account credit reports and other related credit information to the extent available.

Credit risk on cash and cash equivalents is limited as we generally invest in banks with high credit ratings assigned by credit rating agencies.

#### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk mainly relates to trade and other payables and due to a related party. The Company's approach to managing liquidity is to ensure, as far as possible, to maintain sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The company had working capital of NOK 12,683,333 and NOK 967,270 as at December 31, 2024 and December 31, 2023 respectively.

#### Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

The following table analyses the foreign currency risk from financial assets and liabilities as at December 31, 2024 and December 2023:

Particulars	(In NOK)	
	As at December 31, 2024	
	USD	INR
Net Financial Asset	-	22,986
Net Financial Liability	-	(11,495)
Total	-	11,491

Particulars	(In NOK)	
	As at December 31, 2023	
	USD	INR
Net Financial Asset	1,399,230	-
Net Financial Liability	(10,309,517)	(5,884)
Total	(8,910,287)	(5,884)

### Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The majority of the Company's transactions are conducted in NOK and USD.

### Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk.

### Capital management

The Board of Directors' policy is to maintain a strong capital base as to maintain shareholders, creditors, and market confidence and to sustain future development of the business. There were no changes in the Company's approach to capital management during the years.

## 2.1 Leases

### Accounting Policy

The Company's lease asset classes consist of leases for buildings. The Company assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU assets") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined as Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost using the effective interest rate method at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, incremental borrowing rates in the countries of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The changes in the carrying value of right-of-use assets for the year ended December 31, 2024 are as follows:

Particulars	(In NOK)
	Buildings
Balance as of January 1, 2024	-
Additions	2,994,377
Deletions	-
Depreciation	1,498,884
Balance as of December 31, 2024	1,495,493

The break-up of current and non-current lease liability as at December 31, 2024, and December 31, 2023 is as follows:

Particulars	(In NOK)	
	As at December 31,	
	2024	2023
Current Lease Liability	1,400,419	-
Non-current Lease Liability	1,379,330	-
Total	2,779,749	-

The movement in lease liability during the year ended December 31, 2024 is as follows:

(In NOK)		
Particulars	As at December 31,	
	2024	2023
Balance as of January 1, 2024	–	–
Additions	2,994,377	–
Deletions	–	–
Interest accrued during the period	96,043	–
Lease Payments	(1,690,000)	–
Translation differences	–	–
Balance as of December 31, 2024	1,400,419	–

The details regarding the contractual maturities of lease liabilities on the undiscounted basis as at December 31, 2024, are as follows:

(In NOK)		
Particulars	As at December 31,	
	2024	2023
Less than one year	2,779,749	–
One to five years	–	–
More than five years	–	–
Total	2,779,749	–

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

The aggregate depreciation on ROU assets has been included under depreciation and amortization expense in the Statement of Profit and Loss.

## 2.2 Income taxes

### Accounting Policy

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in the condensed Statement of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of the branches where it is expected that the earnings of the branches will not be distributed in the foreseeable future. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Income tax expense in the statement of profit and loss comprises:

(In NOK)		
Particulars	As at December 31,	
	2024	2023
Current tax	713,099	–
Deferred tax credit/(expense)	(1,030,843)	–
Income tax expense	(317,744)	–

The entire deferred income tax for the year ended December 31, 2024, and December 31, 2023, respectively, relates to the origination and reversal of temporary differences.

A reconciliation of income tax provision to the amount computed by applying the statutory income tax rate to the income before taxes is summarized below:

(In NOK)		
Particulars	As at December 31,	
	2024	2023
Profit before income tax	374,230	–
Enacted tax rate	22.0%	–
Computed expected tax expense	82,331	–
Effect of unrecognized deferred tax assets	(104,998)	–
Utilization of carry-forward losses	(311,270)	–
Effect of non-deductible expenses	16,193	–
Income tax expense	(317,744)	–

The details of income tax assets and income tax liabilities are as follows:

Particulars	(In NOK)	
	As at December 31,	
	2024	2023

## Infosys Nova Holdings LLC

# Independent Auditor's Report

To the Members of Infosys Nova Holdings LLC.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Nova Holdings LLC. ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant Accounting Policies

## Company Overview

Infosys Nova Holdings LLC (Infosys Nova or the Company) is a wholly-owned subsidiary of Infosys Limited. The purpose of the Company is to engage in any lawful act or activity for which corporation may be organized under the Delaware General Corporation Law, as the same exists or as may hereafter be amended from time to time.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Holding Company, Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013 .

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and, relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Reporting currency

The Company's reporting currency is US\$.

### 1.4 Use of estimates and judgements

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Foreign currency

#### 1.5.1 Functional currency

The functional currency of the Company is US\$. These financial statements are presented in US\$.

#### 1.5.2 Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate

prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.6 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.7 Investments

Associates are entities over which the Company has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The Company's investment in associates includes goodwill identified on acquisition.

# Infosys Consulting Holding AG

# Report of the Statutory Auditor

To the General Meeting of  
Infosys Consulting Holding AG, Kloten

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Infosys Consulting Holding AG, Kloten (the Company), which comprise the balance sheet as at 31 December 2024 and the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements comply with Swiss law and the Company's articles of incorporation.

### Basis for Opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the provisions of Swiss law, and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Board of Directors' Responsibilities for the Financial Statements

The Board of Directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on EXPERTSuisse's website at: <https://www.expertsuisse.ch/en/audit-report>. This description forms an integral part of our report.

### Report on Other Legal and Regulatory Requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the financial statements according to the instructions of the Board of Directors.

Based on our audit in accordance with Art. 728a para. 1 item 2 CO, we confirm that the proposed appropriation of available earnings complies with Swiss law and the Company's articles of incorporation. We recommend that the financial statements submitted to you be approved.

We draw attention to the fact that the extraordinary General Meeting held on 18 July 2024 approved the distribution of a dividend amounting to CHF 15,000,000. This decision was made without the auditor's confirmation of compliance with Swiss law and the company's articles of incorporation as required by article 728a paragraph 1 item 2 CO. This is a breach of article 731 CO.

# Notes to the financial statements

## 1. Summary of significant accounting policies

### 1.1 Basis of preparation

Infosys Consulting Holding AG (the Company) has its registered office located at Kloten, Switzerland.

The financial statements of the Company have been prepared in accordance with the provisions of the Swiss Law on Accounting and Financial Reporting (32<sup>nd</sup> title of the Swiss Code of Obligations). Where not prescribed by law, the significant accounting and valuation principles applied are described below. Swiss law allows the company to create, and as a consequence also release hidden reserves in its financial statements."

The Company's ultimate parent, Infosys Ltd. incorporated in India, prepares consolidated financial statements in accordance with International Financial Reporting Standards (IFRS IASB), which include the financial statements of the Company. In accordance with the Swiss Code of Obligations, the Company is therefore exempt from preparing a management report, a cash flow statement. and certain additional disclosures in the notes to the financial statements.

### 1.2 Foreign currency

The Company's functional currency is the Swiss Franc (CHF) as this is assessed to be the principal currency of the economic environment in which it operates.

Transactions in foreign currency are translated into the functional currency at the exchange rate prevailing at the transaction date. Monetary and short-term assets and liabilities in foreign currency outstanding at the balance sheet date are converted at the balance sheet date exchange rate, whereby unrealized losses are recorded in the income statement and unrealized profits are deferred. Further, unrealized losses on long-term loans are recorded in the income statement, whereas unrealized profits are deferred. Non-monetary assets and liabilities in foreign currency are translated at the historical foreign exchange rate at the date of the transaction.

### 1.3 Investments

Investments are initially recorded at acquisition cost. They are annually assessed for impairment and adjusted to their recoverable value, if required, on an individual basis as appropriate.

## Infosys Arabia Limited

# Independent Auditor's Report

To the Members of Infosys Arabia Limited.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFOSYS ARABIA LIMITED. ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the reparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Company Overview and Significant Accounting Policies

## Company overview

Infosys Arabia Limited is a subsidiary of Infosys Limited. The purpose of the Company is to engage in any lawful act or activity for which corporation may be organized under the Law of Kingdom of Saudi Arabia, as the same exists or as may hereafter be amended from time to time, incorporated on August 12, 2016.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1, 2024 to December 31, 2024.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The Company applied for liquidation on January 25, 2022, accordingly, these financial statements have not been prepared on a going concern basis. Instead, these financial statements have been prepared on a liquidation basis. Assets and liabilities are presented as current. Assets have been recorded at their realizable value and liabilities recorded at their known estimated settlement value.

### 1.3 Reporting currency

The Company's reporting currency is Saudi Riyal.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

## 1.5 Foreign currency

### Functional currency

The functional currency of the Company is the Saudi Riyal. These financial statements are presented in Saudi Riyal.

### 1.6 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 2.1 Cash and cash equivalents

Particulars	As at December 31,	
	2024	2023
Balances with banks		
In current and deposit accounts	1,678,751	1,678,751
	1,678,751	1,678,751

### 2.2 Equity

#### Equity share capital

Particulars	As at December 31,	
	2024	2023
Authorized share capital (SAR 16,787.51 par value, 100 equity shares)	1,678,751	1,678,751
Issued, subscribed and paid-up (SAR 16,787.51 par value, 100 equity shares)	1,678,751	1,678,751

The details of shareholder holding more than 5% shares as at December 31, 2024 and December 31, 2023 are as follows:

Name of the shareholder	As at December 31,	
	2024	2023
Infosys Limited	70	70

## Infosys Germany Holding GmbH

# Independent Auditor's Report

To the Members of Infosys Germany Holding GmbH

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Germany Holding GmbH ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Company overview and significant accounting policies

## Company overview

Infosys Germany Holding GmbH ("the Company") is a wholly-owned subsidiary of Infosys Limited incorporated on March 31, 2021. The Company was set up as a legal requirement for incorporation of the subsidiary Infosys Automotive and Mobility GmbH and CoKG.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the Annual Report of the holding company Infosys Limited under the requirements of Section 129 (3) of the Companies Act, 2013, and for issuing Annual Performance Report (APR) which is required to be furnished by the holding company to the authorized bank in accordance with Regulation 10 of the Foreign Exchange Management (Overseas Investment) Regulations.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Reporting currency

The Company's reporting currency is Euro (EUR).

### 1.4 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Foreign currency

#### Functional currency

The functional currency of the Company is the Euro. These financial statements are presented in Euro (EUR).

## Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

### 1.6 Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### 1.7 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability, simultaneously.

## 1.8 Other income

Other income primarily comprises interest income. Interest income is recognized using the effective interest method

## 1.9 Financial instruments

### 1.9.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

### 1.9.2 Subsequent measurement

#### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 1.9.3 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

## 2.1 Cash and cash equivalents

(In €)

Particulars	As at December 31,	
	2024	2023
Balance with banks		
In current and deposit accounts	187,962	192,014
Total cash and cash equivalents	187,962	192,014

## 2.2 Other assets

(In €)

Particulars	As at December 31,	
	2024	2023
Current		
Intercompany – Receivable – Non-revenue	2,500	-

## Infosys Germany GmbH

# Independent Auditor's Report

To the Members of Infosys Germany GmbH

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Germany GmbH ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated. The Company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

# Overview and Notes to the Financial Statements

## 1 Overview

### 1.1 Company overview

Infosys Germany GmbH (formerly Kristall 247. GmbH ("Kristall")) ("the Company") was incorporated in Germany on July 21, 2021 and wholly owned by VRB Vorratsgesellschaften GmbH. On March 22, 2022, Infosys Singapore Pte. Ltd. (formerly Infosys Consulting Pte. Ltd.), a wholly-owned subsidiary of Infosys Limited acquired 100% of the Company.

The objective of the entity would be to provide Information Technology (IT) and Information Technology (IT) enabled services.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendments rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (i.e. the "functional currency"). The functional currency of the company is Euro ("EUR") and the financial statements are also presented in Euro. All amounts included in the financial statements are reported in Euro, unless otherwise stated.

Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of percentage of completion which requires the Company to estimate the efforts or costs expended to date as a proportion of the total

efforts to be expended, impairment losses on financial assets, future obligations under employee benefit plans, income taxes, post-sales customer support and the useful lives of property, plant and equipment.

### 1.4 Critical accounting estimates

#### 1.4.1 Revenue recognition

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

Fixed price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed price maintenance contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenue requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract.

#### 1.4.2 Income taxes

The Company's major tax jurisdictions is the Germany.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

## 2 Investments in Equity Instruments

Particulars	(In €)	
	As at December 31,	
	2024	2023
Investments in Equity Instruments		
in-Tech Holding GmbH <sup>(1)</sup>	464,816,236	–

Investment in Subsidiary Company		
in-tech Holding GmbH	464,816,236	–
	464,816,236	–

**12 Segment reporting**

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment reporting the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108.

**13 Ratio Analysis**

The ratios for the years ended December 31, 2024, and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	As at December 31,		Variance
			2024	2023	
Current ratio	Current assets	Current liabilities	257	309	(17%)
Return on equity (ROE) <sup>(1)</sup>	Net profits after taxes	Average shareholder's equity	(3%)	93%	(103%)
Trade payables turnover ratio <sup>(2)</sup>	Purchases of services and other expenses	Average trade payables	0	0	0
Return on capital employed (ROCE) <sup>(3)</sup>	Earning before interest and taxes	Capital employed	(0.8%)	33.8%	(102%)

<sup>(1)</sup> Return on Equity (ROE) - Decrease on account of increase in Average shareholder' equity.

<sup>(2)</sup> Trade Payable turnover ratio- Decrease on account of increase in Average Trade Payables.

<sup>(3)</sup> Return on capital employed- Decrease on account of increase in Capital employed.

## Infosys Turkey Bilgi Teknolojileri Limited Şirketi

# Independent Auditor's Report

To the Members of Infosys Turkey Bilgi Teknolojileri Limited Şirketi.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Turkey Bilgi Teknolojileri Limited Şirketi ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR") which is required to be furnished by the Holding Company, Infosys Limited to Authorized Bank in accordance with regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Turkey Bilgi Teknolojileri Limited Şirketi is a wholly-owned subsidiary of Infosys Limited. The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose consolidated financial statements are prepared for inclusion in the Annual Report of the holding company, Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013 and for issuing Annual Performance Report ("APR"), which is required to be furnished by the Holding Company, to authorized bank in accordance with the regulation 10 of Foreign Exchange Management (Overseas Investment) Regulations.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is TRY.

### 1.4 Hyperinflation accounting

To reflect changes in purchasing power at the Balance Sheet date, the carrying amounts of non-monetary assets and liabilities, shareholders' equity, and comprehensive income are restated in terms of a measuring unit current at the Balance Sheet date in accordance with Ind AS 29 'Financial Reporting in hyperinflationary economies. These are indexed using a general price index in accordance with Ind AS 29, Financial Reporting in hyperinflationary economies. In contrast, no restatement is required for monetary assets and liabilities carried at amounts that are current at the end of the Balance Sheet date because they represent money held, to be received, or to be paid. Corresponding figures for previous year have been restated for the changes in the general purchasing power of the functional currency and, as a result, are stated in terms of the measuring unit current at the end of the reporting year.

Gains and losses from hyperinflation are included in the income statement. Non-monetary assets that have been restated following the guidance in Ind AS 29 are still subject

to impairment assessment in accordance with the guidance in the relevant Ind AS.

### 1.5 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions. These estimates and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period, and actual results could differ from those estimates. Appropriate changes in estimates are made as Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which they are made, and if material, their effects are disclosed in the notes to the financial statements.

### 1.6 Revenue recognition

The Company's contracts with customers include promises to transfer multiple products and services to a customer. Revenues from customer contracts are considered for recognition and measurement when the contract has been approved, in writing, by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligations to determine the deliverables and the ability of the customer to benefit independently from such deliverables, and allocation of transaction price to these distinct performance obligations involves significant judgement.

Fixed price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed price maintenance contract is recognized ratably using a percentage of completion method when the pattern of benefits from the services rendered to the customer and Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers includes subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion and other factors to determine whether it controls the specified goods or services and therefore, is acting as a principal or an agent.

Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract

1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of asset is as follows:

Computer equipment <sup>(1)</sup>	3-5 years
-----------------------------------	-----------

<sup>(1)</sup> Based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which management expects to use these assets.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not ready to use before such date are disclosed under ‘Capital work-in-progress’. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset, and the resultant gains or losses are recognized in the Statement of Profit and Loss.

1.8 Financial instruments

1.8.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial

recognition. Regular way purchase and sale of financial assets are accounted for at the trade date.

1.8.2 Subsequent measurement

a. Non-derivative financial instruments

(i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset to collect contractual cash flows. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

A financial asset, which is not classified in any of the above categories, is subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination, which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

1.9 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses various methods and assumptions based on market conditions and risks at each reporting date. These methods include discounted cash flow analysis, available quoted market prices, and dealer quotes. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

1.10 Impairment

a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled revenues, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the Statement of Profit and Loss.

## **b. Non-financial assets**

### **(i) Property, plant and equipment**

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## **1.11 Foreign currency**

### **Functional currency**

The Company's functional currency is the TRY.

### **Transactions and translations**

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss and reported within exchange gains/(losses) on translation of assets and liabilities. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense, and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## **1.12 Income taxes**

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items

recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

"Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously."

## **1.13 Statement of Cash Flows**

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from the Company's operating, investing, and financing activities are segregated.

## **1.14 Other Income**

Other income is comprised primarily of interest income and exchange gain / loss on translation of other assets and liabilities. Interest income is recognized using the effective interest method.

## **1.15 Borrowing Cost**

Borrowing cost are charged to the Statement of Profit and Loss in the period in which they are incurred.

## **2.1 Effects of Hyperinflation**

Due to the rapid devaluation of the Turkish Lira, Turkey is considered a hyperinflationary economy. During the year ended December 31, 2024, the financial statements of the Company were adjusted to recognize the inflationary effects since January 1, 2021. The financial statements of the Company are based on a historical cost approach and are restated using a general price index in accordance with Ind AS 29. The consumer price index at December 31, 2024 was 2,684.55, December 31, 2023 was 1,859.38, December 31, 2022 was 1,128.45

## 2.2 Property, Plant and Equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024 are as follows:

(In TRY)		
Particulars	Computer Equipment	Total
Gross carrying value as of January 1, 2024	–	–
Additions	1,487,782	1,487,782
Deletions	–	–
Reclassification	–	–
Gross carrying value as of December 31, 2024	1,487,782	1,487,782
Accumulated depreciation as of January 1, 2024		
Depreciation	(248,190)	(248,190)
Accumulated depreciation on deletions	–	–
Translation difference	–	–
Accumulated depreciation as of December 31, 2024	(248,190)	(248,190)
Carrying value as of December 31, 2024	1,239,592	1,239,592

## 2.3 Leases

### Accounting Policy

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related Right-of-use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The changes in carrying value of ROU assets for the years ended December 31, 2024 and December 31, 2023:

Particulars	Category of ROU asset		Total
	Buildings	Computer Equipment	
Balance as of January 1, 2023	2,402,056	–	2,402,056
Additions	1,600,522	55,180,598	56,781,120
Deletion	–	–	–
Depreciation <sup>(1)</sup>	(2,171,221)	(4,924,229)	(7,095,450)

The break-up of current and non-current lease liabilities as aDecember 31, 2024 and December 31, 2023 are as follows:

Particulars	As at December 31,	
	2024	2023
Current lease liabilities	47,550,129	22,780,683
Non-current lease liabilities	66,394,591	31,844,935
Total	113,944,720	54,625,619

The movement in lease liabilities during the years ended December 31, 2024 and December 31, 2023 are as follows :

Particulars	As at December 31,	
	2024	2023
Balance at the beginning	54,625,619	312,698
Additions	93,376,441	56,781,120
Finance cost accrued during the period	4,036,707	996,469
Deletions	–	–
Payment of Lease Liabilities	(50,095,701)	(829,597)
Translation Difference	12,001,655	(2,635,072)
Balance at the end	113,944,720	54,625,619

The details regarding the contractual maturities of lease liabilities as at December 31, 2024 and December 31, 2023 on an undiscounted basis are as follows:

Particulars	As at December 31,	
	2024	2023
Less than one year	51,557,818	24,911,231
One to five years	59,451,405	31,240,718
Total	111,009,223	56,151,949

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.4 Other Assets

<sup>(1)</sup> Financial assets carried at amortized cost	242,803,479	303,276,116
<sup>(2)</sup> Includes dues from Holding Company and other fellow subsidiaries (Refer to note 2.20)	197,173,889	245,587,393

## 2.8 Financial Instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories were as follows:

(In TRY)

Particulars	As at December 31,	
	2024	2023
Assets:		
Trade receivables (Refer to Note 2.5)	53,606,939	59,386,177
Cash and cash equivalents (Refer to Note 2.6)	284,595,270	119,017,227
Other financial assets (Refer to Note 2.7) <sup>(1)</sup>	242,803,479	303,276,116
Total	581,005,689	481,679,520
Liabilities:		
Trade payables (Refer to Note 2.11)	67,731,892	62,081,804
Borrowings (Refer to Note 2.10)	–	2,683,024
Lease liabilities (Refer to Note 2.3)	113,944,720	54,625,619
Other financial liabilities (Refer to Note 2.12)	376,345,290	375,871,366
Total	558,021,902	495,261,812

<sup>(1)</sup> Excludes unbilled revenue on contracts where the right to consideration is dependent on completion of contractual milestones

All the above financial instruments are carried at amortized cost and the carrying values approximate their fair value.

### Financial risk management

#### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

The gross carrying amount of a financial asset is written off (either partially or in full) when there is no realistic prospect of recovery.

The Company operates internationally, and a major portion of the business is transacted in several currencies; consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The foreign currency risk from financial assets and liabilities as at December 31, 2024 is as follows:

(In TRY)

Particulars	U.S. dollars	EUR	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Net financial assets	(24,003,671)	264,936,113	–	–	240,932,441	481,864,883
Net financial liabilities	(41,977,765)	(199,201,772)	–	–	(98,852,876)	(340,032,413)
Total	(65,981,436)	65,734,340	–	–	142,079,565	141,832,470

The foreign currency risk from financial assets and liabilities as at December 31, 2023 is as follows:

(In TRY)

Particulars	U.S. dollars	EUR	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Net financial assets	9,483,600	236,925,070	–	–	–	246,408,670
Net financial liabilities	(66,105,967)	(180,514,750)	–	–	–	(246,620,717)
Total	(56,622,367)	56,410,320	–	–	–	(212,047)

The Company's activities expose it to liquidity risk.

### Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time.

The Company's principal sources of liquidity are cash and cash equivalents. The Company has taken a loan from its related party to meet its working capital requirements. As of December 31, 2024, the Company had cash and cash equivalents of TRY 284,595,270. Other than lease liabilities, the Company does not have any other non-current liabilities. The Company expects to settle its financial liabilities within the next year.

## 2.9 Equity

### Equity share capital

Particulars	(In TRY)	
	As at December 31,	
	2024	2023
Authorized		
2,770,326 (1,508,060) equity share of TRY 100 par value	277,032,600	242,198,840
Issued, Subscribed and Paid-Up		
2,770,326 (1,508,060) equity share of TRY 100 par value	376,339,837	242,198,840

The details of shareholder holding more than 5% shares as at December 31, 2024 and December 31, 2023 are set out below :

Name of the shareholder	As at December 31,

Total trade payables as on December 31, 2023	4,872,076	35,810,466	21,399,261	–

## 2.12 Other financial liabilities

Particulars	(In TRY)	
	As at December 31,	
	2024	2023
Current		
Others		
Accrued compensation to employees	4,889,599	28,157
Provision for expenses <sup>(1)</sup>	11,061,948	28,134,325
Other financial liabilities <sup>(2)</sup>	–	101,451,397
Other payables <sup>(1)</sup>	360,393,743	246,257,486
Total financial liabilities	376,345,290	375,871,366
<sup>(1)</sup> Includes dues from Holding Company and other fellow subsidiaries (Refer to Note 2.20)	360,393,743	246,257,486

<sup>(2)</sup> Deferred contract cost in note 2.3 includes technology assets taken over by the Company from a customer as a part of transformation project, which is not considered as distinct goods or services and the control related to the assets is not transferred to the Company in accordance with Ind AS 115 - Revenue from contract with customers. Accordingly, the same has been considered as a reduction to the total contract value and accounted as a Ddferred contract cost. The Company has entered into financing arrangements with a third party for these assets, which are shown as other financial liabilities.

## 2.13 Other liabilities

Particulars	(In TRY)	
	As at December 31,	
	2024	2023
Current		
Unearned revenue	29,894,337	–
Withholding taxes and others	78,232,691	65,273,869
Total current other liabilities	108,127,028	65,273,869

Particulars	(In TRY)	
	As at December 31,	
	2024	2023
Current		
Provision for expenses	293,583	240,112
Total Provisions	293,583	240,112

## 2.15 Revenue from operations

Particulars	(In TRY)	
	Years ended December 31,	
	2024	2023
Income from software services	328,468,577	(41,449,343)
Total revenue from operation	328,468,577	(41,449,343)

### Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed-price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to the clients for other fixed price contracts is based on milestones as defined in the contract and therefore the timing of revenue recognition is different from the timing of invoicing to the customers. Therefore, unbilled revenues for other fixed-price contracts (contract asset) are classified as non-financial asset because the right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024 and December 31, 2023, the company recognized revenue of TRY 1,820,182 and NIL arising from opening unearned revenue as of January 1, 2024 and January 1, 2023 respectively.

### Remaining performance obligation disclosure

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material and unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that has not materialized, and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is TRY 37,168,055. Out of this, the Company expects to recognize revenue of around 46.21% within the next one year and the remaining thereafter. The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2023 is 1,209,553. The contracts can generally be terminated by the customers and typically includes an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.16 Other Income

Particulars	(In TRY)	
	Years ended December 31,	
	2024	2023
Finance Income under revenue deals	18	49
Total other income	18	49

## 2.17 Expenses

(In TRY)

## 2.21 Segment reporting

The Company is engaged in providing consultancy services in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment reporting the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108.

## 2.22 Ratios

The ratios for the years ended December 31, 2024 and December 31, 2023 are as follows:

Particulars	Numerator	Denominator	Years ended December 31,		Variance
			2024	2023	
Current Ratio	Current assets	Current liabilities	1.1	1.0	6.6% *
Debt – Equity Ratio	Total Debt <sup>(1)</sup>	Shareholder's Equity	1.3	2.0	(34.6%)**
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service(3)	2.5	(136.0)	(101.8%***
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	(291.6%)	(76.5%)	(215.1%)****
Trade receivables turnover ratio	Revenue	Average Trade Receivable	5.8	(1.4)	(516.5%)*****
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	3.9	(0.1)	(6330.8%)#
Net capital turnover ratio	Revenue	Working Capital	6.4	(4.3)	(249.7%)##
Net profit ratio	Net Profit	Revenue	(51.8%)	(205.9%)	154%###
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed(4)	(76.3%)	123.5%	(199.8%)####

<sup>(1)</sup> Debt represents lease liabilities and borrowings

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> Tangible net worth + deferred tax liabilities + Lease Liabilities + Borrowings

\* An increase in other financial liabilities has significantly resulted in deterioration in the ratio.

\*\* Negative Shareholders' Equity has resulted in deterioration in the ratio

\*\*\*Negative Earnings available for debt service has resulted in deterioration in the ratio

\*\*\*\* Improvement in ration is due to increase in Net Profits after taxes in absolute value

\*\*\*\*\* Increase in debtors and negative revenue led to an improvement in the ratio

# Increase in trade payables resulted in deterioration in the ratio.

## Negative working capital has resulted in deterioration in the ratio

### Negative revenue in the year has resulted in an improvement in the ratio

#### Entity Loss has resulted in deterioration in the ratio

# Director's Report for the year ended March 31, 2025

The Director presents their report and financial statements for the year ended March 31, 2025.

## **Directors:**

The Directors who served during the year were:

Ritesh Gandhi

Sreekant Natarajan (appointed on January 22 2025)

Srikrishna Koneru (appointed on January 22 2025)

## **Principal activity:**

Infosys BPM UK Limited (the Company) is incorporated to provide home loan administration and consumer credit services that would involve carrying out UK-regulated activities and hence, would require the Company to be authorized by the Financial Conduct Authority (FCA). The Company has not yet undertaken these activities in the year.

## **Going concern:**

The Company meets its day-to-day working capital requirements through funds available with the Company. The Company's business plans, taking into account a severe but plausible change in trading performance, show that the Company should be able to operate within the levels of its current facilities. There is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future for at least a minimum period of 12 months from the date of the approval of these financial statements. The Company, therefore, continues to adopt the going concern basis in preparing its financial statements. GBP 2 million is infused through share capital in the current year to support the overall financial position and future plans of the Company.

## **Political contributions:**

There were no political contributions or charitable donations made during the current year or the previous year.

## **Small companies note:**

This report has been prepared in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006

## **Disclosure of information to auditors:**

Each of the persons who are directors at the time when this director's report is approved has confirmed that:

1. So far as the each director is aware, there is no relevant audit information of which the Company's auditor is unaware, and
2. Each director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This report was approved by board and signed on its behalf by:

Ritesh Gandhi  
*Director*

May 13, 2025

## Directors' Responsibilities Statement for the year ended March 31, 2025

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations

The Company's law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 102 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' and the Companies Act 2006 (as applicable to companies subject to the small companies' regime). Under Company's law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. The directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

# Independent Auditor's Report

to the Members of Infosys BPM UK Limited

## Opinion

We have audited the financial statements of Infosys BPM UK Limited (the 'Company') for the year ended 31 March 2025, which comprise the Statement of comprehensive income, Statement of financial position, Statement of changes in equity and Notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 section 1A 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2025 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements were authorised for issue.

Our responsibilities and the responsibilities of the director with respect to going concern are described in the relevant sections of this report.

## Other information

The director is responsible for the other information contained in the annual report. The other information comprises the information included in the Director's Report and the Statement of Director's Responsibilities, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the course of audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Director's Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Director's Report has been prepared in accordance with applicable legal requirements.

## Matters on which we are required to report by exception

In the light of our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Director's Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.
- the directors were entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies' exemptions in preparing the director's report and from the requirement to prepare a strategic report.

### **Responsibilities of the director**

As explained more fully in the Statement of Director's Responsibilities set out on page 5, the director is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the director determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the director is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the director either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

### **Extent to which the audit is capable of detecting irregularities, including fraud**

We design our procedures so as to obtain sufficient appropriate audit evidence that the financial statements are not materially misstated due to non-compliance with laws and regulations or due to fraud and error.

We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations. The primary responsibility for prevention and detection of fraud rests with both those charged with governance of the entity and management.

Based on our understanding of the Company and the industry, discussions with the management, we identified Companies Act 2006, Financial Reporting Standard 102 Section 1A and UK taxation legislation as having a direct effect on the amounts and disclosures in the financial statements.

As part of the engagement team discussion about how and where the Company's financial statements may be materially misstated due to fraud, we did not identify any areas with an increased risk of fraud.

Our audit procedures included:

- enquiry of management about the Company's policies, procedures and related controls regarding compliance with the laws and regulations and if there are any known instances of non-compliance;
- examining supporting documents for all material balances, transactions and disclosures;
- review of the minutes of the meetings conducted by the Board of Directors;
- enquiry of management of legal matters during the year and use of legal firms thereof;
- evaluation of the selection and application of accounting policies related to subjective measurements and complex transactions;
- testing the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements.
- review of accounting estimates for biases.

Owing to the inherent limitations of an audit there is an unavoidable risk that some material misstatements of the financial statements may not be detected, even though the audit is properly planned and performed in accordance with ISAs (UK).

The potential effects of inherent limitations are particularly significant in case of misstatement resulting from fraud because fraud may involve sophisticated and carefully organised schemes to conceal it, including deliberate failure to record transactions, collusion or intentional misrepresentations being made to us.

A further description of our responsibilities for the audit of financial statements is available on the Financial Reporting Council's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

## Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

for the year ended March 31, 2025

## 1. General information

Infosys BPM UK Limited (the Company) is a private Company, limited by shares, incorporated in England and Wales. Its registered office is 14<sup>th</sup> Floor, 10 Upper Bank Street, Canary Wharf, London, E14 5NP.

The financial statements were authorized for issue by the director on 29 May 2025

## 2. Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated

### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and these financial statements have been prepared in accordance with FRS 102 Section 1A smaller entities - 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' and the Companies Act 2006 (as applicable to companies subject to the small companies' regime).

The Company's functional and presentational currency is GBP Sterling (£), being the currency of the primary economic environment in which the Company operates in. The amounts are presented rounded to the nearest pound.

### 2.2 Going Concern

The financial statements have been prepared on a going concern basis, which the directors consider to be appropriate for the following reasons:

The Company meets its day-to-day working capital requirements through funds available with the Company. The Company's business plans, taking into account a severe but plausible change in trading performance, show that the Company should be able to operate within the levels of its current facilities. There is a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future for at least a minimum period of 12 months from the date of the approval of these financial statements. The Company, therefore, continues to adopt the going concern basis in preparing its financial statements. GBP 2 million infused through share capital in the current year to support the overall financial position and future plans of the Company.

## 2.3 Financial instruments

### Financial Assets

Basic financial assets, including trade and other receivables, cash and bank balances and investments in commercial paper, are initially recognized at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

### Financial Liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. Any equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

### 2.4 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### 2.5 Cash at bank and in hand

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

### 2.6 Current and Deferred taxation

The tax expense for the period comprises current tax. Tax is recognized in profit or loss, except that a change attributable to an item of income or expense recognized as other comprehensive income is also recognized directly in other comprehensive income. The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates taxable income.

Deferred tax is recognized in respect of all timing differences that have originated but not reversed at the Balance Sheet date where transactions or events have occurred at that date that will result in an obligation to pay more or a right to pay less tax at a future date. Deferred tax assets are recognized only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

## 3. The Company has no employees.

#### 4. Auditor's remuneration

(In GBP)		
Particulars	Year ended March 31,	
	2025	2024
Fees payable to the Company's auditor for the audit of the Company's annual financial statements	8,820	8,400

#### 5. Cash and cash equivalents

(In GBP)		
Particulars	As at March 31,	
	2025	2024
Cash at bank	2,049,844	60,501

(In GBP)		
Particulars	As at March 31,	
	2025	2024
Provision for expenses	22,030	17,880
Provision for tax	1,769	—
	23,799	17,880

#### 7. Equity share capital

(In GBP)				
Particulars	As at March 31,			
	2025		2024	
	No.	Amount	No.	Amount
Issued, subscribed and paid-up equity shares of GBP 1 par value	2,100,000	2,100,000	100,000	100,000

#### Shares allotted

During the year March 31, 2025, 2,000,000 Ordinary shares were issued on 7 March, 2025, for GBP 1 each. The shares have an aggregate nominal value of GBP 2,000,000. All of the 2,000,000 shares were paid in the FY 2024-2025.

#### 8. Related party transactions

The Company has taken advantage of the exemption available in accordance with FRS 102 Section 33.1A 'Related Party Disclosures' not to disclose transactions entered into between two or more members of a group, as the Company is a wholly-owned subsidiary undertaking of the group to which it is party to the transactions.

#### 9. Events subsequent to reporting date

The Company acquired 1,000 shares (100% share holding) in BASE Life Science Inc a Delaware corporation (the "Target"), from BASE life Science A/S ( the "Seller") for a consideration of USD 6,000 on 1 May 2025.

#### 10. Ultimate parent undertaking and controlling party

The immediate parent undertaking is Infosys BPM Limited, a Company incorporated in India.

The parent undertaking of a largest and smallest group for which consolidated financial statements are prepared is Infosys Limited, incorporated in India. Consolidated financial statements are available to the public at its registered office address, which is Electronic City, Hosur Road, Bengaluru, 560100, India, or from the website [www.infosys.com](http://www.infosys.com)

## Infosys Consulting SAS

# Independent Auditor's Report

To the Members of Infosys Consulting SAS

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Infosys Consulting SAS ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the reparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

Infosys Consulting SAS is a wholly-owned subsidiary of Infosys Consulting Holding AG (Infosys Lodestone) (formerly Lodestone Holding AG). The Company renders professional management consulting services, thereby enabling its clients to enhance business performance.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These special purpose financial statements are prepared for inclusion in the annual report of the Ultimate Holding Company Infosys Limited under the requirements of Section 129 (3) of the Companies Act 2013. These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (i.e., the “functional currency”). The functional currency of the Company is the Euro, and the financial statements are also presented in Euro. All amounts included in the financial statements are reported in Euro, unless otherwise stated. Accounting policies have been applied consistently to all periods presented in these financial statements except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company’s presentation currency is Euro.

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the application of accounting policies and the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period, and actual results could differ from those estimates. Appropriate changes in estimates are made as Management becomes aware of changes in the circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which they are made, and if material, their effects are disclosed in the notes to the financial statements.

### 1.5 Revenue recognition

The Company derives revenues primarily from consultancy services.

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for software-related services are either on a fixed-timeframe or on a time-and-material basis.

#### 1.5.1 Time & Material

Revenue on time-and-material contracts is recognized as the related services are performed, and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

#### 1.5.2 Fixed Price

Revenue from fixed-price, fixed-timeframe contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method.

#### 1.5.3 Unbilled/ Unearned

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

#### 1.5.4 Volume Discounts

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then the discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

#### 1.5.5 Contract Modification

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

#### 1.5.6 Tax

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

## 1.6 Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

## 1.7 Post-sales client support

The Company provides its clients with a fixed-period post-sales support on its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded in the Statement of Profit and Loss. The Company estimates such costs based on historical experience, and the estimates are reviewed annually for any material changes in assumptions and likelihood of occurrence.

## 1.8 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for estimated losses, if any, on incomplete contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

## 1.9 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by the Management. The Company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows :

Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Office equipment	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

<sup>(1)</sup> For this class of assets, based on technical evaluation, the Management believes that the useful lives as given above best represent the period over which the Management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be

measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

## 1.10 Financial instruments

### 1.10.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables, which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, which are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at the trade date.

### 1.10.2 Subsequent measurement

#### Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset that is not classified in any of the above categories is subsequently fair valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### 1.10.3 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses various methods and assumptions based on market conditions and risks at each reporting date. These methods include discounted cash flow analysis, available quoted market prices, and dealer quotes. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

## 1.11 Impairment

### a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets that are not fairly valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in the statement of profit or loss.

### b. Non-financial assets

#### (i) Property, plant and equipment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment is recognized in the Statement of Profit and Loss and is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.12 Employee Benefits

### Compensated absences

The Company has a policy on compensated absences, which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using the projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## 1.13 Foreign currency

### Functional currency

The functional currency of the company is the EURO. These financial statements are presented in EURO.

#### Transactions and translations

Foreign-currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange

rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.14 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity or other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities where it has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

## 1.15 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expenses associated with investing or financing cash flows. The cash flows from the Company's operating, investing, and financing activities are segregated.

## 1.16 Other income

Other income is comprised primarily of interest income and exchange gain on translation of other assets and liabilities.

### 1.17 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

### 1.18 Borrowing Cost

Borrowing costs are charged to the Statement of Profit and Loss in the period in which they occurred.

### 1.19 Leases:

#### The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings and computers. The Company assesses whether a contract contains a lease at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

As a lessee, the Company determines the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance

of the underlying asset to Infosys's operations, taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities include these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and the useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet, and lease payments have been classified as financing cash flows.

## 2.1 Property, plant and equipment

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2024, are as follows:

(In €)					
Particulars	Plant and machinery	Computer equipment	Furniture and fixtures	Office Equipment	Total
Gross carrying value as of January 1, 2024	–	70,550	–	–	70,550
Additions	–	10,231	–	–	10,231
Deletions	–	(9,498)	–	–	(9,498)
Gross carrying value as of December 31, 2024	–	71,282	–	–	71,282
Accumulated depreciation as of January 1, 2024	–	(39,645)	–	–	(39,645)
Depreciation	–	(17,686)	–	–	(17,686)
Accumulated depreciation on deletions	–	9,498	–	–	9,498
Accumulated depreciation as of December 31, 2024	–	(47,833)	–	–	(47,833)
Carrying value as of December 31, 2024	–	23,449	–	–	23,449
Carrying value as of January 1, 2024	–	30,904	–	–	30,904

The changes in the carrying value of property, plant and equipment for the year ended December 31, 2023, are as follows:

	(In €)				
Particulars	Plant and machinery	Computer equipment	Furniture and fixtures	Office Equipment	Total
Gross carrying value as of January 1, 2023	–	96,696	–	–	96,696
Additions	–	–	–	–	–
Deletions	–	(26,147)	–	–	(26,147)
Gross carrying value as of December 31, 2023	–	70,550	–	–	70,550

							1,399,024

## 2.4 Cash and cash equivalents

			(In €)
Particulars	As at December 31		
	2024	2023	
Balances with banks			
In current accounts	1,835,717	3,532,771	
Total Cash and Cash Equivalents	1,835,717	3,532,771	

## 2.5 Other assets

			(In €)
Particulars	As at December 31		
	2024	2023	
Current			
Others			
Prepaid expenses	2,774	–	
Advance for supply of goods and rendering of services	8	–	
Withholding taxes and others	118,586	66,640	
Total current other assets	121,368	66,640	

## 2.6 Equity

### Equity share capital

As at December 31, 2024, the Company had one member, Infosys Consulting Holding AG (formerly Lodestone Holding AG) (“the Member”). The Member owns 100% of the interests of the Company.

## 2.7 Financial instruments

### Financial instruments by category

The carrying value and fair value of financial instruments by categories as of December 31, 2024, and December 31, 2023, were as follows:

			(In €)
Particulars	As at December 31		
	2024	2023	
Assets			
Cash and cash equivalents (Refer to Note 2.4)	1,835,717	3,532,771	
Trade receivables (Refer to Note 2.3)	612,750	1,399,024	
Other financial assets (Refer to Note 2.2)	148,511	106,326	

Particulars	As at December 31	
	2024	2023
Total	2,596,978	5,038,121
Liabilities		
Trade payables (Refer to Note 2.7)	342,195	107,382
Lease Liability (Refer to Note 2.15)	39,541	60,351
Other financial liabilities (Refer to Note 2.8)	774,322	3,178,599
Total	1,156,059	3,346,332

All the above financial assets and liabilities are carried at amortized cost, and their carrying values approximate their fair value.

## Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange-related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the concentration of risk from the top few customers.

### Market risk

The Company operates internationally, and a major portion of the business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option(s) contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the Euro and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the Euro appreciates / depreciates against these currencies.

The foreign currency risk from financial instruments as of December 31, 2024, is as follows:

(In €)						
Particulars	USD	CHF	GBP	INR	Other currencies	Total
Net financial assets	–	–	612,751	–	612,751	1,225,503
Net financial liabilities	(366)	(5,325)	(1,928)	(3,592)	(11,211)	(22,422)
Net assets / (liabilities)	(366)	(5,325)	610,823	(3,592)	601,541	1,203,081

The foreign currency risk from financial instruments as of December 31, 2023, is as follows:

(In €)						
Particulars	USD	CHF	GBP	INR	Other currencies	Total
Net financial assets	–	–	1,427,728	–	–	1,427,728
Net financial liabilities	(1,615,331)	1,203	29,306	–	(41,256)	(1,626,079)
Net assets / (liabilities)	(1,615,331)	1,203	1,457,033	–	(41,256)	(198,351)

The Company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to € 612,751 and € 1,399,024 as of December 31, 2024, and December 31, 2023, respectively and unbilled revenue amounting to € 6,198 and € 5,745 as of December 31, 2024, and December 31, 2023, respectively. Trade receivables and unbilled revenue are typically unsecured. Credit risk has always been managed by the Company through credit approvals, establishing credit limits, and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company uses the ECL model to assess any required allowances and uses a provision matrix to compute the ECL allowance for trade receivables and unbilled revenues. The matrix takes into account credit reports and other related credit information to the extent available.

### Credit risk exposure

The recognition / (reversal) for lifetime ECL on customer balances for the year ended December 31, 2024, and December 31, 2023, was Nil.

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies.

## Liquidity risk

The Company's principal sources of liquidity are cash and cash equivalents.

As of December 31, 2024, the Company had a working capital of € 957,729, including cash and cash equivalents of € 1,835,717. As of December 31, 2023, the Company had a working capital of 1,411,432, including cash and cash equivalents of € 3,532,771.

As of December 31, 2024, and December 31, 2023, the outstanding compensated absences were € 145,609 and €129,032, respectively.

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2024:

(In €)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade Payables (Refer to Note 2.7)	342,195	–	–	–	342,195
Accrued expenses (Refer to Note 2.8)	610,288	–	–	–	610,288
Accrued compensation to employees (Refer to Note 2.8)	74,391	–	–	–	74,391
Capital creditors (Refer to Note 2.8)	12,277	–	–	–	12,277
Other payables (Refer to Note 2.8)	77,366	–	–	–	77,366

The table below provides details regarding the contractual maturities of significant financial liabilities as at December 31, 2023:

(In €)					
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade Payables (Refer to Note 2.7)	107,382	–	–	–	107,382
Accrued expenses (Refer to Note 2.8)	3,080,583	–	–	–	3,080,583
Accrued compensation to employees (Refer to Note 2.8)	92,452	–	–	–	92,452
Other payables (Refer to Note 2.8)	5,564	–	–	–	5,564

<sup>(1)</sup> Includes dues to related party (Refer to Note 2.16)	3,592	–
<sup>(2)</sup> Includes dues to related parties (Refer to Note 2.16)	77,366	5,563

## 2.9 Other liabilities

Particulars	As at December 31,	
	2024	2023
Current		
Unearned revenue	53,646	12,247
Others		
Withholding taxes and others	232,554	203,704
Total current other liabilities	286,200	215,951

## 2.10 Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	Year ended December 31,	
	2024	2023
Current taxes	170,793	–
Deferred taxes	–	–
Income tax expense	170,793	–

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized as follows:

Particulars	Year ended December 31,	
	2024	2023
Profit/(Loss) before income tax	974,315	764,603
Enacted tax rates in France (%)	26.50%	26.50%
Computed expected tax expense	258,194	202,620
Effect of unrecognized deferred tax assets	(87,401)	(202,620)
Income tax expense	170,793	–

The applicable France statutory tax rate for the years ended December 31, 2024, and December 31, 2023, is 26.5%.

The details of income tax assets and income tax liabilities are as follows :

	Year ended December 31,	
	2024	2023
Income tax assets	–	–
Current income tax liabilities	170,793	–
Net current income tax assets / (liability) at the end	(170,793)	–

The gross movement in the current income tax asset / (liability) is as follows:

	Year ended December 31,	
	2024	2023
Net current income tax asset / (liability) at the beginning	–	–
Income tax paid	–	–
Current income tax expense	(170,793)	–
Net current income tax asset / (liability) at the end	(170,793)	–

## 2.11 Revenue from operations

Particulars	Year ended December 31,	
	2024	2023
Income from consultancy services	11,212,291	9,510,819
Total revenue from operations	11,212,291	9,510,819

## Trade receivables and Contract Balances

The timing of revenue recognition, billings and cash collections results in receivables, unbilled revenue, and unearned revenue on the Company's Balance Sheet. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals (e.g., monthly or quarterly) or upon achievement of contractual milestones.

The Company's receivables are rights to consideration that are unconditional. Unbilled revenues comprising revenues in excess of billings from time and material contracts and fixed

price maintenance contracts are classified as financial asset when the right to consideration is unconditional and is due only after a passage of time.

Invoicing to clients for other fixed-price contracts is based on milestones as defined in the contract, and therefore, the timing of revenue recognition is different from the timing of invoicing to customers. Therefore, unbilled revenues for other fixed-price contracts (contract assets) are classified as non-financial assets because the right to consideration is dependent on the completion of contractual milestones.

Invoicing in excess of earnings are classified as "unearned revenue".

Trade receivables and unbilled revenues are presented net of impairment in the Balance Sheet.

During the year ended December 31, 2024, the Company recognized revenue of EUR 53,646 arising from opening unearned revenue as of January 1, 2024.

During the year ended December 31, 2023, the Company recognized revenue of EUR 12,247 arising from opening unearned revenue as of January 1, 2023.

During the year ended December 31, 2024, EUR 0 of unbilled revenue pertaining to fixed-price development contracts as of January 1, 2024, has been reclassified to Trade receivables upon billing to customers on completion of milestones.

## Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the company has not disclosed the remaining performance obligation related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material including unit of work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency fluctuations.

The aggregate value of performance obligations that are completely or partially unsatisfied as at December 31, 2024, other than those meeting the exclusion criteria mentioned above, is Nil. The contracts can generally be terminated by the customers and typically include an enforceable termination penalty payable by them. Generally, customers have not terminated contracts without cause.

## 2.12 Other income

(In €)

Particulars	Year ended December 31,	
	2024	2023
Interest received on financial assets carried at amortized cost		
Others	142,956	35,050
	142,956	35,050

## 2.13 Employee benefit expenses & cost of software

(In €)

Particulars	Year ended December 31,	
	2024	2023
Employee benefit expenses		
Salaries including bonus	2,972,214	2,432,928
Total employee benefit expenses	2,972,214	2,432,928
Cost of software packages and others		
For own use	1,250	1,670
Third-party items bought for service delivery to clients	–	–
Total cost of software packages and others	1,250	1,670

## 2.14 Other expenses

(In €)

Particulars	Year ended December 31,	
	2024	2023
Other expenses		
Power and fuel	5,760	5,760
Brand and marketing	3,257	8,666
Printing and stationery	1,447	1,449
Rates and taxes	14,801	10,018
Repairs and maintenance	132,480	132,480
Insurance	10,164	6,663
Provision for post-sales client support and others	399	–
Statutory audit fees	14,108	14,500
Bank charges	4,411	3,770
Others	79,061	50,256
Total other expenses	265,889	233,562

## 2.15 Leases

The changes in the carrying value of right-of-use assets for the year ended December 31, 2024, are as follows:

(In €)

Particulars	Category of ROU asset			Total
	Buildings	Computer Equipment	Vehicles	
Balance as of January 1, 2024	–	39,984	–	39,984
Additions	–	3,686	–	3,686
Modification	–	(1,125)	–	(1,125)
Depreciation	–	(18,287)	–	(18,287)
Balance as of December 31, 2024	–	24,258	–	24,258

The changes in the carrying value of right-of-use assets for the year ended December 31, 2023, are as follows:

Particulars	Category of ROU asset			(In €)
	Buildings	Computer Equipment	Vehicles	Total
Balance as of January 1, 2023	–	20,090	–	20,090
Additions	–	32,224	–	32,224
Modification	–	(1,670)	–	(1,670)
Depreciation	–	(10,660)	–	(10,660)
Balance as of December 31, 2023	–	39,984	–	39,984

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

The following is the break-up of current and non-current lease liabilities as at:

Particulars	As at December 31		(In €)
	2024	2023	
Current lease liabilities	26,810	28,319	
Non-current lease liabilities	12,731	32,032	
Total	39,541	60,351	

The movement in lease liabilities during the year ended is as follows:

Particulars	For the year ended December 31,		(In €)
	2024	2023	
Balance at the beginning	60,351	50,557	
Additions	3,686	32,224	
Modifications	(1,125)	(1,670)	
Finance cost accrued during the period	1,067	294	
Payment of lease liabilities	(32,956)	(17,040)	
Translation Difference	8,518	(4,015)	
Balance at the end	39,541	60,351	

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

## 2.17 Segment reporting

The Company is engaged in providing consultancy service in a single geography. Based on the 'management approach', as defined in Ind AS 108, Segment Reporting, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on the analysis of the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment Reporting.

## 2.18 Ratios

The ratios for the years ended December 31, 2024, and December 31, 2023, are as follows:

Particulars	Numerator	Denominator	December 31, 2024	December 31, 2023	Variance
Current Ratio	Current assets	Current liabilities	1.5	1.4	11.6%
Debt – Equity Ratio	Total Debt (represents lease liabilities) <sup>(1)</sup>	Shareholder's Equity	0.0	0.0	(0.1%)
Debt Service Coverage Ratio	Earnings available for debt service <sup>(2)</sup>	Debt Service <sup>(3)</sup>	25.5	46.6	(45.2%) (4)
Return on Equity (ROE)	Net Profits after taxes	Average Shareholder's Equity	64.5%	44.9%	19.6%
Trade receivables turnover ratio	Revenue	Average Trade Receivable	11.1	8.8	27.1% (5)
Trade payables turnover ratio	Purchases of services and other expenses	Average Trade Payables	32.7	40.8	(19.8%)
Net capital turnover ratio	Revenue	Working Capital	11.7	6.7	74.7% (6)
Net profit ratio	Net Profit	Revenue	7.2%	8.0%	(0.9%)
Return on capital employed (ROCE)	Earning before interest and taxes	Capital Employed	93.1%	49.5%	43.6% (7)

<sup>(1)</sup> Debt represents only lease liabilities

<sup>(2)</sup> Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

<sup>(3)</sup> Lease payments for the current year

<sup>(4)</sup> On account of higher increase in debt service

<sup>(5)</sup> Increase in Revenue with a reduction in Average Trade Receivables

<sup>(6)</sup> Increase in Revenue and decrease in working capital.

<sup>(7)</sup> Increase in Net Profit before taxes while the Capital employed decreased year on year

## in-tech Group India Private Limited

# Independent Auditors' Report

To the members of in-tech Group India Private Limited

## Report on the Audit of the Ind AS Financial Statements

We have audited the accompanying Ind AS Financial Statements of in-tech Group India Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss, the Cash Flows Statement for the year then ended, Statement of Change in Equity for the year then ended and a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under Section 133 of the Act read with the Companies (Accounts) Rules, 2014 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its profit and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS Financial Statements.

### Information other than the Ind AS Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Ind AS Financial Statements and our Auditors' Report thereon.

Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditors' Responsibilities for the audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We are also responsible to:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## **Report on other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - (c) The Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.
  - (d) In our opinion, the aforesaid Ind AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
  - (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

- (g) In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to director is not in excess of the limit laid down under Section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
  - (i) The Company does not have any pending litigations which will impact its financial position;
  - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;
  - (iv)
    - (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - (b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
    - (c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clauses (a) and (b) contain any material misstatement; and
  - (v) The Company has not declared/paid/declared and paid any dividend during the year.
  - (vi) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

## Annexure “A” to the Independent Auditors’ Report

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub- section (3) of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of in-tech Group India Private Limited (“the Company”) as of March 31, 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to the financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to financial statements.

### Meaning of Internal Financial Controls over financial Reporting

A company’s internal financial control with reference to the financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to the financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to the financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the financial statements to future periods are subject to the risk that the internal financial control with reference to the financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to the financial statements and such internal financial controls with reference to the financial statements were operating effectively as at March 31, 2025, based on the criteria for internal financial control with reference to the financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Anexure “B” to the Auditor’s Report

Referred to in paragraph 1 under Report on Other Legal and Regulatory Requirements section of our report of even date on the standalone Ind AS financial statements of in-tech Group India Private Limited for the year ended March 31, 2025.

### Annexure to the Auditor’s Report referred to in our report of even date:

- i. a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.  
(B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.
- b) The Company has a regular program of physical verification of its property, plant and equipment and right-of-use assets once in every two years by which the property, plant and equipment are verified by the management according to a phased program designed to cover all the items over a period of four years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. In accordance with the program, the Company has physically verified certain property, plant and equipment during the year and no material discrepancies were noticed on such verification.
- c) The Company does not own any immovable properties, hence reporting under clause 3(i) (c) is not applicable to the Company.
- d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment or intangible assets or both during the year.
- e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- ii. The Company did not hold any inventory during the current financial year, hence reporting under Clauses 3(ii)(a) to 3(ii)(b) is not applicable to the Company.
- iii. According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.
- iv. According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.
- v. According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.
- vi. The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.
- vii. a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services tax, Provident Fund, Employees’ State Insurance, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. The amounts deducted / accrued in the books of account in respect of undisputed statutory dues of Income-tax have generally been regularly deposited during the year by the Company with the appropriate authorities.  
  
According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of outstanding statutory dues in respect of Goods and Services tax, Provident fund, Employees’ State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Employees’ State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other material statutory dues as at 31 March 2025, which have not been deposited with the appropriate authorities on account of a dispute.
- viii. According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

- ix.
  - a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
  - b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.
  - c) In our opinion and according to the information and explanations given to us, the term loans have been applied for the purpose for which the loans were obtained.
  - d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long- term purposes as at the Balance Sheet date.
  - e) The Company does not have any subsidiaries, joint ventures or associates, therefore reporting under clause 3 (ix) (e) is not applicable.
  - f) The Company does not have any subsidiaries, joint ventures or associates, therefore reporting under clause 3 (ix) (f) is not applicable.
- x.
  - a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.
  - b) According to the information and explanations given to us, the Company has not made preferential allotment or private placement of shares or convertible debentures during the year. Accordingly, the reporting under clause 3(x)(b) of the order is not applicable to the Company.
- xi.
  - a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.
  - b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.
  - c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.
- xii. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.
- xiii. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone Ind AS financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures, specified under Section 133 of the Act.
- xiv.
  - a) In our opinion and based on our examination, the Company does not have an internal audit system and is not required to have an internal audit system as per the provisions of the Act.
  - b) In our opinion and based on the information provided, section 138 is not applicable to the Company and thus, clause 3 (xiv)(b) of the order is not applicable to the Company.
- xv. According to the information and explanations given to us, the Company has not entered into any non- cash transactions with its directors or directors of its holding, subsidiary or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.
- xvi.
  - a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.
  - b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.
  - c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.

- xvii. In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.
- xviii. There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone Ind AS financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.
- xx. According to the information and explanations given to us, provisions of section 135 in relation to Corporate Social Responsibility are not applicable to the Company, hence reporting under clause 3(xx) of the Order is not applicable to the Company.

## 2. Summary of material accounting policies

### 2.1 Basis of preparation of financial statements

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and the Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable.

These financial statements are the Company's first Ind AS financial statements. The Company has adopted all the Ind AS standards and adoption was carried out in accordance with Ind AS 101, First time Adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Reconciliations and descriptions of the effect of the transition have been summarized in Note 2.24.

### 2.2 Presentation currency

The Company's presentation currency is Indian Rupee (₹).

### 2.3 Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### 2.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the accounting policies and reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements

and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 2.5 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

### 2.6 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

### 2.7 Revenue recognition

The Company derives revenue from IT software development and consultancy services and IT enabled services.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

Revenue on time-and-material contracts and unit-of-work-based contracts are recognized as the related services are performed. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled

revenue, while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

## 2.8 Other income

Interest income is accounted on accrual basis and dividend income is recognized in the Statement of Profit and Loss on the date that the Company's right to receive payment is established.

## 2.9 Property, plant and equipment

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

### Capital work-in-progress

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost and related incidental expenses.

### Capital advances

Advances paid towards acquisition of property plant and equipment are included under long-term loans and advances.

## 2.10 Depreciation and amortization

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on property, plant and equipment has been provided using the straight-line method over the estimated useful life.

Intangible assets are amortized over their estimated useful life on straight-line method. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

Asset block	Useful life (years)
Computers	3
Office equipment	5

## 2.11 Foreign currency translation

### Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

### Measurement at the Balance Sheet date

Foreign currency monetary items of the Company, outstanding at the Balance Sheet date, are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

## Treatment of exchange differences

Company: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognized as income or expense in the Statement of Profit and Loss.

Integral foreign operations: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company's integral foreign operations are recognized as income or expense in the Statement of Profit and Loss.

## 2.12 Employee benefits

### Defined contribution plans

#### a) Provident fund

Contributions towards Employees' Provident Fund are made to the Employees' Provident Fund Scheme maintained by the Central Government and the Company's contribution to the fund are recognized as an expense in the year in which the services are rendered by the employees.

### Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in other comprehensive income and not reclassified to profit or loss in subsequent periods.

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within 12 months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) In case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) In case of non-accumulating compensated absences, when the absences occur.

### Long-term employee benefits

Compensated absences, which are not expected to occur within 12 months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

## 2.13 Borrowing costs

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the

tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalization of such asset are added to the cost of the assets. Capitalization of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

## 2.14 Segment reporting

Based on the 'Management Approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment reporting

## 2.15 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

## 2.16 Impairment of assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceeds the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at the revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

## 2.17 Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognized in the financial statements.

## 2.18 Taxes on income

Income tax expense is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. It establishes provisions where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

## 2.19 Leases

The Company's lease assets primarily consist of leases of buildings. For new leases entered into, the Company considers whether a contract is, or contains, a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company obtains substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At lease commencement date, the Company recognizes a Right-Of-Use (ROU) asset and a lease liability on the Balance Sheet. The ROU asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

At lease commencement date, the Company measures the lease liability at the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable
- Variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- Amounts expected to be payable by the Company under residual value guarantees
- The exercise price of a purchase option if the Company is reasonably certain to exercise that option, and
- Payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses publicly available lending rates for secured borrowing of a loan with similar term as the lease period, since the Company is debt-free and does not have a readily available entity specific lending rate of a loan with similar characteristics.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Company depreciates the ROU assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the ROU asset or the end of the lease term. If the Company is reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. The Company also assesses the ROU asset for impairment when such indicators exist.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a ROU asset and lease liability, the payments in relation to these are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

## 2.20 Financial Instruments

### Financial assets

#### Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through Other Comprehensive Income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the business model for managing them. The Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

#### Subsequent measurement

A financial asset is measured at amortized cost only if both of the following conditions are met:

- It is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- The contractual terms of the financial asset represent contractual cash flows that are SPPI.

After initial measurement, such financial assets are subsequently measured at amortized cost using the EIR (Effective Interest Rate) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either

- The Company has transferred substantially all the risks and rewards of the asset, or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset and the sum of the consideration received is recognized in the Statement of Profit and Loss.

## 2.21 Financial liabilities and equity instruments

### Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the proceeds received, net of direct issue costs.

### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, financial liabilities are measured at fair value and subsequently measured at amortized cost.

Interest bearing debt is initially measured at fair value and are subsequently measured at amortized cost using the EIR method.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. Any difference between the proceeds and the settlement or redemption of borrowings is recognized over the term of the borrowings in the statement of profit and loss.

### Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

## 2.22 Fair value measurement

The Company measures financial instruments, such as derivatives at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset at its highest and best use or by selling it to another market participant that would use the asset at its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Inputs are quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## 2.23 Reconciliations

The following reconciliations provide the effect of transition to Ind AS from IGAAP in accordance with Ind AS 101:

1. Equity as at April 1, 2023 and March 31, 2024

2. Net profit for the year ended March 31, 2024

(In ₹ thousand)

Profit before tax		4,849	(456)	4,393
Tax expense				
Current tax		1,212	–	1,212
Deferred tax		25	(114)	(89)
Profit for the year		3,612	(342)	3,270
Other comprehensive income / (loss)				
Items that will not be reclassified subsequently to profit or loss		–		–
Remeasurement gains on defined benefit plans, net of tax	A	–	34	34
Other comprehensive expense for the year		–	34	34
Total comprehensive income for the year		3,612	(308)	3,304

Note: A – Gain / loss due to remeasurement of defined benefit obligation is presented in other comprehensive income in accordance with Ind AS 19.

Note: B – Pertains to interest on lease liability as per Ind AS 116

Note: C – Pertains to amortization of ROU assets as per Ind AS 116

Note: D – Rental expense recorded under previous GAAP is reversed

## 2.25 Reconciliations

Total equity as on March 31, 2024 and April 1, 2023

(In ₹ thousand)			
Particulars	Note	As at April 1, 2023	As at March 31, 2024
Total equity as per previous GAAP		1,080	4,692
Adjustments due to adoption of Ind AS			
ROU Assets	B	6,345	12,549
Other financial assets – Security deposit	B	–	–
Impact of deferred tax	A	92	196
Lease liability	B	(6,709)	(13,338)
Total equity as per Ind AS		808	4,099

Note: A – Pertains to deferred tax impact on account of recognition of ROU assets and lease liability on transition

Note: B – On transition to Ind AS and upon adoption of Ind AS 116, Leases, the Company has recognized ROU asset of ₹6,345 thousand and a lease liability of ₹6,709 thousand. The net impact is adjusted in the retained earnings, net of taxes.

### 2.25.1 Exemptions availed on first-time adoption of Ind AS 101

Ind AS 101 allows first-time adopted certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions:

#### A. Leased assets

The Company adopted Ind AS 116, Leases, and applied the standard to all lease contracts existing on April 1, 2023 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the ROU asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate as at April 1, 2023.

On transition, the adoption of Ind AS 116 resulted in recognition of ROU asset of ₹6,345 thousand and a lease liability of ₹6,709 thousand. The cumulative effect of applying the standards was debited to retained earnings, net of taxes. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The summary of practical expedients elected on initial application is as follows:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize ROU assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the ROU asset at the date of initial application.

#### B. Property, plant and equipment and intangibles

The carrying amount of property, plant and equipment and intangibles under Indian GAAP as at the date of transition is considered as deemed cost as per Ind AS 101.

## 3. Property, plant and equipment

(In ₹ thousand)

### b) Rights, preferences and restrictions attached to equity shares

The Company has only one class of equity shares having a par value of ₹10 each. Each holder of equity shares is entitled to one vote per share. Dividends proposed by the Board of Directors, if any, are subject to the approval of the shareholders at the Annual General Meeting, except in the case of interim dividend.

In the event of liquidation of the Company, the repayment of capital will be in proportion to the number of equity shares held by the shareholders.

### c) Details of shares held by the holding company, and its subsidiaries:

Name of the shareholder	As at March 31, 2025		As at March 31, 2024		As at April 1, 2023

Total outstanding dues of creditors other than micro and small enterprises (Refer to Note 14.1 for ageing summary)	1,305	1,343	556
Total	1,305	1,343	556

The information as required to be disclosed pursuant under the Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act, 2006) has been determined to the extent such parties have been identified on the basis of information available with the Company.

(In ₹ thousand)

Particulars	For the year ended March 31,		
	2025	2024	2023
The principal amount remaining unpaid to any supplier at the end of each accounting year;	–	–	
The interest due thereon remaining unpaid to any supplier at the end of each accounting year;	–	–	
The amount of interest paid by the buyer in terms of Section 16 of the MSMED Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day during each accounting year;	–	–	
The amount of interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under the MSMED Act, 2006;	–	–	
The amount of interest accrued and remaining unpaid at the end of each accounting year; and	–	–	–
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under Section 23 of the MSMED Act, 2006	–	–	–

Note: There are no dues to micro and small enterprises to whom the Company owes dues, which are outstanding for more than 45 days or due date whichever is earlier, as at the year end. This information as required to be disclosed under the MSMED Act, 2006 has been determined to the extent such parties have been identified on the basis of information available with the Company. This has been relied upon by the auditors.

Total deferred income tax assets / (liabilities)	241	444	61	746

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended March 31, 2024 is as follows:

(In ₹ thousand)				
Particulars	Carrying value as of April 1, 2023	Changes through profit and loss	Changes through OCI	Carrying value as of March 31, 2024
Deferred income tax assets / (liabilities)				
Property, plant and equipment	46	(123)	–	(77)
Accrued compensation to employees	24	109	(11)	122
ROU asset	(1,597)	(1,561)		(3,158)
Service bonus	–	–	–	–
Compensated absences	–	–	–	–
Lease liabilities	1,689	1,664	–	3,354
MAT credit utilized during the year	–	–	–	–
Total deferred income tax assets / (liabilities)	162	89	(11)	241

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 16. Revenue from operations

### Effects on adoption of Ind AS 115

The Company has elected to adopt Ind AS 115 using the modified retrospective method. An entity that elects the modified retrospective method would apply Ind AS 115 retrospectively to only the current period by recognizing the cumulative effect of initially applying Ind AS 115 as an adjustment to the opening balance of retained earnings at the date of application (April 1, 2023 in case of the Company).

Under the modified retrospective method, the comparative information in the financial statements would not be restated and would be presented based on the requirements of the previous standard. The impact of adoption of the standard on the financial statements is insignificant and hence, no further adjustments are made.

## Revenue from operations

(In ₹ thousand)

Particulars	For the year ended March 31,	
	2025	2024
Export sale of service (IT software development and consultancy services and Information Technology Enabled Services)	88,401	36,588
Total	88,401	36,588

Notes: Performance obligations and remaining performance obligations

The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognized as at the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation-related disclosures for contracts where the revenue recognized corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time-and-material basis and unit-of-work-based contracts. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in the scope of contracts, periodic revalidations, adjustment for revenue that has not materialized and adjustments for currency.

## 17. Other income

(In ₹ thousand)

Particulars	For the year ended March 31,

Other financial liabilities	12	4,401	–	–	4,401	–	–	–	–
Total financial liabilities		4,957	–	–	4,957	–	–	–	–

Notes: The carrying value of all the items in the table above has been classified as amortized cost. Amortized cost is deemed to be the carrying value.

### Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## 22. Financial risk management

The Company's principal financial liabilities comprise of borrowing, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents and other bank balances that derive directly from its operations.

The Company's activities expose it to market risk, credit risk and liquidity risk.

### (a) Risk management framework

The Company's risk management is carried out by the Management under the policies approved by the Board of Directors that help in identification, measurement, mitigation and reporting all risks associated with the activities of the Company. These risks are identified on a continuous basis and assessed for the impact on financial performance. The Board of Directors reviews and decides the policies for managing each of these risks, which are summarized below.

### (b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, trade receivables, trade payables, deposits and investments.

#### (i) Foreign currency risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

#### (ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any debt and hence does not carry any interest rate risk.

### (c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to the credit risk from its trade receivables, unbilled revenue, cash and cash equivalents and bank deposits. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

#### (i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a credit evaluation before entering into an arrangement. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company considers the credit risk with respect to trade receivables as low, since majority of the customers are parties with good reputes and are regular in discharging their obligation within the credit period provided by the Company. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information.

Expected credit loss for the years ended March 31, 2025 and 2024 and April 1, 2023 is nil.

## (ii) Financial instrument and cash deposit

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

## (d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2025 are as follows:

(In ₹ thousand)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Borrowing	19,308	–	–	19,308
Trade payables	1,305	–	–	1,305
Other financial liabilities	2,454	–	–	2,454
	3,759	–	–	3,759

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2024 were as follows:

(In ₹ thousand)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Trade payables	1,343	–	–	1,343
Other financial liabilities	7,822	–	–	7,822
	9,165	–	–	9,165

The details regarding the contractual maturities of significant financial liabilities as at April 1, 2023 were as follows:

(In ₹ thousand)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Trade payables	556	–	–	556
Other financial liabilities	4,401	–	–	4,401
	4,957	–	–	4,957

## Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

## 23. Contingent liabilities and commitments

As at March 31, 2025, March 31, 2024 and April 1, 2023, the contingent liabilities and commitments of the Company were nil respectively.

## 24. Employee benefits

### Provident Fund (PF)

The Company makes PF contributions, which are defined contribution plans, for qualifying employees. Under the schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. As at March 31, 2025, the Company recognized ₹2,292 thousand (year ended March 31, 2024 – ₹1,147 thousand) for PF contributions.

## Compensated absences

The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date.

## Gratuity

The following table sets out the details of the defined benefit retirement plans and the amounts recognized in the standalone financial statements as at March 31, 2025 and March 31, 2024:

Particulars	(In ₹ thousand)	
	Gratuity	
	2025	2024
Change in benefit obligations		
Benefit obligations at the beginning	483	94
Service cost	889	425
Interest expense	35	9
Past service cost – Plan amendments		
Transfer		
Remeasurements – Actuarial (gains) / losses	243	(45)
Employee contribution		
Benefits paid		
Translation difference	–	–
Benefit obligations at the end	1,651	483
Funded status	(1,651)	(483)
Defined benefit plan asset	–	–
Defined benefit plan liability	(1,651)	(483)

The amount for the years ended March 31, 2024 and March 31, 2023 recognized in the Statement of Profit and Loss under employee benefit expense are as follows:

Particulars	(In ₹ thousand)	
	Gratuity	
	2025	2024
Service cost	889	425
Net interest on the net defined benefit liability / asset	35	9
Net cost	924	434

The amount for the years ended March 31, 2024 and March 31, 2023 recognized in the Statement of Other Comprehensive Income are as follows:

Particulars	(In ₹ thousand)	
	Gratuity	
	2025	2024
Remeasurements of the net defined benefit liability / (asset)		
Actuarial (gains) / losses	243	(45)
	243	(45)
Actuarial gains / losses		

Particulars	Gratuity	
	2025	2024
(Gain) / loss from change in demographic assumptions	(12)	–
(Gain) / loss from change in financial assumptions	59	17
(Gain) / loss from change in experience assumptions	197	(62)
	243	(45)

The weighted-average assumptions used to determine benefit obligations as at March 31, 2025 and March 31, 2024 are as follows:

Particulars	Gratuity	
	2025	2024
Discount rate <sup>(1)</sup>	6.9%	7.2%
Weighted average rate of increase in compensation levels <sup>(1)</sup>	10.0%	10.0%
Weighted average duration of defined benefit obligation – years <sup>(2)</sup>	11.07	11.21

The weighted-average assumptions used to determine net periodic benefit cost for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	Gratuity	
	2025	2024
Discount rate	6.9%	7.2%
Weighted average rate of increase in compensation levels	10.0%	10.0%

<sup>(1)</sup> The average rate of increase in compensation levels is determined by the Company, considering factors such as the Company's past compensation revision trends, inflation in respective markets and management's estimate of future salary increases.

<sup>(2)</sup> Attrition rate considered is the Management's estimate based on the past long-term trend of employee turnover in the Company. The tenure has been considered taking into account the past long-term trend of employees' average remaining service life, which reflects the average estimated term of post-employment benefit obligation.

The Company assesses all the above assumptions with its projected long-term plans of growth and prevalent industry standards.

Sensitivity analysis – Impact of change in assumptions of actuarial valuation as on March 31, 2025

Assumption	Rate	Change	Present value of obligation	Impact
Discount rate	5.90%	(1%)	1,872	222
Discount rate	7.90%	1%	1,467	(184)
Salary increment rate	9.00%	(1%)	1,484	(167)
Salary increment rate	11.00%	1%	1,846	196
Withdrawal rate	7.00%	(1%)	1,704	54
Withdrawal rate	9.00%	1%	1,605	(46)

## 26. Segment reporting

The Company's operation predominantly relates to providing IT support services to its related party. Based on the 'management approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment reporting.

## 27. Earnings per share

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Basic and diluted		
Profit for the year (in ₹ thousand)	7,364	3,270
Weighted average number of equity shares	10,000	10,000
Nominal value of shares (₹)	10	10
Earnings per share (₹)		
Basic	736.40	327.00
Diluted	736.40	327.00

## 28. Summary of variance in ratio

Ratio	Numerator	Denominator	For the year ended March 31, 2025	For the year ended March 31, 2024	Variance (%)	Explain reason for variance if above 25%
Current ratio	Current assets	Current liabilities	1.2	0.8	44%	Refer to Note 1
Debt-equity ratio	Total debt	Total shareholders' equity	1.7	NA	100%	Refer to Note 2
Debt service coverage ratio	Earnings available for debt service	Debt service	5	NA	100%	Refer to Note 2
Return On Equity ratio	Net profit after tax	Average shareholders' equity	96%	133%	(28%)	Refer to Note 3
Inventory turnover ratio	COGS or sales	Average inventory	NA	NA	NA	NA
Trade receivables turnover ratio	Net credit sales	Average accounts receivable	15.6	–	100%	Refer to Note 1
Trade payables turnover ratio	Net credit purchases	Average trade payables	NA	NA	NA	NA
Net capital turnover ratio	Net sales	Average working capital	70.44	(18.3)	(484%)	Refer to Note 1
Net profit ratio	Net profit after tax	Total income	8.33%	8.94%	(7%)	NA
Return On Capital Employed	Earnings before interest and tax	Capital employed	53%	29%	84%	Refer to Note 2

**Note 1:**

Current ratio has primarily increased due to change in trade receivables.

**Note 2:**

There were no borrowings as at year ended March 31, 2024 and debt has been infused in FY2024-25.

**Note 3:**

Due to increase in interest expense on account of debt infusion in FY2024-25.

# Independent Auditor's Report

To the Members of Blitz 24-893 SE

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of Blitz 24-893 SE ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's Board of Directors are responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Statement of Cash Flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated. The company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

## Report on the Special Purpose Financial Statements

### Opinion

We have audited the accompanying special purpose financial statements of INFY Tech SAS ("the Company"), which comprise the Balance Sheet as at December, 31<sup>st</sup> 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the period ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the special purpose financial statements"). The special purpose financial statements are prepared for inclusion in the annual report of the Holding Company Infosys Limited under the requirements of section 129 (3) of the Companies Act 2013.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements gives a true and fair view in conformity with the basis of preparation referred to in Note 1.2 of the special purpose financial statements, of the state of affairs of the Company as at December 31, 2024, the profit and total comprehensive income, changes in equity and its cash flows for the period ended on that date.

### Basis for Opinion

We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the special purpose financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements.

### Management's Responsibilities for the Special Purpose Financial Statements

The Company's management is responsible for the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the basis described in Note 1.2 of the special purpose financial statement.

This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the reparation and presentation of the special purpose financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Company's management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The management is responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the special purpose financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the special purpose financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the special purpose financial statements.

- i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- iii) the Balance Sheet, the Statement of Profit and Loss and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Significant accounting policies

## Company overview

INFY Tech SAS is a wholly-owned subsidiary of Infosys Singapore Pte Ltd incorporated on July 3, 2024. The Company provides IT services and solutions in the field of technological, social and other activities.

## 1 Significant accounting policies

### 1.1 Accounting year

The accounting year of the Company is from January 1 to December 31.

### 1.2 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied, except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

### 1.3 Presentation currency

The Company's presentation currency is Euro (EUR).

### 1.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the reported balance of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

## 1.5 Financial instruments

### 1.5.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs directly attributable to the acquisition or issue of financial assets and liabilities, other than those measured at fair value through profit or loss, are added to the initial fair value of the financial instrument. Regular purchase and sale of financial assets are accounted at trade date.

### 1.5.2 Subsequent measurement

#### a. Non-derivative financial instruments

##### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through Other Comprehensive Income (FVOCI), if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. The contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

##### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair-valued through profit or loss.

##### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

## 1.6 Foreign currency

### Functional currency

The functional currency of the company INFY Tech SAS is the Euro (EUR). These financial statements are presented in its functional currency.

### Transactions and translations

Foreign currency-denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

## 1.7 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement

of Profit and Loss, except to the extent that it relates to items recognized directly in equity, in which case it is recognized in Other Comprehensive Income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

## 1.8 Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or

expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

## 2.1 Cash and cash equivalents

(In EUR)

Particulars	As at December 31, 2024
Balances with banks	
In current accounts	10,000
Total cash and cash equivalents	10,000

<sup>(39)</sup> Kaleidoscope Animations, Blue Acorn iCi Inc and Outbox systems Inc. dba Simplus (US) merged into Infosys Nova Holdings LLC effective January 1, 2025.

## Infosys Services (Thailand) Ltd.

# Report of the Independent Certified Public Accountants

To the Shareholders and Board Of Directors

Infosys Services (Thailand) Ltd.

## Opinion

We have audited the financial statements of Infosys Services (Thailand) Ltd. (the “Company”), which comprise the statement of financial position as at March 31, 2025, and the related statements of income, and changes in shareholders’ equity for the period from July 26, 2024 (Date of incorporation) to March 31, 2025, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Infosys Services (Thailand) Ltd. as at March 31, 2025, and its financial performance for the period from July 26, 2024 (Date of incorporation) to March 31, 2025 in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities.

## Basis for Opinion

We conducted our audit in accordance with Thai Standards on Auditing (“TSAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the financial statements

## 1. Operations and general information of the company

Infosys Services (Thailand) Ltd. (the Company) was incorporated under the Thai Civil and Commercial Code on July 26, 2024. The Company's registered address is located at No. 319, Chamchuri Square, Floor 24, Room No. 24016, Phayathai Road, Pathumwan, Bangkok, 10330, Thailand. The main objective of the Company is to provide advice and services on IT related matters and IT support.

The Company's major shareholder and the ultimate parent company is Infosys Limited which was registered in India holding 99.99 % of the Company's shares capital.

The Company has extensive transactions and relationships with its related companies. Accordingly, the financial statements may not necessarily be indicative of the conditions that would have existed or the results of operations that would have occurred if the Company had operated without such affiliation.

## 2. Basis for preparation and presentation of the financial statements

**2.1** The financial statements of the Company have been prepared and presented in Thai Baht currency, in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities (Revised 2022) (TFRS for NPAEs) issued by the Federation of Accounting Professions, and accounting practices generally accepted in Thailand.

**2.2** The financial statements of the Company have been prepared in compliance with the Notification of the Department of Business Development regarding, 'The Brief Particulars in the Financial Statements B.E. 2566'.

**2.3** The financial statements have been prepared under the historical cost convention except as disclosed in the significant accounting policies (Refer to Note 3).

**2.4** The financial statements are prepared in English version followed the statutory financial statements prepared in Thai language. In the event of any conflict or different interpretation in two languages, the Thai version of the statutory financial statements will prevail.

## 3. Significant accounting policies

The significant accounting policies are summarized as follows:

### 3.1 Cash and cash equivalents

Cash and cash equivalents are cash on hand and all types of deposits at banks and financial institutions with original maturities of 3 months or less from date of acquisition, excluding deposits at banks and financial institutions used as collateral, if any.

### 3.2 Other current receivables

Other current receivables are stated at their invoice valueless allowance for doubtful accounts, if any.

An allowance for doubtful accounts is calculated on the expected uncollectible debts based on past collection experience and the analysis of aging of each debtor.

### 3.3 Revenues and expense recognition

Revenue from rendering services is recognized when the services are rendered.

Other income and expenses are recognized on the accrual basis.

### 3.3 Tax expense

Tax expenses, if any, are based on tax paid and accrued for the year.

### 3.4 Use of the Management's judgments

The preparation of financial statements in conformity with TFRS for NPAEs and accounting practices generally accepted in Thailand requires the Company's Management to exercise various judgment in order to determine the accounting policies, estimates and assumptions that affect the reported amounts of assets, liabilities and the disclosure of contingent assets and liabilities at the last date of the reporting period and the reported amounts of revenue and expenses during the reporting period. Although these estimates are based on management's reasonable consideration of current events, actual results may differ from these estimates.

## 4. Cash and cash equivalents

Cash and cash equivalents as at March 31, 2025, are as follows:

(In Baht)	
Particulars	As at March 31, 2025
Deposits at bank - current account	41,312,261
	41,312,261

## 5. Other current receivables

Other current receivables as at March 31, 2025, are as follows:

(In Baht)	
Particulars	As at March 31, 2025
Prepaid expenses	369,440
Value added tax receivables	232,245
Unbilled receivables	3,950,393
Others	100
	4,552,178

## 6. Trade and other payables

Trade and other payables as at March 31, 2025, are as follows:

(In Baht)	
Particulars	As at March 31, 2025
Trade payable - related companies	3,011,508
Accrued salaries and benefits	888,542
Accumulated absences	231,764
Other payables	140,962
	4,272,776

## 7. Share capital

On July 26, 2024, the Statutory Meeting passed a resolution to approve an initial registered capital amount of Baht 2,000,000 by issuing 200,000 ordinary shares at par value of Baht 10. The Company called fully payment at Baht 10 per share, totaling Baht 2,000,000.

The Company registered with Department of Business Development, Ministry of Commerce on July 26, 2024 and received fully payment on August 9, 2024. Subsequently, on December 31, 2024, the Extraordinary General Meeting of shareholder passed a special resolution to increase the registered capital to Baht 50,000,000 by issuing 4,800,000 ordinary shares at par value of Baht 10. The company called full payment of Baht 10 per share, totaling Baht 48,000,000. The Company registered with Department of Business Development, Ministry of Commerce on July 26, 2024 and received fully payment on December 23, 2024.

## 8. Income tax expense

The Company used tax rate of 20% for the income tax calculation for the period from July 26, 2024 (Date of incorporation) to March 31, 2025. Income tax expense is calculated from income before tax, added back transactions which are non-deductible expenses and deducted income or expenses exemption under the Revenue Code. As a result, the Company has an effective income tax rate different from the stated tax rate.

## 9. Approval for issuing the financial statements

The financial statements have been approved for issuance by the authorized director of the Company on May 22, 2025.

## Elbrus Labs Private Limited

# Independent Auditor's Report

To the Members of Elbrus Labs Private Limited  
New Delhi.

## Report on the Standalone Financial Statements

### Opinion

We have audited the accompanying standalone financial statements of M/s Elbrus Labs Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity, the Statement of Cash Flow for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards, prescribed under section 133 of the Act ("Ind AS"), and other accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2025, and its Profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

## Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure-A a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
  - (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - (b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
  - (c) the Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
  - (d) in our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act;
  - (e) on the basis of written representations received from the directors as on March 31, 2025, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of section 164(2) of the Act.
  - (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure-B.
  - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company does not have any pending litigations which would impact its financial position;
    - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
    - iv.
      - (i) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
      - (ii) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
      - (iii) Based on audit procedures which we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement.
    - v. The company has not declared or paid any dividend during the year in contravention of the provisions of section 123 of the Companies Act, 2013.
    - vi. Based on our examination which includes test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of audit, we have not come across any instance of audit trail feature being tampered with and same has been preserved by the Company as per statutory requirement for record retention.

- (h) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act, in our opinion and according to the information and explanations given to us, the Company has not paid any remuneration to its directors during the year.

# Annexure-A to the Audit Report of Elbrus Labs Private Limited for the year ended March 31, 2025

(Referred to in paragraph 1 under “Report on Other Legal and Regulatory Requirements” section of our report of even date)

1. (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment.  
(B) The company has maintained proper records showing full particulars of intangible assets.  
(b) The Property, Plant and Equipment were physically verified during the year by the Management in accordance with its regular programme of verification which in our opinion provides for physical verification of the same at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.  
(c) According to the information and explanations given to us, the Company did not have any immovable properties.  
(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.  
(e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any Benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
2. (a) During the year, the Company has not traded in any inventory and hence the comments under paragraph 3(ii)(a) are not applicable.  
(b) The Company has not been sanctioned working capital limits in excess of five crore rupees in aggregate at any points of time during the year from banks and financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.
3. During the year, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties and hence reporting under clause 3(iii) of the Order is not applicable.
4. During the year, in respect of loans, investments, guarantees, and security (if any), provisions of section 185 and 186 of the Companies Act, 2013 have been complied.
5. Since the company has not accepted any deposits the comments under paragraph 3(v) of the Order are not applicable.
6. Maintenance of cost records has not been prescribed by the Central Government for the products/services of the company.
7. (a) The company has been generally regular in depositing undisputed statutory dues including Goods & Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Cess and any other statutory dues applicable to it with the appropriate authorities. There were no outstanding statutory dues as on 31<sup>st</sup> March 2025, for a period of more than six months from the date they became payable.  
(b) There were no disputed statutory dues which have not been deposited with the respective authorities.
8. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.
9. (a) The Company has not defaulted in repayment of loans or borrowings or the payment of interest thereon to any lender.  
(b) According to the information and explanation provided to us, the Company is not a declared willful defaulter by any bank or financial institution or other lender.  
(c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.  
(d) The funds raised on short term basis have not been utilized for long term purpose.  
(e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.  
(f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

10. (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year.  
(b) During the year, the company has not made private placement of shares.
11. (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no fraud on the Company by its officers or employees have been noticed or reported during the year.  
(b) During the year no report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.  
(c) As auditor, we did not receive any whistle-blower complaint during the year.
12. The Company is not a 'Nidhi Company' as per Section 406 of Company Act 2013 accordingly comments under paragraph 3(xii) is not applicable.
13. In our opinion and according to the information and explanations given to us, the Company is in compliance with section 177 and 188 of Companies Act, 2013 where applicable, for transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
14. The company is not covered by section 138 of the Companies Act, 2013, related to appointment of internal auditor for the year. Hence, the comments under paragraph 3(xiv) of the Order are not applicable.
15. During the year Company has not entered into any non-cash transaction with directors or persons connected with him.
16. (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.  
(b) The company has not conducted any Non-Banking Financial or Housing Finance activities during the year.  
(c) The company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India.  
(d) As per the information and explanations provided to us, Company is not part of any CIC Group.
17. The company has not incurred cash losses during the current financial year and in the immediately preceding financial year.
18. There has been no resignation of the previous statutory auditors during the year.
19. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
20. The requirements of Corporate Social Responsibility (CSR) expenditure under Section 135 are not applicable to the Company for the year and hence the comments under paragraph 3(xx) of the Order are not applicable.
21. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

(Referred to in paragraph 2(f) of our report of even date)

## Opinion

In our opinion, considering nature of business, size of operation and organizational structure of the entity, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Management's Responsibility for Internal Financial Control over Financial Reporting

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the standalone financial statements and their

operating effectiveness. Our audit of internal financial controls with reference to the standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the standalone financial statements.

## Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of

unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## 1. General information

Elbrus Labs Private Limited ("the Company") is a wholly-owned subsidiary of InSemi Technology Services Private Limited and was incorporated on October 1, 2018 as a private limited company with its registered office at Noida as an Information Technology (IT) software development, consultancy organization and IT enabled services.

## 2. Summary of material accounting policies

### 2.1 Basis of preparation of financial statements and Statement of Compliance

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and the Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable.

These financial statements are the Company's first Ind AS financial statements. The Company has adopted all the Ind AS standards and adoption was carried out in accordance with Ind AS 101, First time adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Reconciliations and descriptions of the effect of the transition have been summarized in Note 3. Comparatives for the previous year have been regrouped / reclassified to conform to the current year's grouping and presentation under Ind AS.

### 2.2 Presentation currency

The Company's presentation currency is Indian Rupees (₹), rounded off to nearest lakh.

### 2.3 Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### 2.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the accounting policies and reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of percentage of completion, which requires the Company to estimate the

efforts or costs expended to date as a proportion of the total efforts to be expended, impairment losses on financial assets, income taxes, post-sales customer support, and the useful lives of property, plant, and equipment.

### 2.5 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

### 2.6 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

### 2.7 Revenue recognition

The Company derives revenue from IT software development and consultancy services and IT enabled services.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

Revenue on time-and-material contracts and unit-of-work-based contracts are recognized as the related services are performed. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the estimated efforts or costs to complete the contract. The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

Fixed-price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price maintenance contracts is recognized ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

## 2.8 Other income

Interest income is accounted on accrual basis and dividend income is recognized in the Statement of Profit and Loss on the date that the Company's right to receive payment is established.

## 2.9 Property, plant and equipment

The charge in respect of periodic depreciation is derived after determining the estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

### Capital work-in-progress

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct cost and related incidental expenses.

### Capital advances

Advances paid towards acquisition of property plant and equipment are included under long-term loans and advances.

## 2.10 Depreciation and amortization

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life mentioned below:

Asset block	Useful life (years)
Computer equipment	3
Office equipment	5
Furniture and fixtures	5

Effective April 1, 2024, the Company changed the method of depreciation from Written Down Value (WDV) to straight-line method. The useful lives of the assets have been determined in accordance with Ind AS 16, Property Plant Equipment. The effect of this change is not material for the year ended March 31, 2025.

Management believes that the useful lives considered best represents the period over which management expects to use these assets.

## 2.11 Foreign currency translation

### Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

### Measurement at the Balance Sheet date

Foreign currency monetary items of the Company, outstanding at the Balance Sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

### Treatment of exchange differences

Company: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognized as income or expense in the Statement of Profit and Loss.

Integral foreign operations: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company's integral foreign operations are recognized as income or expense in the Statement of Profit and Loss.

## 2.12 Employee benefits

Defined contribution plans

### Provident fund

Contributions towards Employees' Provident Fund are made to the Employees' Provident Fund Scheme maintained by the Central Government and the Company's contribution to the fund are recognized as an expense in the year in which the services are rendered by the employees.

### Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in other comprehensive income and not reclassified to profit or loss in subsequent periods.

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentives and compensated absences, which are expected to occur within 12 months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

(a) In case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and

(b) In case of non-accumulating compensated absences, when the absences occur.

## Long-term employee benefits

Compensated absences, which are not expected to occur within 12 months after the end of the period in which the employee renders the related service, are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

## 2.13 Borrowing costs

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalization of such asset are added to the cost of the assets. Capitalization of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

## 2.14 Segment reporting

Based on the 'Management Approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108.

## 2.15 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, which have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

## 2.16 Impairment of assets

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss

if there has been a change in the estimates used to determine the recoverable amount.

## 2.17 Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the notes. Contingent assets are not recognized in the financial statements.

## 2.18 Taxes on income

Income tax expense is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. It establishes provisions where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

## 2.19 Leases

The Company's lease assets primarily consist of leases of buildings. For new leases entered into, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an

asset (the underlying asset) for a period of time in exchange for consideration'. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company obtains substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At lease commencement date, the Company recognizes a Right-Of-Use (ROU) asset and a lease liability on the Balance Sheet. The ROU asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

At lease commencement date, the Company measures the lease liability at the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable
- Variable lease payment that is based on an index or a rate, initially measured using the index or rate as at the commencement date
- Amounts expected to be payable by the Company under residual value guarantees
- The exercise price of a purchase option if the Company is reasonably certain to exercise that option, and
- Payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the ROU asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- Where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received; and
- Makes adjustments specific to the lease, e.g. term, country, currency and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Company depreciates the ROU assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the ROU asset or the end of the lease term. If the Company is reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. The Company also assesses the ROU asset for impairment when such indicators exist.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the ROU asset.

The Company has elected to account for short-term leases and leases of low-value assets using practical expedients. Instead of recognizing a ROU asset and lease liability, the payments in relation to these are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

## 2.20 Financial instruments

### Financial assets

#### Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through Other Comprehensive Income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the business model for managing them. The Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

For a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'Solely Payments of Principal and Interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

#### Subsequent measurement

A financial asset is measured at amortized cost only if both of the following conditions are met:

- (i) It is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- (ii) The contractual terms of the financial asset represent contractual cash flows that are SPPI.

After initial measurement, such financial assets are subsequently measured at amortized cost using the EIR (Effective Interest Rate) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- (i) The rights to receive cash flows from the asset have expired, or
- (ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either

- The Company has transferred substantially all the risks and rewards of the asset, or

- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset and the sum of the consideration received is recognized in the Statement of Profit and Loss.

### Impairment

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets and unbilled revenue, which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

## 2.21 Financial liabilities and equity instruments

### Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the proceeds received, net of direct issue costs.

### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, financial liabilities are measured at fair value and subsequently measured at amortized cost.

Interest bearing debt is initially measured at fair value and are subsequently measured at amortized cost using the EIR method.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. Any difference between the proceeds and the settlement or redemption of borrowings is recognized over the term of the borrowings in the Statement of Profit and Loss.

### Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same

lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss.

## 2.22 Fair value measurement

The Company measures financial instruments, such as derivatives at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Inputs are quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### 3.3 Reconciliation of equity between previous GAAP and Ind AS

In ₹ Lakhs

Particulars	Notes	March 31, 2024	April 1, 2023
Equity under Previous GAAP		393	253
Impact of Ind AS 116, Leases on recognition of lease liabilities and related right of use assets (net)	1	(3)	(1)
Deferred tax income/(expense) recognised on Ind AS adjustments and others		1	-
Equity as per Ind AS		391	252

Notes to reconciliations between previous GAAP and Ind AS

Note: 1 On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset of ₹ 48 Lakh and a lease liability of ₹ 49 Lakh. The net impact of this adjustment is recorded in the retained earnings as of April 1, 2023. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

## A. Leased assets

Effective April 1, 2023, the Company adopted Ind AS 116, Leases and applied the standard to all lease contracts existing on April 1, 2023 using the modified retrospective method and has taken the cumulative adjustment to retained earnings on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the ROU asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31, 2023 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of the Annual Report for the year ended March 31, 2024.

The summary of practical expedients elected on initial application is as follows:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize ROU assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the ROU asset at the date of initial application.
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

## B. Property, plant and Equipment and intangibles

The carrying amount of property, plant and equipment and intangibles under Indian GAAP as at the date of transition is considered as deemed cost as per Ind AS 101.

## 4. Property, plant and equipment

(In ₹ lakh)

Additions	–	–
Deletions	–	–
Depreciation	(19)	(19)
Balance as at March 31, 2024	29	29

The aggregate depreciation expense on ROU assets is included under depreciation and amortization expense in the Statement of Profit and Loss.

#### 5b. Lease Liabilities

The following is the break-up of current and non-current lease liabilities as at March 31, 2025

In ₹ Lakhs			
Particulars	As at	As at	As at
	March 31, 2025	March 31, 2024	April 1, 2023
Current lease liabilities	13	20	17
Non-current lease liabilities	–	12	32
Total	13	32	49

The movement in lease liabilities during the years ended March 31, 2025 and March 31, 2024 is as follows:

(In ₹ lakh)		
Particulars	Year ended March 31,	
	2025	2024
Balance at the beginning	32	50
Additions	–	–
Finance cost accrued during the year	2	3
Deletions	–	–
Payment of lease liabilities	(21)	(21)
Balance at the end	13	32

The details regarding the contractual maturities of lease liabilities as at March 31, 2025 on an undiscounted basis are as follows:

Particulars	(In ₹ lakh)	
	As at March 31,	
	2025	2024
Less than one year	13	22
One to five years	-	13
More than five years	-	-
Total	13	35

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Name of shareholder	As at March 31, 2025		As at March 31, 2024	
	No. of shares held	% of holding	No. of shares held	% of holding
InSemi Technology Services Private Limited (including shares held by the nominees on behalf of the Company)	10,000	100.00	10,000	100.00

Note C: Details of shares held by promoters at the end of the year

Promoter name	% change during the year	No. of shares held	% of total shares
InSemi Technology Services Private Limited	0.00	10,000	100.00

## 14. Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	(In ₹ lakh)	
	Year ended March 31,	
	2025	2024
Current taxes	9	71
Deferred taxes	(3)	(13)
Income tax expense	6	58

Entire deferred income tax for the year ended March 31, 2024 relates to origination and reversal of temporary differences.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

Particulars	(In ₹ lakh)	
	Year ended March 31,	
	2025	2024
Profit / (loss) before income taxes	21	198
Enacted tax rates in India	25.17%	27.82%
Computed expected tax expense	5	55
Effect of non-deductible expenses (net)	–	1
Tax pertaining to prior years	–	–
Others	1	2
Income tax expense	6	58

The applicable Indian statutory tax rate for fiscal 2025 and fiscal 2024 is 25.168% and 27.82%, respectively.

Income tax assets

The details of income tax assets and income tax liabilities as of March 31, 2025, March 31, 2024 and April 1, 2023 are as follows:

Particulars	As at March 31,		As at April 1,
	2025	2024	2023
Income tax assets	112	121	99
Current income tax liabilities	(81)	(71)	(49)
Net current income tax assets / (liability) at the end	31	50	50

The gross movement in the current income tax asset / (liability) for the years ended March 31, 2025 and March 31, 2024 is as follows:

(In ₹ lakh)

Particulars	Year ended March 31	
	2025	2024
Net current income tax asset / (liability) at the beginning	50	51
Net income tax paid (net of refunds)	(10)	70
Current income tax expense	(9)	(71)
Income tax on other comprehensive income	–	–
Net current income tax asset / (liability) at the end	31	50

**Deferred tax assets / (liabilities)**

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended March 31, 2025 is as follows:

(In ₹ lakh)

Particulars	Carrying value as of April 1, 2024	Changes through profit and loss	Changes through OCI	Carrying value as of March 31, 2025
Deferred income tax assets / (liabilities)				
Property, plant and equipment	5	–	–	5
Accrued compensation to employees	6	1	1	8
Compensated absences	2	2	–	4
Lease liabilities	1	–	–	1
Total deferred income tax assets / (liabilities)	14	3	1	18

The movement in gross deferred income tax assets and liabilities (before set-off) for the year ended March 31, 2024 is as follows:

(In ₹ lakh)

Particulars	Carrying value as of April 1, 2023	Changes through profit and loss	Changes through OCI	Carrying value as of March 31, 2024
Deferred income tax assets / (liabilities)				
Property, plant and equipment	1	4	–	5
Accrued compensation to employees	–	6	–	6
Compensated absences	–	2	–	2
Lease liabilities	–	1	–	1
Total deferred income tax assets / (liabilities)	1	13	–	14

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax-planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Particulars	For the year ended March 31,	
	2025	2024

<b>Total financial liabilities</b>	<b>139</b>	<b>–</b>	<b>–</b>	<b>139</b>	<b>–</b>	<b>–</b>	<b>–</b>	<b>–</b>

\*Carrying value approximates fair value.

Notes:

The carrying value of all the items in the table above has been classified as amortized cost. Amortized cost is deemed to be the carrying value.

### Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## 21 Financial risk management

The Company's principal financial liabilities comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents and other bank balances that derive directly from its operations.

The Company's activities expose it to market risk, credit risk and liquidity risk.

### (a) Risk management framework

The Company's risk management is carried out by the Management under the policies approved by the Board of Directors that help in identification, measurement, mitigation and reporting all risks associated with the activities of the Company. These risks are identified on a continuous basis and assessed for the impact on financial performance. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

## (b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: Interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, trade receivables, trade payables, deposits and investments.

### (i) Foreign currency risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

### (ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any debt and hence, does not carry any interest rate risk.

## (c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to the credit risk from its trade receivables, unbilled revenue, cash and cash equivalents and bank deposits. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

### (i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a credit evaluation before entering into an arrangement. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into a homogenous group and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company considers the credit risk with respect to trade receivables as low, since majority of the customers are parties with good repute and are regular in discharging their obligation within the credit period provided by the Company. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information

Expected credit loss for the years ended March 31, 2025, 2024 and 2023 is nil.

## (ii) Financial instrument and cash deposit

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

## (d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2025 are as follows:

(In ₹ lakh)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Trade payables	34	–	–	34
Other financial liabilities	–	–	–	–
	34	–	–	34

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2024 were as follows:

(In ₹ lakh)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Trade payables	12	–	–	12
Other financial liabilities	1	–	–	1
	14	–	–	14

Note: Refer to Note 5 for contractual maturities of lease liabilities.

The details regarding the contractual maturities of significant financial liabilities as at April 1, 2023 were as follows:

(In ₹ lakh)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Trade payables	90	–	–	90
Other financial liabilities	–	–	–	–
	90	–	–	90

Note: Refer to Note 5 for contractual maturities of lease liabilities.

## Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

## 22. Employee benefits

### Accounting policy

#### Gratuity

The Company provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible Indian employees. The Gratuity Plan provides a lumpsum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each Balance Sheet date.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market risk.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through remeasurements of the net defined benefit liability / (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation, is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

#### Provident Fund and Employee State Insurance (ESI)

The Company makes Provident Fund and ESI contributions, which are defined contribution plans, for qualifying employees. Under the schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognized contributions as below in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

(In ₹ lakh)

Particulars	For the year ended March 31,	
	2025	2024
Employer's contribution to Employee Provident Fund	11	15
Employer's contribution to Employee State Insurance (ESI)	–	1

#### Compensated absences

The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date.

#### Gratuity

The defined benefit obligation and the amounts recognized in the financial statements as at March 31, 2025 and March 31, 2024 are as follows:

(In ₹ lakh)

Particulars	As at March 31,	
	2025	2024
Change in benefit obligations		
Benefit obligations at the beginning	22	–
Service cost	7	22
Interest expense	2	–
Remeasurements – Actuarial (gains) / losses	4	–
Benefit obligations at the end	35	22
Funded status	(35)	(22)
Defined benefit plan asset	–	–
Defined benefit plan liability	(35)	(22)

The amounts for the years ended March 31, 2025 and March 31, 2024 recognized in the Statement of Profit and Loss under employee benefit expense are as follows:

(In ₹ lakh)		
Particulars	As at March 31,	
	2025	2024
Service cost	7	22
Net interest on the net defined benefit liability / asset	2	–
Actuarial (gain) / loss	–	–
Net cost	9	22

The amounts for the years ended March 31, 2025 and March 31, 2024 recognized in the Statement of Other Comprehensive Income are as follows:

(In ₹ lakh)		
Particulars	As at March 31,	
	2025	2024
Remeasurements of the net defined benefit liability / (asset)		
Actuarial (gains) / losses	4	–
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability / (asset)	–	–
	4	–

(In ₹ lakh)

Particulars	As at March 31,	
	2025	2024
(Gain) / loss from change in demographic assumptions	–	–
(Gain) / loss from change in financial assumptions	4	–
(Gain) / loss from change in experience assumptions	–	–
	4	–

The weighted-average assumptions used to determine benefit obligations as at March 31, 2025 and March 31, 2024 are as follows:

Particulars	As at March 31,	
	2025	2024
Discount rate	6.50%	7.15%
Weighted average rate of increase in compensation levels	7.50%	7.50%
Weighted average rate of withdrawal rates	24.00%	24.00%

The weighted-average assumptions used to determine net periodic benefit cost for the years ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	As at March 31,	
	2025	2024
Discount rate	6.50%	7.15%
Weighted average rate of increase in compensation levels	7.50%	7.50%

## Sensitivity analysis of significant actuarial assumptions

(In ₹ lakh)

Particulars	Effect on DBO	
Discount rate	Increases 1%	DBO decreases by 1.47
	Decreases 1%	DBO increases by 1.60
Employee turnover	Increases 5%	DBO decreases by 2.39
	Decreases 5%	DBO increases by 2.61
Salary escalation rate	Increases 1%	DBO increases by 1.55
	Decreases 1%	DBO decreases by 1.47

## 23 Segment reporting

The Company's operation predominantly relates to providing IT support services to M/s. Synopsys India Pvt. Ltd, Noida, India. Based on the 'management approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108.

## 24 Contingent liabilities and commitments

As at March 31, 2025, March 31, 2024 and April 1, 2023, the contingent liabilities and commitments of the Company were nil.

## 25 Trade payables

(In ₹ lakh)

Particulars	As at March 31,		As at April 1, 2023
	2025	2024	
Outstanding dues of micro enterprises and small enterprises	1	–	16
Outstanding dues of creditors other than micro enterprises and small enterprises	33	12	74
<b>Total</b>	<b>34</b>	<b>12</b>	<b>90</b>

### Trade payables ageing schedule

(In ₹ lakh)

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
(i) MSME – Current year	1	–	–	–	–	1
MSME – Previous year	–	–	–	–	–	–
(ii) Others – Current year	30	3	–	–	–	33
Others – Previous year	11	1	–	–	–	12
(iii) Disputed dues – MSME	–	–	–	–	–	–
(iv) Disputed dues – Others	–	–	–	–	–	–

### Dues to Micro Small and Medium Enterprises (MSMEs)

The Company has certain dues to suppliers (trade and capital) registered under Micro, Small and Medium Enterprises Development Act, 2006 ("MSMED Act"). The disclosures pursuant to the said MSMED Act are as follows:

(In ₹ lakh)

Particulars	As at March 31,	
	2025	2024
Principal amount due to suppliers registered under the MSMED Act and remaining unpaid as at year end	1	–
Interest due to suppliers registered under the MSMED Act and remaining unpaid as at year end	–	–
Principal amounts paid to suppliers registered under the MSMED Act, beyond the appointed day during the year	–	–
Interest paid, other than under Section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	–	–
Interest paid, under Section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	–	–
Interest due and payable towards suppliers registered under MSMED Act, for payments already made	–	–
Further interest remaining due and payable for earlier years	–	–

The information regarding MSMEs has been determined based on information collected by the Management on enquiries made with the vendors, which have been relied upon by the auditors.

Basic and diluted EPS (₹)	151.05	1,392.36

## InSemi Technology Services Private Limited

# Independent Auditor's Report

To the Members of

InSemi Technology Services Private Limited

Bangalore.

## Report on the Standalone Financial Statements

### Opinion

We have audited the accompanying standalone financial statements of M/s InSemi Technology Services Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2025, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity, the Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards, prescribed under section 133 of the Act ("Ind AS") and other accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2025, and its Loss, total comprehensive income, changes in equity and cash flows for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure-A a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
  - (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - (b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

- (c) the Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account;
- (d) in our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act;
- (e) on the basis of written representations received from the directors as on March 31, 2025, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025, from being appointed as a director in terms of section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure-B.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company does not have any pending litigations which would impact its financial position;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv (i) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (ii) The management has represented, that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (iii) Based on audit procedures which we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement.
- v. The company has not declared or paid any dividend during the year in contravention of the provisions of section 123 of the Companies Act, 2013.
- vi. Based on our examination which includes test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of audit, we have not come across any instance of audit trail feature being tampered with and same has been preserved by the Company as per statutory requirement for record retention.
- (h) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act, in our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

## Annexure-A to the Audit Report

InSemi Technology Services Private Limited for the year ended March 31, 2025

(Referred to in paragraph 1 under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

1. (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment.  
(B) The company has maintained proper records showing full particulars of intangible assets.  
(b) The Property, Plant and Equipment were physically verified during the year by the Management in accordance with its regular programme of verification which in our opinion provides for physical verification of the same at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.  
(c) According to the information and explanations given to us, the Company did not have any immovable properties.  
(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.  
(e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any Benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
2. (a) During the year, the Company has not traded in any inventory and hence the comments under paragraph 3 (ii) (a) are not applicable.  
(b) The Company has been sanctioned working capital limits in excess of five crore rupees in aggregate from banks and financial institutions on the basis of security of current assets. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the quarterly/monthly returns or statements filed by the company with such banks or financial institutions are in agreement with the books of account of the Company.
3. During the year, the Company has not made investment in or provided any guarantee or security or granted any loans or advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Hence comments under paragraph 3(iii) of the Order is not applicable.
4. During the year, in respect of loans, investments, guarantees, and security (if any), provisions of section 185 and 186 of the Companies Act, 2013 have been complied.
5. Since the company has not accepted any deposits the comments under paragraph 3(v) of the Order are not applicable.
6. Maintenance of cost records has not been prescribed by the Central Government for the products/services of the company.
7. (a) The company has been generally regular in depositing undisputed statutory dues including Goods & Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Customs Duty, Excise Duty, Cess and any other statutory dues applicable to it with the appropriate authorities. There were no outstanding statutory dues as on 31<sup>st</sup> March 2025, for a period of more than six months from the date they became payable.  
(b) There were no disputed statutory dues which have not been deposited with the respective authorities.
8. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.
9. (a) The Company has not defaulted in repayment of loans or borrowings or the payment of interest thereon to any lender.  
(b) According to the information and explanation provided to us, the Company is not a declared willful defaulter by any bank or financial institution or other lender.  
(c) The term loans were applied for the purpose for which the loans were obtained.  
(d) The funds raised on short term basis have not been utilized for long term purpose.  
(e) The Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.  
(f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
10. (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year.

- (b) During the year, the company has made private placement of shares to its Holding Company. The requirement of section 42 and section 62 of the Act have been complied with in this regard and the funds raised have been used for the purpose for which such funds were raised.
11. (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no fraud on the Company by its officers or employees have been noticed or reported during the year.
- (b) During the year no report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) As auditor, we did not receive any whistle- blower complaint during the year.
12. The Company is not a 'Nidhi Company' as per Section 406 of Company Act 2013 accordingly comments under paragraph 3(xii) is not applicable.
13. In our opinion and according to the information and explanations give to us, the Company is in compliance with section 177 and 188 of Companies Act, 2013 where applicable, for transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
14. During the year, the company is not covered by section 138 of the Companies Act, 2013, related to appointment of internal auditor for the year. Hence, the comments under paragraph 3(xiv) of the Order are not applicable.
15. During the year Company has not entered into any non-cash transaction with directors or persons connected with him.
16. (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.
- (b) The company has not conducted any Non-Banking Financial or Housing Finance activities during the year.
- (c) The company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India.
- (d) As per the information and explanations provided to us, Company is not part of any CIC Group.
17. The company has incurred cash losses in current financial year and in the immediately preceding financial year. Cash losses incurred during the financial year is Rs. 1,200 (lakh) and in the immediately preceding financial year is Rs. 970 (lakh).
18. There has been no resignation of the previous statutory auditors during the year.
19. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.
20. The requirements of Corporate Social Responsibility (CSR) expenditure under Section 135 are not applicable to the Company for the year and hence the comments under paragraph 3(xx) of the Order are not applicable.
21. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of Standalone Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

## Annexure-B to the Audit Report

InSemi Technology Services Private Limited for the year ended March 31, 2025

(Referred to in paragraph 2(f) of our report of even date)

### Opinion

In our opinion, considering nature of business, size of operation and organizational structure of the entity, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### Management's Responsibility for Internal Financial Control over Financial Reporting

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the standalone financial statements and their

operating effectiveness. Our audit of internal financial controls with reference to the standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the standalone financial statements.

### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Statement of Cash Flows

(In ₹ Lakh)

Particulars	For the year ended March 31,	
	2025	2024
<b>A. Cash flows from operating activities</b>		
Net profit/(loss) before taxation	(1,507)	(1,283)
Adjustments for:		
Depreciation / Amortization expenses	307	323
Finance cost	113	186
Loss on sale of assets	1	–
Share-based payment expense on account of settlement	–	1,340
	421	1,849
Operating profit / (loss) before working capital changes	(1,086)	566
Adjustments for changes in working capital:		
(Increase) / decrease in other financial assets	(919)	(375)
(Increase) / decrease in trade receivables	(861)	(319)
(Increase) / decrease in other current assets	(28)	(25)
Increase / (decrease) in trade payables	154	(63)
Increase / (decrease) in other financial liabilities	6	(31)
Increase / (decrease) in other current liabilities	258	68
Increase / (decrease) in provisions	1,349	1,589
	(41)	844
Cash generated from operations	(1,127)	1,410
Income taxes paid (net of refunds)	(154)	(69)
Net cash from operating activities	(1,281)	1,341
<b>B. Cash flows from investing activities</b>		
Purchase of property, plant and equipment	(41)	(12)
Purchase of non-current investments	–	(1,030)
Proceeds from sale of property, plant and equipment	40	–
Net cash from investing activities	(1)	(1,042)
<b>C. Cash flows from financing activities</b>		
Share capital infusion by holding company	5,598	–
Payment of lease liabilities	(300)	(261)
Short-term borrowings from bank (net)	(1,484)	(311)
Long-term borrowings from bank (net)	–	(383)
Unsecured loans from holding company (net)	1,000	–
Interest paid on loan from holding company	(73)	–
Unsecured loans from directors / their relatives (net)	–	(83)
Settlement of equity-settled share-based payments (Refer to Note 3.1)	(1,511)	–
Net cash from financing activities	3,230	(1,038)
Net increase / (decrease) in cash and cash equivalents	1,948	(739)
Cash and cash equivalents at the beginning of the year	17	756
Cash and cash equivalents at the end of the year	1,965	17

# Notes forming part of the financial statement

## 1. General Information

InSemi Technology Services Private Limited ('the Company') is a wholly-owned subsidiary of Infosys Limited and was incorporated on May 15, 2013, as a private limited company with its registered office at Bengaluru as an information technology software development, consultancy organization, and Information Technology-enabled services.

## 2. Summary of material accounting policies

### 2.1 Basis of preparation of financial statements and statement of compliance

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable.

These financial statements are the Company's first Ind AS financial statements. The Company has adopted all the Ind AS standards, and adoption was carried out in accordance with Ind AS 101, First-time adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Reconciliations and descriptions of the effect of the transition have been summarized in Note 3. Comparatives for the previous year have been regrouped / reclassified to conform to the current year's grouping and presentation under Ind AS.

### 2.2 Presentation currency

The Company's presentation currency is Indian Rupees (₹), rounded off to nearest lakh.

### 2.3 Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### 2.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions that affect the accounting policies and reported balances of assets and liabilities, and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and,

if material, their effects are disclosed in the notes to the financial statements.

Examples of such estimates include computation of the percentage of completion, which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts to be expended, impairment losses on financial assets, income taxes, post-sales customer support, and the useful lives of property, plant, and equipment.

### 2.5 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

### 2.6 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing, and financing activities of the Company are segregated based on the available information.

### 2.7 Revenue recognition

The Company derives revenue from IT software development and consultancy services, and Information Technology-enabled services.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties, in writing, to the contract, the parties to the contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services ("performance obligations") to customers in an amount that reflects the consideration the Company has received or expects to receive in exchange for these products or services ("transaction price"). When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

The Company assesses the services promised in a contract and identifies distinct performance obligations in the contract. The Company allocates the transaction price to each distinct performance obligation based on the relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In the absence of such evidence, the primary method used to estimate a standalone selling price is the expected cost plus a margin, under which the Company estimates the cost of satisfying the performance obligation and then adds an appropriate margin based on similar services.

Revenue on time-and-material contracts and unit of work-based contracts is recognized as the related services are performed. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable

based on the estimated efforts or costs to complete the contract. The billing schedules agreed with customers include periodic performance-based billing and / or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue, while billing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

Fixed-price maintenance revenue is recognized ratably on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period. Revenue from fixed-price maintenance contract is recognized ratably using a percentage-of-completion method when the pattern of benefits from the services rendered to the customer and the Company's costs to fulfil the contract is not even through the period of the contract because the services are generally discrete in nature and not repetitive. The use of method to recognize the maintenance revenues requires judgment and is based on the promises in the contract and nature of the deliverables.

The Company uses the percentage-of-completion method in accounting for other fixed-price contracts. Use of the percentage-of-completion method requires the Company to determine the actual efforts or costs expended to date as a proportion of the estimated total efforts or costs to be incurred. Efforts or costs expended have been used to measure progress towards completion, as there is a direct relationship between input and productivity. The estimation of total efforts or costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information.

Contracts with customers include subcontractor services or third-party vendor equipment or software in certain integrated services arrangements. In these types of arrangements, revenue from sales of third-party vendor products or services is recorded net of costs when the Company is acting as an agent between the customer and the vendor, and gross when the Company is the principal for the transaction. In doing so, the Company first evaluates whether it obtains control of the specified goods or services before they are transferred to the customer. The Company considers whether it is primarily responsible for fulfilling the promise to provide the specified goods or services, inventory risk, pricing discretion, and other factors to determine whether it controls the specified goods or services and, therefore, is acting as a principal or an agent.

The Company presents revenues net of indirect taxes in its Statement of Profit and Loss.

## 2.8 Other income

Interest income is accounted on an accrual basis, and dividend income is recognized in the Statement of Profit and Loss on the date that the Company's right to receive payment is established.

## 2.9 Property, plant and equipment

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of the Company's assets are determined by the Management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

## Capital work-in-progress

Projects under which property, plant and equipment are not yet ready for their intended use are carried at cost, comprising direct costs and related incidental expenses.

## Capital advances

Advances paid towards the acquisition of property, plant and equipment are included under long-term loans and advances.

## 2.10 Depreciation and amortization

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life mentioned below:

Intangible assets are amortized over their estimated useful life on a straight-line method. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

Asset block	Useful life (years)
Computer equipment	3
Office equipment	5
Furniture and fixtures	5

Effective April 1, 2024, the Company changed the method of depreciation from Written Down Value (WDV) to straight-line method. The useful lives of the assets have been determined in accordance with Ind AS 16, Property, Plant and Equipment. The effect of this change is not material for the year ended March 31, 2025. The Management believes that the useful lives considered best represents the period over which the Management expects to use these assets.

## 2.11 Foreign currency translation

### Initial recognition

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

### Measurement at the Balance Sheet date

Foreign currency monetary items of the Company, outstanding at the Balance Sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

### Treatment of exchange differences

Company: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognized as income or expense in the Statement of Profit and Loss.

Integral foreign operations: Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company's integral foreign operations are recognized as income or expense in the Statement of Profit and Loss.

## 2.12 Employee benefits

### Defined contribution plans

#### a) Provident fund

Contributions towards employees' provident fund are made to the Employees' Provident Fund Scheme maintained by the Central Government, and the Company's contribution to the fund is recognized as an expense in the year in which the services are rendered by the employees.

#### b) National Pension System (NPS)

The Company contributes a specified percentage of eligible employees' salary to a NPS Fund administered by trustees and managed by the Fund Manager. The Company has no liability for future NPS benefits other than its annual contribution and recognizes such contributions as an expense in the year in which the services are rendered by the employees.

### Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in other comprehensive income and not reclassified to profit or loss in subsequent periods.

### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized during the year when the employees render the service. These benefits include performance incentives and compensated absences, which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

### Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

## 2.13 Borrowing costs

Borrowing costs include interest, amortization of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilized for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalization of such asset are added to the cost of the assets. Capitalization of borrowing costs

is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

## 2.14 Segment reporting

Based on the 'Management Approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates the performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment reporting.

## 2.15 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

## 2.16 Impairment of assets

The carrying values of assets / cash generating units at each Balance Sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceeds the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at a revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and its value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

## 2.17 Provisions and contingencies

A provision is recognized when the Company has a present obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognized in the financial statements.

## 2.18 Taxes on income

Income tax expense is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted at the end of the reporting period. The Management periodically evaluates positions taken in tax returns

with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

## 2.19 Leases

The Company's lease assets primarily consist of leases of buildings. For new leases entered into, the Company considers whether a contract is, or contains, a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company obtains substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the lease commencement date, the Company recognizes a right-of-use asset and a lease liability on the Balance Sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

At the lease commencement date, the Company measures the lease liability at the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Company under residual value guarantees

- the exercise price of a purchase option if the Company is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third-party financing was received; and
- makes adjustments specific to the lease, e.g., term, country, currency, and security.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Company depreciates the right-of-use (ROU) assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the ROU asset or the end of the lease term. If the Company is reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. The Company also assesses the ROU asset for impairment when such indicators exist.

Subsequent to the initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognizing a ROU asset and lease liability, the payments in relation to these are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

## 2.20 Financial instruments

### Financial assets

#### Initial recognition and measurement

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through Other Comprehensive Income (OCI), and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the business model for managing them. The Company initially measures a financial asset at its fair value plus,

in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

#### Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

#### Subsequent measurement

A financial asset is measured at amortized cost only if both of the following conditions are met:

- (i) It is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- (ii) The contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest ('SPPI').

After initial measurement, such financial assets are subsequently measured at amortized cost using the EIR method ('Effective Interest Rate'). Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- (i) The rights to receive cash flows from the asset have expired, or
- (ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
  - The Company has transferred substantially all the risks and rewards of the asset, or
  - The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset and the sum of the consideration received is recognized in the statement of profit and loss.

#### Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets and unbilled

revenue which are not fair valued through profit or loss. Loss allowance for trade receivables and unbilled revenues with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, ECLs are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL

## 2.21 Financial liabilities and equity instruments

### Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the proceeds received, net of direct issue costs.

### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, financial liabilities are measured at fair value and subsequently measured at amortized cost.

Interest-bearing debt is initially measured at fair value and is subsequently measured at amortized cost using the EIR method.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. Any difference between the proceeds and the settlement or redemption of borrowings is recognized over the term of the borrowings in the statement of profit and loss.

#### Derecognition

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

## 2.22 Fair value measurement

The Company measures financial instruments, such as derivatives at fair value at each Balance Sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based

on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: inputs are quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2: valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3: valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### 3.1 Reconciliation of Balance Sheet- Previous GAAP (IGAAP) to Ind AS

Items that will not be reclassified subsequently to profit or loss			
Re-measurement gains / (loss) on defined benefit plans, net of tax	–	(30)	(30)
Total other comprehensive income	–	(30)	(30)
Total comprehensive income for the year	(1,268)	23	(1,245)
Basic and diluted warnings per share (of ₹ 10/- face value) [in ₹]	(153.32)	6.50	(146.82)
Weighted average no. of equity shares used in above computation	8,27,318		8,27,318

### 3.3 Reconciliation of equity between previous GAAP and Ind AS

(In ₹ Lakh)

Particulars	Notes	As at	
		March 31, 2024	April 1, 2023
Equity under previous GAAP		(89)	1,351
Impact of Ind AS 116, Leases on recognition of lease liabilities and related right-of-use assets (net)	1	(30)	(36)
Deferred tax income/(expense) recognized on Ind AS adjustments and others		27	9
Equity as per Ind AS		(92)	1,324

#### Notes to reconciliations between previous GAAP and Ind AS

Note: 1 On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset of ₹ 455 Lakh and a lease liability of ₹ 491 Lakh. The corresponding effect, net of taxes is recorded in the retained earnings as on transition date. The effect of this adoption is insignificant on the profit before tax, profit for the period and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

#### Exemptions availed on the first-time adoption of Ind AS 101

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions.

##### A. Leased assets

Effective April 1, 2023, the Company adopted Ind AS 116, Leases and applied the standard to all lease contracts existing on April 1, 2023, using the modified retrospective method and has taken the cumulative adjustment to retained earnings on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31, 2023, have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of the Annual Report for the year ended March 31, 2024.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in a similar economic environment with a similar end date

2. Applied the exemption not to recognize ROU assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the ROU asset at the date of initial application.
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

##### B. Property, plant and equipment

The carrying amount of property, plant and equipment and intangibles under Indian GAAP as at the date of transition is considered as deemed cost.

##### C. Share-based payments

The Company is allowed to apply Ind AS 102, Share-based payment, to equity instruments that remain unvested as of the transition date. The Company has elected to avail itself of this exemption and apply the requirements of Ind AS 102 to all such grants unvested as of April 1, 2023. These grants were measured using fair value under previous GAAP, as such, no such adjustment was made as of the transition date in the opening Balance Sheet.

During the year ended March 31, 2024, the shareholders of the Company entered into a Share Purchase Agreement ("SPA") with Infosys Limited. As a condition precedent to the acquisition, the Company was required to cancel all the outstanding stock options (vested & unvested) and settle the equity-settled share-based payment plan and compensate the option holders at fair value (less exercise price if any). Hence, the previously recognized outstanding equity options were reclassified as current liabilities as of March 31, 2024. This liability was settled during the year ended March 31, 2025.

##### D. Investment in subsidiary

The carrying amount of investment in a subsidiary under Indian GAAP as at the date of transition is considered as deemed cost under Ind AS.

### 4. Property, plant and equipment

(In ₹ Lakh)

## 22. Income taxes

Income tax expense in the Statement of Profit and Loss comprises:

Particulars	Year ended March 31,	
	2025	2024
Current taxes	–	10
Deferred taxes	(194)	(80)
Income tax expense	(194)	(70)

Entire deferred income tax for the year ended March 31, 2025 relates to origination and reversal of temporary differences.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

Particulars	Year ended March 31,	
	2025	2024
Profit/(Loss) before income taxes	(1,507)	(1,283)
Enacted tax rates in India	25.168%	25.168%
Computed expected tax expense	(379)	(323)
Tax effect due to non-taxable income for Indian tax purposes	–	–
DTA not recognized on tax losses unavailable due to change in shareholding	–	289
Effect of non-deductible expenses (net)	193	(46)
Tax pertaining to prior years	–	10
Reversal of deferred tax	(8)	–
Others	–	–
Income tax expense	(194)	(70)

The applicable Indian statutory tax rate for fiscal 2025 and fiscal 2024 is 25.168%.

The details of income tax assets and income tax liabilities as of March 31, 2025, March 31, 2024 and April 1, 2023 are as follows:

Particulars	(In ₹ Lakh)		
	As at		
	March 31, 2025	March 31, 2024	April 01, 2023
Income tax assets	665	511	706
Current income tax liabilities	–	–	(254)
Net current income tax assets/ (liability) at the end	665	511	452

The gross movement in the current income tax asset/ (liability) for the year ended March 31, 2025 and March 31, 2024 is as follows:

Particulars	(In ₹ Lakh)	
	Year ended March 31,	
	2,025	2,024
Net current income tax asset/ (liability) at the beginning	511	452
Net income tax paid (net of refunds)	154	69
Current income tax expense	–	(10)
Income tax on other comprehensive income	–	–
Net current income tax asset/ (liability) at the end	665	511

The movement in gross deferred income tax assets and liabilities (before set off) for the year ended March 31, 2025 is as follows:

Particulars	(In ₹ Lakh)			
	Carrying value as of April 1, 2024	Changes through profit and loss	Changes through OCI	Carrying value as of March 31, 2025
Deferred income tax assets/(liabilities)				
Property, plant and equipment	21	(2)	–	19
Accrued compensation to employees	86	37	10	133
Compensated absences	67	29	–	96
Lease liabilities	8	(6)	–	2
Unused tax losses	19	133	–	152
Total deferred income tax assets/(liabilities)	201	191	10	402

The movement in gross deferred income tax assets and liabilities (before set off) for the year ended March 31, 2024 is as follows:

Particulars	(In ₹ Lakh)			
	Carrying value as of April 1, 2023	Changes through profit and loss	Changes through OCI	Carrying value as of March 31, 2024
Deferred income tax assets/(liabilities)				
Property, plant and equipment	16	5	–	21
Accrued compensation to employees	46	29	11	86
Compensated absences	39	28	–	67
Lease liabilities	9	(1)	–	8
Unused tax losses	–	19	–	19
Total deferred income tax assets/(liabilities)	110	80	11	201

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, the Management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

## 23. Financial instruments

Set out below, is a comparison by class of the carrying amount and fair value of the Company's financial instruments other than those with carrying amount that are reasonable approximations of fair values:

As at March 31, 2025

\* Carrying value approximates fair value

## Notes :-

The carrying value of all the items in the table above have been classified as amortized cost. Amortized cost is deemed to be the carrying value.

## Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

## 24. Financial risk management

The Company's principal financial liabilities comprise Trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include trade and other receivables, cash and cash equivalents and other bank balances that derive directly from its operations.

The Company's activities exposes it to market risk, credit risk and liquidity risk.

### (a) Risk management framework

The Company's risk management is carried out by the Management under the policies approved by the Board of Directors that help in identification, measurement, mitigation

and reporting all risks associated with the activities of the Company. These risks are identified on a continuous basis and assessed for the impact on financial performance. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below.

## (b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, trade receivables, trade payables, deposits and investments.

### (i) Foreign currency risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

### (ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any debt and hence does not carry any interest rate risk.

## (c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk from its trade receivables, unbilled revenue, cash and cash equivalents, and bank deposits. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

### (i) Trade receivables

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control

relating to customer credit risk management. Credit quality of a customer is assessed based on a credit evaluation before entering into an arrangement. Outstanding customer receivables are regularly monitored.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. The calculation is based on actual incurred historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company considers the credit risk with respect to trade receivables as low, since the majority of the customers are parties with good reputation and are regular in discharging their obligations within the credit period provided by the Company. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and is adjusted for forward-looking information.

Expected credit loss for the year ended March 31, 2025, 2024 and 2023 is nil.

### (ii) Financial instrument and cash deposit

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from nonperformance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors.

## (d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding, and settlement management. In addition, processes and policies related to such risks are overseen by senior management.

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2025 are as follows:

(In ₹ Lakh)				
Particulars	Less than 1 year	1 to 5 Years	More than 5 years	Total
Trade payables	464	–	–	464
Other financial liabilities	25	–	–	25
	489	–	–	489

Note: Refer to Note 5 for contractual maturities of lease liabilities

The details regarding the contractual maturities of significant financial liabilities as at March 31, 2024 were as follows:

(In ₹ Lakh)				
Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
Trade payables	310	–	–	310
Other financial liabilities	19	–	–	19
	329	–	–	329

Note: Refer to Note 5 for contractual maturities of lease liabilities

The details regarding the contractual maturities of significant financial liabilities as at April 1, 2023 were as follows:

(In ₹ Lakh)

Particulars	Less than 1 year	1 to 5 Years	More than 5 years	Total
Trade payables	373	–	–	373
Other financial liabilities	50	–	–	50
	423	–	–	423

Note: Refer to Note 5 for contractual maturities of lease liabilities

## Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holder. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and make adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

## 25. Employee benefits

### Accounting policy

#### Gratuity

The Company provides for gratuity, a defined benefit retirement plan ("the Gratuity Plan") covering eligible Indian employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each Balance Sheet date.

Liabilities with regard to these defined benefit plans are determined by actuarial valuation, performed by an external actuary, at each Balance Sheet date using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market risk.

The Company recognizes the net obligation of a defined benefit plan in its Balance Sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in subsequent periods. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments is recognized in net profit in the Statement of Profit and Loss.

#### Provident Fund, National Pension System (NPS) and Employee State Insurance (ESI)

The Company makes Provident Fund, NPS, and ESI contributions, which are defined contribution plans, for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognized contributions as below in the Statement of Profit and Loss. The contributions payable

to these plans by the Company are at rates specified in the rules of the schemes.

(In ₹ Lakh)

	FY-2024-25	FY-2023-24
Employer's contribution to Employee Provident Fund	619	442
National Pension System	53	–
Employer's contribution to Employee State Insurance	–	1

## Compensated absences

The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date.

#### Gratuity

The details of the defined benefit retirement plans and the amounts recognized in the standalone financial statements as at March 31, 2025 and March 31, 2024 are as follows:

(In ₹ Lakh)

Particulars	For the year ended March 31,	
	2025	2024
Change in benefit obligations		
Benefit obligations at the beginning	341	182
Service cost	130	107
Interest expense	27	14
Past service cost - plan amendments	–	–
Remeasurements - Actuarial (gains)/ losses	39	41
Employee contribution	–	–
Benefits paid	(10)	(3)
Translation difference	–	–
Benefit obligations at the end	527	341
Change in reimbursement rights		
Fair value of reimbursement rights at the beginning	2	–
Interest income	11	–
Remeasurements – Return on plan assets, excluding amounts included in interest income	–	–
Employer contribution	330	2

Particulars	For the year ended March 31,	
	2025	2024
Benefits paid	(7)	–
Translation difference	–	–
Fair value of reimbursement rights at the end	336	2
Funded status	(527)	(341)
Defined benefit plan asset	–	–
Defined benefit plan liability	(527)	(341)

The amounts for the year ended March 31, 2025 and March 31, 2024 recognized in the Statement of Profit and Loss under employee benefit expense are as follows:

(In ₹ Lakh)

Particulars	For the year ended March 31,	
	2025	2024
Service cost	130	107
Net interest on the net defined benefit liability/asset	27	14
Net interest on reimbursement rights	(11)	–
Actuarial (gain)/loss	–	–
Net cost	146	121

The amounts for the year ended March 31, 2025 and March 31, 2024 recognized in the Statement of Other Comprehensive Income are as follows:

(In ₹ Lakh)

Particulars	For the year ended March 31,	
	2025	2024
Remeasurements of the net defined benefit liability/ (asset)		
Actuarial (gains) / losses	39	41
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	–	–
	39	41

(In ₹ Lakh)

Particulars	For the year ended March 31,	
	2025	2024
(Gain)/loss from change in demographic assumptions	–	–
(Gain)/loss from change in financial assumptions	39	41
(Gain) / loss from change in experience assumptions	–	–
	39	41

The weighted-average assumptions used to determine benefit obligations as at March 31, 2025 and March 31, 2024 are as follows:

Particulars	As at March 31,	
	2025	2024
Discount rate	6.5%	7.2%
Weighted average rate of increase in compensation levels	7.5%	7.5%
Weighted average rate of withdrawal rates	24.0%	24.0%

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2025 and March 31, 2024 are as follows:

Particulars	For the year ended March 31,	
	2025	2024
Discount rate	6.5%	7.2%
Weighted average rate of increase in compensation levels	7.5%	7.5%

Sensitivity analysis of significant actuarial assumptions

(In ₹ Lakh)

Particulars	Effect on DBO	
Discount rate	Increases 1%	DBO decreases by 22.82
	Decreases 1%	DBO increases by 24.75
Employee turnover	Increases 5%	DBO decreases by 41.57
	Decreases 5%	DBO increases by 47.11
Salary escalation rate	Increases 1%	DBO increases by 24.01
	Decreases 1%	DBO decreases by 22.61

## 26. Segment reporting

The company's operation predominantly relates to providing IT support services. Based on the 'management approach' as defined in Ind AS 108, Segment reporting, the Chief Operating Decision Maker (CODM) evaluates performance of the Company as a whole. Its operations are, therefore, considered to constitute a single segment in the context of Ind AS 108, Segment reporting.

(In ₹ Lakh)

Revenue by Geography	Revenue
India :	
Current year	20,041
Previous year	15,260
US:	
Current year	1,329
Previous year	1,176
Taiwan:	
Current year	61
Previous year	46

Note-1: Information about major customers: Revenues from 2 customers' accounts for about ₹ 11,545.52 lakh (PY: ₹ 8,992.60 Lakh)

## 27. Trade payables

(In ₹ Lakh)

Particulars	As at		
	March 31, 2025	March 31, 2024	April 1, 2023
Outstanding dues of micro enterprises and small enterprises	173	132	50
Outstanding dues of creditors other than micro enterprises and small enterprises	291	178	323
Total	464	310	373

### Trade payables ageing schedule

(In ₹ Lakh)

Particulars	Outstanding for following periods from due date of payment					Total
	Not due	Less than 1 year	1-2 years	2-3 years	More than 3 years	
(i) MSME – Current year	173	–	–	–	–	173
MSME – Previous year	132	–	–	–	–	132
(ii) Others – Current year	290	1	–	–	–	291

## in-tech Holding GmbH

# Independent Auditor's Report

To in-tech Holding GmbH, Garching bei München

## Audit opinions

We have audited the consolidated financial statements of in-tech Holding GmbH and its subsidiaries (the Group), which comprise the consolidated balance sheet as of 31 December 2024, the consolidated income statement, the consolidated statement of changes in equity and the consolidated cash flow statement for the financial year from 1 January to 31 December 2024 as well as the consolidated notes, including the presentation of the recognition and measurement policies. In addition, we have audited the group management report of in-tech Holding GmbH for the financial year from 1 January to 31 December 2024. In accordance with German legal requirements, we have not audited the content of the parts of the group management report referred to in the section "Other information" of our auditor's report.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying consolidated financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Group as of 31 December 2024 and of its financial performance for the financial year from 1 January to 31 December 2024 in compliance with German Legally Required Accounting Principles, and
- the accompanying group management report as a whole provides an appropriate view of the Group's position. In all material respects, this group management report is consistent with the consolidated financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development.

Pursuant to § 322 (3) sent. 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the consolidated financial statements and of the group management report.

## Basis for the audit opinions

We conducted our audit of the consolidated financial statements and of the management report in accordance with § 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institute of Public Auditors in Germany (IDW) [Institut der Wirtschaftsprüfer in Deutschland]. Our responsibilities under those requirements and principles are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and of the group management report" section of our auditor's report. We are independent of the Group in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the consolidated financial statements and on the group management report.

## Responsibilities of the executive directors for the consolidated financial statements and the group management report

The executive directors are responsible for the preparation of the consolidated financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations, and that the consolidated financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Group in compliance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal controls as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

In preparing the consolidated financial statements, the executive directors are responsible for assessing the Group's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the group management report that as a whole provides an appropriate view of the Group's position and is, in all material respects, consistent with the consolidated financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a group management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the group management report.

## Auditor's responsibilities for the audit of the consolidated financial statements and of the group management report

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the group management report as a whole provides an appropriate view of the

Group's position and, in all material respects, is consistent with the consolidated financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our audit opinions on the consolidated financial statements and on the group management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with § 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institute of Public Auditors (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and this group management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements and of the group management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- obtain an understanding of internal controls relevant to the audit of the consolidated financial statements and of arrangements and measures relevant to the audit of the group management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of the internal controls or these arrangements and measures.
- evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements and in the group management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to be able to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements present the underlying transactions and events in a manner that the consolidated financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Group in compliance with German Legally Required Accounting Principles.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express audit opinions on the consolidated financial statements and on the group management report. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinions.
- evaluate the consistency of the group management report with the consolidated financial statements, its conformity with German law, and the view of the Group's position it provides.
- perform audit procedures on the prospective information presented by the executive directors in the group management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

# Notes to the consolidated financial statements

## I. General Information

in-tech Holding GmbH (the company) is a limited liability Company with its registered office at Parkring 32, 85748 Garching, Munich, Germany. However, in-tech Holding GmbH is registered at the district court of Munich (HRB 275 161). It exercises the function of the parent company in accordance with Section 290 of HGB.

The consolidated financial statements of the parent company are prepared in accordance with the sections of HGB, and German Limited Liability Companies Act (GmbHG).

Information that can be optionally included in the balance sheet is usually provided in the Notes to the consolidated financial statements. The Income Statement has been prepared in accordance with the total cost method. The published consolidated financial statements for 2023 were prepared in accordance with the International Financial Reporting Standards (IFRS), as adopted by the EU, and the additional requirements of Section 315e (1) of the German Commercial Code (HGB). These IFRS-compliant financial statements were considered sufficient to exempt the Group from preparing separate consolidated financial statements under German law.

However, due to changes in shareholder requirements, the preparation of IFRS consolidated financial statements that provide full exemption from preparing separate financial statements is no longer necessary. As the in-tech Group is not legally obliged to prepare these statements under IFRS, the HGB-based statutory consolidated financial statements have been prepared from CY2024.

To ensure transparency and comparability, the IFRS values from previous year (2023) have been reconciled to the HGB values in the present consolidated financial statements. This change in the accounting framework has led to a break in the continuity of presentation, as certain previous year's figures can no longer be directly derived from the published IFRS financial statements.

The main adjustments between HGB and IFRS in 2023 relate to the scheduled amortization of capitalized goodwill and the accounting treatment of transaction costs under HGB, the accounting treatment of leases under IFRS 16, the measurement of the probability of default on receivables, the presentation of financial liabilities using the effective interest method, and the currency translation of dividends.

## II. Information on the scope of consolidation (including shareholdings)

On August 30, 2024, in-tech Group Ltd. Nottingham, sold 100% of the shares in in-tech Group India Private Limited, Kochi, India to Infosys Limited, Bengaluru, India.

The minority interest is reported at 13% of the shares in MTC Mobility Technology Center GmbH, Garching. As of December 31, 2023, the Company's equity amounted to kEUR 456 and the net loss for the year to kEUR 340.

### III. Information on the consolidation principles

Consolidation methods are applied in accordance with the general sections of §§ 300 to 309 HGB.

The capital consolidation of the companies' resulted in a difference recognized as goodwill on the assets side of the Consolidated Balance Sheet in accordance with Section 301 (3) Sentence 1 HGB. Historically, the acquisition-related goodwill amounted to kEUR 103,867. As this value is being amortized on a straight-line basis over ten years, the balance as of the Group's Balance Sheet date amounted to kEUR 76,145. This goodwill essentially arose from the acquisition of in-tech GmbH and Reutz System Solutions GmbH in 2022, and the acquisition of ProIT S.R.L. in 2023.

The goodwill is broken down as follows:

		kEUR
Particulars	Book value as of December 31, 2024	
in-tech GmbH		61,671
Ruetz System Solutions GmbH		11,474
ProIT S.R.L.		3,000
Total		76,145

### IV. Information on accounting policies

The annual financial statements of the direct and indirect subsidiaries included in the consolidated financial statements are prepared in accordance with the statutory laws, applying consistently the accounting policies of in-tech Holding GmbH.

The valuation in the individual financial statements included in the consolidated financial statements is carried out in accordance with the general sections of §§ 252 to 256a HGB, taking into account the special sections for corporations in §§ 264 to 283 HGB.

The valuation is based on the going concern principle.

**Intangible assets** are capitalized at their cost of acquisition and amortized on a straight-line basis over their estimated useful lives, usually between two and fifteen years. In the year of acquisition, depreciation is calculated pro rata temporis. Extraordinary write-downs to the lower fair value are recognized if the impairment in value is expected to be permanent.

**Acquired goodwill** is generally amortized over the expected useful life of ten years. The useful life is based on the expected benefit of the acquired business and is determined in particular by economic factors benefits, such as future growth and profit expectations, synergies, and the workforce. Extraordinary write-downs to the lower fair value are recognized if the impairment in value is expected to be permanent.

**Fixed assets** are recognized at acquisition or production cost, less scheduled depreciation. Depreciation of property, plant and equipment is generally recognized on a straight-line basis. The amortization period is between two and fifteen years and is based on the expected technical useful life. In the year of acquisition, the depreciation is calculated pro rata temporis. Extraordinary write-downs to the lower fair value are recognized if the impairment in value is expected to be permanent.

Movable fixed assets that can be used independently and are subject to wear and tear are immediately recognized as an expense, if their acquisition or production costs do not exceed EUR 800.

**Financial assets** are recognized at cost. Write-downs are recognized if the impairment in value is expected to be permanent. This is the case if objective indications, in particular events or changed circumstances, point to a significant or prolonged decrease in value.

The inventories are valued at the cost of acquisition and production.

**Receivables and other assets** are recognized at nominal value in accordance with the lower of cost or market principle. Trade receivables were valued after taking into the account all recognizable risks based on the probability of default.

**Cash and cash equivalents** are recognized at nominal value.

**Prepaid expenses** are formed for expenditures and revenues prior to the Balance Sheet date, which are economically attributable to the period after the balance-sheet date. .

The capitalization option for **active deferred taxes** is exercised in accordance with Section 274(1) HGB.

The tax provisions are shown at the necessary settlement amount.

**Other provisions** include adequate and appropriate individual provisions for all recognizable risks from uncertain liabilities and for impending losses from pending transactions, factoring expected future price and cost increases.

The **liabilities** are recognized at the settlement amount.

**Currency conversion:** Receivables, other assets, securities, cash and cash equivalents, provisions and liabilities (excluding advance payments received on orders), as well as contingencies in foreign currencies, are generally valued at the mid-spot exchange rate on the balance sheet date.

In the consolidated financial statements, the balance sheets of the foreign consolidated companies are translated according to the concept of functional currency translation.

The exchange rates as of December 31, 2024 are as follows:

Currency	Closing rate	Average rate
EUR/ USD	1.04181	1.08190
CNY / RMB	7.64353	7.78396
EUR / RON	4.98046	4.97628
EUR / GBP	0.82992	0.84544
EUR / CZK	25.19774	25.12641
EUR / JPY	163.19063	163.82839
EUR / MXN	21.54589	19.98606
EUR / INR	89.20000	90.58402

## V. Notes on the Balance Sheet

### 1. Fixed assets

The breakdown and development of the individual items of fixed assets and depreciation, and amortization for CY2024, can be seen in fixed assets in the Statement of Changes, which is attached to these Notes to the consolidated financial statements.

Due to the prevailing economic situation, the equity investment in in4m consulting GmbH was fully written off as of December 31, 2024.

### 2. Receivables and other assets

The other assets include deposits totaling kEUR 147 (previous year: kEUR 140) with a remaining term of more than one year. The other receivables and assets have a term of up to one year.

### 3. Deferred taxes

Deferred taxes reflect the tax effects of temporary differences between the commercial and tax-based approaches to assets and liabilities.

Deferred tax assets result from provisions for impending losses recognized in HGB. Deferred tax liabilities result from the difference between the values of the intangible assets identified in the purchase price allocation (PPA) and the tax values, which will presumably lead to a tax burden in future periods.

The applicable tax rate in the country was used for the calculation:

Date	In kEUR	
	Deferred tax assets	Deferred tax liabilities
December 31, 2023	453	16,992
December 31, 2024	596	15,096
change	143	(1,896)

### 4. Equity

In the course of the acquisition by Infosys Germany GmbH, the outstanding loans to Idinvest Debt S.à.r.l. of kEUR 108,730, the shareholder loan to Maverick International SARL in the total amount of kEUR 13,309 were transferred to the capital reserve by shareholder resolution of July 17, 2024.

The measure serves to strengthen equity.

The net profit developed as follows during the financial year:

In EUR

Particulars	Amount
Net accumulated loss as of December 31, 2023	25,259,363.41
Change in the scope of consolidation	34,655
Consolidated net loss	12,677,986.03
Accumulated deficit as of December 31, 2024	37,972,004.90

## 5. Other provisions

The other provisions totaling kEUR 8,009 (previous year: kEUR 7,897) mainly include provisions for personnel costs of kEUR 4,301 (previous year: kEUR 3,590), warranties kEUR 1,030 (previous year: kEUR 1,078), and impending losses of kEUR 719 (previous year: kEUR 290).

## 6. Liabilities

The reported liabilities are due for payment within one year.

## 7. Contingencies and other financial obligations

Financial obligations totaling kEUR 16,786 resulted from building leasing contracts. Of this, kEUR 4,589 is due within one year, kEUR 11,426 due in more than one and up to five years, and kEUR 772 in more than five years.

Financial obligations resulting from other leasing contracts amounted to kEUR 439, of which kEUR 245 is due within one year. The remaining terms of the leases are between 4 and 60 months.

The financial obligations on ongoing contracts are highly likely to be utilized in the coming financial years.

# VI. Notes on the profit and loss statement

## 1. Revenues

The main activity of in-tech Holding GmbH and its subsidiaries is the provision of engineering services. The resulting revenues are distributed regionally as follows:

In kEUR	
Region	Revenues 2024
Germany	146,666
Czech	3,752
China	7,634

# VIII. Other information:

## 1. Number of employees

During the fiscal year, the Company employed an average of 2,162 (previous year: 1,916) employees, distributed across countries listed as follows:

Number of employees	2024	2023
Germany	1,589	1438
Czech Republic	27	25
China	150	144
Austria	31	28

Region	Revenues 2024
Austria	3,525
UK	1,608
Romania	7,072
Spain	1,829

## 2. Other operating income

Other operating income totaling kEUR 2,936 (previous year: kEUR 1,600) includes the gain on disposal of kEUR 1,532 generated by in-tech Group Ltd. (UK) from the disposal of in-tech Group India Private Limited to Infosys Limited. The capital gain represents extraordinary income.

Also included therein is income from currency differences of kEUR 20 (previous year: kEUR 24).

## 3. Personnel costs

The personnel expenses comprise pension obligations of kEUR 71 (previous year: kEUR 60).

## 4. Other operating expenses

Other operating expenses include rental costs of kEUR 7,988 (previous year: kEUR 7,160) and maintenance costs of kEUR 303 (previous year: kEUR 349).

Expenses from currency conversions is kEUR 24 (previous year: kEUR 41) are also included.

## 5. Non-period income

The present annual financial statements comprise income unrelated to the accounting period totaling kEUR 620. This is essentially a tax refund for the Romanian company ProIT S.R.L. from the years 2023 and 2022.

# VII. Notes on the cash flow statement

The cash-effective change in cash and cash equivalents of kEUR 11,140 (previous year: kEUR -3,974) comprises cash flow from operating activities of kEUR 12,069 (previous year: kEUR 21,418), the cash flow from investment activities of kEUR 1,046 (previous year: kEUR -13,767) and the cash flow from financing activities of kEUR -1,975 (previous year: kEUR -11,624).

Cash and cash equivalents totaling kEUR 2,399 (previous year: kEUR 2,912) are restricted.

Number of employees	2024	2023
Spain	48	32
UK	39	30
Romania	235	199
India	42	14
USA	0	5
Mexico	1	1
	2,162	1,916

## 2. Management

During the past financial year, the parent company's business was managed by the following individuals:

- Mr. Tobias Wagner, Managing Director of Sales, Altomünster
- Mr. Martin Klink, Managing Director of Finance, Starnberg

In accordance with Section 286(4) HGB, the remuneration of the managing directors is not disclosed.

## 3. Advisory council

The total remuneration of the Advisory Board in FY2024 was kEUR 79 (previous year: kEUR 163).

## 4. Group affiliation

in-tech Holding GmbH, Garching, is included in the consolidated financial statements of Infosys Germany GmbH, Cologne, and that of the ultimate parent company, Infosys Limited, Bengaluru, India, published on the website of Infosys Limited ([www.infosys.com](http://www.infosys.com)). The exemption of Section 264 (3) HGB is accordingly applied.

## 5. Exemption according to § 264 HGB

The following subsidiaries are exempt from the obligation to prepare notes and disclose their annual financial statements in accordance with §§ 264 ff. HGB:

- in-tech GmbH, Garching b. München;
- drivetech Fahrversuch GmbH, Garching b. München;
- Friedrich & Wagner Asia Pacific GmbH, Garching b. München

## 6. Auditor

The auditors' fee calculated for FY2024, excluding travel expenses and excluding statutory VAT, is kEUR 126 (previous year kEUR 133) for auditing services.

## 7. Appropriation of net profit

In the shareholders' meeting, the Management proposes that the net loss of kEUR 12,678 for the year is carried forward to the new account.

## 8. Supplemental report

Pursuant to the merger agreement dated January 23, 2025, in-tech Holding GmbH was merged into in-tech GmbH with retroactive effect as of January 1, 2025 (downward merger). The entry in the commercial register was made on February 5, 2025.

# Group Management Report

## Business and Framework Conditions

The in-tech Group (in-tech) is an international provider of engineering services, software development, and process consulting in 7 countries.

Aiming at autonomous, electric, and connected vehicles, in-tech is developing futuristic solutions for intelligent mobility. The Company specializes in integrating electronics, and developing driver assistance systems, connected vehicles, in-vehicle infotainment and e-mobility. in-tech also serves as a trusted partner to automotive manufacturers, supporting them in the entire development process of new systems. The Company is increasingly taking on responsibility for testing system prototypes and vehicle series.

in-tech Holding GmbH is the group parent company. It prepares consolidated financial statements in accordance with Section 290 of Germany Commercial Code (HGB), for in-tech GmbH and its subsidiaries included.

With effect from July 17, 2024, 100% of the shares in in-tech Holding GmbH were sold to Infosys Germany GmbH, a subsidiary of Infosys Singapore Pte. Ltd., (a wholly-owned subsidiary of Infosys Limited, Bengaluru, India). The ultimate parent, Infosys Limited, Bengaluru, India, prepares consolidated financial statements for the largest group of consolidated entities that are published on the website of Infosys Limited ([www.infosys.com](http://www.infosys.com)).

in-tech Holding GmbH has merged with in-tech GmbH on January 1, 2025.

in-tech offers engineering services, software development and process consulting. These services include development, validation, analysis and project management in the sphere of automotive electronics, industry 4.0, and transportation systems. Our customers include well-known companies from the automotive, machinery, and transportation. in-tech is constantly expanding its range of services to meet market requirements. The Company, headquartered at Garching near Munich, is active at various German locations with a growing presence in Austria, the Czech Republic, Spain, Great Britain, China and Romania. The majority of the group's sales were generated by services for the automotive industry and automotive-related companies.

The majority of the Group's sales is generated by services for the automotive industry and companies. Around 85% of sales are realized in Germany, followed by China and Romania.

The in-tech Group aims to provide its product and service portfolio to customers worldwide, as near to them as feasible.

In strategic terms, in-tech is growing organically. The takeover by the Infosys Group has opened further exciting opportunities for expansion and growth, which are currently being explored.

According to the German Federal Motor Transport Authority (new car registration statistics in December 2024), new car registrations in 2024 declined by 1% compared to the previous year, totaling 2.82 million new cars.

Alternative drive systems gained 33.5% share of new registrations of hybrid-powered vehicles, an increase of 4% from the previous year. Electric cars share is 13.5 % of new registrations, though this figure shows a fall of 5% year-on-year.

According to the Federal Climate Protection Act (KSG), greenhouse gas emissions from transport must be reduced to 84 million tons of CO<sub>2</sub> equivalent by 2030. Compared to 2019, this is almost a 50% reduction (49.0%). According to the Climate Protection Act, Germany must become greenhouse gas neutral by 2045, which will probably mean reducing greenhouse gas emissions to zero for the transport sector.

Manufacturers will continue to invest large amount of resources in the development and technical realization of alternative drives to achieve national and international climate protection targets, and to remain competitive in the global market.

In 2024, autonomous driving and smart mobility (the networking of cars with the internet and the overarching networking of different means of transport) continued to drive demand for services in the field of digitalization. Given in-tech's expertise in the fields of IT and software, this implied a guaranteed high capacity utilization, as automotive manufacturers perceive in-tech as a development partner with a great deal of expertise. in-tech meets international market demands with highly qualified and motivated employees at customer-oriented locations in seven countries.

In 2024, German automotive manufacturers faced several challenges. Slower global demand for vehicles, particularly in the established markets, while high investment required for transitioning to e-mobility placed a heavy burden on the industry leading to business stagnation in 2024.

## 2. Performance indicators

### Financial performance indicators

Every month, in-tech checks the realized turnover for budget achievement and reconciles with those responsible. The same procedure is applied to the purchased external services, since this performance indicator should be kept as low as possible.

At in-tech, the financial performance indicators essentially include the ratio of personnel costs to revenues, and the share of materials and services purchased from third parties for project implementation (material costs in relation to revenues). Both key figures are continuously monitored and evaluated with necessary measures implemented to improve performance. Minor short-term deteriorations are tolerated, if the growth and quality targets are intact (Refer to 3. Net assets, financial position, and results of operations).

Compared to the previous year's forecast, personnel cost ratio has slightly increased, while the material cost ratio to total revenue has decreased. These contrary developments of the two ratios are directly inter-related. (Refer to 3. Net assets, financial position, and results of operations).

The revenue for CY2024 is below the previous year's forecast mainly due to the downturn in the German automotive industry. This economic trend also prevented the in-tech Group from continuing its previous growth trajectory, (which was basis for the 2024 forecast in the previous financial statements), with a 1% decline in revenue compared to CY2023.

EBITDA (earnings before interest, taxes, depreciation and amortization) is also closely monitored against budget to assess the efficiency of operational measures, and, promptly initiate corrective measures, if necessary, to achieve the target.

The published consolidated financial statements for 2023 were prepared in accordance with the International Financial Reporting Standards (IFRS), as adopted by the EU, and the additional requirements of section 315e (1) of the German Commercial Code (HGB), and thus had a discharging effect on the preparation of consolidated financial statements in accordance with the HGB. Due to changes in the shareholders' requirements, the preparation of IFRS consolidated financial statements that provide full exemption from preparing separate financial statements is no longer necessary. Furthermore, since the in-tech Group is not required to prepare IFRS consolidated financial statements, only the legally required consolidated financial statements in accordance with the German Commercial Code (HGB) have been prepared since the 2024 financial year. For the present consolidated financial statements, the IFRS values of the previous year were reconciled with the German Commercial Code (HGB) values. The consistency of presentation with the published previous year's financial statements has been broken, as the following figures for the previous year cannot be directly derived from them.

### **Non-financial performance indicators**

The in-tech Group places a high value on compliance with legal standards, including corporate law, tax laws, environmental protection regulations, and labor laws. If deviations are suspected, internal processes are immediately initiated by the Management to resolve. The in-tech group also sets a high standard for the quality of the project work performed as a performance indicator. We evaluate customer feedback and use it to develop a continuous improvement process aimed at long-term customer satisfaction. The Compliance and Quality Management department is responsible for these performance indicators.

Employees are central to the in-tech Group's overall value chain. The Company offers market-oriented compensation, benefits programs, team-building measures, an attractive and engaging workplace, and a positive work environment characterized by open communication to attract and retain highly qualified professionals. The focus is on team spirit, having fun at work, responding to individual interests, and considering personal circumstances. Particular mention should be made here of the Company's comprehensive training programs. (in-tech Academy) delivers regular, recurring training for all employees, and additional learning opportunities to promote growth.

Other non-financial performance indicators gaining importance, include initiatives in ESG (Environmental, Social and Governance). in-tech intends to fully implement the Corporate Sustainability Reporting Directive (CSRD) by the end of 2025. This work has already begun and is being driven by the Management.

in-tech has set up a whistleblower channel that allows employees to report potential compliance violation in a confidential and anonymous manner. Every report of possible misconduct is seriously evaluated through a fair, quick, and confidential process by internal legal experts, and if and when necessary, in consultation with external lawyers.

## **3. Net assets, financial position and results of operations**

### **Business performance and economic conditions of the in-tech Group**

The in-tech group companies are working intensively towards sustainable and intelligent mobility of tomorrow, changes in customer requirements & market conditions in the field of electromobility. With strategic, organizational, personnel-related, and economic measures to ensure its own competitiveness, in-tech is listed as a potential supplier for national and international OEMs.

### **Net assets position**

The Balance Sheet worth for the group is kEUR 198,940 (previous year: kEUR 217,205).

Intangible assets of kEUR 132,721 (previous year: kEUR 151,013) include software of kEUR 56,576 (previous year: kEUR 64,384) and goodwill of kEUR 76,145 (previous year: kEUR 86,628).

The net book value of tangible fixed assets is kEUR 4,059 (previous year: kEUR 4,554). The property, plant and equipment depreciation rate is 62.81% (previous year: 57.32%). The property, plant and equipment depreciation rate is 12.05% (previous year: 23.99%). The investment ratio for tangible fixed assets amounted to 9.35 % (previous year: 24.61%).

Financial assets amount to kEUR 175 (previous year kEUR 362).

The fixed assets have a netbook value of kEUR 136,956 at the end of the year (previous year: kEUR 155,929).

Inventories amount to kEUR 735 (previous year kEUR 280).

Outstanding trade receivables amount to kEUR 11,804 (previous year: kEUR 22,541).

The receivables' turnover rate (revenue to gross sales price/average receivables) is 11.9 (previous year: 17.9). The key figure indicates how often the receivables have liquidated over the total operating revenue. The collection period for receivables, or customer credit, is approximately 30.6 days (previous year: approximately 20.4 days).

The current assets also include other assets totaling kEUR 3,087 (previous year: kEUR 1,058), and bank balances of kEUR 45,325 (previous year: kEUR 34,289).

Current assets, excluding cash and cash equivalents, totaled kEUR 15,626 (previous year: kEUR 23,879) at the end of the year.

## Financial position

The Company's financial position is favorable.

Equity amounts to kEUR 165,291 (previous year: kEUR 55,986). The fully paid-in subscribed capital of in-tech Holding GmbH is kEUR 25, as in the previous year. The capital reserve equals kEUR 203,165 (previous year: kEUR 81,125). The increase results from the conversion of the loan of kEUR 122,039, taken over by Infosys Germany GmbH, and converted to capital reserve, when it acquired the shares.

The net accumulated loss is reported at kEUR 37,972 (previous year: kEUR 25,259). The net accumulated loss is mainly due to a net loss for the year of kEUR 12,678 (previous year: kEUR 14,632). Depreciation and amortization of kEUR 19,666 (previous year: kEUR 21,825) had a significant influence on the financial situation. This figure includes amortization of goodwill of kEUR 10,387 (previous year: kEUR 10,267), and amortization of PPA assets in the amount of kEUR 7,567 (previous year: kEUR 8,587).

The conversion of the loan into equity raised the equity ratio to 83% (previous year: 26%), reducing the debt ratio to 17% (previous year: 74%).

The deferred tax liabilities arose primarily from the acquisition of shares in in-tech GmbH, Ruetz System Solutions GmbH and ProIT S.R.L. The netbook value as of December 31, 2024, is kEUR 15,096 (previous year: kEUR 16,992).

The non-current assets totaling kEUR 136,956 are financed by the equity (kEUR 165,291). The liabilities have a maximum term of one year.

As solid base of liquid funds exists, the need for bank loans did not arise, and as before, the pre-financing of new orders could be realized from the current cash flow. The ratio of cash to current liabilities is 244.30% (1<sup>st</sup> degree liquidity for previous year: 23.77%).

By including all current financial assets (liquid funds and short-term receivables), second degree liquidity is obtained at 307.93% (previous year: 39.40%). Sales related third degree liquidity, which includes all current assets (liquid funds, receivables, and inventories) is 328.53% (previous year: 40.33%).

## Profit situation

In 2024, the in-tech Group generated a turnover of kEUR 172,087 (previous year kEUR 169,520).

The cost of materials is recognized in the amount of kEUR 9,303 (previous year: kEUR 12,068). The material intensity (material costs in relation to revenues) is 5.41% (previous year: 7.12%).

Personnel expenses are kEUR 127,386 (previous year: kEUR 119,535), corresponding to 74.02% (previous year: 70.51%) of revenues.

In 2024, depreciation of fixed assets are kEUR 19,666 (previous year: kEUR 21,825), of which kEUR 10,387 (previous year: kEUR 10,267) is attributable to the scheduled amortization of goodwill, and kEUR 7,567 (previous year: kEUR 8,587) to the amortization of PPA assets.

Interest and similar expenses fell to kEUR 7,017 (previous year: kEUR 12,117). After the takeover by Infosys Germany GmbH in CY2024, shareholder loans were converted into capital reserves, which sustainably reduced interest expenses.

A net loss of kEUR 12,678 (previous year: kEUR 14,632) are reported this financial year.

## Notes on the cash flow statement

Cash flow from operating activities are below the previous year's level at kEUR 12,069 (previous year: kEUR 21,418). The lower net loss for the year, and the significant decrease in assets of kEUR 10,622 (previous year: kEUR 744) are offset by the negative effects of a higher decrease in liabilities of kEUR 7,029 (previous year: kEUR -1,793), and higher income tax payments of kEUR 4,929 (previous year: kEUR 2,545). Non-cash changes comprise depreciation and amortization of kEUR 19,666 (previous year: kEUR 21,819).

Cash flow from investment activities amounted to kEUR 1,046 (previous year: kEUR -13,767), largely owing to the sale of in-tech India Ltd. The previous year included the acquisition of ProIT S.R.L in April 2023 with a payment of kEUR 10,694. Additional payments were made for intangible assets (kEUR 64; previous year: kEUR 556), and tangible assets (kEUR 931; previous year: kEUR 2,709).

Cash flow from financing activities amounted to kEUR -1,975 (previous year: kEUR -11,624), mainly comprising interest payments of kEUR 1,975 (prior year: kEUR 12,673). The previous year also included cash inflows from borrowings of kEUR 14,606 under finance facilities, a

cash outflow of kEUR 8,558 from capital measures, and loan repayments of kEUR 5,000. The loan to capital reserve conversion had no effect on the cash flow.

As of December 31, 2024, with cash and cash equivalents at kEUR 45,325 (previous year: kEUR 34,289), the liquidity of the in-tech Group can be considered very good. The in-tech Group has met all its financial obligations, its excellent credit rating is perceived by customers as positive for large-volume business relationships.

## Conclusion on the economic report

In 2024, the German automotive industry showed signs of an economic downturn. This ongoing uncertainty is due to inflation, rising energy costs, and recessions in key markets, thereby reducing consumer spending in the German and international markets, where German cars are traditionally well-represented.

From the Management's point of view, business development in 2024 was rather unfavorable and did not meet expectations. However, in the past, the in-tech Group has consistently adapted these changes in its products and services through strategic measures and investments, enabling it to maintain its strong market position. In the process, the Group has successfully anticipated evolving market requirements and challenges.

## 4. Risks and opportunities

### Risk management and risk control

The risk management process at in-tech includes:

- Risk identification and recording
- Risk analysis
- Risk assessment
- Risk management
- Risk monitoring

Internal controls are applied in all key areas of the Company through the dual control principle and plausibility checks by the Management. The procedural guidelines are regularly revised to monitor and enhance project implementation.

Business KPIs are regularly evaluated to identify deviations in the current value streams and monitor internal risks, while the operational project management system helps recognize operational risks in good time. These constant monitoring processes allow corrections using rapid countermeasures. The Company's lean organization structure and close customer relationships help to keep risk-based costs very low.

### Approach of risk classifications in the in-tech Group:

Damage class	Qualitative	Quantitative
1	very low	> €1 million - €2 million
2	noticeable	> €2 million - €3 million
3	significant	> €3 million - €5 million
4	considerable	> €5 million - €7 million
5	existential	> €7 million

Probability class	Qualitative	Quantitative
1	improbable	0% - 19%
2	small	20% - 39%
3	remedies	40% - 59%
4	high	60% - 79%
5	very high	80% - 100%

## Presentation of the ranking of specific risks:

Ranking	Risk	Damage Class	Probabilistic Class
1	order and demand risk	3	3
2	market price risks	2	2
3	risks of recruitment, shortage of skilled labor	1	1
4	operational risks	1	1
5	counterparty and credit risks	1	1
6	liquidity and refinancing risk	1	1
7	interest rate risk	1	1
8	risks in cyber security	1	1

The areas of possible risks for the engineering division and the in-tech Group, currently, are as follows:

### Order and demand risk

Investments in new solutions, products, and subsidiaries carry the risk of delayed or unrealized amortization, should the forecasted sales revenues be unfulfilled.. Risk category is: Damage class 1 | Probability class 1.

The risk of significant decline in sales occurs, when the business relationship with in-tech's major customers cease. The cyclically induced weakness in demand in the automotive industry also poses a higher risk to business development, potentially limiting employee deployment in billable projects. Risk category is: Impact class 3 | Probability class 3.

### Market price risks

in-tech is exposed to price pressure on the supplier and service industry, resulting from weakened automotive sector and project-bundling. Market consolidation coupled with shrinking margins, would necessitate even more efficient project implementation.

If a negative economic situation at a customer's Company leads to short-term cost-cutting measures, there is a risk that existing orders will be cut back at short notice. This could impact employee utilization on billable projects, potentially impacting earnings and liquidity. However, unused capacity can be deployed at short notice to new orders through dynamic resource planning. Risk category is: Impact class 2 | Probability class 2.

### Recruitment, shortage of skilled labor risks

The search for suitable and experienced employees is one of the key success and growth factors for the in-tech Group. Biggest challenges are attracting enough skilled employees and continue building expertise in new technologies within the Company. With active recruiting, comprehensive human resource management, and a range of employee benefits, in-tech positions itself as an innovative and attractive employer in the market. Risk category is: Damage class 1 | Probability class 1.

### Operational risks

Operational risk arises from human error, technology failure, inappropriate or flawed processes or project management and external events, legal risks included.

Since employee expertise is critical to performance, the in-tech Group mitigates this risk by systematic knowledge transfer and continuous training of all parties involved in the execution of orders and projects. In the event of high employee turnover, sufficient internal capacity ensures the service quality is maintained. Risk category is: Damage class 1 | Probability class 1.

### Counterparty and credit risks

This refers to the risk of customers failing to meet their contractual payment obligations, leading to value adjustments or write-offs of receivables. However, the in-tech Group serves reputed automotive and industrial customers with excellent credit ratings. Risk category is: Damage class 1 | Probability class 1.

### Liquidity and refinancing risks

This involves the potential risk of insufficient funds to meet the Company's payment obligations.

The in-tech Group currently has a strong liquidity position to pre-finance ongoing customer projects, supported by factoring, enabling short-term finance. In the area of refinancing risks, in-tech has long-standing business relationships with banks though risk of higher costs could arise due to shifts in capital market interest rates. Risk category is: Damage class 1 | Probability class 1.

### Interest rate risk

The long-term loan conversion into capital reserve that in-tech GmbH had arranged with in-tech Holding GmbH has kept future interest rate risks at bay. Risk category is: Damage class 1 | Probability class 1.

### Cybersecurity risks

A successful cyber-attack, for example through ransomware or phishing, could result in the loss or theft of data. This could not only result in financial losses and legal consequences, but also seriously damage the trust of customers and partners. The in-tech Group categorizes this risk as: Damage class 1 | Probability class 1.

## **Economic opportunities through e-mobility and its digitalization**

The worldwide expansion of e-mobility in all industrialized nations of the world brings with it unimagined opportunities for engineering service providers. The demand for expertise in e-mobility solutions, from car manufacturers, private and public organizations, is leading to a boom in the market, which can massively benefit the in-tech Group. Positioned as a consulting service provider in all stages of the e-mobility value chain, including drive systems, charging and storage technologies, the in-tech Group anticipates growth in autonomous driving and vehicle networking in all dimensions. The automotive industry's disproportionate investment in digitization and software innovations for vehicles are emerging value chains and infrastructure that in-tech's Digital Solutions division is well-equipped to establish new services and products and promote collaboration with OEMs. In addition to the traditional automotive suppliers, digital services will be provided by pure software suppliers. In the future, the entire lifecycle of connected vehicles will encompass operations, maintenance, and digital service offerings of 'pay per use' models for vehicle users.

## **Development of new products and services**

The in-tech Group is continuously innovating by developing its products and services. To this end, new teams and infrastructure are being pre-financed and developed in anticipation of upcoming tenders. The high start-up costs are usually quickly offset by the high value delivered to customers, resulting in high contribution margins.

The takeover of in-tech by Infosys, has opened a multitude of further access to new and expansion of existing markets. The Group is now able to participate in larger and significantly more comprehensive tenders from the existing and new customers through joint efforts. The synergy enables in-tech's service portfolio to extend to industries outside the automotive sector much more easily.

## **Potentially larger applicant pools through remote work and home office**

By offering more flexible work models, digitized workplaces, remote or home office options, in-tech has significantly increased its potential applicant pool. These measures increase the number and quality of applications received for job openings. The Company relies heavily on FlexOffice offers to enable location-independent work and attract skilled professionals.

## **Summary and explanation of the risk rating**

The risks and opportunities presented above are ranked in order of their relative significance. The probability of some risks materializing has increased due to economic developments compared to previous years.

In 2024, the in-tech Group further expanded its risk management framework taking into account the complexity and scope of its business operations. The risk management process include regular evaluation by the risk management team and, if necessary, strategies are developed jointly with the Management.

in-tech has taken sufficient precautions to cover the existing individual risks arising from its business activities, with provisions and accruals appropriately recognized in the financial statements.

Opportunities are monitored and pursued when economically viable for the in-tech Group.

At present, there are no risks that could jeopardize the Company's existence. We see growth opportunities in strategic acquisitions that complement in-tech's product range and strengthen customer focus. Simultaneously, the Company continues to invest in proprietary software solutions tailored to the automotive sector.

## **5. Forecast for FY2025**

The Management expects a slightly lower turnover than in 2024. Nevertheless, the volume of orders already exceeds EUR 130.7 million. A special focus on cost savings and efficiency measures is intended to maintain EBITDA (earnings before interest, taxes, depreciation and amortization as a percentage). The material cost ratio (material expenses in relation to sales) and the personnel cost ratio (personnel expenses in relation to sales) are expected to remain almost unchanged.

Cost management is being continued with internal processes initiated, and structural changes consistently pursued. Alongside the above efforts, investments in new products and services are being implemented to a level appropriate with in-tech's growth plans. In new business areas, the initial ratio of revenues to personnel costs is expected to be worse than in the core business due to the initial learning curve of the employees deployed. This is factored in the planning assumptions. With its expertise, in-tech endeavors to raise these new business areas to the profitability level of the existing business within a short period.

in-tech continues to strengthen employee retention by further developing its existing monetary and non-monetary offers, creating a sustainable work environment.

The full implementation of the Corporate Sustainability Reporting Directive (CSRD) by the end of 2025 is an important goal. Necessary preparations and measures for achieving compliance have been initiated in 2024.

To the extent that the Management report contains forward-looking assumptions and estimates, it should be noted that, particularly in the fast-moving automotive industry, there is increased uncertainty in forecasts in relation to actual results.

## 6. Outlook for 2025

With its transformation into a solution provider in automotive electronics, in-tech's Engineering Division stands out from many competitors who focus solely on services (working through specifications). Here, the in-tech Group also expects to win new customers in 2025 with the support and reach of its new shareholder.

in-tech has received ISO 14001 (environmental management) and ISO 50001 (energy management) certifications in addition to ISO 9001 and ISO 27001. in-tech is already working intensively on implementing Corporate Sustainability Reporting Directive (CSRD), aiming full compliance by the FY2025 end.

## WongDoody GmbH

# Independent Auditor's Report

We have issued the following Independent Auditor's Report on the consolidated financial statements and the group management report of WongDoody GmbH, Stuttgart/Germany, for the financial year ended 31 December 2024 as set out in appendix 1:

To WongDoody GmbH, Stuttgart/Germany

## Audit Opinions

We have audited the consolidated financial statements of WongDoody GmbH, Stuttgart/Germany, and its subsidiaries (the Group) which comprise the consolidated Balance Sheet as at December 31, 2024, and the consolidated Statement of Profit and Loss, the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flows for the financial year from January 1 to December 31, 2024, and the notes to the consolidated financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the group management report of WongDoody GmbH, Stuttgart/Germany, for the financial year from January 1 to December 31, 2024.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying consolidated financial statements comply, in all material respects, with the requirements of German commercial law and give a true and fair view of the assets, liabilities and financial position of the Group as at December 31, 2024 and of its financial performance for the financial year from January 1 to December 31, 2024 in compliance with German Legally Required Accounting Principles, and
- the accompanying group management report as a whole provides an appropriate view of the Group's position. In all material respects, this group management report is consistent with the consolidated financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development.

Pursuant to Section 322 (3) sentence 1 German Commercial Code (HGB), we declare that our audit has not led to any reservations relating to the legal compliance of the consolidated financial statements and of the group management report.

## Basis for the Audit Opinions

We conducted our audit of the consolidated financial statements and of the group management report in accordance with Section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and of the Group Management Report" section of our auditor's report. We are independent of the group entities in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the consolidated financial statements and on the group management report.

## Responsibilities of the Executive Directors for the Consolidated Financial Statements and the Group Management Report

The executive directors are responsible for the preparation of the consolidated financial statements that comply, in all material respects, with the requirements of German commercial law, and that the consolidated financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Group in compliance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud (i.e. fraudulent financial reporting and misappropriation of assets) or error.

In preparing the consolidated financial statements, the executive directors are responsible for assessing the Group's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the group management report that as a whole provides an appropriate view of the Group's position and is, in all material respects, consistent with the consolidated financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a group management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the group management report.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and of the Group Management Report.

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the group management report as a whole provides an appropriate view of the Group's position and, in all material respects, is consistent with the consolidated financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future

development, as well as to issue an auditor's report that includes our audit opinions on the consolidated financial statements and on the group management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and this group management report.

We exercise professional judgement and maintain professional skepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the consolidated financial statements and of the group management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit of the consolidated financial statements and of arrangements and measures relevant to the audit of the group management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of internal control or these arrangements and measures of the Group.
- evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the consolidated financial statements and in the group management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to be able to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements present the underlying transactions and events in a manner that the consolidated financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Group in compliance with German Legally Required Accounting Principles.
- plan and perform the audit of the consolidated financial statements in order to obtain sufficient appropriate audit evidence regarding the financial information of the entities or of the business activities within the Group, which serves as a basis for forming audit opinions on the consolidated financial statements and on the group management report. We are responsible for the direction, supervision and inspection of the audit procedures performed for the purposes of the group audit. We remain solely responsible for our audit opinions.
- evaluate the consistency of the group management report with the consolidated financial statements, its conformity with German law, and the view of the Group's position it provides.
- perform audit procedures on the prospective information presented by the executive directors in the group management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Group management report for the financial year from January 1 to December 31, 2024

WongDoody GmbH, Stuttgart/Germany

## A. Business activity

WongDoody GmbH and its subsidiaries offer its customers in particular services in the fields of strategy development, conception, creation, development and implementation of multi-channel campaigns, content marketing, branding, digital experience design incl. UX/UI, 3D/digital twin solutions, animations and film productions, digital services, web and e-commerce solutions.

The parent company of WongDoody GmbH is Infosys Germany GmbH, a wholly-owned subsidiary of Infosys Singapore Pte. Ltd., which is a wholly-owned subsidiary of Infosys Limited. Infosys Limited offers consulting, technology, outsourcing and next-generation digital services worldwide to help customers implement their digital transformation strategies.

The clients of WongDoody GmbH and its subsidiaries include large retail companies and brand owners, particularly in the automotive, consumer goods and media sectors. Most of the direct customers are based in Germany, Austria and Switzerland. As part of the integration of the WongDoody companies into global Infosys Limited Group further contracts are also to be successively awarded to WongDoody by Infosys group companies.

The services of WongDoody GmbH are mainly provided by own staff. To this end, WongDoody GmbH has employed staff in Germany as well as in the following subsidiaries:

WongDoody (Shanghai) Co. Ltd. in Shanghai/China

WongDoody Limited in Taipei/Taiwan

WongDoody d.o.o. in Belgrade/Serbia

In addition, services are procured from third parties, if these cannot be provided in-house, including from the area of film production, and charged to customers.

## B. Economic framework

In the calendar year 2024, the German economy recorded a further decline: price-adjusted gross domestic product (GDP) fell by 0.2% compared with the prior year. This marks the second consecutive year of negative economic growth, following a decline of 0.3% in the calendar year 2023.

Several factors contributed to this development. The German export industry faced increased international competition in key sales markets, particularly from China. In addition, high energy costs, persistently high interest rates and uncertain economic prospects weighed on economic development.<sup>(1)</sup>

Despite these challenges, the e-commerce sector in Germany showed a slight recovery in the calendar year 2024. After a double-digit decline in revenue in the calendar year 2023, gross sales of goods in e-commerce rose by 1.1% to bEUR 80.6. Online marketplaces benefited particularly from this growth, achieving a 4.7% increase in revenue, while other sales channels such as online pure players and multichannel retailers recorded slight declines.<sup>(2)</sup>

The automotive industry and their suppliers faced big challenges in the financial year 2024. In the 1<sup>st</sup> half of the year 2024 the automotive manufacturers realized a revenue of about bEUR 269.5 and thus 4.7% less than in the 1<sup>st</sup> half of the financial year 2023. Massive challenges for the German car manufacturers arose particularly from the sales market China.<sup>3</sup> At the beginning of 2025, different manufacturers reported drops in profit and staff reductions.<sup>(4)</sup>

Technically, the financial year 2024 was affected by important progress in the field of artificial intelligence (AI). Companies increasingly used AI technologies for increasing efficiency and automation and improving quality. According to the Federal Statistical Office, every fifth company (20%) in Germany used AI technologies, being an increase of 8 percentage points compared to the prior year.<sup>(5)</sup>

In the calendar year 2024, two additional key events had a significant impact on the economic environment in Germany: the lasting conflict in the Ukraine and the presidential election in the U.S.

On the one hand, the difficult economic conditions led to budget cuts for traditional marketing services at many retail and brand companies. On the other hand, AI-based applications and services gain in importance for an increasing number of companies.

<sup>(5)</sup> [https://www.destatis.de/DE/Presse/Pressemitteilungen/2024/11/PD24\\_444\\_52911.html](https://www.destatis.de/DE/Presse/Pressemitteilungen/2024/11/PD24_444_52911.html)

## C. Business trend and situation of the company

### Financial performance indicators

The following financial performance indicators were used for management:

- Net revenue and
- EBITDA margin

The net revenue corresponds to the revenue less external services (cost of procured services) and including the change in inventories.

The EBITDA margin is defined as ratio of EBITDA (profit for the year before amortization and depreciation, taxes on income and the financial result) and the net revenue (revenue less external services and including the change in inventories).

### Financial performance

WongDoody Group realized a revenue decline in the financial year 2024. The total revenue reduced by mEUR 6.8 compared to the prior year. In the financial year 2024, WongDoody GmbH realized revenue of kEUR 27,669 (prior year: kEUR 34,456). Revenue is divided into agency services (with a focus on

the digital) of kEUR 19,069 (prior year: kEUR 21,907) and film productions/3D services of kEUR 8,601 (prior year: kEUR 12,549). The revenue decline was primarily due to cross-customer budget cuts, which were particularly evident in the tense economic situation in Germany and the general reluctance to invest in marketing and digital projects compared with the financial years 2022 and 2023. Film productions in particular showed a stronger decline than the agency business. More than 80% of the revenue was realized in Germany.

The revenue includes passed-on external services of kEUR 4,834 (prior year: kEUR 7,102). These also decreased by kEUR 2,268 year-on-year due to cross-customer budget cuts resulting from the tense economic situation in Germany. Net revenue (revenue less external services and including change in inventories) of the Group was kEUR 22,780 (prior year: kEUR 27,364). This development was below our plans (increase in net revenue in the mid-single-digit percentage range) and was primarily due to the fact that we had already anticipated better overall economic development for 2024, which would have had an impact on budgets for digital projects, and we had also planned a greater value contribution from collaborations with Infosys.

In reacting on the changed framework conditions, the Group realized comprehensive cost saving measures. The focus was on adjusting the personnel structure, including targeted staff reductions in selected areas (employees as of 31 December 2024: 307; 31 December 2023: 348, in each case as of the end of the year).

Against this backdrop, personnel expenses amounted to kEUR 20,450 (prior year: kEUR 21,651). Personnel expenses include costs for the management incentive program amounting to kEUR 985 (prior year: kEUR 1,776).

Other operating expenses amounted to kEUR 4,546, up on the prior year (kEUR 4,449). This increase is primarily attributable to higher employee settlement obligations (kEUR +407).

WongDoody Group achieved the following EBITDA in the financial year 2024:

Particulars	(kEUR)	
	As at December 31,	
	2024	2023
Profit for the year	(2,244)	707
Income taxes	(106)	272
Net finance income/expense	(66)	10
Depreciation, amortization and write-downs	467	630
EBITDA	(1,950)	1,620

The EBITDA margin in relation to the net revenue is -8.5% (prior year: 5.9%). The loss incurred was not anticipated and is below original expectations (EBITDA margin in the positive single-digit percentage range relative to net revenue). The shortfall is primarily attributable to the fact that we had already anticipated better overall economic development for 2024, which would have had an impact on budgets for digital projects, and we had also planned a greater value contribution from collaborations with Infosys.

## Assets and liabilities

Particulars	(kEUR)	
	As at December 31,	
	2024	2023
<b>Assets</b>		
Fixed assets	2,061	1,199
Inventories	21	76
Receivables and other current assets	5,989	8,231
Cash and cash equivalents	2,088	3,124
Prepaid expenses and deferred tax assets	260	269
<b>Total assets</b>	<b>10,419</b>	<b>12,900</b>
<b>Equity and liabilities</b>		
Equity	6,173	8,399
Provisions	2,181	3,057
Liabilities	2,050	1,434
Deferred income	15	9
<b>Total equity and liabilities</b>	<b>10,419</b>	<b>12,900</b>

Fixed assets amounted to kEUR 2,060 thus being clearly above the level of the financial year 2023 (kEUR 1,199). This increase is primarily attributable to the purchase of new laptops and peripheral devices as part of a group-wide standardization of the IT infrastructure.

The receivables include trade receivables of kEUR 4,920 (prior year: kEUR 6,220). The decline in trade receivables is mainly due to the decline in revenue compared to the financial year 2023. Other assets decreased by kEUR 446 compared to the prior year. This development is primarily due to the repayment of tax overpayments made in prior years.

Mainly due to cash outflows from operating activities, cash and cash equivalents amounted to kEUR 2,088, down from kEUR 3,124 in the prior year.

Equity totalled kEUR 6,173 as at the reporting date (prior year: kEUR 8,399). The equity ratio is around 59% (prior year: around 65%).

Provisions mainly include provisions for personnel and higher employee settlement commitments. The decline compared to the prior year is primarily due to lower tax provisions resulting from tax payments for prior years. In addition, other provisions decreased due to lower bonus obligations to employees, which were offset by higher employee settlement obligations.

Due to a significant decline in external services charged on to customers, trade payables also decreased from kEUR 517 to kEUR 140 compared to the prior year.

The liabilities include liabilities to affiliated companies totaling kEUR 1,362 (prior year: kEUR 68). The increase in liabilities to affiliated companies is mainly due to the purchase of new laptops and peripheral equipment as part of an internal standardization of the IT infrastructure within the Group.

In line with the decline in revenue and the average number of employees, liabilities from taxes reported under other liabilities also decreased from kEUR 698 to kEUR 429.

Financial position

The main objective of the financial management is to ensure the group companies’ solvency in order to meet the payment obligations on time and to reduce financial risks. The capital requirements are generally to be covered by the funds generated from operating activities.

As of 31 December 2024, the group companies dispose on cash and cash equivalents of kEUR 2,088 (prior year: kEUR 3,124). Like in the prior years, the companies were financed with the own cash funds. Furthermore, an intragroup credit line of mEUR 2 is currently disclosed for WongDoody GmbH. This has not been drawn in the financial year 2024. The Company has not raised any external bank liabilities in the financial year 2024.

The Company’s cash funds comprise cash and cash equivalents. The financial position can be presented as follows using a cash flow statement in accordance with GAS 21:

	(kEUR)
Particulars	As at December 31, 2024
Cash flow from operating activities	(633)
Cash flow from financing activities	–
Cash flow from investing activities	(421)
Net change in cash funds	(1,054)
Cash funds at the beginning of the period	3,124
Cash funds at the end of the period	2,088

Cash flow from investing activities mainly consists of payments for investments in fixed assets (kEUR -472) and interest payments received (kEUR +66).

With a loss for the year of kEUR 2,245, WongDoody Group generated a cash flow from operating activities of kEUR -633, mainly due to the cash reduction in trade receivables.

Overall assessment of the business trend

WongDoody GmbH Group’s operating performance in the financial year 2024 was marked by difficult economic conditions in Germany. This led to a significant decline in revenue compared to the financial year 2023. Also, the projects in Asia are declining in terms of business development, accounting for around 2% of total revenue in 2024.

In reacting on the changed framework conditions, the Group realized comprehensive cost-saving measures. These led to a reduction in the average number of employees and, as a result, in personnel expenses.

At the same time, the development of a global delivery model, particularly the cooperation with Infosys in India, was intensively pursued. The aim of this measure is to optimize the cost base in the long term and ensure the Company’s competitiveness.

Despite the challenging market conditions, the Group laid the foundations for future growth in 2024. A particular focus was placed on initiating new business with both the parent company Infosys and with existing & new direct customers.

In addition, the Group pushed ahead with expanding its expertise in the field of artificial intelligence (AI). New services, solutions and workflows were specifically designed to meet the

growing demand from customers for AI-based applications. An increase in projects involving AI solutions was already recorded in the financial year 2024, both in pilot projects and in productive implementation at customers.

Another focus in the financial year 2024 was the post-merger integration into Infosys Group. This also includes preparations for the group-wide rollout of new hardware, software and infrastructure, as well as further expansion of cyber security measures in the financial year 2025.

Overall, the executive board assesses the Group’s situation at the end of the financial year 2024 as stable. Despite the decline in revenue and the economic challenges, important strategic foundations have been laid to position the Company for the future and to benefit from the growth opportunities in the field of AI and digital transformation in the coming years.

D. Outlook

The past few years have been marked by multiple crises and geopolitical conflicts: the COVID-19 pandemic (2020– 2022), the ongoing war in Ukraine and the energy crisis (since 2022), the Gaza conflict (since 2023) and increasing tensions between the US and China. These developments have led and continue to lead to sales fluctuations, market uncertainty and high volatility in the calendar year 2025. Companies are facing disrupted supply chains, rising regulatory and geopolitical risks, increasing cyber threats and significant financial burdens.

No sustained easing of the global situation is in sight in the calendar year 2025 either. The market environment remains volatile, forcing companies to be more flexible and to manage risk consistently. Global conflicts, economic uncertainties and technological upheavals make it difficult to plan budgets and projects.

For 2025, the European Commission expects an economic growth of 1.5% in Europe.<sup>(6)</sup> For Germany, the German government forecast a moderate growth of the price-adjusted gross domestic product (GDP) by 0.3%.<sup>(7)</sup>

<sup>(6)</sup> [https://economy-finance.ec.europa.eu/economic-forecast-and-surveys/economic-forecasts/autumn-2024-economic-forecast-gradual-rebound-adverse-environment\\_en](https://economy-finance.ec.europa.eu/economic-forecast-and-surveys/economic-forecasts/autumn-2024-economic-forecast-gradual-rebound-adverse-environment_en)

<sup>(7)</sup> <https://www.bundestag.de/presse/hib/kurzmeldungen-1042434>

At the beginning of 2025, numerous large companies in Germany have once again announced job cuts as part of efficiency programs. As in 2024, a key challenge remains that many companies are cutting their budgets for marketing and digital projects or postponing plans – often until there is more clarity about the economic development in the calendar year 2025.

The e-commerce market showed stable despite the overall challenging situation. For the calendar year 2025, the German E-Commerce and Distance Selling Trade Association (bevh) and the EHI Retail Institute expect nominal growth in e-commerce sales of goods of 2.5% and a continuation of the market recovery.

Overall, the economic framework conditions in Germany remain tense. Traditional agency services do not offer any growth potential at present and show a declining trend - increased through the rising automation and the use of AI technologies.

The management sees particular growth potential in the areas of experience design, 3D/digital twin solutions and AI-supported solutions and services. We will continue to expand our activities

in these forward-looking fields in the financial year 2025. In addition, we are providing our customers with increased support in improving efficiency and reducing costs through outsourcing and offshoring models with specialized, customer-specific teams in India.

For the entire year 2025, we expect a one-digit percentage growth in net revenue (revenue less external services and including changes in inventories). Despite the difficult economic environment, the increase in revenue is based on the assumption that we will be able to acquire direct customers and expand our cooperation with Infosys customers.

Against this backdrop, we are planning only selective new hires at our locations in Germany and Serbia, with a primary focus on expanding AI expertise. Overall, we expect a slight decline in the number of employees to around 280 by the end of the financial year 2025, as we will gradually draw more heavily on the resources and delivery teams of Infosys in India.

Due to the changed revenue mix resulting from an increase in projects for Infosys Limited Group customers, the continued increase in the utilization of resources in India, and lower expenses for integration and the management incentive program, we expect to return to a positive EBITDA margin in the single-digit percentage range (in relation to net revenue).

Investments for the Group are planned at the usual level for 2025 (approx. kEUR 600).

For the financial years beyond 2025, we are aiming for a further improvement in our performance indicators.

## E. Opportunities and risks of future development

### Risk management

Our risk management aims to early identify the risks as well as also the opportunities. We continuously monitor the business development and reconcile this data monthly with Infosys Limited, Bangalore/India.

We continuously monitor the revenue development with our customers and are in an ongoing dialogue with them. We record new projects in an opportunity management system that systematically records future business opportunities. Regular feedback sessions with employees ensure that the managers of WongDoody GmbH Group have a clear picture of the satisfaction of key employees.

The central opportunities and risks are described in the following.

The classification of the risk refers in each case to the assessment of the probability of occurrence and the level of occurrence. The probability of occurrence is differentiated between unlikely and likely. For risks that we classify as likely, we also assess the severity of occurrence. The severity of occurrence is differentiated between insignificant impact (low, i.e. monetary impact in the lower six-figure euro range and below) and significant impact (moderate, i.e. monetary impact higher than in the lower six-figure euro range).

### Risk report

The material operative risks for the business development are:

#### a) Possible loss of key account customers

A typical risk is the loss of a key account, which can have many reasons in the agency/service segment (examples

include changes in the persons responsible, renegotiation of cooperation agreements or tenders, group requirements on the customer side regarding the use of certain agencies/service providers, etc.). We counteract this risk by maintaining a close dialogue with our customers, continuously trying to improve our performance, expanding our solutions by AI services and striving to successively broaden our customer portfolio. Against this backdrop, we continue to classify this risk as moderate, unchanged from the prior year.

#### b) Economic situation and budget cuts at customers

Changes in the economic environment could affect the stability of our procurement and sales markets. In particular, the change in economic policy of the current US administration could have an impact on our procurement and sales market activities, as it is likely that a change in US customs policy will trigger countermeasures from other nations, such as China, or from groups of countries, such as the European Union. Due to the economic situation and the pressure on margins on the customer side, both B2C and B2B companies may have to cut their marketing budgets, which can lead to direct budget reductions for WongDoody. With fewer and fewer clients agreeing to long-term budget commitments or annual budgets, this is easy to do. Other risks include the establishment of in-house teams and the substitution of agency services with AI solutions. However, we see more opportunities than risks in AI (see opportunities report). We are closely monitoring the development and would discuss consequences for our customer projects promptly with our affected business partners and adjust project and resource planning if necessary. Against this backdrop, we continue to classify this risk as moderate, unchanged from the prior year.

#### c) Joint new business with other companies of Infosys Limited Group is growing slower than planned.

The joint projects with Infosys Limited Group constitute a large future potential. First larger, joint customers were gained. One risk, however, is that further joint projects start slower and later due to the economic situation, lead times and tendering processes. A new team structure and an improved, systematic cooperation with Infosys teams shall counteract this risk. Against this backdrop, we continue to classify this risk as moderate, unchanged from the prior year.

#### d) Departure of key personnel at WongDoody

In the financial year 2025, key employees will continue to receive offers from competitors as well as from retail and brand companies at regular intervals. The loss of key personnel would have a significant impact on our business activities. We therefore attach great importance to promoting and developing our employees and ensuring they receive appropriate remuneration. As part of Infosys Group, our employees have the opportunity to work with colleagues on different continents in various teams and projects. We also aim to retain and attract the best talent through flexible working models. Against this backdrop, we continue to classify this risk as moderate, unchanged from the prior year.

#### e) New brand WongDoody

In the financial year 2023, oddity was renamed WongDoody in order to create a globally standardised image for agency services within Infosys Group. The brand is not yet as well known in its main market, Germany, among potential employees and

potential customers as agencies that have been established for years. This can lead to fewer enquiries from potential clients/projects as well as a decline in good applicants. To counteract this, marketing / PR measures will be intensified in the financial year 2025. Against this backdrop, we continue to classify this risk as moderate, unchanged from the prior year.

#### **f) Cyber security**

Our business model depends on data processing systems and other communication and information systems, including enterprise resource planning systems. We process a large number of transactions every day and are dependent on the proper functioning of our computer systems. If one of these systems fails, for example due to power or telecommunications failures or cybercrime, or acts of war, we could suffer financial losses, business interruptions, liability to our customers, regulatory intervention or damage to our reputation. Infosys Group has established security concepts for centrally hosted IT systems, which include, for example, a description of guidelines and processes at several levels. The guidelines include principles, roles and responsibilities, as well as the organizational framework for information technology and information security. In addition, we are in the process of implementing new hardware, software and infrastructure across the group and further expanding our cyber security measures. Against this backdrop, we now classify this risk as moderate.

#### **The financial risks are as follows:**

The systematic analysis of customers' creditworthiness will continue to be carried out on a regular basis. We consider WongDoody GmbH Group to have a solvent customer base. Bad debts on receivables have not yet occurred to a significant extent. Moreover, WongDoody has been working with the majority of its customers for many years.

Currency risks are generally not hedged by us. This is attributable to the fact that the significant transactions are not executed in foreign currencies. Where impairments are identified in long-term financial assets, corresponding value adjustments are made. Potential risks arising from losses in value are generally countered by risk assessment mechanisms.

Infosys Group uses group-wide risk assessment mechanisms in the areas of credit, market, country and investment. In this context, potential risks relating to market price changes and liquidity risks as well as the development of future cash flows are analyzed and, if necessary, appropriate measures are taken. Overall, we consider the financial risks in this regard to be low.

We consider the current interest rate level to be a low risk, as we have no interest-bearing liabilities and the interest effects on bank balances are not material.

There are no risks from volatile securities or derivative financial instruments as such transactions are deliberately not made.

#### **Overall risk situation**

The cumulative materialization of risks, in particular the ongoing difficult economic situation in Europe and the resulting risks of budget cuts, may adversely affect the future development of the Company. According to the current state of knowledge, the management does not assume any risks that could threaten the existence of the Company.

#### **Opportunity report**

We see the following aspects as key opportunities for business development, which could have a positive impact on the assets, liabilities, financial position and financial performance of WongDoody GmbH.

#### **Expansion of the areas of 3D/digital twin, experience design and AI services**

The increasing digitalization and automation of processes in companies is leading to stable demand in the areas of 3D/digital twin and experience design (incl. UX/UI). New AI services - in particular in combination with 3D/digital twin - enable improved personalization, automated content production and efficiency gains in customer projects, among other things.

#### **Utilization of intragroup resources/expansion of collaboration with Infosys**

For reasons of cost optimization and the shortage of skilled workers in Europe, there is an opportunity for WongDoody to make even greater use of Infosys Limited's resources in India in the financial year 2025 and thereafter and to implement projects with cross-location teams.

#### **New business and joint projects with Infosys Limited / Infosys Nova Holding LLC.**

Infosys Limited has a global customer base. Services of WongDoody GmbH Group and its subsidiaries are to be successively offered to the clients of Infosys Limited and Infosys Nova Holdings LLC (US). The services of WongDoody GmbH Group and its subsidiaries expand the service portfolio of Infosys Limited and also in part that of Infosys Nova Holdings LLC. in the USA (e.g. 3D / digital twin and AI services). There is also an opportunity to leverage and deploy Infosys Limited's technology expertise with WongDoody's direct new and existing customers.

#### **International customer support and acquisition**

The majority of the former WongDoody customers are based in Germany, Austria and Switzerland. As part of Infosys Limited and through the co-operation with Infosys Nova Holdings LLC., clients can now be served internationally - with offices in Europe, UK, Asia, Australia and the US. We see potential here with existing customers and for the acquisition of internationally active companies.

# Notes to the consolidated financial statements

## I. General information

The parent company WongDoody GmbH is located in Stuttgart/Germany. The Company is registered in the commercial register of the Stuttgart/Germany local court (HRB 25314).

The consolidated financial statements on hand were prepared in accordance with Sec. 290 et seq. German Commercial Code (HGB). The Consolidated Statement of Profit and Loss is prepared in accordance with the nature of expense method (Sec.275 (2) German Commercial Code (HGB)). The reporting date of the consolidated financial statements and the included subsidiaries is December 31(standard).

In the interest of a clear and understandable presentation, the disclosures required to be made according to the legal regulations with respect to the consolidated balance sheet and the consolidated statement of profit and loss items that can be optionally disclosed either in the Consolidated Balance Sheet or Consolidated Statement of Profit and Loss or in the notes to the consolidated financial statements are largely disclosed in the notes to the consolidated financial statements. The development of fixed assets is presented separately.

## II. Scope of consolidation and consolidation principles and methods

The consolidated financial statements of WongDoody GmbH, Stuttgart/Germany, include all companies in which WongDoody GmbH holds the majority of shares or voting rights. The scope of consolidation has not changed compared to the prior year. In addition to the parent company, the following companies were included in the scope of consolidation:

Subsidiary	Seat	Shares	Form of consolidation
WongDoody d. o. o.	Belgrade, Serbia	100%	Fully consolidated
WongDoody Limited	Taipei, Taiwan	100%	Fully consolidated
WongDoody (Shanghai) Co. Ltd.	Shanghai, China	100%	Fully consolidated

WongDoody GmbH voluntarily prepares the consolidated financial statements for the smallest group of companies. The consolidation is based on the sets of annual financial statements of the subsidiaries, which have been prepared in accordance with uniform principles.

Capital consolidation is carried out using the revaluation method (Sec. 301 (2) HGB). Capital consolidation is carried out without affecting profit or loss in accordance with Sec. 301 HGB by offsetting the carrying amount of the investment in the parent company against the equity of the consolidated subsidiaries.

Receivables and liabilities between the fully consolidated companies are offset against each other in accordance with Sec. 303 (1) HGB. Unrealized currency gains/losses from intra-group loan relationships are eliminated through profit or loss.

There are no assets transferred to the consolidated financial statements that were supplied by other group companies. Against this background, there is no need to eliminate interim results.

Expenses and income from transactions between companies within the scope of consolidation are eliminated in accordance with Sec. 305 HGB. Revenue from intra-group deliveries and services is offset against the corresponding expenses of the recipient. Other income from services between group companies is offset against the corresponding expenses of the recipients of the services. Furthermore, income from investments within the scope of consolidation is eliminated through profit or loss.

Deferred taxes are calculated in accordance with Sec. 274 and Sec. 306 HGB. Deferred taxes are calculated using the applicable company-specific income tax rates. These currently amount to 30.5%. No use was made of the option to recognize an active surplus in accordance with Sec. 274 HGB. Deferred taxes from consolidation transactions did not arise for the consolidated financial statements.

## III. Notes to recognition and measurement policies

### 1. Recognition and measurement principles

The annual financial statements of foreign companies included in the consolidated financial statements were prepared in accordance with the accounting principles applicable in their respective countries. Where necessary, the annual financial statements of foreign and domestic group companies were adjusted to comply with the group's uniform accounting and valuation principles during consolidation.

The following principles of consistency in accounting, disclosure and valuation were applied unchanged in the reporting year:

Purchased intangible fixed assets were recognized at acquisition cost less amortization. The assets were amortized on a straight-line basis over their estimated useful lives. The useful life is between 2 and 5 years.

Property, plant and equipment was measured at acquisition cost and reduced by depreciations. The assets were depreciated on a straight-line basis over their estimated useful lives. The useful life is between 2 and 13 years.

Movable fixed assets whose value is up to EUR 800.00 are fully written off in the year of their addition. Their immediate disposal is assumed.

Work in progress was measured at production costs. In addition to direct costs, the production costs also include systematically assigned shares of the necessary production overheads as well as general administrative expenses. Borrowing costs are not included in the production costs.

Receivables and other current assets are recognized at nominal value. A general allowance was recognized on trade receivables for considering the general credit risk.

Bank balances were measured at nominal values.

Prepaid expenses include expenses incurred prior to the balance sheet date that constitute an expenditure for a certain period after this date.

The subscribed capital was recognized at nominal value and corresponds to the value disclosed within the articles of association as well as to the entry in the commercial register.

Tax provisions and other provisions are recognized in the amount deemed appropriate and sufficient to cover all identifiable risks and uncertain liabilities as well as anticipated losses from pending transactions. They provisions are measured at settlement amount based on sound business judgement. The Company has not exercised the discounting option for current provisions.

Liabilities have been recognized at settlement value.

Deferred income includes earnings received prior to the balance sheet date that constitute an income for a certain period after this date.

Revenue from consulting and support services provided under concluded service contracts is recognized when the service is rendered. Revenue from consulting services provided under concluded contracts for work and services is recognized upon acceptance by the customer.

## 2. Currency translation

Assets and liabilities denominated in foreign currencies are translated at the respective middle spot rate in effect on the date of addition. Assets and liabilities denominated in foreign currency with a residual term of up to one year are translated at the middle spot rate in effect on balance sheet date. The sundry receivables and liabilities denominated in foreign currency are also recognized at the closing rate unless the rate on the transaction date was lower (for assets) or higher (for liabilities).

The assets and liabilities of the consolidated companies denominated in foreign currencies were translated into euros at the middle spot exchange rate in effect on the Balance Sheet date, except for equity, which was translated at historical exchange rates. The items in the Statements of Profit and Loss of the consolidated companies denominated in foreign currencies

were translated into euros at the average exchange rate. The resulting translation differences are recognized in equity under the item "Translation difference".

The exchange rates used in the consolidated financial statements 2024 are as follows:

Currency	Closing price December 31, 2024	Annual average exchange rate 2024
CNY	7.5833 / EUR	7.7875 / EUR
TWD	33.8999 / EUR	34.7342 / EUR
RSD	117.3659 / EUR	117.4313 / EUR

## IV. Notes to the Consolidated Balance Sheet

### 1. Fixed assets

A presentation of the development of the individual items of fixed assets in the financial year 2024 based on historical acquisition or production costs, stating the depreciation for the financial year and including the accumulated depreciation in the statement of movements in fixed assets, is presented as an appendix to the notes.

### 2. Receivables and other current assets

Like in the prior year, all receivables and other current assets have a residual term of up to one year.

Like in the prior year, the receivables from affiliated companies fully relate to trade receivables of EUR 299,419.57 (prior year: EUR 793,989.27).

### 3. Equity

The subscribed capital of the parent company WongDoody GmbH amounts to kEUR 53 (prior year:kEUR 53). For the changes in equity we refer to the statement of changes in equity.

### 4. Provisions

Other provisions mainly relate to personnel provisions (holiday, overtime, management incentive program) as well as to employee settlement commitments.

## 5. Statement of liabilities

Nature	Total amount December 31, 2024	thereof with a residual term of		
		up to 1 year	more than one to five years	more than 5 years
Prepayments received	22	22	–	–
<i>Prior year</i>	–	–	–	–
Trade payables	140	140	–	–
<i>Prior year</i>	517	517	–	–
Liabilities to affiliated companies	1,362	1,362	–	–
<i>Prior year</i>	68	68	–	–
Other liabilities	526	526	–	–
<i>Prior year</i>	850	850	–	–
Total	2,050	2,050	–	–
<i>Prior year</i>	1,435	1,435	–	–

(kEUR)

As in the prior year, all liabilities were not secured.

Like in the prior year, the liabilities to affiliated companies fully relate to trade payables of EUR 1,361,919.37 (prior year: EUR 67,658.70).

The other liabilities include tax liabilities and social security costs of kEUR 429 (prior year: kEUR 698) and EUR 0 (prior year: EUR 5), respectively.

## V. Notes to the Consolidated Statement of Profit and Loss

### 1. Revenue

Breakdown of revenues by regions

Particulars	(kEUR)	
	As at December 31,	
	2024	2023
Germany	23,251	28,271
Other countries	4,419	6,185
Total	27,670	34,456

Revenue is divided into agency services (with a focus on the digital) of kEUR 19,069 (prior year: kEUR 21,907) and film productions/3D services of kEUR 8,601 (prior year: kEUR 12,549).

### 2. Other operating income

The other operating income includes income from currency translation of kEUR 22 (prior year: kEUR 45).

### 3. Personnel expenses

Social security and post-employment costs include post-employment costs totaling kEUR 28 (prior year: kEUR 27).

### 4. Other operating expenses

The other operating expenses include expenses from currency translation of kEUR 38 (prior year: kEUR 63). In addition, employee settlements of kEUR 407 (prior year: EUR 0) are recognized under other operating expenses. These are expenses of an extraordinary size and significance.

## VI. Other disclosures

### 1. Other financial commitments

In addition to the liabilities reported in the Balance Sheet, the following financial obligations arising from rental and lease agreements exist in the amount of kEUR 703 (disclosed according to payment due date):

2025:	kEUR 586
2026–2029:	kEUR 117

### 2. Notes to the Consolidated Statement of Cash Flows

The cash flow statement was prepared according to the indirect method pursuant to GAS 21.

The cash funds comprise all cash and bank deposits to which the group companies have access at any time, and thus correspond

to the balance sheet item “Cash on hand and bank balances” as of 31 December 2024.

### 3. Notes to the Statement of Changes in Equity

The amount available for distribution to shareholders as at 31 December 2024 is kEUR 6,120. The amount not available for distribution to shareholders is kEUR 53. This amount consists of the subscribed capital.

### 4. Average number of employees in the financial year

The Company employed the following staff members during the financial year:

Staff members	Heads
Salaried employees	290
Executives	16
Total	306

### 5. Management

During the past financial year, the Company's affairs were conducted by the following:

Simon Umbreit	Exercised profession:	Executive director of WongDoody GmbH
Marc Bürkle	Exercised profession:	Executive director of WongDoody GmbH
Christian Gölz	Exercised profession:	Executive director of WongDoody GmbH
Frank Boegner (until 30 April 2025)	Exercised profession:	Executive director of WongDoody GmbH

### 6. Remuneration of the management

A remuneration of EUR 628,080.00 was granted for the activities performed in the reporting year.

### 7. Auditor's fee

The total fee of the annual auditor was kEUR 82 in the financial year 2024. These fees fully relate to annual audit services.

### 8. Group affiliation

The annual financial statements of WongDoody GmbH are included in the consolidated financial statements of Infosys Limited, Bangalore/India, which prepares the consolidated financial statements in accordance with IFRS for the largest group of companies. The consolidated financial statements of Infosys Limited are published and disclosed on the website of the U.S. Securities and Exchange Commission (SEC) (EDGAR, at SIC 0001067491). WongDoody GmbH prepares these consolidated financial statements under German commercial law for the smallest group of companies.

### 9. Minimum taxation

Based on the “Pillar Two Model Rules” published by the OECD in December 2021, the European Union adopted a directive in December 2022 to ensure a global minimum tax level for multinational corporate groups. Global minimum tax laws have

been enacted in several countries where Infosys operates, including Germany. Infosys Group and Infosys Ltd. will fall within the scope of these rules from the financial year 2024 onwards.

We do not recognize any deferred tax assets or liabilities in connection with income taxes arising from the Pillar Two rules. As of December 31, 2024, no current tax expense has been recognized as a result of the Pillar Two rules. The Company and Infosys Group are continuously assessing the impact of the Pillar Two rules on their respective tax positions.

Based on an assessment of the applicability of temporary safe harbor rules based on actual financial information and nominal tax rates in the countries in which Infosys Group operates, no additional taxes are payable at the level of our company due to the current structure of the Group, the distribution of its activities and the current transfer pricing system.

## **10. Report on subsequent events**

In our opinion, there have been no significant events since the end of the financial year.

## **11. Appropriation of results**

Management proposes that the Parent's loss for the year is carried forward onto new account together with the retained profits carried forward.

Stuttgart/Germany, 20 May 2025

## Infosys Technologies (China) Co. Limited

# Auditor's Report

The Board of Directors of Infosys Technologies (China) Co. Limited:

## 1. Opinion

We have audited the accompanying financial statements of Infosys Technologies (China) Co. Limited (the "Company"), which comprise the Balance Sheet as at 31 December 2024, the Statement of Income, the Statement of Cash Flow, and the Statement of Changes in Owners' equity for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements of the Company are prepared and present fairly, in all material respects, the Company's financial position as of 31 December 2024, and the Company's results of operation and cash flow for the year ended in accordance with Accounting Standards for Business Enterprises.

## 2. Basis for Opinion

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the code of ethics for Chinese Certified Public Accountants, and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## 3. Responsibilities of the Management and Those Charged with Governance for the Financial Statements

The management of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with Accounting Standards for Business Enterprises, and designing, implementing and maintaining internal control that is necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

## 4. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with China Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with China Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- (3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- (4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (5) Evaluate the overall presentation, structure and content of the financial statements (including the disclosures), and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicated with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

I. I. Balance at 1 January 2023	431,246,900.00	51,575,614.42	(126,719,816.96)	356,102,697.46
II. II. Changes in equity during the year				
(1) Total comprehensive income	-	-	90,483,633.75	90,483,633.75
III. III. Balance at 31 December 2023	431,246,900.00	51,575,614.42	(36,236,183.21)	446,586,331.21

The accompanying notes form part of the financial statements.

# Notes to the financial statements

For the year ended 31 december 2024

## I. Basic information

Infosys Technologies (China) Co. Limited (the “Company”), formerly known as Infosys Technologies (Shanghai) Co. Limited, is a wholly foreign-owned enterprise established in Shanghai in the People’s Republic of China (PRC) by Infosys Limited (formerly Infosys Technologies Limited) registered in India. The Company obtained an approval certificate Wai Jing Mao Hu Zhang Du Zi Zi (2003) No. 2893 from the Shanghai Municipal Government on 25 September 2003, and a business license Qi Du Hu Pu Zong Zi No.317745 (Pudong) on 10 October 2003, issued by Shanghai Administration of Industry & Commerce of the PRC. The original registered capital was USD 5,000,000.

In 2006, the Company’s Board of Directors resolved to change the Company’s name from Infosys Technologies (Shanghai) Co. Limited to Infosys Technologies (China) Co. Limited and to increase the Company’s registered capital from USD 5,000,000 to USD 10,000,000. The Company obtained a revised approval certificate Wai Jing Mao Hu Zhang Du Zi Zi (2003) No.2893 and a revised business license Qi Du Hu Pu Zong Zi No.317745 (Pudong) on 14 July 2006 and 14 December 2006, respectively.

The Company’s Board of Directors resolved to increase the Company’s registered capital by USD 13,000,000. The registered capital was increased from USD 10,000,000 to USD 23,000,000. The Company obtained approval from the Shanghai Municipal Government for the change on 15 January 2009. The Company also obtained a revised approval certificate Shang Wai Zi Hu Pu Du Zi Zi (2003) No.2893 and a revised business license No.310115400134785 (Pudong) on 15 January 2009 and 13 March 2009, respectively.

In 2015, the Company’s Board of Directors resolved to increase the Company’s registered capital from USD 23,000,000 to USD 33,000,000. The Company obtained approval from the Shanghai Municipal Government for the change on 5 March 2015. The Company also obtained a revised approval certificate Shang Wai Zi Hu Pu Du Zi Zi (2003) No.2893 and a revised business license No.310115400134785 (Pudong) on 5 March 2015 and 18 May 2015, respectively.

In 2016, the Company’s Board of Directors resolved to increase the Company’s registered capital from USD 33,000,000 to USD 58,000,000. The Company obtained approval from the China (Shanghai) Free Trade Zone Management Committee for the change on 1 June 2016. The Company also obtained a renewed business license with the unified social credit code of 913101157547751363 on 7 June 2016.

In 2020, the Company’s Board of Directors resolved to increase the Company’s registered capital from USD 58,000,000 to USD 78,000,000. The Company obtained approval from the China (Shanghai) Free Trade Zone Market Supervision Administration for the change on 11 December 2020. The Company also obtained a renewed business license with the unified social credit code of 913101157547751363 on 11 December 2020. As at December 31, 2024, details of capital contribution by the investing parties are set out in Note VIII, 16.

The Company’s period of operation is 50 years and its principal activities are to carry out research, develop, design

and produce software; sell self-produced products; provide related technology consulting services and after sale services; develop computer and network technology; provide testing and maintenance of software solutions; provide business consulting services and business process management; export and import computer hardware and software, wholesale, commission agency (excluding auction); offshore call center service and etc.

## II. Basis for the preparation of financial statements

### Going concern

The management has assessed the Company’s ability to continue as a going concern for the 12 months commencing from 31 December 2024, and noticed no items will raise substantial doubt about its ability to continue as a going concern. Therefore, the financial statements have been prepared on the going concern basis.

## III. Statements of compliance with the ASBE

The financial statements of the Company have been prepared in accordance with Accounting Standards for Business Enterprises (“ASBE”), and present truly and completely, the Company’s financial position as of 31 December 2024, and the Company’s results of operations and cash flows for the year ended.

## IV. Significant accounting policies and accounting estimates

The following significant accounting policies and accounting estimates are determined in accordance with ASBE.

### 1. Accounting year

The Company has adopted the calendar year as its accounting year, i.e. from 1 January to 31 December.

### 2. Functional currency

Renminbi (‘RMB’) is the currency of the primary economic environment in which the Company operates. Therefore, the Company chooses RMB as its functional currency and adopts RMB to prepare its financial statements.

### 3. Basis of accounting and principle of measurement

The Company has adopted the accrual basis of accounting. Except for certain financial instruments which are measured at fair value, the Company has adopted the historical cost as the principle of measurement of the financial statements. Where assets are impaired, provisions for asset impairment are made in accordance with relevant requirements.

Where the historical cost is adopted as the measurement basis, assets are recorded at the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds or assets received or the contractual amounts for assuming the present obligation, or, at the amounts of cash or cash equivalents expected to be paid to settle the liabilities in the normal course of business.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using valuation technique. Fair value measurement and/or disclosure in the financial statements are determined according to the above basis.

Fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly;
- Level 3 inputs are unobservable inputs for the asset or liability.

#### 4. Cash and cash equivalents

Cash comprises cash on hand and deposits that can be readily withdrawn on demand. Cash equivalents are the Company's short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### 5. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

For financial assets purchased or sold in a regular way, the Company recognizes assets acquired and liabilities assumed on a trade date basis, or derecognizes the assets sold on a trade date basis.

Financial assets and financial liabilities are initially measured at fair value. For financial assets and financial liabilities at fair value through profit or loss, transaction costs are immediately recognized in profit or loss. For other financial assets and financial liabilities, transaction costs are included in their initial recognized amounts. Upon initial recognition of accounts receivable that does not contain significant financing component or without considering the financing component included in the contract with a term not exceeding one year under the Accounting Standards for Business Enterprises No. 14 - Revenue ("Revenue Standards"), the Company adopts the transaction price as defined in the Revenue Standards for initial measurement.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant accounting periods. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial asset or financial liability to the carrying amount of the financial asset or to the amortized cost of the financial liability. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial asset or financial liability (such as repayment in advance, extension, call option or

other similar options etc.)(without considering the expected credit losses ("ECL")).

The amortized cost of a financial asset or financial liability is the initially recognized amount net of principal repaid, plus or less the cumulative amortized amount arising from amortization of difference between the amount initially recognized and the amount at the maturity date using effective interest method, and then net of cumulative credit loss allowance (only applicable to financial assets).

#### 5.1 Classification, recognition and measurement of financial assets

After initial recognition, the Company's financial assets of various types are subsequently measured at amortized cost, at fair value through other comprehensive income ("FVTOCI") or at fair value through profit or loss ("FVTPL"), respectively.

If the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, and the financial asset is held within a business model whose objective is achieved by collecting contractual cash flows, the Company classifies such financial asset as financial assets at amortized cost, which include cash and bank balances, accounts receivable, other receivables and long-term receivables, etc.

If the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, and the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial asset, the Company classifies such financial asset as financial assets at FVTOCI. The accounts receivable and notes receivable classified as at FVTOCI upon acquisition are presented under financing with receivables, while the remaining items due within one year (inclusive) upon acquisition are presented under other current assets. Other financial assets of such type are presented as other debt investments if it is due after one year since the acquisition or presented under non-current assets due within one year if it is due within one year (inclusive) since the Balance Sheet date.

Upon initial recognition, the Company may irrevocably designate the non-held-for-trading equity instrument investments other than contingent considerations recognized in business combination not involving enterprises under common control as financial assets at FVTOCI on an individual basis. Such type of financial assets are presented as investments in other equity instruments.

A financial asset is classified as held-for-trading if any of the following criteria is satisfied:

- It has been acquired principally for the purpose of selling it in near term.
- On initial recognition, it is part of a portfolio of identified financial instruments that the Company manages together and there is objective evidence that the Company has a recent actual pattern of short-term profit-taking.
- It is a derivative that is neither a financial guarantee contract nor designated as an effective hedging instrument.

### 5.1.1 Financial assets at amortized cost

Financial assets at amortized cost are subsequently measured at amortized cost using effective interest method. Any gains or losses arising from impairment or derecognition are included in profit or loss.

For financial assets at amortized cost, the Company recognizes interest income using effective interest rate. The Company calculates and recognizes interest income through carrying amount of financial assets multiplying effective interest, except for the following circumstances:

- For purchased or originated credit-impaired financial assets, the Company calculates and recognizes its interest income based on amortized cost of the financial asset and the effective interest through credit adjustment since initial recognition.
- For purchased or originated financial assets that were not credit-impaired but have become credit-impaired in subsequent period, the Company calculates the interest income by applying the effective interest rate to the amortized cost of the financial assets in subsequent period. If the financial instrument is no longer credit-impaired due to improvement of credit risk, and the improvement is linked with an event occurred after application of above provisions, the Company will calculate the interest income by applying effective interest rate to the carrying amount of the financial assets.

### 5.2 Impairment of financial instruments

For financial asset at amortized cost, the Company recognizes the provision for losses on the basis of ECL.

For contract assets, notes receivable and accounts receivable arising from transactions regulated by Revenue Standards that do not contain significant financing component or without considering the financing component included in the contract with a term not exceeding one year, the Company recognizes the provision for losses at an amount equivalent to the lifetime ECL.

For other financial instruments (other than purchased or originated credit-impaired financial assets), the Company assesses the changes of credit risk since initial recognition of relevant financial instruments at each balance sheet date. If the credit risk has increased significantly since initial recognition of the financial instruments, the Company recognizes the provision for losses at an amount equivalent to lifetime ECL; if the credit risk has not increased significantly since initial recognition of the financial instruments, the Company recognizes the provision for losses at an amount equivalent to 12-month ECL. The increase or reversal of credit loss provision for financial assets other than those classified as at FVTOCI is recognized as impairment loss or gain and included in profit or loss for the period. For financial assets classified as at FVTOCI, the credit loss provision is recognized in other comprehensive income and the impairment loss or gain is included in profit or loss for the period without reducing the carrying amount of the financial assets in the balance sheet.

Where the Company has measured the provision for losses at an amount equivalent to lifetime ECL of a financial instrument in prior accounting period, but the financial instrument no longer satisfies the criteria of significant increase in credit risk since initial recognition at the current balance sheet date, the Company recognizes the provision for losses of the financial

instrument at an amount equivalent to 12-month ECL at the current balance sheet date, with any resulting reversal of provision for losses recognized as impairment gains in profit or loss for the period.

### 5.2.1 Significant increase in credit risk

The Company uses reasonable and supportable forward-looking information to assess whether the credit risk has increased significantly since initial recognition by comparing the risk of a default occurring on the financial instrument at the balance sheet date with the risk of a default occurring on the financial instrument at the date of initial recognition.

The following information is taken into account when assessing whether the credit risk has increased significantly:

- (1) An actual or expected decrease in the internal credit rating for the debtor;
- (2) An actual or expected significant change in the financial instrument's external credit rating;
- (3) Significant changes in the external market indicators of credit risk of the same financial instrument or similar financial instruments with the same expected duration. These indicators include: credit spreads, credit default swap prices against borrower, length of time and extent to which the fair value of financial assets is less than their amortized cost, and other market information related to the borrower (such as the borrower's debt instruments or changes in the price of equity instruments);
- (4) Significant adverse changes in regulatory, economic, or technological environment of the debtor;
- (5) Adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Company presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days (inclusive) past due.

At the balance sheet date, if the Company determines that the financial instrument has only lower credit risk, the Company assumes that the credit risk of such financial instrument has not increased significantly since initial recognition. The financial instrument is deemed as having lower credit risk if (i) it has a low risk of default; (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flows obligations.

### 5.2.2 Credit-impaired financial assets

When an event or several events that are expected to have adverse impact on the future cash flows of the financial assets have occurred, the financial assets become credit-impaired. The evidences of credit impairment of financial assets include the following observable information:

- (1) Significant financial difficulty of the issuer or debtor;
- (2) Breach of contract by the debtor, such as a default or delinquency in interest or principal payments;

- (3) The creditor of the debtor, for economic or contractual reasons relating to the debtor's financial difficulty, have granted to the debtor a concession that the creditor would not otherwise consider;
- (4) It is probable that the debtor will enter bankruptcy or other financial reorganizations;

Based on the Company's internal credit risk management, the Company considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Company, in full (without taking into account any collaterals held by the Company).

Irrespective of the outcome of the above assessment, the Company presumes that an event of default on the financial instrument has occurred if the contractual payment of the financial instrument has been more than 90 days (inclusive) past due.

### 5.2.3 Determination of ECL

The Company determines the credit losses on accounts receivable and other receivable on a portfolio basis using an impairment matrix for related financial instruments. The financial instruments are grouped based on common risk characteristics. The common credit risk characteristics adopted by the Company include: type of financial instrument, credit risk rating, overdue status, industry of the debtor and company size company size, etc.

The Company determines the ECL of relevant financial instruments using the following method:

- For financial assets, the credit loss represents the present value of the difference between the contractual cash flows receivable by the Company and the cash flows expected to be received by the Company.
- For credit-impaired financial assets that are not purchased or originated at the balance sheet date, the credit loss represents the difference between the carrying amount of the financial assets and the present value of expected future cash flows discounted using original effective interest rate.

The factors reflected by the Company's measurement of ECL of financial instruments include: unbiased probability weighted average amount recognized by assessing a series of possible results; time value of money; reasonable and supportable information related to historical events, current condition and forecast of future economic position that is available without undue cost or effort at the balance sheet date.

### 5.2.4 Write-down of financial assets

When the Company will no longer reasonably expect that the contractual cash flows of financial assets can be collected in aggregate or in part, the Company will directly write down the book value of the financial asset, which constitutes derecognition of relevant financial assets.

### 5.3 Transfer of financial assets

The Company derecognizes a financial asset if one of the following conditions is satisfied:

- (1) the contractual rights to the cash flows from the financial asset expire; or (2) the financial asset has been transferred and substantially all the risks and rewards of ownership of the

financial asset is transferred to the transferee; or (3) although the financial asset has been transferred, the Company neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but has not retained control of the financial asset.

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, the difference between (1) the carrying amount of the financial asset transferred; and (2) the sum of the consideration received from the transfer and any cumulative gain or loss that has been recognized in other comprehensive income, is recognized in profit or loss. Where the transferred assets are nontrading equity instrument investments designated as at FVTOCI, cumulative gains or losses previously recognized in other comprehensive income are transferred out and included in retained profits.

If a part of the transferred financial asset qualifies for derecognition, the overall carrying amount of the financial asset prior to transfer is allocated between the part that continues to be recognized and the part that is derecognized, based on the respective fair value of those parts at the date of transfer. The difference between (1) the carrying amount allocated to the part derecognized on the date of derecognition; and (2) the sum of the consideration received for the part derecognized and any cumulative gain or loss allocated to the part derecognized which has been previously recognized in other comprehensive income, is recognized in profit or loss. Where the transferred assets are non-trading equity instrument investments designated as at FVTOCI, cumulative gains or losses previously recognized in other comprehensive income are transferred out and included in retained profits.

For a transfer of a financial asset in its entirety that does not satisfy the derecognition criteria, the Company continues to recognize the transferred financial asset in its entirety. The consideration received from transfer of assets is recognized as a liability upon receipt.

### 5.4 Classification of financial liabilities and equity instruments

Financial instruments issued by the Company or their components are classified into financial liabilities or equity instruments on the basis of not only the legal form but also the contractual arrangements and their economic substance, together with the definition of financial liability and equity instrument.

#### 5.4.1 Classification, recognition and measurement of financial liabilities

On initial recognition, financial liabilities are classified into financial liabilities at FVTPL and other financial liabilities.

##### 5.4.1.1 Other financial liabilities

Except for financial liabilities and financial guarantee contracts and loan commitments arising from transfer of financial assets that do not meet the derecognition criteria or those arising from continuing involvement in the transferred financial assets, other financial liabilities are subsequently measured at amortized cost, with gain or loss arising from derecognition or amortization recognized in profit or loss.

If the modification or renegotiation for the contract by the Company and its counterparties does not result in derecognition of a financial liability subsequently measured at amortized cost

but the changes in contractual cash flows, the Company will recalculate the carrying amount of the financial liability, with relevant gain or loss recognized in profit or loss. The Company will determine the carrying amount of the financial liability based on the present value of renegotiated or modified contractual cash flows discounted at the original effective interest rate of the financial liability. For all costs or expenses arising from modification or renegotiation of the contract, the Company will adjust the modified carrying amount of the financial liability and make amortization during the remaining term of the modified financial liability.

5.4.2 Derecognition of financial liabilities

The Company derecognizes a financial liability (or part of it) only when the underlying present obligation (or part of it) is discharged. An agreement between the Company (an existing borrower) and an existing lender to replace the original financial liability with a new financial liability with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

When the Company derecognizes a financial liability or a part of it, it recognizes the difference between the carrying amount of the financial liability (or part of the financial liability) derecognized and the consideration paid (including any non-cash assets transferred or new financial liabilities assumed) in profit or loss for the period.

5.4.3 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued (including refinanced), repurchased, sold and cancelled by the Company are recognized as changes of equity. Change of fair value of equity instruments is not recognized by the Company. Transaction costs related to equity transactions are deducted from equity.

The Company recognizes the distribution to holders of the equity instruments as distribution of profits, and dividends paid do not affect total amount of shareholders equity.

5.5 Offsetting financial assets and financial liabilities

Where the Company has a legal right that is currently enforceable to set off the recognized financial assets and financial liabilities, and intends either to settle on a net basis, or to realize the financial asset and settle the financial liability simultaneously, a financial asset and a financial liability shall be offset and the net amount is presented in the balance sheet. Except for the above circumstances, financial assets and financial liabilities shall be presented separately in the balance sheet and shall not be offset.

6. Property plant and equipment

Property plant and equipment are tangible assets that are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and have useful lives of more than one accounting year. A property plant and equipment is recognized only when it is probable that economic benefits associated with the asset will flow to the Company and the cost of the asset can be measured reliably. Property plant and equipment are initially measured at cost.

Subsequent expenditures incurred for the property plant and equipment are included in the cost of the property plant and equipment and if it is probable that economic benefits

associated with the asset will flow to the Company and the subsequent expenditures can be measured reliably. Meanwhile the carrying amount of the replaced part is derecognized. Other subsequent expenditures are recognized in profit or loss in the period in which they are incurred.

A property plant and equipment is depreciated over its useful life using the straight-line method since the month subsequent to the one in which it is ready for intended use. The depreciation method, useful life, estimated net residual value rate and annual depreciation rate of each category of property plant and equipment are as follows:

Categories	Useful life	Estimated net residual value rate	Annual depreciation rate
Electronic equipment	1 - 5 years	0%	20% - 100%
Office equipment	1 - 5 years	0%	20% - 100%
Software	3 years	0%	33%

Estimated net residual value of a property plant and equipment is the estimated amount that the Company would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

If a property plant and equipment is upon disposal or no future economic benefits are expected to be generated from its use or disposal, the property plant and equipment is derecognised. When a property plant and equipment is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognized in profit or loss for the period.

The Company reviews the useful life and estimated net residual value of a property plant and equipment and the depreciation method applied at least once at each financial year-end, and account for any change as a change in an accounting estimate.

7. Long-term deferred expenses

Long-term deferred expenses represent expenses incurred that should be borne and amortized over the current and subsequent periods (together of more than one year). Long-term deferred expenses are amortized using the straight-line method over the expected periods in which benefits are derived.

8. Impairment of non-financial assets

The Company reviews the property plant and equipment and other long-term assets at each balance sheet date to determine whether there is any indication that they have suffered an impairment loss. If an impairment indication exists, the recoverable amount is estimated. Intangible assets with indefinite useful life and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that the assets may be impaired.

Recoverable amount is estimated on individual basis. If it is not practical to estimate the recoverable amount of an individual asset, the recoverable amount of the asset group to which the asset belongs will be estimated. The recoverable amount of an asset or asset group is the higher of its fair value less costs of disposal and the present value of the future cash flows expected to be derived from the asset.

If such recoverable amount is less than its carrying amount, a provision for impairment losses in respect of the deficit is recognized in profit or loss for the period.

Once the impairment loss of such assets is recognized, it is not reversed in any subsequent period.

## 9. Employee benefits

Actually occurred short-term employee benefits are recognized as liabilities, with a corresponding charge to the profit or loss for the period or in the costs of relevant assets in the accounting period in which employees provide services to the Company. Staff welfare expenses incurred by the Company are recognized in profit or loss for the period or the costs of relevant assets based on the actually occurred amounts when it actually occurred. Non-monetary staff welfare expenses are measured at fair value.

Payment made by the Company of social security contributions for employees such as premiums or contributions on medical insurance, work injury insurance and maternity insurance, etc. and payments of housing funds, as well as trade union fund and employee education fund provided in accordance with relevant requirements, are calculated according to prescribed bases and percentages in determining the amount of employee benefits and recognized as relevant liabilities, with a corresponding charge to the profit or loss for the period or the costs of relevant assets in the accounting period in which employees provide services.

During the accounting period of rendering service to employees of the Company, amount which should be paid according to defined contribution plans is recognized as liabilities, and recognized in profit or loss or related costs of assets.

A liability for a termination benefit is recognized in profit or loss for the period at the earlier of when the Company cannot unilaterally withdraw from the termination plan or the redundancy offer and when the Company recognizes any related restructuring costs or expenses.

## 10. Revenue recognition

The Company's revenue is mainly from rendering of services.

The Company recognizes revenue based on the transaction price allocated to the performance obligation when the Company satisfies a performance obligation in the contract, namely, when the customer obtains control over relevant goods or services. A performance obligation is a commitment that the Company transfers a distinct good or service to a customer in the contract. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties and amounts expected to be refunded to a customer.

It is a performance obligation satisfied during a period of time and the Company recognizes revenue during a period of time according to the progress of performance if one of the following conditions is met: (i) the customer obtains and consumes economic benefits at the same time of the Company's performance; (ii) the customer is able to control goods or services in progress during the Company's performance; (iii) goods or services generated during the Company's performance have irreplaceable utilization, and the Company is entitled to collect amounts of cumulative performance part which have

been done up to now. Otherwise, revenue is recognized at a point in time when the customer obtains control over the relevant goods or services.

Contract assets refer to the Company's right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time. For the details of accounting policies on impairment of contract assets, please see Note IV. The Company's unconditional (i.e., depending on the passage of time only) right to receive consideration from the customer is separately presented as receivables.

Contract liabilities refer to the Company's obligation to transfer goods or services to a customer for consideration received or receivable from the customer.

Contract assets and contract liabilities under the same contract will be presented on a net basis.

If there are two or more of performance obligations included in the contract, at the contract inception, the Company allocates the transaction price to each single performance obligation based on the proportion of stand-alone selling price of goods or services promised in each stand-alone performance obligation. However, if there is conclusive evidence indicating that the contract discount or variable consideration is only relative with one or more (not the whole) performance obligations in the contract, the Company will allocate the contract discount or variable consideration to relative one or more performance obligations. Stand-alone selling price refers to the price of a single sale of goods or services. If the stand-alone selling price cannot be observed directly, the Company estimates the stand-alone selling price through comprehensive consideration of all relative information that can be reasonably acquired and maximum use of observable inputs.

In case of the existence of variable consideration in the contract, the Company shall determine the best estimate of variable consideration based on the expected value or the most probably occurred amount. The transaction price including variable consideration shall not exceed the amount of the cumulatively recognized revenue which is unlikely to be significantly reversed when relevant uncertainty is eliminated. At each balance sheet date, the Company re-estimates the amount of variable consideration which should be included in transaction price.

The Company assesses whether it controls each specified good or service before that good or service is transferred to the customer to determine whether the Company is a principal or an agent. The Company considers whether it has the primary obligation to fulfil the contract, pricing discretion and other factors to determine whether it controls the goods or service and therefore is acting as a principal or an agent. If the Company controls the specified good or service before that good or service is transferred to a customer, the Company is a principal and recognizes revenue in the gross amount of consideration received or receivable. Otherwise, the Company is an agent and recognizes revenue in the amount of any fee or commission to which it expects to be entitled. The fee or commission is the net amount of consideration that the Company retains after paying the other party the consideration received in exchange for the goods or services to be provided by that party, or is determined in accordance with the established commission amount or percentage, etc.

Where the Company receives receipts in advance from a customer for sales of goods or rendering of services, the amount is first recognized as a liability and then transferred to revenue when the related performance obligation has been satisfied. When the Company's receipts in advance are not required to be refunded and it is probable that the customer will waive all or part of its contractual rights, the Company recognizes the said amounts as revenue on a pro-rata basis in accordance with the pattern of exercise of the customer's contractual rights, if the Company expects to be entitled to the amounts relating to the contractual rights waived by the customer; otherwise, the Company reverses the related balance of the said liabilities to revenue only when it is highly unlikely that the customer will require performance of the remaining performance obligations.

A non-refundable initial fee (including membership fee of club, X, etc.) charged to the customer at (or near) the contract commencement date is included in the transaction price. Where the initial fee is related to the goods or services committed to be transferred to the customers, and these goods or services constitute a single performance obligation, the Company recognizes revenue based on the transaction price allocated to the goods or services upon their transfer; where the initial fee is related to the goods or services committed to be transferred to the customers, but these goods or services do not constitute a single performance obligation, the Company recognizes revenue based on the transaction price allocated to the single performance obligation upon fulfilment of the single performance obligation including the goods or services; where the initial fee is not related to the goods or services committed to be transferred to the customers, the initial fee will be recognized as revenue upon their transfer in the future as receipts in advance to transfer goods or services in the future.

#### 10.1 Costs of obtaining a contract

For the incremental cost of obtaining the contract (cost that will not occur if the contract is not obtained) that is expected to be recoverable, it is recognized as an asset, and shall be amortized on a basis that is consistent with the revenue recognition of the goods or services to which the asset relates and recognized in profit or loss for the period. If the amortization period of such asset is less than one year, it is recognized in profit or loss for the period when incurred. Other expenses incurred for obtaining the contract is included in profit or loss for the period when incurred, except for those explicitly assumed by the customer.

#### 10.2 Costs to fulfil a contract

If the costs incurred in fulfilling a contract are not within the scope of any standards other than Revenue Standards, the Company recognizes an asset from the costs incurred to fulfil a contract only if those costs meet all of the following criteria: (1) the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify; (2) the costs generate or enhance resources of the Company that will be used in satisfying performance obligations in the future; and (3) the costs are expected to be recovered. The asset mentioned above shall be amortized on a basis that is consistent with the revenue recognition of the goods or services to which the asset relates and recognized in profit or loss for the period.

## 11. Government grants

Government grants are monetary assets and non-monetary assets from the government to the Company at no consideration. A government grant is recognized only when the Company can comply with the conditions attaching to the grant and the Company will receive the grant.

If a government grant is in the form of a transfer of a monetary asset, it is measured at the amount received or receivable.

A government grant related to an asset is recognized as deferred income and included in profit or loss over the useful life of the related asset.

For a government grant related to income, if the grant is a compensation for related expenses or losses to be incurred in subsequent periods, the grant is recognized as deferred income over the periods in which the related costs or losses are recognized; If the grant is a compensation for related expenses or losses already incurred, the grant is recognized immediately in profit or loss.

A government grant related to the Company's daily activities is recognized in other income or written off related cost and expense based on the nature of economic activities; a government grant not related to the Company's daily activities is recognized in non-operating income and expenses.

## 12. Income taxes

Tax expense comprises current income tax and deferred income tax.

### 12.1 Current income taxes

At the balance sheet date, current income tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid (or recovered) according to the requirements of tax laws.

### 12.2 Deferred tax assets and deferred tax liabilities

For temporary differences between the carrying amounts of certain assets or liabilities and their tax base, or between the nil carrying amount of those items that are not recognized as assets or liabilities and their tax base that can be determined according to tax laws, deferred tax assets and liabilities are recognized using the balance sheet liability method.

Deferred tax is generally recognized for all temporary differences. Deferred tax assets for deductible temporary differences are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized. However, for temporary differences associated with the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction (not a business combination) that affects neither the accounting profit nor taxable profits (or deductible losses) at the time of transaction, no deferred tax asset or liability is recognized.

For deductible losses and tax credits that can be carried forward, deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the deductible losses and tax credits can be utilized.

At the balance sheet date, deferred tax assets and liabilities are measured at the tax rates, according to tax laws, that are

expected to apply in the period in which the asset is realized or the liability is settled.

Current and deferred tax expenses or income are recognized in profit or loss for the period, except when they arise from transactions or events that are directly recognized in other comprehensive income or in owners' equity, in which case they are recognized in other comprehensive income or in owners' equity; and when they arise from business combinations, in which case they adjust the carrying amount of goodwill.

At the balance sheet date, the carrying amount of deferred tax assets is reviewed and reduced if it is no longer probable that sufficient taxable profits will be available in the future to allow the benefit of deferred tax assets to be utilized. Such reduction in amount is reversed when it becomes probable that sufficient taxable profits will be available.

### 12.3 Income tax offsetting

When the Company has a legal right to settle on a net basis and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

When the Company has a legal right to settle current tax assets and liabilities on a net basis, and deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be reversed, deferred tax assets and deferred tax liabilities are offset and presented on a net basis.

## 13. Transactions denominated in foreign currencies

A foreign currency transaction is recorded, on initial recognition, by applying the spot exchange rate on the date of the transaction.

At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rates at the balance sheet date. Exchange differences arising from the differences between the spot exchange rates prevailing at the balance sheet date and those on initial recognition or at the previous balance sheet date are recognized in profit or loss for the period, except that (1) exchange differences related to a specific-purpose borrowing denominated in foreign currency that qualify for capitalization are capitalized as part of the cost of the qualifying asset during the capitalization period; (2) exchange differences related to hedging instruments for the purpose of hedging against foreign currency risks are accounted for using hedge accounting; (3) exchange differences arising from available-for-sale non-monetary items (such as shares) denominated in foreign currencies and changes in the carrying amounts (other than the amortized cost) of available-for-sale monetary items are recognized as other comprehensive income and included in capital reserve.

Foreign currency non-monetary items measured at historical cost are translated to the amounts in functional currency at the spot exchange rates on the dates of the transactions and the amounts in functional currency remain unchanged. Foreign currency non-monetary items measured at fair value are re-translated at the spot exchange rate on the date the fair value is determined.

Difference between the re-translated functional currency amount and the original functional currency amount is treated as changes in fair value (including changes of exchange rate) and is recognized in profit and loss or as other comprehensive income.

## 14. Leases

A lease is a contract whereby the lessor conveys to the lessee in return for a consideration the right to use an asset for an agreed period of time.

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

### 14.1 The Company as lessee

#### 14.1.1 Separating components of a lease

If the contract contains one or more lease and non-lease components, the Company will separate the individual lease and non-lease components and allocate contract consideration according to the relative proportion of the sum of the stand-alone prices of the lease components and the stand-alone prices of the non-lease components.

#### 14.1.2 Right of use assets

Except for short-term leases and leases of low-value assets, at the commencement date of the lease, the Company recognizes a right of use asset. The commencement date of the lease is the date on which a lessor makes an underlying asset available for use by the Company. The Company measures the right of use assets at cost. The cost of the right of use assets comprises:

- the amount of the initial measurement of the lease liabilities;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Company;
- an estimate of costs to be incurred by the Company in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs incurred to produce inventories.
- Variable lease payments that depend on an index or a rate, are initially measured using the index or rate as at the commencement date. Variable lease payments not included in the measurement of the lease liabilities, are recognized in profit or loss or cost of related assets in the period of those payments.

The Company depreciates right of use assets by reference to the relevant depreciation provisions of Accounting Standards for Business Enterprises No. 4 - Property plant and equipment. The right of use assets are depreciated over the remaining useful lives of the leased assets where the Company is reasonably certain to obtain ownership of the underlying assets at the end of the lease term. Otherwise, right of use assets are depreciated

over the shorter of the lease term and the remaining useful lives of the leased assets.

#### 14.1.3 Lease liabilities

Except for short-term leases and leases of low-value assets, at the commencement date of the lease, the Company measures the lease liabilities at the present value of the lease payments that are not paid at that date. In calculating the present value of lease payments, the Company uses the interest rate implicit in the lease as the discount rate. The Company uses the incremental borrowing rate if the interest rate implicit in the lease is not readily determinable.

Lease payments refer to payments relating to the right to use leased assets during the lease term which are made by the Company to the lessor, including:

- fixed payments and in-substance fixed payments, less any lease incentives receivable (if any);
- variable lease payments that depend on an index or a rate;
- the exercise price of a purchase option reasonably certain to be exercised by the Company;
- payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate the lease; and
- amounts expected to be paid under residual value guarantees provided by the Company.

Variable lease payments that depend on an index or a rate, are initially measured using the index or rate as at the commencement date. Variable lease payments not included in the measurement of the lease liabilities, are recognized in profit or loss or cost of related assets in the period of those payments.

After the commencement date of the lease, the Company calculates interest expenses of lease liabilities for each period of the lease term based on fixed periodic rate, and recognizes such expenses in profit or loss or cost of related assets.

After the commencement date of the lease, the Company re-measures the lease liabilities and adjusts the right of use assets accordingly in the following cases: If the book value of the right of use asset has been reduced to zero, but the lease liability needs to be reduced further, the Company will recognize the difference in profit or loss for the period:

- There is a change in the lease term, or in the assessment of an option to purchase the underlying asset, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment;
- There is a change in the amounts expected to be payable under a residual value guarantee, or in future lease payments resulting from a change in an index or a rate used to determine those payments, in which case the related lease liability is remeasured by discounting the revised lease payments using the unchanged discount rate. If the change of lease payment comes from the change of floating interest rate, the revised discount rate shall be used to calculate the present value.

#### 14.1.4 Short-term leases

The Company chooses not to recognize right of use assets and lease liabilities for short-term leases of and leases of low-value assets. A short-term lease is a lease that at the commencement date, has a lease term of 12 months or less and does not contain a call option. A lease of low-value assets, is a lease that the single underlying asset, when is new, is of low value. The Company shall recognize the lease payments associated with short-term leases and leases of low-value assets in profit or loss or cost of related assets on a straight-line basis over the lease term.

## V. Critical judgements in applying accounting policies and key assumptions and uncertainties in accounting estimates

In the application of the Company's accounting policies, which are described in Note IV, the Company is required to make judgements, estimates and assumptions about the carrying amounts of items in the financial statements that cannot be measured accurately, due to the internal uncertainty of the operating activities. These judgements, estimates and assumptions are based on historical experience of the Company's management as well as other factors that are considered to be relevant. Actual results may differ from these estimates.

The aforementioned judgements, estimates and assumptions are reviewed regularly on a going concern basis. The effect of a change in accounting estimate is recognized in the period of the change, if the change affects that period only; or recognized in the period of the change and future periods, if the change affects both.

#### - Key assumptions and uncertainties in accounting estimates

At the balance sheet date, the key assumptions and uncertainties in the accounting estimates that are likely to result in material adjustments to the carrying amounts of assets and liabilities in the future are:

#### Provision of ECL for accounts receivable

The Company uses provision matrix to calculate ECL for the accounts receivable. The provision rates are based on internal credit ratings as groupings of various debtors that have similar risk patterns. The provision matrix is based on the Company's historical default rates. At 31 December 2023, the historical observed default rates are reassessed and changes in the forward-looking information are considered. The provision of ECL will vary based on the Company's estimates. The information about the ECL and the Company's accounts receivable is disclosed in Note VIII. 2.

## VI. Changes in accounting policies

The Ministry of Finance issued Interpretation No. 17 of the Accounting Standards for Business Enterprises (the "Interpretation No. 17") and Interpretation No. 18 of the Accounting Standards for Business Enterprises (the "Interpretation No. 18") on 25 October 2023 and 6 December 2024, respectively.

Interpretation No. 17 stipulated the classification of current liabilities and non-current liabilities and came into effect on 1 January 2024.

Interpretation No. 18 stipulated the accounting treatment of assurance-type warranties which are not separate performance obligations. The interpretation became effective from 6 December 2024, and enterprises are allowed to implement it in advance from the year of release.

Upon assessment, the Company considers that the adoption of these interpretations has no significant impact on the financial statements of the Company.

## VII. Taxation

### Value-added tax

Value-added tax ('VAT') on sales is calculated at 6% on revenue of rendering of services according to the relevant requirements of tax laws and paid after deducting input VAT on purchases.

Based on the zero VAT rate policy, the overseas revenue of the Company is exempted from VAT.

### Income tax

The statutory tax rate for our company is 25%, but we are subject to a tax rate of 15% for the current year (2023: 15%). Our company obtained a certificate for being a technologically advanced service enterprise on December 28, 2022, and is subject to a reduced corporate income tax rate of 15% in 2024.

### Other taxes

Urban maintenance and construction tax is levied at 5% of the VAT actually paid.

Educational surcharge is levied at 3% of the VAT actually paid.

Local educational tax is levied at 2% of the VAT actually paid.

## VIII. Notes to the financial statements

### 1. Cash and bank balances

(In RMB)		
	As at December 31,	
	2024	2023
Deposits with banks	173,308,365.06	161,367,636.81

### 2. Accounts receivable

(1) The customer analysis of accounts receivable is as follows:

(In RMB)		
	As at December 31,	
	2024	2023
Amounts generated from contracts with customers	459,273,912.70	412,326,736.09
Less: Provision for credit losses	13,512,820.44	4,349,391.07
Total	445,761,092.26	407,977,345.02

As a part of the company's credit risk management, the Company conducts internal credit rating on debtors of accounts receivable and determines the expected loss rate of accounts receivable of each rating. As at 31 December 2024, the analysis of the credit risk and expected loss for accounts receivable is as follows:

Internal credit rating	As at December 31, 2024		As at December 31, 2023	
	Expected average loss rate	Carrying Amount	Credit losses provision	Net Book value
Risk free	0.00%	189,101,267.31	-	188,963,105.58
Low risk	0.92%	259,037,917.83	2,378,092.88	256,659,824.95
High risk	100%	11,134,727.56	11,134,727.56	-
Total		459,273,912.70	13,512,820.44	445,761,092.26

(2) The movements of ECL provision for accounts receivable is as follows:

(In RMB)	
	Expected credit losses
1 January 2024	4,349,391.07
Provision during the year	9,171,425.12
Written-off during the year	(7,995.75)
31 December 2024	13,512,820.44

### 3. Other receivables

#### (1) Summary of other receivables

The ageing analysis of other receivables is as follows:

(In RMB)

Ageing	As at December 31, 2024				As at December 31, 2023			
	Amount	Ratio	Bad debt provision	Book value	Amount	Ratio	Bad debt provision	Book value
Within 1 year	92,091,637.51	52.84	(135,931.30)	91,955,706.21	13,573,423.34	16.34	(128,833.48)	13,444,589.86
1 to 2 years	13,181,651.37	7.56		13,181,651.37	3,060,683.60	3.68	-	3,060,683.60
2 to 3 years	3,060,683.60	1.76		3,060,683.60	3,867,798.65	4.66	-	3,867,798.65
More than 3 years	65,933,856.10	37.84		65,933,856.10	62,561,057.45	75.32	-	62,561,057.45
Total	174,267,828.58	100	(135,931.30)	174,131,897.28	83,062,963.04	100.00	(128,833.48)	82,934,129.56

Note: Other receivables aged over 3 years include loans of RMB 50,000,000.00 to Infosys Technologies (Shanghai) Co. Limited in 2017, out of which RMB 15,000,000.00 was originally due on 11 May 2018 and then was extended until the lender requires repayment, and RMB 35,000,000.00 was originally due on 27 July 2018 and then was extended until the lender requires repayment. Other receivables aged 1 to 2 years include loans of RMB 10,000,000.00 to Infosys Technologies (Shanghai) Co. Limited in 2023, until the lender requires repayment. Other receivables aged within 1 year include loans of RMB 85,000,000.00 to Infosys Technologies (Shanghai) Co. Limited in 2024. As at the balance sheet date, RMB 25,244,711.11 of interest income has been recognized (2023: RMB 19,509,041.09). For more details, please refer to Note IX. (3)(b)(c).

### 4. Property plant and equipment

(In RMB)

	Electronic equipment	Office equipment	Software	Total
Cost				
1 January 2024	43,137,028.96	18,630,192.50	57,529.20	61,824,750.66
Additions during the year	10,216,516.60	33,784.63		10,250,301.23
Decrease during the year	(8,698,512.07)	(761,801.18)		(9,460,313.25)
Balance at 31 December 2024	44,655,033.49	17,902,175.95	57,529.20	62,614,738.64
Accumulated depreciation				
1 January 2024	34,966,836.57	16,815,956.40	57,529.20	51,840,322.17
Provisions during the year	5,342,785.63	614,605.86		5,957,391.49
Decrease during the year	(8,698,367.04)	(761,801.18)		(9,460,168.22)
Balance at 31 December 2024	31,611,255.16	16,668,761.08	57,529.20	48,337,545.44
Carrying amounts				
1 January 2024	8,170,192.39	1,814,236.10	-	9,984,428.49
31 December 2024	13,043,778.33	1,233,414.87		14,277,193.20

### 5. Construction in progress

(In RMB)

Balance at 1 January 2024	165,570.80
Additions during the year	10,914,543.57
Transfer to property plant and equipment	(10,250,301.23)
Transfer to long-term deferred expenses	(58,813.56)
Balance at 31 December 2024	770,999.58

## 6. Right of use assets

(In RMB)

Leased assets	
Cost	
At 1 January 2024	56,527,021.15
Additions during the year	45,311,843.99
Decrease during the year	(26,614,016.30)
At 31 December 2024	75,224,848.84
Accumulated depreciation	
At 1 January 2024	31,388,495.69
Provisions during the year	15,797,534.46

Total	150,857,694.31	125,244,438.96	22,628,654.14	18,786,665.84

(In RMB)

Item	Taxable temporary differences		Deferred tax liabilities	
	As at December 31,			
	2024	2023	2024	2023
Leasing and subleasing assets	(99,482,453.55)	(77,212,155.50)	(14,922,366.79)	(11,581,823.32)

Amount after offsetting deferred tax assets and deferred tax liabilities:

(In RMB)

Particulars	As at December 31,	
	2024	2023
Deferred tax assets	7,706,286.11	7,204,842.52

## 10. Other non-current assets

Particulars	As at December 31,	
	2024	2023
Costs to fulfil a contract	50,043,746.75	43,649,017.77

## 11. Short-term loans

(In RMB)

Particulars	As at December 31,	
	2024	2023
Unsecured loans	–	35,413,500.00

Short-term loans include a loan of USD 5,000,000.00 (equivalent to RMB 35,413,500.00) from Infosys Poland Sp. z o.o. for the purpose of business operation, bearing an interest rate of LIBOR+1% per annum. Starting from July 1, 2023, the interest rate will be changed to SOFR+1.05% per annum. The interest is paid upon the repayment of loan or at the expiration of this agreement, in whichever first occurs. It is extended to be due on 1 December 2024 and is repaid in full on March 19, 2024.

## 12. Employee benefits payable

(In RMB)

Items	January 1, 2024	Provision for the year	Payment for the year	December 31, 2024
Wages or salaries, bonus, allowances, subsidies	16,693,650.57	261,822,092.08	(259,152,496.45)	19,363,246.20
Social security contributions	1,130,490.88	22,685,253.62	(22,817,286.24)	998,458.26
Including: Medical insurance	929,609.01	21,915,210.25	(21,873,671.99)	971,147.27
Maternity and work injury insurance	200,881.87	770,043.37	(943,614.25)	27,310.99
Defined contribution plans (Note)	1,578,614.49	39,120,020.13	(39,107,459.06)	1,591,175.56
Housing funds	853,184.81	24,074,827.90	(24,711,393.71)	216,619.00
Total	20,255,940.75	347,702,193.73	(345,788,635.46)	22,169,499.02

### Note: Defined contribution plans

(In RMB)

Items	January 1, 2024	Provision for the year	Payment for the year	December 31, 2024
Basic pension insurance	1,529,615.10	37,949,912.92	(37,939,713.60)	1,539,814.42
Unemployment insurance	48,999.39	1,170,107.21	(1,167,745.46)	51,361.14
Total	1,578,614.49	39,120,020.13	(39,107,459.06)	1,591,175.56

The Company participates in basic pension insurance plan established by government in accordance with the relevant requirements. According to the plan, the Company makes a monthly contribution equivalent to the ratio of 16%, 16%, 16% and 16%, in Shanghai, Hangzhou, Beijing and Dalian respectively, of the employee's monthly basic wage based on last year's salary. The Company no longer undertake further payment obligation. The corresponding cost charges to the profit or loss for the current period or the cost of a relevant asset when occur.

**X. Financial instruments and risk management**

The Company's major financial instruments include accounts receivable, other receivables, short-term loans, accounts payable and other payables. Details of these financial instruments are disclosed in Note VIII. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

The Company adopts sensitivity analysis technique to analyze how the profit and loss for the period and owners' equity would have been affected by reasonably possible changes in the relevant risk variables. As it is unlikely that risk variables will change in an isolated manner, and the interdependence among risk variables will have significant effect on the amount ultimately influenced by the changes in a single risk variable, the following are based on the assumption that the change in each risk variable is on a stand-alone basis.

## 1. Risk management objectives and policies

The Company's risk management objectives are to achieve proper balance between risks and yield, minimize the adverse impacts of risks on the Company's operation performance, and maximize the benefits of the shareholders and other equity investors. Based on these risk management objectives, the Company's basic risk management strategy is to identify and analyze the industry's exposure to various risks, establish appropriate bottom line for risk tolerance, implement risk management, and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

### 1.1 Market risk

#### 1.1.1 Foreign currency risk

Foreign currency risk is the risk that losses will occur because of changes in foreign exchange rates. The Company's exposure to the foreign currency risk is primarily associated with USD, INR, HKD and TWD. The Company's principal activities are settled in RMB. As at 31 December 2024, the balance of the Company's assets and liabilities are both denominated in RMB except that the assets and liabilities set out below are denominated in foreign currencies. Foreign currency risk arising from the assets and liabilities denominated in foreign currencies may have impact on the Company's performance.

Particulars	(In RMB)	
	As at December 31,	
	2024	2023
Cash and bank balances	132,754,815.76	71,839,686.15
Accounts receivable	89,877,185.02	90,043,377.34
Short-term loans	–	(35,413,500.00)
Other payables	–	(1,151,472.36)
Accounts payable	(75,094,425.79)	(68,618,772.50)
Total	147,537,574.98	56,699,318.63

#### Sensitivity analysis on currency risk

The assumption for the sensitivity analysis on currency risk is that all hedges of net investments in foreign operations and the cash flow hedges are highly effective.

On the basis of the above assumption, where all other variables are held constant, the reasonably possible changes in the foreign exchange rate may have the following pre-tax effect on the profit or loss for the period and owners' equity:

					(In RMB)
Items	Changes in exchange rate	2024		2023	
		Effect on profit	Effect on profit Owners' equity	Effect on profit	Effect on Owners' equity
Foreign currencies	10% increase against RMB	14,753,757.50	14,753,757.50	5,669,931.86	5,669,931.86
Foreign currencies	10% decrease against RMB	(14,753,757.50)	(14,753,757.50)	(5,669,931.86)	(5,669,931.86)

### 1.2 Credit risk

As at 31 December 2024, the Company's maximum exposure to credit risk which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties.

The Company reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Company consider that the Company credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit rating.

### 1.3 Liquidity risk

In the management of the liquidity risk, the Company monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Company's operations and mitigate the effects of fluctuations in cash flows. The management monitors use of loans and ensures to observe loan agreements.

XI. Capital management

The Company’s primary objectives when managing capital are to safeguard the Company’s ability to continue as a going concern.

The Company defines “capital” as including all components of equity. The balance of related party transactions are not regarded by the Company as capital.

The Company’s capital structure is regularly reviewed and managed with due regard to the capital management practices of the Infosys Limited Group to which the Company belongs. Adjustments are made to the capital structure in light of changes in economic conditions affecting the Company. The results of the Board of Directors’ review of the Company’s capital structure are used as a basis for the determination of the level of dividends, if any, that are declared.

The Company is not subject to externally imposed capital requirements.

XII. Commitments

(1) Capital commitments

Particulars	(In RMB)	
	As at December 31,

Capital commitments that have been entered into but have not been recognized in the financial statements: Contracts for purchasing property plant and equipment	3,168,552.29	230,281.96

**Stater N.V.**

# 1 Management report

We concluded the previous executive statement in our annual report by saying that we are very positive about the future. I am proud to say that our positive expectations were not only met but even exceeded in 2024.

After negotiating the a.s.r. Aegon contract terms at the end of 2023, our first goal in 2024 was to deliver the first phase of the a.s.r. Aegon program. One of the aims of this phase was to give a.s.r. Aegon the opportunity to originate the new mortgage production facilitated by the Stater capabilities. We accomplished this tremendous step in the program within the agreed timelines. As a result, all new a.s.r. Aegon mortgage production is now facilitated by Stater. Meanwhile, the other planned phases of the program were also delivered. Current planning is a complete migration of the Aegon portfolio by mid-2025. After finalizing the migration, the Assets under Administration for Stater will have grown by approximately 60 billion euros.

Furthermore, expanding on our commercial success, we successfully extended the contract with our largest customer ABN AMRO Hypotheken Groep and we completed the initiation phase with ING. At the same time, we drafted the contracts with ING. ING is important for our strategy for several reasons. It is the second system bank who uses Staters services and we will provide SaaS services to ING. As a result, we are not only market leader in full BPO services, also in SaaS services we increased our market leader ship. Both contracts have since been signed, and we have started the migration program for ING. To elaborate on implementing our strategy, we were able to maintain and build further on our sales pipeline in the Netherlands, Belgium and Germany.

Looking at the mortgage market in our respective focus countries, we see the market picking up in all countries. This is happening faster in some countries than in others, but a positive trend is generally observed for origination and other services. Consequently, our financial projections for 2024 have been achieved and even outperformed. From a qualitative perspective, we also made good progress. Our IT performance and

stability improved substantially, and the performance of our Business Operations remained at a very high level.

In 2024, we also stepped up in assurance. Due to our growth but also related to general market developments, our position in the mortgage eco-system changed. We therefore invested in SOC2 and SOX, and the same applies to our Governance, Risk and Compliance program. In addition, another of our priorities was to ensure compliance with DORA for the organizations in scope within the agreed timelines.

Without detracting from the fantastic year, there were also concerns. First of all, the increasing external risk on Information Security. There is a growing need to address threats such as malware, ransomware and other types of digital criminality. From both a risk awareness perspective and from an investment perspective, this is a top priority for Stater.

The labor market also remains challenging. In some areas we see fewer shortages than in the past, while in other areas the challenges remain the same. Together with the growth and changing role of Stater, this is one of the priorities in the upcoming years.

From a more macro-economic point of view, 2024 was also a year in which a lot happened. In 2024, economic uncertainties, accelerating technological developments and more contradictions in the world led, and will probably continue to lead, to more unpredictability. Staying focused, delivering on our strategy and managing these uncertainties are points of attention for the Stater Management Board.

Besides managing our success, facilitating the success of our customers and improving our services, we also put effort into more strategic topics in 2024. Our strategy is to become the leading mortgage services provider in Europe. This is based on our view that a continental European mortgage market is evolving step by step. This will take several years, especially in relation to the movement in some countries for a more country-focused attitude instead of an EU-broad attitude. Nevertheless, our view is that a continental European mortgage market will arise in the long term.

To ensure the long-term success of Stater, it is important to regularly assess our strategy. In 2024, we conducted a review of our strategy. Our conclusion, supported by the Supervisory Board, is that our strategy to become the mortgage service provider of Europe is still valid. As a result, we did an assessment of the next country to enter in the long term, three to five years. Our focus for now remains the current priority countries while preparing ourselves step by step for the next phase.

State-of-the-art IT is a precondition for this strategy and this is covered by our IT Transformation program. In 2024, we accelerated the IT Transformation which makes our IT platform futureproof in the long term. Key to this transformation is modular-based, component-based thinking. Generic instead of specific. Our strategy also involves the necessary organizational changes. In 2024, we further adapted the governance to the evolved mortgage value chain. In more concrete terms, value chain responsibilities like Business Operations and Account Management in the respective countries and transcendent responsibilities like Innovation, IT, HR and Finance are centrally organized.

To conclude: 2024 was a fantastic year for Stater in which we not only performed exceedingly well but also laid the foundation for our long-term continuity and success. We could not have done this without the ongoing dedication of our colleagues, the support of our shareholders and Supervisory Board and the trust of our customers and other business partners. We would like to thank everybody for their ongoing trust and commitment. We look to the future with great confidence starting in 2025.

The strategy of Stater is consistent for over 10 years already. And although we adapted to the developments over the years, we kept our focus on our end goal: becoming the mortgage service provider for Europe, based on the pillars Economy of Scale, Innovative services and Assurance.

Over the years we had several milestones: for example, the buying of the remaining shares of Stater Belgium, the moment Infosys group bought 75% of the shares of Stater from ABN AMRO Bank, the go-live in Germany, the growth with existing and new clients over the years, the ongoing investment in our IT-platform and development of our services. We are confident 2025 will be a next milestone for Stater with further growth in our home countries.

Stater is market leader in Europe for mortgage processing. Our goal is to build on our success and facilitate our clients to reach their goal, financially and non-financially, in a social responsible way. Part of being social responsible is having an eye for the situation in the world. In the management report of 2023, we expressed our thoughts to all individuals all over the world who live in terrible conditions, without access to basic necessities of life. Who live in fear for themselves or for their loved ones. And we were hoping the situation would improve in short notice. Unfortunately, this was not the case and sadly we have to repeat this message.

Although the market most likely remains difficult, we are very positive about the future. Together with our shareholders, clients and employees, we are looking forward to the future.

## 1.1 Organisational structure

**Stater is a 75% subsidiary of Infosys Consulting Pte. Ltd. and a 25% subsidiary of ABN AMRO Bank N.V. The consolidated annual accounts of Stater N.V. include the following group companies:**

- Stater Nederland B.V. (100%);
- Stater Belgium N.V./ S.A. (100%)
- HypoCasso B.V. (100%)
- Stater XXL B.V. (100%)
- Stater G.m.b.H (100%)

The head office of Stater is based in Amersfoort. In addition, Stater has offices in Brussels and Düsseldorf. Stater provides mortgage services and platforms for external lenders. We facilitate the orientation, provide services for the application, service the mortgage during the complete life cycle and provide arrears management services. In the Netherlands, Belgium and Germany, we are the partner of choice for originators. Our goal is to support originators in the mortgage process and contribute to their success. With our scale, we offer customers cost advantages, robustness and innovative strength. That makes us the ideal independent outsourcing partner.

Furthermore, we want to enable consumers in the mortgage market to manage their mortgages safely, quickly and without problems. We do this for more than 40 money lenders in the Netherlands, Belgium and Germany. More than 1.7 million mortgages are serviced by Stater.

### Governance

Stater has a two-tier governance structure under Dutch law, consisting of a Management Board and a Supervisory Board.

Stater is managed by a Management Board. In 2024 there were no changes in the structure of Stater's Management Board. The management of Stater consists of the CEO (Erwin Dreuning), CFRO (Monique Molenaar- Vader), CTO (Jonnes Bouma), MD New Business & Innovation (Arjan Hessels), MD Netherlands (Mario Menheere), and the MD Belgium (Thomas Bardram). With this composition, we have a balanced Management Board in which substantive mortgage knowledge, knowledge of the financial markets and managerial experience is combined, and where the Members reinforce each other. The Management Board is responsible for all Stater's activities in Europe.

The Supervisory Board of Stater is responsible for supervising and advising the Management Board and overseeing the general course of the company. The Supervisory Board consists of the following members:

- Ada van der Veer-Vergeer (chairman Supervisory Board)
- Frans van der Horst (member, chairman Audit Committee)
- Anantha Radhakrishnan
- Sunil Kumar Dhareshwar
- Jay Nair

In April 2023, Stater submitted a declaration at the Dutch Trade Register stating that it met the criteria for the large company regime. Three years after this submission, the large company regime will formally apply. The large company regime imposes certain governance requirements that Stater must adhere to. Stater already complies with the majority of these requirements. In the upcoming shareholders meeting, a resolution will be passed to amend the articles of association and internal regulations, after which the large company regime will be fully implemented.

## 1.2 Financial developments 2024

### Profit after tax

In 2024, Stater generated a net profit of € 4.8 million (2023: € 0.9 million). This is 2.8% of the total revenue (2023: 0.5%). Net profit for 2024 is substantially higher than in 2023. This is mainly due to the recovery in mortgage volumes on the Dutch housing market and costs remaining virtually the same due to strict cost management.

Stater continued to invest in new customers and systems. Due to challenging labor markets, our average staff costs increased.

The effective tax rate increased to 40% due to the unrecognized deferred tax asset of Stater GmbH. Stater GmbH is in a start-up phase and went live with its first customer in 2023. In the first years, the operating result of Stater GmbH will be negative, but Stater took a prudent approach and did not recognize a tax asset.

### Capital and solvency

Stater's solvency ratio remains good (49% at the end of 2024; 49% at the end of 2023). Since 2010, Fitch has given Stater's mortgage services the highest rating for primary servicing in Europe.

As a result of investments in our IT transformation program and new customers, it has been proposed to our Supervisory Board and shareholders that no dividend should be paid in 2024.

### Liquidity

Stater's liquidity remains good. At the end of 2024, a large part of the excess liquidity (€ 5.5 million) was still lent to Infosys (2023: € 17.5 million). These funds are structured in a flexible loan, withdrawable within 14 days. The current ratio in 2024 has improved from 1.38 in 2023 to 1.58 in 2024 so Stater is very capable of meeting short-term obligations.

### Revenue

Overall, the total revenue for Stater N.V. increased 3.9% from € 166.2 million in 2023 to € 172.8 million in 2024. The total revenue for Stater in the Netherlands increased 4.3% from € 141.9 million in 2023 to € 148.0 million in 2024.

Project revenue was 0.7% higher due to customer indexation offset by lower project demand (mainly due to cost savings by our customers). Furthermore, the project revenue (and costs) of the onboarding of our new customers will be amortized during the run phase. Other revenue including Data/BI services increased by 9.4% due to higher license fees (higher volumes mid-office) and revenue growth BI/Data.

The revenue of Hypocasso (tradename Mender, part of Stater Netherlands) decreased by 3.2% in 2024 compared to 2023. In line with previous years, this was the result of a lower inflow due to low unemployment and the high level of house prices.

The revenue of Stater Belgium remains stable at € 24.0 million, mainly because of customer indexation which is partly offset by lower market volumes. After start-up in 2023, Stater Germany's total turnover almost tripled in 2024.

### Operating expenses

Operating expenses remained at almost the same level as last year due to strict cost management. This is despite the growth in the number of internal and external FTEs from 1,306 in 2023 to 1,374 in 2024. The additional costs are the result of investments in our platform (Strategic transformation and on boarding our new customers).

### 1.3 Investments

Stater continues to invest in the development and renewal of its mortgage systems and supportive applications. In 2024, we continued to make substantial investments in the onboarding of new customers, our services and in further improvements. The main areas of investments concern improvements in our core services and in new customers to ensure our long-term success. The improvements include projects for:

- A new document management system.
- A new datacenter which is a fully mirrored production environment, significantly strengthening our business continuity.
- An open API platform and gateway.
- The finalization of the system stability and performance project.

We are also making significant investments in assurance by transitioning from a limited ISAE3000 scope to a SOC2 report that covers all service criteria. Additionally, we are strengthening our commitment to information security, recognizing its critical importance for our customers, the increasing regulatory requirements and the evolving risk landscape within the broader value chain.

In 2025, we will continue to invest in our services as in 2024. An important factor in this is the benefit of Infosys Limited as the majority shareholder. These benefits are visible in several areas. Not limitative: firstly, we are an industry investment for Infosys. As a result, the long-term Infosys goals are aligned with other stakeholders. Secondly, it results in easier access to talented staff and managed service capabilities. A third important factor is the access to commercial capabilities.

## 1.4 Financial instruments

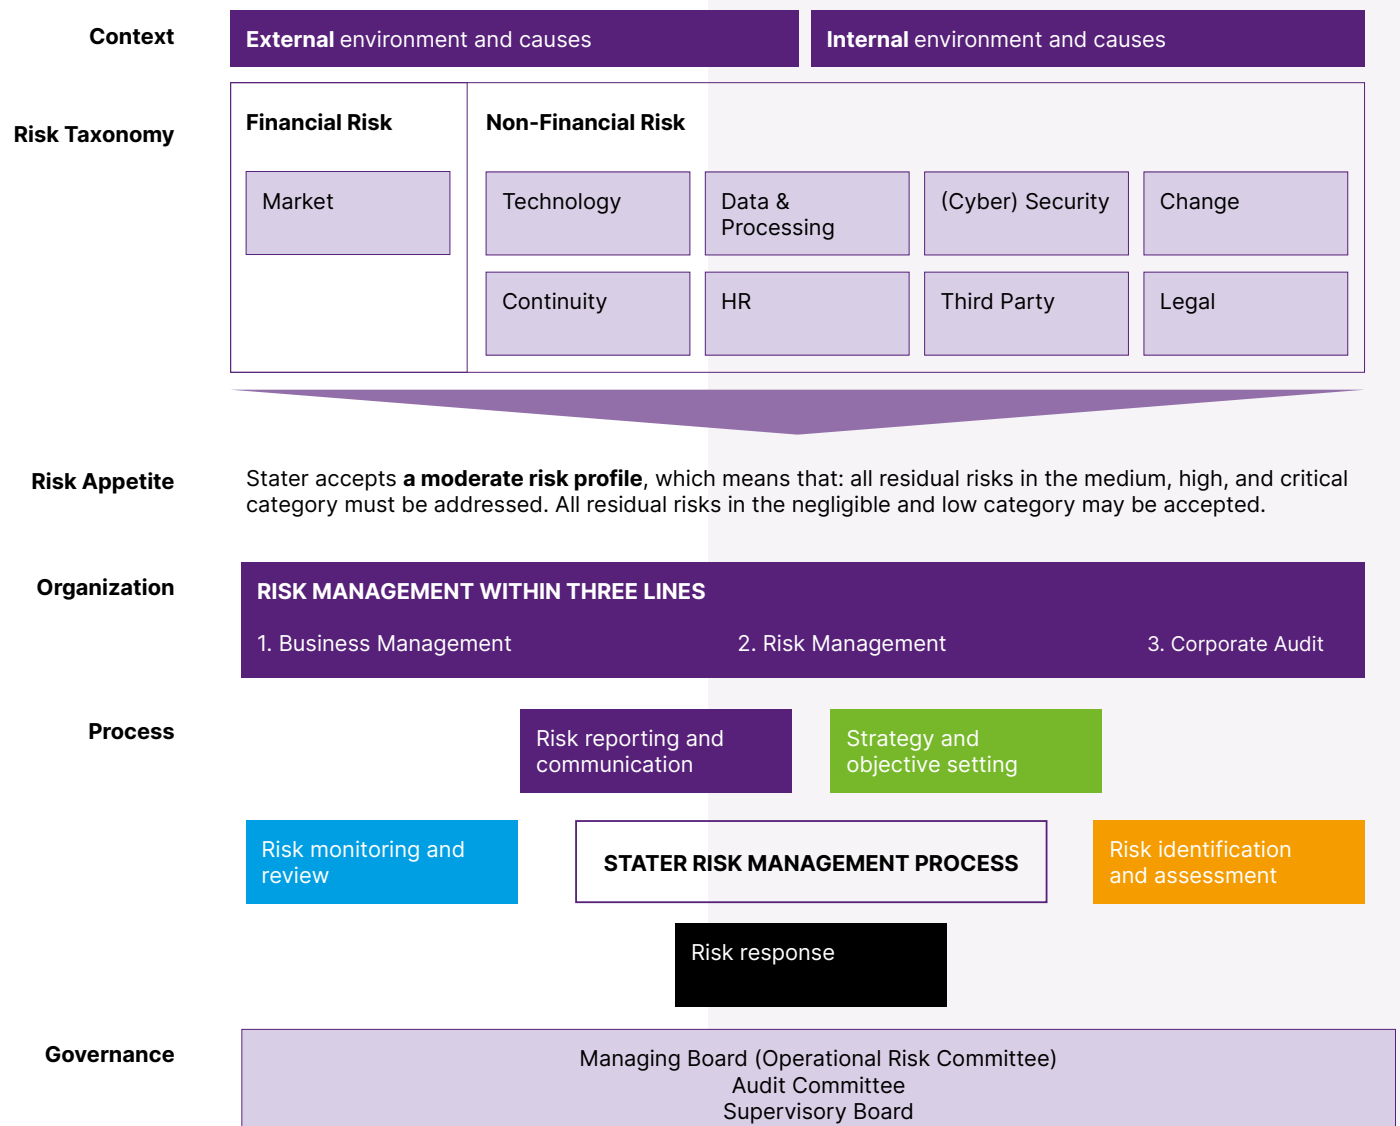

The group's primary financial instruments are used to finance the group's intercompany operational activities. The group's policy is not to trade in financial instruments.

## 1.5 Risks

To be able to drive a sustainable business, Stater's Management Board is continuously dealing with and aware of risks. In 2024, the Management Board subsequently performed a Strategic Risk Assessment, re-established the 'moderate' Risk Appetite and updated the Risk Taxonomy.

The most prominent Strategic Risks are: Market Risk (imbalance between strategic goals), mainly caused by the swift growth of Stater; Technical Risk where Stater needs to manage legacy systems and timely transformation; and (Cyber) Security Risk.

The risk areas of the Risk Taxonomy were evaluated in the light of the current internal and external context. A new category was added to the taxonomy (Third Party Risk) and some categories were merged or split due to impact or overlap. Third Party Risk became especially material for Stater because of the Digital Operational Resilience Act.

### Risk Culture

Stater is convinced that the foundation of a solid risk management system is empowered by people. Employees are expected to act in line with Stater's core values and adhere to the Code of Conduct, which defines our standards and behavior. Stater employees sign off on the Banker's Oath to underline the importance of integrity and they receive regular training regarding risks.

### Three lines model

Effective risk management requires an adequate risk organization. Our risk and control structures are based on the 'Three Lines Model'. The Three Lines Model clarifies the relationship between accountable business management, the advisory role of risk and compliance specialists and the independent role of the internal audit function.

The status of adherence to the risk appetite (the risk profile) and the outlook are discussed quarterly by the Operational Risk Committee (ORC) and the Audit Committee. The ORC consists of the Management Board accompanied by 2nd Line Risk Management and 3rd Line Corporate Audit. Plans to mitigate risks are in place and are monitored.

### Assurance

Our focus on (internal) control is reflected in annual ISAE3402 and ISAE3000 assurance reports. Preparations are made to optimize the Assurance Proposition by adopting SOC2 as a market standard control framework on SaaS services. This new ISAE3000 / SOC2 type2 assurance report will be available as of 2026. A prerequisite for optimizing the internal control environment is adequate supporting tools. In 2024, Stater implemented the cloud version of the Cerrix Governance, risk and compliance tool for this purpose.

Stater's Information Security and Business Continuity Management Systems are certified by British Standards Institutes (BSI) against the relevant ISO standards. BSI is the market leader in the field of auditing, certification and standardization for companies.

As far as BCM is concerned, one of the IT fallback tests practiced by Stater was postponed to May 2025 because of the installment of a new co-location Data Center in 2024. This migration of Data Centers is a large operation and will result in the fallback scenario test becoming obsolete within a few months. Customers are informed

about the plans and mitigating actions. Other fallback test scenarios and Crisis Management Team (CMT) exercises were performed as planned.

### Credit Risk

Stater's credit risk is historically very low. Stater does business with originators and customers and has defined credit rating procedures. The company has articulated guidelines to limit the credit risk to which it is exposed with each party. Moreover, the group continuously monitors its receivables and has a strict reminder procedure in place. The above measures have minimized the credit risk for the group.

### Funding and liquidity

Regarding the liquidity and cashflow risk, Stater has a healthy cash position and can finance current investments from operating cashflow. Cashflows are frequently monitored and if necessary, Stater can call on the loan to Infosys Consulting Pte. Ltd.

### Fraud risk

Inherent to Stater's business model are internal and external fraud risks. Internal risks are when employees of Stater are involved, external risks originate from outside of Stater and target Stater itself or its customers. Stater manages these risks through its processes. In total, more than 50 controls of a preventive or detective nature are embedded in Stater's Control Framework. On a tactical and strategic level, Stater's anti-fraud policy serves as central guideline for all Stater's employees and activities. In 2024, the anti-fraud policy was updated. Stater's employees (both internal and external) are required to pass the annual Risk Training. Special attention is paid to fraud risk awareness. An Anti-Fraud Working Group has also been installed, consisting of fraud coordinators from the relevant organization units and the Compliance Officer. An annual Fraud Risk Assessment is executed to evaluate the completeness and operational effectiveness of fraud controls.

In 2024, several fraud cases on the financial market were published in the media. Compliance Officers proactively contacted Stater's customers to cooperate in evaluations and analysis.

During the reporting period, no material fraud events were identified.

## 1.6 Staff and remuneration policy

The labor market conditions remained challenging throughout 2024. There was still a shortage in specialist positions, such as IT security and Finance. The developments surrounding the enforcement of the DBA Act also affected the labor market. Stater has taken measures to comply with new DBA regulations. Because of our growing success, the Stater brand is becoming more and more perpetuated in the market and we are becoming a more appealing employer.

We realize that staff engagement is crucial for our success. We have various instruments to engage and develop our staff and remain an attractive employer. Career and development opportunities are important to remain a preferred employer. In 2024, Stater employees attended a substantial number of training courses. These included mandatory as well as non-mandatory courses and focused on knowledge and capabilities. One of our goals is continuous development of the organization and its people.

Stater is currently in negotiations with the unions for the 2025 CLA. At the beginning of 2024, we anticipated a financially difficult year. As a result, we agreed no CLA increase for 2024. In recognition of the dedication of our employees, we provided a one-time reward at the end of 2024.

## Our colleagues

The average number of employed FTEs increased from 974 in 2023 to 990 in 2024. This increase was entirely driven by growth in the Netherlands. The average number of external employees increased to 384 FTEs in 2024 (2023: 332 FTEs). The increase in the number of external workers is mainly due to the temporary scaling up of work due to the attraction of new customers. Stater will continue to focus on a proper internal/external staff ratio. Stater's policy is to work with internal staff as much as possible. The average tenure of a Stater colleague is relatively long. Due to our strong internal mobility as well as our strong strategy, we are able to engage our employees for multiple years. We can connect with professionals inside as well as outside the mortgage market. The reasons for this are our strategy, which offers professionals a challenging international environment, a high- performance culture in which initiatives are supported, where taking responsibility is stimulated, and we invest in an accessible open culture based on local values. We also constantly offer employees new techniques to work with and occupy a special position in the market. Together with our family culture, that ensures that employees enjoy working for Stater.

## Working conditions

A hybrid working model has been fully embedded in the organization and is now part of the new way of working. All home working facilities are facilitated and available to employees.

Stater also has a whistleblower policy and an external confidential advisor. At Stater, we consider these principles to be of paramount importance in the culture we want to foster. Creating a safe working environment is a recurring theme in the risk inventory and evaluation. In 2024, Stater offered a vitality scan to all Stater employees. About 40% of the employees used the scan and gained insight into their physical and mental health. These results were for the employees themselves, and Stater received an anonymized summary. This shows that on average Stater employs vital employees. Facilitating a healthy workplace remains very relevant to Stater.

## Employment

Stater has a Remuneration policy in place that promotes sound and effective risk management and supports its business strategies, objectives, core values and long-term interests. Variable remuneration is not granted or guaranteed to staff, except for the Management Board members (variable income does not exceed 20% of annual income). The remuneration of the Management Board members is overseen by the Supervisory Board. None of the Management Board members, or any other staff, are entitled to a remuneration of € 1 million or more.

Stater's remuneration policy is well considered and in line with the market. The Supervisory Board has established that Stater's total remuneration package can be compared in three equal parts with the financial, utilities and IT sectors. The remuneration policy has been drawn up in accordance with the Wbfo and Wnbfo regulations and is implemented accordingly.

## Diversity

Stater has a very open and family-oriented culture in which diversity is highly valued. We attracted more knowledge migrants in 2024. We see this influx as very valuable, and this also has a pulling effect: expats attract each other. We welcomed more new colleagues from diverse backgrounds, religions and gender, which we consider to be complementary and enriching within Stater.

Diversity is a priority for Stater's Management Board. This priority stems from the vision that a diverse composition of Stater's employees in general and senior management more specifically contributes to our strategy and objectives. In our view, it improves decision-making and business outcomes. A diverse workforce remains a focus for Stater. Although we have made great progress in this respect, we remain focused on this important topic.

In 2024, the chairperson of the SB was appointed. There was a clear preference for a female candidate, and we were successful in this. As of December 31, the SB consists of 5 positions.

The situation as of 31-12-2024 is shown below:

	Total	Number of women	Target
<b>Supervisory Board</b>	5	1	1
<b>Management Board (statutory and non-statutory)</b>	6	1	2
<b>Senior Management Team</b>	35	14	18

On December 31, 2024, the Leadership Team of Stater consists of 41 positions. The Leadership Team is made up of 6 MB members and 35 Senior Management Team members (Senior Management Team members are Managers reporting to the MB). Of the Senior Management Team positions, 14 are occupied by women and 21 by men. The Management Board consists of 6 members. Of these 6 members, 1 is female and 5 are male.

Due to the absence of vacancies during the reporting period, with no turnover in Management Board and Senior Management positions, there were no opportunities to increase female representation through new appointments. The organization remains committed to diversity and inclusion and will continue to prioritize gender balance in future hiring process.

The principal arrangement is that if the target has not yet been achieved, there is a preference for a female candidate. If unavailable, male candidates will also be sought. This principle only concerns vacant positions; already filled positions and officers will not be replaced or relocated.

## 1.7 Environmental, Social and Governance (ESG) aspects of entrepreneurship

Stater's sustainability policy is integrated in Stater's growth strategy. During 2024, the policy, which was introduced a few years earlier, was further expanded. Based on 5 ambition statements, activities were carried out and objectives determined and achieved in most of the cases. Each of the 5 ambition statements is explained below.

### 1. Ambition in the field of client support in the sustainability of the portfolio

Stater has developed various propositions for its customers in recent years, such as the portals, the Sustainability Depot and the Energy Savings Budget (EBB) application street. In 2024, more customers purchased some of these sustainability propositions. New propositions have also been developed: the functionality on the E-Consumer portal has been expanded and the GAR report has been offered. The Sustainability Community is now a regular consultation in which initiator Stater enters into discussions with the lenders to start supporting initiatives to make the housing market more sustainable. In addition, Stater is a member of the EEM NL HUB (Energy Efficient Mortgages), in which European legislation is translated into Dutch standards. The aim of the EEM NL Hub is to accelerate energy-efficient homes on the Dutch market. Participation gives Stater a knowledge advantage.

### 2. Ambition in the field of sustainable business operations

The building in Amersfoort has an energy label A. Cooling and heating from natural sources is provided by means of a CHP installation. The cooling/heating control in the building is provided to ensure that optimal coordination between supply and demand is possible. As a tenant of the building in Amersfoort, Stater is in talks with the landlord to make the building even more sustainable. Stater purchases 100% NL wind energy through our energy supplier, so that the electricity used is fully renewable. This also applies to the two data centers in Almere and Groenekan. Stater also sets high standards for the quality of waste processing and is discussing this with the waste processor in order to optimize pre- and post-separation.

### **3. Ambition as a good employer**

Stater adheres to the principles of good employment practices, stimulates sustainable employability and ensures that employees are broadly and sustainably employable through training. The Stater Learning Centre received another boost in 2024 with innovation in its offerings. Stater focuses strongly on vitality, and this is reflected in the declining figures on absenteeism.

### **4. Community involvement**

Stater actively encourages community involvement by providing every employee with the opportunity, also during working hours, to engage in voluntary work alongside their regular work. For some time, Stater has been collaborating with JINC, an organization that is committed to supporting disadvantaged young people between the ages of 8 and 16 to get started. In addition, Stater organized various activities together with the Present foundation in 2024. Teams are given the opportunity to do a CSR activity via Present as a teambuilding exercise or as a team outing. Employees also volunteered in debt counseling programs, through Schuldhulpmaatje and ONS Bank.

### **5. Quality of governance**

Preparations for the implementation of the CSRD legislation started in 2024. Through this legislation, Stater will be obliged to report on various sustainability criteria according to the format prescribed by the CSRD starting from 2025. A great deal of attention has also been paid to communication about the steps that the organization is taking in the field of sustainability. This was done through articles posted on Stater's intranet and on social media channels. In this way, employees and customers were regularly informed about Stater's activities relating to all ESG items.

### **Outlook ESG 2025**

In the coming year, the focus will remain on more sustainable propositions for our customers. There will also be further attention for the CSRD implementation. In doing so, Stater will demonstrate that growth can go hand in hand with attention to people and the environment. The ESG items will be further integrated into Stater's business operations.

## 1.8 Outlook 2025

In 2025, Stater will continue to expand its customer base while maintaining its financial position. We will carefully balance the financial impact of ongoing investments with a healthy profit margin. We expect that the a.s.r. production and migration will be completed during the year. We will continue to focus on the further growth of our customer base in the countries we service. Further expansion into a next country in Europe will be explored.

Furthermore, in 2025 we will continue to invest to ensure that we remain at the forefront of developments in the mortgage market, in terms of digitization, further efficiency improvements and stable & future proof IT Platform.

We are actively enhancing our assurance standards, with the implementation of SOC2 planned by the end of 2025. In parallel, we continue further strengthening our cybersecurity capabilities to meet evolving market demands while reinforcing our role within the value chain.

With these activities, we will support our strategy of being the mortgage services provider of choice in our home countries of the Netherlands, Belgium and Germany.

Amersfoort, April 23, 2025

E.R. Dreuning CEO

M. Molenaar- Vader CFRO

# **CONSOLIDATED ANNUAL ACCOUNTS 2024**

## 1 CONSOLIDATED BALANCE SHEET AS AT DECEMBER 31, 2024

(before appropriation of results)

		2024		2023	
		x €1,000	x €1,000	x €1,000	x €1,000

## 4 NOTES TO THE CONSOLIDATED ANNUAL ACCOUNTS

### GENERAL

Stater N.V. (the 'Company') is a company domiciled in the Netherlands. The address of the Company's registered office is Podium 1, 3826 PA Amersfoort (registration number Chamber of Commerce 32073618). The current financial period runs from January 1, 2024 to December 31, 2024.

All amounts are in thousands and are stated in Euro's.

### Activities

The activities of Stater N.V. and its group holdings mainly consist of mortgage servicing and change projects for clients.

### Basis of accounting

The company has prepared the annual accounts in accordance with the provisions of Part 9 of Book 2 of the Dutch Civil Code. The company have voluntarily adopted IFRS 16 in 2019 and IAS 19. The annual accounts were authorised for issue by the Management Board on April 23, 2025.

### Assumption of going concern

The assumption of going concern was applied during the preparation of the financial statements. Stater is a financially healthy company and can finance its investments from its own cash flows. Turnover has grown and is projected to grow in the future. Furthermore, as a result of a significant amount of flexible staff, costs can be adjusted if necessary. Stater's continuity is not at any risk in the near future.

### Estimates

The preparation of annual accounts in conformity with the relevant rules requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. If necessary for the purposes of providing the view required under Section 362 (1), Book 2, of the Dutch Civil Code, the nature of these estimates and judgments, including the related assumptions, is disclosed in the notes to the financial statement items in question. This refers to provisions, useful life of fixed assets and impairments on fixed assets as explained in the policies and notes.

### Group structure

The consolidated annual accounts of Stater N.V. include the financial data of Stater N.V. and the following group companies:

- Stater Nederland B.V. in Amersfoort:  
100% participation (2023 : 100%)
- Stater Belgium N.V./S.A. in Brussels:  
100% participation (2023 : 100%)
- HypoCasso B.V. in Amersfoort:  
100% participation (2023 : 100%)
- Stater XXL B.V. in Amersfoort:  
100% participation (2023 : 100%)
- Stater G.m.b.H. in Düsseldorf:  
100% participation (2023: 100%)

Stater N.V. had accepted liability in accordance with Section 2:403 of the Dutch Civil Code for the following group companies:

- Stater Nederland B.V. in Amersfoort:  
100% participation (2023:100%)
- Stater XXL B.V. in Amersfoort:  
100% participation (2023:100%)
- HypoCasso B.V. in Amersfoort:  
100% participation (2023:100%)

### Consolidation principles

Financial information relating to group companies and other legal entities controlled by Stater N.V. or where central management is conducted has been consolidated in the annual accounts of Stater N.V. The consolidated annual accounts have been prepared in accordance with the accounting principles of Stater N.V.

In accordance with article 2:402 of the Dutch Civil Code, the company-only annual accounts only contain an abridged profit and loss account.

Financial information relating to the group companies and the other legal entities and companies included in the consolidation is fully included in the consolidated annual accounts, eliminating the intercompany relationships and transactions. Third-party shares in equity and results of group companies are separately disclosed in the consolidated annual accounts.

Annual accounts of the subsidiaries are included in the consolidated annual accounts from the date that control commences (the acquisition date) until the date that control ceases. At acquisition date the assets, provisions and liabilities are measured at fair values. Goodwill paid is capitalised, to which amortisation is charged based

on the estimated useful life. The results of participating interests sold during the year are recognised until the moment of disposal.

## **GENERAL ACCOUNTING PRINCIPLES FOR THE PREPARATION OF THE CONSOLIDATED ANNUAL ACCOUNTS**

Valuation of assets and liabilities and determination of the result take place under the historical cost convention. The current value does not differ materially from the nominal value except if disclosed as such in the notes. Gains are attributed to the period in which they are realised, losses are recognised in the year in which they are foreseeable.

Income and expenses are accounted for on an accrual basis. Profit is only included when realised on the balance sheet date. Losses originating before the end of the financial year are taken into account if they have become known before preparation of the annual accounts.

Revenues from services are recognised in proportion to the services rendered. The costs of these services are allocated to the same period.

### **Comparison with previous year**

The valuation principles and method of determining the result are the same as those used in the previous year.

### **Foreign currency**

Receivables, liabilities and obligations denominated in foreign currency are translated at the exchange rates prevailing as at balance sheet date.

Transactions in foreign currency during the financial year are recognised in the annual accounts at the exchange rates prevailing at transaction date. The exchange differences resulting from the translation as at balance sheet are recorded in the profit and loss account.

### **Lease accounting**

For lessee accounting IFRS 16 removes the distinction between 'operating' and 'finance lease' and the leases are recognised on the balance sheet as right of use (ROU) asset and lease liability. As a lessee Stater enters into various lease contracts, mainly for office buildings and cars which Stater leases for its own use. When accounting for the contracts as a lessee,

Stater separates non-lease components from lease components.

Upon initial recognition, the lease liability is measured by discounting all future lease payments at the incremental borrowing rate. This rate reflects the rate of interest Stater would have to pay to borrow over a similar term, and with similar credit risk, the funds necessary to obtain an asset of a value similar to that of the ROU asset in a similar economic environment. The weighted average incremental borrowing rate recognised in the annual accounts is 1.79% (2023 1.67%). Upon transition, the remaining lease term is used in applying the incremental borrowing rate. The ROU asset is initially measured at cost, which reflects the initial lease liability, adjusted for received incentives. The initial lease liability is equal to the sum of the fixed lease payments, discounted by the incremental borrowing rate.

The ROU asset is depreciated over the period of the lease, using the straight-line method. The lease liability is increased to reflect the amount of interest on the lease liability and decreased for the lease payments made.

Adjustments to the lease liability may result from remeasurement and/or modification. Remeasurement occurs when there is a change in the lease term or discount rate, or when Stater changes its assessment regarding purchases, extension or termination options. Remeasurement results in adjustment of the ROU asset. When the ROU asset has been depreciated to zero, it is recorded in the profit and loss account.

Stater has not entered into a sales and leaseback transaction.

A lease modification is a change in the scope of the lease, or the consideration of a part of a lease that was not part in the original terms and conditions of the lease. A lease modifications result in either a separate additional lease or a change in the accounting for the existing lease. In the case of a lease modification not resulting in an additional lease, the lease liability is remeasured by adjusting the carrying amount of the ROU asset, and to reflect the partial or full termination of the lease, recognising any gain or loss in profit and loss. Expenses related to short-term leases with a term of less than 12 months and leases of low-value are recognised in the profit and loss account, as permitted by the standard.

ROU assets are included in tangible fixed assets, while the lease liabilities are included in long-term liabilities. Depreciation is presented in the line item for amortisation and depreciation and interest expenses is included in the line financial income and expenses.

Stater did not choose to apply this standard to a portfolio of leases and did not combine two or more contracts with the same counterparty.

## ACCOUNTING PRINCIPLES APPLIED TO THE VALUATION OF ASSETS AND LIABILITIES

### Intangible fixed assets

Intangible fixed assets are presented at cost less accumulated amortisation and, if applicable, less impairments in value. Amortisation is charged as a fixed percentage of cost, as specified in more detail in the notes to the balance sheet. Amortisation and impairments are accounted in the profit and loss account. If assets are at zero value and still in use they are still taken into account based on the yearly check of existence and use. The useful life and the amortisation method are reassessed at the end of each financial year.

Intangible fixed assets arising from development shall be recognised if the company can demonstrate all of the following points:

- the technical feasibility of completing the intangible fixed asset, so that it will be available for use or sale;
- its intention to complete the intangible fixed asset and to use or sell it;
- how the intangible fixed asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible fixed asset; and
- its ability to measure the expenditure attributable to the intangible fixed asset during its development.

Expenses relating to an intangible fixed asset that do not meet these points are recognised directly in the profit and loss account. The intangible fixed assets will be yearly assessed - based on business cases - for impairment purposes. In case of a reversal of an impairment, the increased amount cannot be higher than the carrying amount that would have been determined without impairment loss in previous years.

A statutory reserve is created for the part of the cost of internally developed software that has not yet been amortised.

### Tangible fixed assets

Tangible fixed assets are presented at acquisition price less cumulative depreciation and, if applicable, less impairments in value. Depreciation is based on the estimated useful life and calculated as a fixed percentage of cost, taking into account any residual value.

Depreciation is provided from the date an asset comes into use. Useful lives and residual values are reviewed at each financial year end.

Tangible fixed assets are evaluated for recoverability whenever events or changes in circumstances indicate that their amount might not be recoverable. If tangible assets are considered to be impaired, the impairment to be recognised in the profit and loss account is measured by which the carrying amount exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the profit and loss account if there has been a change in the estimates used to determine the recoverable amount. The asset is increased to its revised recoverable amount, provided that this amount does not exceed the amount that would have been determined had no impairment loss been recognised for the asset in prior years.

### Financial fixed assets

Participating interests where significant influence is exercised over the business are valued according to the equity method on the basis of the net asset value. If the company fully or partly guarantees the liabilities of the participation concerned, or is effectively obliged to enable the participation to pay its (share of) liabilities, a provision is recognised for losses. Participating interests with negative net capital value are valued at zero. Participating interests without such influence, are valued at the acquisition price and assessed for impairment on an annual basis.

Upon initial recognition the receivables and loans to participations and other receivables are valued at fair value and subsequently measured at amortised cost, which equals the face value, after deduction of any allowance for doubtful debt. Any allowance for doubtful debts are deducted from the carrying value of the asset. These provisions are determined based on individual assessment of the receivables.

An impairment occurs when the carrying amount of an asset is higher than the realisable value. The realisable value is the higher of the realisable value and the value in use. If it is not possible to determine the realisable value of the individual asset, the realisable value of the cash generating unit to which the asset belongs is determined. An impairment loss is directly recognised in the profit and loss account while the carrying amount of the asset concerned is concurrently reduced.

If it is established that an impairment that was recognised in the past no longer exists or has reduced, the increased carrying amount of the asset concerned is set no higher than the carrying amount that would have been determined if no impairment value adjustment for the asset concerned had been reported.

#### **Receivables and deferred assets**

Upon initial recognition the receivables are valued at fair value, including transaction cost. After initial recognition receivables are measured at amortised cost, which equals the face value, after deduction of any allowance for doubtful debt. Allowance for doubtful debt is deducted from the carrying amount of the receivable. The allowance for doubtful debt are determined based on individual assessment of the receivables.

At every balance sheet date an assessment is performed on whether objective indicators exist for impairment of a receivable. If objective indicators exist for impairment, the amount of the loss with respect to the impairment is recognised in the profit and loss account.

#### **Cash and cash equivalents**

The cash is valued at face value. If cash equivalents are not freely disposable, then this has been taken into account in the valuation.

#### **Provisions**

A provision is recognised when the company has a present obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are valued at nominal value.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of the provision. Where the effect of time value of money is material, the provision is measured at the present value of the expenditures expected to be required to settle the obligations and losses. The provisions are reviewed at each balance sheet date and adjusted to reflect the best estimate. Additions to or amounts to be reversed from provisions are recognised in the profit and loss account respectively.

#### **Deferred tax liability**

This tax provision concerns the temporary differences between the valuation in the annual accounts and the tax valuation of assets and liabilities. The provision is calculated based on the applicable tax rates.

#### **Other provisions**

##### **Claim provision**

The provision for claims is recorded for the estimated costs based on management judgements on the probability of cash outflow expected on the claims received.

##### **Other long-term employee benefits**

Other long-term employee benefits are those benefits that are part of the remuneration package, such as long-term remunerations for anniversaries, temporary leave, etc. The rights to these benefits are built through time. The obligation recorded is the best estimate of the amounts required to settle the related obligations as at balance sheet date.

##### **Provision for part of early retirement**

Stater's collective labour agreement stipulates that employees aged 60 and over can, on certain conditions, opt to reduce their working week to an average of 32 hours (80%), while preserving 90% of their pay. Pension accrual and pension premium payment remain unchanged. The provision is calculated based on a probability of employees staying with the company and an annual pay increase. The provision is calculated at present value, while also factoring in survival probability (Prognosetafel [Life Table] AG 2022) and the probability of employees using this scheme.

### **Provision for long-service awards**

The collective labour agreement for Stater includes bonuses paid on the occasions of several service anniversaries and termination of employment on account of full incapacity or reaching state pension age. The provision is calculated based on a probability of employees staying with the company and an annual pay increase. The provision is calculated at present value, while also factoring in survival probability (Prognosetafel [Life Table] AG 2022).

### **Other**

This concerns obligations on account of termination of employees' employment contracts prior to the normal pension date. Termination benefits are recognised if it demonstrably concerns an obligation to terminate employment contracts with employees. Remunerations are recorded at nominal value.

The pension plan(s) of Stater Belgium N.V./S.A. are qualified as a defined benefit plan under the Accounting standard IAS 19. The projected unit credit method was used for the valuation, for the determination of the accrued benefits and for the service cost and was applied in a manner consistent with IAS 19. Because the total provision is considered as not material, not all required disclosures are included.

The provisions are mostly long-term.

### **Long-term liabilities**

On initial recognition long-term liabilities are recognised at fair value. Transaction costs which can be directly attributed to the acquisition of the long-term liabilities are included in the initial recognition. After initial recognition long-term liabilities are recognised at the amortised cost price, being the amount received taking into account premiums or discounts and minus transaction costs.

The difference between stated book value and the mature redemption value is accounted for as interest cost in the profit and loss account on the basis of the effective interest rate during the estimated term of the long-term liabilities.

### **Current liabilities, accruals and deferred income**

Upon initial recognition, current liabilities, accruals and deferred income are recognised at fair value, less directly attributable transaction costs.

After initial recognition, current liabilities, accruals and deferred income are measured at amortised cost as per the effective interest method. Profit or loss is recognised in the profit and loss account as soon as the current liabilities, accruals and deferred income are no longer recognised on the balance sheet, as well as through the amortisation process.

### **Derecognition of financial assets and liabilities**

A financial instrument is derecognised following a transaction whereby all or practically all rights to economic benefits and all or practically all risks with regard to the position have been transferred to a third party.

## **ACCOUNTING PRINCIPLES FOR THE DETERMINATION OF THE PROFIT AND LOSS**

### **General**

The result is defined as the difference between the revenue from goods delivered and services performed on one hand and, on the other hand, the costs and expenses for that year, valued at historical costs.

### **Net turnover**

The net turnover from mortgage processing revenue consists of revenue from the income of services during the reporting period after deducting discounts and rebates. Revenue is incurred in time.

The income for project services is included proportionally to the level in which the services were performed based on the costs for the service up to the balance sheet date in relation to the estimated costs for all services to be provided. Revenue is incurred over time of the project duration. The costs for these services are accounted for in the same period.

Other revenue consists of all other revenue types for services for clients incurred in time.

### **Expenses general**

The costs are determined in accordance with the before mentioned accounting principles for valuation and allocated to the year to which they relate.

### **Cost of subcontracted work and other external charges**

The cost of subcontracted work and other external charges include the costs charged by third parties in connection with the outsourcing or support of the work. These costs consist of the purchase price and any additional costs.

### **Employee benefits**

Staff emoluments are recognised as an expense in the profit and loss account for the period in which the work is performed and, to the extent that they have not yet been paid, a liability in the balance sheet. Where amounts already paid exceed the remuneration due, the difference is recorded as an accrual, either to reimburse staff or to offset against future payments by the company.

For staff commitments involving future expenditure, actuarial calculations are carried out and provision is made for this in the annual accounts.

If remuneration is paid that does not include accrual of entitlements (such as continued payment during sickness absence or a period of incapacity), the anticipated expenses are recognised in the period for which the remuneration is payable. A liability is created to cover obligations that exist on the balance sheet date to continue to pay remuneration to employees who, on the balance sheet date, are expected to permanently be fully or partially unable to perform work due to sickness or incapacity.

### **Pension costs**

The basic principle is that the pension expense to be recognised for the reporting period is equal to the pension contributions payable to the pension fund for that period. Insofar as the payable contributions have not yet been paid on the balance sheet date, a current liability is recognised. When the contributions paid as at the balance sheet date exceed the contributions due, an accrued asset item will be included insofar as it will concern repayment by the fund or a set-off against future contributions due.

Under the new pension act, all pension plans will need to transition from an accrual-based structure to a premium-based structure. The accounting consequences under IAS 19 must be assessed and,

if applicable, implemented on a timely manner by Stater. The preparation of a transition plan is mandatory following the new Pension Act.

The pension fund is tasked with developing a transition plan to move from the old pension scheme to a new one. The transition plan will be created with support from the board of directors and the trade union and must be evaluated for its feasibility, clarity, and fairness towards all participant groups, including deferred members, retirees, and active members. Following this evaluation, an implementation plan must be submitted by the pension fund for approval to De Nederlandsche Bank (DNB) before execution can begin. Stater has involved a specialist who will review the transition plan and advise Stater on the next steps ultimately end of May.

### **Amortisation and depreciation**

The amortisation of the intangible fixed assets is calculated using fixed percentages of the purchase price or the costs of internally developed software. The depreciation on tangible fixed assets is calculated by using a fixed rate on the acquisition cost based on the expected life cycle. Gains and losses from the occasional sale of property, plant or equipment are included in the profit & loss account.

The useful life and amortisation/depreciation of intangible/tangible fixed assets are reassessed at the end of each financial year.

### **Interest income and expenses**

Financial income and expenses comprise interest income and expenses for loans (issued and received) during the current reporting period.

This also includes interest expenses for rent and lease liabilities, which are recognised on the balance sheet as required by IFRS 16.

### **Taxes**

Income tax expense comprises current and deferred income tax. Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted by the balance sheet date.

Deferred income tax assets and liabilities are recognised for all temporary differences between the tax bases of assets and liabilities and their carrying amounts in the annual accounts. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities are recognised as income or expense in the period that includes the enactment date. A deferred income tax asset is recognised to the extent that it is probable that future tax will be available against which the deductible temporary differences and tax losses can be utilised.

The company offsets current tax assets and liabilities, where it has a legally enforceable right to offset the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The allocation of corporate income tax to the partnerships included in the fiscal entity is realised as if the participating interests are independently taxable.

### **Share in result of participating interests**

Where significant influence is exercised over participations, the group's share in the participations' results is included in the consolidated profit and loss account. This result is determined on the basis of the accounting principles applied by Stater N.V.

## 5 NOTES TO THE CONSOLIDATED BALANCE SHEET AS AT DECEMBER 31, 2024

### ASSETS

#### FIXED ASSETS

##### 1. Intangible fixed assets

	Internally developed software x €1,000	Purchased software x €1,000	Prepayments on intangible fixed assets x €1,000	Total x €1,000
<b>Carrying amount as of January 1, 2024</b>				
Purchase price	99,968	16,874	0	116,842

Amortisation	-6,178	-642	0	-6,820
	7,214	-213	6,147	13,148
<b>Carrying amount as of December 31, 2024</b>				
Purchase price	113,360	16,642	6,147	136,149
Cumulative amortisation and impairment	-78,973	-15,570	0	-94,543
	34,387	1,072	6,147	41,606

<b>Amortisation rates</b>	<b>%</b>
Internally developed software	14
Purchased software	20-33
Prepayments on intangible fixed assets	7-10

The carrying amount of the internally developed software € 113,360,000 includes assets amounting to € 62,147,000 that have been fully written down, but are still in use. The carrying amount of the purchased software € 16,642,000 includes assets amounting to € 12,442,000 that have been fully written down, but are still in use.

The prepayments on intangible fixed assets include the cost of fulfillment to onboard the new clients to our platform, amortized starting on the commencement of the mortgage processing services up to the end of the contract term. In 2024 these costs of fulfillment are not yet in use and therefore not amortized.

There are no investment commitments in respect of intangible fixed assets (2023: € 0).

The company has the full ownership of the intangible fixed assets as disclosed. As of December 31, 2024 the intangible fixed assets are not pledged as security for liabilities, nor are there any pending commitments regarding the acquisition of intangible fixed assets.

## 2. Tangible fixed assets

	Leasehold improvements x €1,000	Hardware x €1,000	Equipment x €1,000	Right of use assets x €1,000	Total x €1,000
<b>Carrying amount as of January 1, 2024</b>

	45	831	-95	-2,580	-1,799
<b>Carrying amount as of December 31, 2024</b>					
Purchase price	4,774	18,493	4,176	24,567	52,010
Cumulative depreciation and impairment	-3,664	-11,892	-3,945	-14,528	-34,029
Carrying amount as of December 31, 2024	1,110	6,601	231	10,039	17,981

<b>Depreciation rates</b>	<b>%</b>
Leasehold improvements	10
Hardware	20-33
Equipment	20
Right of use assets	10-25

The company has the full ownership of the tangible fixed assets as disclosed. As of December 31, 2024 the tangible fixed assets are not pledged as security for liabilities. The commitments in respect of (future) tangible fixed assets as per December 31, 2024 amount to € 0 (2023: € 1,242,0000).

The right of use assets include Stater's leased premises in Amersfoort and Brussels amounting to € 8,435,000 (2023 € 11,247,000), as well as the lease cars amounting to € 1,604,000 (2023 € 1,371,000). With effect from April 1, 2018, the building in Amersfoort lease has been renewed for 10 years with an option to renew for 2 consecutive periods of 5 years, i.e. until March 31, 2038 at the latest. These renewal options have not been included in the IFRS 16 calculation. The lease for the premises in Brussels was entered into on December 1, 2022 and ends by operation of law on November 30, 2031. There are no variable lease payments present in the lease contracts.

### 3. Financial fixed assets

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Receivables from participants and from companies in which participation takes place</b>		
Loan Infosys Consulting Pte. Ltd.	5,500	17,500

Interest rate is considered as market related and is equal to 12 months EURIBOR +1.05 per annum (4.54% 2023: 5.25%), provided that the minimum interest rate owed by Infosys to Stater will never be less than 0.25%. The loan was granted on 27 January 2020 for a term of 5 years.

The principal amount of the loan (including interest) is repayable on demand of Stater (in full or in parts) at any time by giving a 15 days' prior notice, without Stater being obliged to pay any compensation.

	2024	2023
	x €1,000	x €1,000
<b>Loan Infosys Consulting Pte. Ltd.</b>		
Carrying amount as of January 1	17,500	25,500
Repayment	-12,000	-8,000
Carrying amount as of December 31	5,500	17,500

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Other receivables</b>		
Other receivables	1,276	1,096

Other receivables relate to a loan granted to the leasing company. The interest rate is 0% (2023 0%). The loan was granted for the purchase of lease cars for Stater N.V. The lease costs are increased by a subcharge of 0.25% on the interest rate. Repayments on the loan are equal to

the depreciation of the lease cars. By way of security, a pledge has been granted on all passenger cars and light commercial vehicles made available to Stater N.V. by the leasing company for the benefit of employees of Stater N.V.

	2024 x €1,000	2023 x €1,000
<b>Other receivables</b>		
Carrying amount as of January 1	1,096	1,223
Loans granted	705	338
Repayments	-525	-465
Carrying amount as of December 31	1,276	1,096

#### 4. Current assets

Grants	148	196
Other receivables	89	83
	<u>977</u>	<u>920</u>
<b>Prepayments and accrued income</b>		
Services to be invoiced	15,530	12,839
Prepaid costs	6,873	6,194
	<u>22,403</u>	<u>19,033</u>

The prepaid costs mainly refer to software maintenance and software licence fees.

## 5. Cash and cash equivalents

Bank	18,075	11,241
------	--------	--------

An amount of € 161,000 (2023: € 161,000) is not freely disposable.

## EQUITY AND LIABILITIES

### 6. Group equity

Please refer to the notes to the non-consolidated balance sheet on page 56 of this report for an explanation of the equity.

#### Proposed appropriation of profit

The annual accounts for 2023 were adopted by the General Meeting held on April 25, 2024. The General Meeting has determined the appropriation of the result as it was proposed.

It is proposed to the General Meeting that the result after taxes for 2024 will be added to the other reserves.

### 7. Provisions

#### Deferred tax liability

This provision concerns the temporary differences between the valuation in the annual accounts and the tax valuation of assets and liabilities. The provision is calculated based on the applicable tax rate.

	2024	2023
	x €1,000	x €1,000
Carrying amount as of January 1	5,732	5,910
Allocation	4,502	1,946
Withdrawal	-1,445	-1,165
deferred tax assets	-1,119	-959
Carrying amount as of December 31	7,670	5,732

The increase of the deferred tax liability is a result of the investments in internally developed software. For tax purposes these investments are operating expenses. The provision for deferred tax liabilities has a predominantly long-term character: € 5,567,000 (2023 € 4,439,000).

The deferred tax assets for Stater GmbH as a starting company are not included as a conservative approach. The cumulative losses amount to € 6 million and can be unlimited carried forward.

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Other provisions</b>		
Claim provision	1,638	1,698
Other long-term employee benefits	4,784	4,391
Other	0	41
	<u>6,422</u>	<u>6,130</u>

	2024	2023
	x €1,000	x €1,000
<b>Claim provision</b>		
Carrying amount as of January 1	1,698	1,125
Allocation	1,202	1,363
Withdrawal	-130	-359
Reversal	-1,132	-431
Carrying amount as of December 31	<u>1,638</u>	<u>1,698</u>

Provisions for legal claims are recognised when the company has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Management makes estimates as to whether provisions are needed on a case-by-case basis.

The claim provision has a predominantly long-term character.

<b>Other long-term employee benefits</b>		
Carrying amount as of January 1	4,391	4,275
Allocation	953	608
Withdrawal	-560	-492
Carrying amount as of December 31	<u>4,784</u>	<u>4,391</u>

The provision for other long-term employee benefits has a predominantly long-term character: € 4,140,000 (2023: € 3,864,000)

	12-31-2024	12-31-2023
<b>Key assumptions used:</b>		
Discount rate	3,20%/3,25%	3,25%
Expected rate of salary increase	2%	2%
Average age current employees	45,1	44,7

	2024	2023
	x €1,000	x €1,000
Carrying amount as of January 1	41	112
Withdrawal	-41	-71
Carrying amount as of December 31	<u>0</u>	<u>41</u>

The other provision has a predominantly short-term character.

## 8. Long-term liabilities

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Lease liabilities</b>	9,860	13,110
Advanced payment received	3,103	0
	12,963	13,110

### Lease liabilities

	2024	2023
	x €1,000	x €1,000
<b>Lease liabilities</b>		
Carrying amount as of January 1	13,110	15,451
Funds withdrawn	526	1,415
Interest added	258	329
Repayment	-4,034	-4,085
Long-term part as at December 31	9,860	13,110

The lease liabilities include the present value of lease payments not paid at December 31. The incremental borrowing rate is used as discount rate. The current portion of the lease debts is presented as current liabilities. The table below provides details regarding the contractual maturities of lease liabilities as of December 31 on an undiscounted basis:

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Particulars</b>		
Less than one year	3,154	3,131
One to five years	9,488	11,609
More than five years	747	2,084
Total	13,389	16,825

### Advanced payment received

This includes the advanced payments from new clients as contribution for the onboarding costs. The amounts received will be booked as revenue starting on the commencement of the mortgage processing services up to the end of the contract term (varying 10-15 years).

## 9. Current liabilities, accruals and deferred income

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Taxes and social securities</b>		
VAT	5,624	5,951
Payroll tax	5,019	4,775
	10,643	10,726
<b>Accruals and deferred income</b>		
Holiday bonus	1,533	1,591
Holiday accruals	2,149	1,909
Variable pay	339	301
Prepaid amount	2,898	2,868
Accruals other costs	4,627	4,506
Accruals external staf	3,220	2,569
Lease liabilities	2,961	2,904
	17,727	16,648

## CONTINGENT LIABILITIES

### Fiscal unity

The company constitutes a fiscal unity for corporate income tax and VAT with all subsidiaries in the Netherlands; consequently the company is severally liable for the resulting debts.

### Claims

Various claims have been filed against the company and/or group companies, which are disputed by the company and/or group companies. Although the outcome of these disputes cannot be predicted with certainty, it is assumed, partly on the basis of legal advice obtained, that these will not have a significant adverse effect on the consolidated financial position.

### Long-term financial obligations

#### Servers

	12-31-2024	12-31-2023
	x €1,000	x €1,000
Less than one year	74	74
One to five years	129	203
	203	277

### Other long-term financial obligations

	12-31-2024	12-31-2023
	x €1,000	x €1,000
Less than one year	5,341	4,241
One to five years	8,487	4,833
	13,828	9,074

### Other long term financial obligations

This mainly relates to the multi-year contract with respect to software support and facility management in our office in Amersfoort, the Netherlands.

## Financial instruments

### General

Details provided in this note are intended to facilitate estimation of the scope of risks involved in financial instruments, both financial instruments recognised on the balance sheet and off-balance sheet financial instruments.

The company's financial instruments are used to finance the group's operational activities or ensue directly from these activities. The company is risk averse and as a result of this only residual operational risks in the category low are accepted. Stater is convinced that the quality and continuity of our services are extremely important. On a regular base, risk items are discussed in the Operational Risk Committee. Plans to mitigate are in place and are being monitored. Updates are discussed in the Risk Committee as well.

Generally, the risks involved in financial instruments are credit risk, currency risk, liquidity risk, cash flow risk, and price risk consisting of interest and market risk. The group's risk mitigation policy is as follows:

### Market risk

Stater does not engage in financial instrument trading. The management estimates market risk to be very limited for Stater.

### Credit risk

The company predominantly does business with high-net-worth customers and has defined credit rating procedures. The group has furthermore articulated guidelines to limit the credit risk it is exposed to with each party. Aside from that, the group continuously monitors its receivables and has a strict reminder procedure in place. The above measures have reduced the credit risk for the group to a minimum. The number of write-offs is very low. Management estimates the credit risk on these parties to be low.

### Liquidity risk and cash flow risk

The company has a healthy cash position and is able to finance current investments from operating cash flow.

### Fair value

A separate calculation with the fair values has not been included, because most of the assets and liabilities are current, and for the ones that are long-term the fair value does not differ substantially.

## 6 NOTES TO THE CONSOLIDATED PROFIT AND LOSS ACCOUNT FOR THE YEAR 2024

### 10. Net turnover

	2024 x €1,000	2023 x €1,000
<b>Business segments</b>		
Mortgage processing	137,706	132,809
Projects	17,304	17,185
Other	17,773	16,239
	<u>172,783</u>	<u>166,233</u>
<b>Geographical segments</b>		
The Netherlands	147,988	141,948
Belgium	23,940	24,067
Germany	855	218
	<u>172,783</u>	<u>166,233</u>

### 11. Cost of subcontracted work and other external charges

Total cost of subcontracted work	45,043	34,814
Capitalized expenses	-8,511	-2,224
	<u>36,532</u>	<u>32,590</u>

### 12. Wages and salaries

Salaries and wages	77,533	73,093
Capitalized expenses	-9,565	-1,389
Other	4,660	4,555
	<u>72,628</u>	<u>76,259</u>

### Emoluments of directors and supervisory directors

The emoluments which were charged in 2024 amount to € 2,548,000 (2023: € 2,185,000) for (former) Management Board members. This includes the emolument for the statutory directors € 1.164,000 (2023: € 1.047,000). The part of the statutory directors was not separately disclosed in the financial statements 2023, this is a material error based on DAS 150.204. For the supervisory directors the emoluments were € 100,000 (2023: € 82,000).

## Staff

The average number of employees in 2024 was 990 FTEs (2023: 974 FTEs).

	2024	2023
<b>The breakdown is as follows (FTEs):</b>		
the Netherlands	836	809
Belgium	142	159
Germany	12	6
	990	974

	2024 x €1,000	2023 x €1,000
<b>13. Amortisation and depreciation</b>		
Intangible fixed assets	6,820	5,669
Tangible fixed assets	6,154	5,956
Loss on disposals	187	40
	13,161	11,665

<b>14. Impairment of fixed assets</b>		
Internally developed software	0	307

<b>15. Other operating expenses</b>		
Housing	1,751	1,874
Office expenses	3,894	4,412
IT costs	12,439	11,372
VAT (non-refundable portion)	34	-21
Marketing & Communication	384	392
Third party costs	1,548	2,395
Other operating costs	1,251	1,486
Capitalized expenses	-1,342	0
	19,959	21,910

Fees audit firm:  
2024

	Auditors x €1,000	Other network x €1,000	Total network x €1,000
Audit of the annual accounts	110	23	133
Other audit engagements	506	135	641
Tax advisory services	-	-	-
Other non-audit services	-	50	50
	616	208	824

2023

	76,571	7,971	78,051	8,650

Sale and purchase transactions between related parties are conducted at normal market prices.

The transactions with related parties 1 and 3 relate to the supply of personnel for IT and Operations. Related party 2 refers to the loan as disclosed on page 29.

The deliveries to related party 6 relate to the care and support of the entire mortgage process.

Infosys Limited is head of the group of related parties 1,2,3 and 4. Since May 23, 2019 related party 2 has held 75% of the shares of Stater N.V. (2023: 75%).

ABN AMRO Bank N.V. is head of the group of several related parties 5,6 and 7 holds a 25% stake since May 23, 2019 in Stater N.V. ( 2023:25%).

## 7 NOTES TO THE CONSOLIDATED CASH FLOW STATEMENT 2024

### Notes to the cash flow statement

The cash flow statement is drawn up using the indirect method. Cash and cash equivalents recognised in the cash flow statement consist of liquid assets. Interest income and expenses, dividend received, and income tax are recognised in the cash flow from operating activities. Dividend paid is recognised under cash flow from financing activities.

### Composition of cash and cash equivalents

	2024 x €1,000	2023 x €1,000
Compilation cash at January 1	11,241	16,256
Movement of cash and cash equivalents	6,834	-5,015
Cash and cash equivalents December 31	18,075	11,241

## 8 OTHER DISCLOSURE

### **Subsequent events**

#### Additional sales contract

On 20 February 2025, Stater Nederland B.V. and a new client signed a long-term contract. Given the extension of services and duration, the new long-term contract significantly contributes to the revenues and operating result of Stater, starting from the date the full migration of its mortgage portfolio to the Stater platform is completed, which is expected in 2026.

### **Appropriation of the result for the 2023 financial year**

The annual accounts for 2023 were adopted by the General Meeting held on April 25, 2024. The General Meeting has determined the appropriation of the result as it was proposed.

## 23. Equity

### Issued share capital

The statutory share capital amounts to 10,000,000 shares of € 1 each.

Subscribed and paid up 4,696,084 ordinary shares at par value € 1

The shareholders of the company are as follows (voting and dividend):

- 75% Infosys Consulting Pte. Ltd.
- 25% ABN AMRO Bank N.V.

In 2023, the shareholders decided to repurchase shares for an amount of € 8,000,000. Following the valuation by external party, reviewed by the shareholders and Stater, this corresponds to 153,592 shares. These shares have been acquired from both shareholders in the existing ratio 75:25. Payment was made in October 2023 and charged to the other reserves.

On 27 December 2023, the resolution to cancel the shares was filed. After completing the two months opposition period, Stater transferred the € 8,000,000 from the other reserves to issued share capital (€ 153,592) and share premium reserve (€ 7,846,408) on February 28, 2024.

Carrying amount as of December 31	<u>4,793</u>	<u>853</u>

Proposed appropriation of profit

The annual accounts for 2023 were adopted by the General Meeting held on April 25, 2024. The General Meeting has determined the appropriation of the result as it was proposed. So the result after tax for 2023 € 853,000 was added to the other reserves.

Proposed appropriation of profit

It is proposed to the General Meeting that the result after taxes for 2024 will be added to the other reserves.

## 24. Provisions

### Deferred tax liability

This provision concerns the temporary differences between the valuation in the annual accounts and the tax valuation of assets and liabilities. The provision is calculated based on the applicable tax rate.

	2024 x €1,000	2023 x €1,000
Carrying amount as of January 1	5,780	5,910
Allocation	4,502	1,946
Withdrawal	-1,445	-1,165
deferred tax assets	-1,119	-911
Carrying amount as of December 31	7,718	5,780

The increase of the deferred tax liability is a result of the investments in internally developed software. For tax purposes these investments are operating expenses.

The deferred tax liabilities has a predominantly long-term character: € 6,582,000 (2023 € 4,439,000).

### Other long-term employee benefits

Carrying amount as of January 1	4,391	4,275
Allocation	953	608
Withdrawal	-560	-492
Carrying amount as of December 31	4,784	4,391

The provision for other long-term employee benefits has a predominantly long-term character:  
€ 4,140,000 (2023: € 3,864,000)

	12-31-2024	12-31-2023
<b>Key assumptions used:</b>		
Discount rate	3,20%/3,25%	3,25%
Expected rate of salary increase	2%	2%
Average age current employees	45,1	44,7

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>25. Long-term liabilities</b>		
Lease liabilities	7,715	10,506
Loans from group companies	4,000	4,000
	<u>11,715</u>	<u>14,506</u>

#### Lease liabilities

	2024	2023
	x €1,000	x €1,000
<b>Lease liabilities</b>		
Carrying amount as of January 1	10,506	12,870
Funds withdrawn	604	993
Interest added	150	230
Repayment	-3,545	-3,587
Long-term part as at December 31	<u>7,715</u>	<u>10,506</u>

The lease liabilities include the present value of lease payments not paid at December 31. The incremental borrowing rate is used as discount rate. The current portion of the lease debts is presented as current liabilities.

The table below provides details regarding the contractual maturities of lease liabilities as of December 31 on an undiscounted basis:

	12-31-2024	12-31-2023
	x €1,000	x €1,000
<b>Particulars</b>		
Less than one year	2,687	2,640
One to five years	7,804	9,847
More than five years	0	835
Total	<u>10,491</u>	<u>13,322</u>

**Stater Belgium N.V./S.A.**

	2024 x €1,000	2023 x €1,000
Carrying amount as of January 1	4,000	0
New loan	0	4,000
Long-term part as at December 31	4,000	4,000

The loan between Stater N.V. and Stater Belgium N.V./S.A. was granted on 26 October 2023 for a term of 5 years.

The principal amount of the loan (including interest) is repayable on demand of Stater Belgium N.V./S.A. (in full or in parts) at any time by giving a 15 days' prior notice, without Stater Belgium N.V./S.A. being obliged to pay any compensation.

An interest rate of 4.41% has been calculated.

**26. Current liabilities, accruals and deferred income**

	12-31-2024 x €1,000	12-31-2023 x €1,000
<b>Taxes and social securities</b>		
Payroll tax	5,008	4,765
<b>Accruals and deferred income</b>

## OTHER INFORMATION

### **1 Provisions of the Articles of Association relating to profit appropriation**

The general meeting is authorized to appropriate the profits as appearing from the adopted annual accounts, or a part thereof, and to resolve to make distributions. The general meeting is also authorised to resolve to make an interim distribution, including distributions from the reserves (article 24 of the Articles of Association)).

The company may only make distributions to its shareholders (i) to the extent that the company's equity exceeds the sum of the paid-up and called-up part of the share capital of the company and any reserves which the company is obliged to maintain pursuant to the law, and (ii) after the management board granted its approval. The management board may only approve a resolution of the general meeting to make a distribution if the requirement under (i) is met according to interim accounts which are prepared with due observance of the relevant regulations and if it is not aware nor should reasonably foresee that after such distribution the company will become unable to continue to settle its payable debts.

Notwithstanding the provisions, distributions out of the share premium reserve A or share premium reserve B respectively shall be made pro rata to the number of shares class A or the number of shares class B held by the respective shareholders.

### **2 Appropriation of the result for the 2023 financial year**

The annual accounts for 2023 were adopted by the General Meeting held on April 25, 2024. The General Meeting has determined the appropriation of the result as it was proposed.

### 3 INDEPENDENT AUDITOR'S REPORT

## REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS 2024 INCLUDED IN THE ANNUAL ACCOUNTS

To: The shareholders and the Supervisory Board of Stater N.V.

### Our opinion

We have audited the financial statements 2024 of Stater N.V., based in Amersfoort.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Stater N.V. as at 31 December 2024, and of its result for 2024 in accordance with Part 9 of Book 2 of the Dutch Civil Code.

The financial statements comprise:

1. The consolidated and company balance sheet as at 31 December 2024.
2. The consolidated and company profit and loss account for 2024.
3. The consolidated cash flow statement for 2024
4. The notes comprising a summary of the accounting policies and other explanatory information

### Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the 'Our responsibilities for the audit of the financial statements' section of our report.

We are independent of Stater N.V. in accordance with the Wet toezicht accountantsorganisaties (Wta, Audit firms supervision act), the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore, we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics for Professional Accountants).

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Information in support of our opinion

We designed our audit procedures in the context of our audit of the financial statements as a whole and in forming our opinion thereon. The following information in support of our opinion was addressed in this context, and we do not provide a separate opinion or conclusion on these matters.

### Audit approach fraud risks

We identified and assessed the risks of material misstatements of the financial statements due to fraud. During our audit we obtained an understanding of the entity and its environment and the components of the system of internal control, including the risk assessment process and management's process for responding to the risks of fraud and monitoring the system of internal control and how the Supervisory Board exercises oversight, as well as the outcomes.

We evaluated the design and relevant aspects of the system of internal control and in particular the strategic (fraud) risk assessment, as well as among others the annual fraud report, risk taxonomy report, the code of conduct and whistle blower procedures. We evaluated the design and the implementation and, where considered appropriate, tested the operating effectiveness, of internal controls designed to mitigate fraud risks.

As part of our process of identifying fraud risks, we evaluated fraud risk factors with respect to financial reporting fraud, misappropriation of assets and bribery and corruption. We evaluated whether these factors indicate that a risk of material misstatement due to fraud is present.

We identified the following fraud risks and performed the following specific procedures:

Following these procedures and the presumed fraud risks under the prevailing audit standards, we considered management override of controls as a fraud risk during

our audit. Our audit procedures to respond to this fraud risk include, amongst others, an evaluation of relevant internal controls and supplementary audit procedures, including journal entry testing. Data analytics, including analyses of high-risk journals, are part of our audit approach to address fraud risks, which could have a material impact on the financial statements.

Our second presumed fraud risk is pinpointed to manual intervention in the mortgage processing revenue recognition. Our audit procedures to respond to this fraud risk include, amongst others, performing analytical procedures with the help of data analytics, detailed testing of manual entries to mortgage processing revenue, including analysis of contractual agreements, review of invoiced amounts and bank payments received.

Further, we performed procedures including the following: We incorporated elements of unpredictability in our audit. We also considered the outcome of our other audit procedures and evaluated whether any findings were indicative of fraud or non-compliance. We considered available information and made enquiries of relevant executives and the Supervisory Board.

We tested the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements.

We evaluated whether the selection and application of accounting policies by the entity, particularly those related to subjective measurements and complex transactions, may be indicative of fraudulent financial reporting. We evaluated whether the judgments and decisions made by management in making the accounting estimates included in the financial statements indicate a possible bias that may represent a risk of material misstatement due to fraud. Management insights, estimates and assumptions that might have a major impact on the financial statements are disclosed in chapter 'Estimates' of the financial statements. We performed a retrospective review of management judgments and assumptions related to significant accounting estimates reflected in prior year financial statements. Testing indications of impairment of intangible and fixed assets is a significant area to our audit as the determination whether these assets are not carried at more than their recoverable amounts is subject to significant management judgment.

For significant transactions such as capitalizing expenses and processing of contracts with new clients. We evaluated whether the business rationale of the transactions suggests that they may have been entered into to engage in fraudulent financial reporting or to conceal misappropriation of assets.

This did not lead to indications for fraud potentially resulting in material misstatements.

### **Audit approach compliance with laws and regulations**

We assessed the laws and regulations relevant to the entity through discussion with management, reading minutes and reports of internal audit.

As a result of our risk assessment procedures, and while realizing that the effects from non-compliance could considerably vary, we considered the following laws and regulations: (corporate) tax law and the requirements under Part 9 of Book 2 of the Dutch Civil Code with a direct effect on the financial statements as an integrated part of our audit procedures, to the extent material for the financial statements.

We obtained sufficient appropriate audit evidence regarding provisions of those laws and regulations generally recognized to have a direct effect on the financial statements.

Apart from these, Stater N.V. is subject to other laws and regulations where the consequences of non-compliance could have a material effect on amounts and/or disclosures in the financial statements, for instance, through imposing fines or litigation.

Given the nature of Stater N.V.'s business and the complexity of these other laws and regulations, there is a risk of non-compliance with the requirements of such laws and regulations.

Our procedures are more limited with respect to these laws and regulations that do not have a direct effect on the determination of the amounts and disclosures in the financial statements. Compliance with these laws and regulations may be fundamental to the operating aspects of the business, to Stater N.V.'s ability to continue its business, or to avoid material penalties (e.g., compliance with the terms of operating licenses and permits or compliance with environmental regulations) and therefore

non-compliance with such laws and regulations may have a material effect on the financial statements. Our responsibility is limited to undertaking specified audit procedures to help identify non-compliance with those laws and regulations that may have a material effect on the financial statements. Our procedures are limited to (i) inquiry of management, those charged with governance, the executive board and others within Stater N.V. as to whether Stater N.V. is in compliance with such laws and regulations and (ii) inspecting correspondence, if any, with the relevant licensing or regulatory authorities to help identify non-compliance with those laws and regulations that may have a material effect on the financial statements.

Naturally, we remained alert to indications of (suspected) non-compliance throughout the audit.

Finally, we obtained written representations that all known instances of (suspected) fraud or non-compliance with laws and regulations have been disclosed to us.

#### **Audit approach going concern**

Our responsibilities, as well as the responsibilities of the Management Board and the Supervisory Board, related to going concern under the prevailing standards, are outlined in the 'Description of responsibilities regarding the financial statements' section below. In fulfilling our responsibilities, we performed procedures including evaluating the Board of Directors' assessment of Stater's ability to continue as a going concern:

We have assessed whether the Board of Directors' continuity assessment includes all pertinent information that we are cognizant of, as a consequence of our audit, and have made inquiries to the Board of Directors concerning the most significant assumptions. We have evaluated the budgeted operating results and related cash flows for the period of 12-months from the date of preparation of the annual accounts, taking into account the developments in the industry and our knowledge obtained from the audit.

We have analysed whether the current and necessary financing to sustain all business activities is ensured, including compliance with relevant covenants.

We held inquiries with the Board or Directors about its knowledge of going concern risks after the period of the continuity assessment performed by the Board or Directors and considering the impact of financial, operational, and other conditions.

Based on these procedures, we did not identify any reportable finding related to the entity's ability to continue as a going concern.

#### **Report on the other information included in the annual accounts**

The annual accounts contain other information, in addition to the financial statements and our auditor's report thereon. The other information consists of:

- The management report.
- Other information as required by Part 9 of Book 2 of the Dutch Civil Code.
- Based on the following procedures performed, we conclude that the other information:
  - Is consistent with the financial statements and does not contain material misstatements.
  - Contains all the information regarding the management report and the other information as required by Part 9 of Book 2 of the Dutch Civil Code.

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements.

By performing these procedures, we comply with the requirements of Part 9 of Book 2 of the Dutch Civil Code and the Dutch Standard 720. The scope of the procedures performed is substantially less than the scope of those performed in our audit of the financial statements.

Management is responsible for the preparation of the other information, including the management report in accordance with Part 9 of Book 2 of the Dutch Civil Code, and the other information as required by Part 9 of Book 2 of the Dutch Civil Code.

## Description of responsibilities regarding the financial statements

### Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Part 9 of Book 2 of the Dutch Civil Code. Furthermore, management is responsible for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

As part of the preparation of the financial statements, management is responsible for assessing the company's ability to continue as a going concern. Based on the financial reporting framework mentioned, management should prepare the financial statements using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Management should disclose events and circumstances that may cast significant doubt on the company's ability to continue as a going concern in the financial statements.

The Supervisory Board is responsible for overseeing the company's financial reporting process.

### Our responsibilities for the audit of the financial statements

Our objective is to plan and perform the audit engagement in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not detect all material misstatements, whether due to fraud or error, during our audit.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. The materiality affects the nature,

timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgment and have maintained professional scepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements. Our audit included among others:

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Concluding on the appropriateness of management's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures.
- Evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Because we are ultimately responsible for the opinion, we are also responsible for directing, supervising and performing the group audit. In this respect we have determined the nature and extent of the audit procedures to be carried out for group entities. Decisive were the size and/or the risk profile of the group entities or operations. On this basis, we selected group entities for which an audit or review had to be carried out on the complete set of financial information or specific items.

We communicate with the Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identified during our audit.

Amsterdam, 23 April 2025  
Deloitte Accountants B.V.

## Safe Harbor

This Annual Report contains ‘forward-looking statements’ within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally relate to future events or our future financial or operating performance and are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as ‘anticipate’, ‘believe’, ‘estimate’, ‘expect’, ‘intend’, ‘will’, ‘project’, ‘seek’, ‘should’ and similar expressions. These statements are subject to substantial known and unknown risks, uncertainties and other factors, which may cause actual results or outcomes to differ materially from those implied by the forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties relating to the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geopolitical situations, technological disruption and innovations such as generative AI, complex and evolving regulatory landscape, including immigration regulation changes, ESG vision, our Capital Allocation Policy and expectations concerning our market position, future operations, margins, profitability, liquidity, capital resources and corporate actions including acquisitions, and the amount of any additional costs, resulting directly or indirectly from the McCamish cybersecurity incident. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in the “Outlook, risks and concerns” and Risk management report sections in this Annual Report and are discussed in detail in our Form 20-F filed with the U.S. Securities and Exchange Commission. In the light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. All forward-looking statements included in this Annual Report are based on information and estimates available to us on the date hereof, and we do not undertake any obligation to update these forward-looking statements unless required to do so by law.
