

CONSOLIDATED FINANCIAL STATEMENTS OF INFOSYS TECHNOLOGIES LIMITED AND SUBSIDIARIES

Schedules to the Consolidated Financial Statements for the year ended March 31, 2008

24. Significant accounting policies and notes on accounts

Company overview

Infosys Technologies Limited ("Infosys" or "the company") along with its majority owned and controlled subsidiary, Infosys BPO Limited, India ("Infosys BPO") formerly known as Progeon Limited and wholly owned subsidiaries, Infosys Technologies (Australia) Pty. Limited ("Infosys Australia"), Infosys Technologies (China) Co. Limited ("Infosys China") formerly known as Infosys Technologies (Shanghai) Co. Limited, Infosys Consulting, Inc., USA ("Infosys Consulting") and Infosys Technologies S. DE R.L. de C.V. ("Infosys Mexico") is a leading global technology services organisation. The group of companies ("the Group") provide end-to-end business solutions that leverage technology thereby enabling its clients to enhance business performance. The Group's operations are to provide solutions that span the entire software life cycle encompassing technical consulting, design, development, re-engineering, maintenance, systems integration and package evaluation and implementation, testing and infrastructure management services. In addition, the Group offers software products for the banking industry, business consulting and business process management services.

24.1 Significant accounting policies

24.1.1 Basis of preparation of financial statements

The financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles ("GAAP") under the historical cost convention on the accruals basis. GAAP comprises mandatory accounting standards as specified in the Companies (Accounting Standards) Rules, 2006 and guidelines issued by the Securities and Exchange Board of India. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Management evaluates all recently issued or revised accounting standards on an on-going basis.

Pursuant to Institute of Chartered Accountants of India (ICAI) Announcement "Accounting for Derivatives" on the early adoption of Accounting Standard AS 30 "Financial Instruments: Recognition and Measurement", the Company has early adopted the Standard for the year under review, to the extent that the adoption does not conflict with existing mandatory accounting standards and other authoritative pronouncements, Company law and other regulatory requirements.

The financial statements are prepared in accordance with the principles and procedures required for the preparation and presentation of consolidated financial statements as laid down under the accounting standard on Consolidated Financial Statements as specified in the Companies (Accounting Standards) Rules, 2006. The financial statements of Infosys - the parent company, Infosys BPO, Infosys China, Infosys Australia, Infosys Mexico and Infosys Consulting have been combined on a line-by-line basis by adding together book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances and transactions and resulting unrealized gain/loss. The consolidated financial statements are prepared by applying uniform accounting policies in use at the Group. Minority interests have been excluded. Minority interests represent that part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company. Exchange difference resulting from the difference due to translation of foreign currency assets and liabilities in subsidiaries is disclosed as foreign currency translation reserve.

24.1.2 Use of estimates

The preparation of the financial statements in conformity with GAAP requires Management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed assets and intangible assets.

Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net sales price or present value as determined above. Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Where no reliable estimate can be made, a disclosure is made as contingent liability. Actual results could differ from those estimates.

24.1.3 Revenue recognition

Revenue from software development and business process management on fixed-price, fixed-time frame contracts, where there is no uncertainty as to measurement or collectability of consideration is recognized as per the percentage of completion method. On time-and-materials contracts, revenue is recognized as the related services are rendered. Cost and earnings in excess of billings are classified as unbilled revenue while billing in excess of cost and earnings is classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates. Annual Technical Services revenue and revenue from fixed-price maintenance contracts are recognized proportionately over the period in which services are rendered. Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in case of multiple element contracts requiring significant implementation services, where revenue is recognized as per the percentage of completion method.

Profit on sale of investments is recorded on transfer of title from the company and is determined as the difference between the sales price and the then carrying value of the investment. Interest is recognized using the time-proportion method, based on rates implicit in the transaction. Dividend income is recognized when the company's right to receive dividend is established.

24.1.4 Expenditure

The cost of software purchased for use in software development and services is charged to cost of revenues in the year of acquisition. Charges relating to non-cancelable, long-term operating leases are computed primarily on the basis of the lease rentals, payable as per the relevant lease agreements. Post-sales customer support costs are estimated by management, determined on the basis of past experience. The costs provided for are carried until expiry of the related warranty period. Provisions are made for all known losses and liabilities. Leave encashment liability is determined on the basis of an actuarial valuation.

24.1.5 Fixed assets, including goodwill, intangible assets and capital work-in-progress

Fixed assets are stated at cost, less accumulated depreciation. Direct costs are capitalised until fixed assets are ready for use. Capital work-in-progress comprises outstanding advances paid to acquire fixed assets and the cost of fixed assets that are not yet ready for their intended use at the balance sheet date. Intangible assets are recorded at the consideration paid for acquisition. Goodwill comprises the excess of purchase consideration over the fair value of the net assets of the acquired enterprise. Impairment of goodwill is evaluated annually, unless indications require a more frequent evaluation. Impairment is recorded in the profit and loss account to the extent the net discounted cashflows from the continuance of the acquisition are lower than its carrying value.

24.1.6 Depreciation and amortization

Depreciation on fixed assets is applied on the straight-line method based on useful lives of assets as estimated by the Management. Depreciation for assets purchased/sold during the period is proportionately charged. Individual low cost assets (acquired for less than Rs. 5,000/-) are depreciated within a year of acquisition. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the company for its use. Leasehold improvements are written off over the lower of the remaining primary period of lease or the life of the asset. Management estimates the useful lives for the other fixed assets as follows:

Buildings	15 years
Plant and machinery	5 years
Computer equipment	2-5 years
Furniture and fixtures	5 years
Vehicles	5 years

24.1.7 Retirement benefits to employees

24.1.7.a Gratuity

Infosys provides for gratuity, a defined benefit retirement plan (the "Gratuity Plan") covering eligible employees at the company and Infosys BPO. In accordance with the Payment of Gratuity Act, 1972, the Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation as at the balance sheet date and as per gratuity regulations for Infosys and Infosys BPO respectively. Infosys fully contributes all ascertained liabilities to the Infosys Technologies Limited Employees' Gratuity Fund Trust (the "Trust"). Infosys BPO fully contributes all ascertained liabilities to the Infosys BPO Employees' Gratuity Fund Trust. Trustees administer contributions made to the Trust and contributions are invested in specific investments, as permitted by law.

24.1.7.b Superannuation

Certain employees of Infosys are also participants in a defined contribution plan. Until March 2005, the company made contributions under the superannuation plan (the Plan) to the Infosys Technologies Limited Employees' Superannuation Fund Trust. The company had no further obligations to the Plan beyond its monthly contributions. Certain employees of Infosys BPO were also eligible for superannuation benefit. Infosys BPO made monthly provisions under the superannuation plan based on a specified percentage of each covered employee's salary. Infosys BPO had no further obligations to the superannuation plan beyond its monthly provisions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India. From April 1 2005, a portion of the monthly contribution amount was paid directly to the employees as an allowance and the balance amount was contributed to the trust.

24.1.7.c Provident fund

Eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The company contributes a part of the contributions to the Infosys Technologies Limited Employees' Provident Fund Trust. The remaining contributions are made to government administered provident fund. The interest rate payable by the trust to the beneficiaries every year is being administered by the government. The company has an obligation to make good the short fall, if any, between the return from its investments and the administered interest rate.

In respect of Infosys BPO, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and Infosys BPO make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. Infosys BPO has no further obligations under the provident fund plan beyond its monthly contributions.

24.1.8 Research and development

Revenue expenditure incurred on research and development is expensed as incurred. Capital expenditure incurred on research and development is depreciated over the estimated useful lives of the related assets.

24.1.9 Foreign currency transactions

Revenue from overseas clients and collections deposited in foreign currency bank accounts are recorded at the exchange rate as of the date of the respective transactions. Expenditure in foreign currency is accounted at the exchange rate prevalent when such expenditure is incurred. Disbursements made out of foreign currency bank accounts are reported at the daily rates. Exchange differences are recorded when the amount actually received on sales or actually paid when expenditure is incurred is converted into Indian Rupees. The exchange differences arising on foreign currency transactions are recognized as income or expense in the period in which they arise.

Fixed assets purchased at overseas offices are recorded at cost, based on the exchange rate as of the date of purchase. The charge for depreciation is determined as per the Group's accounting policy. Monetary current assets and monetary current liabilities denominated in foreign currency are translated at the exchange rate prevalent at the date of the balance sheet. The resulting difference is also recorded in the profit and loss account. The translation of financial statements of the foreign subsidiaries from the local currency to the functional currency of the company is performed for balance sheet accounts using the exchange rate in effect at the balance sheet date and for revenue, expense and cash-flow items using a monthly average exchange rate for the respective periods and the resulting difference is presented as foreign currency translation reserve included in "Reserves and Surplus"

24.1.10 Forward contracts and options in foreign currencies

The company uses foreign exchange forward contracts and options to hedge its exposure to movements in foreign exchange rates. The use of these foreign exchange forward contracts and options reduces the risk or cost to the company and the company does not use the foreign exchange forward contracts or options for trading or speculation purposes.

The company records the gain or loss on effective hedges in the foreign currency fluctuation reserve until the transactions are complete. On completion, the gain or loss is transferred to the profit and loss account of that period. To designate a forward contract and option as an effective hedge, management objectively evaluates and evidences with appropriate supporting documents at the inception of each contract whether the contract is effective in achieving offsetting cash flows attributable to the hedged risk. In the absence of a designation as effective hedge, a gain or loss is recognized in the profit and loss account.

24.1.11 Income tax

Income taxes are computed using the tax effect accounting method, where taxes are accrued in the same period the related revenue and expenses arise. A provision is made for income tax annually based on the tax liability computed after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. Minimum alternate tax (MAT) paid in accordance to the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay normal tax after the tax holiday period. Accordingly, it is recognized as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the company and the asset can be measured reliably.

The differences that result between the profit offered for income taxes and the profit as per the financial statements are identified and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on prevailing enacted or substantially enacted regulations. Deferred tax assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate applicable for the full fiscal year for each of the consolidated entities. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full fiscal year. Tax benefits of deductions earned on exercise of employee stock options in excess of compensation charged to profit and loss account are credited to the share premium account

24.1.12 Earnings per share

In determining earnings per share, the Group considers the net profit after tax and includes the post-tax effect of any extra-ordinary/exceptional item. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share, and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. the average market value of the outstanding shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. The number of shares and potentially dilutive equity shares are adjusted for any stock splits and bonus shares issues effected prior to the approval of the financial statements by the Board of Directors.

24.1.13 Investments

Trade investments are the investments made to enhance the Group's business interests. Investments are either classified as current or long-term based on Management's intention at the time of purchase. Current investments are carried at the lower of cost and fair value. Cost for overseas investments comprises the Indian Rupee value of the consideration paid for the investment. Long-term investments are carried at cost and provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

24.1.14 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Group are segregated.

24.1.15 Onerous contracts

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

24.2 Notes on accounts

Amounts in the financial statements are presented in Rupees crore, except for per share data and as otherwise stated. Certain amounts do not appear due to rounding off, and are detailed in note 24.3. All exact amounts are stated with the suffix “/-”. One crore equals 10 million.

The previous period/ year figures have been regrouped / reclassified, wherever necessary to conform to the current presentation.

* Claims against the company not acknowledged as debts include demand from the Indian tax authorities for payment of additional tax of Rs 98 crore (Rs 234 crore), including interest of Rs 18 crore (Rs 51 crore) upon completion of their tax review for fiscal 2004. The tax demand is mainly on account of disallowance of a portion of the deduction claimed by the company under Section 10A of the Income tax Act. The deductible amount is determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. The matter is pending before the Commissioner of Income tax (Appeals) Bangalore.

The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

24.2.3 Obligations on long-term, non-cancelable operating leases

The lease rentals charged for the year ended March 31, 2008 and 2007 and maximum obligations on long-term non-cancelable operating leases payable as per the rentals stated in the respective agreements:-

The aggregate options considered for dilution are set out in note 24.2.17

Infosys BPO's 2002 Plan

Infosys BPO's 2002 Plan provides for the grant of stock options to employees of Infosys BPO and was approved by the Board of Directors and stockholders in June 2002. All options under the 2002 Plan are exercisable for equity shares. The 2002 Plan is administered by a Compensation Committee comprising three members, all of whom are directors of Infosys BPO. The 2002 Plan provides for the issue of 52,50,000 equity shares to employees, at an exercise price, which shall not be less than the Fair Market Value ("FMV") on the date of grant. Options may also be issued to employees at exercise prices that are less than FMV only if specifically approved by the members of the company in general meeting. The options issued under the 2002 Plan vest in periods ranging between one through six years, although accelerated vesting based on performance conditions is provided in certain instances.

Proforma Accounting for Stock Option Grants

Guidance note on "Accounting for employee share based payments" issued by Institute of Chartered Accountants of India establishes financial accounting and reporting principles for employee share based payment plans. The guidance note applies to employee share based payment plans, the grant date in respect of which falls on or after April 1, 2005.

As allowed by guidance note, Infosys has elected to continue to apply the intrinsic value-based method of accounting described above, and has adopted the disclosure requirements of guidance note "Accounting of employee share based premiums". Had the compensation cost for Infosys's stock-based compensation plan been determined in a manner consistent with the fair value approach described in guidance note, the Company's net Income and basic and diluted earnings per share as reported would have reduced to the proforma amounts as indicated:-

Particulars	Year ended March 31,	
	2008	2007
Net Profit:		
As Reported	4,659	3,856
Less: Stock-based employee compensation expense	13	12
Adjusted Proforma	<u>4,646</u>	<u>3,844</u>

Proforma Basic Earnings per share	81.31	69.00
Diluted Earnings per share as reported	81.26	67.70
Proforma Earnings per share as reported	81.04	67.49

The Fair value of each option under the Infosys BPO Employee Stock Option Plan is estimated on the date of grant using the Black-Scholes model with the following assumptions:

Particulars	Year ended	
	2008	March 31, 2007
Dividend yield %	-	-
Expected life	-	1-6 years
Risk free interest rate	-	7.6 - 8.1%
Volatility	-	50%

The Fair Value of each option under the Infosys 1999 Employee Stock Option Plan is estimated on the date of grant using the Black-Scholes model with the following assumptions:

Particulars	Year ended	
	2008	March 31, 2007
Dividend yield %	-	0.20%
Expected life	-	2-6 years
Risk free interest rate	-	7 - 7.3%
Volatility	-	34 - 54%

The Finance Act, 2007 included Fringe Benefit Tax ("FBT") on Employee Stock Option's Plan (ESOPs). FBT liability crystallizes on the date of exercise of stock options. During the year ended March 31, 2008, 7,85,896 equity shares were issued pursuant to the exercise of stock options by employees under both the 1998 and 1999 stock option plans. During the year ended 31 March 2008, FBT on exercise of stock options of Rs. 2 crore has been paid by the Company and subsequently recovered from the employees. Consequently, there is no impact on the Profit and loss account.

24.2.8 Income taxes

The provision for taxation is the tax liability in India on the company's worldwide income. The tax has been computed on the worldwide income as reduced by exempt income in India and related tax credit in India for tax liabilities arising on overseas income sourced from those countries.

Most of the company's and all of Infosys BPO's operations are conducted through Software Technology Parks ("STPs"). Income from STPs are tax exempt for the earlier of 10 years commencing from the fiscal year in which the unit commences software development or March 31, 2009.

Infosys also has operations in a Special Economic Zone ("SEZ's"). Income from SEZs are fully tax exempt for the first 5 years, 50% exempt for the next 5 years and 50% exempt for another 5 years subject to fulfilling certain conditions.

Pursuant to the amendments in the Indian Income Tax Act, the company has calculated its tax liability after considering Minimum Alternate Tax (MAT). MAT liability can be carried forward and set off against the future tax liabilities. Accordingly a sum of Rs 175 crore is carried in "Loans and Advances" in the balance sheet as of March 31, 2008.

The tax provision for the year ended March 31, 2008 includes a net reversal of Rs 121 crores for liability no longer required.

On October 1, 2007, Infosys BPO acquired 100% of the equity shares of P-Financial Services Holding B.V. Netherlands and its subsidiaries. This business acquisition was conducted by entering into a Sale and Purchase Agreement with Koninklijke Philips Electronics NV (Philips), a company incorporated under the laws of Netherland, for acquiring the shared service centres of Philips for finance, accounting (F&A) and procurement business in Poland, Thailand and India (Philips BPO) for a consideration of Rs. 107 crore. The transaction was completed during the fiscal year and accounted as a business combination which resulted in a Goodwill of Rs. 83 crore.

Investment in Infosys Mexico

On June 20, 2007 the company incorporated a wholly owned subsidiary, Infosys Technologies S. DE R.L. de C.V. in Mexico ("Infosys Mexico"). As of March 31, 2008, the Company has invested an aggregate of Mexican Peso 60 million (Rs. 22 crore) in the subsidiary.

Investment in Infosys BPO

Buyback of shares and options

In January 2007, the Company initiated the purchase of all the share and outstanding options in Infosys BPO from its shareholders and option holders comprising current and former employees of Infosys BPO. The share holders were given a choice to sell their shares at fair market value and the option-holders were given the choice to sell their options and/or swap Infosys BPO options for Infosys options at a swap ratio based on fair market value.

Consequent to this proposal Infosys had paid an aggregate of Rs 71 crore for the purchase of shares and options and had granted 1,51,933 Infosys options under the 1999 plan valued at fair value of Rs 12 crore. Accordingly, the investment in Infosys BPO had increased by Rs 83 crore and reserves had increased by 12 crore in March 2007.

In February 2008, Infosys paid an aggregate of Rs 22 crore to complete the deferred purchase of 3,60,417 shares from certain employees of Infosys BPO. Consequent to this purchase, Infosys holding in Infosys BPO increased to 99.98% as at March 31, 2008.

Investment in Infosys Consulting

During the year ended March 31, 2008, the Company invested US\$ 20 million (Rs. 81 crore) in its wholly owned subsidiary Infosys Consulting, Inc. As of March 31, 2008, the Company has invested an aggregate of US\$ 40 million (Rs. 171 crore) in the subsidiary.

24.2.13. Provision for doubtful debts

Periodically, the company evaluates all customer dues to the company for collectability. The need for provisions is assessed based on various factors including collectability of specific dues, risk perceptions of the industry in which the customer operates, general economic factors, which could effect the customer's ability to settle. The company normally provides for debtor dues outstanding for 180 days or longer as at the balance sheet date. As at March 31, 2008, the company has provided for doubtful debts of Rs. 20 crore (Rs. 7 crore as at March 31, 2007) on dues from certain customers although the outstanding amounts were less than 180 days old, since the amounts were considered doubtful of recovery. The company pursues the recovery of the dues, in part or full.

24.2.14 Segment reporting

The Group's operations predominantly relate to providing end-to-end business solutions that leverage technology thereby enabling clients to enhance business performance, delivered to customers globally operating in various industry segments. Accordingly, revenues represented along industry classes comprise the primary basis of segmental information set out in these financial statements. Secondary segmental reporting is performed on the basis of the geographical location of customers.

The accounting principles consistently used in the preparation of the financial statements are also consistently applied to record income and expenditure in individual segments. These are as set out in the note on significant accounting policies.

Industry segments at the Group are primarily financial services comprising customers providing banking, finance and insurance services; manufacturing companies; companies in the telecommunications and the retail industries; and others such as utilities, transportation and logistics companies.

Income and direct expenses in relation to segments is categorized based on items that are individually identifiable to that segment, while the remainder of the costs are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying services are used interchangeably. The Group believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and directly charged against total income.

Fixed assets used in the business or liabilities contracted have not been identified to any of the reportable segments, as the fixed assets and services are used interchangeably between segments. Accordingly, no disclosure relating to total segment assets and liabilities are made.

Customer relationships are driven based on the location of the respective client. North America comprises the United States of America, Canada and Mexico; Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom; and the Rest of the World comprising all other places except, those mentioned above and India.

Geographical revenues are segregated based on the location of the customer who is invoiced or in relation to which the revenue is otherwise recognized.

24.2.16. Provisions for investments

The Company evaluates all investments for any diminution in their carrying values that is other than temporary. The company made a provision of Rs Nil crore during the year ended March 31, 2008 (Nil for the year ended March 31, 2007) on trade investments.

The company provided Rs. Nil and Rs. 1 crore during the year ended on March 31, 2008 and March 31, 2007 respectively, on revision of the carrying amount of non-trade current investments to fair value.

Redemption for preference shares

On September 7, 2007 the company realised Rs. 0.36 crore on redemption of preference shares in M - Commerce Ventures Pte Limited, Singapore ("M-commerce"). There were no such transactions in the year ended March 31, 2007. The entire investment in M-commerce was fully provided for in earlier years. Accordingly, the realised gain was taken to the profit and loss account and provision written back.

24.2.17. Reconciliation of basic and diluted shares used in computing earnings per share

	Year ended March 31,	
	2008	2007
Number of shares considered as basic weighted average shares outstanding	57,13,98,340	55,68,52,339

Number of shares considered as weighted average shares and potential shares outstanding	<u>57,33,06,887</u>	<u>56,93,42,694</u>

24.2.18 Intellectual Property Rights

Infosys was liable to pay Aeronautical Development Agency (ADA) a maximum amount of Rs. 20 crore (US \$4.4 million) by June 12, 2012 through a revenue sharing arrangement towards acquisition of Intellectual Property Rights in AUTOLAY, a commercial software application product used in designing high performance structural systems. During the quarter ended December 31, 2006, Infosys foreclosed the arrangement by paying the net present value of the future revenue share amounting to Rs. 13.5 crore (US\$ 3 million). The remainder of the liability amounting to Rs. 6.5 crore (US\$ 1.4 million) has been written back and disclosed in other income.

24.2.19 Exceptional item

During the year ended March 31, 2005 the company sold its entire investment in Yantra Corporation, USA (Yantra) for a total consideration of US \$12.57 million. An amount of Rs. 49 crore representing 90% of the consideration was received by the company and the balance amount was deposited in Escrow to indemnify any contractual contingencies. During the year ended March 31, 2007, the company received the balance amount of Rs. 5 crore on fulfillment of the Escrow obligations. Since the carrying value of the investment is Nil, the entire proceeds of Rs. 5 crore (net of taxes, as applicable) had been recognized in the profit and loss account as an exceptional item.

During the year ended March 31, 2007, the company received Rs. 1 crore from CiDRA Corporation towards redemption of shares on recapitalisation. The remainder of investment was written off against provision made earlier.

24.2.20 Gratuity Plan

Effective April 1, 2006 the company adopted the revised accounting standard on employee benefits. Pursuant to the adoption, the transitional obligations of the company amounted to Rs. 9 crore. As required by the standard, the obligation has been recorded with the transfer of Rs. 9 crore to general reserves during fiscal year ended March 31, 2007.

The following table set out the status of the gratuity plan as required under AS 15.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market.

Effective July 1, 2007, the company revised the employee death benefits provided under the gratuity plan, and included all eligible employees under a consolidated term insurance cover. Accordingly, the obligations under the gratuity plan reduced by Rs 37 crore, which is being amortised on a straight line basis to the net profit and loss account over 10 years representing the average future service period of the employees. The unamortized liability as at March 31, 2008 amounted to Rs 33 crores. Consequently to the reduction in obligation has resulted in excess Plan Assets over the Plan obligations and accordingly a gratuity asset of Rs 12 crores has been recorded in the books.

24.2.21 Provident Fund

The Guidance on Implementing AS 15, Employee Benefits (revised 2005) issued by Accounting Standards Board (ASB) states benefit involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. Pending the issuance of the guidance note from the Actuarial Society of India, the Company's actuary has expressed an inability to reliably measure provident fund liabilities. Accordingly the company is unable to exhibit the related information.

24.2.22 Cash flow statement

a. The balance of cash and cash equivalents includes Rs. 2 crore as at March 31, 2008 (Rs. 2 crore as at March 31, 2007) set aside for payment of dividends.

b. Deposits with financial institutions and body corporate as at March 31, 2008 include an amount of Rs.161 crore (Rs. 132 crore as at March 31, 2007) deposited with Life Insurance Corporation of India to settle employee benefit/ leave obligations as and when they arise during the normal course of business. This amount is considered as restricted cash and is hence not considered "cash and cash equivalents".
