### Reasons for differences in net income as per Indian GAAP and IFRS

**Share-based compensation (IFRS 2)**

Under IFRS, the company recorded share-based compensation expense using the fair value recognition provisions of IFRS 2.

**Amortization of intangible assets**

IFRS requires the purchase price in business combination transactions to be allocated to identifiable assets and liabilities, including intangibles assets. Intangible assets are amortized over the estimated useful life.
