#### 1.2 Basis of preparation of financial statements

These consolidated interim financial statements have been prepared in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS) and in accordance with IAS- 34, Interim Financial Reporting, under the historical cost convention on the accrual basis except for certain financial instruments and prepaid gratuity benefits which have been measured at fair values. These consolidated interim financial statements should be read in conjunction with the consolidated financial statements and related notes included in the company's Annual Report on Form 20-F for the fiscal year ended March 31, 2013. Accounting policies have been applied consistently to all periods presented in these unaudited consolidated interim financial statements.

#### 1.3 Changes in accounting policies

There have been no changes to our significant accounting policies disclosed in our Form 20 F for the fiscal ended March 31, 2013 apart from the ones mentioned below:

The Group has adopted the following new standards and amendments to standards, including any consequential amendments to other standards, with effect from April 1, 2013.

Amendments to IFRS 7 Financial Instruments: Disclosures \*

IFRS 10 Consolidated Financial Statements (2011) (*Refer 1.4*)

IFRS 11 Joint Arrangements\*

IFRS 12 Disclosure of Interests in Other Entities\*

IFRS 13 Fair Value Measurement

On April 1, 2013, the Group adopted, IFRS 13, "Fair Value Measurement" which establishes a single source of guidance for fair value measurement under IFRS. IFRS 13 provides a revised definition of fair value and guidance on how it should be applied where its use is already required or permitted by other standards within IFRS and introduces more comprehensive disclosure requirements on fair value measurement. There was no impact on the consolidated financial statements from the adoption of the measurement requirements of IFRS 13. The Group has provided the disclosures as required by IFRS 13 in the note "Financial Instruments" of these consolidated financial statements.

Amendments to IAS 1- Presentation of Items of Other Comprehensive Income (*Refer statement of comprehensive income*)

As a result of the amendments to IAS 1, the Group has modified the presentation of items of other comprehensive income in its consolidated statements of comprehensive income, to present separately items that would be reclassified to profit or loss in the future from those that would never be. Comparative information has also been re-presented accordingly.

The adoption of the amendment to IAS 1 has no impact on the recognized assets, liabilities and comprehensive income of the Group.

IAS 19 Employee Benefits (2011)

Amendments to IAS 32- Financial Instruments: Income taxes arising from distribution to equity holders\*

Amendments to IAS 34- Interim Financial Reporting: Segment information for total assets and liabilities\*

\* *The adoption of these standards does not have any impact on the unaudited condensed consolidated interim financial statements of the group.*

#### **1.4 Basis of consolidation**

Infosys consolidates entities which it owns or controls. As a result of IFRS 10, the Group has changed its accounting policy with respect to the basis for determining control.

Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

Previously, control existed when the Group had the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that were currently exercisable were also taken into account.

In accordance with the transitional provisions of IFRS 10 (2011), the Group reassessed the control conclusion at April 1, 2013 and has concluded that there is no change to the scope of the entities to be consolidated as a result of the adoption of IFRS 10.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

#### **1.5 Use of estimates**

The preparation of the financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 1.6. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated interim financial statements.

#### **1.6 Critical accounting estimates**

##### **a. Revenue recognition**

The company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

##### **b. Income taxes**

The company's two major tax jurisdictions are India and the U.S., though the company also files tax returns in other overseas jurisdictions. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

##### **c. Business combinations and intangible assets**

Business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

#### **1.7 Employee benefits**

##### **1.7.1 Gratuity**

Infosys provides for gratuity, a defined benefit retirement plan (the Gratuity Plan) covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). In case of Infosys BPO, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation as permitted by law.

The group has adopted Revised IAS 19 effective April 1, 2013. Pursuant to this adoption, the Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. The amended standard requires immediate recognition of the gains and losses through re-measurements of the net defined benefit liability/(asset) through other comprehensive income. Further it also requires the interest expense (income) considered in the Profit and Loss to be restricted to the discount rate based on the Government securities yield. The actual return of the portfolio, in excess of such yields is recognized through the other comprehensive income. The Revised IAS 19 also requires effect of any plan amendments to be recognized immediately through the net profits, in the statement of comprehensive income.

Previously, the actuarial gains and losses were charged or credited to net profit in the statement of comprehensive income in the period in which they arose and the expected return on plan assets computed based on market expectations were considered as part of the net gratuity cost.

The adoption of Revised IAS 19 Employee Benefits did not have a material impact on the consolidated financial statements.

### **1.7.2 Superannuation**

Certain employees of Infosys are also participants in a defined contribution plan. The company has no further obligations to the Plan beyond its monthly contributions. Certain employees of Infosys BPO are also eligible for superannuation benefit. Infosys BPO has no further obligations to the superannuation plan beyond its monthly contribution which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

### **1.7.3 Provident fund**

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The company contributes a part of the contributions to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

In respect of Infosys BPO, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the employee and Infosys BPO make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The company has no further obligation to the plan beyond its monthly contributions.

### **1.7.4 Compensated absences**

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

## **1.8 Recent accounting pronouncements**

### **1.8.1 Standards issued but not yet effective**

**IFRS 9 Financial Instruments:** In November 2009, the International Accounting Standards Board issued IFRS 9, Financial Instruments: Recognition and Measurement, to reduce the complexity of the current rules on financial instruments as mandated in IAS 39. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. IFRS 9, was further amended in October 2010, and such amendment introduced requirements on accounting for financial liabilities. This amendment addresses the issue of volatility in the profit or loss due to changes in the fair value of an entity's own debt. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the other comprehensive income. The effective date to adopt IFRS 9 is yet to be notified. The company is currently evaluating the requirements of IFRS 9, and has not yet determined the impact on the consolidated interim financial statements.

**Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities :** In December 2011, the International Accounting Standards Board issued amendments to IAS 32, Offsetting Financial Assets and Financial Liabilities. The amendments clarify that:

- an entity currently has a legally enforceable right to set-off if that right is-
  - not contingent on future event; and
  - enforceable both in the normal course of business and in the event of default, insolvency or bankruptcy of the entity and all counterparties;
- gross settlement is equivalent to net settlement if and only if the gross settlement mechanism has features that:
  - eliminate or result in insignificant credit and liquidity risk; and
  - process receivables and payables in a single settlement process or cycle.

The company is required to adopt amendments to IAS 32 by accounting year commencing April 1, 2014. The group has evaluated the requirements of IAS 32 amendments and these requirements are not expected to have a material impact on the consolidated financial statements.

During the year ended March 31, 2014 and March 31, 2013, certain assets which were not in use having gross book value of \$1 million and \$97 million (carrying value nil) were retired.

The depreciation expense for the year ended March 31, 2014 and March 31, 2013 is included in cost of sales in the consolidated statement of comprehensive income.

Carrying value of land includes \$60 million and \$66 million as of March 31, 2014 and March 31, 2013, respectively, towards deposits paid under certain lease-cum-sale agreements to acquire land, including agreements where the company has an option to purchase the properties on expiry of the lease period. The company has already paid 99% of the market value of the properties prevailing at the time of entering into the lease-cum-sale agreements with the balance payable at the time of purchase.

The contractual commitments for capital expenditure were \$227 million and \$312 million as of March 31, 2014 and March 31, 2013, respectively.

## 2.5 Goodwill

Following is a summary of changes in the carrying amount of goodwill:

(Dollars in millions)

	As of	
	March 31, 2014	March 31, 2013
Carrying value at the beginning	\$364	\$195
Goodwill recognized on Lodestone acquisition	-	180
Goodwill recognized on Seabury & Smith acquisition	-	1
Translation differences	(4)	(12)
<b>Carrying value at the end</b>	<b>\$360</b>	<b>\$364</b>

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generate units (CGU) or groups of CGU's, which are benefiting from the synergies of the acquisition. The chief operating decision maker reviews the goodwill for any impairment at the operating segment level, which is represented through groups of CGU's.

Effective this quarter, the company reorganized its business to strengthen its focus on growing existing client relationships and increasing market share through service differentiation and operational agility. Consequent to the internal reorganization there were changes effected in the segments based on the “management approach” as defined in IFRS 8, Operating Segments. (Refer Note 2.12). Accordingly the goodwill has been allocated to the new operating segments as at March 31, 2014.

Energy, utilities, communication and services		49
Retail, consumer packaged goods, logistics and life sciences		130
		<b>\$364</b>

The entire goodwill relating to Infosys BPO’s acquisition of McCamish has been allocated to the groups of CGU’s which are represented by the Insurance segment.

The goodwill relating to Infosys Lodestone and Portland acquisitions has been allocated to the groups of CGU’s which are represented by the entity’s operating segment.

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value-in-use is determined based on specific calculations. These calculations use pre-tax cash flow projections over a period of five years, based on financial budgets approved by management and an average of the range of each assumption mentioned below. As of March 31, 2014, the estimated recoverable amount of the CGU exceeded its carrying amount. The recoverable amount was computed based on the fair value being higher than value-in-use and the carrying amount of the CGU was computed by allocating the net assets to operating segments for the purpose of impairment testing. The key assumptions used for the calculations are as follows:

	In %
Long term growth rate	8-10
Operating margins	17-20
Discount rate	13.2

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. These estimates are likely to differ from future actual results of operations and cash flows.

#### Derivative financial instruments

The company uses derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on trade receivables and forecasted cash flows denominated in certain foreign currencies. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace. The following table gives details in respect of outstanding foreign exchange forward and options contracts:

(In millions)

## Financial risk management

### Financial risk factors

The company's activities expose it to a variety of financial risks market risk, credit risk and liquidity risk. The company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the company is foreign exchange risk. The company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The demographics of the customer including the default risk of the industry and country in which the customer operates also has an influence on credit risk assessment.

### Market risk

The company operates internationally and a major portion of the business is transacted in several currencies and consequently the company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The company uses derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in foreign exchange rates on trade receivables and forecasted cash flows denominated in certain foreign currencies. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the company's operations are adversely affected as the Indian rupee appreciates / depreciates against these currencies.

The following table gives details in respect of the outstanding foreign exchange forward contracts:

(Dollars in millions)

	As of	
	March 31, 2014	March 31, 2013

For the year ended March 31, 2014 and March 31, 2013, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and the U.S. dollar, has affected the company's incremental operating margins by approximately 0.48% and 0.40%, respectively.

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

#### Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to \$1,394 million and \$1,305 million as of March 31, 2014 and March 31, 2013, respectively and unbilled revenue amounting to \$469 million and \$449 million as of March 31, 2014 and March 31, 2013, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business.

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

	<i>(In %)</i>	
	<b>Year ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Revenue from top customer	3.8	3.8
Revenue from top five customers	14.4	15.2

#### Financial assets that are neither past due nor impaired

Cash and cash equivalents and available-for-sale financial assets are neither past due nor impaired. Cash and cash equivalents include deposits with banks and corporations with high credit-ratings assigned by international and domestic credit-rating agencies. Available-for-sale financial assets include investment in liquid mutual fund units, fixed maturity plan securities, quoted debt securities and unquoted equity securities. Certificates of deposit represent funds deposited at a bank or other eligible financial institution for a specified time period. Investment in quoted debt securities represents the investments made in debt securities issued by government and quasi government organizations. Of the total trade receivables, \$1,064 million and \$965 million as of March 31, 2014 and March 31, 2013, respectively, were neither past due nor impaired.

There is no other class of financial assets that is not past due but impaired except for trade receivables of \$3 million and \$1 million as of March 31, 2014 and March 31, 2013, respectively.

#### Financial assets that are past due but not impaired

The company's credit period generally ranges from 30-60 days. The age analysis of the trade receivables have been considered from the due date. The age wise break up of trade receivables, net of allowances of \$33 million and \$16 million as of March 31, 2014 and March 31, 2013, respectively, that are past due, is given below:

As of March 31, 2014 and March 31, 2013, the company had outstanding financial guarantees of \$6 million and \$4 million, respectively, towards leased premises. These financial guarantees can be invoked upon breach of any term of the lease agreement. To the company's knowledge there has been no breach of any term of the lease agreement as of March 31, 2014 and March 31, 2013.

## 2.7 Provisions

Provisions comprise the following:

<i>(Dollars in millions)</i>		
	As of	
	March 31, 2014	March 31, 2013
Provision for post sales client support and other provisions	\$63	\$39
Provision towards visa related matters (Refer note 2.13)	-	-
	<b>\$63</b>	<b>\$39</b>

Provision for post sales client support and other provisions represents costs associated with providing sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 6 months to 1 year. The movement in the provision for post sales client support and other provisions is as follows:

<i>(Dollars in millions)</i>		
	Year ended March 31,	
	2014	2013
Balance at the beginning	\$39	\$26
Translation differences	\$1	(1)
Provision recognized/(reversed)	23	15
Provision utilized	-	(1)
<b>Balance at the end</b>	<b>\$63</b>	<b>\$39</b>

Provision for post sales client support and other provisions for the year ended March 31, 2014 and March 31, 2013 is included in cost of sales in the consolidated statement of comprehensive income.

Provision towards visa related matters amounting to \$35 million (including legal costs) was created and paid during the year ended March 31, 2014.

As of March 31, 2014 and March 31, 2013, claims against the company, not acknowledged as debts (excluding demands from Indian income tax authorities- Refer to Note 2.9), net of amounts paid amounted to \$27 million (₹163 crore) and \$81 million (₹438 crore), respectively.

## 2.8 Employee benefits

### Gratuity

The company has adopted Revised IAS 19 with effect from April 1, 2013. Comparative information has not been restated for the changes as the effect of the change in accounting policy is not material. The impact on account of the revision in accounting policy is a reduction in retained earnings by \$6 million, an increase in other comprehensive income by \$9 million and write back of unamortised negative past service cost by \$3 million to retained earnings.

## 2.9 Income Taxes

Income tax expense in the consolidated statement of comprehensive income comprises:

	<i>(Dollars in millions)</i>	
	<b>Year ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
<b>Current taxes</b>		
Domestic taxes	\$585	\$544
Overseas taxes	124	97
	<b>\$709</b>	<b>\$641</b>
<b>Deferred taxes</b>		
Domestic taxes	(\$29)	(\$27)
Overseas taxes	(12)	3
	<b>(\$41)</b>	<b>(\$24)</b>
<b>Income tax expense</b>	<b>\$668</b>	<b>\$617</b>

Income tax expense for the year ended March 31, 2014 and March 31, 2013 includes reversals (net of provisions) of \$4 million and Nil, respectively, pertaining to earlier periods.

Entire deferred income tax for the year ended March 31, 2014 and March 31, 2013 relates to origination and reversal of temporary differences.

For the year ended March 31, 2014 and March 31, 2013, a reversal of deferred tax liability of \$2 million and \$1 million, relating to available-for-sale financial assets has been recognized in other comprehensive income.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

	<i>(Dollars in millions)</i>	
	<b>Year ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
Profit before income taxes	\$2,419	\$2,342
Enacted tax rates in India	33.99%	32.45%
Computed expected tax expense	\$822	\$760
Tax effect due to non-taxable income for Indian tax purposes	(273)	(202)
Overseas taxes	99	72
Tax reversals, overseas and domestic	(4)	-
Effect of exempt income	(13)	(17)
Effect of unrecognized deferred tax assets	11	9
Effect of differential overseas tax rates	1	(1)
Branch profit tax	(8)	5
Effect of non-deductible expenses	47	8
Taxes on dividend received from subsidiary	1	2
Additional deduction on research and development expense	(15)	(15)
Others	-	(4)
<b>Income tax expense</b>	<b>\$668</b>	<b>\$617</b>

The applicable Indian statutory tax rate for fiscal 2014 and fiscal 2013 is 33.99% and 32.45%. The increase in the statutory tax rate to 33.99% is consequent to changes made in the Finance Act 2013.

During the year ended March 31, 2014 and March 31, 2013, the company claimed weighted tax deduction on eligible research and development expenditures based on the approval received from Department of Scientific and Industrial Research (DSIR) for Finacle and Infosys labs which is effective from November 23, 2011. The weighted tax deduction is equal to 200% of such expenditures incurred.

As of March 31, 2014 and March 31, 2013, claims against the company not acknowledged as debts from the Indian Income tax authorities (net of amount paid to the authorities of \$286 million (₹1,716 crore) and \$200 million (₹1,087 crore)) amounted to \$3 million (₹19 crore) and \$18 million (₹97 crore), respectively.

Demands from the Indian Income tax authorities include payment of additional tax of \$258 million (₹1,548 crore), including interest of \$72million (₹ 43 crore) upon completion of their tax review for fiscal 2006, fiscal 2007, fiscal 2008 and fiscal 2009. These income tax demands are mainly on account of disallowance of a portion of the deduction claimed by the company under Section 10A of the Income Tax Act. The deductible amount is determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. The tax demand for fiscal 2007, fiscal 2008 and fiscal 2009 also includes disallowance of portion of profit earned outside India from the STP units and disallowance of profits earned from SEZ units. The matter for fiscal 2006, fiscal 2007, fiscal 2008 and fiscal 2009 are pending before the Commissioner of Income tax ( Appeals), Bangalore. The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

## 2.10 Earnings per equity share

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

	Year ended March 31	
	2014	2013
Basic earnings per equity share - weighted average number of equity shares outstanding <sup>(1)</sup>	571,402,566	571,399,238
Effect of dilutive common equivalent shares - share options outstanding	-	853
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	<b>571,402,566</b>	<b>571,400,091</b>

<sup>(1)</sup> Excludes treasury shares

For the year ended March 31, 2014 and March 31, 2013 there were no outstanding options to purchase equity shares which had an anti-dilutive effect.

## 2.11 Related party transactions

Infosys has provided guarantee for performance of certain contracts entered into by its subsidiaries.

### Transactions with key management personnel

The table below describes the compensation to key management personnel which comprise directors and members of the executive council:

Total compensation to key managerial personnel	<b>\$12</b>	<b>\$9</b>

## 2.12 Segment Reporting

IFRS 8 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Effective quarter ended March 31, 2014, the Company reorganized its segments to strengthen its focus on growing existing client relationships and increasing market share through service differentiation and operational agility. Consequent to the internal reorganization there were changes effected in the reportable business segments based on the "management approach" as defined in IFRS 8, Operating Segments. The Chief Operating Decision Maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along business segments and geographic segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Business segments of the company is determined based on (i) industry class of the customers (outside of the growth markets) and; (ii) presence of customers in growth markets across industry classes. Business segments of the Company are primarily enterprises in Financial Services and Insurance (FSI), enterprises in Manufacturing (MFG), enterprises in the Energy & Utilities, Communication and Services (ECS), enterprises in Retail, Consumer packaged goods and Logistics (RCL), enterprises in Life Sciences and Healthcare (LSH) and enterprises in Growth Markets (GMU) comprising enterprises in APAC (Asia Pacific) and Africa. The FSI reportable segments has been aggregated to include the Financial Services operating segment and Insurance operating segment and the ECS reportable segment has been aggregated to include Energy, Communication and Services operating segment and Resources & Utilities operating segments. Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and off-shore. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India. Consequent to the above change in the composition of reportable business segments, the prior year comparatives have been restated.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Allocated expenses of segments include expenses incurred for rendering services from the company's offshore software development centers and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Company.

Assets and liabilities used in the company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Geographical information on revenue and business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

## 2.13 Litigation

On May 23, 2011, the company received a subpoena from a grand jury in the United States District Court for the Eastern District of Texas. The subpoena required that the company provide to the grand jury certain documents and records related to its sponsorships for, and uses of, B1 business visas. The company complied with the subpoena. In connection with the subpoena, during a meeting with the United States Attorney's Office for the Eastern District of Texas, the company was advised that it and certain of its employees are targets of the grand jury investigation.

In addition, the U.S. Department of Homeland Security ("DHS") has reviewed the company's employer eligibility verifications on Form I-9 with respect to its employees working in the United States. In connection with this review, the company was advised that the DHS has found errors in a significant percentage of its Forms I-9 that the DHS has reviewed, and may impose fines and penalties on the company related to such alleged errors.

On October 30, 2013, the company settled the foregoing matters and entered into a Settlement Agreement ("Settlement Agreement") with the U.S. Attorney, the DHS and the United States Department of State ("State," and collectively with the U.S. Attorney and the DHS, the "United States").

In the Settlement Agreement, the company denied and disputed all allegations made by the United States, except for the allegation that the company failed to maintain accurate Forms I-9 records for many of its foreign nationals in the United States in 2010 and 2011 as required by law, and that such failure constituted civil violations of certain laws.

Under the Settlement Agreement, the company agreed, among other things, that:

the company will pay to the United States an aggregate amount equal to \$34 million;

the company will retain, for a period of two years from the date of the Settlement Agreement, an independent third-party auditor or auditing firm at its expense which will annually review and report on its Forms I-9 compliance, which reports shall be submitted to the U.S. Attorney; and

within 60 days after the first anniversary of the Settlement Agreement, the company will furnish a report to the U.S. Attorney concerning the company's compliance with its internal B-1 visa use policies, standards of conduct, internal controls and disciplinary procedures.

In return, the United States agreed, among other things, that:

the United States will file a motion to dismiss with prejudice the complaint it will file in the United States District Court for the Eastern District of Texas relating to allegations made by the United States regarding the company's compliance with laws regulating H1-B and B-1 visas and Forms I-9 (the "Alleged Conduct");

the United States will not use the Alleged Conduct to revoke any existing visas or petitions or deny future visas or petitions for the company's foreign nationals, and will evaluate each visa or petition on its own individual merits;

the United States will not use the Alleged Conduct to debar or suspend the company from any B-1 or H1-B immigration program, and the United States will not make any referrals to any government agencies for such debarment or suspension proceedings related to the Alleged Conduct; and

the United States will release the company and each of its current and former employees, directors, officers, agents and contractors from any civil, administrative or criminal claims the United States has or may have arising out of or pertaining to the Alleged Conduct, subject to certain exceptions specified in the Settlement Agreement.

Further, separate from, but related to the Settlement Agreement, U.S. Immigration and Customs Enforcement has confirmed that it will not to impose debarment from any B-1 or H1-B immigration program on the company related to the Alleged Conduct.

The company recorded a charge related to the Settlement Agreement including legal costs of \$35 million in the year ended March 31, 2014 related to the matters that were the subject of the Settlement Agreement. The said amount has been paid prior to December 31, 2013.

In addition, the company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the company's results of operations or financial condition.
