Company overview

Infosys Limited ('Infosys' or 'the Company') along with its controlled trust, Infosys Science Foundation, majority-owned and controlled subsidiary, Infosys BPO Limited and its controlled subsidiaries ('Infosys BPO') and wholly-owned and controlled subsidiaries, Infosys Technologies (Australia) Pty. Limited ('Infosys Australia'), Infosys Technologies (China) Co. Limited ('Infosys China'), Infosys Technologies S. de R. L. de C. V. ('Infosys Mexico'), Infosys Technologies (Sweden) AB. ('Infosys Sweden'), Infosys Tecnologia DO Brasil LTDA. ('Infosys Brasil'), Infosys Public Services, Inc, USA ('Infosys Public Services'), Infosys Consulting India Limited, Infosys Americas Inc., (Infosys Americas), Edgeverve Systems Limited (Edgeverve), Infosys Technologies (Shanghai) Company Limited ('Infosys Shanghai') and Lodestone Holding AG and its controlled subsidiaries ('Infosys Lodestone') is a leading global services corporation. The Company provides business consulting, technology, engineering and outsourcing services to help clients build tomorrow's enterprise. In addition, the Company offers software products and platforms.

1 Significant accounting policies

1.1 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed by the Companies (Accounting Standards) Rules, 2006, the provisions of the Companies Act, 2013 (to the extent notified) and the Companies Act, 1956 (to the extent applicable) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

1.2 Use of estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to contingent liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include computation of percentage of completion which requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended, provisions for doubtful debts, future obligations under employee retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed tangible assets and intangible assets.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.3 Revenue recognition

Revenue is primarily derived from software development and related services and from the licensing of software products. Arrangements with customers for software development and related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the Balance Sheet date is recognized as unbilled revenues. Revenue from fixed-price and fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized based upon the percentage of completion method. When there is uncertainty as to measurement or ultimate collectability revenue recognition is postponed until such uncertainty is resolved. Cost and earnings in excess of billings are classified as unbilled revenue while billings in excess of cost and earnings is classified as unearned revenue. Provision for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current estimates.

Annual Technical Services revenue and revenue from fixed-price maintenance contracts are recognized ratably over the period in which services are rendered. Revenue from the sale of user licenses for software applications is recognized on transfer of the title in the user license, except in case of multiple element contracts, which require significant implementation services, where revenue for the entire arrangement is recognized over the implementation period based upon the percentage-of-completion method. Revenue from client training, support and other services arising due to the sale of software products is recognized as the related services are performed.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discount / incentive amount to each of the underlying revenue transactions that result in progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts using a cumulative catchup approach. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The Company presents revenues net of indirect taxes in its statement of profit and loss.

Profit on sale of investments is recorded on transfer of title from the Company and is determined as the difference between the sale price and carrying value of the investment. Lease rentals are recognized ratably on a straight line basis over the lease term. Interest is recognized using the time-proportion method, based on rates implicit in the transaction. Dividend income is recognized when the Company's right to receive dividend is established.

1.4 Provisions and contingent liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

1.5 Post-sales client support and warranties

The Company provides its clients with a fixed-period warranty for corrections of errors and telephone support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time when related revenues are recorded and included in statement of profit and loss. The Company estimates such costs based on historical experience and the estimates are reviewed annually for any material changes in assumptions.

1.6 Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at lower of the expected cost of terminating the contract and the expected net cost of fulfilling the contract.

1.7 Tangible assets, intangible assets and capital work-in-progress

Fixed assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until fixed assets are ready for use. Capital work-in-progress comprises of the cost of fixed assets that are not yet ready for their intended use at the reporting date. Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortization and impairment.

1.8 Depreciation and amortization

Depreciation on fixed assets is provided on the straight-line method over the useful lives of assets estimated by the Management. Depreciation for assets purchased / sold during a period is proportionately charged. Individual low cost assets (acquired for ₹5,000/- or less) are depreciated over a period of one year from the date of acquisition. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use. The Management estimates the useful lives for the other fixed assets as follows :

Buildings	15 years
Plant and machinery	5 years
Office equipment	5 years
Computer equipment	2-5 years
Furniture and fixtures	5 years
Vehicles	5 years

Depreciation and amortization methods, useful lives and residual values are reviewed at each reporting date.

1.9 Impairment

The Management periodically assesses using, external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is recognized wherever the carrying value of an asset exceeds its recoverable amount. The recoverable amount is higher of the asset's net selling price and value in use, which means the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. An impairment loss for an asset is reversed if, and only if, the reversal can be related objectively to an event occurring after the impairment loss was recognized. The carrying amount of an asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

1.10 Retirement benefits to employees

a Gratuity

The Company provides for gratuity, a defined benefit retirement plan (the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation at each Balance Sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trust and contributions are invested in specific investments as permitted by the law. The Company recognizes the net obligation of the gratuity plan in the Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15, 'Employee Benefits'. The Company's overall expected long-term rate-of-return on assets has been determined based on consideration of available market information, current provisions of Indian law specifying the instruments in which investments can be made, and historical returns. The discount rate is based on the Government securities yield. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the statement of profit and loss in the period in which they arise.

b Superannuation

Certain employees of Infosys are also participants in the superannuation plan ('the Plan') which is a defined contribution plan. The Company has no obligations to the Plan beyond its monthly contributions.

c Provident fund

Eligible employees receive benefits from a provident fund, which is a defined benefit plan. Both the employee and the Company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a part of the contributions to the Infosys Limited Employees' Provident Fund Trust. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the trust and the notified interest rate.

d Compensated absences

The employees of the Company are entitled to compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation based on the additional amount expected to be paid as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

1.11 Research and development

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use or sell the software and the costs can be measured reliably.

1.12 Foreign currency transactions

Foreign-currency denominated monetary assets and liabilities are translated at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in the Statement of profit and loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Revenue, expense and cash-flow items denominated in foreign currencies are translated using the exchange rate in effect on the date of the transaction. Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled.

1.13 Forward and options contracts in foreign currencies

The Company uses foreign exchange forward and options contracts to hedge its exposure to movements in foreign exchange rates. The use of these foreign exchange forward and options contracts reduce the risk or cost to the Company and the Company does not use those for trading or speculation purposes.

Effective April 1, 2008, the Company adopted AS 30, 'Financial Instruments: Recognition and Measurement', to the extent that the adoption did not conflict with existing accounting standards and other authoritative pronouncements of the Company Law and other regulatory requirements.

Forward and options contracts are fair valued at each reporting date. The resultant gain or loss from these transactions are recognized in the statement of profit and loss. The Company records the gain or loss on effective hedges, if any, in the foreign currency fluctuation reserve until the transactions are complete. On completion, the gain or loss is transferred to the statement of profit and loss of that period. To designate a forward or options contract as an effective hedge, the Management objectively evaluates and evidences with appropriate supporting documents at the inception of each contract whether the contract is effective in achieving offsetting cash flows attributable to the hedged risk. In the absence of a designation as effective hedge, a gain or loss is recognized in the statement of profit and loss. Currently hedges undertaken by the Company are all ineffective in nature and the resultant gain or loss consequent to fair valuation is recognized in the statement of profit and loss at each reporting date.

1.14 Income taxes

Income taxes are accrued in the same period that the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable. Minimum alternate tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of tax credit against future income tax liability, is recognized as an asset in the Balance Sheet if there is convincing evidence that the Company will pay normal tax after the tax holiday period and the resultant asset can be measured reliably. The Company offsets, on a year on year basis, the current tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

The differences that result between the profit considered for income taxes and the profit as per the financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount of timing difference. The tax effect is calculated on the accumulated timing differences at the end of an accounting period based on enacted or substantively enacted regulations. Deferred tax assets in situation where unabsorbed depreciation and carry forward business loss exists, are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax asset can be realized. Deferred tax assets, other than in situation of unabsorbed depreciation and carry forward business loss, are recognized only if there is reasonable certainty that they will be realized. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date. Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to statement of profit and loss are credited to the share premium account.

1.15 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The diluted potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value which is the average market value of the outstanding shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.16 Investments

Trade investments are the investments made to enhance the Company's business interests. Investments are either classified as current or long-term based on Management's intention. Current investments are carried at the lower of cost and fair value of each investment individually. Cost for overseas investments comprises the Indian Rupee value of the consideration paid for the investment translated at the exchange rate prevalent at the date of investment. Long term investments are carried at cost less provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

1.17 Cash and cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

1.18 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.19 Leases

Lease under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Such assets acquired are capitalized at fair value of the asset or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the statement of profit and loss over the lease term.

2 NOTES TO ACCOUNTS FOR THE QUARTER AND YEAR ENDED MARCH 31, 2014

Amounts in the financial statements are presented in ₹ crore, except for per share data and as otherwise stated. All exact amounts are stated with the suffix “/-”. One crore equals 10 million.

The previous period figures have been regrouped/reclassified, wherever necessary to conform to the current period presentation.

Stock option plans

The Company had two Stock Option Plans.

1998 Stock Option Plan ('the 1998 Plan')

The 1998 Plan was approved by the Board of Directors in December 1997 and by the shareholders in January 1998, and is for issue of 1,17,60,000 ADSs representing 1,17,60,000 equity shares. All options under the 1998 Plan are exercisable for ADSs representing equity shares. The 1998 Plan is administered by a compensation committee (now known as the Management Development and Compensation Committee), all of whom are independent members of the Board of Directors and through the Infosys Limited Employees' Welfare Trust (the Trust). All options had been granted at 100% of fair market value. The 1998 Plan lapsed on January 6, 2008, and consequently no further shares will be issued to employees under this plan.

1999 Stock Option Plan ('the 1999 Plan')

In fiscal 2000, the Company instituted the 1999 Plan. The shareholders and the Board of Directors approved the plan in September 1999, which provides for the issue of 5,28,00,000 equity shares to the employees. The 1999 Plan is administered by a compensation committee (now known as the Management Development and Compensation Committee), all of whom are independent members of the Board of Directors and through the Trust. Options were issued to employees at an exercise price that is not less than the fair market value. The 1999 Plan lapsed on September 11, 2009, and consequently no further shares will be issued to employees under this plan.

There were no share options outstanding and exercisable as of March 31, 2014 and March 31, 2013.

There was no activity in the 1998 Plan during the quarter and year ended March 31, 2013 and in the 1999 Plan during the quarter ended March 31, 2013. The activity in the 1999 Plan during the year ended March 31, 2013 is set out below:

During the quarter ended March 31, 2014 and March 31, 2013 the company had a reversal of ₹18 crore and ₹12 crore (net of provisions), respectively, pertaining to tax relating to prior years. During the year ended March 31, 2014 and March 31, 2013 the company had a reversal of ₹19 crore (net of provisions) and provision of ₹6 crore (net of reversals), respectively, pertaining to tax relating to prior years.

Income taxes

The provision for taxation includes tax liabilities in India on the Company's global income as reduced by exempt incomes and any tax liabilities arising overseas on income sourced from those countries. Infosys' operations are conducted through Software Technology Parks (STPs) and Special Economic Zones (SEZs). Income from STPs were tax exempt for the earlier of 10 years commencing from the fiscal year in which the unit commences software development, or March 31, 2011. Income from SEZs is fully tax exempt for the first 5 years, 50% exempt for the next 5 years and 50% exempt for another 5 years subject to fulfilling certain conditions.

⁽¹⁾ Claims against the company not acknowledged as debts include demands from the Indian Income tax authorities for payment of additional tax of ₹1,548 crore (₹1,088 crore), including interest of ₹430 crore (₹313 crore) upon completion of their tax review for fiscal 2006, fiscal 2007, fiscal 2008 and fiscal 2009. These income tax demands are mainly on account of disallowance of a portion of the deduction claimed by the company under Section 10A of the Income Tax Act. The deductible amount is determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. The tax demand for fiscal 2007, fiscal 2008 and fiscal 2009 also includes disallowance of portion of profit earned outside India from the STP units and disallowance of profits earned from SEZ units. The matter for fiscal 2006, fiscal 2007, fiscal 2008 and fiscal 2009 are pending before the Commissioner of Income tax (Appeals), Bangalore. The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

As of the Balance Sheet date, the Company's net foreign currency exposures that are not hedged by a derivative instrument or otherwise is Nil (₹1,189 crore as at March 31, 2013).

The foreign exchange forward & option contracts mature within 12 months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

2.26 Merger of Infosys Consulting India Limited

The Hon'ble High Court of Karnataka sanctioned the scheme of amalgamation of Infosys Consulting India Limited (ICIL) with Infosys Limited with an effective date of August 23, 2013 and an appointed date of January 12, 2012. ICIL was a wholly owned subsidiary of Infosys Limited and was engaged in software related consultancy services. The merger of ICIL into Infosys Limited has been accounted for under pooling of interest method referred to in Accounting Standard 14, *Accounting for Amalgamation* (AS-14).

All the assets and liabilities of ICIL on and after the appointed date and prior to the effective date have been transferred to Infosys Limited on a going concern basis. As ICIL was a wholly owned subsidiary of Infosys Limited, no shares have been allotted to the shareholders upon the scheme becoming effective.

2.28 SEGMENT REPORTING

The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Effective quarter ended March 31, 2014, the Company reorganized its business to strengthen its focus on growing existing client relationships and increasing market share through service differentiation and operational agility. Consequent to the internal reorganization there were changes effected in the reportable industry segments based on the "management approach" as laid down in AS 17. Segment reporting and an additional segment, Life Sciences and Healthcare was identified. The Chief Executive Officer evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by industry classes and geographic segmentation of customers. Accordingly, segment information has been presented both along industry classes and geographic segmentation of customers, industry being the primary segment. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Industry segments for the Company are primarily enterprises in Financial Services and Insurance (FSI), enterprises in Manufacturing (MFG), enterprises in the Energy & utilities, Communication and Services (ECS), enterprises in Retail, Consumer packaged goods and Logistics (RCL) and enterprises in Life Sciences and Healthcare (LSH). Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and off-shore. North America comprises the United States of America, Canada and Mexico; Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom; and the Rest of the World comprising all other places except those mentioned above and India. Consequent to the above change in the composition of reportable industry segments, the prior year comparatives have been restated.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Allocated expenses of segments include expenses incurred for rendering services from the company's offshore software development centers and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Company.

Fixed assets used in the Company's business or liabilities contracted have not been identified to any of the reportable segments, as the fixed assets and services are used interchangeably between segments. Accordingly, no disclosure relating to total segment assets and liabilities are made. Geographical information on revenue and industry revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

During the year ended March 31, 2010, a reimbursement obligation of ₹2 crore has been recognized towards settlement of gratuity liability of Infosys Consulting India Limited (ICIL). This has been offset pursuant to transfer of all assets and liabilities of ICIL on account of merger.

As at March 31, 2014 and March 31, 2013, the plan assets have been primarily invested in government securities. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. The Company expects to contribute ₹110 crore to the gratuity trust during the fiscal 2015.

Effective July 1, 2007, the Company revised the employee death benefits provided under the gratuity plan, and included all eligible employees under a consolidated term insurance cover. Accordingly, the obligations under the gratuity plan reduced by ₹37 crore, which is being amortised on a straight line basis to the statement of profit and loss over 10 years representing the average future service period of the employees. The unamortized liability as at March 31, 2014 and March 31, 2013 amounts to ₹11 crore and ₹15 crore, respectively and disclosed under 'Other long-term liabilities' and 'other current liabilities'.

The company has aligned the gratuity entitlement for majority of its employees prospectively to the Payment of Gratuity Act, 1972. This amendment has resulted in a curtailement gain of ₹69 crores for the year ended March 31, 2013 which has been recognized in the statement of profit and loss for the year ended March 31, 2013.

2.30 PROVIDENT FUND

The Company contributed ₹66 crore and ₹262 crore towards provident fund during the quarter and year ended March 31, 2014, respectively (₹63 crore and ₹240 crore during the quarter and Year ended March 31, 2013, respectively).

The Guidance on Implementing AS 15, Employee Benefits (revised 2005) issued by Accounting Standards Board (ASB) states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed are to be considered as defined benefit plans. The Actuarial Society of India has issued the final guidance for measurement of provident fund liabilities during the quarter ended December 31, 2011. The actuary has accordingly provided a valuation and based on the below provided assumptions there is no shortfall as at March 31, 2014, March 31, 2013, March 31, 2012, March 31, 2011 and March 31, 2010.

The details of fund and plan asset position are given below:

2.34 DUES TO MICRO SMALL AND MEDIUM ENTERPRISES

As at March 31, 2014, ₹1 crore is outstanding to micro and small enterprises. There are no interests due or outstanding on the same. The Company has no dues to micro and small enterprises during the quarter and year ended March 31, 2013.

2.35 LITIGATION

On May 23, 2011, the company received a subpoena from a grand jury in the United States District Court for the Eastern District of Texas. The subpoena required that the company provide to the grand jury certain documents and records related to its sponsorships for, and uses of, B1 business visas. The company complied with the subpoena. In connection with the subpoena, during a meeting with the United States Attorney's Office for the Eastern District of Texas, the company was advised that it and certain of its employees are targets of the grand jury investigation.

In addition, the U.S. Department of Homeland Security ("DHS") reviewed the company's employer eligibility verifications on Form I-9 with respect to its employees working in the United States. In connection with this review, the company was advised that the DHS has found errors in a significant percentage of its Forms I-9 that the DHS has reviewed, and may impose fines and penalties on the company related to such alleged errors.

On October 30, 2013, the company settled the foregoing matters and entered into a Settlement Agreement ("Settlement Agreement") with the U.S. Attorney, the DHS and the United States Department of State ("State," and collectively with the U.S. Attorney and the DHS, the "United States").

In the Settlement Agreement, the company denied and disputed all allegations made by the United States, except for the allegation that the company failed to maintain accurate Forms I-9 records for many of its foreign nationals in the United States in 2010 and 2011 as required by law, and that such failure constituted civil violations of certain laws.

Under the Settlement Agreement, the company agreed, among other things, that

- the company will pay to the United States an aggregate amount equal to ₹213 crore;
- the company will retain, for a period of two years from the date of the Settlement Agreement, an independent third-party auditor or auditing firm at its expense which will annually review and report on its Forms I-9 compliance, which reports shall be submitted to the U.S. Attorney; and
- within 60 days after the first anniversary of the Settlement Agreement, the company will furnish a report to the U.S. Attorney concerning the company's compliance with its internal B-1 visa use policies, standards of conduct, internal controls and disciplinary procedures.

In return, the United States agreed, among other things, that:

- the United States will file a motion to dismiss with prejudice the complaint it will file in the United States District Court for the Eastern District of Texas relating to allegations made by the United States regarding the company's compliance with laws regulating H1-B and B-1 visas and Forms I-9 (the "Alleged Conduct");
- the United States will not use the Alleged Conduct to revoke any existing visas or petitions or deny future visas or petitions for the company's foreign nationals, and will evaluate each visa or petition on its own individual merits;
- the United States will not use the Alleged Conduct to debar or suspend the company from any B-1 or H1-B immigration program, and the United States will not make any referrals to any government agencies for such debarment or suspension proceedings related to the Alleged Conduct; and

the United States will release the company and each of its current and former employees, directors, officers, agents and contractors from any civil, administrative or criminal claims the United States has or may have arising out of or pertaining to the Alleged Conduct, subject to certain exceptions specified in the Settlement Agreement.

Further, separate from, but related to the Settlement Agreement, U.S. Immigration and Customs Enforcement has confirmed that it will not impose debarment from any B-1 or HI-B immigration program on the company related to the Alleged Conduct.

The company recorded a charge related to the Settlement Agreement including legal costs of ₹219 crore in the year ended March 31, 2014 related to the matters that were the subject of the Settlement Agreement. The said amounts were paid prior to December 31, 2013.

In addition, the company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the company's results of operations or financial condition.

2.36 Exceptional Item

During the quarter and year ended March 31, 2013, the Company received dividend of ₹83 crore from its wholly owned subsidiary Infosys Australia. The tax on such dividend is ₹14 crore.
