Notes to the Consolidated Financial Statements

1. Company Overview and Significant Accounting Policies

1.1 Company overview

Infosys is a global leader in consulting, technology, outsourcing and next-generation services. Along with its subsidiaries, Infosys provides Business IT services (comprising application development and maintenance, independent validation, infrastructure management, engineering services comprising product engineering and life cycle solutions and business process management); Consulting and systems integration services (comprising consulting, enterprise solutions, systems integration and advanced technologies); Products, business platforms and solutions to accelerate intellectual property-led innovation including Finacle, our banking solution; and offerings in the areas of Analytics, Cloud, and Digital Transformation.

Infosys together with its subsidiaries is herein after referred to as the "Group".

The company is a public limited company incorporated and domiciled in India and has its registered office at Bangalore, Karnataka, India. The company has its primary listings on the BSE Limited and National Stock Exchange in India. The company's American Depository Shares representing equity shares are also listed on the New York Stock Exchange (NYSE), NYSE Euronext London and NYSE Euronext Paris.

The Group's consolidated financial statements are authorized for issue by the company's Board of Directors on April 24, 2015.

1.2 Basis of preparation of financial statements

These consolidated financial statements have been prepared in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS), under the historical cost convention on the accrual basis except for certain financial instruments and prepaid gratuity benefits which have been measured at fair values. Accounting policies have been applied consistently to all periods presented in these consolidated financial statements.

1.3 Basis of consolidation

Infosys consolidates entities which it owns or controls. The consolidated financial statements comprise the financial statements of the company, its controlled trusts and its subsidiaries as disclosed in Note 2.18. Control exists when the parent has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date control commences until the date control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Associates are entities over which the group has significant influence but not control. Investments in associates are accounted for using the equity method of accounting. The investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the acquisition date. The group's investment in associates includes goodwill identified on acquisition.

1.4 Use of estimates

The preparation of the financial statements in conformity with IFRS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 1.5. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

1.5 Critical accounting estimates

a. Revenue recognition

The group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the group to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

b. Income taxes

The company's two major tax jurisdictions are India and the U.S., though the company also files tax returns in other overseas jurisdictions. Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also refer to Note 2.16.

c. Business combinations and intangible assets

Business combinations are accounted for using IFRS 3 (Revised), Business Combinations. IFRS 3 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

d. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

e. Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

1.6 Revenue recognition

The company derives revenues primarily from software related services and from the licensing of software products. Arrangements with customers for software related services are either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings in excess of billings are classified as unbilled revenue while billings in excess of costs and earnings are classified as unearned revenue. Maintenance revenue is recognised ratably over the term of the underlying maintenance arrangement.

In arrangements for software development and related services and maintenance services, the company has applied the guidance in IAS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in IAS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the company is unable to establish objective and reliable evidence of fair value for the software development and related services, the company has used a residual method to allocate the arrangement consideration. In these cases the balance of the consideration, after allocating the fair values of undelivered components of a transaction has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues are recognized when the general revenue recognition criteria given in IAS 18 are met. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The company has applied the principles given in IAS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value has been established for ATS. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of their fair values have been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered elements. In the absence of objective and reliable evidence of fair value for implementation, the entire arrangement fee for license and implementation is recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are performed. ATS revenue is recognised ratably over the period in which the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

The company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying revenue transaction that results in progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The company presents revenues net of value-added taxes in its statement of comprehensive income.

1.7 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The group depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Building	22-25 years
Plant and machinery	5 years
Computer equipment	3-5 years
Furniture and fixtures	5 years
Vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end. (Refer note 2.5)

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of comprehensive income when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in net profit in the statement of comprehensive income. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

1.8 Business combinations

Business combinations have been accounted for using the acquisition method under the provisions of IFRS 3 (Revised), Business Combinations.

The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is transferred to the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Business combinations between entities under common control is outside the scope of IFRS 3 (Revised), Business Combinations and is accounted for at carrying value.

Transaction costs that the Group incurs in connection with a business combination such as finders' fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

1.9 Goodwill

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition, a gain is recognized immediately in net profit in the statement of comprehensive income. Goodwill is measured at cost less accumulated impairment losses.

1.10 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as cost of sales.

1.11 Financial instruments

Financial instruments of the Group are classified in the following categories: non-derivative financial instruments comprising of loans and receivables, available-for-sale financial assets and trade and other payables; derivative financial instruments under the category of financial assets or financial liabilities at fair value through profit or loss; share capital and treasury shares. The classification of financial instruments depends on the purpose for which those were acquired. Management determines the classification of its financial instruments at initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

a. Non-derivative financial instruments

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those maturing later than 12 months after the balance sheet date which are presented as non-current assets. Loans and receivables are measured initially at fair value plus transaction costs and subsequently carried at amortized cost using the effective interest method, less any impairment loss or provisions for doubtful accounts. Loans and receivables are represented by trade receivables, net of allowances for impairment, unbilled revenue, cash and cash equivalents, prepayments, certificates of deposit, and other assets. Cash and cash equivalents comprise cash and bank deposits and deposits with corporations. The company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents. Certificates of deposit is a negotiable money market instrument for funds deposited at a bank or other eligible financial institution for a specified time period. For these financial instruments, the carrying amounts approximate fair value due to the short maturity of these instruments. Loans and receivables are reclassified to available-for-sale financial assets when the financial asset becomes quoted in an active market.

(ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or are not classified in any of the other categories. Available-for-sale financial assets are recognized initially at fair value plus transactions costs. Subsequent to initial recognition these are measured at fair value and changes therein, other than impairment losses and foreign exchange gains and losses on available-for-sale monetary items are recognized directly in other comprehensive income. When an investment is derecognized, the cumulative gain or loss in other comprehensive income is transferred to net profit in the statement of comprehensive income. These are presented as current assets unless management intends to dispose off the assets after 12 months from the balance sheet date.

(iii) Trade and other payables

Trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

b. Derivative financial instruments

Financial assets or financial liabilities, at fair value through profit or loss.

This category has two sub-categories wherein, financial assets or financial liabilities are held for trading or are designated as such upon initial recognition. A financial asset is classified as held for trading if it is acquired principally for the purpose of selling in the short term. Derivatives are categorized as held for trading unless they are designated as hedges.

The group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. Although the group believes that these financial instruments constitute hedges from an economic perspective, they do not qualify for hedge accounting under IAS 39, Financial Instruments: Recognition and Measurement. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per IAS 39, is categorized as a financial asset, at fair value through profit or loss.

Derivatives are recognized initially at fair value and attributable transaction costs are recognized in net profit in the statement of comprehensive income when incurred. Subsequent to initial recognition, derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

c. Share capital and treasury shares

Ordinary Shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

Treasury Shares

When any entity within the Group purchases the company's ordinary shares, the consideration paid including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from share premium.

1.12 Impairment

a. Financial assets

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset. Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

(i) Loans and receivables

Impairment loss in respect of loans and receivables measured at amortized cost are calculated as the difference between their carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. Such impairment loss is recognized in net profit in the statement of comprehensive income.

(ii) Available-for-sale financial assets

Significant or prolonged decline in the fair value of the security below its cost and the disappearance of an active trading market for the security are objective evidence that the security is impaired. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value and is recognized in net profit in the statement of comprehensive income. The cumulative loss that was recognized in other comprehensive income is transferred to net profit in the statement of comprehensive income upon impairment.

b. Non-financial assets

(i) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) or groups of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU.

Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognized in net profit in the statement of comprehensive income and is not reversed in the subsequent period.

(ii) Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in net profit in the statement of comprehensive income is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset.

c. Reversal of impairment loss

An impairment loss for financial assets is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. An impairment loss in respect of goodwill is not reversed. In respect of other assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years. A reversal of impairment loss for an asset other than goodwill and available-for-sale financial assets that are equity securities is recognized in net profit in the statement of comprehensive income. For available-for-sale financial assets that are equity securities, the reversal is recognized in other comprehensive income.

1.13 Fair value of financial instruments

In determining the fair value of its financial instruments, the group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

For all other financial instruments the carrying amounts approximate fair value due to the short maturity of those instruments. The fair value of securities, which do not have an active market and where it is not practicable to determine the fair values with sufficient reliability, are carried at cost less impairment.

1.14 Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

a. Post sales client support

The group provides its clients with a fixed-period post sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded and included in cost of sales. The group estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the Group recognizes any impairment loss on the assets associated with that contract.

1.15 Foreign currency

Functional currency

The functional currency of Infosys, Infosys BPO, controlled trusts and Edgeverve is the Indian rupee. The functional currencies for Infosys Australia, Infosys China, Infosys Mexico, Infosys Sweden, Infosys Brasil, Infosys Public Services, Infosys Shanghai, Infosys Lodestone, Infosys Americas, Infosys Nova and Panaya are the respective local currencies. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the statement of comprehensive income. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

The translation of financial statements of the foreign subsidiaries to the functional currency of the company is performed for assets and liabilities using the exchange rate in effect at the balance sheet date and for revenue, expense and cash-flow items using the average exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under other components of equity. When a subsidiary is disposed off, in full, the relevant amount is transferred to net profit in the statement of comprehensive income. However when a change in the parent's ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the balance sheet date.

1.16 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.17 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of comprehensive income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

1.18 Employee benefits

1.18.1 Gratuity

The Group provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of Infosys, Infosys BPO and Edgeverve. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). In case of Infosys BPO and Edgeverve, contributions are made to the Infosys BPO's Employees' Gratuity Fund Trust and Edgeverve Systems Limited Employees' Gratuity Fund Trust, respectively. Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation of India as permitted by law of India.

The Group recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profits in the statement of comprehensive income.

1.18.2 Superannuation

Certain employees of Infosys, Infosys BPO and Edgeverve are participants in a defined contribution plan. The Group has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

1.18.3 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

In respect of Infosys BPO and Edgeverve, eligible employees receive benefits from a provident fund, which is a defined contribution plan. Both the eligible employee and the respective companies make monthly contributions to this provident fund plan equal to a specified percentage of the covered employee's salary. Amounts collected under the provident fund plan are deposited in a government administered provident fund. The companies have no further obligation to the plan beyond its monthly contributions.

1.18.4 Compensated absences

The Group has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

1.19 Share-based compensation

The Group recognizes compensation expense relating to share-based payments in net profit using a fair-value measurement method in accordance with IFRS 2, Share-Based Payment. Under the fair value method, the estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to securities premium.

1.20 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's Board of Directors.

1.21 Operating profit

Operating profit for the Group is computed considering the revenues, net of cost of sales, selling and marketing expenses and administrative expenses.

1.22 Other income

Other income is comprised primarily of interest income, dividend income and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

1.23 Leases

Leases under which the group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in net profit in the statement of comprehensive income over the lease term.

1.24 Government grants

The Group recognizes government grants only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received. Government grants related to assets are treated as deferred income and are recognized in net profit in the statement of comprehensive income on a systematic and rational basis over the useful life of the asset. Government grants related to revenue are recognized on a systematic basis in net profit in the statement of comprehensive income over the periods necessary to match them with the related costs which they are intended to compensate.

1.25 Recent accounting pronouncements

1.25.1 Standards issued but not yet effective

IFRS 9 Financial instruments: In July 2014, the International Accounting Standards Board issued the final version of IFRS 9, Financial Instruments. The standard reduces the complexity of the current rules on financial instruments as mandated in IAS 39. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the other comprehensive income.

IFRS 9 replaces the 'incurred loss model' in IAS 39 with an 'expected credit loss' model. The measurement uses a dual measurement approach, under which the loss allowance is measured as either 12 month expected credit losses or lifetime expected credit losses. The standard also introduces new presentation and disclosure requirements.

The effective date for adoption of IFRS 9 is annual periods beginning on or after January 1, 2018, though early adoption is permitted. The Group is currently evaluating the requirements of IFRS 9, and has not yet determined the impact on the consolidated interim financial statements.

IFRS 15 Revenue from Contract with Customers: In May 2014, the International Accounting Standards Board issued IFRS 15, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits the use of either the retrospective or cumulative effect transition method. The effective date for adoption of IFRS 15 is annual periods beginning on or after January 1, 2017, though early adoption is permitted. The group has not yet selected a transition method and has not yet evaluated the impact of IFRS 15 on the consolidated interim financial statements.

2. Notes to the consolidated financial statements

2.1 Cash and cash equivalents

Cash and cash equivalents consist of the following:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Cash and bank deposits	26,195	22,342
Deposits with corporations	4,172	3,608
	30,367	25,950

Cash and cash equivalents as of March 31, 2015 and March 31, 2014 include restricted cash and bank balances of ₹364 crore and ₹318 crore, respectively. The restrictions are primarily on account of cash and bank balances held by irrevocable trusts controlled by the Company, bank balances held as margin money deposits against guarantees and balances held in unpaid dividend bank accounts.

The deposits maintained by the Group with banks and corporations comprise of time deposits, which can be withdrawn by the Group at any point without prior notice or penalty on the principal.

The table below provides details of cash and cash equivalents:

2.2 Available-for-sale financial assets

Investments in mutual fund units, quoted debt securities and unquoted equity securities are classified as available-for-sale financial assets.

Cost and fair value of the above investments are as follows:

	(In ₹ crore)	
	As of	
	March 31, 2015	March 31, 2014
Current		
Mutual fund units:		
Liquid mutual funds		
Cost and fair value	842	2,051
Fixed maturity plan securities		
Cost	30	143
Gross unrealised holding gains	2	3
Fair value	32	146
	874	2,197
Non-current		
Quoted debt securities:		
Cost	1,352	1,351
Gross unrealised holding gain/ (loss)	(8)	(106)
Fair value	1,344	1,245
Unquoted equity securities:		
Cost	1	4
Gross unrealised holding gains	-	3
Fair value	1	7
	1,345	1,252
Total available-for-sale financial assets	2,219	3,449

Mutual fund units:

Liquid mutual funds

The fair value of liquid mutual funds as of March 31, 2015 and March 31, 2014 is ₹842 crore and ₹2,051 crore, respectively. The fair value is based on quoted price.

Fixed maturity plan securities:

During the year ended March 31, 2015, the company redeemed fixed maturity plans securities of ₹113 crore. On redemption, the unrealised gain ₹9 crore, net of taxes of ₹4 crore, pertaining to these securities has been reclassified from other comprehensive income to profit or loss during the year ended March 31, 2015.

The fair value of fixed maturity plan securities as of March 31, 2015 and March 31, 2014 is ₹32 crore and ₹146 crore, respectively. The net unrealized gain of ₹1 crore, net of taxes of ₹1 crore, has been recognized in other comprehensive income for the year ended March 31, 2015. The net unrealized gain of ₹3 crore, net of taxes less than ₹1 crore has been recognized in other comprehensive income for the year ended March 31, 2014 (Refer to note 2.16). The fair value is based on quotes reflected in actual transactions in similar instruments as available on March 31, 2015 and March 31, 2014 respectively.

Quoted debt securities:

The fair value of quoted debt securities as of March 31, 2015 and March 31, 2014 is ₹1,344 crore and ₹1,245 crore, respectively. The net unrealised gain of ₹87 crore, net of taxes of ₹11 crore, has been recognized in other comprehensive income for the year ended March 31, 2015 respectively. The net unrealized loss of ₹100 crore, net of taxes of ₹13 crore has been recognized in other comprehensive income for the year ended March 31, 2014 (Refer to note 2.16). The fair value is based on quoted prices and market observable inputs.

2.3 Business combinations

During the year ended March 31, 2010, Infosys BPO acquired 100% of the voting interests in Infosys McCamish Systems LLC (McCamish), a business process solutions provider based in Atlanta, Georgia, in the United States. The business acquisition was conducted by entering into Membership Interest Purchase Agreement for a cash consideration of ₹173 crore and a contingent consideration of upto ₹93 crore. The fair value of contingent consideration and its undiscounted value on the date of acquisition was ₹40 crore and ₹67 crore, respectively.

The payment of contingent consideration was dependent upon the achievement of certain revenue targets and net margin targets by McCamish over a period of 4 years ending March 31, 2014. Further, contingent to McCamish signing any deal with total revenues of USD 100 million or more, the aforesaid period could be extended by 2 years.

The fair value of the contingent consideration was determined by discounting the estimated amount payable to the previous owners of McCamish on achievement of certain financial targets. The key inputs used for the determination of fair value of contingent consideration were the discount rate of 13.9% and the probabilities of achievement of the net margin and the revenue targets ranging from 50% to 100%.

During the year ended March 31, 2013, pursuant to McCamish entering into the asset purchase agreement with Seabury & Smith Inc., an assessment of the probability of McCamish achieving the required revenue and net margin targets pertaining to contingent consideration was conducted. The assessment was based on the actual and projected revenues and net margins pertaining to McCamish post consummation of the asset purchase transaction. The fair value of the contingent consideration and its related undiscounted value was determined at ₹17 crore and ₹23 crore, respectively. The contingent consideration was estimated to be in the range between ₹23 crore and ₹33 crore.

During March 2014, an assessment of the probability of McCamish achieving the required revenue and net margin targets pertaining to the contingent consideration was conducted. The entire contingent consideration was reversed in the statement of comprehensive income as it was estimated that the liability is no longer required.

During the year ended March 31, 2013, McCamish entered into an asset purchase agreement with Seabury & Smith Inc., a company providing back office services to life insurers, to purchase its BPO division for a cash consideration of ₹5 crore and a deferred consideration of ₹5 crore. Consequent to the transaction, intangible assets on customer contracts and relationships of ₹5 crore, intangible software of ₹1 crore and goodwill of ₹4 crore has been recorded. The intangible customer contracts and relationships and software are amortized over a period of five years and four months, respectively, being management's estimate of its useful life, based on the life over which economic benefits are expected to be realized. During the year ended March 31, 2014, based on an assessment made by the management, deferred consideration of ₹5 crore has been reversed in the statement of comprehensive income, as the same is no longer payable. Refer to note 2.6 for the remaining useful life of the intangible assets as of March 31, 2015.

On October 22, 2012, Infosys acquired 100% of the voting interests in Lodestone Holding AG, a global management consultancy firm headquartered in Zurich. The business acquisition was conducted by entering into a share purchase agreement for a cash consideration of ₹1,187 crore and an additional consideration of upto ₹608 crore, which the company refers to as deferred purchase price, estimated on the date of acquisition, payable to the selling shareholders of Lodestone Holding AG who are continuously employed or otherwise engaged by the Group during the three year period following the date of the acquisition.

This transaction is treated as post acquisition employee remuneration expense as per IFRS 3R. For the year ended March 31, 2015 and March 31, 2014, a post-acquisition employee remuneration expense of ₹252 crore and ₹188 crore respectively, is recorded in cost of sales in the statement of comprehensive income. As of March 31, 2015 and March 31, 2014, the liability towards deferred purchase price amounted to ₹487 crore and ₹255 crore, respectively.

Panaya

On March 5, 2015, Infosys acquired 100% of the voting interests in Panaya Inc. (Panaya), a Delaware Corporation in the United States. Panaya is a leading provider of automation technology for large scale enterprise and software management. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of ₹1,398 crore.

Panaya's CloudQuality™ suite positions Infosys to bring automation to several of its service lines via an agile SaaS model, and helps mitigate risk, reduce costs and shorten time to market for clients. This will help free Infosys from many repetitive tasks allowing it to focus on important, strategic challenges faced by clients. Panaya's proven technology would help to simplify the costs and complexities faced by businesses in managing their enterprise application landscapes. The excess of the purchase consideration paid over the fair value of net assets acquired has been attributed to goodwill.

The purchase price has been allocated based on Management's estimates and independent appraisal of fair values as follows:

Component	Acquiree's carrying amount	Fair value adjustments	Purchase price allocated
Property, plant and equipment	9	–	9
Net current assets *	38	–	38
Intangible assets – technology	–	243	243
Intangible assets – trade name	–	21	21
Intangible assets - customer contracts and relationships	–	82	82
Intangible assets – non compete agreements	–	26	26
Deferred tax liabilities on intangible assets	–	(99)	(99)
	47	273	320
Goodwill			1,078
Total purchase price			1,398

* Includes cash and cash equivalents acquired of ₹116 crore.

The goodwill is not tax deductible.

The gross amount of trade receivables acquired and its fair value is ₹58 crore and the same is expected to be fully collected.

The fair value of total cash consideration as at the acquisition date was ₹1,398 crore.

The amounts of revenue and net loss of Panaya since the acquisition date included in the consolidated statement of comprehensive income for the year ended March 31, 2015 is ₹12 crore and ₹10 crore, respectively.

Had the acquisition occurred as of April 1, 2014, the revenue and profit of the Infosys group for the year ended March 31, 2015 would have been ₹53,529 crore and ₹12,267 crore, respectively.

The transaction costs of ₹22 crore related to the acquisition have been included under administrative expenses in the statement of comprehensive income for the year ended March 31, 2015.

Edgeverve Systems Limited

Edgeverve was created as a wholly owned subsidiary to focus on developing and selling products and platforms. On April 15, 2014, the Board of Directors of Infosys had authorized the Company to execute a Business Transfer Agreement and related documents with Edgeverve, subject to securing the requisite approval from shareholders in the Annual General Meeting. Subsequently, at the AGM held on June 14, 2014, the shareholders have authorised the Board to enter into a Business Transfer Agreement and related documents with Edgeverve, with effect from July 1, 2014 or such other date as may be decided by the Board of Directors. The company has undertaken an enterprise valuation by an independent valuer and accordingly the business has been transferred for a consideration of \$70 million (approximately ₹421 crore) with effect from July 1, 2014 which is settled through the issue of fully paid up equity shares.

The transfer of assets and liabilities is accounted for at carrying values and does not have any impact on the consolidated financial statements.

Finacle and Edgeservices

On April 24, 2015, the Board of Directors of Infosys has authorized the Company to execute a Business Transfer Agreement and related documents with Edgeverve, a wholly owned subsidiary, subject to securing the requisite approval from shareholders through postal ballot. The proposed transfer of the business of Finacle and EdgeServices to Edgeverve is at an estimated consideration of upto ₹3,400 crore and upto ₹220 crore respectively.

Proposed acquisition

On April 24, 2015, the company entered into a definitive agreement to acquire Kallidus Inc. (d.b.a Skava) and its affiliate, a leading provider of digital experience solutions, including mobile commerce and in-store shopping experiences to large retail clients for a consideration of \$120 million (approximately ₹750 crore) including a deferred component and retention bonus.

2.4 Prepayments and other assets

Prepayments and other assets consist of the following:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Current		
Rental deposits	24	10
Security deposits	4	10
Loans and advances to employees	222	208
Prepaid expenses ⁽¹⁾	98	116
Interest accrued and not due	396	21
Withholding taxes ⁽¹⁾	1,364	1,052
Advance payments to vendors for supply of goods ⁽¹⁾	79	92
Deposit with corporations	1,100	979
Premiums held in trust ⁽²⁾	-	135
Other assets	9	13
	3,296	2,636
Non-current		
Loans and advances to employees	31	38
Deposit with corporation	58	43
Rental deposits	47	60
Security deposits	68	60
Prepaid expenses ⁽¹⁾	7	9
Prepaid gratuity and other benefits ⁽¹⁾	27	10
	238	220
	3,534	2,856
Financial assets in prepayments and other assets	1,959	1,577

⁽¹⁾ Non financial assets

⁽²⁾ Represents premiums collected from policyholders and payable to insurance providers by a service provider maintaining the amounts in fiduciary capacity

Withholding taxes primarily consist of input tax credits. Other assets primarily represent travel advances and other recoverables. Security deposits relate principally to leased telephone lines and electricity supplies.

Deposit with corporations represents amounts deposited to settle certain employee-related obligations as and when they arise during the normal course of business.

2.5 Property, plant and equipment

Following are the changes in the carrying value of property, plant and equipment for the year ended March 31, 2015:

(In ₹ crore)

	Land	Buildings	Plant and machinery	Computer equipment	Furniture and fixtures	Vehicles	Capital work-in-progress	Total
Gross carrying value as of April 1, 2014	1,140	5,026	1,702	2,659	1,017	36	1,832	13,412
Acquisitions through business combination (Refer note 2.3)	-	-	-	13	9	-	-	22
Additions	422	855	421	765	182	6	85	2,736
Deletions	-	-	(17)	(82)	(20)	(6)	(477)	(602)
Translation difference	-	-	(2)	(8)	(9)	(2)	-	(21)
Gross carrying value as of March 31, 2015	1,562	5,881	2,104	3,347	1,179	34	1,440	15,547
Accumulated depreciation as of April 1, 2014	-	(1,794)	(1,048)	(1,965)	(700)	(18)	-	(5,525)
Accumulated Depreciation on acquired assets (Refer note 2.3)	-	-	-	(9)	(4)	-	-	(13)
Depreciation	(16)	(188)	(262)	(387)	(144)	(6)	-	(1,003)
Accumulated depreciation on deletions	-	-	15	70	18	4	-	107
Translation difference	-	-	2	4	5	1	-	12
Accumulated depreciation as of March 31, 2015	(16)	(1,982)	(1,293)	(2,287)	(825)	(19)	-	(6,422)
Carrying value as of April 1, 2014	1,140	3,232	654	694	317	18	1,832	7,887
Carrying value as of March 31, 2015	1,546	3,899	811	1,060	354	15	1,440	9,125

Following are the changes in the carrying value of property, plant and equipment for the year ended March 31, 2014:

(In ₹ crore)

	Land	Buildings	Plant and machinery	Computer equipment	Furniture and fixtures	Vehicles	Capital work-in-progress	Total
Gross carrying value as of April 1, 2013	850	4,199	1,254	1,887	800	26	1,660	10,676
Additions	291	827	445	760	200	11	357	2,891
Deletions	(1)	-	(3)	(27)	(2)	(5)	(185)	(223)
Translation difference	-	-	6	39	19	4	-	68
Gross carrying value as of March 31, 2014	1,140	5,026	1,702	2,659	1,017	36	1,832	13,412
Accumulated depreciation as of April 1, 2013	-	(1,497)	(835)	(1,304)	(558)	(14)	-	(4,208)
Depreciation	-	(297)	(213)	(657)	(129)	(5)	-	(1,301)
Accumulated depreciation on deletions	-	-	3	27	2	3	-	35
Translation difference	-	-	(3)	(31)	(15)	(2)	-	(51)
Accumulated depreciation as of March 31, 2014	-	(1,794)	(1,048)	(1,965)	(700)	(18)	-	(5,525)
Carrying value as of April 1, 2013	850	2,702	419	583	242	12	1,660	6,468
Carrying value as of March 31, 2014	1,140	3,232	654	694	317	18	1,832	7,887

During the years ended March 31, 2014, certain assets which were old and not in use having gross book value of ₹8 crore, (net book value nil) were retired.

During the three months ended June 30, 2014, the management based on internal and external technical evaluation reassessed the remaining useful life of assets primarily consisting of buildings and computers with effect from April 1, 2014. Accordingly, the useful lives of certain assets required a change from the previous estimates.

The existing and revised useful lives are as below:

Category of assets	Earlier useful life (Years)	Current useful life (Years)
Building	15	22-25
Plant and machinery	5	5
Computer equipment	2-5	3-5
Furniture and fixtures	5	5
Vehicles	5	5

Had the group continued with the previously assessed useful lives, charge for depreciation and cost of sales for the year ended March 31, 2015 would have been higher ₹435 crore, respectively on assets held at April 1, 2014. The revision of the useful lives will result in the following changes in the depreciation expense as compared to the original useful life of the assets.

(In ₹ crore)

Particulars	Fiscal 2016	After Fiscal 2016
Increase/(decrease) in depreciation expense	(144)	579

The depreciation expense is included in cost of sales in the consolidated statement of comprehensive income.

Carrying value of land includes ₹617 crore and ₹359 crore as of March 31, 2015 and March 31, 2014, respectively, towards deposits paid under certain lease-cum-sale agreements to acquire land including agreements where the Company has an option to purchase or renew the properties on expiry of the lease period. The contractual commitments for capital expenditure were ₹1,574 crore and ₹1,363 crore, as of March 31, 2015 and March 31, 2014, respectively.

2.6 Goodwill and intangible assets

Following is a summary of changes in the carrying amount of goodwill:

(In ₹ crore)

	As of	
	March 31, 2015	March 31, 2014
Carrying value at the beginning	2,157	1,976
Goodwill on Panaya acquisition (Refer note 2.3)	1,078	-
Translation differences	(144)	181
Carrying value at the end	3,091	2,157

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the cash generate units (CGU) or groups of CGU's, which benefit from the synergies of the acquisition. The chief operating decision maker reviews the goodwill for any impairment at the operating segment level, which is represented through groups of CGU's.

Effective the year ended March 31, 2014, the company reorganized its business to strengthen its focus on growing existing client relationships and increasing market share through service differentiation and operational agility. Consequent to the internal reorganization there were changes effected in the segments based on the "management approach" as defined in IFRS 8, Operating Segments. (Refer Note 2.19). Accordingly the goodwill has been allocated to the new operating segments.

The following table presents the allocation of goodwill to operating segments:

Segment	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Financial services	663	448
Insurance	367	302
Manufacturing	656	458
Energy, Communication and services	318	212
Resources & utilities	141	97
Retail, Consumer packaged goods and logistics	473	321
Life Sciences and Healthcare	193	130
Growth Markets	280	189
Total	3,091	2,157

The entire goodwill relating to Infosys BPO's acquisition of McCamish has been allocated to the groups of CGU's which are represented by the Insurance segment.

The goodwill relating to Infosys Lodestone, Portland and Panaya acquisitions has been allocated to the groups of CGU's which are represented by the entity's operating segment.

The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value-in-use is determined based on specific calculations. These calculations use pre-tax cash flow projections over a period of five years, based on financial budgets approved by management and an average of the range of each assumption mentioned below. As of March 31, 2015, the estimated recoverable amount of the CGU exceeded its carrying amount. The recoverable amount was computed based on the fair value being higher than value-in-use and the carrying amount of the CGU was computed by allocating the net assets to operating segments for the purpose of impairment testing. The key assumptions used for the calculations are as follows:

	March 31, 2015	March 31, 2014
Long term growth rate	8-10	8-10
Operating margins	17-20	17-20
Discount rate	13.9	13.2

The above discount rate is based on the Weighted Average Cost of Capital (WACC) of the Company. These estimates are likely to differ from future actual results of operations and cash flows.

Following are the changes in the carrying value of acquired intangible assets for the year ended March 31, 2015:

	<i>(In ₹ crore)</i>							
	Customer related	Software related	Sub-contracting rights related	Intellectual property rights related	Land use-rights related	Marketing Related	Others	Total
Gross carrying value as of April 1, 2014	381	35	21	11	68	28	9	553
Additions through business combination (Refer note 2.3)	82	243	-	-	-	22	26	373
Deletion	-	(17)	-	-	-	-	-	(17)
Translation differences	(15)	-	-	-	3	(1)	(1)	(14)
Gross carrying value as of March 31, 2015	448	261	21	11	71	49	34	895
Accumulated amortization as of April 1, 2014	(125)	(26)	(19)	(11)	(3)	(20)	(7)	(211)
Additions through business combination (Refer note 2.3)	-	-	-	-	-	(1)	-	(1)
Amortization expense	(41)	(12)	(2)	-	(1)	(8)	(2)	(66)
Deletion	-	17	-	-	-	-	-	17
Translation differences	4	-	-	-	(1)	1	-	4
Accumulated amortization as of March 31, 2015	(162)	(21)	(21)	(11)	(5)	(28)	(9)	(257)
Carrying value as of April 1, 2014	256	9	2	-	65	8	2	342
Carrying value as of March 31, 2015	286	240	-	-	66	21	25	638

Following are the changes in the carrying value of acquired intangible assets for the year ended March 31, 2014:

(In ₹ crore)

	Customer related	Software related	Sub-contracting rights related	Intellectual property rights related	Land use-rights related	Marketing related	Others	Total
Gross carrying value as of April 1, 2013	341	32	21	11	61	24	9	499
Additions	-	-	-	-	-	-	-	-
Translation differences	40	3	-	-	7	4	-	54
Gross carrying value as of March 31, 2014	381	35	21	11	68	28	9	553
Accumulated amortization as of April 1, 2013	(80)	(19)	(12)	(11)	(1)	(5)	(3)	(131)
Amortization expense	(43)	(4)	(7)	-	(1)	(14)	(4)	(73)
Translation differences	(2)	(3)	-	-	(1)	(1)	-	(7)
Accumulated amortization as of March 31, 2014	(125)	(26)	(19)	(11)	(3)	(20)	(7)	(211)
Carrying value as of April 1, 2013	261	13	9	-	60	19	6	368
Carrying value as of March 31, 2014	256	9	2	-	65	8	2	342

The estimated useful lives and remaining useful life of intangible assets as of March 31, 2015 are as follows:

(in years)

Intangible asset	Asset acquisition/ Business combination	Useful life	Remaining Useful life
Sub-contracting rights	Asset acquisition	3	-
Land use rights	Asset acquisition	50	46
Customer contracts and relationships	Philips BPO	7	-
Customer contracts and relationships	McCamish	9	4
Customer contracts and relationships	Portland	10	7
Customer contracts and relationships	Seabury and Smith	5	2
Customer contracts	Lodestone	2	-
Customer relationships	Lodestone	10	8
Brand	Lodestone	2	-
Technology	Panaya	10	10
Trade name	Panaya	10	10
Customer contracts and relationships	Panaya	3	3
Non-compete agreements	Panaya	3	3

The amortization expense is included in cost of sales in the consolidated statement of comprehensive income.

Research and development expense recognized in net profit in the consolidated statement of comprehensive income, for the year ended March 31, 2015 and March 31, 2014 was ₹673 crore and ₹894 crore, respectively.

2.7 Financial instruments

Financial instruments by category

The carrying value and fair value of financial instruments by categories as of March 31, 2015 were as follows:

	<i>(In ₹ crore)</i>				
	Loans and receivables	Financial assets/ liabilities at fair value through profit and loss	Available for sale	Trade and other payables	Total carrying value/fair value
Assets:					
Cash and cash equivalents (Refer Note 2.1)	30,367	-	-	-	30,367
Available-for-sale financial assets (Refer Note 2.2)	-	-	2,219	-	2,219
Trade receivables	9,713	-	-	-	9,713
Unbilled revenue	2,845	-	-	-	2,845
Prepayments and other assets (Refer Note 2.4)	1,959	-	-	-	1,959
Derivative financial instruments	-	101	-	-	101
Total	44,884	101	2,219	-	47,204
Liabilities:					
Trade payables	-	-	-	140	140
Derivative financial instruments	-	3	-	-	3
Client deposits	-	-	-	27	27
Employee benefit obligations	-	-	-	1,069	1,069
Other liabilities (Refer Note 2.9)	-	-	-	4,891	4,891
Total	-	3	-	6,127	6,130

The carrying value and fair value of financial instruments by categories as of March 31, 2014 were as follows:

	<i>(In ₹ crore)</i>				
	Loans and receivables	Financial assets/ liabilities at fair value through profit and loss	Available for sale	Trade and other payables	Total carrying value/fair value
Assets:					
Cash and cash equivalents (Refer Note 2.1)	25,950	-	-	-	25,950
Available-for-sale financial assets (Refer Note 2.2)	-	-	3,449	-	3,449
Investment in certificates of deposit	859	-	-	-	859
Trade receivables	8,351	-	-	-	8,351
Unbilled revenue	2,811	-	-	-	2,811
Prepayments and other assets (Refer Note 2.4)	1,577	-	-	-	1,577
Derivative financial instruments	-	215	-	-	215
Total	39,548	215	3,449	-	43,212
Liabilities:					
Trade payables	-	-	-	173	173
Client deposits	-	-	-	40	40
Employee benefit obligations	-	-	-	954	954
Other liabilities (Refer Note 2.9)	-	-	-	4,110	4,110
Total	-	-	-	5,277	5,277

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2015:

	<i>(In ₹ crore)</i>			
	As of March 31, Fair value measurement at end of the reporting period/year using 2015			
	Level 1	Level 2	Level 3	
Assets				
Available- for- sale financial asset- Investments in liquid mutual fund units (Refer Note 2.2)	842	842	-	-
Available- for- sale financial asset- Investments in fixed maturity plan securities (Refer Note 2.2)	32	-	32	-
Available- for- sale financial asset- Investments in quoted debt securities (Refer Note 2.2)	1,344	608	736	-
Derivative financial instruments - gain on outstanding foreign exchange forward and option contracts	101	-	101	-
Liabilities				
Derivative financial instruments - loss on outstanding foreign exchange forward and option contracts	3	-	3	-

During the quarter ended March 31, 2015, quoted debt securities of ₹736 crore were transferred from Level 1 to Level 2 of fair value hierarchy, since these were valued based on market observable inputs.

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2014:

	<i>(In ₹ crore)</i>			
	As of March 31, 2014	Fair value measurement at end of the reporting period/year using		
		Level 1	Level 2	Level 3
Assets				
Available- for- sale financial asset- Investments in liquid mutual fund units (Refer Note 2.2)	2,051	2,051	-	-
Available- for- sale financial asset- Investments in fixed maturity plan securities (Refer Note 2.2)	146	-	146	-
Available- for- sale financial asset- Investments in quoted debt securities (Refer Note 2.2)	1,245	1,245	-	-
Available- for- sale financial asset- Investments in unquoted equity instruments (Refer Note 2.2)	7	-	7	-
Derivative financial instruments- gain on outstanding foreign exchange forward and option contracts	215	-	215	-
Liabilities				
Derivative financial instruments- loss on outstanding foreign exchange forward and option contracts	-	-	-	-

Income from financial assets or liabilities that are not at fair value through profit or loss is as follows:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Interest income on deposits and certificates of deposit	2,631	2,156
Income from available-for-sale financial assets	261	224
	2,892	2,380

Derivative financial instruments

The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign exchange forward and option contracts:

	As of		As of	
	March 31, 2015		March 31, 2014	
	In million	In ₹ crore	In million	In ₹ crore
Forward contracts				
In U.S. dollars	716	4,475	751	4,500
In Euro	67	447	64	531
In United Kingdom Pound Sterling	73	671	77	772
In Australian dollars	98	466	75	415
In Canadian dollars	12	59	-	-
In Singapore dollars	25	114	-	-
Option contracts				
In U.S. dollars	-	-	20	120
Total forwards and options		6,232		6,338

The Group recognized a net gain on derivative financial instruments of ₹514 crore during the year ended March 31, 2015 as against a net loss on derivative financial instruments of ₹253 crore during the year ended March 31, 2014, which are included in other income.

The foreign exchange forward and option contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Not later than one month	1,484	1,185
Later than one month and not later than three months	3,781	2,795
Later than three months and not later than one year	967	2,358
	6,232	6,338

Financial risk management

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The demographics of the customer including the default risk of the industry and country in which the customer operates also has an influence on credit risk assessment.

Market risk

The Group operates internationally and a major portion of the business is transacted in several currencies and consequently the Group is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Group holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Group's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table gives details in respect of the outstanding foreign exchange forward and option contracts:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Aggregate amount of outstanding forward and option contracts	6,232	6,338
Gain on outstanding forward and option contracts	101	215
Loss on outstanding forward and option contracts	3	-

The following table analyzes foreign currency risk from financial instruments as of March 31, 2015:

	<i>(In ₹ crore)</i>					
	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Cash and cash equivalents	994	59	41	119	413	1,626
Trade receivables	6,719	1,040	540	469	600	9,368
Unbilled revenue	1,714	330	126	100	250	2,520
Other assets	81	28	19	9	61	198
Trade payables	(59)	(14)	-	(2)	(56)	(131)
Client deposits	(20)	-	(1)	-	(6)	(27)

Net assets / (liabilities)	7,483	1,125	587	518	355	10,068

The following table analyzes foreign currency risk from financial instruments as of March 31, 2014:

	<i>(In ₹ crore)</i>					
	U.S. dollars	Euro	United Kingdom Pound Sterling	Australian dollars	Other currencies	Total
Cash and cash equivalents	865	102	198	182	376	1,723
Trade receivables	5,378	1,093	610	519	449	8,049
Unbilled revenue	1,624	383	132	194	247	2,580
Other assets	72	39	15	10	52	188
Trade payables	(19)	(17)	(8)	(2)	(98)	(144)
Client deposits	(18)	(17)	-	-	(5)	(40)
Accrued expenses	(763)	(156)	(61)	(34)	(184)	(1,198)
Employee benefit obligations	(382)	(73)	(40)	(133)	(98)	(726)
Other liabilities	(449)	(33)	(3)	(51)	(299)	(835)
Net assets / (liabilities)	6,308	1,321	843	685	440	9,597

For the year ended March 31, 2015 and March 31, 2014, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, has affected the Company's incremental operating margins by approximately 0.52% and 0.48%, respectively.

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹9,713 crore and ₹8,351 crore as of March 31, 2015 and March 31, 2014, respectively and unbilled revenue amounting to ₹2,845 crore and ₹2,811 crore as of March 31, 2015 and March 31, 2014, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business.

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

	<i>(In %)</i>	
	Year ended March 31,	
	2015	2014
Revenue from top customer	3.3	3.8
Revenue from top five customers	13.5	14.4

Financial assets that are neither past due nor impaired

Cash and cash equivalents, available-for-sale financial assets and investment in certificates of deposit are neither past due nor impaired. Cash and cash equivalents include deposits with banks and corporations with high credit-ratings assigned by international and domestic credit-rating agencies. Available-for-sale financial assets include investment in liquid mutual fund units, quoted debt securities and unquoted equity securities. Certificates of deposit represent funds deposited at a bank or other eligible financial institution for a specified time period. Investment in quoted debt securities represents the investments made in debt securities issued by government and quasi government organizations. Of the total trade receivables, ₹7,336 crore and ₹6,377 crore as of March 31, 2015 and March 31, 2014, respectively, were neither past due nor impaired.

There is no other class of financial assets that is not past due but impaired except for trade receivables of ₹23 crore and ₹18 crore as of March 31, 2015 and March 31, 2014, respectively.

Financial assets that are past due but not impaired

The Group's credit period generally ranges from 30-60 days. The age analysis of the trade receivables have been considered from the due date. The age wise break up of trade receivables, net of allowances of ₹343 crore and ₹196 crore as of March 31, 2015 and March 31, 2014, respectively, that are past due, is given below:

Period (in days)	(In ₹ crore)	
	As of	
	March 31, 2015	March 31, 2014
Less than 30	1,641	1,369
31 – 60	345	252
61 – 90	89	124
More than 90	302	229
	2,377	1,974

The provision for doubtful trade receivable for the year ended March 31, 2015 and March 31, 2014 was ₹171 crore and ₹138 crore, respectively.

	(In ₹ crore)	
	Year ended March 31,	
	2015	2014
Balance at the beginning	214	95
Translation differences	(7)	6
Provisions for doubtful accounts receivable (refer note 2.10)	171	138
Trade receivables written off	(12)	(25)
Balance at the end	366	214

Liquidity risk

As of March 31, 2015, the Group had a working capital of ₹35,813 crore including cash and cash equivalents of ₹30,367 crore and current available-for-sale financial assets of ₹874 crore. As of March 31, 2014, the Group had a working capital of ₹33,881 crore including cash and cash equivalents of ₹25,950 crore, current available-for-sale financial assets of ₹2,197 crore and investment in certificates of deposit ₹859 crore.

As of March 31, 2015 and March 31, 2014, the outstanding employee benefit obligations were ₹1,069 crore and ₹954 crore, respectively, which have been substantially funded. Further, as of March 31, 2015 and March 31, 2014, the Group had no outstanding bank borrowings. Accordingly, no liquidity risk is perceived.

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2015:

Particulars	(In ₹ crore)				
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	140	-	-	-	140
Client deposits	27	-	-	-	27
Other liabilities (excluding liability towards acquisition - Refer Note 2.9)	4,404	-	-	-	4,404
Liability towards acquisitions on an undiscounted basis (Refer Note 2.9)	525	-	-	-	525

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2014:

Particulars	(In ₹ crore)				
	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	173	-	-	-	173
Client deposits	40	-	-	-	40
Other liabilities (excluding liabilities towards acquisition and incentive accruals - Refer Note 2.9)	3,832	-	-	-	3,832
Incentive accruals on an undiscounted basis (Refer note 2.9)	-	23	-	-	23
Liability towards acquisitions on an undiscounted basis (Refer Note 2.9)	-	330	-	-	330

As of March 31, 2015 and March 31, 2014, the group had outstanding financial guarantees of ₹43 crore and ₹37 crore, respectively, towards leased premises. These financial guarantees can be invoked upon breach of any term of the lease agreement. To the group's knowledge there has been no breach of any term of the lease agreement as of March 31, 2015 and March 31, 2014.

Offsetting of financial assets and financial liabilities:

The group offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognised amounts and the group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The following table provides quantitative information about offsetting of derivative financial assets and derivative financial liabilities:

	(In ₹ crore)			
	As of		As of	
	March 31, 2015		March 31, 2014	
	Derivative financial asset	Derivative financial liability	Derivative financial asset	Derivative financial liability
Gross amount of recognised financial asset/liability	105	(7)	215	-
Amount set off	(4)	4	-	-
Net amount presented in balance sheet	101	(3)	215	-

2.8 Provisions

Provisions comprise the following:

	(In ₹ crore)	
	As of	
	March 31, 2015	March 31, 2014
Provision for post sales client support and other provisions	478	379
Provisions towards visa related matters (Refer note 2.21)	-	-
	478	379

Provision for post sales client support and other provisions represents cost associated with providing post sales support services which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 6 months to 1 year. The movement in the provision for post sales client support and other provisions is as follows:

	(In ₹ crore)	
	Year ended March	
	31, 2015	
Balance at the beginning	379	
Provision recognized/ (reversed)	172	
Provision utilized	(84)	
Translation difference	11	
Balance at the end	478	

Provision for post sales client support and other provisions is included in cost of sales in the statement of comprehensive income.

Provision towards visa related matters amounting to ₹219 crore (including legal costs) was created and paid during the year ended March 31, 2014.

As of March 31, 2015 and March 31, 2014, claims against the company, not acknowledged as debts, net of amounts paid (excluding demands from Indian Income tax authorities- Refer note 2.16) amounted to ₹261 crore and ₹163 crore, respectively.

2.9 Other liabilities

Other liabilities comprise the following :

	(In ₹ crore)	
	As of	
	March 31, 2015	March 31, 2014
Current		
Accrued compensation to employees	2,106	1,594
Accrued expenses	1,984	1,846
Withholding taxes payable ⁽¹⁾	904	912
Retainage	53	82
Liabilities of controlled trusts	177	151
Deferred income - government grant on land use rights ⁽¹⁾ (Refer Note 2.6)	1	1
Premiums held in trust ⁽²⁾	-	135
Accrued gratuity	7	-
Liability towards acquisition of business (Refer note 2.3)	487	-
Others	77	24
	5,796	4,745
Non-current		
Liability towards acquisition of business (Refer note 2.3)	-	255
Incentive accruals	-	23
Deferred income - government grant on land use rights ⁽¹⁾ (Refer Note 2.6)	46	45
	46	323
	5,842	5,068
Financial liabilities included in other liabilities	4,891	4,110
Financial liability towards acquisitions on an undiscounted basis	525	330
Financial liability towards incentive accruals on an undiscounted basis (Refer note 2.3)	-	23

⁽¹⁾ Non financial liabilities

⁽²⁾ Represents premiums collected from policyholders and payable to insurance providers by a service provider maintaining the amounts in fiduciary capacity.

Accrued expenses primarily relates to cost of technical sub-contractors, telecommunication charges, legal and professional charges, brand building expenses, overseas travel expenses and office maintenance. Others include unpaid dividend balances.

2.10 Expenses by nature

(In ₹ crore)

	Year ended March 31,	
	2015	2014
Employee benefit costs (Refer Note 2.11.4)	29,742	28,834
Deferred purchase price pertaining to acquisition (Refer Note 2.3)	252	188
Depreciation and amortization charges (Refer Note 2.5 and 2.6)	1,069	1,374
Travelling costs	1,818	1,697
Consultancy and professional charges	422	504

Total	3,663	3,326

2.11 Employee benefits
2.11.1 Gratuity

The following tables set out the funded status of the gratuity plans and the amounts recognized in the Group's financial statements as of March 31, 2015 and March 31, 2014:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Change in benefit obligations		
Benefit obligations at the beginning	707	652
Service cost	95	99
Interest expense	60	47
Remeasurements - Actuarial (gains)/ losses	70	9
Benefits paid	(116)	(100)
Benefit obligations at the end	816	707
Change in plan assets		
Fair value of plan assets at the beginning	717	681
Interest income	67	52
Remeasurements- Return on plan assets excluding amounts included in interest income	6	8
Contributions	162	76
Benefits paid	(116)	(100)
Fair value of plan assets at the end	836	717
Funded status	20	10
Prepaid gratuity benefit	27	10
Accrued gratuity	(7)	-

Amount for the year ended March 31, 2015 and March 31, 2014 recognised in net profit in the statement of comprehensive income:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Service cost	95	99
Net interest on the net defined benefit liability/(asset)	(7)	(5)
Net gratuity cost	88	94

Amount for the year ended March 31, 2015 and March 31, 2014 recognised in statement of other comprehensive income:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Remeasurements of the net defined benefit liability/ (asset)		
Actuarial (gains) / losses	70	9
(Return) / loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	(6)	(8)
	64	1

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
(Gain)/loss from change in demographic assumptions	-	16
(Gain)/loss from change in financial assumptions	55	(24)
	55	(8)

Amounts recognised in statement of comprehensive income has been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Cost of sales	78	84
Selling and marketing expenses	7	7
Administrative expenses	3	3
	88	94

Effective July 1, 2007, the Company amended its Gratuity Plan, to suspend the voluntary defined death benefit component of the Gratuity Plan. This amendment resulted in a negative past service cost amounting to ₹37 crore, which was being amortized on a straight-line basis over the average remaining service period of 10 years. On adoption of Revised IAS 19, the unamortized negative past service cost of ₹15 crore as of March 31, 2013 has been credited to retained earnings.

The weighted-average assumptions used to determine benefit obligations as of March 31, 2015 and March 31, 2014 are set out below:

	As of	
	March 31, 2015	March 31, 2014
Discount rate	7.8%	9.2%
Weighted average rate of increase in compensation levels	8.0%	8.0%

The weighted-average assumptions used to determine net periodic benefit cost for the year ended March 31, 2015 and March 31, 2014 are set out below:

	Year ended March 31,	
	2015	2014
Discount rate	9.2%	8.0%
Weighted average rate of increase in compensation levels	8.0%	7.3%
Weighted average duration of defined benefit obligation	6.4 years	9 years

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. In case of Infosys BPO and Edgeverve, contributions are made to the Infosys BPO Employees' Gratuity Fund Trust and Edgeverve Systems Limited Employees Gratuity Fund Trust, respectively. Trustees administer contributions made to the trust. As of March 31, 2015 and March 31, 2014, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for the year ended March 31, 2015 and March 31, 2014 were ₹73 crore and ₹60 crore, respectively.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

As of March 31, 2015, every percentage point increase / decrease in discount rate will affect our gratuity benefit obligation by approximately ₹42 crore.

As of March 31, 2015, every percentage point increase / decrease in weighted average rate of increase in compensation levels will affect our gratuity benefit obligation by approximately ₹34 crore.

The Group expects to contribute ₹165 crore to the gratuity trusts during the fiscal 2016.

Maturity profile of defined benefit obligation:

	<i>(in ₹ crore)</i>
Within 1 year	131
1-2 year	132
2-3 year	139
3-4 year	148
4-5 year	156
5-10 years	792

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant.

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

2.11.2 Superannuation

The Company contributed ₹215 crore and ₹202 crore to the superannuation plan during the year ended March 31, 2015 and March 31, 2014, respectively.

Superannuation contributions have been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Cost of sales	190	180
Selling and marketing expenses	17	15
Administrative expenses	8	7
	215	202

2.11.3 Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and in most cases the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is no shortfall as at March 31, 2015, 2014, 2013, 2012, 2011 and 2010, respectively.

The details of fund and plan asset position are given below:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Plan assets at period end, at fair value	2,912	2,817
Present value of benefit obligation at period end	2,912	2,817
Asset recognized in balance sheet	-	-

The plan assets have been primarily invested in government securities.

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

	As of	
	March 31, 2015	March 31, 2014
Government of India (GOI) bond yield	7.8%	9.2%
Remaining term of maturity	7 years	8 years
Expected guaranteed interest rate	8.8%	8.8%

The Group contributed ₹345 crore and ₹295 crore to the provident fund during the year ended March 31, 2015 and March 31, 2014, respectively.

Provident fund contributions have been apportioned between cost of sales, selling and marketing expenses and administrative expenses on the basis of direct employee cost as follows:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Cost of sales	305	262
Selling and marketing expenses	28	22
Administrative expenses	12	11
	345	295

2.11.4 Employee benefit costs include:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Salaries and bonus*	29,094	28,243
Defined contribution plans	265	235
Defined benefit plans	383	356
	29,742	28,834

* Includes stock compensation expense of ₹2 crore for the year ended March 31, 2015.

The gratuity and provident plans are applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit plans.

The employee benefit cost is recognized in the following line items in the statement of comprehensive income:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Cost of sales	26,296	25,645
Selling and marketing expenses	2,380	2,167
Administrative expenses	1,066	1,022
	29,742	28,834

2.12 Equity**Share capital and share premium**

The Company has only one class of shares referred to as equity shares having a par value of ₹5. The Company has allotted 57,42,36,166 fully paid up equity shares of face value ₹5/- each during the three months ended December 31, 2014 pursuant to a bonus issue approved by the shareholders through postal ballot. Record date fixed by the Board of Directors was December 3, 2014. Bonus share of one equity share for every equity share held, and a stock dividend of one American Depository Share (ADS) for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depository Receipt holder remains unchanged. Options granted under the stock option plan have been adjusted for bonus shares. 56,67,200 and 28,33,600 shares were held by controlled trust, as of March 31, 2015 and March 31, 2014, respectively.

The Board in its meeting held on April 24, 2015 has considered and approved and recommended a bonus issue of one equity share for every equity share held, and a stock dividend of one American Depository Share (ADS) for every ADS held, respectively, as on a record date to be determined. Consequently, the ratio of equity shares underlying the ADSs held by an American Depository Receipt holder would remain unchanged. The bonus issue of equity shares and ADSs will be subject to approval by the shareholders through postal ballot, and any other applicable statutory and regulatory approvals. Accordingly, the record date for the bonus issues of equity shares and ADSs will be announced in due course.

The amount received in excess of the par value has been classified as share premium. Additionally, share-based compensation recognized in net profit in the consolidated statement of comprehensive income is credited to share premium. Amounts have been utilised for bonus issue from share premium account.

Retained earnings

Retained earnings represent the amount of accumulated earnings of the Group.

Other components of equity

Other components of equity consist of currency translation, fair value changes on available-for-sale financial assets and remeasurement of net defined benefit liability/asset.

The Company's objective when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares. As of March 31, 2015, the Company has only one class of equity shares and has no debt. Consequent to the above capital structure there are no externally imposed capital requirements.

The rights of equity shareholders are set out below.

2.12.1 Voting

Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depositary Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

2.12.2 Dividends

The Company declares and pays dividends in Indian rupees. The remittance of dividends outside India is governed by Indian law on foreign exchange and is subject to applicable distribution taxes

The amount of per share dividend recognized as distributions to equity shareholders for the year ended March 31, 2015 and March 31, 2014 was ₹73/- (not adjusted for bonus issue) and ₹47/- (not adjusted for bonus issue), respectively.

The Board has decided to increase dividend pay-out ratio from up to 40% to up to 50% of post-tax consolidated profits effective fiscal 2015.

The Board of directors, in their meeting on April 24, 2015 proposed a final dividend of ₹29.50/- per equity share (equivalent to ₹14.75 per share after 1:1 bonus issue, if approved by shareholders). The proposal is subject to the approval of shareholders at the Annual General Meeting to be held on June 22, 2015, and if approved, would result in a cash outflow of approximately ₹4,078 crore, inclusive of corporate dividend tax.

2.12.3 Liquidation

In the event of liquidation of the Company, the holders of shares shall be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts. However, no such preferential amounts exist currently, other than the amounts held by irrevocable controlled trusts. The amount distributed will be in proportion to the number of equity shares held by the shareholders. For irrevocable controlled trusts, the corpus would be settled in favour of the beneficiaries.

2.12.4 Share options

There are no voting, dividend or liquidation rights to the holders of options issued under the Company's share option plans.

2.13 Other income

Other income consists of the following:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Interest income on deposits and certificates of deposit	2,631	2,156
Exchange gains/ (losses) on forward and options contracts	514	(253)
Exchange gains/ (losses) on translation of other assets and liabilities	(39)	483
Income from available-for-sale financial assets	261	224
Others	60	59
	<u>3,427</u>	<u>2,669</u>

2.14 Operating leases

The Group has various operating leases, mainly for office buildings, that are renewable on a periodic basis. Rental expense for operating leases was ₹309 crore and ₹319 crore for the year ended March 31, 2015 and March 31, 2014, respectively.

The schedule of future minimum rental payments in respect of non-cancellable operating leases is set out below:

	<i>(In ₹ crore)</i>	
	As of	
	March 31, 2015	March 31, 2014
Within one year of the balance sheet date	168	251
Due in a period between one year and five years	395	563
Due after five years	168	288

A majority of the Group's operating lease arrangements extend up to a maximum of ten years from their respective dates of inception, and relates to rented overseas premises. Some of these lease agreements have a price escalation clause.

2.15 Employees' Stock Option Plans (ESOP)

2011 RSU Plan (the 2011 Plan): The Company has a 2011 RSU Plan which provides for the grant of restricted stock units (RSUs) to eligible employees of the Company. The Board of Directors recommended establishment of the 2011 Plan to the shareholders on August 30, 2011 and the shareholders approved the recommendation of the Board of Directors on October 17, 2011 through a postal ballot. The maximum aggregate number of shares that may be awarded under the Plan is 56,67,200 shares (currently held by the Infosys Limited Employees' Welfare Trust and adjusted for bonus shares issued) and the plan shall continue in effect for a term of 10 years from the date of initial grant under the plan. The RSUs will be issued at par value of the equity share. The 2011 Plan is administered by the Management Development and Compensation Committee (the Committee) now known as the Nomination and Remuneration Committee (the Committee) and through the Infosys Limited Employees' Welfare Trust (the trust). The Committee is comprised of independent members of the Board of Directors.

During the year ended March 31, 2015 the company made a grant of 27,067 restricted stock units to Dr. Vishal Sikka, Chief Executive Officer and Managing Director. The RSUs will vest over a period of four years from the date of the grant in the proportions specified in the award agreement. The RSUs will vest subject to achievement of certain key performance indicators as set forth in the award agreement for each applicable year of the vesting tranche and continued employment through each vesting date.

The activity in the 2011 Plan during the year ended March 31, 2015 is set out below:

Particulars	Year ended March 31, 2015	
	Shares arising out of options	Weighted average exercise price
2011 Plan:		
Outstanding at the beginning	-	-
Granted*	54,134	5
Forfeited and expired	-	-
Exercised	-	-
Outstanding at the end	54,134	5
Exercisable at the end	-	-

*Adjusted for bonus issue. (Refer note 2.12)

The weighted average remaining contractual life of RSUs outstanding as of March 31, 2015 under the 2011 Plan was 2.39 years

The fair value of each RSU is estimated on the date of grant using the Black-Scholes-Merton valuation model. The expected term of an RSU is estimated based on the vesting term and contractual term of the RSU, as well as expected exercise behaviour of the employee who receives the RSU. Expected volatility during the expected term of the RSU is based on historical volatility of the observed market prices of the company's publicly traded equity shares during a period equivalent to the expected term of the RSU.

The fair value of each RSU is estimated on the date of grant using the Black-Scholes-Merton model with the following assumptions:

Particulars	Year ended March 31, 2015
Weighted average share price (₹)	3,549
Exercise price (₹)	5
Expected volatility (%)	30 - 37
Expected life of the option (years)	1 - 4
Expected dividends (%)	1.84
Risk-free interest rate (%)	8 - 9

The weighted average fair value of RSUs on grant date was ₹3,355/-

During the year ended March 31, 2015, the company recorded an employee compensation expense of ₹2 crore in the statement of comprehensive income.

2.16 Income taxes

Income tax expense in the consolidated statement of comprehensive income comprises:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Current taxes		
Domestic taxes	3,115	3,559
Overseas taxes	1,736	750
	4,851	4,309
Deferred taxes		
Domestic taxes	32	(175)
Overseas taxes	46	(72)
	78	(247)
Income tax expense	4,929	4,062

Income tax expense for the year ended March 31, 2015 and March 31, 2014 includes reversals (net of provisions) of ₹158 crore and ₹22 crore, respectively, pertaining to earlier periods.

The revision in the useful life of assets held at April 1, 2014 has resulted in a decrease in deferred tax credit by ₹172 crore for the year ended March 31, 2015 (Refer note 2.5).

Entire deferred income tax for the year ended March 31, 2015 and March 31, 2014 relates to origination and reversal of temporary differences.

A reversal of deferred tax asset of ₹11 crore has been recognized in other comprehensive income for the year ended March 31, 2015. A reversal of deferred tax liability of ₹13 crore, respectively for the year ended March 31, 2014, relating to available-for-sale financial assets has been recognized in other comprehensive income.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

	<i>(In ₹ crore)</i>	
	Year ended March 31,	
	2015	2014
Profit before income taxes	17,258	14,710
Enacted tax rates in India	33.99%	33.99%
Computed expected tax expense	5,866	5,000
Tax effect due to non-taxable income for Indian tax purposes	(1,672)	(1,658)
Branch profit tax	-	(47)
Overseas taxes	817	603
Tax reversals, overseas and domestic (net)	(158)	(22)
Effect of exempt income	(89)	(85)
Effect of unrecognized deferred tax assets	43	66
Effect of differential overseas tax rates	(39)	4
Effect of non-deductible expenses	211	282
Taxes on dividend received from subsidiary	4	4
Additional deduction on research and development expense	(54)	(89)
Others	-	4
Income tax expense	4,929	4,062

The applicable Indian statutory tax rates for fiscal 2015 and fiscal 2014 is 33.99%.

During the year ended March 31, 2015 and March 31, 2014, the company has claimed weighted tax deduction on eligible research and development expenditures based on the approval received from Department of Scientific and Industrial Research (DSIR) on November 23, 2011 which has been renewed effective April 2014. The weighted tax deduction is equal to 200% of such expenditures incurred.

The foreign tax expense is due to income taxes payable overseas, principally in the United States of America. In India, the company has benefited from certain tax incentives that the Government of India had provided to the export of software from specially designated software technology parks, or STPs, in India and the company continues to benefit from certain tax incentives for facilities set up under the Special Economic Zones Act, 2005. However, the tax incentives provided by the Government of India for STPs have expired, and all the STP units are now taxable. Under the Special Economic Zones Act, 2005 scheme, units in designated special economic zones which begin providing services on or after April 1, 2005 are eligible for a deduction of 100 percent of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50 percent of such profits or gains for a further five years. Certain tax benefits are also available for a further period of five years subject to the unit meeting defined conditions.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the year, computed in accordance with the Internal Revenue Code. As of March 31, 2015, Infosys' U.S. branch net assets amounted to approximately ₹4,068 crore. As of March 31, 2015, the Company has provided for branch profit tax of ₹316 crore for its U.S. branch, as the Company estimates that these branch profits are expected to be distributed in the foreseeable future. The change in provision for branch profit tax includes ₹13 crore movement on account of exchange rate during the year ended March 31, 2015.

Deferred income tax liabilities have not been recognized on temporary differences amounting to ₹3,291 crore and ₹2,587 crore as of March 31, 2015 and March 31, 2014, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

The following table provides the details of income tax assets and income tax liabilities as of March 31, 2015 and March 31, 2014:

	As at	
	March 31, 2015	March 31, 2014
Income tax assets	4,089	1,522
Current income tax liabilities	2,818	2,187
Net current income tax asset/ (liability) at the end	1,271	(665)

The gross movement in the current income tax asset/ (liability) for the year ended March 31, 2015 and March 31, 2014 is as follows:

	(In ₹ crore)	
	Year ended March 31,	
	2015	2014
Net current income tax asset/ (liability) at the beginning	(665)	(237)
Translation differences	20	3
Income tax paid	6,751	3,878
Current income tax expense (Refer Note 2.16)	(4,851)	(4,309)
Income tax on other comprehensive income	16	-
Net current income tax asset/ (liability) at the end	1,271	(665)

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

	(In ₹ crore)	
	As of	
	March 31, 2015	March 31, 2014
Deferred income tax assets		
Property, plant and equipment	241	392
Minimum alternate tax credit carry-forwards	-	16
Computer software	51	50
Accrued compensation to employees	48	43
Trade receivables	111	47
Compensated absences	299	268
Accumulated losses	-	4
Available-for-sale financial asset	1	12
Post sales client support	74	98
Others	31	34
Total deferred income tax assets	856	964
Deferred income tax liabilities		
Intangible asset	(159)	(63)
Temporary difference related to branch profits	(316)	(303)
Available-for-sale financial asset	(1)	(1)
Others	(3)	(5)
Total deferred income tax liabilities	(479)	(372)
Deferred income tax assets after set off	537	656
Deferred income tax liabilities after set off	(160)	(64)

Deferred tax assets and deferred tax liabilities have been offset wherever the Group has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

The deferred income tax assets and deferred income tax liabilities recoverable within and after 12 months are as follows:

	(In ₹ crore)	
	As of	
	March 31, 2015	March 31, 2014
Deferred income tax assets to be recovered after 12 months	354	636
Deferred income tax assets to be recovered within 12 months	502	328
Total deferred income tax assets	856	964
Deferred income tax liabilities to be settled after 12 months	(374)	(281)
Deferred income tax liabilities to be settled within 12 months	(105)	(91)
Total deferred income tax liabilities	(479)	(372)

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

The gross movement in the deferred income tax account for the year ended March 31, 2015 and March 31, 2014 is as follows:

	(In ₹ crore)	
	Year ended March 31,	
	2015	2014
Net deferred income tax asset at the beginning	592	384
Addition through business combination (Refer note 2.3)	(99)	-
Translation differences	(27)	(52)
Credits / (charge) relating to temporary differences (Refer Note 2.16)	(78)	247
Temporary difference on available-for-sale financial asset	(11)	13
Net deferred income tax asset at the end	377	592

The charge relating to temporary differences during the year ended March 31, 2015 are primarily on account of property, plant and equipment, post sales client support, available for sale financial assets, minimum alternate tax partially offset by compensated absences and trade receivables. The credits relating to temporary differences during the year ended March 31, 2014 are primarily on account of compensated absences, trade receivables, accrued compensation to employees, intangibles partially offset by property, plant and equipment.

Pursuant to the enacted changes in the Indian Income Tax Laws effective April 1, 2007, a Minimum Alternate Tax (MAT) has been extended to income in respect of which a deduction may be claimed under sections 10A and 10AA of the Income Tax Act. Consequent to the enacted change, Infosys BPO has calculated its tax liability for current domestic taxes after considering MAT. The excess tax paid under MAT provisions being over and above regular tax liability can be carried forward and set off against future tax liabilities computed under regular tax provisions. Infosys BPO was required to pay MAT, and, accordingly, a deferred income tax asset of Nil crore and ₹16 crore has been recognized on the balance sheet as of March 31, 2015 and March 31, 2014, respectively, which can be carried forward for a period of ten years from the year of recognition.

As of March 31, 2015 and March 31, 2014, claims against the group not acknowledged as debts from the Indian Income tax authorities (net of amount paid to statutory authorities of ₹3,568 crore and ₹1,716 crore) amounted to ₹3 crore and ₹19 crore, respectively.

Payment of ₹3,568 crore includes demands from the Indian Income tax authorities of ₹3,337 crore (₹1,548 crore), including interest of ₹964 crore (₹430 crore) upon completion of their tax assessment for fiscal 2006, fiscal 2007, fiscal 2008, fiscal 2009 and fiscal 2010. ₹1,788 crore was paid during the year ended March 31, 2015 consequent to demand from tax authorities in India for fiscal 2010 towards denial of certain tax benefits. The Company has filed an appeal with the Income Tax Appellate Tribunal.

Demand for fiscal 2006, fiscal 2007, fiscal 2008 and fiscal 2009 includes disallowance of a portion of the deduction claimed by the company under Section 10A of the Income Tax Act as determined by the ratio of export turnover to total turnover. This disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. Demand for fiscal 2007, fiscal 2008, fiscal 2009 and fiscal 2010 also includes disallowance of portion of profit earned outside India from the STP units and disallowance of profits earned from SEZ units under section 10AA of the Income Tax Act. The matter for fiscal 2007, fiscal 2008 and fiscal 2009 are pending before the Commissioner of Income tax (Appeals) Bangalore. For matter of fiscal 2006, the Commissioner of Income tax (Appeals) has passed a partly favorable order. The order giving effect of said Commissioner Order is awaited. The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

2.17 Earnings per equity share

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

	Year ended March 31,	
	2015	2014
Basic earnings per equity share - weighted average number of equity shares outstanding ⁽¹⁾⁽²⁾	114,28,05,132	114,28,05,132
Effect of dilutive common equivalent shares - share options outstanding	16,338	-
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	114,28,21,470	114,28,05,132

⁽¹⁾ Excludes treasury shares

⁽²⁾ adjusted for bonus issue. Refer Note 2.12

For the year ended March 31, 2015, and March 31, 2014, there were no outstanding options to purchase equity shares which had an anti-dilutive effect.

	2015	2014
Salaries and other employee benefits to whole-time directors and executive officers ⁽¹⁾⁽²⁾	30	62
Commission and other benefits to non-executive/independent directors	9	10
Total	39	72

⁽¹⁾ Executive Council dissolved effective April 1, 2014 and Executive officers have been appointed with effect from that date.

⁽²⁾ Includes stock compensation expense of ₹2 crore for year ended March 31, 2015.

2.19 Segment reporting

IFRS 8 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Effective quarter ended March 31, 2014, the Company reorganized its segments to strengthen its focus on growing existing client relationships and increasing market share through service differentiation and operational agility. Consequent to the internal reorganization, there were changes effected in the reportable business segments based on the "management approach" as defined in IFRS 8, Operating Segments. The Chief Operating Decision Maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along business segments and geographic segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Business segments of the company is determined based on (i) industry class of the customers (outside of the growth markets) and; (ii) presence of customers in growth markets across industry classes. Business segments of the Company are primarily enterprises in Financial Services and Insurance (FSI), enterprises in Manufacturing (MFG), enterprises in the Energy & utilities, Communication and Services (ECS), enterprises in Retail, Consumer packaged goods and logistics (RCL), enterprises in Life Sciences and Healthcare (LSH) and enterprises in Growth Markets (GMU) comprising enterprises in APAC (Asia Pacific) and Africa. The FSI reportable segments has been aggregated to include the Financial Services operating segment and Insurance operating segment and the ECS reportable segment has been aggregated to include Energy, Communication and Services operating segment and, Resources & Utilities operating segments. Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and off-shore. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Allocated expenses of segments include expenses incurred for rendering services from the Company's offshore software development centres and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Company.

Assets and liabilities used in the Company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Geographical information on revenue and business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

Effective April 1, 2015, the Company reorganized its segments to support its objective of delivery innovation. This structure will help deliver services that will reflect the way technology is consumed in layers by the clients enterprise. Consequent to the internal reorganization, Growth Markets (GMU) comprising enterprises in APAC (Asia Pacific) and Africa have been subsumed across the other verticals.

2.19.3 Significant clients

No client individually accounted for more than 10% of the revenues in the year ended March 31, 2015 and March 31, 2014.

2.20 Corporate Social Responsibility (CSR)

Administrative expenses for year ended March 31, 2015 includes contribution to Infosys Foundation towards CSR. Consequent to the requirements of Section 135 of the Companies Act, 2013, a CSR committee has been formed by the company. The areas for CSR activities are eradication of hunger and malnutrition, promoting education, art and culture, healthcare, destitute care and rehabilitation and rural development projects. The funds were primarily allocated to a corpus and utilized through the year on these activities which are specified in Schedule VII of the Companies Act, 2013.

2.21 Litigation

In 2011, the U.S. Department of Homeland Security ("DHS") reviewed the company's employer eligibility verifications on Form I-9 with respect to its employees working in the United States. In connection with this review, the company was advised that the DHS has found errors in a significant percentage of its Forms I-9.

On October 30, 2013, the company settled the foregoing matters and entered into a Settlement Agreement ("Settlement Agreement") with the U.S. Attorney, the DHS and the United States Department of State ("State," and collectively with the U.S. Attorney and the DHS, the "United States").

In the Settlement Agreement, the company denied and disputed all allegations made by the United States, except for the allegation that the company failed to maintain accurate Forms I-9 records for many of its foreign nationals in the United States in 2010 and 2011 as required by law, and that such failure constituted civil violations of certain laws.

During the year ended March 31, 2014 the Company recorded a charge related to the settlement agreement (including legal costs) of ₹219 crore related to the matters that were the subject of the Settlement agreement. The said amount was paid prior to December 31, 2013.

In addition, the company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the company's results of operations or financial condition.
