## Notes to the Financial Statements

#### 1. Company Overview and Significant Accounting Policies

#### 1.1 Company overview

Infosys ('the Company') is a leading provider in consulting, technology, outsourcing and next-generation services. Along with its subsidiaries, Infosys provides Business IT services (comprising application development and maintenance, independent validation, infrastructure management, engineering services comprising product engineering and life cycle solutions and business process management); Consulting and systems integration services (comprising consulting, enterprise solutions, systems integration and advanced technologies); Products, business platforms and solutions to accelerate intellectual property-led innovation including Finacle, its banking solution; and offerings in the areas of Analytics, Cloud, and Digital Transformation.

The Company is a public limited company incorporated and domiciled in India and has its registered office at Bengaluru, Karnataka, India. The company has its primary listings on the BSE Limited and National Stock Exchange of India Limited. The Company's American Depositary Shares representing equity shares are also listed on the New York Stock Exchange (NYSE), Euronext London and Euronext Paris.

The interim financial statements are approved for issue by the Company's Board of Directors on April 13, 2017.

#### 1.2 Basis of preparation of financial statements

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act , 2013 ('Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101 *First time adoption of Indian Accounting Standards*. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP. Reconciliations and descriptions of the effect of the transition has been summarized in note 2.1.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

As the quarter and year-to-date figures are taken from the source and rounded to the nearest digits, the quarter figures in these financial statements added up to the figures reported for the previous quarters might not always add up to the year-to-date figures reported in these financial statements.

## 1.3 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in note 1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

### 1.4 Critical accounting estimates

### a. Revenue recognition

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

#### b. Income taxes

The Company's two major tax jurisdictions are India and the U.S., though the company also files tax returns in other overseas jurisdictions. Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. Also refer to Note 2.17 and Note 2.24.

### c. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

## 1.5 Revenue recognition

The Company derives revenues primarily from software development and related services and from the licensing of software products. Arrangements with customers for software related services are mainly either on a fixed-price, fixed-timeframe or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last billing to the balance sheet date is recognized as unbilled revenues. Revenue from fixed-price, fixed-timeframe contracts, where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the current contract estimates. Costs and earnings are classified as unbilled revenue while billings in excess of costs are amortized over the term of the contract. Maintenance revenue is recognized ratably over the term of the underlying maintenance arrangement.

In arrangements for software development and related services and maintenance services, the Company has applied the guidance in Ind AS 18, Revenue, by applying the revenue recognition criteria for each separately identifiable component of a single transaction. The arrangements generally meet the criteria for considering software development and related services as separately identifiable components. For allocating the consideration, the Company has measured the revenue in respect of each separable component of a transaction at its fair value, in accordance with principles given in Ind AS 18. The price that is regularly charged for an item when sold separately is the best evidence of its fair value. In cases where the Company is unable to establish objective and reliable evidence of fair value of the software development and related services, the Company has used a residual method to allocate the arrangement consideration. In these cases the balance of the consideration, after allocating the fair values of undelivered components of a transaction has been allocated to the delivered components for which specific fair values do not exist.

License fee revenues are recognized when the general revenue recognition criteria given in Ind AS 18 are met. Arrangements to deliver software products generally have three elements: license, implementation and Annual Technical Services (ATS). The Company has applied the principles given in Ind AS 18 to account for revenues from these multiple element arrangements. Objective and reliable evidence of fair value has been established for ATS. Objective and reliable evidence of fair value is the price charged when the element is sold separately. When other services are provided in conjunction with the licensing arrangement and objective and reliable evidence of fair values have been established, the revenue from such contracts are allocated to each component of the contract in a manner, whereby revenue is deferred for the undelivered services and the residual amounts are recognized as revenue for delivered elements. In the absence of objective and reliable evidence of fair values have been established, the revenue from such contracts of objective and reliable evidence of fair second are recognized using the percentage-of-completion method as the implementation is performed. Revenue from client training, support and other services arising due to the sale of software products is recognized as the services are performed. ATS revenue is recognized ratably over the period in which the services are rendered.

Advances received for services and products are reported as client deposits until all conditions for revenue recognition are met.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying revenue transaction that results in progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. The discounts are passed on to the customer either as direct payments or as a reduction of payments due from the customer.

The company presents revenues net of value-added taxes in its Statement of Profit and Loss.

#### 1.6 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives using the straight-line method. The estimated useful lives of assets are as follows:

Building <sup>(1)</sup>	22-25 years
Plant and machinery(1)	5 years
Office equipment	5 years
Computer equipment <sup>(1)</sup>	3-5 years
Furniture and fixtures <sup>(1)</sup>	5 years
Vehicles <sup>(1)</sup>	5 years

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

(1) Based on technical evaluation, the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act 2013.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

#### 1.7 Intangible assets

a

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors (such as the stability of the industry, and known technological advances), and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Amortization methods and useful lives are reviewed periodically including at each financial year end.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as expenses in the Statement of Profit and Loss.

## 1.8 Financial instruments

## 1.8.1 Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

#### 1.8.2 Subsequent measurement

## a. Non-derivative financial instruments

#### (i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

#### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

#### (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

#### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### (v) Investment in subsidiaries

Investment in subsidiaries is carried at cost in the separate financial statements.

#### b. Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

#### (i) Financial assets or financial liabilities, at fair value through profit or loss.

This category has derivative financial assets or liabilities which are not designated as hedges.

Although the company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Statement of Profit and Loss. when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are included in other income. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

## (ii) Cash flow hedge

The company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the statement of profit and loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in the cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the net profit in the Statement of Profit and Loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the Statement of Profit and Loss.

### c. Share capital

## **Ordinary Shares**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

## 1.8.3 Derecognition of financial instruments

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

## 1.9 Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Refer to Note 2.11 in for the disclosure on carrying value and fair value of financial assets and liabilities. For financial assets and liabilities maturing within one year from the balance sheet date and which are not carried at fair value, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### 1.10 Impairment

## a. Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized as an impairment gain or loss in profit or loss.

#### b. Non-financial assets

# (i) Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

## 1.11 Provisions

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### a. Post sales client support

The Company provides its clients with a fixed-period post sales support for corrections of errors and support on all its fixed-price, fixed-timeframe contracts. Costs associated with such support services are accrued at the time related revenues are recorded in the Statement of Profit and Loss. The company estimates such costs based on historical experience and estimates are reviewed on a periodic basis for any material changes in assumptions and likelihood of occurrence.

#### b. Onerous contracts

Provisions for onerous contracts are recognized when the expected benefits to be derived by the company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established the company recognizes any impairment loss on the assets associated with that contract.

#### 1.12 Foreign currency

#### Functional currency

The functional currency of the company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to crore; one crore equals ten million).

## Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cashflow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

#### 1.13 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at later date. Dilutive potential equity shares are determined independently for each period prevented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

#### 1.14 Income taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Deferred income taxes are not provided on the undistributed earnings of subsidiaries and branches where it is expected that the earnings of the subsidiary or branch will not be distributed in the foreseeable future. The company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year. Tax benefits of deductions earned on exercise of employee share options in excess of compensation charged to income are credited to share premium.

#### 1.15 Employee benefits

#### 1.15.1 Gratuity

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The Company fully contributes all ascertained liabilities to the Infosys Limited Employees' Gratuity Fund Trust (the Trust). Trustees administer contributions made to the Trusts and contributions are invested in a scheme with Life Insurance Corporation of India as permitted by laws of India.

The Company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income. The actual return of the portfolio of plan assets, in excess of the yields computed by applying the discount rate used to measure the defined benefit obligation is recognized in other comprehensive income. The effect of any plan amendments are recognized in net profit in the Statement of Profit and Loss.

### 1.15.2 Superannuation

Certain employees of Infosys are participants in a defined contribution plan. The Company has no further obligations to the Plan beyond its monthly contributions which are periodically contributed to a trust fund, the corpus of which is invested with the Life Insurance Corporation of India.

#### 1.15.3 Provident fund

Eligible employees of Infosys receive benefits from a provident fund, which is a defined benefit plan. Both the eligible employee and the company make monthly contributions to the provident fund plan equal to a specified percentage of the covered employee's salary. The Company contributes a portion to the Infosys Limited Employees' Provident Fund Trust. The trust invests in specific designated instruments as permitted by Indian law. The remaining portion is contributed to the government administered pension fund. The rate at which the annual interest is payable to the beneficiaries by the trust is being administered by the government. The Company has an obligation to make good the shortfall, if any, between the return from the investments of the Trust and the notified interest rate.

#### 1.15.4 Compensated absences

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

#### 1.16 Share-based compensation

The Company recognizes compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-Based Payment. The estimated fair value of awards is charged to income on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in-substance, multiple awards with a corresponding increase to share options outstanding account.

#### 1.17 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

## 1.18 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

### 1.19 Other income

Other income is comprised primarily of interest income, dividend income, gain / loss on investments and exchange gain/loss on forward and options contracts and on translation of other assets and liabilities. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

#### 1.20 Leases

Leases under which the company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognized as an expense on a straight line basis in net profit in the Statement of Profit and Loss over the lease term.

#### 1.21 Recent accounting pronouncements

#### 1.21.1 Standards issued but not yet effective

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows' and Ind AS 102, 'Share-based payment,' These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows' and IFRS 2, 'Share-based payment,' respectively. The amendments are applicable to the Company from April 1, 2017.

#### Amendment to Ind AS 7:

The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

The company has evaluated the disclosure requirements of the amendment and the effect on the financial statements is not expected to be material.

#### Amendment to Ind AS 102:

The amendment to Ind AS 102 provides specific guidance to measurement of cash-settled awards, modification of cash-settled awards and awards that include a net settlement feature in respect of withholding taxes.

It clarifies that the fair value of cash-settled awards is determined on a basis consistent with that used for equity-settled awards. Market-based performance conditions and non-vesting conditions are reflected in the 'fair values', but non-market performance conditions and service vesting conditions are reflected in the estimate of the number of awards expected to vest. Also, the amendment clarifies that if the terms and conditions of a cash-settled share-based payment transaction are modified with the result that it becomes an equity-settled share-based payment transaction is accounted for as such from the date of the modification. Further, the amendment requires the award that include a net settlement feature in respect of withholding taxes to be treated as equity-settled in its entirety. The cash payment to the tax authority is treated as if it was part of an equity settlement.

The company is evaluating the requirements of the amendment and the impact on the financial statements.

## 2 Notes to the standalone financial statements for the three months and year ended March 31, 2017

## 2.1 First-time adoption of Ind-AS

These standalone interim financial statements of Infosys Limited for the three months and year ended March 31, 2017 have been prepared in accordance with Ind AS. For the purposes of transition to Ind AS, the Company has followed the guidance prescribed in Ind AS 101 - *First Time adoption of Indian Accounting Standard*, with April 1, 2015 as the transition date and IGAAP as the previous GAAP.

The transition to Ind AS has resulted in changes in the presentation of the financial statements, disclosures in the notes thereto and accounting policies and principles. The accounting policies set out in Note 1 have been applied in preparing the standalone financial statements for the three months and year ended March 31, 2017 and the comparative information. An explanation of how the transition from previous GAAP to Ind AS has affected the Company's Balance Sheet, Statement of Profit and Loss, is set out in note 2.2 and 2.2.2. Exemptions on first time adoption of Ind AS availed in accordance with Ind AS 101 have been set out in note 2.1.1.

## 2.1.1 Exemptions availed on first time adoption of Ind-AS 101

Ind-AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions.

## (a) Share-based payment

The Company is allowed to apply Ind AS 102 Share-based payment to equity instruments that remain unvested as of transition date. The Company has elected to avail this exemption and apply the requirements of Ind AS 102 to all such grants under the 2015 plan (formerly 2011 plan). Accordingly, these options have been measured at fair value as against intrinsic value previously under IGAAP.

The excess of stock compensation expense measured using fair value over the cost recognized under IGAAP using intrinsic value has been adjusted in 'Share Option Outstanding Account', with the corresponding impact taken to the retained earnings as on the transition date.

## (b) Designation of previously recognized financial instruments

Under Ind AS 109, at initial recognition of a financial asset, an entity may make an irrevocable election to present subsequent changes in the fair value of an investment in an equity instrument in other comprehensive income. Ind AS 101 allows such designation of previously recognized financial assets, as 'fair value through other comprehensive income' on the basis of the facts and circumstances that existed at the date of transition to Ind AS.

Accordingly, the Company has designated its investments in certain equity instruments at fair value through other comprehensive income on the basis of the facts and circumstances that existed at the date of transition to Ind AS.

## 2.2 Reconciliations

The following reconciliations provides the effect of transition to Ind AS from IGAAP in accordance with Ind AS 101

1. Equity as at April 1, 2015 and March 31, 2016

2. Net profit for the three months and year ended March 31, 2016

## Explanations for reconciliation of Balance Sheet as previously reported under IGAAP to INDAS

A. Investment

a) Tax free bonds are carried at amortized cost under Ind AS and IGAAP. Investment in equity instruments are carried at fair value through OCI in Ind AS compared to being carried at cost under IGAAP. b) Investments include discounted value of contingent consideration payable on acquisition of business under IndAS as compared to undiscounted value of contingent consideration under IGAAP.

## B. Other financial liabilities

Adjustments includes impact of discounting the deferred and contingent consideration payable for acquisitions under Ind AS

## C. Other liabilities -

Adjustments that reflect unamortised negative past service cost arising on modification of the gratuity plan in an earlier period. Ind AS 19 requires such gains and losses to be adjusted to retained earnings.

## D. Provisions

Adjustments reflect dividend (including corporate dividend tax), declared and approved post reporting period.

## E. Other equity

a) Adjustments to retained earnings and other comprehensive income has been made in accordance with Ind AS, for the above mentioned line items.

b) In addition, as per Ind-AS 19, actuarial gains and losses are recognized in other comprehensive income as compared to being recognized in the statement of profit and loss under IGAAP. c) Profit on transfer of business between entities under common control which were earlier recognized in statement of profit and loss under IGAAP are adjusted to reserves on transition to Ind AS.

Explanations for reconciliation of Statement of Profit and loss as previously reported under IGAAP to Ind AS

# F. Employee benefit expenses

a) As per Ind-AS 19- Employee Benefits, actuarial gains and losses are recognized in other comprehensive income and not reclassified to profit and loss in a subsequent period.

b) Adjustments reflect unamortised negative past service cost arising on modification of the gratuity plan in an earlier period. Ind AS 19 requires such gains and losses to be adjusted to retained earnings.

## G. Deferred and contingent consideration pertaining to acquisition

Adjustments reflect impact of discounting pertaining to deferred consideration and contingent consideration payable for business combinations

#### H. Reversal of exceptional item

Profit on transfer of business between entities under common control has been reversed and taken to business transfer reserve on account of transition to Ind AS

#### I. Current tax

Tax component on actuarial gains and losses which is transferred to other comprehensive income under Ind AS

## 2.2.3 Cash flow statement

There were no significant reconciliation items between cash flows prepared under Indian GAAP and those prepared under Ind AS.

#### 2.3 PROPERTY, PLANT AND EQUIPMENT

Following are the changes in the carrying value of property, plant and equipment for the three months ended March 31, 2017:

(In ₹ crore)

Particulars	Land- Freehold	Land-	Buildings	Plant and	Office	Computer	Furniture and	Vehicles	Total
		Leasehold	(1)(2)	machinery <sup>(2)</sup>	Equipment (2)	equipment (2)	fixtures <sup>(2)</sup>

#### 2.5.1 Investment in Noah Consulting LLC

On November 16, 2015, Infosys has acquired 100% membership interest in Noah Consulting, LLC (Noah), a leading provider of advanced information management consulting services for the oil and gas industry. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of \$33 million ( approximately ₹216 crore), contingent consideration up to \$5 million (approximately ₹33 crore on acquisition date) and retention bonus up to \$32 million (approximately ₹212 crore on acquisition date). The payment of contingent consideration to the sellers of Noah was dependent upon the achievement of certain financial targets by Noah for the year ended December 31, 2015 and December 31, 2016. During the three months ended March 31, 2016 based on the assessment of Noah achieving the targets for the respective periods, the entire contingent consideration was reversed.

### 2.5.2 Investment in Kallidus Inc. & Skava Systems Pvt. Ltd.

On June 2, 2015, Infosys acquired 100% of the voting interests in Kallidus Inc., (d.b.a Skava) (Kallidus), a leading provider of digital experience solutions, including mobile commerce and in-store shopping experiences to large retail clients and 100% of the voting interests of Skava Systems Private Limited, India, an affiliate of Kallidus. The business acquisition was conducted by entering into a share purchase agreement for cash consideration of \$91 million (approximately ₹ 578 crore) and a contingent consideration of upto \$20 million (approximately ₹128 crore on acquisition date), the payment of which is dependent upon the achievement of certain financial targets by Kallidus over a period of 3 years ending on December 31, 2017. During the year ended March 31, 2017 contingent consideration of ₹40 crore was paid to the sellers of Kallidus on the achievement of certain financial targets.

#### 2.5.3 Investment in EdgeVerve Systems Limited

On February 14, 2014, a wholly owned subsidiary EdgeVerve Systems Limited (EdgeVerve) was incorporated. EdgeVerve was created to focus on developing and selling products and platforms. The Company has undertaken an enterprise valuation by an independent valuer and accordingly the business has been transferred for a consideration of ₹421 crore with effect from July 1, 2014. Net assets amounting to ₹9 crore were transferred and accordingly a gain of ₹412 crore had been recorded as an exceptional item under previous GAAP. On adoption of Ind AS, the same has been reversed from retained earnings and transferred to 'Business Transfer Adjustment Reserve', in accordance with Ind AS 103 which requires common control transactions to be recorded at book values. The consideration has been settled through the issue of fully paid up equity shares in EdgeVerve.

On April 24, 2015, the Board of Directors of Infosys authorized the Company to execute a Business Transfer Agreement and related documents with EdgeVerve, to transfer the business of Finacle and Edge Services. Post the requisite approval from shareholders through postal ballot on June 4, 2015, a Business Transfer Agreement and other related documents were executed with EdgeVerve to transfer the business with effect from August 1, 2015. The Company has undertaken an enterprise valuation by an independent valuer and accordingly the business were transferred for a consideration of ₹3,222 crore and ₹177 crore for Finacle and Edge Services, respectively. Net assets amounting to ₹3,036 crore, (including working capital amounting to ₹337 crore) were transferred and accordingly a gain of ₹3,036 crore had been recorded as an exceptional item under previous GAAP. On adoption of Ind AS, the same has been reversed from retained earnings and transferred to 'Business Transfer Adjustment Reserve' under retained earnings, in accordance with Ind AS 103 which requires common control transactions to be recorded at book values.

The consideration was settled through issue of 850,000,000 equity shares amounting to ₹850 crore and 254,900,000 non-convertible redeemable debentures amounting to ₹2,549 crore in EdgeVerve, post the requisite approval from shareholders on December 11, 2015. During the year ended March 31, 2017 EdgeVerve had repaid ₹420 crore by redeeming proportionate number of debentures.

#### 2.5.4 Investment in Infosys Consulting Holding AG (Formerly Lodestone Holding AG)

On October 22, 2012, Infosys acquired 100% of the outstanding share capital of Infosys Consulting Holding AG, a global management consultancy firm headquartered in Zurich, Switzerland. The acquisition was executed through a share purchase agreement for an upfront cash consideration of ₹1,187 crore and a deferred consideration of upto ₹608 crore.

The deferred consideration was payable to the selling shareholders of Lodestone on the third anniversary of the acquisition date and was contingent upon their continued employment for a period of three years. The investment in Lodestone was recorded at the acquisition cost and the deferred consideration was being recognized on a proportionate basis over a period of three years from the date of acquisition. During the year ended March 31, 2016, the liability towards deferred consideration was settled.

\* On account of fair value changes including interest accrued

#### Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2017:

				(In ₹ crore)
Particulars	As of March 31, 2017		urement at end of the eriod/year using

*Discounted \$20 million (approximately ₹132 crore) at 13.7%				

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of April 1, 2015:

Particulars	As of April 1, 2015	Fair value measurement at en	d of the reporting perio	(In ₹ crore) od/year using
		Level 1	Level 2	Level 3
Assets				
Investments in liquid mutual fund units (Refer Note 2.5)	749	749	-	-
Investments in tax free bonds (Refer Note 2.5)	1,269	533	736	-
Investments in equity instruments (Refer Note 2.5)	1	-	-	1
Derivative financial instruments - foreign currency forward and option contracts (Refer note 2.7)	94	-	94	-
Liabilities				
Derivative financial instruments - foreign currency forward and option contracts (Refer note 2.13)	-	-	-	-

A one percentage point change in the unobservable inputs used in fair valuation of Level 3 assets and liabilities does not have a significant impact in its value.

The movement in contingent consideration as of March 31, 2017 from March 31, 2016 is on account of settlement of contingent consideration of ₹40 crore and change in discount rates and passage of time. The movement in level 3 investments during the year ended March 31, 2017 is on account of purchase of additional investments during the year and change in fair value.

The fair value of liquid mutual funds is based on quoted price. The fair value of tax free bonds and government bonds is based on quoted prices and market observable inputs. The fair value is of non-convertible debentures is based on quoted prices and market observable inputs. The fair value of fixed maturity plan securities and certificates of deposit is based on market observable inputs. Derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The amount invested and fair value of unquoted equity and preference securities of March 31, 2017 is ₹134 crore and ₹132 crore, respectively. The fair value is determined using Level 3 inputs like Discounted cash flows, Market multiple method, Option pricing model, etc.

### Financial risk management

### Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

#### Market risk

The Company operates internationally and a major portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in the United States and elsewhere, and purchases from overseas suppliers in various foreign currencies. The Company holds derivative financial instruments such as foreign exchange forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies.

The following table analyzes foreign currency risk from financial instruments as of March 31, 2017:

Particulars	U.S. dollars	Euro	United Kingdom	Australian dollars	Other currencies	Total
			Pound Sterling			
Cash and cash equivalents	849	79	33	45	97	1,103
Trade receivables	7,611	1,005	793	533	361	10,303
Other financials assets ( including loans)	2,686	436	365	148	136	3,771
Trade payables	(145)	(5)	(11)	(12)	(22)	(195)
Other financial liabilities	(1,847)	(227)	(169)	(186)	(137)	(2,566)
Net assets / (liabilities)	9,154	1,288	1.011	528	435	12.416

The following table analyzes foreign currency risk from financial instruments as of March 31, 2016:

						(In ₹ crore)
Particulars	U.S. dollars	Euro	United Kingdom	Australian dollars	Other currencies	Total
			Pound Sterling			
Cash and cash equivalents	670	107	178	26	93	1,074
Trade Receivables	6,875	973	664	539	296	9,347
Other financials assets (including loans)	2,005	370	210	108	125	2,818
Trade payables	(199)	(42)	(133)	(32)	(39)	(445)
Other financial liabilities	(2,241)	(232)	(139)	(200)	(146)	(2,958)
Net assets / (liabilities)	7,110	1,176	780	441	329	9,836

For the three months ended March 31, 2017 and March 31, 2016, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, has affected the Company's incremental operating margins by approximately 0.52% and 0.51%, respectively.

For the year ended March 31, 2017 and March 31, 2016, every percentage point depreciation / appreciation in the exchange rate between the Indian rupee and U.S. dollar, has affected the Company's incremental operating margins by approximately 0.52% each.

Sensitivity analysis is computed based on the changes in the income and expenses in foreign currency upon conversion into functional currency, due to exchange rate fluctuations between the previous reporting period and the current reporting period.

## Derivative financial instruments

The Company holds derivative financial instruments such as foreign currency forward and option contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank or a financial institution. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace.

The following table gives details in respect of outstanding foreign exchange forward and option contracts:				(In ₹ crore)

In Canadian dollars	13	65	-	-
Total forwards and options		8,336		5,556

The foreign exchange forward and option contracts mature within twelve months. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

		(In ₹ crore)	
Particulars	As of		
	March 31, 2017	March 31, 2016	
Not later than one month	2,215	1,468	
Later than one month and not later than three months	4,103	3,260	
Later than three months and not later than one year	2,018	828	
	8,336	5,556	

During the year ended March 31, 2017, the group has designated certain foreign exchange forward contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecast cash transactions. The related hedge transactions for balance in cash flow hedging reserve are expected to occur and reclassified to revenue in the statement of profit or loss within 3 months.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedge item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of the hedge relationship rebalancing.

he following table provides the reconciliation of cash flow hedge reserve for the three months and year ended March 31, 2017:		(In ₹ crore)
	Three months ended March 31, 2017	Year ended March 31, 2017
Balance at the beginning of the period	28	
Gain / (Loss) recognised in other comprehensive income during the period	73	121
Amount reclassified to revenue during the period	(59)	(69)
Tax impact on above	(3)	(13)
Balance at the end of the period	39	39

The company offsets a financial asset and a financial liability when it currently has a legally enforceable right to set off the recognized amounts and the company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The following table provides quantitative information about offsetting of derivative financial assets and derivative financial liabilities:

The following able provides quantum to information about onsetting of derivative infan				(In ₹ crore)
Particulars	As	of	As of	
	March	March 31, 2017		2016

Net amount presented in balance sheet	268	(2)	109	(2)

## Credit risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables amounting to ₹10,960 crore and ₹0,798 crore as of March 31, 2017 and March 31, 2016, respectively and unbilled revenue amounting to ₹3,200 crore and ₹2,673 crore as of March 31, 2017 and March 31, 2016, respectively. Trade receivables and unbilled revenue are typically unsecured and are derived from revenue earned from customers primarily located in the United States. Credit risk has always been managed by the group through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business. On account of adoption of Ind AS 109, the group uses a provision matrix to compute the expected credit loss allowance for trade receivables and unbilled revenue and internal credit risk factors such as credit default swap quotes, credit rating agencies and the Group's historical experience for customers.

The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

Particulars	Three months ended M	Aarch 31,	Year ended March 31,		
	2017	2016	2017	2016	
Revenue from top customer	3.8%	4.2%	3.9%	4.2%	
Revenue from top five customers	13.3%	15.6%	14.1%	15.7%	

(In 0/)

### Credit risk exposure

The allowance for lifetime expected credit loss on customer balances for the three months and year ended March 31, 2017 was ₹61 crore and ₹135 crore. The reversal for lifetime expected credit loss on customer balances for the three months and year ended March 31, 2016 was ₹25 crore and ₹48 crore respectively.

				(In ₹ crore)	
Particulars	Three months ended March 31,		Year ended March 31,		
	2017	2016	2017	2016	
Balance at the beginning	323	285	249	322	
Impairment loss recognised/ reversed	61	(25)	135	(48)	
Amounts written off	-	(12)	(1)	(31)	
Translation differences	(5)	1	(4)	6	
Balance at the end	379	249	379	249	

Credit risk on cash and cash equivalents is limited as we generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units, quoted bonds issued by government and quasi government organizations, non convertible debentures issued by government aided institutions and certificates of deposit which are funds deposited at a bank for a specified time period.

### Liquidity risk

The company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The company has no outstanding bank borrowings. The company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived.

As of March 31, 2017, the Company had a working capital of ₹35,896 crore including cash and cash equivalents of ₹19,153 crore and current investments of ₹9,643 crore. As of March 31, 2016, the Company had a working capital of ₹34,509 crore including cash and cash equivalents of ₹29,176 crore and current investments of ₹2 crore.

As of March 31, 2017 and March 31, 2016, the outstanding compensated absences were **₹**1,142 crore and **₹**1,130 crore, respectively, which have been substantially funded. Accordingly, no liquidity risk is perceived.

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2017:

					(In ₹ crore)
Particulars	Less than 1 year	1-2 years	2-4 years	4-7 years	Total
Trade payables	269	-	-	-	269

	March 31, 2017	March 31, 2016	April 1, 2015
Authorized			
Equity shares, ₹5/- par value			
240,00,000 (240,00,00,000 $^{(2)})$ equity shares	1,200	1,200	600
Issued, Subscribed and Paid-Up			
Equity shares, $\overline{\mathbf{T}}$ 5/- par value <sup>(1)</sup>	1,148	1,148	574
229,69,44,664 (229,69,44,664 <sup>(2)</sup> ) equity shares fully paid-up			
	1,148	1,148	574

<sup>(1)</sup> Refer note 2.23 for details of basic and diluted shares

(2) Represents number of shares as of March 31, 2016

The authorised equity shares were 120,00,00,000 and the issued, subscribed and paid-up shares were 114,84,72,332 as of April 1, 2015.

## Forfeited shares amounted to ₹1,500/- (₹1,500/-)

The Company has only one class of shares referred to as equity shares having a par value of ₹5/-. Each holder of equity shares is entitled to one vote per share. The equity shares represented by American Depositary Shares (ADS) carry similar rights to voting and dividends as the other equity shares. Each ADS represents one underlying equity share.

#### In the period of five years immediately preceding March 31, 2017:

The Company has allotted 114,84,72,332 and 57,42,36,166 fully paid-up shares of face value ₹5/- each during the quarter ended June 30, 2015 and December 31, 2014, pursuant to bonus issue approved by the shareholders through postal ballot. For both the bonus issues, bonus share of one equity share for every equity share held, and a stock dividend of one American Depositary Share (ADS) for every ADS held, respectively, has been allotted. Consequently, the ratio of equity shares underlying the ADSs held by an American Depositary Receipt holder remains unchanged. Options granted under the restricted stock unit plan have been adjusted for bonus shares.

The Board has increased dividend pay-out ratio from up to 40% to up to 50% of post-tax consolidated profits effective fiscal 2015.

The Board of Directors, in its meeting on April 15, 2016, proposed a final dividend of ₹14.25/- per equity share and the same was approved by the shareholders at the Annual General Meeting held on June 18, 2016, this resulted in a cash outflow of ₹3,939 crore including corporate dividend tax. (Refer note 2.2.1 for impact on transition to Ind AS)

The Board of Directors, in their meeting on October 14, 2016, declared an interim dividend of ₹11/- per equity share, which resulted in a cash outflow of ₹3,041 crore, inclusive of corporate dividend tax.

The amount of per share dividend recognized as distributions to equity shareholders for the year ended March 31, 2015 includes final divided of ₹29.50/- per equity share (not adjusted for June 17, 2015 bonus issue) and an interim dividend of ₹10/- per equity share.

The Board of Directors, in its meeting on April 13, 2017, have proposed a final dividend of ₹14.75/- per equity share for the financial year ended March 31, 2017. The proposal is subject to the approval of shareholders at the Annual General Meeting to be held on June 24, 2017 and if approved would result in a cash outflow of approximately ₹4,078 crore, including corporate dividend tax.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive any of the remaining assets of the company in proportion to the number of equity shares held by the shareholders, after distribution of all preferential amounts.

The details of shareholder holding more than 5% shares as at March 31, 2017 and March 31, 2016 are set out below :

			in ₹ crore, except as sta	ated otherwise
Name of the shareholder	As at March 31, 20	17	As at March 31, 2	2016

#### Employee Stock Option Plan (ESOP):

**2015** Stock Incentive Compensation Plan (the 2015 Plan): SEBI issued the Securities and Exchange Board of India (Share based Employee Benefits) Regulations, 2014 ('SEBI Regulations') which replaced the SEBI ESOP Guidelines, 1999. The 2011 Plan (as explained below) was required to be amended and restated in accordance with the SEBI Regulations. Consequently, to effect this change and to further introduce stock options/ADR's and other stock incentives, the Company put forth the 2015 Stock Incentive Compensation Plan (the 2015 Plan) for approval to the shareholders of the Company. Pursuant to the approval by the shareholders through postal ballot which ended on March 31, 2016, the Board of Directors have been authorised to introduce, offer, issue and allot share-based incentives to eligible employees of the Company and its subsidiaries under the 2015 Plan. The maximum number of shares under the 2015 plan shall not exceed 2,40,38,883 equity shares (this includes 1,12,23,576 equity shares which were held by the Trust towards the 2011 Plan as at March 31, 2016). 1,70,38,883 equity shares will be issued as RSUs at par value and 70,00,000 equity shares will be issued as stock options at market price. These instruments will vest over a period of 4 years.

On August 1, 2016, the company granted 17,83,615 RSUs (includes equity shares and equity shares represented by ADS) at par value, to employees upto mid management (excluding grants made to Dr. Vishal Sikka). Further, the company granted 73,020 Incentive Units (cash-settled) to eligible employees. These instruments will vest equally over a period of 4 years and are subject to continued service.

Further on November 1, 2016, the company granted 9,70,375 RSUs (includes equity shares and equity shares represented by ADS) at par value, 12,05,850 employee stock options (ESOPs) (including equity shares and equity shares represented by ADS) to be exercised at market price at the time of grant, to certain employees at the senior management level. Further the company granted 20,640 incentive units (cash-settled) to certain employees at the senior management level. These instruments will vest equally over a period of 4 years and are subject to continued service.

On February 1, 2017, the company granted 18,550 incentive units (cash-settled) to certain employees at the senior management level. These instruments will vest equally over a period of 4 years and are subject to continued service.

As of March 31, 2017, 1,12,89,514 shares are held by the trust towards 2015 Plan, out of which 100,000 shares have been earmarked for welfare activities for employees. As of March 31, 2017, 106,845 incentive units were outstanding (net of forfeitures) and the carrying value of the cash liability is ₹3 crore.

Pursuant to the approval from the shareholders through postal ballot on March 31, 2016, Dr. Vishal Sikka is eligible to receive under the 2015 Plan, an annual grant of RSU's of fair value \$2 million which vest over time, subject to continued service, and an annual grant of performance based equity and stock options of \$5 million subject to achievement of performance targets set by the Board or its committee, which vest over time. \$2 million of fair value in RSUs for financial year 2017 was granted on August 1, 2016 amounting to 120,700 RSUs in equity shares represented by ADS.

The Board based on the recommendations of the nominations committee approved on April 13, 2017, RSUs amounting to \$1.9 million and ESOP's amounting to \$0.96 million representing the performance based equity and stock options for the financial year 2017. Further, the Board also approved the annual time based vesting grant for financial year 2018 amounting to RSU's of \$2 million. Though the performance based RSU and stock options for fiscal 2017 and time based RSU's for the remaining employment term have not been granted as of March 31, 2017, in accordance with Ind AS 102 Share-based Payment, the company has recorded employee stock based compensation expense of ₹7 crore and ₹2 crore during the three months ended March 31, 2017 and March 31, 2016 respectively, towards CEO compensation.

The Nomination and Remuneration Committee in its meeting held on October 14, 2016 recommended a grant of 27,250 RSUs and 43,000 ESOPs to U.B.Pravin Rao, Chief Operating Officer (COO), under the 2015 Plan and the same was approved by the shareholders through postal ballot on March 31, 2017. These RSUs and ESOPs will be granted w.e.f May 2, 2017. These RSUs and stock options would vest over a period of 4 years and shall be exercisable within the period as approved by the Committee. The exercise price of the RSU's will be equal to the par value of the shares and the exercise price of the stock options would be the market price as on the date of grant, as approved by the shareholders. Though these RSUs and ESOPs have not been granted as of March 31, 2017, in accordance with Ind AS 102 Share-based Payment, the company has recorded employee stock based compensation expense for the same.

2011 RSU Plan (the 2011 Plan) now called 2015 Stock Incentive Compensation Plan ( the 2015 Plan): The Company had a 2011 RSU Plan which provided for the grant of restricted stock units (RSUs) to eligible employees of the Company. The Board of Directors recommended the establishment of the 2011 Plan to the shareholders on August 30, 2011 and the shareholders approved the recommendation of the Board of Directors on October 17, 2011 through a postal ballot. The maximum aggregate number of shares that may be awarded under the plan was 1,13,34,400 as on date of approval of plan adjusted for bonus shares and the plan was expected to continue in effect for a term of 10 years from the date of initial grant under the plan. Awards have been granted to Dr Vishal Sikka under the 2011 RSU plan as detailed below. Further the Company has earmarked 1,00,000 equity shares for welfare activities of the engloyees, approved by the shareholders vide postal ballot which ended on March 31, 2016. The equity shares as of March 31, 2016 held under the plan, i.e. 1,12,23,576 equity shares (this includes the aggregate number of equity shares that may be awarded under the 2011 Plan as reduced by 10,824 equity shares already exercised by Dr. Vishal Sikka and 1,00,000 equity shares which have been earmarked for welfare activities of the employees) have been subsumed under the 2015 Plan.

During the year ended March 31, 2015, the company made a grant of 1,08,268 restricted stock units (adjusted for bonus issues) to Dr. Vishal Sikka, Chief Executive Officer and Managing Director. The Board in its meeting held on June 22, 2015, on recommendation of Nomination and Remuneration Committee, further granted 1,24,061 RSUs to Dr. Vishal Sikka. These RSUs are vesting over a period of four years from the date of the grant in the proportions specified in the award agreement. The RSUs will vest subject to achievement of certain key performance indicators as set forth in the award agreement for each applicable year of the vesting tranche and continued employment through each vesting date.

The award granted to Dr. Vishal Sikka on June 22, 2015 was modified by the Nomination and Remuneration Committee on April 14, 2016. There is no modification or change in the total number of RSUs granted or the vesting period (which is four years). The modifications relate to the criteria of vesting for each of the years. Based on the modification, the first tranche of the RSUs will vest subject to achievement of certain key performance indicators for the year ended March 31, 2016. Subsequent vesting of RSU's for each of the remaining years would be subject to continued employment.

The activity in the 2015 Plan (formerly 2011 RSU Plan) for equity-settled share based payment transactions during the three months and year ended March 31, 2017 is set out below:

\*adjusted for bonus issues (Refer above note 2.12)

During the three months ended March 31, 2017, the weighted average share price of options exercised under the 2015 Plan on the date of exercise was ₹972/-

During the year ended March 31, 2017 and March 31, 2016, the weighted average share price of options exercised under the 2015 Plan on the date of exercise was  $\overline{\epsilon}1.084$ /- and  $\overline{\epsilon}1.084$ /- and  $\overline{\epsilon}1.084$ /-

The following table summarizes information about equity settled RSUs and ESOPs outstanding as of March 31, 2017:

	Options outstanding	Options outstanding		
Range of exercise prices per share (₹)	No. of shares arising out of options Contractual life	No. of shares arising out of options		
2015 Plan: ADS and IES				
0 - 5 (RSU)	2,961,373 1.88 5.	2,961,373		
900 - 1100 (ESOP)	1,197,650 7.09 1,026.	1,197,650		
	4,159,023 3,38 299.	4,159,023		

The weighted average remaining contractual life of RSUs outstanding as of March 31, 2016 under the 2015 Plan was 1.98 years.

The fair value of each equity settled RSU is estimated on the date of grant using the Black-Scholes-Merton model with the following assumptions:

Particulars		For options granted in			
	Fiscal 2017-	Fiscal 2017-	Fiscal 2017-	Fiscal 2017-

Weighted average fair value as on grant date (₹) / (\$- ADS)*	1,019	15.59	948	3,355	

\* Data for Fiscal 2015 is not adjusted for bonus issues

The expected term of the RSU / ESOP is estimated based on the vesting term and contractual term of the RSU / ESOP, as well as expected exercise behaviour of the employee who receives the RSU / ESOP. Expected volatility during the expected term of the RSU / ESOP is based on historical volatility of the observed market prices of the company's publicly traded equity shares during a period equivalent to the expected term of the RSU / ESOP.

During the three months ended March 31, 2017 and March 31, 2016, the company recorded an employee stock compensation expense of ₹40 crore and ₹2 crore, respectively in the statement of profit and loss. During the year ended March 31, 2017 and March 31, 2016, the company recorded an employee stock compensation expense of ₹107 crore and ₹7 crore, respectively in the statement of profit and loss. The cash settled stock compensation expense during the three months and year ended March 31, 2017 was less than ₹1 crore and ₹1 crore.

Provision for post-sales client support and warranties and other provisions are expected to be utilized over a period of 6 months to 1 year.

## 2.17 INCOME TAXES

Income tax expense in the statement of profit and loss comprises:					(In ₹ crore)	
Particulars		Three months ended	March 31,	Year ended March 31,		
		2017	2016	2017	2016	
Current taxes		1,141	1,309	5,068	4,898	
Deferred taxes		80	5	52	9	
Income tax expense	-	1,221	1,314	5,120	4,907	

Current tax expense for the three months ended March 31, 2017 and March 31, 2016 includes reversals (net of provisions) amounting to ₹95 crore and ₹67 crore respectively pertaining to prior periods. Current tax expense for the year ended March 31, 2017 and March 31, 2016 includes reversals (net of provisions) amounting to ₹218 crore and ₹331 crore respectively pertaining to prior periods.

Entire deferred income tax for the three months and year ended March 31, 2017 and March 31, 2016 relates to origination and reversal of temporary differences.

A reconciliation of the income tax provision to the amount computed by applying the statutory income tax rate to the income before income taxes is summarized below:

				(In ₹ crore)
Particulars	Three months end	ed March 31,	Year ended Mar	ch 31,
	2017	2016	2017	2016
Profit before income taxes	4,783	4,705	18,938	17,600
Enacted tax rates in India	34.61%	34.61%	34.61%	34.61%
Computed expected tax expense	1,655	1,628	6,554	6,091
Tax effect due to non-taxable income for Indian tax purposes	(410)	(453)	(1,915)	(1,659)
Overseas taxes	132	207	735	709
Tax reversals, overseas and domestic	(95)	(66)	(218)	(330)
Effect of exempt non-operating income	(12)	(24)	(51)	(69)
Effect of non-deductible expenses	(49)	22	16	185
Additional deduction on research and development expense	-	-	-	(19)
Others	-	-	(1)	(1)
Income tax expense	1,221	1,314	5,120	4,907

The applicable Indian statutory tax rate for fiscal 2017 and fiscal 2016 is 34.61%.

The foreign tax expense is due to income taxes payable overseas, principally in the United States. In India, the company has benefited from certain tax incentives that the Government of India has provided to the export of software for the units registered under the Special Economic Zones Act, 2005 (SEZ). SEZ units which began the provision of services on or after April 1, 2005 are eligible for a deduction of 100 percent of profits or gains derived from the export of services for the first five years from the financial year in which the unit commenced the provision of services and 50 percent of such profits or gains for further five years. Up to 50% of such profits or gains is also available for a further five years subject to creation of a Special Economic Zone re-Investment Reserve out of the profit of the eligible SEZ units and utilization of such reserve by the Company for acquiring new plant and machinery for the purpose of its business as per the provision of the Income Tax Act, 1961.

Infosys is subject to a 15% Branch Profit Tax (BPT) in the U.S. to the extent its U.S. branch's net profit during the year is greater than the increase in the net assets of the U.S. branch during the year, computed in accordance with the Internal Revenue Code. As of March 31, 2017, Infosys' U.S. branch net assets amounted to approximately ₹5,995 crore. As of March 31, 2017, the Company has provided for branch profit tax of ₹327 crore for its U.S branch, as the Company estimates that these branch profits are expected to be distributed in the foreseeable future. The change in provision for branch profit tax includes ₹7 crore movement on account of exchange rate during the year ended March 31, 2017.

Deferred income tax liabilities have not been recognized on temporary differences amounting to ₹5,309 crore and ₹4,195 crore as of March 31, 2017 and March 31, 2016, respectively, associated with investments in subsidiaries and branches as it is probable that the temporary differences will not reverse in the foreseeable future.

The following table provides the details of income tax assets and income tax liabilities as of March 31, 2017, March 31, 2016 and April 1, 2015			(In ₹ crore)
		As at	
	March 31, 2017	March 31, 2016	April 1, 2015
Income tax assets	5,454	5,020	3,941
Current income tax liabilities	3,762	3,304	2,678
Net current income tax assets/ (liability) at the end	1,692	1,716	1,263

The gross movement in the current income tax asset/ (liability) for the three months and year ended March 31, 2017 and March 31, 2016 is as follows:

				(In ₹ crore)
	Three months	Three months ended March 31,		ch 31,
	2017	2016	2017	2016
Net current income tax asset/ (liability) at the beginning	1,346	1,719	1,716	1,263
Income tax paid	1,496	1,304	5,033	5,350
Current income tax expense (Refer Note 2.17)	(1,141)	(1,309)	(5,068)	(4,898)
Income tax on other comprehensive income	(2)	-	8	-
Tax benefit on exercise of share based payments	-	-	1	-
Translation difference	(7)	2	2	1
Net current income tax asset/ (liability) at the end	1,692	1,716	1,692	1,716

The tax effects of significant temporary differences that resulted in deferred income tax assets and liabilities are as follows:

Particulars		As at				
	March 31, 2017	March 31, 2016	April 1, 2015			
Deferred income tax assets						
Property, plant and equipment	107	146	210			
Computer software	40	50	51			
Accrued compensation to employees	35	46	29			
Trade receivables	123	79	100			
Compensated absences	336	359	280			
Post sales client support	93	76	72			
Others	32	21	7			
Total deferred income tax assets	766	777	749			
Deferred income tax liabilities						
Branch profit tax	327	334	316			
Others	93	38	-			
Total deferred income tax liabilities	420	372	316			
Deferred income tax assets after set off	346	405	433			
Deferred income tax liabilities after set off	-	-	-			

(In ₹ crore)

Deferred tax assets and deferred tax liabilities have been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liabilities and where the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority.

In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period.

Particulars	Three months ended	March 31,	Year ended March 31,		
	2017	2016	2017	2016	
Net deferred income tax asset at the beginning	414	411	405	433	
Translation differences	15	(1)	6	(19)	
Credits / (charge) relating to temporary differences (Refer Note 2.17)	(80)	(5)	(52)	(9)	
Temporary differences on other comprehensive income	(3)	-	(13)	-	
Net deferred income tax asset at the end	346	405	346	405	

The charge relating to temporary differences during the year ended March 31, 2017 are primarily on account of property plant and equipment, accrued compensation and compensated absences partially offset by trade receivable. The credits relating to temporary differences during the year ended March 31, 2016 are primarily on account of accrued compensation to employees and compensated absences partially offset by reversal of credits pertaining to property plant and equipment and trade receivables

Remeasurements of the net defined benefit liability/ (asset)				
Actuarial (gains) / losses	(11)	6	61	10
(Return)/loss on plan assets excluding amounts included in the net interest on the net defined benefit liability/(asset)	(7)	(2)	(11)	(7)
-	(18)	4	50	3

Particulars	Three months end	ed March 31.	Year ended Mar	(In ₹ crore) ch 31.
	2017	2016	2017	2016
(Gain)/loss from change in demographic assumptions	-	-	-	-
(Gain)/loss from change in financial assumptions	(15)	4	49	-
	(15)	4	49	-

The weighted-average assumptions used to determine benefit obligations as at March 31, 2017, March 31, 2016 and April 1, 2015 are set out below:

Particulars		As o	f
	March 31, 2017	March 31, 2016	April 1, 2015
Discount rate	6.9%	7.8%	7.8%
Weighted average rate of increase in compensation levels	8.0%	8.0%	8.0%

The weighted-average assumptions used to determine net periodic benefit cost for the three months and year ended March 31, 2017 and March 31, 2016 are set out below:

Particulars	Three months en	Three months ended March 31,		
	2017	2016	2017	2016
Discount rate	7.8%	7.8%	7.8%	7.8%
Weighted average rate of increase in compensation levels	8.0%	8.0%	8.0%	8.0%
Weighted average duration of defined benefit obligation	6.1 years	6.4 years	6.1 years	6.4 years

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

As of March 31, 2017, every percentage point increase / decrease in discount rate will affect our gratuity benefit obligation by approximately ₹57 crore.

As of March 31, 2017, every percentage point increase / decrease in weighted average rate of increase in compensation levels will affect our gratuity benefit obligation by approximately ₹49 crore.

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by one percentage, keeping all other actuarial assumptions constant.

Gratuity is applicable only to employees drawing a salary in Indian rupees and there are no other foreign defined benefit gratuity plans.

The Company contributes all ascertained liabilities towards gratuity to the Infosys Limited Employees' Gratuity Fund Trust. Trustees administer contributions made to the trust. As of March 31, 2017 and March 31, 2016, the plan assets have been primarily invested in insurer managed funds.

Actual return on assets for the three months and year ended March 31, 2017 and March 31, 2016 were ₹26 crore and ₹17 crore and ₹80 crore and ₹66 crore respectively.

The Company expects to contribute ₹85 crore to the gratuity trusts during the fiscal 2018.

Maturity profile of defined benefit obligation:

	(In ₹ crore)
Within 1 year	133
1-2 year	141
2-3 year	149
3-4 year	163
4-5 year	174
5-10 years	863

### b. Superannuation

The Company contributed ₹39 crore and ₹58 crore to the Superannuation trust during the three months ended March 31, 2017 and March 31, 2016 respectively, and ₹151 crore and ₹227 crore during the year ended March 31, 2017 and March 31, 2016.

#### c. Provident fund

Infosys has an obligation to fund any shortfall on the yield of the trust's investments over the administered interest rates on an annual basis. These administered rates are determined annually predominantly considering the social rather than economic factors and in most cases the actual return earned by the Company has been higher in the past years. The actuary has provided a valuation for provident fund liabilities on the basis of guidance issued by Actuarial Society of India and based on the below provided assumptions there is no shortfall as at March 31, 2017 and March 31, 2016 and April 1, 2015, respectively.

The details of fund and plan asset position are given below:

			(In ₹ crore)
Particulars		As of	
	March 31, 2017	March 31, 2016	April 1, 2015
Plan assets at period end, at fair value	4,459	3,808	2,912
Present value of benefit obligation at period end	4,459	3,808	2,912
Asset recognized in balance sheet	-	-	-

The plan assets have been primarily invested in government securities.

Assumptions used in determining the present value obligation of the interest rate guarantee under the Deterministic Approach:

Particulars	As at			
	March 31, 2017	March 31, 2016	April 1, 2015	
Government of India (GOI) bond yield	6.90%	7.80%	7.80%	
Remaining term to maturity of portfolio	6 years	7 years	7 years	
Expected guaranteed interest rate- First year:	8.60%	8.75%	8.75%	
- Thereafter:	8.60%	8.60%	8.60%	

The Company contributed  $\overline{\$}96$  crore and  $\overline{\$}88$  crore during the three months ended March 31, 2017 and March 31, 2016 respectively, and  $\overline{\$}378$  crore and  $\overline{\$}345$  crore during the year ended March 31, 2017 and March 31, 2016.

The provident plans are applicable only to employees drawing a salary in Indian rupees and there are no other significant foreign defined benefit plans.

Employee benefits cost include:

				(In ₹ crore)
Particulars	Three months end	led March 31,	Year ended Ma	rch 31,
	2017	2016	2017	2016
Salaries and bonus*	7,509	7,126	30,315	27,534
Defined contribution plans	39	58	151	227
Defined benefit plans	119	113	478	446
	7,667	7,297	30,944	28,207

\* Includes stock compensation expense of  $\overline{\mathbf{x}}40$  crore and  $\overline{\mathbf{x}}2$  crore for the three months ended March 31, 2017 and March 31, 2016, respectively, and  $\overline{\mathbf{x}}107$  crore and  $\overline{\mathbf{x}}7$  crore for the year ended March 31, 2017 and March 31, 2016 (Refer note 2.12).

### 2.23 RECONCILIATION OF BASIC AND DILUTED SHARES USED IN COMPUTING EARNING PER SHARE

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:

	Three months en	Three months ended March 31,		March 31,
	2017	2016	2017	2016
Basic earnings per equity share - weighted average number of equity shares outstanding	2,296,944,664	2,296,944,664	2,296,944,664	2,296,944,664
Effect of dilutive common equivalent shares - share options outstanding	344,772	-	215,006	-
Diluted earnings per equity share - weighted average number of equity shares and common equivalent shares outstanding	229,72,89,436	229,69,44,664	229,71,59,670	229,69,44,664

For the three months and year ended March 31, 2017, 179,926 and 77,942 number of options to purchase equity shares had an anti-dilutive effect. For the three months and year ended March 31, 2016, no outstanding option to purchase equity shares had an anti-dilutive effect.

2.24 CONTINGENT LIABILITIES AND COMMITMENTS (TO THE EXTENT NOT PROVIDED FOR)

			(In ₹ crore)
Particulars	As at		
	March 31, 2017	March 31, 2016	April 1, 2015
Contingent liabilities :			
Claims against the Company, not acknowledged as debts <sup>(1)</sup>	1,902	188	167
[Net of amount paid to statutory authorities ₹ 4,694 crore (₹4,386 crore)]			
Commitments :			
Estimated amount of contracts remaining to be executed on capital contracts and not provided for	1,094	1,295	1,272
(net of advances and deposits)			
Other Commitment*	37	-	-

\*Uncalled capital pertaining to investments

(1) Claims against the company not acknowledged as debts as on March 31, 2017 include demand from the Indian Income tax authorities for payment of tax of  $\overline{\mathfrak{C}}$  6,122 crore ( $\overline{\mathfrak{C}}$  4,135 crore), including interest of  $\overline{\mathfrak{C}}$  1,885 crore ( $\overline{\mathfrak{C}}$  1,224 crore) upon completion of their tax assessment for fiscal 2007, fiscal 2008, fiscal 2009, fiscal 2010, fiscal 2011, fiscal 2012 and fiscal 2013. Demands were paid to statutory tax authorities in full except for fiscal year 2009, 2011, 2012 and 2013.

Demand for fiscal 2007, fiscal 2008 and fiscal 2009 includes disallowance of a portion of the deduction claimed by the company under Section 10A of the income Tax Act as determined by the ratio of export turnover to total turnover. The disallowance arose from certain expenses incurred in foreign currency being reduced from export turnover but not reduced from total turnover. Demand for fiscal 2007, fiscal 2008, fiscal 2009, fiscal 2011, fiscal 2012 and fiscal 2013 also includes disallowance of portion of profit earned outside India from the STP units under section 10A of the Income Tax Act and disallowance of profits earned from SEZ units under section 10AA of the Income Tax Act and disallowance of profits earned operations before 1st April 2009 under section 10AA of the Income Tax Act and also others. The matters for fiscal 2007, fiscal 2008, fiscal 2009 and fiscal 2013 are pending before the Commissioner of Income Tax (Appeals) Bangalore. The matter for fiscal 2010, fiscal 2012 is pending before Hon'ble Income Tax Act and also others.

The company is contesting the demand and the management including its tax advisors believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition.

(1) Loan outstanding (including accrued interest) given to Infosys Sweden is converted to equity during the year ended March 31, 2017.

### Transactions with key management personnel

The table below describes the compensation to key managerial personnel which comprise directors and executive officers:

				(In C crore)
Particulars	Three months end	led March 31,	Year ended Mare	ch 31,
	2017	2016	2017	2016
Salaries and other employee benefits to whole-time directors and executive officers (1/(2)(3)(4)(5)	18	40	84	101
Commission and other benefits to non-executive/independent directors	3	2	10	9
Total	21	42	94	110

(1) Includes stock compensation expense of ₹12 crore and ₹36 crore for the three months and year ended March 31, 2017, respectively (₹2 crore and ₹7 crore for the three months and year ended March 31, 2016, respectively) towards key managerial personnel. Refer note 2.12

(2) Year ended March 31, 2017 includes ₹6 crore payable under severance agreement to David D. Kennedy, who stepped down as General counsel and Chief compliance officer w.e.f December 31, 2016

(3) Year ended March 31, 2016 includes ₹17.38 crore payable under severance agreement to Rajiv Bansal who stepped down as Chief Financial officer w.e.f October 12, 2015

(4) The Board based on the recommendations of the Nominations committee approved on April 13, 2017, \$0.82 million as variable pay to CEO for the year ended March 31, 2017. The shareholders vide postal ballot had approved a variable pay of \$3 million at target.

Pursuant to the approval from the shareholders through postal ballot on March 31, 2016, Dr. Vishal Sikka is eligible to receive under the 2015 Plan, an annual grant of RSU's of fair value \$2 million which vest over time, subject to continued service and an annual grant of performance based equity and stock options of \$5 million subject to achievement of performance targets set by the Board or its committee, which vest over time. The Board based on the recommendations of the nominations committee approved on April 13, 2017, RSUs amounting to \$1.9 million and ESOP's amounting to \$0.96 million representing the performance based equity and stock options for the financial year 2017. Further, the Board also approved the annual time based vesting grant for financial year 2018 amounting to \$2 million.

The year ended March 31, 2016 includes provision for variable pay amounting to \$4.33 million (approximately ₹29 crore) to CEO. The shareholders in the EGM dated July 30, 2014 had approved a variable pay of \$4.18 million (approximately ₹28 crore at current exchange rate) at a target level and also authorized the Board to alter and vary the terms of remuneration. Accordingly, the Board based on the recommendations of the Nominations committee approved on April 15, 2016, \$4.33 million (approximately ₹29 crore) as variable pay for the year ended March 31, 2016.

<sup>(5)</sup> On March 31, 2017, the shareholders vide postal ballot approved a revision in the salary of U.B. Pravin Rao, whole-time director and COO w.e.f. November 1, 2016. Further, the Nomination and Remuneration Committee in its meeting held on October 14, 2016 recommended a grant of 27,250 RSUs and 43,000 ESOPs under the 2015 Plan and the same was approved by the shareholders through postal ballot on March 31, 2017. These RSUs and ESOPs will be granted w.e.f. May 2, 2017.

### 2.26 SEGMENT REPORTING

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. The Company's operations predominantly relate to providing end-to-end business solutions to enable clients to enhance business performance. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along business segments and geographic segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the significant accounting policies.

Business segments of the Company are primarily enterprises in Financial Services (FS), enterprises in Manufacturing (MFG), enterprises in Retail, Consumer packaged goods and Logistics (RCL), enterprises in the Energy & utilities, Communication and Services (ECS), enterprises in Hi-tech (Hi-tech), enterprises in Life Sciences, Healthcare and Insurance (HILIFE) and all other segments. All other segments represents the operating segments of businesses in India, Japan and China. Geographic segmentation is based on business sourced from that geographic region and delivered from both on-site and offshore locations. North America comprises the United States of America, Canada and Mexico, Europe includes continental Europe (both the east and the west), Ireland and the United Kingdom, and the Rest of the World comprising all other places except those mentioned above and India.

Revenue and identifiable operating expenses in relation to segments are categorized based on items that are individually identifiable to that segment. Revenue for "all other segments" represents revenue generated from customers located in India, Japan and China. Allocated expenses of segments include expenses incurred for rendering services from the Company's offshore software development centres and on-site expenses, which are categorized in relation to the associated turnover of the segment. Certain expenses such as depreciation, which form a significant component of total expenses, are not specifically allocable to specific segments as the underlying assets are used interchangeably. Management believes that it is not practical to provide segment disclosures relating to those costs and expenses, and accordingly these expenses are separately disclosed as "unallocated" and adjusted against the total income of the Company.

Assets and liabilities used in the Company's business are not identified to any of the reportable segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Geographical information on revenue and business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.
