Financial Highlights

Consolidated results under International Financial Reporting Standards (IFRS) for the quarter ended June 30, 2017

- **Revenues were \$2,651 million for the quarter ended June 30, 2017**
QoQ growth of 3.2% in reported terms; 2.7% in constant currency terms
YoY growth of 6.0% in reported terms; 6.3% in constant currency terms
- **Operating profit was \$638 million for the quarter ended June 30, 2017**
QoQ growth of 0.7%; YoY growth of 6.0%
- **Net profit was \$541 million for the quarter ended June 30, 2017**
QoQ decline of 0.4%; YoY growth of 5.8%

“Our persistent focus on execution in Q1 is reflected in broad-based performance on multiple fronts– revenue growth, resilient margins despite multiple headwinds, healthy cash generation and overall business results. I am encouraged by the uptick in revenue per employee for six quarters in a row, and the strong momentum in our new high growth services and software, as we accelerate our focus on innovation-led growth.” **said Dr. Vishal Sikka, CEO.** “The widespread adoption of our grassroots innovation and education initiatives continue to fuel our transformation, and I am proud to see Infosys embrace and drive Infosys toward becoming a next-generation services company.”

“We had broad-based growth across geographical and industry segments. Our initiatives on operational discipline led to record levels of utilization and better realization during the quarter.” **said U B Pravin Rao, COO.** “Our new services and software offerings are helping us strengthen our positioning in the market.”

“Our relentless focus on strong cash generation led to a healthy operating cash flow. Further, our continued emphasis on operational efficiencies enabled us to mitigate the impact of margin headwinds during the quarter.” **said M. D. Ranganath, CFO.** “We successfully navigated yet another quarter of significant currency volatility through our hedging”

Outlook

The Company's outlook (consolidated) for the fiscal year ending March 31, 2018, under IFRS is as follows:

- Revenues are expected to grow 6.5%-8.5% in constant currency*;
- Revenues are expected to grow 7.1%-9.1% in USD terms based on the exchange rates as of June 30, 2017**

*FY 17 constant currency rates - AUD/USD – 0.75; Euro/USD – 1.09; GBP/USD – 1.30

**Currency rates as of June 30, 2017 - AUD/USD – 0.77; Euro/USD – 1.14; GBP/USD – 1.30

BUSINESS HIGHLIGHTS

In Q1, we continued to help clients drive automation and innovation into the core of their businesses leveraging our renewed traditional services, our new services in areas such as Cloud Ecosystem, Big Data and Analytics, API and Micro Services, Data and Mainframe Modernization, Cyber Security and IoT Engineering Services, and our software-led offerings, especially our next-generation Artificial Intelligence (AI) Platform Nia. We also continued to drive our cultural transformation through education and learning, leveraging Zero Distance to drive our grassroots innovation culture, introducing new curriculum and training programs for in-demand skills of the future, and building on our strategy to leverage our global talent with the best local talent in the key markets in which we operate.

In April, we launched Infosys Nia, building on and accelerating, our work over the last 2.5 years to help clients embrace AI. With 160+ engagements across 70+ clients, Nia continues to be central to all our conversations with clients as we work with them to transform their businesses.

We further enhanced our global footprint this quarter, in line with our strategy to establish global competency centers, employ the best talent in the market and bring our education and training capabilities closer to our clients. In April, we opened a new Development Center focused on Engineering Services in Croatia. In May, we announced our commitment to hire 10,000 American workers over the next two years and establish four technology and innovation hubs in the U.S. The first will open in Indiana in August 2017 and the second hub will be opened in North Carolina. Additionally, we recently expanded our presence in China with a new campus in Shanghai, to create an ecosystem of local talent training, new tech labs and an incubator for startups.

RENEW

In Q1, we worked closely with clients to renew their traditional IT services and infrastructure, including modernizing their mission critical applications, with key engagements with Edgewell Personal Care, and more.

Edgewell Personal Care, is a US-based consumer products company that manufactures and markets a number of well-known brands, including Schick, Wilkinson Sword, Playtex, Banana Boat, Hawaiian Tropic, Wet Ones and Edge.

“Edgewell partnered with Infosys to implement a leading-edge transformation of our global ERP landscape to drive the company's IT innovation. Over the next 1-2 years, Infosys will deliver SAP S/4 HANA solutions in North America and Asia. These solutions will enable us to deliver significant process simplification and operating efficiencies. As part of this journey, we recently migrated our global Manufacturing system to SAP S/4 HANA and the project successfully went live in May 2017. Infosys is currently engaged in migrating our Order to Cash and Financial Systems to SAP S/4 HANA for North America and also deploying the SAP S/4 HANA global template solution to our Asia Pacific markets. We look forward to continuing our collaboration with Infosys in our ERP modernization journey.” - **Tony Bender, Chief Information Officer & Vice President, Global Business Services**

PrimeRevenue, a leader in working capital financial technology, optimizes cash flow for more than 20,000 customers in over 70 countries, and processed more than \$100 billion in supply chain transactions in 2016.

“We selected Infosys to assist in optimizing our data architecture to support processing billions of dollars in supply chain finance transactions every month. In our quickly growing fintech marketplace, Infosys is one of our key partners supporting PrimeRevenue's current phase of very high-growth.” - **Wes Dean, Chief Technology Officer, PrimeRevenue, Inc.**

We also continued to drive grassroots innovation in every project through our **Zero Distance (ZD) initiative**. We started this program in March 2015, and today, more than 16,500 ideas have been produced, of which more than 2,200 have been implemented with clients globally.

Myer, Australia's largest department store group and a leader in Australian retailing recently leveraged our Zero Distance idea and deployed the 'My Picker App' for fulfilling their retail orders.

"Our 'My Picker App' has a huge strategic relevance for Myer, significantly reducing the time to pick and pack orders by 20%, driving down the labor cost of fulfilment by an estimated \$1.8m based on FY17 units and rapidly growing our omni channel business. We have been able to reduce our fulfilment duration target from 32.5 hours to 24 hours, and increase our pick success target from 85% to 90%. Infosys proactively partnered and led the way on this project by producing a working prototype to demonstrate how this app would work, converting a concept into reality, and gelling well in a cross- functional agile team with Myer." - **Mark Cripsey, Chief Digital and Data Officer, Myer**

NEW

We continued to see momentum in our new services, in our software-led offerings and in leveraging Design Thinking. The new services that we have launched over the course of the last two years are seeing strong traction in key accounts.

Our software portfolio is already forming a critical part of our business, both in terms of amplifying our existing services and in creating new business opportunities. Panaya and Skava have continued their momentum, with Skava now a full-fledged eCommerce platform, extending its reach beyond retail through its micro services based architecture.

We launched the Infosys Boundaryless Data Lake offering powered by the Information Grid Solution on Amazon Web Services (AWS).

"Infosys partnered with Levi Strauss & Co's e-commerce business to build a first party data analytics solution on AWS. The solution, built by Infosys, enables consumer insights of clickstream and e-commerce data to activate consumer revenue growth actions across marketing touch points." - **Abigail Johnson, Senior Program Manager eCommerce, Levi Strauss & Co**

"**ERM**, the world's leading sustainability consulting company is working with Infosys to harness technology and data to transform our business. We have embarked on a journey to re-imagine sustainability challenges for our clients by leveraging Design Thinking principles of empathy and rapid prototyping. Innovation is at the heart of this transformation and we believe Design Thinking can help us reinvent our business and create new sources of value. In our recent Design Thinking engagement with Infosys, we believe we have taken the initial steps to transform our ways of thinking about sustainability challenges and mapping them to the Digital Technology ecosystem. I am pleased to say that with Infosys' help we have started to build the momentum to rapidly prototype Digital solutions and embrace agile ways of working to address sustainability challenges for our global client base." - **Keryn James, Group Chief Executive, ERM**

"In partnering with Infosys Consulting, their Design Thinking approach and methodologies helped our team to think out-of-the-box and through a fresh lens around how we could transform our HR onboarding process. This led to new innovations for us around our use of mobile, virtual reality and other digitally-centric experiences that will give our employees an enriching, unique connection to BP." - **Olivier Dubuisson, Employee Experience Director, BP**

Adient is the global leader in automotive seating, with revenues of \$17 billion and over 200 plants that supplies automotive seats and components for over 25,000,000 cars a year. In response to the rapidly evolving automotive industry, Adient leadership launched a digital transformation, with Design Thinking being a catalyst. Infosys has delivered Design Thinking innovation engagements for Adient regional centers globally, to enable and accelerate this transformation and help Adient on its goal to become an exponential company.

Infosys worked with **Spark NZ** to design a series of design thinking-based leadership programs for their high potential talent and teams. Over 6 months, in a 'pop up' design space in Auckland, 120 leaders from Spark NZ were given new skills and perspectives on how to use Design Thinking to be more competitive in a disruptive market – how to do more with less. Teams of Spark 'DT Ninjas' worked with Infosys over 6-8 weeks

investigating, designing and Lo-Fi prototyping new ways to address long-term problems for Spark and their customers. Over this period, the teams had intensive bootcamps, ongoing coaching and real ‘fieldwork’ assignments. We’re excited that from the CXO level to the Service Desk, those involved rated this experience with Infosys as one of the most important, valuable and impactful professional development experiences they can remember. Infosys is proud to have played a role in helping add to the digital DNA of Spark NZ – helping their leaders and teams find new ways of finding, framing and solving important problems through design thinking, challenging their assumptions and moving quickly through prototyping with a focus on the customer experience.

TAFE NSW has taken a proactive approach to managing the disruptive forces impacting the training and education market in Australia by focusing on creating innovative solutions that will enable TAFE NSW to meet the needs of students and industry with greater agility. Infosys will help provide TAFE NSW a distinct advantage to drive its transformation and deliver tangible efficiencies by letting it drive its customer centric goals of being a contemporary and sustainable business skilling the NSW workforce, while optimizing, automating and managing its core finance business processes.

As one of the world's largest manufacturers of named brand home improvement and new home construction products, promotions are a critical part of **Masco Corporation's** many companies.

"Infosys is helping us take the initial step towards the advanced analytics landscape and drive the predictability of sales and effectiveness of our business. As part of this effort, the Infosys Nia team helped us align our sales data across years and analyze the historical data, the effectiveness of our strategy and the impact of our decisions across various channels." - **Viren Shah, Chief Information Officer, Masco Cabinetry**

"By leveraging and integrating a broad set of artificial intelligence technologies, Infosys is supporting customers on their journey toward business transformation. The modular set up of Infosys Nia allows for more flexibility when addressing diverse sets of use cases. On this journey, Infosys' expansive AI and cognitive computing capabilities provide customers with solutions that put data at the center of their service delivery strategies." - **Dr. Tom Reuner, Senior Vice-President, HfS Research**

The Commercial Bank, Qatar, successfully completed a pilot on a cloud-based blockchain network with Infosys Finacle.

"This pilot has demonstrated the immense potential of blockchain to provide the best customer experience for our clients and given us a glimpse of what more we could do on this powerful platform. We are delighted with the success of this pilot across the Commercial Bank Group and want to expand our cluster to form closed group networks for trade and cash transactions with more banks in South Asia, Egypt, Philippines, UAE and other countries with higher transaction volumes. We hope to leverage what is quickly becoming the largest emerging consortium, in terms of transactions, and offer a wider range of products and services to individuals and organizations alike, on this platform." - **Joseph Abraham, Chief Executive Officer, Commercial Bank**

Nature's Bounty is the flagship brand of The Nature's Bounty Co., a family of wellness brands committed to providing people with high quality products to complement lifestyles and physical health.

"Our decision to partner with Infosys to transform and upgrade our HR, compensation and payroll processes was strategic to streamline and improve HR processes, and meet global rollout deadlines. Infosys implemented innovative solutions to automate processes including CEO approval workflows, self-service applications for end users, an analytics dashboard for management, and a custom tax calculation for payroll." - **Elaine McLaughlin, Senior Director – Payroll and HR Systems, Nature's Bounty**

Leroy-Somer is a world-leading specialist in industrial alternators and drive systems, designing and manufacturing highly innovative eco-technological solutions to serve the industrial and commercial markets.

"We deployed the Oracle Transportation Management Cloud Service in just weeks – a timeframe vital to our business continuity – with the help of Infosys. In addition, we have optimized our supply chain processes, thereby improving customer service significantly." - **Olivier Couret, Logistics Director, Leroy-Somer**

"Infosys has helped the **College of American Pathologists** drive a practice of continuous improvement in our Infrastructure and Applications Support functions. Infosys has learned about our organization, business and processes from working side by side in daily partnership with IS and business team members. They've identified

and implemented, or helped us implement, improvements in test automation, load testing and refresh process automation, leading to a 90% manual activity reduction, significantly shorter release times, greater environment availability, increased load testing effectiveness, reduced downtime and higher quality. Through recommended process improvements, Infosys has helped us ensure more predictable, reliable, and available environments resulting in significant productivity improvement to our development and release processes. Infosys is further helping us modernize our digital infrastructure. We are actively looking at features that Infosys' SKAVA offers for eCommerce services including multi-channel capabilities and rapid implementation cycles. SKAVA promises the opportunity to promote our applications on any handheld or desktop device - an increasingly important driver of user adoption and satisfaction."- **Greg Gleason, Chief Information Officer, College of American Pathologists**

In Q1, the EdgeVerve business delivered strong performance with 36 wins (Finacle 24 + Edge 12) and 38 go lives (Finacle 21 + Edge 17) from both the Finacle and Edge suite of solutions across various market regions.

Finacle continued to strengthen its position as a platform of choice for digital transformation and enabling new business models for banks.

MauBank, Mauritius, adopted the Infosys Finacle Leasing Solution this quarter.

"MauBank is committed to being the most progressive and preferred bank in Mauritius. Our aim of ensuring world-class banking services along with industry leading growth, is tied to consolidating our operations on best of breed banking platforms. We believe the Finacle Leasing Solution will help us scale our leasing operations and boost productivity, thus positioning the service line as a key business driver." - **Sayyad Khodabocus, Head - IT Applications, MauBank**

INVESTMENTS & ECOSYSTEM

We continue to deepen our partnerships, invest in technology and expertise that complement our strategy, and participate with clients and partners in the technical communities that drive value for clients and create new opportunities for Infosys.

Huawei signed an Alliance MoU with Infosys to explore joint solutions in the Business Support Systems (BSS) domain bringing together Huawei's industry leading BSS products and Infosys' strength in Consulting, Systems Integration and Application Development and Maintenance (ADM) services.

Infosys launched the joint Retail Point of Sale (RPOS) and Enterprise Device as a Service (DaaS) solutions to help businesses accelerate digital transformation for the enterprise. This was launched as part of the HP Global System Integrator (GSI) Alliance Program.

Infosys and SmartBear, a leading provider of software quality tools, entered into a strategic alliance this quarter. As part of this alliance, Infosys will support customers who leverage SmartBear tools across the world.

CULTURE

Through this quarter, we have advanced our investments in life-long learning for Infoscions. The Digital Tutor social learning platform which is now made available on cloud and accessible on mobile devices, has gained momentum with 3,528 learning videos that are accessible to our employees. Additionally, the Infosys Learning Platform has been enhanced with 177 courses on topics spanning different technologies and business effectiveness, and has witnessed over 45,000 unique users till date. Following the launch of Infosys Nia in April 2017, we have trained over 2,100 employees in this new product. **Design Thinking**, the driving force for change at Infosys, has now covered 142,218 employees across the organization. We recently extended our [partnership with Udacity](#), to accelerate the pace of skill adoption in new technologies and industry skills for new trainees.

BEYOND BUSINESS

In India, Infosys Foundation relentlessly pursued its mission of creating a more equitable society by scaling community-driven initiatives and fostering programs aimed at uplifting the underserved. Some of the key initiatives of the quarter included upgradation and renovation of the existing pediatric ward building at Capital Hospital in Odisha, and construction of a major operation theatre complex at Kidwai Memorial Institute of Oncology, Bangalore. The Foundation also invested in the construction of 4-lane road works of Kotekar-Pathuru road near our Mangalore SEZ campus in the interest of public safety, and partnered with Visakha Jilla Nava Nirmana Samithi for distribution and channelization of water through a gravity technique to rural drought-hit villages of Andhra Pradesh.

Infosys Foundation USA hosted its third annual thought leadership conference, [CrossRoads](#), in San Francisco. This one of a kind event in Computer Science and Maker education, featured 20+ panels with 155 participants from 133 organizations from academia, policy-making, and non-profits. The Foundation also announced the [25 winners](#) of the 2017 Infy Maker Awards in a [blog](#) written by NASA astronaut Alvin Drew. The Foundation renewed its grant to Carnegie Mellon University to continue support of the CREATE Lab community robotics and social innovation programs at elementary schools in Georgia and Utah. Infosys Foundation USA extended its [WhyIMake](#) Maker education awareness campaign by releasing new episodes showcasing famous Makers, actor Nick Offerman and NASA astronaut Don Pettit, to TV networks and broadcasters across the US, resulting in 3,150 nationwide airings reaching over 28 million views.

About Infosys Ltd.

Safe Harbor

Certain statements mentioned in this release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2017. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
