

BancIT - A Resounding success

BancIT'1998, hosted by Infosys as the platform to bridge banking and technology, was a great success.

Over 150 banking professionals from 55 banks across the country and over 50 technology professionals attended the event. BancIT 1998 received tremendous appreciation from all the participants, speakers, exhibitors and sponsors.

Focusing on the all the essential elements of the banking technology matrix, BancIT 1998 aimed to comprehensively address banks' needs in the networked age.

- 90% of the participants found the event *highly relevant* to their organizations and their present and future responsibilities.
- 95% of the participants gave a rating of *very good* or *excellent* to BancIT 1998, and
- almost all the participants have indicated that they are keen on attending BancIT 1999 - an achievement indeed for an event in its first year!

BancIT will be an annual event. It will continue to grow in scope and content, reflecting the changing global trends in banking technology. Every year BancIT will discuss the latest banking and technology trends worldwide, offering strategies and solutions to the banking industry.
