

EC Cubed Partners with Infosys to Provide Advanced Business-to-Business e-Commerce Systems

December 9, 1999 - Westborough, Mass. and Fremont, Calif. -- Infosys Technologies Ltd., a leading software consulting firm, and EC Cubed, the leading provider of business-to-business eCommerce software and service solutions, today announced a strategic partnership that will enable large companies to rapidly build and deploy eCommerce solutions. The partnership will allow customers of EC Cubed and Infosys to leverage the combined capabilities of ecWorks™, EC Cubed's suite of e-Commerce application components, and Infosys' systems integration expertise.

Under terms of the agreement, the Infosys/EC Cubed partnership will encompass three primary collaborative areas: product development, quality assurance and maintenance; systems integration and professional services. All three areas of collaboration will center on the use of EC Cubed's e-Commerce suite, *ecWorks*.

"The business-to-business eCommerce sector has witnessed tremendous growth. We are excited to partner with EC Cubed, the leader in this area," commented Phaneesh Murthy, senior vice president Worldwide Sales and Marketing for Infosys. "Our knowledge of the latest technologies and the Infosys Global Delivery Model, which provides rapid time-to-market, offers significant benefits for EC Cubed's customers. Building e-Commerce solutions based on EC Cubed's industry-leading e-Commerce technology will further enhance our ability to provide mission-critical eCommerce initiatives for our clients."

"Our partnership with Infosys allows us to leverage not only their systems integration expertise, but also their best practices approach to product development, quality assurance and maintenance," stated Mark Hatton, vice president, National Accounts and Channels at EC Cubed. "By utilizing our combined strengths, we ensure that both of our customers will receive the highest quality enterprise-class e-Commerce solutions available in a rapid time-to-market model."

Infosys has been aggressively increasing its global presence. It now has offices in the US, Canada, UK, Germany, Scandinavia, Japan and India, and employs over 4500 people. In March 1999 Infosys became the first Indian company to be listed on an American exchange (NASDAQ: INFY).

ECCubed and Infosys Form Strategic Partnership

To support the partnership, Infosys will provide a product competency center (PCC) that will function as a virtual extension of EC Cubed. The PCC's eCommerce domain experts will manage all quality processes, including compliance with the Software Engineering Institute's (SEI) Level 5 requirements, protect intellectual property, ensure code perfection and customization, and offer 7 x 24 global support and coverage. Other partners for whom Infosys is currently providing product competency centers include Nortel, Lucent, NCR and De La Rue.

About EC Cubed

EC Cubed is the leading provider of software components and services for rapidly deploying business-to-business e-Commerce solutions. Its flagship product suite, *ecWorks*, provides the enabling technology needed to build an array of enterprise-class e-Commerce applications.
