

Infosys Brings Global e-Business Expertise to Asia Pacific

Opens Office in Hong Kong

Fremont, California – August 30, 2000 – Infosys Technologies Ltd. (Nasdaq: INFY), a leading global IT consulting and e-Business firm, today announced the opening of its office in Hong Kong. The company brings to this region its global expertise in the e-Commerce and Internet infrastructure space. Infosys has been involved in extensive B2B assignments in the US and Europe and is now expanding its Asia Pacific focus to include Hong Kong. The cross-border experience and expertise the company has acquired will significantly accelerate and strengthen the e-Commerce initiatives of its customers.

Infosys Management has identified Hong Kong as a hub of e-Business activity in Asia. "The B2B area is fast becoming one of the most widely discussed topics of e-Commerce competitiveness for Asia Pacific manufacturers. Because of the size of the potential savings for in-region and overseas buyers, Asia Pacific will account for almost 20 percent of global B2C and B2B e-transactions value by 2003," stated Lane Leskela, Principal Analyst, Gartner Group.

According to Subhash Dhar, Head of Business Development for Infosys' eBusiness Practice, "Over the past several years Infosys has managed and delivered eBusiness programs for a number of dot-coms and leading global corporations in both the US and Europe. We look forward to bringing our expertise in New Economy business practices and processes to eBusinesses in Hong Kong and Asia Pacific. Some of Infosys' recent projects in designing e-Business and technology solutions have been for New Economy leaders including Amazon.com, Blue Martini, Cephren, Cisco, Dell Online (Japan), EC Cubed, preis24.com and SAPMarkets."

Vineet Toshniwal will manage the Hong Kong office.
