

## Infosys Among Top 20 Global Companies to Win the Most Admired Knowledge Enterprises (MAKE) Award 2010

*Recognized in the Global, Asian and Indian categories for 2010*

**Bangalore, India December 13, 2010:** Infosys Technologies has been recognized as a winner of the prestigious Global, Asian and Indian Most Admired Knowledge Enterprises (MAKE) Awards for 2010, by Teleos in association with The KNOW Network. The 2010 MAKE Panels across the Global, Asian and Indian categories have recognized Infosys as a leader in creating a corporate knowledge-driven culture and a learning organization, and transforming enterprise knowledge into shareholder or stakeholder value.

This is the seventh year that Infosys has been ranked among the Global MAKE winners, eighth time that it has bagged the Asian MAKE Award and sixth time that it has won the Indian MAKE Award. Knowledge Management program at Infosys has played a central role in developing and sustaining a strong culture of knowledge exchange that addresses excellence in execution and client delight.

Acknowledging the award, Srikantan Moorthy, Senior Vice President and Group Head, Education & Research, Infosys Technologies, said, "We are delighted to be recognized again as a Global, Asian and Indian MAKE winner this year. Businesses today are operating in a dynamic environment where effective knowledge creation and dissemination increasingly defines market leadership. In line with this, Knowledge Management provides a significant thrust for Infosys to achieve its objective of offering best in class services and solutions to its clients across the world. We therefore consider these awards to be recognition of our commitment towards this objective."

A. Latha, Associate Vice President, Knowledge Management Group, Infosys Technologies, said, "Infosys is constantly working towards surpassing the expectations of clients as we support them in achieving their business objectives. Recognitions such as MAKE awards strengthen our resolve to relentlessly sustain and fuel vibrant knowledge sharing by deploying state of the art Knowledge Management solutions and engaging employees in creating value for their clients. In the years to come, our primary focus will be on further developing and sustaining the culture of Knowledge Management at Infosys to enable it to meet the challenge posed by changing technologies, markets and employee aspirations."

### **About Teleos**

Teleos, an independent knowledge management and intellectual capital research company, administers the Most Admired Knowledge Enterprises (MAKE) program. The KNOW Network - <http://www.knowledgebusiness.com> - is a Web-based global community of organizations dedicated to networking, benchmarking and sharing best knowledge practices leading to superior business performance. The MAKE research program consists of the annual Global MAKE study - the international benchmark for best practice knowledge organizations. In addition, MAKE studies are conducted to identify leading knowledge-driven organizations at the regional/national level, such as in Asia, Europe, India, Indonesia, Japan and North America.
