

Infosys BPO awarded 5-Star Rating by Bureau of Energy Efficiency (BEE)

5-star rating signifies being the most energy efficient

Bangalore, India - May 13, 2010: Infosys BPO, the business process outsourcing subsidiary of Infosys Technologies, today announced that it has been awarded the 5-star rating for energy efficiency by Bureau of Energy Efficiency (BEE) for its building located in its Phase 2 campus in Hinjewadi, Pune, India. The rating is under the “*Star rating for BPO buildings*” scheme of BEE that rates office buildings in India from which BPO services are rendered on a scale of 1 to 5 stars, where a 5-star rating signifies being the most energy efficient. The rating is valid for a period of 5 years.

The eligibility criteria included the overall energy usage efficiency and minimization of operation costs of the BPO building. The 5-star rating was an outcome of using higher efficiency products that enabled reduction in the energy consumption in the building. The building spans a total area of 25,577 square metres and the annual energy consumption is approximately 2406199 kWh.

Commenting on the rating, (Swami) Swaminathan, CEO & MD, Infosys BPO, said, “We are delighted to have received this prestigious rating. Obtaining the BEE 5-star rating highlights our commitment towards energy efficiency. We continue to focus on designing world-class green buildings with energy efficient designs, using solar heaters as well as efficient lighting systems. We are also focused on educating our employees to optimize energy consumption by shutting down computers and other electrical devices when not in use. We believe that these small steps can help address the larger concerns in India.”

The Bureau of Energy Efficiency is a statutory body at the national level and functions under the Ministry of Power, Government of India. The organization has launched the “*Star rating for BPO buildings*” scheme to recognize energy conservation and efficiency of office buildings.
