

Infosys Expands Partnership with Microsoft to Accelerate Adoption of Cloud and Analytics Offerings

Infosys to set up center of excellence for Microsoft Azure Machine Learning

Bangalore - September 18, 2014: Infosys today announced the expansion of their decade-long partnership with Microsoft Corp. to help enterprises transform their business and tap opportunities in a cloud-first, mobile-first world. As one of Microsoft's leading systems integration partners globally, Infosys has thousands of Microsoft Certified Professionals. It will now expand its capabilities for analytics and other service offerings on Microsoft technologies. Infosys will also establish a global center of excellence for Microsoft Azure Machine Learning capable of training more than 1,000 engineers by the end of fiscal year 2015.

Partnership highlights:

- As one of Microsoft's first partners, Infosys has built deep expertise in Microsoft Azure. Infosys will continue to use its expertise to help enterprises more-securely expedite their movement to Azure and hybrid cloud environments while optimizing their cloud investments
- Infosys will build a broad range of predictive analytics offerings using Microsoft Azure Machine Learning to help enterprises adopt and use advanced analytic tools and algorithms. This will help enterprises harness the power of Microsoft Azure Machine Learning and Microsoft Power BI to realize more value from their data. They can also rapidly deploy systems in production and get to market faster, improve forecasting, predict and prevent problems, and optimize their business
- Infosys will accelerate its efforts to design frameworks, tools and accelerators to improve end user productivity for the digital workforce on Microsoft cloud platforms. These platforms, including Microsoft Office 365 and Microsoft Dynamics CRM Online, complement Azure solutions

Quotes

Scott Guthrie, Executive Vice President, Cloud and Enterprise, Microsoft:

"Our mobile-first, cloud-first world provides a unique opportunity to help customers accelerate and transform their business. Working together, Infosys and Microsoft will bring the benefits of enterprise-grade cloud computing to customers with Microsoft Azure, Office 365 and Dynamics CRM Online."

Joseph Sirosh, Corporate Vice President, Machine Learning, Microsoft:

"In today's fast-paced world, enterprises can gain a significant competitive advantage through data and advanced analytics. Our expanded partnership with Infosys will deliver game-changing capabilities to our joint customers in the speed of delivery and deployment of analytics. It will allow businesses to unlock the incredible value in their data and build operational systems to reduce expenses, grow revenue, fine tune their business operations, and improve service to their end customers."

Ravi Kumar, Executive Vice President and Global Head, Alliances, Infosys:

"Software is changing the world and Microsoft is a longstanding partner in this revolution. Together we have transformed businesses and redefined the way enterprises use computing technologies. Now, our customers are asking us to help them tap the power of new opportunities in areas such as analytics and mobility as they set the course for their growth. Expanding our partnership at this crucial time will allow us to take the best of Microsoft technologies to help enterprises craft their strategies for a new era."

Vishnu Bhat, Senior Vice President and Global Head, Cloud Infosys:

“Our partnership with Microsoft will allow us to tap the versatility of the Microsoft Azure platform, including Azure Machine Learning and other services to offer enterprises simplified predictive modeling tools that turn data into insights. This collaboration offers enterprises easy access to an analytics platform without the need for big investments and extended time-to-market.”

Safe Harbor

Certain statements in this release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, and unauthorized use of our intellectual property and general economic conditions affecting our industry. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2014 and on Form 6-K for the quarter ended June 30, 2014. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. In addition, please note that the date of this press release is mentioned at the beginning of the release, and any forward-looking statements contained herein are based on assumptions that we believe to be reasonable as of this date. The company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the company unless it is required by law.
