

McCamish Systems, an Infosys BPO Company, Announces the New Release of PMACS® 8.1 (Producer Management and Compensation System)

Atlanta, GA – November 8, 2011 – McCamish Systems LLC, an Infosys BPO company specializing in insurance and retirement business process solutions, today announced a new release of PMACS® 8.1.

PMACS® 8.1 is now ready for deployment. The enhanced features include:

- Improved Mass Change Functionality
- Enhanced Accounting Journal Entry Functionality
- Improved Performance
- Regulatory Changes through Fall 2011

“While McCamish will continue its predominant focus on the life and annuity BPO business, PMACS®, which plays a critical role in our services, is also a world class product that has been licensed by several of the largest life insurance carriers in the United States,” said Gordon Beckham, President and CEO of McCamish Systems, an Infosys BPO company. “We will continue investing heavily in PMACS®, as evidenced by the release of PMACS® 8.1, while aggressively seeking to expand its reach as a product, both within and outside the life insurance industry.”

“Competition in life insurance has moved beyond product and into relationship management,” said Mike Fitzgerald, Senior Analyst, Celent. “Products that integrate producer management and commission payment are becoming table stakes in the fight to gain distributor loyalty and grow the business. The PMACS® platform should be included in reviews of insurance distribution management systems.”

About PMACS®

PMACS® is a single platform providing complete distribution management capabilities. PMACS® controls agent authority and compensation payments with unlimited hierarchy levels. The platform is flexible, multi-tiered and browser-based. It is scalable and data source independent—information can easily be retrieved from the relational database using available user interface or a variety of electronic data interface (EDI) options. The user-friendly application is programmed using the latest technology. Sales force management tools include producer maintenance, licensing, compensation, statements, and disbursement processing and reporting.
