

# ACCELERATE YOUR JOURNEY TO OCI

Infosys and Oracle help businesses transform into  
cloud-connected enterprises

Organizational resilience is the key to staying ahead of today's ever-increasing business volatility. Savvy enterprises know they need to lock in resilience by accelerating their cloud transformations. Infosys and Oracle meet this moment by combining Oracle cloud solutions and expertise with Infosys services integration and delivery acumen to accelerate your migration to Oracle Cloud—so you can get to market faster and manage change smoothly.

With a flexible overlay virtual network that's securely accessible from your on-premises network, Oracle Cloud Infrastructure (OCI) offers high-performance compute capabilities and storage capacity. Infosys helps you define, qualify, and quantify your Oracle Cloud transformation ambitions.

Together, Infosys and Oracle have the unmatched capability to quickly transform your organization into a resilient cloud-connected enterprise that delivers holistic experiences to your customers and builds responsive value chains across your ecosystem.

## Reimagine your business, accelerate outcomes, and improve operational efficiency

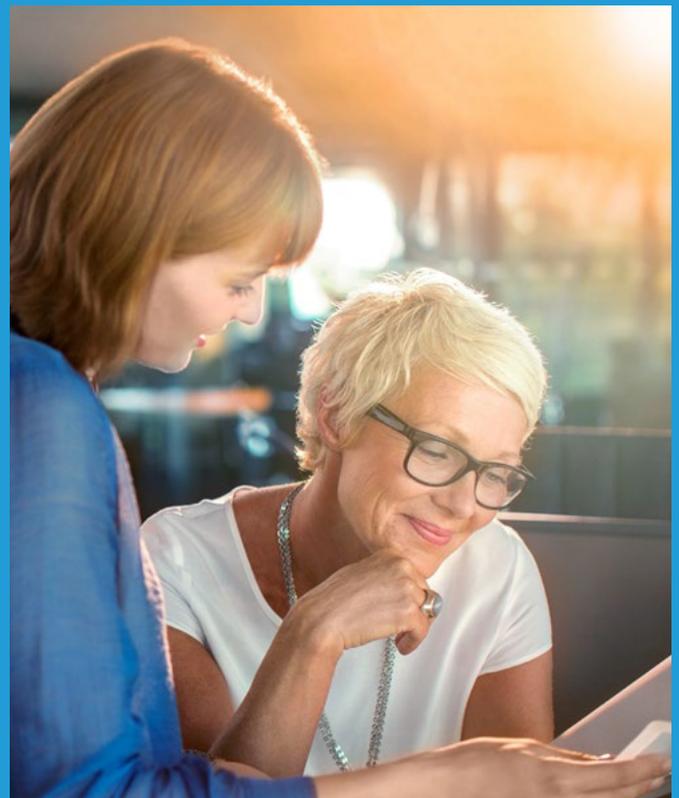

The Infosys solution for OCI is part of [Infosys Cobalt](#), a set of services, solutions, and platforms designed to help you expedite your cloud migration journey. With a cloud-first approach that focuses on defining transformation priorities and business cases to harmonize your processes, we help you visualize the benefits of migrating workloads to the cloud.

### **Reimagine your business as a cloud-connected enterprise.**

After moving your Oracle and non-Oracle workloads to OCI, the Infosys enterprise platform solution leverages the power of cloud connectivity to apply artificial intelligence (AI) and machine learning (ML) so you can ingest and act upon data in an ongoing cycle of continuous improvement. Instantaneous, data-driven insights power intuitive decision-making to bring greater value to everything you do.

**Drive business agility and sustainability.** Democratized innovation and intuitive decision-making increase resilience and accelerate outcomes. The Infosys-Oracle solution provides end-to-end support for enterprise transformation, with a special focus on change management, which is a challenge for many enterprises.

**Transform for the future.** We offer unique, fit-for-purpose solutions that meet your specific business needs today and in the future. Whether you're looking for a greater return on your investments through innovative business models or you want more flexibility in how you procure cloud services—or both—we supply everything you need to execute a successful cloud transformation, all in one place.

By upgrading and migrating approximately 600 Oracle databases to Oracle Cloud, Infosys helped one of the largest US-based banks:

boost operational performance  
**from 30% to 80%**

reduce total cost of ownership  
**by nearly 30%<sup>1</sup>**

## We help you transform for the future with the cloud

When your business is solidly in the cloud, you can connect better with customers, innovate business models, and become an agile enterprise. You'll be able to deliver holistic experiences to your customers and enhance the data-driven decision-making that drives business agility and sustainability. Infosys and Oracle make that transition simple, flexible, and cost-effective.

With OCI, you can leverage the full potential of the Oracle Cloud ecosystem—including platforms, accelerators, and intelligent tools—to modernize your infrastructure for security, scalability, and performance. You can also use real-time data and analytics insights to quicken outcomes, increase responsiveness, and redesign your enterprise to amplify innovation and accelerate speed to market.

Infosys Cobalt's domain knowledge, capabilities, and large community of innovators help address challenges and growth opportunities in today's rapidly changing business environment. With a large talent pool of experts that have more than 1,000 certifications on Oracle Cloud technology, Infosys supports our shared clients in end-to-end cloud transformation programs from assessment, migration strategy, and lift-and-shift to OCI.

Oracle is the only end-to-end cloud provider in the market that integrates all enterprise functions and capabilities into a single subscription model, minimizing investment in on-premises infrastructure. Infosys optimizes the running costs of applications and databases on OCI through innovative bundled contracts, preconfigured, out-of-the-box solutions, and a unique outcome-based pricing model.

## Are you ready to accelerate your cloud transformation?

With our finger on the pulse of client expectations, we shape our direction, investments, and offerings to be relevant and cutting-edge. Our exceptional digital growth, installed base conversion, and large multipillar cloud transformation deals are a testament to the way we have incrementally kept our offerings relevant. We can help accelerate your migration to OCI quickly, efficiently, and cost-effectively.
