1. General

1.1 Scope

1.1.1 Geographical scope

The BCR apply to Infosys Limited and all of its branches, entities and subsidiaries worldwide (together “**INFOSYS GROUP**”). INFOSYS GROUP, as well as all employees within INFOSYS GROUP must comply with the BCR. The BCR-C apply to all personal data transferred to INFOSYS GROUP members outside the EEA, and to onward transfers to other INFOSYS GROUP members outside the EEA.

The data importers and exporters in the EEA and outside the EEA are set out in [Appendix 2](#).

1.1.2 Material scope

The BCR apply to all personal data transferred directly or indirectly from an INFOSYS GROUP member in the EEA including Switzerland, acting as a controller, to a controller or processor within INFOSYS GROUP outside of the EEA as described in [Appendix 1](#), including any such personal data that originated from the EEA and is currently controlled by a member of INFOSYS GROUP outside the EEA. A general description of the data flows and the purposes of processing are set out in [Appendix 1](#).

1.2 Definitions

The terms for the purposes of these BCR are defined as follows:

BCR Lead: a supervisory authority, which will act as the lead authority for the BCR.

Competent Supervisory Authority: an independent public authority which is established by an EEA Member State pursuant to Article 51 GDPR and competent for the data exporter;

(Data) controller: the natural or legal person, public authority, agency or any other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of processing are determined by EEA Member State law or EU laws or regulations, the controller or the specific criteria for his nomination may be designated by EEA Member State law or EU law;

(Data) processor: a natural or legal person, public authority, agency or any other body which processes personal data on behalf of the controller;

(Data) exporter: an INFOSYS GROUP member acting as a controller or processor within the EEA who transfers personal data to an INFOSYS GROUP member in a third country;

(Data) importer: an INFOSYS GROUP member acting as controller or processor in a third country who receives or gets access to personal data transferred from a data exporter;

EEA: European Economic Area;

(Personal) data breach: a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorized disclosure of, or access to, personal data transmitted, stored or otherwise processed;

Employees: all individuals working under Infosys direction, including but not limited to managers, officers, trainees, interns, representatives and private entrepreneurs;

EU: European Union;

Personal data: any information relating to an identified or identifiable natural person (“**data subject**”); an identifiable person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person. Personal data has a broad meaning: all information that relates to living, identifiable, individuals (either directly or indirectly). This includes data that would identify a person (name, address, telephone number, date of birth, biometric records, Social Security Number, driving licence number, account data, employee PIN-number, access codes, login data, sex, income, health data, education data, financial circumstances and profession, including copies of such data and documents derived from such data.). It includes opinions about individuals as well as facts. Personal data can include information about employees and business contacts and is not confined to consumers or to a person’s personal (i.e. non-work) life either. Job title, office telephone number and professional details (for example) are also personal data. Data protection laws are also applicable if information is publicly available (e.g. on LinkedIn).

Processing: any operation or set of operations which is performed upon personal data or on sets of personal data, whether or not by automatic means, such as collection, recording, organization, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction. Processing also has a broad meaning: for example, it covers collection of data, holding and using data and destroying personal data;

Special categories of personal data: generally information about an individual’s physical or mental health or condition, racial or ethnic origin, political opinions, trade union membership, religious or philosophical beliefs and sexual life, although local laws may vary (for example in the UK, the commission or alleged commission of any criminal offence and criminal convictions are also special categories of personal data and in Poland special categories of personal data includes data relating to decisions issued in court or administrative hearings);

Supervisory Authority: an independent public authority which is established by an EEA Member State pursuant to Article 51 GDPR; and

Third party: any natural or legal person, public authority, agency or any other body other than the data subject, the controller, the processor and the persons who, under the direct authority of the controller or the processor, are authorized to process personal data.

The terms in these BCR are to be interpreted in accordance with the EU Directive 2002/58/EC and the GDPR.

These BCR will prevail wherever its scope overlaps with the Data Privacy Policy and the Corporate Privacy & Data Protection Manual. The INFOSYS GROUP Data Privacy Policy and the Corporate Privacy & Data Protection Manual are separate documents dealing with any personal data processing besides the scope of the BCR.

2. Data protection safeguards

2.1 Data protection principles

Basic data protection principles require that INFOSYS GROUP:

- only processes personal data for fair and lawful purposes;
- in accordance with additional restrictions for special categories of personal data;
- is transparent with people and tells them how it will use their information;
- informs the data subject about his/her right to lodge a complaint with the competent data protection authority at the place of his/her habitual residence, place of work or

place of alleged infringement or before the competent court of the respective EEA Member State – at the data subject’s choice at the data exporters location or at the place of data subject’s habitual residence;

- meets data quality obligations and holds personal data for a limited retention period;
- as a general rule minimises the amount of personal data it collects and processes, and chooses and structures its processing systems accordingly;
- as a general rule grants its staff access to personal data on a “need to know” basis only;
- implements appropriate security obligations to protect personal data;
- upholds individuals’ rights to access and correct their information and, to prevent certain types of processing; and
- only transfer personal data to other jurisdictions than their own when protections for personal data are in place as required by local law (e.g. European Operations only transfer personal data out of the EEA and Switzerland when protections for personal data are in place such as the standard contractual clauses provided by the EU Commission).

2.2 Lawfulness of processing of personal data

A description of the purposes for which the personal data are processed and transferred is set out in Appendix 1. INFOSYS GROUP may only process personal data for specific and legitimate purposes, fairly and in a transparent manner in relation to the data subject.

INFOSYS GROUP shall process personal data only based on the following grounds:

- The data subject has unambiguously given his or her consent; or
- The processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract; or
- The processing is necessary for compliance with a legal obligation to which the controller is subject; or
- The processing is necessary in order to protect the vital interests of the data subject or of another natural person; or
- The processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller; or
- The processing is necessary for the purposes of the legitimate interests pursued by the controller or by the third party or parties to whom the personal data are disclosed, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject.

2.3 Processing of special categories of personal data; processing of data relating to criminal convictions

a) Special categories of personal data

Special categories of personal data will be provided with additional safeguards, including as required with regard to the personal data concerned additional technical and organizational

measures such as qualified access restrictions and appropriate encryption measures. Processing of special categories of personal data is prohibited except if

- The data subject has given explicit consent to the processing of those personal data for one or more specified purposes, except where EU law or EEA Member State law prohibit it; or
- The processing is necessary for the purposes of carrying out its obligations and specific rights of the INFOSYS GROUP in the field of employment law in so far as it is authorized by EU law or EEA Member State law providing for adequate safeguards for the fundamental rights and the interests of the data subjects; or
- The processing is necessary to protect the vital interests of the data subject or of another person where the data subject is physically or legally incapable of giving consent; or
- The processing is carried out in the course of its legitimate activities with appropriate guarantees by a foundation, association or any other non-profit-seeking body with a political, philosophical, religious or trade-union aim and on condition that the processing relates solely to the members of the body or to persons who have regular contact with it in connection with its purposes and that the data are not disclosed to a third party without the consent of the data subjects; or
- The processing relates to special categories of personal data which are manifestly made public by the data subject; or
- The processing is necessary for the establishment, exercise or defence of legal claims or whenever courts are acting in their judicial capacity; or
- The processing of special categories of personal data is necessary for the purposes of preventive or occupational medicine, or the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatments or the management of health or social care systems and services, on the basis of EU law or EEA Member State law or pursuant to contract with a health professional and subject under EU law or EEA Member State law or rules established by national competent bodies to the obligation of professional secrecy or by another person also subject to an equivalent obligation of secrecy.

Other specific categories of personal data may be subject to local data protection requirements provided by EEA Member State law.

b) Data relating to criminal convictions

Processing of data relating to criminal convictions and offences or related security measures may be carried out only under the control of official authority, or when the processing is authorized by EEA Member State law providing for appropriate safeguards for the rights and freedoms of data subjects.

2.4 Security and confidentiality

INFOSYS GROUP must implement appropriate administrative, technical, organizational and physical measures which are designed to implement data protection principles and to facilitate compliance with the requirements set up by the BCR in practice (data protection by design and by default). This requires appropriate IT and physical security and staff training and care in selection of third parties who process on behalf of INFOSYS GROUP personal data as processor or subprocessor according to a data processing agreement.

Taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the

rights and freedoms of natural persons, the INFOSYS GROUP and the processor shall implement appropriate technical and organizational measures to ensure a level of security appropriate to the risk. Personal data have to be processed in a manner that ensures appropriate security of the personal data, including protection against unauthorized or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organizational measures.

INFOSYS GROUP is obliged to enter into contracts with all internal and external contractors/processors which comprise all requirements of data processing agreements, including (a) processing the personal data only on documented instructions from the controller, including with regard to transfers of personal data to a third country or an international organization, unless required to do so by EU law or EEA Member State law to which the processor is subject; (b) ensuring that persons authorised to process the personal data have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality; (c) taking all required technical and organizational measures to ensure a level of security appropriate to the risk; (d) respecting the conditions for engaging another processor, namely prior specific or general written authorisation of the controller and ensuring the same data protections obligations set out between the controller and the processor are imposed on such other processor; (e) taking into account the nature of the processing, assisting the controller by appropriate technical and organizational measures, insofar as this is possible, for the fulfilment of the controller's obligation to respond to requests for exercising the data subject's rights; (f) notifying the INFOSYS GROUP member acting as a controller when the processor becomes aware of a data breach; (g) assisting the controller in ensuring compliance with its statutory obligations in regard to technical and organizational measures, notification of personal data breaches, data protection impact assessments (including prior consultation with the Competent Supervisory Authority, if and when where required under law); (h) at the choice of the controller, deleting or returning all the personal data to the controller after the end of the provision of services relating to processing, and deleting existing copies, unless EU law or EEA Member State law requires storage of the personal data; (i) making available to the controller all information necessary to demonstrate compliance with its obligations in respect of the data processing agreement and allowing for and contributing to audits, including inspections, conducted by the controller or another auditor mandated by the controller; and as well the duty to notify without undue delay any personal data breaches to Infosys Germany Holding GmbH, to the INFOSYS GROUP Global Data Privacy Officer ("**Global DPO**") and to data subjects where the personal data breach is likely to result in a high risk to their rights and freedoms. The list of information provided to data subjects should include the following information: (a) the name and contact details of the data protection officer or other contact point where more information can be obtained; (b) description of the likely consequences of the personal data breach; (c) description of the measures taken or proposed to be taken by the controller to address the personal data breach, including, where appropriate, measures to mitigate its possible adverse effects. Furthermore, any personal data breaches should be documented (comprising the facts relating to the personal data breach, its effects and the remedial action taken) and the documentation should be made available to the Competent Supervisory Authority on request. The Privacy Incidents Handling and Breach Management Process Policy according to [Appendix 3](#) applies.

2.5 **Restrictions on transfers and onward transfers to external processors and controllers**

INFOSYS GROUP may transfer data to external processors/controllers that are located outside of the EEA and which are not bound by the BCR, if the conditions for transfers laid down in Articles 44 to 46 GDPR are applied or in case a derogation according to Art. 49 GDPR applies.

INFOSYS GROUP ensures that all external data processors located inside the EEA or in countries that have been recognized by the EU Commission as ensuring an adequate level of protection are bound by a written agreement stipulating that the processor shall act only on instructions from INFOSYS GROUP and shall be responsible for the implementation of adequate security and confidentiality measures.

2.6 Rights of individuals

INFOSYS GROUP will always honor rights of individuals:

- to access information relating to them; every data subject has the right to obtain a copy of all data relating to them that are processed; INFOSYS GROUP shall provide the information free of charge, unless the request is manifestly unfounded or excessive, in which case INFOSYS GROUP may charge a reasonable fee;
- the right to request from INFOSYS GROUP access to and rectification or erasure of personal data or restriction of processing concerning the data subject or to object to the processing;
- to object, on request and free of charge, to direct marketing to them;
- to prevent certain other types of processing in special situations; every data subject has the right to object, at any time, to the processing of their personal data. INFOSYS GROUP shall cease the processing of such personal data, unless INFOSYS GROUP demonstrates compelling legitimate grounds for the processing which override the interest, rights and freedoms of the data subject or for the establishment, exercise or defense of legal claims; and
- right to object to the use of entirely automated decisions, including profiling, to take decisions about them which produces legal effects concerning them or similarly affects them. No evaluation of or decision about the data subject which significantly affects to them in the above-mentioned manner will be based solely on automated processing of their data unless that decision: (i) is taken in the course of the entering into or performance of a contract, provided the request for the entering into or the performance of the contract, lodged by the data subject, has been satisfied or that it is based on data subject's explicit consent; or (ii) is authorized by a law which also lays down measures to safeguard the data subject's rights and freedoms and legitimate interests.

3. Third party beneficiary rights

The BCR grant rights to data subjects to enforce the rules as third-party beneficiaries. The Data Subjects are in particular entitled to enforce the following elements of the BCR:

- Data protection principles
- Lawfulness of processing of personal data
- Security and personal data breach notifications
- Restrictions on onward transfers
- Transparency and easy access to BCR
- Rights of information, access, rectification, erasure, restriction, objection to processing, right not to be subject to decisions based solely on automated processing, including profiling
- Obligations in case of local laws and practices affecting compliance with the BCR and in case of government access requests
- Right to complain through the internal complaint mechanism of INFOSYS GROUP
- Cooperation duties with Supervisory Authorities

- Liability and jurisdiction provisions
- Duty to inform the data subjects about any update of the BCR and the list of BCR members

The data subjects can choose to lodge complaints:

- In the jurisdiction of the data exporter located in the EU; or
- In the jurisdiction of the EEA member with delegated responsibilities; or
- Before the Competent Supervisory Authority (choice between the Supervisory Authority in the EEA Member State of his/her habitual residence, place of work or place of the alleged infringement); or
- Before the competent court of the EEA Member States (choice for the data subject to act before the courts where INFOSYS GROUP has an establishment or where the data subject has his or her habitual residence).

The data subjects have the right to judicial remedies and the right to obtain redress and, where appropriate, compensation in case of any breach of one of the enforceable elements of the BCR as enumerated above.

The INFOSYS GROUP members accept that data subjects may be represented by a not-for-profit body, organisation or association under the conditions set out in Article 80(1) GDPR (see Articles 77 – 82 GDPR).

These rights do not extend to those elements of the BCR pertaining to internal mechanisms implemented within entities such as detail of training, audit programmes, compliance network, and mechanism for updating of the rules.

4. Internal complaint mechanisms

INFOSYS GROUP has put in place a complaint handling process where any data subject may complain that any member of INFOSYS GROUP is not complying with the BCR. Data subjects can bring complaints regarding non-compliance of INFOSYS GROUP member with the BCR in writing by contacting the local DPO (if appointed) or the Global DPO (e-mail: privacy@infosys.com). The Global DPO can be contacted under the following number: +91 80 2852 0261. The contact address is: Data Privacy Office, Infosys Limited, Electronics City, Hosur Road, Bangalore 560 100, India. The local DPO will forward complaints to the Global DPO. Employees of the INFOSYS GROUP may complain that any member of INFOSYS GROUP is not complying with the BCR by using the respective internal ticketing system.

The Global DPO will acknowledge receipt of a complaint, as submitted either by the data subjects concerned directly or as forwarded by the local DPO, to the data subject concerned within ten working days, investigating and making a substantive response within one month. If the complaint is considered as justified, Infosys will take the appropriate action to ensure compliance with the BCR.

If, due to the complexity of the complaint and number of the requests, a substantive response cannot be given within this period, the Global DPO will advise the complainant accordingly and provide a reasonable estimate for the timescale within which a response will be provided, which shall not exceed three months from the date the complaint was brought. The data subject will be informed on the extension of the response time within 1 month of the receipt of the complaint.

Data subjects whose personal data are collected and/or processed and in accordance with European data protection law have the right to complain to a Competent Supervisory Authority

and/or to lodge a complaint with a court of competent jurisdiction. This includes cases of rejection of complaints or cases where they are not satisfied with the way in which the complaint relating to the BCR has been resolved. Data subjects entitled to such rights will be notified accordingly as part of the complaints handling process. The INFOSYS GROUP member(s) subject to the complaint shall follow-through without undue delay with any remedial action as required to alleviate the complaint, where the Competent Supervisory Authority or a court of competent jurisdiction considers the complaint as justified.

5. Liability

Infosys Germany Holding GmbH accepts responsibility for and agrees (i) to take the necessary action to remedy the acts of other INFOSYS GROUP members outside of the EEA and (ii) to pay compensation for any material or non-material damages resulting from the breach of the BCR by the INFOSYS GROUP members.

If a member of INFOSYS GROUP outside the EEA violates the BCR, the courts or other competent authorities in the EEA will have jurisdiction and the data subject will have the rights and remedies against Infosys Germany Holding GmbH as if the breach had been caused by them in the EEA Member State in which they are based instead of the member of INFOSYS GROUP outside the EEA.

The burden of proof stays with Infosys Germany Holding GmbH to demonstrate that the INFOSYS GROUP member outside the EEA is not liable for the breach resulting in the damages claimed by the data subject.

If Infosys Germany Holding GmbH can prove that the INFOSYS GROUP member outside the EEA is not liable for the breach, it may discharge itself from any responsibility.

Appendix 3 – Data breach management

INFOSYS GROUP has adopted a Privacy Incident Handling and Breach Management Process Policy that stipulates the internal processes for handling data breaches and similar incidents (i.e. any event that is an infringement or contravention of data privacy regulations). While the focus is to prevent data breaches and incidents, any data breach when reported, whether materialised or potential, will be investigated by INFOSYS GROUP Data Privacy Office, with help of other functions, as required, such as Computers & Communications Department, Information Systems Department, Human Resources Department (“**HR**”), Information Security Group (“**ISG**”) or Legal Department (“**Legal**”), and appropriate corrective & preventive actions where applicable will be instituted.

The INFOSYS GROUP member acting as data exporter will notify a personal data breach without undue delay, and, where possible, not later than 72 hours after becoming aware of the personal data breach to the Competent Supervisory Authority, unless the personal data breach is unlikely to result in a risk to the rights and freedoms of natural persons. The INFOSYS GROUP member acting as data exporter will notify a personal data breach without undue delay to data subjects, where the personal data breach is likely to result in a high risk to their rights and freedoms.

The INFOSYS GROUP member acting as a processor will notify the INFOSYS GROUP member acting as a controller if it becomes aware of a data breach.

Any incidents pertaining to data privacy shall be brought to the attention of the INFOSYS GROUP Data Privacy Office.

The data breaches are detected and/or can be reported, in particular, by raising a ticket (i.e. via internal systems) or via e-mail to privacy@infosys.com.
