Agile has spread beyond IT

We found that doing Agile well leads to increased business growth and better business and IT outcomes. In fact, there’s a 35% chance of growth ahead of peers using a seven-lever Agile approach.

These are: Customer insights | Customer-centric teams | Collaboration across boundaries | Self-organized teams | Upskilling | Agile workspaces with open layouts | Go remote

We surveyed 1,000 business and IT executives

07 Industries and countries

Agile has spread beyond IT

We found that doing Agile well leads to increased business growth and better business and IT outcomes.

However

If performance could be better, with organizational culture as a top concern.

IT investments in product management and DevSecOps will also help in the future!

When it comes to Manufacturing

Firms showed high Agile capability and very good business performance.

With a higher than average number of Sprinters – young Agile firms with high Agile adoption.

Industry comparisons

Agile index versus business success

Manufacturing

All Industries

To do even better and sprint ahead of the competition, firms in Manufacturing should:

1. Use customer insights to strengthen customer journeys
2. Focus on value streams and products
3. Invest in upskilling, set up self-organized teams and go remote

And when it comes to:

Manufacturing

All Industries

Based on the survey

• We found four Agile Archetypes
• With Sprinters ahead of all, in our Agile Index
